HARRINGTON FIELD NOTES

The Papers of John Peabody Harrington in the Smithsonian Institution, 1907-1957. Volume Two. A Guide to the Field Notes: Native American History, Language, and Culture of Northern and Central California. Edited by Elaine L. Mills.

Harrington's Field Notes on microfilm 2411, Humboldt State University Library. [Harrington was in the Somes Bar/Salmon River area in the spring of 1926. Informants interviewed by Harrington included, among others, Ben Donahue, Jennie Donahue, Sylvester Donahue, Fritz Hanson, and Phoebe Maddux. They were Karuk (Katimin) informants. Phoebe Maddux went to the Smithsonian in 1929 for several months to work with Harrington. Phoebe and Jennie Donahue were full sisters. The following refer to reel and frame numbers, i.e., reel 8, frame (page) 520.]

Reel 6: Karok/Shasta/Konomihu, vocabulary; Informants: Ben and Sylvester Donahue, Fritz Hanson, Phoebe Maddux, spring 1926.

6:615 Fritz and Sylvester, April 8, 1926. The salmon eggs laid in the river drift back into the ocean and the young salmon hatch in the ocean and stay in the ocean seven years or so and then come up river again when full grown. All this the scientists say. Indians never see young salmon. Fritz agrees to this that Indians never see young. If a salmon gets old, its tail gets white and later he gets white all over and dies if he cannot get back into salt water. That is why there are so many dead salmon along the river. They stay till they get spawned out and are too far gone to get back into the ocean. [more, difficult to tell when it is an informant talking and when Harrington is providing research info]

8:78 Ned's dead wife was Phoebe's mother's relation; means she belonged to the dead trees.

8:87 Information from Jenny Donahue regarding basket making; more on following pages.

8:172 ...it is braided around the top. This is one work that informant's mother taught her that she...not catch on. Jennie Donahue knows how.

8:198 Harrington has list of Karuk baskets loaned to Smithsonian Museum, including Mrs. Haynes Bateman, oblong table plaque with porcupine quill work on it. Baskets from Mary Ike, Jenny Donahue, Phoebe Maddux, Ben Donahue, Hickox, Henry Pete, Jenny Martin, Snappy, Shan's wife, Ella Pierce, Bessie McNeil, and Yoss. [next portion of reel about baskets making]

Next portion of reel about baskets with design, materials, making, etc.

8:416 Philip tells me that there were about five sweathouses on the Katimin side of the river and at least three on the....side. Philip says there used to be a shinny ground on a flat that was below the present Katimin...sweat[house] and the river—the river has eaten the whole flat away there and also much of the flat that was riverward of [Ind.]. Philip says that an old family house site i.e. a house pit is called []. There are many of these house pits ...Sugarloaf [illegible] of Donahue's house and also up slope of Donahue's house. Philip says he has at his house at the Forks a doctor's belt made of [illegible] on Indian string, quite wide, also a long pestle.

8:444 Notes made from Fritz, Sylvester and Hackett at Sylvester's house on the afternoon of Tuesday Mar. 16, 1926. Sylvester and Fritz took us on a tour of the sweathouse and sacred places at close of the afternoon.

[] "under the bank" quarter mile upslope from highway opposite Donahue's house. [] upriver from Donahue's on south side of river 1.5 mile south of highway.

8:449 Afternoon Saturday Mar. 27 with Ben Donahue and George Bayley. we visited [number of places, Ind. words]

8:453 Ben's account of "shooting match."

8:455 Ben's cousin Andrew Shanks was shot through window at a dance at Essex; it was [] girl affair.

8:462 Trip with Fritz and Sylvester afternoon Tues. Mar. 30, 1926 to visit [] and back to Katimin; mentions Langford's field, Ernest Conrad's clearing, and Jerome Conrad's clearing.

8:466 Sylvester interpreting for Fritz

8:520 Phoebe Maddux, Salmon River Places, Washington, spring 1929.

8:523 [] the bluff on the far side of the river straight across from Langford's house. The big rock in the middle of the river is called [] that is where Belle got drowned and Jenny Donahue got out on that big rock. They had to throw ropes to her to get her off that rock. Informant went to see her in the evening at Katimin in informant's mother's house and she was just like dead. She was so yellow because she lost that little girl.

8:534 Phoebe talking about bad place that Indians were afraid of. This is straight across river from Jenny Donahue's house.

8:536 Phoebe [] graveyard. Sylvester Donahue's wife and children are buried at this place.

8:573 [Ind.] across the river from Nordheimer's. Name of a bluff across from Nordheimer's. Sylvester Donahue used to live there winters and his wife panned gold in the river there while Sylvester hunted deer for the children.

9:25 Mrs. Donahue, Ben interpreting. Mrs. Donahue says they dance the war dance after they have had a fight.

9:123 Donahue [white man] was living at Olfield's place and was working making a barn (it has since fallen down) at Abel's place by Katimin and fell and smashed his leg and had it amputated at Hupa. Jennie, his wife, showed little concern. Sylvester and Jasper were 8 or 10 years old. Ben was not born yet.

