VOL. VIII

ARCATA, CALIFORNIA, WEDNESDAY, JANUARY 20, 1937

NUMBER 14

## Moore Appointed Coach of Jayvees

### Will Have Full Charge Of Basketball Team This Season

Francis Moore, well known Humboldt State senior, has been appointed coach of the Jayvee squad, Fred Telonicher, director of Mens Athletics, announced today. Moore will have complete charge of the J. Vs. both in coaching and arranging games for the team.

Moore, a physical Education major, has made an excellent record for himself in athletics since his enrollment at H. S. C. Four time letter man on the football squad, Varsity basketball man, and baseball star, he is well grounded in the pertinent training and coaching methods.

His work as J. V. Coach will be given full credit towards graduation. Under the expert supervision of Fred Telonicher he will receive valuable experience that otherwise he might have difficulty in obtaining. "I have given Moore complete control of the J. V. squad," Telonicher stated today. "I am confident he will produce a first class ball club."

When asked for a statement by the press, Francis said, "I feel that a great honor has been bestowed upon me. I look forward with keen anticipation to the coming season. I have several good games in mind for the boys. If I am able to produce one or two good varsity prospects I will be more than satisfied with the season's work. I'm grateful for the appointment, and the experience I will gain will be invaluable to me."

## Ambitious Coeds Hike To School

Nora Haapala and Hope Dondero, Humboldt freshmen are today the only known coeds in this year's generation to have walked the whole distance across the marsh from Eureka to Arcata. Last Friday morning at the crack of dawn they set out on their long trek. Through rain and drizzle, through mud and mud-puddles, the two adventurers plodded.

They were far out in no-man's land among the ducks and mudhens when the 8 o'clock busses passed them. Proffered rides they refused.

An hour later they appeared on the campus, wet, bedraggled, and limping. Asked about their safari, they answered: "I guess we'll make headlines."

### GAGS-OF-THE-WEEK

Jack Ellis (Eng 1B): "People in hot climates are not as smart as those born in the temperate zones."

Mr. Hicklin: "One would be inclined to believe that it is hot here."

## For the Benefit of Our College Patrons

We will remain open until 12 p. m. on Friday evenings

## Eureka Skating Rink OCCIDENTAL PAVILION

## 'Pop' Jenkins Tries Old Spinning Wheel

H. R. Jenkins, professor of industrial arts, is going in for spinning, members of the industrial education classes announce.

Mr. Jenkins has an old-fashioned spinning wheel out in the shop upon which he is attempting to spin wool. So far, he admits, his efforts at spinning have produced a fine brand of rope.

A model of this wheel will be made, Mr. Jenkins says, for the use of the industrial ed. classes. The members will then be able to execute every step in the making of cloth from raw wool, since the shop is already equipped with a battery of home-made looms.

## Scientist Predicts Insanity For All

"If the population of our penal and mental institutions continues to increase as fast as it has in the past, I predict that we will all be in one or the other in the next ten years," Dr. P. Victor Peterson, a member of the San Jose State faculty declared in a recent science seminar.

Lack of proper use of the 48 leisure hours a week the scientific age has brought about was blamed by the speaker for the condition.

Children of today have no proper instruction in the use of their spare time, Dr. Peterson continued. The correction of this condition lies in the hands of the Educational authorities. A properly directed outdoor program, under the guidance of competent instructors with a knowledge of extra-curricular activities, is our only salvation.

"The next ten years will see the greatest changes in education in any other period of history, and within the lifetime of many of us there will be an eight to six school day, six days a week, 12 months a year, for everyone between the ages of six and twenty-one," Dr. Peterson concluded.

## College Constitution Amendment Proposed

A petition to amend Article 2, Section 4, Paragraph 7, of the College Constitution, advocating a change in the publicity managers duties, was approved at a recent meeting of the Executive Council.

At present the Article reads: The Publicity Manager shall see that all news of school affairs and activities are properly published. He shall be responsible for advertising and ticket sales for all athletic contests!

Amended the Article will read: "The Publicity Manager shall see that all news of school affairs and activities shall be properly published."

Through this change the Publicity Manager would be relieved of all responsibility for the sale and distribution of tickets. A duty that clearly does not come under the read of publicity.

