Sponsored Programs Foundation Distributes Nearly \$1 Million to HSU Research Community

Humboldt State University's Sponsored Programs Foundation (HSU SPF) distributed nearly \$1 Million to faculty, staff, and departments, based on [last year's grant activity](#). Funds are intended to stimulate and incentivize externally sponsored research. SPF is a non-profit auxiliary of the University, and it exists to administer externally funded grants and submit proposals to funding agencies on behalf of HSU. It receives revenue by collecting indirect costs on each proposal that is submitted through SPF. Each year after SPF's operating costs are met, previously unallocated indirect revenue is available to be distributed back to the campus research community.

The purpose is to provide funding that can be applied to further research and student success at HSU. These funds can be used by faculty and staff researchers to expand opportunities for students to participate in undergraduate research, help identify and pursue potential sources of research grants, engage in scholarly and creative activity, or develop their research facilities. The funds help to support the research goals outlined in [HSU's strategic plan](#), which include developing a campus-wide focus on externally funded research and to foster supportive collaborations for grant writing and research.

10TH Annual Virtual PI Celebration

The HSU SPF hosted our annual party to celebrate Principal Investigators (PIs), their staff, and student researchers. This year, attendees of our Virtual Research Celebration were again invited to pick up a "Meal To Go" catered by Plaza Grill on the evening of the event. The evening included mini research 'TedTalks' from Dr. Erin Kelly & Dr. Lucy Kerhoulas (Forestry & Wildland) with undergraduate student Stacy Giraldo, Nicole Jean Hill (Art), Dr. Ho Yi Wan (Wildlife Management), and Dr. Amy Sprowles (Biological Sciences). We enjoyed interacting with you all and we look forward to celebrating research with you in new, creative ways this year! If you missed this year's PI celebration, be sure to view it on our [YouTube Channel](#).

Pre-Award Corner

Are you interested in obtaining grant funding?

SPF is available to assist you at each step along the way. If you are looking for funding sources, please see our resources for finding funding available on our [website](#).

SPF Welcomes New Support Coordinator

HSU SPF is pleased to welcome Cara Peters as our new Pre-Award Support Coordinator. Cara's responsibilities include training staff and faculty to use [Pivot](#), HSU's grant searching database, and assisting in grant proposal review and editing. Cara also provides direct grant search support, offering one-on-one meetings to discuss funding needs and assisting in finding grant opportunities.

An HSU alum, Cara received a bachelor's degree in Journalism with a Public Relations emphasis in 2020. Prior to joining HSU SPF, Cara worked in various public relations & marketing positions on campus. To schedule a Pivot training and/or meet with her to discuss a funding search, email cara.peters@humboldt.edu.

Curated Grant Lists are Here!

To better support HSU staff and faculty in finding grants, the Pre-Award team has developed 'curated' grant lists that contain funding opportunities organized by theme, college, interdisciplinary grants, and more! Our curated lists can be found under the home icon tab in Pivot, or via links on the Office of Research and Development's website under our ["Find Funding"](#) page. In order to access these lists on Pivot, you'll need to sign into your account by using your HSU login information. Lists are updated on a regular basis, new grants added weekly. If you have any questions and/or need help accessing Pivot, please let us know.

- CAHSS Grant Opportunities: https://pivot.proquest.com/curated_opps/7889
- CNRS Grant Opportunities: https://pivot.proquest.com/curated_opps/8014

Talent Search Expands to Fort Bragg and Crescent City

The Sponsored Programs Foundation is proud to announce that Department of Education has chosen to award \$1.4 million to the TRiO Talent Search program to provide assistance to 500 youth attending school in Fort Bragg and Crescent City. This award is in addition to the existing \$2.7 million awarded earlier this year for the program to continue serving 971 youths in Humboldt County.

The [TRiO Talent Search](#) program assists local youth in building pathways out of poverty and in becoming the first in their family to earn a college degree by removing barriers to academic success. Talent Search participants attend “College Knowledge” before entering high school, creating opportunities to engage with STEAM content and explore careers. The program focuses on student leadership and civic engagement, scholarship resume building, improved study habits, and successful early college experiences.

For 30 years, Humboldt County students have gained the benefits of this program thanks to the tireless efforts of the TRiO Talent Search staff. HSU SPF is proud of their hard work, and excited to see what opportunities they will bring to the Mendocino and Del Norte County youth. Do you know a student who may benefit from this program, or would like to learn more? Visit <https://talentsearch.humboldt.edu/>.