9:170 All Jenny Donahue's children were brought up with Indian and talked it until they went to school. After that they never talked it.

BLA (21 Jan. 1899) Hoopa—A Mr. Donahue is now lying dangerously ill at the Hoopa School. Just before Christmas he came there to see the doctor and had a stroke of paralysis shortly after he arrived. Mr. Donahue is an old and respected '49 pioneer having crossed the plains with oxen in company with Sheriff Brown and family of Eureka. He is poor and helpless, but is being made as comfortable as possible by the school employees.

BLA (18 March 1899) Entirely Helpless--Mr. Berryman Lack, Jr. of Hoopa brought down this week Mr. Frank Donahue, an invalid, to be placed in the county hospital. Mr. Donahue, whose home is five miles beyond Somes Bar on the Salmon river, is an old pioneer, having come in early days with Sheriff Brown. Some three months ago he took sick and came to Hoopa for treatment. His health, however, did not seem to improve and to make matters worse he suffered an attack of paralysis, thus rendering him entirely helpless. Mr. Donahue has a large family and is an uncle of young Warren Leary of Korbel.

BLA (25 March 1899) Death of Frank Donahue--Mr. Frank Donahue died at the Humboldt County Hospital Wednesday morning. The gentleman was brought to that institution from Hoopa on the 12th instant by Berryman Lack, Jr. He had been in poor health for some time past and suffered a stroke of paralysis only a few weeks previous to his death, the effects of which hastened him to the grave. BLA (10 July 1915) Young Boy Fatally Shot—On Friday of last week, a fatal accident occurred at Somes Bar, when Roy Donahue, the 10-year-old son of Jasper Donahue, a rancher residing several miles above Somes Bar, was accidentally and fatally shot by Bessie Johnson, a half-breed woman.

It appears that young Donahue and several other children were playing on the river bar near the Donahue place when they discovered a rattlesnake. They ran to the nearest house and told Bessie Johnson, who ran to the spot with a rifle. She fired at the snake and the ball penetrated the reptile's side, but did not kill it. The children in their excitement had gathered about the woman. Suddenly she is said to have exclaimed to them to stand back, at the same time swinging the rifle around to prepare for another shot at the snake and also to warn the children. As the rifle was pointed toward young Donahue, the gun was accidentally discharged and the ball penetrated his side.

A telephone message was sent to Dr. H.B. Kyselka at Sawyer's Bar, informing him of the shooting and he at once decided that the wound was fatal. He is said to have informed the parents that it would be useless for him to make the 40 mile trip, as the boy would undoubtedly pass away before he could arrive. However, after receiving the wound, the lad lived several days.

BLA (23 Oct. 1915) Cream of County News--A large panther fell by the hunter's gun within a mile of the Weitchpec store one day last week. Phillip Donahue, while cutting wood upon the Klamath, heard a pig squealing. Getting his gun from the ranch, he went down on the bar, but found nothing till after dinner, when he crossed the river and found the dead hog. With Ed Week's dog the panther was trailed and treed within five minutes.

HT (22 March 1929) Former Weott Barber Slain in Siskiyou—Two men are dead and another is in the Siskiyou county jail charged with murder as the result of a shooting scrape at Somes Bar Sunday. The dead are Jasper Donahue, former Eureka, and Frank Bowersox. Both are half-breed Indians. Jack Davis, also a half-breed Indian, is being held for the double slayings. Davis told authorities that he shot Donahue and Bowersox in self defense. He said that he had to either shoot them or they would “get him.” Donahue was killed instantly and Bowersox died while being taken to Orleans for medical attention. Donahue formerly lived in Eureka and at one time conducted a barber shop at Weott. Records at the County jail show that Donahue was arrested at Weott in 1927 on a charge of bootlegging.

BLA (23 March 1929) Two Killed in Drunken Fight at Somes Bar; Jasper Donahue and Frank Bowersox Are Dead and Jack Davis in County Jail on Murder Charges at Yreka—News reached here from Orleans that last Sunday, March 17, Jasper Donahue and Frank Bowersox, well-known residents of that section, were killed by Jack Davis, half-breed Indian, as a result of a drunken brawl at Somes Bar.

According to reports, the two men, both quarter breed Indians, were shot at Somes Bar, Siskiyou County, one dying instantly and the other a few hours later. Jack Davis, a half-breed Indian, is being held in the Siskiyou County jail, after surrendering to the authorities Monday.

The kill, it was learned, was the outgrowth of a drunken brawl at the Davis home Sunday afternoon. The death shots were fired from a 25-35 sporting rifle, Donahue being shot through the heart and dying instantly and Bowersox being wounded mortally in the spine and having his right arm shot away.