The proposed amendment will be presented for ratification at the next regular student body meeting.

A panel presentation of the Asilomar conference will be the feature of the "Y" meeting next Wednesday in the social unit. The meeting will last from 6:00 to 8:30 in the evening. There will be a dinner and a general discussion of any questions arising within the group. Every one is invited to come.

This semester's "Y" schedule is to be greatly revised, but at the present moment it is impossible to report any definite plans. Watch for information.

## Executive Council Appoints Officers

### Vacant Student Offices Filled By Madsen, Poulson, Susan

Appointments for vacant student body offices were made Monday at the regular meeting of the Executive Council, President Oden Hanson announced today.

Three offices, vice-president, secretary, and one Board of Control seat, were left vacant by the resignations of the incumbents.

The new officers are: vice-president, Bob Madsen; secretary, Francis Poulson; and Board of Control, Violet Susan.

Joe Daly, former vice-president, resigned to accept an S.R.A. post. Francis Poulson, secretary for the past semester, has accepted a position teaching at Crannell.

The appointments are to take effect immediately, President Hanson stated.

## Frosh Hear Talk On Social Conduct

"To be aware, and to be kind," were the two principles of social conduct stressed by Mrs. Gist in an informal talk to the freshman class Friday afternoon. "Armed with these two precepts," the speaker went on, "you will be just as much at ease in Buckingham Palace as in a tenement."

The most courteous races on the earth are the Chinese and the Japanese," she emphasized this statement by reading from Ann Lindbergh's "North to the Orient," details of the hospitable welcome tendered the Lindbergh's by the Japanese.

"People can be taught manners from babyhood, and yet it will still be only a thin veneer. Others, have it born in them to be courteous and considerate. One of the most polite men I ever met was a hobnob."

She concluded by mentioning the three ways that we may offend others: through the eyes, the ears, and the nose, and advocated that great care be taken to avoid any of these.

Mrs. Gist's talk proved interesting as well as beneficial to the freshmen.

## Baldwin Will Accept Engineering Position

Lyston Baldwin, prominent Humboldt State sophomore, today announced his intention of leaving school at the close of the semester to accept a position with A. Smith Mining Company of Milwaukee. Baldwin, a Mining Engineering student, will be located at one of the Smith firms' many mines in southern Colorado.

"The practical experience I will get there will be of more value to me than a year of school," Baldwin stated. "Furthermore, by having had the practical work, my studies will be of more value to me than otherwise."

Baldwin intends to remain with the mine until next fall at which time he plans to enter the Colorado School of Mines.

Dr. Lanphere recently announced that a course in photography will be given next semester. Anyone interested in the course may find it listed under 'science' on the program schedule.

## Sleuth Promises Arrest Of Door Knob Zilcher

Homer Randall, Superintendent of Buildings and Grounds, and Chief Bloodhound of the Shetland Yard Detective Agency says:

"The person, or persons, or both, who zilched the knob of the door in the women's locker room will be apprehended at the earliest possible moment. If, and when, and we shall, apprehend this, or these, unscrupulous fiend, or fiends, we shall ask the death penalty. Anyone who steals the only knob from the only door in the women's dressing room deserves death." Homer concluded by remarking cryptically, "Cherchez la femme."

## Gist Reports On Sacramento Trip

President Arthur A. Gist has just returned from Sacramento, where he attended the opening of the 1937 Legislative session. According to Mr. Gist, there are three major divisions in the Assembly. Namely, the E.P.I.C. block sponsored by Upton Sinclair, the more conservative Democrats and the Republicans. President Gist predicts that there will be no friction between these three groups and is confident that they will be more attentive to the needs of education than some of the preceding legislatures.

An innovation, planned to speed up the legislative machines, has been introduced this year. It is an electrical balloting machine. Previously the balloting was done by roll call, and the attendant noise and tumult severely retarded the voting. The new system, it is hoped, will dispense with this unfortunate condition.

