# GRASS FLORAS, MANUALS, AND CHECKLISTS

Compiled by  
**James P. Smith, Jr.**  
**Professor Emeritus of Botany**  
**Department of Biological Sciences**  
**Humboldt State University**  
**Arcata, California**

**(Fifth Edition • 16 February 2017)**

The purpose of this compilation is to provide you with literature that will be helpful in the identification of grasses and in learning more about the diversity of the grass flora of a particular state, region, or country. I have included general treatments of the family, along with those that focus on ornamental and weedy species.

Several titles that appear below are now of historic interest only. They are intended to show how our knowledge of the grass flora has changed since the 19<sup>th</sup> century.
