Untitled

By Dante Landry

During quarantine I have been going on a lot of walks. I had a social distancing water balloon fight with my friend Ryan, and I got to go on a bike ride with my friend Rilee. I may even be getting a new dog soon and I got a new house, so my shelter in place has been going pretty well.

On Mother's Day I had a nice brunch with my Mom, my mom's boyfriend, and my grandparents. For brunch we had a frittata, fruit salad, and then we got a strawberry shortcake. After brunch we took a three mile bike ride down to a little river spot and we were building tall towers with rocks and it was really fun. After the fun, we got back on our bikes and rode three miles back to my grandparents' house. When we got there we went back to my mom's and played some board games. For dinner, we ordered food from the Sea grill. I got fish and chips, my mom got seafood manicotti, and my mom's boyfriend got a lobster.

The community has changed, because my mom has started to work from home and I have been doing school from home. When I'm bored I usually go hang out with Ryan, but now I can't so I have to figure out how to entertain myself. I usually just play with my little indoor basketball hoop, go outside to ride my bike, or play real basketball. I am getting a

new house but I couldn't go look at the inside because now only two people are allowed in at a time and you have to be eighteen to write your signature to go in the house.

To not get the coronavirus, I have been very careful by always washing my hands with warm water and soap. I also have been staying 6 ft away from all people and wiping boxes, packages, etc. with Clorox wipes every time I get something new. Shelter in place has been somewhat helpful to me because I have been learning new responsibilities like what I could do to help slow down the spread of the coronavirus, but it also has been sad because I haven't seen my dad very often. I am going to spend the whole day with him on Saturday so I am very excited.

To protect the community, I have been social distancing and washing my hands with warm water and soap. When I go to Target, it is not very crowded and there are only two people allowed in an aisle at one time. It is also kind of scary because everyone is wearing a mask and someone in the store could have the coronavirus. I have also been taking on new chores like helping put away groceries and wiping down remotes, door handles, and light switches with Clorox wipes. As you can see, my shelter in place has been going pretty well but hopefully it will be over soon so I can see my friends and have sleepovers.