In the front of the room is a huge board, containing the names of all the members of the Assembly. Beside each name are two small lights, one to indicate 'YES', the other to indicate 'NO'. On each members desk are two levers, marked YES and NO. When a measure is to be voted on, the Assemblyman has merely to pull the lever that is marked the way he wishes to vote. On the board, a light flashes on after his name indicating how he voted and at the same time it registers on an automatic tabulating machine on the secretaries desk.

With these facilities at hand, citizens can now fervently hope that their Assemblyman will not go to sleep at the controls.

## Schussman Will Talk On Mental Hygiene

Leo G. Schussman, Professor of Education and Psychology at Humboldt State College, will deliver a talk on the subject, "Mental Hygiene," before the Eureka Junior High School Parent Teachers Association at their regular meeting this week. The meeting will be held in the Eureka Junior High school Auditorium.

Mr. Schussman was recently elected president of the Redwood Empire Chapter No. 8 of the California State Employees Association at a meeting at the State Traffic Patrol office in Eureka.

Tuesday, January 19, Pi Theta Epsilon will hold a meeting from 12:15 to 1:00 in room 136. All formally initiated members and those who have been contacted concerning membership are requested to be there.

Rub-a-dub-dub—three men in a tub. Gosh darn these small town hotels!

## Madsen Proposes Campus Work Day

### Intends To Lead Drive To Beautify Campus On Labor Day

A work day for the whole campus sometime this coming spring is the objective just announced by Bob Madsen, who proposes to lead in this effort at establishing another tradition for Humboldt State.

"Students on other campuses have annual labor days for beautifying the school grounds," says Madsen, "so why can't we? There are many projects at Humboldt which can be completed in one day of concerted labor and whose completion would add much to the attractiveness of our college."

The planting of an arbor of redwood trees along the main road from the hiway to the college is the first goal named by Madsen. A donation of seedlings for this purpose could easily be arranged for, he believes. Actual planting of the trees would be done by men students, while it would be the duty of Humboldt's coeds to provide a noon lunch. After this luncheon, a short time-out could be taken for a dance in the little gym. Following this, the men would return to their work and complete their project.

As yet, no comment has been made on Madsen's proposal either by student officers or administrative officials.

## H. S. Graduates On Health Project

Lucille Winter and Hazel Christensen, graduates of Humboldt State College, were named on a project committee at a recent meeting of the Redwood Unit of the California Association of Health, Physical Education, and Recreation in the Eureka senior High School. The Committee's duty is to make a list of physical activities which are being taught in the Humboldt County high schools.

The list when completed will be sent to private physicians in hopes that the association may secure better cooperation between the schools and private physicians in advising students in their activity program.

The activities will be classified as light, moderate, strenuous, and restrictive.

Misses Winter and Christensen majored in physical education at Humboldt State College and are now physical education teachers in the Eureka Junior High and Ferndale high schools, respectively.

Mrs. Monica Hadley, associate professor of physical education at Humboldt State College, presided at the meeting.

## Lumberjack Will Award Xmas Prize This Week

Four Humboldt students will be \$2.50 richer this week for their contributions to the Lumberjack's Christmas edition. Awards will definitely be made to the prize winners this week, ex-editor Wood-en has announced.

Found on the Freshman's registration card: Names of parents; "Mama and Papa."

## An Explanation

In the front hall of Humboldt State College, just around the corner and to your right as you enter the building, is a good sized box on legs. There is a slot in the slightly sloping cover on the box. Now this contraption is not, as many may believe, a receptacle for chewing gum wrappers and thumb tacks, nor is it a stand upon which to leave binders and books while you dash to the parking lot, tennis courts, or to lunch.

This box, for the edification of approximately three hundred students, is called the Lumberjack Box. The Lumberjack is the paper you are now reading. In fact, it is YOUR paper! The box is intended to receive contributions for the Lumberjack. Every once in a while it actually does!

Everyone attending college is able to write. Students are sometimes aware of their actions and of those of others. Then, why, oh why, can't Humboldt State Students drop a few lines of authentic gossip, news, or anything printable into this box? Names need not be signed, so why not avail yourself of this opportunity and see that the Lumberjack prints something that will interest you.