Post- Award Corner

Our focus for Post-Award grants management encompasses three areas: training, monitoring, and reporting. Post-Award services provide support to your project throughout the life span of your grant.

TRiO

Registration Opening Soon: ideaFest 2022!

The Office of Research, HSU Library, and MarCom, would like to invite you & your students to participate in the 9th Annual [HSU ideaFest](#)! Each year more than 400 students, staff, and faculty from Humboldt State showcase their research, performances, creative projects, and more. This year's ideaFest will be back in person with some virtual presentations on May 6th 2022. Stay tuned for more information coming soon...

McCrone Awards: Now Accepting Nominations

[The McCrone Promising Faculty Scholars Award](#) will recognize up to 3 of HSU's newer faculty, acknowledge their potential in their field of research, and encourage their continued achievement. Successful applicants will be awarded \$1,500 in the spring to further their research and creative activities.

Deadline for Nominations: Monday, February 7, 2022 by 5:00pm

[The Alistair and Judith McCrone Graduate Fellowship Fund](#) was created to honor Dr. and Mrs. McCrone, who together shepherded Humboldt State University and its students for over a quarter of a century. One award in the amount of \$3,000 will be given to a graduate student to further their research at HSU.

Deadline for Nominations: Monday, February 7, 2022 by 5:00pm

Research and Creative Projects for Equity & Justice

This NEW initiative, funded by HSU SPF & the HSU Foundation, supports research and scholarship that benefits historically marginalized communities served by Humboldt State University, with a focus on black, indigenous, and other people of color (BIPOC). Proposals can request between \$10,000-\$40,000 and the supported activities could be focused on:

- Catalyzing future research by supporting development of new or existing projects;
- Expanding opportunities to engage through participation in research and other scholarship;
- Building capacity and infrastructure that supports research on or off campus;
- Addressing needs of communities in our region through action and applied research.

Deadlines: Complete Institutional Routing packets must be received by **February 15, 2022 by 5:00pm**.

Complete applications must be submitted in [HSU's InfoReady](#) portal by **February 28, 2022 by 5:00pm**.

Center for Equity in Higher Education

The Center for Equity in Higher Education (CEHE) will conduct research to reduce equity gaps in higher education and ensure that basic needs, such as food and housing, don't stand between any student and a college degree. The CEHE at Humboldt will operate in tandem with a dual organization at CSU Long Beach. Together, the two research centers will promote equity and basic needs research throughout the state. Each CEHE will focus on specific rural and urban issues, while drawing from one another's resources and data. To read more about the CEHE, [click here!](#)

HSU and UC Davis Launch Tech Center with SBDC

In a one-of-its-kind collaboration, Humboldt State University's Northern California Small Business Development Center (NorCal SBDC) has partnered with the University of California, Davis to open a tech center that will support business owners and innovators in bringing new ideas, inventions, products, and services to market.

The tech center, called [SBDCtech @ UCDavis Venture Catalyst](#), will offer specialized services for entrepreneurs and early-stage startup companies developing technologies in the ag-tech and biotech arenas. To read more, [click here!](#)

HSU joins Research Hub for Coastal Resiliency

HSU recently joined a coastal resiliency research hub led by Oregon State University and the University of Washington. The Hub focuses on the impact of earthquakes, coastal erosion, and climate change on coastal communities in the Pacific Northwest. "These changes could lead to severe social, cultural, economic, and environmental consequences if we don't make plans to adapt, but these changes also bring opportunities for transformative change." Learn more [here.](#)

Research, Scholarship, and Creative Activities (RSCA)

This year's Research, Scholarship, and Creative Activities (RSCA) competition awarded HSU Faculty a total of **\$46,759** to support one-time mini grants. Please help us in congratulating the following 10 awarded faculty:

- ✚ Rebecca Robertson, Anthropology, Project: *Trail Blazers: A Pilot Applied Ethnographic Study and Podcast Series that Explores the Gendered Roles, Identities, and Experiences of Female Professional Firefighters and Their Impact on Organizational Culture in the Fire Service*
- ✚ Barbara Clucas, Wildlife Management, Project: *How much human food and threatened species do ravens eat? Uncovering raven diet with stable isotope analyses*
- ✚ Jianmin Zhong, Biological Sciences, Project: *Identification of Rickettsia species phylotype G022 DNA in the blood of domestic dogs in Humboldt County*
- ✚ Sara Hart, Religious Studies, Project: *Battle- 'n Home-Fronts: Podcast Studio and Website Development*
- ✚ Allison Bronson, Biological Sciences, Project: *Investigating Shark Cranial Structures Using High-Resolution CT Scanning*
- ✚ Kimberly Stelter, Library, Project: *Indigenizing HSU Library Through Visual Arts and Centering Student Voices*
- ✚ Oscar Vargas-Hernandez, Biological Sciences, Project: *The Origin and Genetic Makeup of a California Rare Plant: Clarkia Lingulata*
- ✚ David Lankford, Kinesiology, Recreation Administration, and Nursing, Project: *Incidence of non-specific concussions among adolescent individuals in sport*
- ✚ Ho Yi Wan, Wildlife Management, Project: *Research Inequity in Wildlife Sciences*
- ✚ Kerry Byrne, Environmental Science and Management, Project: *Herbivory, folivory, and granivory in rare Fabaceae: Potential for limitation of population growth*

