

Humboldt Lumberjack

Humboldt Lumberjack WEDNESDAY, JANUARY, 15th, 1941

Thirteen Complete Past CAA Courses

Thirteen men have completed their aeronautics course, which is sponsored by the Civil Aeronautics Authority of Washington, D. C., and given at Humboldt State College.

The following completed the course on June 1, 1940: Glenn Goble, Herbert Gomes, Harold Langdon, Casper Torp, Milton Villa, Louis Walton, and Darrell Wing. Those who completed the course on August 19, 1940 are: Julius Hooven, James Hutcheson, George Lowry, Daniel McClure, Edwin Speier, and Donald Turner.

Of the above thirteen, three of the men took advanced training course at Scott Field Service, Long Beach, California and completed it on September 21, 1940: Glenn Goble, Casper Torp, and Darrell Wing.

Seven Humboldt men are taking the course at this time and will complete it in the next few weeks: Walter Carr, Glenn Lissner, Allan Lowry, James Moore, Norman Moore, John Morton, and Harold Walton.

A preliminary C.A.A. course will begin on February 1, and before they start, each man will be given a flight test to see if he is adaptable to flying. Anyone who is interested in this flying course should sign at President Gist's office.

Homer L. Arnold, professor of mathematics and philosophy is the instructor in air navigation; Dr. Harry MacGinitie of the physical science department is the instructor of meteorology. Lester Pierce gives the general theory of flight and flight practice, and Mr. Arnold gives air regulations at the airport.

President's Views On Basketball Trip

President Arthur S. Gist feels that the recent basketball trip was worth while even though the men did not get to Mexico City.

"The big disappointment to me," said President Gist, "was that the boys were not able to get clear down to Mexico City, for I believe the trip would be of big educational value and tend to create good will between the two countries. I am glad Mr. Griffith was able to make his more limited trip educational."

"At no time was I worried regarding the whereabouts or the welfare of the team," he continued. "I have full confidence in the judgement of Mr. Griffith and of the boys on the team."

SHAKESPEARE NEXT TERM

The course in Shakespeare to be given next semester by Maurice Hicklin of the English department will not be given again until the spring semester of 1934. This course, like several other upper-division courses at Humboldt, is offered in alternate years.

SEELY STUDIO
526 F St. Eureka

DR. BALABANIS HAS NO SUMMER WORRY

Some of the Humboldt students may be wondering whether they will be able to find a job next summer. However, this problem is not troubling one of their instructors, Dr. Homer Balabanis.

Dr. Balabanis has had offers from three institutions that wish him to give courses: from Miami University in Ohio, from San Jose State College in San Jose, and from the University of Hawaii. The last-named institution, incidentally, wanted him to teach this coming semester as well as next summer. Dr. Balabanis will teach in Miami University.

New Instructor From Syracuse

James J. Hunter of Syracuse University, who will succeed Leo Schussman on the Humboldt State faculty, is expected to arrive here Friday of next week. He and Mrs. Hunter will drive from Syracuse, New York.

Mr. Hunter has served for three years as instructor in psychology in Syracuse. During the past year he has acted as assistant director of student teaching, having charge of 200 student teachers.

He graduated in three and one half years from Cornell University, receiving high honors. He was instructor in diving and swimming at the school. He taught in rural and high schools in New York state before going to Syracuse. He earned his master's degree there and will receive his doctor's degree this summer.

BALABANIS TO OFFER 2 'ODD-YEAR' COURSES

Economics 113, Economic and Social History of the United States, and Economics 120, Business Organization, are scheduled for next semester at Humboldt State by Dr. Homer P. Balabanis, professor of economics. These courses are given every two years.

The first concerns the development of American economic institutions and the interaction between economic factors and the social and political conditions in the United States. The latter concerns the practical problems of organization, control, and management of private enterprise, and the relation of the government of business.

NEW BULLETIN BOARD

Mrs. Myrtle McKittrick, registrar of Humboldt State, has a new bulletin board in her office for posting vocational information regarding placement work. All students are invited to take advantage of the board.