## We're Careless

Students are careless. Yes, we all are. We shout and laugh boisterously in the halls. We clatter down the corridors as if no one mattered but ourselves. We yell and whistle under open class windows. We disturb teachers who are trying to lecture above the din we make. In fact, many of us make so much noise that it is difficult for others to study in the library. Oh yes, we are very careless. We know better; but we don't realize what we are doing until someone reminds us. Read Senior Student's contribution to Boil It In Oil.

## Hither and Yawn

We now present you an innovation—a new sort of column, the aim of which is to present an agreeable mixture of campus, local, and national student news, plus the peculiar mental vagaries of its proud papa, the columnist—Sorry, but I haven't got any seagars to pass around in celebration of this blessed event—besides, I want to give the girls a break if I am to give any at all, and I'm sure they wouldn't care for an El Ropo—My qualifications for undertaking this sort of job are these

—but who in heck cares for my qualifications? At present, the Lumberjack staff is terrifically overburdened with work, so that just anyone will do. So, gentle readers (I mean both of you), bear with me.

About the most outstanding events of the past few weeks in student affairs were the conventions of the National Student Federation of America (the organ of which—called the "Mirror"—has been on sale here at the college book-store) and the American Student Union, the more assertive and vigorous—or, as some would say, the more radical—of the two. Both of these organizations represent thousands of students who want to know what's what on democracy, fascism, war, and more concretely, student self-government, ROTC, NYA, etc. When we consider that one of these organizations, the Student Peace Strike last year, and aims this year to draw a million in, then we can sense their tremendous significance as social factors in the nation. Of late both organizations are coming nearer and nearer into unity—both, for example, are represented on the very broad United Student Peace Committee.

May we be so bold as to predict that little Humboldt State, perched atop a little hill, hitherto serenely indifferent in its backwoods to the issues that have rocked the nation's campuses, will rub its eyes in amazement and actually start going places? May we venture to say that Humboldt State will some day chase away the well-known Humboldt fog surrounding it?

Miss Margaret Simmons, soon to leave for a nursing career, was honored at a small monopoly party at the home of Miss Roberta Hood, Tuesday night.

Fred Hibler: "Haven't you heard?—It's all over town." Innocent classmate: "What?" F. H.: "The Sky."

## CAMPUS COMMENTATOR

Since the rainy season set in, Humboldt co-eds belonging to the bobbie-pln brigade or the curls chorus, have been haunting the campus, and we don't mean by their school spirit. Jupe Pluvius cares naught for the hours spent by the fair sex in creating the illusion of natural curls.

We are going to make a very subtle remark which only the McGrath clan will fathom. Several prominent college men have adhesive tape patches on the nether portion of their trousers. We suppose they think this will excuse late arrival at classes. For elucidation see John McGrath.

Famous last words:

Dr. Balabanis in Econ 1A, "A king falls in love with an American woman, and the rates of exchange begin fluttering up and down. So you see, it's a very thrilling subject."

Humblest apologies to Francis Givins for saying that the pig refused to associate with him last week. Any pig would be glad to associate with a fellow who makes 17 points in one basketball game. Don't you care what anyone says, Givvy, you just go ahead and associate with as many pigs as you like.

Phil, I-was-doped, Peacock was seen wandering around behind the college the other day. Rumor has it he fell asleep by a creek and he dreamed he was awake and when he woke up he was asleep.

There's a picture floating around school of Jimmy 'Lashes' Harris at the tender age of five holding a rag doll and weeping salty tears. Guess life started in early giving him dirty digs.

Bettie 'I-broke-my-New-Year's-resolution' McWhorter is humming a new theme song these days—"I'm Walshing my way along."

The bevy of beauties who followed the Nehi team to States gym last Thursday night suggested a fashion parade to the co-eds present. The fur coats probably came in handy after the 44-25 defeat to their heroes of the black and gold.

Now we close with the ever present brain twizzler. Sixteen rabbits are running down an alley. What time is it?

Visitor to girls Dorm: "I see the mistletoe is still up in the So-Dorm Girl: "Yes, we're still hopeful."

## NOTES FROM OTHER CAMPI

San Jose—Nine members of the San Jose State College student body were selected last Friday to appear on the State-wide California Hour program, presented every Sunday evening, from studios in Los Angeles.