We would like to thank everyone for participating in the Research, Scholarship, and Creative Activities Program this year and wish you luck in your future research and creative endeavors!

Rafael Cuevas-Urbe & Rick Zechman:

Culturing Bull Kelp in Humboldt Bay

Seaweed farming is a multi-billion-dollar industry globally, yet remains an emerging industry in the United States. Humboldt State University has recently emerged as a leader in seaweed farming in California by launching the state's first commercially licensed open water seaweed farm - [HSU's ProvidenSea Seaweed Farm](#).

Recently, Rafael Cuevas Uribe (Associate Professor of Fisheries Biology), Rick Zechman (Associate Dean and Director of Marine Operations), and Karen Gray (California Reef Manager GreenWave) received [grant funding](#) from the California State University's Agricultural Research Institute (ARI) to determine the feasibility of growing seaweed in Humboldt Bay.

To seed the farm, they decided to culture the local species, bull kelp, for two purposes: as a potential farm crop and as a means to enhance bull kelp and the habitat it provides for other species. With the help of their graduate students Marzia Fattori and Kalani Ortiz, the team has established a seaweed hatchery at the Telonicher Marine Lab where they are seeding twine with the microscopic stages of bull kelp. Once bull kelp begins growing on the twine, it will be outplanted to ProvidenSea's multi-line aquaculture system in Humboldt Bay so the researchers can evaluate the potential for commercial production of bull kelp in the Bay.

The HSU ProvidenSea Seaweed Farm is a one-acre aquaculture lease from the Humboldt Bay Harbor, Recreation, & Conservation District. The farm consists of two 328 ft long line systems, and a recently installed multi-line array system with five parallel 200 ft lines. The team will compare the production of bull kelp in these two production systems as well as other growth parameters.

The kelp team is also using the hatchery to seed the tiny kelp plants onto stones, or "green gravel." They hope to further explore funding and permits necessary to outplant the "green gravel" to wild marine habitats in order to determine the potential of this approach as a way to restore or enhance bull kelp forests, a critical marine habitat along California's shores. Commercially harvested kelp has many uses, from human consumption (<https://www.barnaclefoods.com/>), manufacturing bio-plastics (<https://swaythefuture.com/>) and as a fertilizer (<http://www.primaryocean.com/>), among other uses. The team hopes to utilize the "green gravel" project to participate in efforts to restore the bull kelp forest to local marine habitats.

CA Minimum Wage Increase

Effective January 1, 2022, the California minimum wage will be increased from \$14.00 to **\$15.00/hr.** If you have employees currently appointed at less than this new minimum, you must submit a new

Pay Rate change HR action in Kronos (this does not happen automatically).

Please contact our office *before you submit January payroll* to re-appoint those affected by this change.

Any changes to you or your employee's appointment (including increases in hourly rates, changes to time base, new category, etc...) are submitted [electronically through KRONOS](#). Changes may be submitted by the PI or [Timekeeper](#) at any point in the month except during monthly ['Blackout Dates.'](#) This is to ensure our staff has adequate time to process your requested changes, and update the employees' information in KRONOS for accurate payroll processing.

Managing Your Employees in KRONOS

The new [KRONOS HR Ready Module](#) has been officially live since August 2021. HSU SPF has completely phased out all paper appointment and hiring processes to an exclusively electronic, paperless system within KRONOS.

KRONOS is now used for SPF hiring and appointment changes. All PIs and/or hiring managers (also known as Timekeepers) must attend training to learn how to use this new module. Please reach out to hsuf@humboldt.edu to schedule a training opportunity, as well as learn how to 'link' your existing employees to your manager profile.