SOMETHING ON COAST GUARD

Mrs. McKittrick, of the registration office, has received some information concerning the United States Coast Guard. Anyone interested in this training is requested to see Mrs. McKittrick.

NOTICE TO PROBATIONERS

All students on probation, says Mrs. Myrtle McKittrick, registrar, must find out before they register what their status is to be. No report on this will be available until Monday, January 27.

Schussman Resigns From Faculty

Terminating seventeen and one-half years of service as professor of education at Humboldt State College, Leo G. Schussman has resigned his position, to be effective at the close of the present semester. His successor is to be James J. Hunter of Syracuse University, Syracuse, New York.

Mr. Schussman came to Humboldt in the fall of 1923 and served as vice-president under President Swetman. He also was principal of the college elementary school for several years, under President Gist. As professor of education, he was faculty sponsor for the College Civic Club.

Mr. Schussman was instrument-Teachers Association in Humboldt county. For several years, he conducted night classes for adults in the Eureka school. As a lecturer, he has given innumerable addresses before both educational and lay groups.

He has had many articles published in educational journals, and also considerable verses published in "American Voices" and other publications.

Attention To All Transfer Students

Mrs. Myrtle McKittrick, registrar, has received from the state department, a notice in regard to transfer students.

All transfer students must either take American Government, or take an examination if they have taken the course from another institution before receiving credentials. In other words, the students must take the course or an examination from the institution where he obtains his credentials.

The American government course is being offered this semester from Dr. Raymond Fisher of the social science department. The examination will be held early in the semester so that another chance will be given for those who do not pass the first one.

REGISTRATION TIME BRINGS PROBLEMS

Just as Beth Nixon is not sure whether should would take intermediate algebra next semester, Eugene Sutton also is in doubt as to whether he should take Short-hand III.

Their reasons are examples of some of the minor registration problems. Results of tentative reports show that Miss Nixon will be the only girl in a class of about twenty boys. Similarly, Sutton expects to be the only boy in a class of nearly twenty girls.

EXAMINATION SCHEDULE

Final examinations have been scheduled for January 18, 20, 21, and 22 and January 23 and 24 will include the holiday before the two days' registration on January 27 and 28.

Mrs. Elma McCann Folsom of the college English department, who was taken ill Monday of last week, is in a very serious condition at the time the Lumberjack went to press.

CREDENTIALS ISSUED FOR TWO YEARS ONLY

Attorney General Earl Warren has ruled on November 2, 1940, according to Mrs. Myrtle McKittrick, registrar, that the state board of education has no authority to issue life or unlimited credentials.

Credentials, beginning with the year 1941 and from this time forth will be issued for two years only. At this time it must be renewed under regulations of the state board of education.

Nelson Hall Has Birthday Table

A birthday table is arranged each month for the men and women students of Nelson Hall. All those having a birthday in the particular month are honored by sitting at this table and given a cake from Miss Platt. The date is set according to the first birthday of the month.

The first celebration was on November 3. Those honored were: Alice Wilkinson, Marella White, Richard Tonini, George Brenner, Carolyn Crane, Clare Ostrander, and Marthabel Scott.

The second celebration on December 17 included Hazel Hagne, Muriel Yaley, Helen Hawk, Jean Hood, Bill Farber, Hobart Davis, and Bill Fiedler.

HOME ECONOMICS CLUB SPONSORS LUNCHEON

The Home Economics Club of Humboldt State College sponsored a joint luncheon meeting of the Humboldt County Teachers of Home Economics Association, and their departments, in Nelson Hall last Saturday. There were one hundred and twenty people present. Patricia Bertrand and Helen Devoy were general co-chairmen.

Chairman of the luncheon committee was Mary Johnson. Ilene Jensen and Ruth Sequist were in charge of the invitations. High schools which were represented were Arcata, Eureka, Hoopa, South Fork, Fortuna, Ferndale, and Del Norte. The girls who served and assisted with the food were Helgi Johnson, Mary Eads, Ruth Sequist, Lucille Carrol, Anne McMillan, Jean Quarnheim, Virginia Hill, Eleanor Mathews, Marion Goss, Pyllis Grey, Ilene Jensen, Virginia Bernier, Joan Ogle, and Arabella Carpenter.