The winning group comprised the Musketeers, male quartet; the Woodwind Trio; Miss Bruce Wilbur, contralto soloist; and Joe Rapose, campus crooner.

The group was selected by Mr. F. Jones, talent scout for the program, from a large and talented list of contestants.

The winners left for Los Angeles Friday evening and appeared on last Sunday's program.

Santa Rosa—Members of the Santa Rosa J. C. Football team showed their adaptability at basketball, when they dumped the faculty, 20-15, in a hair-raising game, held recently.

Despite the superior playing of their younger opponents, the Cap and Gowners made a fight of it. Age, and soft living took its toll and before the close of the game most of the male members of the faculty had been called upon to play.

## Dormitory Women Meet To Plan Constitution

Women residents of Sunset Hall met last Wednesday evening to discuss drawing up a constitution. Evelynne Rhea presided.

Miss Ballew, head resident, was present and explained the importance of having a constitution. The women decided to have a cabinet composed of House officers draw up a constitution. Members of the cabinet which began work last Monday evening are: Evelynne Rhea, Doris Martin, Lydia Biasca, Helen Dettelson, Margery Brenner, Billie Gott, Rosemarianne Flowers, and Jayn Harville.

## Question:

Name the cleverest new idea in Sweaters that's already "tops" in campus popularity!

## Answer:

Daly's has it . . . TYRO-amusing little things . . . and unusually colorful. Boleros . . . vests and sweater sets. LIAN SWEATERS . . .

Tyrolia

## Tip Offs By Toni

What's in a name? Pullentee! A rose by any other name might smell as sweet, but how does this sound, "The bride carried a flowing bouquet of talisman onions?" Not so good is it? So you see Names do count.

What about your name? Does it fit you? Does it express your sparkling personality or are you limping through life burdened with a nom de plume like Lizzie Glutz?

Look around you and what do you see? People with names too good for them. People too good for their names. And where do you come in?

People who fit their names: President Arthur S. Gist, Babe Ruth, Mahatma Gandhi, Kay Wrigley, Mickey Mouse, Kenny Samuelson, Merle Morton, and Barbara Harville.

Can you see that: Carl Owen's name should be either Don or Ted; Robert Poultny's — Lawrence; Homer Arnold's — Chester; Miss Adella Johnson's — Emily; Frank Steele should be Calvin, (I'm sorry, Calvin, but it's true), Nora Haapala never should have been anything but Peggy; Mrs. Elma Folsom should be Katherine and Kay when a girl; Ida Mae Inskip makes a perfect Gloria; Viola Stansberry should be Bobby; and Wesley Wooden, is a natural Andy?

And now you're probably all in a dither to know what your name should be. If you catch me, I'll tell you.

## State Hoopsters

### Meet S. F. Friday

Humboldt State Hoopsters, faced with three difficult games are working hard to get whipped into shape for the coming week. Tonight the Lumberjacks meet the newly organized Ferndale Independants in the Ferndale gym and Friday and Saturday night they act as hosts to the powerful Golden Gaters from San Francisco State College, in the College gym.

Tonight's game shows every sign of being a difficult one for Humboldt State. The Ferndale Independent squad is composed of former high school and college stars, recruited from the southern part of the county. From their showing against the Roamers Saturday night, the Independants are a fast smooth working squad. They have three full teams, each notable for one particular style of play. Size speed and versatility are stressed by the Independants with each separate team outstanding in one of these features.

Friday and Saturday nights games with San Francisco State are also going to give Humboldt's Lumberjacks some tough going. Out of nine starts S. F. State has scored eight wins, including one win over the powerful Chico State five. Besides they have met some of the fastest squads in the Bay Area.

In a statement to the press, Coach Telonicher said that the Varsity is eagerly anticipating the coming games and hopes to make three straight wins out of them.