Reminder: Direct Deposit for SPF Reimbursements

You can now enroll in Direct Deposit for Accounts Payable reimbursements. These include reimbursement checks for travel claims, supply purchases, or any out of pocket expenses. This [DocuSign PowerForm](#) is used to **enroll Non-Students** in 'Direct Deposit' for Accounts Payable reimbursements with HSU (Stateside), SPF (Auxiliary), and ADV (Foundation). Should you choose to participate in this program, and return this form with the requested information, you will receive a confirmation e-mail from HSU Accounts Payable notifying you that we have received your bank routing number and account number and that your electronic refund process has been set up.

HSU Students may enroll in Direct Deposit by self-adding their banking information in their Student Center. Instructions for students can be found here: <https://studentfinancialservices.humboldt.edu/student-center-guide> (see #9).

A Bittersweet Farwell...

We would like to recognize and congratulate a very special member of our team on their upcoming retirement. **Denise Bettendorf**, Sponsored Programs Accountant, will be retiring this December 2021. Denise has worked at Humboldt State University for over 10 years and has spent most of that time with HSU SPF. Denise has helped navigate Sponsored Programs through our major milestones: from managing \$7 million in revenue to \$37 million in our last fiscal year.

Here is what our Post-Award team had to say about Denise...

✚ “Denise has never made me feel like I had a stupid question. She has gently helped and guided me over the years and I have learned so much from her. Thank you for everything Denise” - **Sam Caudill**

✚ “Denise is a “top-notch” employee and friend. Whenever I have needed assistance, she has always responded timely and had an answer. My best wishes to you on your retirement Denise and I hope our paths cross again in the future.” - **Anthony Johnson**

✚ “Where would we be without Denise? While we are happy about her retirement, we will miss her and all that she does for SPF. She has a great sense of humor and her Halloween costumes are always fantastic-I really loved it when you did Elton John!” **Angela Turner**

✚ “Denise’s knowledge, creativity, patience, humor, work ethic and accessibility are foundational to the growth and success of SPF during her tenure. Those same qualities have enriched all of us fortunate to have worked with her and she has made us not only better professionals but better people.” - **Leslie Rodeland**

Finally, I just want to say how much I respect and value Denise Bettendorf. Her commitment to HSU SPF is one of the reasons we are thriving as a research foundation today.

Denise has not only helped us navigate difficult financial & auditing issues, but has been instrumental in helping us to establish better business practices, and guided our Post-Award & Compliance teams as we started to grow. Her dedication, her humor, and her thoughtfulness will all be sorely missed.

We are *so incredibly happy* for you Denise, while equally devastated at our loss of a such a great team member. Thank you, for everything you’ve done to support the students, staff, and faculty researchers at Humboldt State University. You’ll always be a part of the SPF Family, and have an open invitation to our Halloween potlucks.
– **Kacie Flynn**

Compliance Corner

The primary objective of the HSU SPF Compliance Office is to provide information, training, and internal controls that are needed to meet the laws, rules, and policies governing sponsored research at Humboldt State University.

[Our Compliance Office](#)

HSU Students Excel at CSU Research Competition!

An HSU student took home second place at the 35th Annual California State University Student Research Competition (CSU SRC) held virtually at Cal Poly Pomona this year. Joan Esquibel won second place for an undergraduate student in the Humanities and Letters category. Esquibel, a Religious Studies major, won for her project: “*Best-Sellers: How our Concerns Translate into Modern Fiction.*” She was advised by Religious Studies professors, Vincent Biondo and Sara Jaye Hart.

In total, thirteen students represented Humboldt at this annual statewide competition, which involved over 200 outstanding student researchers from the 23 CSU campuses who competed for research awards in discipline-based categories. These outstanding students were all passionate about their research, representing the academic rigor of all three colleges at HSU. Their faculty advisors were dedicated to integrating research into the students’ education and served as key mentors to these students. Even with the added challenges this year has brought us, they remain committed to ensuring our student researchers succeeded. The other students who competed in the 35th Annual CSU Student Research Competition were:

✚ **Levi Basist**, Graduate in Kinesiology & Recreation Administration
“Wingate Muscular Power Test Reference Values for Active Healthy Adults Ages 19-35: Normative Data And Differences Between Sex”
Faculty advisor: Young Sub Kwon, Associate Professor in Kinesiology & Recreation Administration

✚ **Shawn Reilly and Reed Switzer**, Undergraduates in Kinesiology & Recreation Administration
“Cannabis Tourism in Humboldt County: Moving Forward”
Faculty advisor: Ara Pachmayer, Assistant Professor, Kinesiology & Recreation Administration