WHICH WILL BE YOU

The Industrial Education Class of Humboldt State, under the supervision of Horace Jenkins will hold an all-college skating party Wednesday evening, January 23 at a Eureka rink. "Pop" said the party is "to celebrate or drown our sorrows, for some to tell how easy it was, or for those of if only—for all who want fun."

LEARN TO PLAY THESE

The woodwind instrument class, offered at Humboldt State this semester, will help students in teaching courses to others and prepare them for the orchestra. Mrs. Dorothy Dale Arnold will conduct the class and invites all those interested to enter.

Humboldt Quintet Going To Chico

Humboldt State College's basketball team this week is preparing for their Far Western Conference debut in two games with Chico State at Chico on Friday and Saturday. Chico boasts seven lettermen on their squad, with an impressive record so far this year. Coach Harry Griffith's chief problem is perfecting an offense against the renowned Zone defense of the Wildcats.

One major change has taken place in the Lumberjack starting five. Howard Goodwin, by his performances on the Mexico trip, has moved into the regular center spot, and Rod Belcher has played guard almost exclusively since Goodwin's rise. The probable starting five will have Bill Lee and Len Longholm at forwards; Goodwin at center; and Belcher and Jim Savage at guards, with Curt Wilson slated to see plenty of action. Bunt Lee and Ted Speier will complete the eight-man squad for the Chico trip.

Following the Chico series, Humboldt will prepare for their first home series of the season against San Francisco State on January 24 and 25. Wally Lozensky, former Humboldt star, is in a Gater uniform. Lozensky scored 15 points as his team handed Chico their first defeat of two weeks ago.

Eyether, Eether? Take Speech 102

Do you say "eyether" and nyether" or "eether" and "neether"? Do you pronounce it "offen," or do you sound the "i"? Is it "aunt," or is the female relatives appellation pronounced like that of the symbol for industry, namely, the ant? Is there a rigid standard of pronunciation?

These and other points will be explained in Speech 102, the course in phonetics and speech correction, which Dr. Garff Wilson will offer next semester at Humboldt. Dr. Wilson minored in phonetics at Cornell, under Professor Thomas who is well known in the field of phonetics.

Phonetics, according to Dr. Wilson, is necessary for teaching speech and speech correction, and is especially valuable for prospective elementary teachers. Half of the course will be devoted to phonetics, which is a sort of anatomy of the spoken language. The other half of the course will be on the elementary principles of speech correction.

FORMALLY INITIATED

Members of the Mutsuhito Club held their semi-annual formal installation when new pledges were inducted into the club at a candle-light ceremony held in the social unit recently. New pledges are the following: Muriel Yaley, Jean Schussman, Helen Hartsook, Lois Wrigley, and Vivienne Nelson.

FATHER PASSES AWAY

Miss Imogene Platt of the Humboldt faculty was summoned to Seattle the middle of last week by the death of her father. He had been an invalid for some time.

MR. SCHUSSMAN RESIGNS

Leo Schussman, who has been in the department of education at Humboldt State College since the fall of 1923, has resigned his position, effective at the end of the present semester.

In his capacity as adviser for the senior classes over a period of years as director of training of student teachers, and as a classroom instructor, Mr. Schussman established himself as a friend of the students. They will long remember him for his practical philosophy and his kindly interest in their undergraduate problems, and in their subsequent professional accomplishments.

SHORTHAND STUDENTS EARN GREGG AWARD

Order of Gregg Artists award pins have been earned in Miss Sarah Davies' shorthand I and II classes this semester. The bronze pins, which are given for progress in shorthand writing are given by the Gregg writer, which is the International Gregg Magazine.

The following students received the award: Lois Anderson, Jean Bolger, Rose Katri, Phyllis Larsen, Audrey Jean McAfee, Helen Newell, Irene Reynolds, Hallyann Schardin, Marjorie Smith, Mona Taubman, Marjorie Trott, and Helvi Johnson.