Indicating a hand-to-hand conflict before the shooting, Davis and his wife both were badly bruised about the face, bearing the marks of a claw hammer used as a weapon. Davis surrendered to Yreka officers late Monday evening. In the investigating party were coroner King, district attorney Charles Johnson and two officers, all from Yreka.

Donahue's body was left lying where he was shot, but in the open. Bowersox was brought to Orleans where an attempt was made to treat his injuries. The victim died, however, in about two hours. A double burial was held Monday afternoon for the two victims.

Donahue, it was learned, was formerly a barber in Eureka and at Weott and is widely known in this section. He is survived by a wife and two children. Bowersox leaves a mother, one brother and two sisters.

Facing a charge of murder, Davis Wednesday was arraigned at Yreka before Judge Clifford E. Butler. It is indicated by Davis that he slew the pair, fearing they would get him. That it was a case of either me getting them first or they would get me, was Davis' contention, Yreka officials admitted.

He was arrested at Somes Bar by Constable Charles Ross. He is 65 years of age.

Donahue, it was learned in Eureka, was the man who discovered that Marion Rube was in the Klamath country last fall, which information led to widespread efforts to capture the fugitive. It was also stated at the office of the sheriff in Eureka that Donahue served time in the county jail in October 1927 on a charge of bootlegging brought at Weott.

BLA (17 Aug. 1929) Indian Woman Tells of Trip; Mrs. Phoebe Maddux of Orleans Back From Trip to Washington, Fieldbrook, Aug. 10--Mrs. Phoebe Maddux of Orleans is visiting here with her daughter, Mrs. Laurence Knudsen, having just returned from eleven months' stay in Washington, D.C. Mrs. Maddux is of the Karuk tribe of Indians, their ranches being located on the Klamath river. It was given them by right of treaty between the Karuk tribe and the government.

She is a woman of very pleasing personality. She told the writer of her work and trip to Washington. To really appreciate the story, one needs to meet Mrs. Maddux and have her tell it in her own pleasant way. Some of the little incidents that happened on her trip she very amusingly related.

While in Washington, she worked in the Smithsonian Institution, under John Harrington of Santa Barbara. Mr. Harrington is connected with the Bureau of Ethnology. He is collecting the old Indian legends, songs, and relics which they are preserving in the Smithsonian Institution. It was the duty of Mrs. Maddux to assist Mr. Harrington in

connecting these songs and legends as she is able to speak the old original Indian language. She said that it was very difficult to correct many of them, as a number of the original words of the Indian language had been forgotten by a great number of the Indians, because of their speaking the English language and their intermarrying with the English speaking people. She stated that around Orleans some of the white men would barricade their homes so that the children could not learn the language and it has become nearly extinct.

Then another hardship they met in correcting the legends and songs were that they did not have any written language. The words had to be spelled out by the sounds as they were spoken and sometimes they had to be repeated many times before they could be spelled.

In correcting the stories she would sometimes have to tell entire stories over because of their being so badly mixed with Indian and English language that it was impossible to correct them.

During her stay in Washington Mrs. Maddux went on a number of sightseeing trips, as she worked four hours in the afternoon and four in the evening, leaving her the forenoon to visit places of interest. One very interesting place she visited was the Mt. Vernon home of George Washington. In the living room was a large fireplace with wooden settees on either side....

Mrs. Maddux visited the White House and the house to which they carried President Lincoln after he had been shot. As a side trip, Mrs. Maddux went to New York. While there she made a number of phonograph records. One was the "Blue Jay Song," another was the "Deer Song."

She stated that to really enjoy or appreciate the Indian music, one needs to understand the language, stories and legends. As with each song is connected a legend or story or something that has happened to inspire them to sing. To anyone listening to the songs the words all sound alike, but Mrs. Maddux said a good many of the words are alike, but spoken with different expressions, giving them an entirely different meaning.

In New York, she visited the Statue of Liberty and also took a sightseeing trip on a bus. On her return trip, she spent three weeks among the Navajo Indians in New Mexico. During her stay there they had their corn dance, which she witnessed. Mrs. Maddux brought home several pieces of pottery and a number of rugs that were made by these Indians. The rugs are entirely made by the Indians from the spinning and dyeing of the wool....

She also spent a short time in Santa Barbara with Mr. Harrington's people. Mr. Harrington was called to Carmel-By-The-Sea to interview an Indian woman who is on her death bed. Upon his return they will work among Mrs. Maddux's own people on the Klamath.

Mrs. Maddux stated that although she was royally treated on her trip, she was glad to be back in Humboldt County.

Johnson had been a forest service packer and guide. He was last seen December 9 with two friends, William Hunter and John Ericksen. The three men went in different directions according to Coroner L.W. Wallace.

Reports from Yreka that Johnson had been struck over the head and was dead when the body was thrown into the river were disproved by the autopsy, Coroner Wallace said. The lungs were full of water and there were no signs of violence.

Johnson lived in a cabin near the river and it was believed he fell into the water in some way. Funeral services were held Tuesday and burial was held the next day at Orleans.