"However", Telonicher continued, "the Varsity needs the full support of the student body, and in view of the fact that no admission is charged students there is no reason why the stands can't be filled with rooters. An entertaining program is being arranged for half

## HOOPS AND HARDWOOD

Paul Hunter, the only member of the basketball squad who has earned two letters, is the bane of the basketeers. An ardent exponent of the Nat Holman school, Paul believes that a good dribble is the best offensive weapon in basketball. So Paul dribbles. Most dribblers, however, dribble around defensive players. Not Paul. The shortest distance between two points is a straight line, says Paul. So through and over the defensive men goes our two letter man. But, fine sport that he is, he shows no partiality. His own team-mates are subjected to the same body beating the opponents must absorb. "If they can't take it, let them get out of the way," challenges "I-make-points"—Hunter. So, evening after evening, undeterred by opponents, team-mates, coach Telonicher, the benches along the sidelines, the last black line, yea, even the very walls, Paul dribbles onward and onward to new fields of glory.

The outstanding man on the court the nite of the Nehi game was little Zeke Sanderson. Altho he did not score many points (only 11) his masterful ball handling and fine defensive work were largely

In the last half of the Jayvee—Seely-Titlow contest with the score 14 to 7 in their favor, the captain asked how much time the Jayvee's took out. Nine minutes. "Okay, fellows, nine minutes to go. Let's score a bucket a minute. Eighteen points more before we leave the floor." They scored twenty-one points.

responsible for the Humboldt victory. He held Bunny Hadley (leading scorer of the league last year) to a measley five points. A few months ago Stan Colwell (head man and main cog of the free wheeling Intra-Mural All-Stars of last season) was heard to say: "Zeke Sanderson is the best guard in the county. You may quote me."

It looks as if Stan were right. Bunny "Mid-Summers Night's Dream" Hadley threatens to steal Jimmy Moore's thunder as the best actor on the basketball court. Bunny's recent exhibition of foul-stealing rivaled that of our own Jimmy "Get-me-Cornell-for-leading-lady" Moore. At their next meeting on the court the boys promise to do the grave digging scene from Hamlet.

### H. S. Jayvees Meet Ferndale Heavies

The Humboldt State Jayvee squad meets the strong Ferndale Heavyweights tonight in the Cream City gym, in the opening game of a fast double bill. Franny Moore, Jayvee mentor, announced today. This game marks the beginning of a hard weeks schedule, in which the J. V.s meet the Hollander Sparklers and the Arcata High Heavyweights, Friday and Saturday nights, respectively.

"The boys are working hard for the coming games," Moore reported. "They are improving rapidly, and the rough spots will soon be smoothed over. The Ferndale squad has had a good season so far and will provide the Jayvees with an interesting evening.

I'm looking forward to a successful season, Moore stated, I have the nucleus for a splendid squad, and while I don't intend to build a definite team, I hope to develop some good Varsity material.

The new J. V. Coach has an ambitious schedule in mind for his squad. During the coming season he hopes to arrange games with the Eureka and Fortuna Heavyweight squads, the new De Molay team, and with members of the Independent League.

The starting lineup will be selected from the following players: Forwards, A. Sandretto, E. Goodwin, R. Carrol, and G. Endert. Center, J. McGrath. Guards: B. Villa, A. Durdan, E. Graves and M. Roberts.

### H. S. Track Trials Start In Feb.

Track workouts at Humboldt State are scheduled to begin February 18, according to an announcement made today by Bob Madsen, recently appointed track manager.

It has been reported that Johnny Wall, former Olympic track star will enroll at Humboldt State this semester. In the eventuality that the report proves true, it is hoped that he will accept the position of coach for the track team.

Time trials will be held about March 5. Practice workouts with county high schools teams are scheduled for the latter part of April. There are possibilities for meets with Southern Oregon Normal and Marin Junior College. Madsen hopes to be able to enter one or two fast relay teams in the annual Eureka Relays, to be held in the early part of the summer.

Handsone young professor of Romance Languages: "Very good, but why do you use the intimate form of the verb in the translation of that sentence?"

Attractive Co-ed (pouting): "Well—I thought after last night—"

## Golden Gaters

### Squad Speedy

A speedy pair of forwards, a towering center, and two husky guards will take the floor for San Francisco State this Friday evening when the invading team tangles with Coach Fred Telonicher's Humboldt quintet in the opening fray of the annual two-game series between the rival squads.

The S. F. forwards are quite small, both Bill Hammond and Kenny Wilkes, slated starters, tipping the beams at 145 pounds. Wilkes, at 5 feet and 9 inches, is 2 inches taller than his running mate. Both are fleet of foot and clever ball handlers.