THIS COURSE CONCRETE

Cement and concrete work, taught by Horace Jenkins of the industrial art department, is being offered for the first time by Humboldt State College next semester. This course takes up the study of the building and construction of ornamental objects such as fountains, bird baths, and all kinds of concrete work. It also involves the principles of the construction of sidewalks and buildings and their actual use.

GAMEBIRD COURSE

Zoology 60 is one of the courses of the two-year sequences recommended for those interested in wild life management. Fred Telonicher, instructor, said there was a demand for those trained in this field. This course is on the handling of artificial propagation of game birds and the actual care of gamebirds under artificial conditions.

SNOW ENOUGH TO SKI

Dr. William Lanphere wishes to let skiers know that the snow at Horse Mountain, the site of the hut, is ready for them. A group and Dr. Lanphere made a trip there and found the snow to be a foot and a half deep on Fern Prairie, and, according to them, there will be enough snow to ski on up until May.

The Campus Commentator Gives You a Little of Everything

Hello, Folks. Well here I am without much news, but just a lot of stuff and things . . . From what we hear Chuck Waters would make some girl a nice little wife. It seems that lately he has been chief cook and bottle washer down at the House of Wiley and is quite skilled in the culinary arts. . . . Lately we've been seeing Zelma Woodcock and Dante Pozzotti around together quite a bit. What's cookin', eh? . . . What's this we hear about Leon Flink spending many of his evenings at the dormitory? Couldn't be Edra Emerson, could it? . . . Seems that everybody had a good time over the holidays. We hear that Betty Fay went to the Palace Hotel in San Francisco and got to dance with one of the East's football players. We also hear that Dave Wheeler was only to glad to get back to Riverside for a certain Senior Ball. Maury Ayala was the last one to trail in from Southern California, but better late than never I always say (as does Kay Nelson). . . . Did you know that Pat Dillon and Chuck Cordet have been going steady since way back in High School? It is surprising how many old "steadies" we have found around school. . . . Everyone seemed to be worried about the whereabouts of our barnstorming basketball team last week (especially Helen Newell and Lois Wrigley), but I just figured Coach Griffith would bring them back safely.

Incidentally (whenever I can't think of anything else to say I say "Incidentally") I have a keen idea for next term's column; in fact, it's a "wow." That is if they don't fire me before then. — Rosie Ivancich was very happy 'round about Christmas. Old St. Nick went and brought Jackie home all the way from Kentucky just to make Rosie smile. — Kinda late to be saying anything about the Senior Ball, but I never have had a chance to mention it. Everybody had a nice time and the decorations were simply scrumptious. All of which reminds me to remind you that there's going to

be an informal (yes, gals, that means high heels and dresses) dance at the Arcata Woman's Club on January 30th. (Ten cents for the plug, please.) — We hear that the boys certainly enjoyed Mexico. And what's this about Ted Speier, New Year's Eve, and a little Mexican senorita? — Another happy gal these days is Barbara Bird. It seems that Willie is back now until June. — Is it true that Rugged Rod has a case on a certain freshman named Miss Carlson? — Peaked in on the rehearsal of one of the one-act plays, "Starstruck," the other day. Its an all-woman cast, and if the gals have as good a time the night of the play as they have at rehearsal, the play ought to be a smashing success. — Seems to be about all I can cook up right now, and anyhow I gotta go study for finals, so just have patience, I'll be back soon in a flash and hash over some more people's business.

TAP CLUB OF H.S.C.

ELECTS NEW OFFICERS

Members of the tap club under the direction of Mrs. Monica Hadley, advisor, have begun rehearsing on group and individual dances in preparation for their annual program which is to be held in March and which is looked forward to by Humboldt students.

Officers of the club include Barabara Heasman, president; and Susan Wilson, vice-president. Members are Barabara Bird, Kay Nelson, Rosie Ivancich, Frances Ensign, Karen Webster, Dorothy Hunt, Helen Newell, Eleanor Shaw, Lynette Hibler, Bill Lee, and Bud Villa.

Three HSC Students To Join Air Corps

Three students of Humboldt State College are members of Company I, 184th Infantry, California National Guard, which will be called soon for one year of military training. They are; Leonard Moseley, Bob Frakes, and Maurice Dungan.