✚ **Samantha Cook**, Graduate, and **Mikayla Kia**, Undergraduate in Environmental Science & Management
“Exploring the Effects of the Coronavirus (COVID-19) Pandemic on Fishing Communities and Fisheries Social Science Research in California”
Faculty advisor: Laurie Richmond, Associate Professor, Environmental Science & Management

✚ **Chavela Riotutar**, Graduate in Kinesiology & Recreation Administration
“The Effect of Quality of Life on Cardiometabolic Risk Factors in Postmenopausal Women”
Faculty advisor: Taylor Bloedon, Associate Professor, Kinesiology & Recreation Administration

✚ **Grace Fillebrown and Luke Gauthier**, Undergraduates in Child Development
“International and Intercultural Collaboration in Experiential Learning: Lessons from Rural Youth Volunteers in India Project”
Faculty advisor: Meenal Rana, Associate Professor in Child Development

✚ **Dylan Roberts**, Graduate in Kinesiology & Recreation Administration
“Anaerobic Capacity Measures in Active Healthy Adults Ages 18-29: Normative Reference Values and Differences between Sex”
Faculty advisor: Young Sub Kwon, Associate Professor in Kinesiology & Recreation Administration

✚ **Jason Laugesen**, Undergraduate in Anthropology
“Ceramic Chronology: A Geospatial Analysis of Material Culture in the Hinterlands in Northwestern Belize”
Faculty advisor: Marisol Cortes-Rincon, Professor in Anthropology

✚ **Sophia Lemmo**, Graduate in Forestry, Watershed, and Wildland Sciences
“Tree Mortality and Regeneration across Competitive Gradients and Varying Habitats in Northern California”
Faculty advisors: Lucy Kerhoulas, Assistant Professor in Forestry and Wildland Resources, and Rosemary Sherriff, Professor in Geography

✚ **Aneika Perez**, Graduate in Environment & Community
“Sustainable Transportation for HSU Stakeholders: Looking into Access and Behavior”
Faculty advisor: Nicholas Perdue, Assistant Professor, Geography

The CSU Student Research Competition is held to promote excellence in undergraduate and graduate research, scholarly, and creative activity by recognizing outstanding student accomplishments. The 36th Annual CSU SRC will be held in person at San Francisco State University on April 29 and 30, 2022.

The call for submissions is currently open, and we hope to involve even more students in the [2022 CSU Student Research Competition](#).

Featured Funding Opportunities

Awards for Faculty at HSIs

The purpose of this program is to strengthen the humanities at Hispanic-Serving Institutions by encouraging and expanding humanities research opportunities for individual faculty and staff members. Awards support individuals pursuing scholarly research that is of value to humanities scholars, students, and/or general audiences.

[Application deadline: April 13, 2022](#)

Education Grants

The mission of Hearst Foundations is to identify and fund outstanding nonprofits to ensure that people of all backgrounds in the United States can build healthy, productive and satisfying lives. Hearst Foundations fund educational institutions demonstrating uncommon success in preparing students to thrive in a global society.

[Application deadline: Continuous](#)

CSU ARI

Agricultural Research Institute (ARI) funds are available to all tenured, tenure-track faculty, or research associates engaging in agricultural research. Approximately \$235,000 will be available for competitive allocation in fall 2022; Campus grants can be funded for a maximum of 3 years with a maximum request of \$150,000 per year.

[Deadline: December 9, 2021](#)

Looking for Internal Funding... Have you visited HSU's Engagement Hub Yet?

[Engagement Hub](#) is a one-stop-shop to access and search for internal funding opportunities within the HSU campus community. When departments or divisions advertise internal calls for funding, mini-grants, or awards, it can often be challenging to know where to look. This site acts as one central repository for internally funded small grants, awards, stipends, etc... Engagement Hub can bring together all the various pockets of available internal funding into one location where faculty, staff, and students can more easily find and access applications.

Any stateside or auxiliary funding that's available to campus applicants can be linked to Engagement Hub such as Diversity & Equity grants, RSCA funding, Associate Students events & travel grants, departmental research awards or fellowships for students, and much more... That way our on-campus users can scroll through one directory to find the funding opportunity they're looking for. Engagement Hub can now be easily accessed through your MyHumboldt portal. If your department has an opportunity you'd like to link to Engagement Hub, email engagementhub@humboldt.edu or click the "Add an Internal Funding Opportunity" tile to submit your own.

 <p>2022 CSU Student Research Competition The Student Research Competition promotes excellence in undergraduate and graduate research, scholarship, and creative activity in all 23 CSUs.