Despite no previous varsity experience, they have developed rapidly this year. Wilkes has averaged 12 points a game so far this year with Hammond usually good for 7 or 8 tallies.

Giant Cy Atkinson, playing his fourth year at center for the Golden Gaters, is the chief offensive threat of the visitors. He is consistent in scoring from 10 to 16 points per game and is in invaluable cog in the fast breaking offense of the Gaters.

Guards are Bill Plute and Ken Johnson. Plute rivals Atkinson in size, towering 6 feet and 3 inches into the atmosphere and weighing a substantial 220 pounds. Johnson is an even six feet and weighs 175 pounds. Plute is a veteran S. F. State cage star, being the only other letter man on the squad in addition to Atkinson.

With 8 victories in 9 games so far this year, the San Francisco quintet rules slight favorite to win one or more games from the locals.

Others on the squad are Notch DeBisschop, Cecil Huse, Ed Barbano, Jack Madigan, Joe DePhillips, Albert Lutz.

### Volleyball Standings

Standings of the Women's interclass volleyball teams today are as follows:

	Games Played	W	L
Freshmen	2	0	2
Sophomore	3	1	2
Junior	2	2	0
Senior	1	1	0

## Humboldt Staters Swamp Nehi Quint

A superior Humboldt State squad swamped an ineffectual Nehi five, 44 to 25, Thursday night in the College Gym. With Givins leading the scoring for the Lumberjacks, Humboldt had little trouble handling their opponents.

Givins, Sanderson, and Hunter played outstanding ball for the College, dropping baskets in from all angles. Moore and Sanderson, diminutive Staters, played a bang up game and furnished considerable amusement for the fans.

McGowan and Hadley showed the best form for the Nehi squad, doing some nice passing and shoot-

## Freshman Party Proves Success

Beans and coffee, served with entertainment from members of the Frosh class, provided the 'Piece Resistance' for the evening at Miss Ballews Frosh Party held January 12, in the College Commons.

Included on the program for the evening were, vocal solos, whistling, tap dancing and two Bowery Dances. The winning contestants were paid in the real thing, when cash prizes of twenty five cents each were awarded. The winners were selected by means of an applause machine. Between acts the entire company joined in dancing.

The high light of the evening came when Ida Mae Inskip's and Toots Evangelisti's tap dance brought forth a shower of 'Pennies From Heaven.' To quote Ida Mae, "I heard a peculiar sound and at first I thought I was losing my money out of my pockets. Imagine my embarrassment when I realized that they were throwing PENNIES at me."

The party was concluded with a Paul Jones and every one voted the party a huge success.

The program included vocals by Edith Jennings, and Marian MacPherson; whistling, Faye Spencer; imitation of a chippie bird, Claire Quinn; a Bowery Dance contest between Margery Cropley, Clarice Johnson and Wilma Simson, and Dorothy Barnes, Francis Waters and Edith Jennings. Tap dancing, Marion MacPherson and Jane Shannessy, and an encore of a hit tap dance of their high school days was given by Ida Mae Inskip and Toots Evangelisti.

H

Many of the students attending this college like to have a good time. Who doesn't? The ways of having a good time, though, are the cause of this writer's comment. Since a college is a place for receiving an education and gaining in knowledge, shouldn't the students do all in their power to help others by remaining fairly quiet in our halls? During the present semester, many students have been very careless when it comes to showing some courtesy to other people in classes, as well as to the members of the faculty who are trying to run competition to the noise in the halls. How can anyone teach students when it is impossible for the students to pay attention to the teacher due to such loud disturbances in the halls? There are places around the school, such as the gym, the athletic field, or other such places, where it is alright to "cut loose" and make some noise but the halls of the administration building are no place to yell, holler, and laugh one's head off. Since Final Exams are drawing near, this noise should be stopped immediately. It is necessary to hear what the teachers are saying; therefore, why not give your cooperation to the faculty and the other members of the Student Body?