All three, however, hope to return to the college after completion of this training period.

Moseley, a sophomore, is now taking an elementary teacher's course. He has been on the football squad at Humboldt for two years, playing first string linesman during the last season. He has served in the National Guard for three years.

Frakes is a sophomore, and a lower division student in Letters and Science at Humboldt. He has served in the National Guard for about six months.

Dungan, a second-semester freshman, has been a National Guardsman for less than a year. He is a two-year commercial student at Humboldt State.

After leaving here, these men will be stationed at San Luis Obispo.

SURPLUS RENEWED

The Humboldt College library has just completed the removal of the surplus books from the main library to the annex. Those books which have not been taken out of the library since 1935, a period of five years, can now be found in the annex and have the word "annex" marked on their card in the catalogue.

A. W. S. Dance Committees Named

The Associated Women Students of Humboldt under the direction of Lynette Hibler will sponsor the "A.W.S. Dance of the Year," an informal affair which will be held in the Arcata Women's Club on January 30, from 9 to 12.

The following committee chairmen and students will assist in making this one of the most enjoyable dances of the new term: Decoration—Susan Wilson, chairman; Shirley Kirkpatrick; Music—Ruth Schocker; Hall—Frances Larsen; Programs—Betty Baldwin; Tickets—Rosie Ivancich; Advertising—Helen Arnold, chairman; Betty Anne Carlson, Jean Lewis, Alberta Starkey, and Marjorie Cloney; Program—Warrene Elmore, chairman; Barbara Bird, Karen Wester, Dolores Scholl; patrons and patronesses Marianne Lambert; Bids—Nadine Swan; Clean-up, Jean Schussman. All members of the faculty are invited to attend the affair by the women in charge.

CONSULT YOUR CATALOG

Again, the catalog committee of Humboldt State would like students to consult the college catalog in making out their programs so that, at the time of registration, it will be necessary for the advisors only to check the students' actual program instead of making a program for them.

Campus Highlights By A Co-Ed

With the opening of school an array of various colored sweaters was brought forth by members of the stronger sex, wonder if they were knitted, well, anyhow someone loves them . . . 'Tis true that more campus coeds are learning the advantages of a reversible jacket or coat, especially up here in the "North Woods" where Dame Weather never tells us what she is going to do from one day to the next. . . Our rhododendron for the week goes to the members of the Home Economics Department and Mrs. Walters who are hereby congratulated on the tea which they gave for girls of the various county high schools last Saturday . . . Women students were more than pleased with the talk of Mrs. Gist's last week. At least now they know to what extent the men notice them and their weaker or stronger points. 'Twould be interesting, no doubt, if the men students would be able to hear Mrs. Gist's interpretation of what the women think of the men. Without a doubt all of the college women were enlightened on the subject of personality . . . 'Twon't be long now until January 30th when the A.W.S. presents "The Dance of the Year." It's something to look forward to according to advance reports, because there'll be decorations, good music and everything else that goes to make a successful dance. Yes, and there'll be pretty coeds too, 'cause they are all planning on wearing their new "dressy dresses and that perky little bonnet they've been saving for just such an event." So, fellows, "beauty what am beauty" will be seen at the "Dance of the Year," so get ready, here they come! . . . Jerkins in all colors, shapes, and forms threaten to take the campus by storm especially because they look so neat with that long sleeved blouse you might have gotten for Christmas or just had, coeds . . . Vivienne Nelson, Marion Dalton, and Marjorie Cloney are some of the women who have stepped out in their jerkins, and they look nice, too . . . They tell me that summer is just around the corner, but I know 'tain't true, especially when about five months stand between it and 'old man winter."

Points of Interest Seen by Players To and From Mexico and Five States

Humboldt State's basketball team may not have reached Mexico City and may not have won many games on their tour to Chihuahua, and way points, but the team did see a great deal of country and interesting sights, did make many new friends, and did have a lot of fun on the trip.

Five states and the Republic of Mexico were visited with stopping places including San Jose, Riverside, Phoenix, Safford (Ariz.) Juarez, Mexico, Chihuahua, Boulder City, and Reno.

Points of interest visited included an orange packing house at Riverside, the gigantic lead smelter at Chihuahua, Colridge Dam, Boulder Dam, the ancient cathedral at Chihuahua, and many other lesser sights.

Unanimous choice of the players as the most interesting spot on the trip was Chihuahua, where they were treated royally in every way. Four days were spent here and new experiences for the boys were numerous.

Not one of the players could speak more than a few words of Spanish, but this proved no handicap to them because of the friendliness and patience of the Chihuahuans.

Prize funster of the trip was Howard Goodwin, who kept the players and everyone else in stitches with his antics. His top gag was teaching Chihuahua urchins the "Humboldt Salute."

TO GIVE ORNITHOLOGY

Zoology 165, Ornithology, to be given at Humboldt State next semester by Fred Telonicher, is a study of birds as a class and according to chief orders and common local species, together with study of habits, behavior, their living conditions, and songs. The class will make several field trips throughout the semester, and each student will select a certain bird to make a study of.

Henry Eisemen, former Humboldt State College student talked on Pearl Culture at a recent meeting of the Lions Club in Eureka.

Not so funny was the plight of the boys travelling in the college station wagon with a blowout at midnight on the return trip just half hour out of Chihuahua. Griffith's car was ahead, and to make it worse, there were no tire tools to fix the flat. For a while the boys were kept warm by burning the blown out tire, but the cold at this 5000 foot elevation was ever-increasing. Finally, after a two-hour wait in the bitter cold night, a car with the needed tools came along and the much-relieved players went on their way.

The boys travelled in the station wagon and Coach Griffith's car. Those riding with Griffith were Ted Speier, Serge Stashuk, Gene Flocchini, and Lou Kotick, while the station wagon "rowdies" included Howard Goodwin, Bill Lee, Bunt Lee, Rod Belcher, Jim Savage, Curt Wilson, and Len Longholm.

HUMBOLDT COLLEGE HAS EARLY SPRING

For Sale-Ripe Tomatoes. Inquire Botany Class, H.S.C.

Even in California, the above "want-ad" appearing in early spring might stir up excitement, but to the Botany 1A class it is just another experiment, this time in soilless growing.

Three experimental troughs in the green house were filled with chemical solutions, and planted in tomatoes, corn, castor beans, flowers, bulbs and various plants before Christmas vacation. Returning to school, the botany students found lush vegetation in place of the sprouting seeds they left, and the tallest plant, a gladiolus, grew six inches.

ALUMNI GET POSITIONS

Robert Madsen, former graduate manager of Humboldt State College, is now teaching at Korb, taking the place of Clyde Patenaude, alumnus of Humboldt State. Patenaude was elected principal of Blue Lake school.

Sports Comments By R. Davis

Now that the long trip into Mexico is over, the Humboldt State teams will settle down to good hard practice this week in preparation for the games at Chico on Friday and Saturday nights against the strong Chico State quintet.—Not much is known about the Chico team except that they lost one game and won one from the San Francisco team this season. San Francisco State boasts one of the strongest teams in the history of the school so this should give local fans an idea of how strong the boys from Chico are.—Playing on the San Francisco State team this year is Wally Lozensky, former Humboldt State basketball player. Wally is a first string guard for the bay city five.—The Humboldt State Jayvee five coached by Art McGrath, Humboldt student, is going good in the Eureka W. P. A. City League. They have won two games already from two of the strongest teams in the league.—Frank Saunderson and Manuel Oliveira, both students of this school, are official C.I.F. referees this season and will probably be blowing the whistle at several Humboldt County high school games.—Bill Lee made quite a record in the five games played by the Lumberjacks on the trip into Mexico. He ran up a grand total of 84 points for an average of over 16 points per game.—All of the boys showed up well in these games and were very popular with the fans for their hard-play.

Industrial Classes Have New Location

The industrial arts department is now located in the building formerly occupied by the college commons. This is the best building that the department has occupied in twenty-five years, according to Horace Jenkins, Industrial Arts instructor.