## Starr Has Heavy Lead In Play

Don Starr, freshman student at Humboldt State, will take the role of Duke Mante, 'heavy' lead in Robert Sherwood's play, Petrified Forest, which will be staged for the first time on the Pacific Coast when Humboldt State College's dramatics department presents it March 16 and 17.

A former Pasadena Junior College student, Starr has already made a reputation for himself in Humboldt county by his fine performance as the male lead in the college play, See Naples and Die, which has had a highly successful season.

Starr is now directing The Man in the Bowler Hat, one of the three one-act plays to be given by the Dramatic Workshop group on Wednesday, January 20.

Working last year in the Pasadena Drama Guild, Starr had parts in the following plays: School for Scandal, I'll Leave It to You, Mary, Mary, Quite Contrary, Cat and the Canary, Pericles—Prince of Tyre, Carionius, and Julius Caesar. By virtue of his hard work and splendid acting ability, Starr won a scholarship to the Pasadena Community Playhouse School of Play Production, which he plans to attend next fall.

## Junior Women Defeat Sophs At Volleyball

The junior women's volleyball team defeated the sophomores, 42 to 38, in a recent noon game. Merle Morton, junior, won high point honors with 8 points.

The players were as follows:  
Sophomore team: I. Anderson, N. Brenner, H. Connick, V. Marke, L. Gregory, B. Lowry, and V. Moxon.

Junior team: L. Hedley, G. Marke, H. Smith, B. Feilding, F. Poulson, M. Morton, M. Hyner, and R. McAllister.

Officials for the game included B. J. Russell referee; Miss Ann Craig, umpire; N. Acton, scorer; timekeeper, G. Hinman, and E. McKay.

## Nat Brenner Surprised With Birthday Party

Nathalie Brenner was surprised with a birthday party in her honor, Wednesday night, given by her sister, MarJorie. The guests met at the girls room in the Dorm and then adjourned to Emmalina Winklers apartment where games were enjoyed and Nathalie was presented with many lovely gifts. Those present were: Caroline, Catherine and Elaine Haley, Marie Silva, June Gribble, Blanche Lowry, Emmalina Winkler and the Brenner sisters.

## Art Barri Meets Death In Samoa Road Tragedy

The foursome of Maxine Flaherty, Art Barri, Elizabeth Nelson, and Joe Souza was broken Saturday morning when Art Barri was the victim of a tragedy occurring on the Samoa road.

We extend our sincere sympathy to the remaining three, as well as his many friends throughout the county.

Many Humboldt State students knew Art and admired him for his many fine qualities.

## Freak Fishing Feat Felt Fantastic

Not only Humboldt State students but Waltonians all over the County continue to wonder today over the freak fishing feat reported last week by Herbert Moore, ex-Lumberjack basketball and tennis star and present U. C. med. school student.

The fish, a fourteen-pound salmon in perfect condition, was hauled bare-handed from Redwood Creek, according to Moore's claim. In explaining the capture, Moore laid all the credit to science.

A knowledge of zoology, it is Moore's avowal, plus cautious stalking and perfect application of this zoological knowledge, made the fish a set-up for his tactics.

Lying prone on his stomach on the river bank while his companion and former Humboldt student, Jimmy Henderson, sat on his legs to keep him from falling into the river, Moore inserted his hands under the fish.

This is where the science comes in.

Every fish, Moore insists, has a longitudinal sensory apparatus. By lifting the fish horizontally to the water, Moore claims that he never disturbed the fish's illusion of being on a level plane. Hence he captured it without a struggle.

To illustrate how well-believed

Moore's story is, the following opinions by Humboldt students who were present at the meal when the fish was finally dispatched are offered:

Joe Daly—"He found it crawling around on the bank, and after he cut off the four legs, he could not think of anything else to call it; so he called it a salmon."

Franny Moore—"If this thing barks once more when I stick my fork into it, I'll know it's a dog-fish."

H

The San Jose Junior class has established a new 'bid' system for their annual Junior Prom, to be held January 29.

Only a limited number of bids are to be put on sale. Each bid purchaser is given a dance program, and all dances are to be exchanged before the night of the dance. In this way, the ever present stags and wallflowers are absent, and everyone is assured of a good time.

The custom while being an innovation on the coast is an established tradition with the older colleges in the East.