In the south end of the building, woodworking machines and a tool room are located. In the center of the room are two rows of work tables.

According to Mr. Jenkins, the eighteen new lockers that line part of the east wall are worthy of any work shop. Each locker is about two feet square, and six feet high. The framework of the lockers is made of pine and the doors are of five-ply wood.

The pottery class now use the kitchen as its work shop.

GRAVES SHOWS SLIDES

C. Edward Graves, librarian of Humboldt State, recently showed some colored slides of his trips in the west at the Arcata Kiwanis Club.

Engagement Told At Mutsuhito Meet

Members of the Mutsuhito Club were pleasantly surprised at the Kirkpatrick home in Eureka on Sunday evening when the traditional box of candy was passed around announcing the engagement of Ada Dean Regli and Martin Cabalzar. The marriage will be a February event and the couple will live in Sacramento where the bridegroom, a former Humboldt student, is teaching school.

During the business meeting plans were discussed for the booth which the group will have charge of at the Senior Carnival to be held in March.

Refreshments were served later in the evening by Mrs. Sam Kirkpatrick assisted by her daughter, Shirley.

Among those present were the following: Eleanor Shaw, Ada Dean Regli, Sarah Southworth, Helen Howard, Marion Stickles, Joy Stockton, Doris Waldron, Rosie Ivancich, Helen Arnold, Jean Schussman, Shirley Kirkpatrick, Mrs. Homer Arnold, assistant advisor, and Mrs. Fred Telonicher, advisor.

SALMON EGGS HERE FOR ZOOLOGY CLASS

Approximately 10,000 eggs, designed to become large, silver-sided salmon, were received recently for the Humboldt State Hatchery, to be handled by the Hatchery Biology class next semester. The eggs, from the egg-taking station at Crannell, will hatch in 50 days, and will be transferred to a river at the end of the spring semester, when they will be about three inches long.

Zoology 53, Hatchery Biology, is a three-unit course, under supervision of Mrs. Hortense Lanphere, and will be offered next semester.

HSC STUDENT MARRIES

Vera Jean Hindley, freshman at Humboldt State, and Franklin Myers, former student of Humboldt, were married at Reno, Nevada, January 6. Mrs. Myers was a graduate of Ferndale High School and attended Humboldt State for a time this semester.

Dr. Lanphere Finds New Species; Will Compare it With Kew Collection

Two new species of Hydnaceae have been found by Dr. William Lanphere, instructor of biological science at Humboldt State College. The new plants, resembling toadstools, were found in Humboldt County, and Dr. Lanphere is planning to send specimens to Kew Gardens, near London, England, where the largest collection of Hydnaceae in the world is located. The plants will be sent by Dr. Lanphere to be compared with those of the Kew collection, and he will be credited with their discovery if they are verified.

Dr. Lanphere studies Hydnaceae as a sideline to his botany work. This group resembles the commonly known toadstools and mushroom, and includes other forms of fungi. The only way to distinguish edible forms and those that are poisonous is to learn their characteristics, Dr. Lanphere said. There are no tests to tell if they are poisonous, but most people are poisoned by the ordinary gilled

forms, those with little radiating plate-like gills underneath the umbrella, found growing in woods and fields. The silver dollar test, in which a silver article is dropped into the cooking mushrooms and is supposed to turn dark if they are poison, has no basis in fact, as the reaction between the mushrooms and the silver is due to the sulfur the plants contain, and the poison is in the form of an alkaloid. Less than one poisoned plant cooked in a kettle of mushrooms is sufficient to cause death to an entire family, Dr. Lanphere stated. The ones he found, however, are edible, although guinea pigs to demonstrate this property have yet to volunteer.

MATH OF FINANCE OFFERED NEXT TERM

Mathematics 2, Mathematics of Finance, is given at Humboldt State by Homer L. Arnold, professor of mathematics and philosophy, every other spring for those who wish to transfer to the College of Commerce at the University of California, and for those taking the economics and business courses.

In this course, theories of interest and annuities applied to investment, depreciation, valuation, and insurance, are taught. Anyone interested in taking this course must have had one year of high school algebra or general mathematics.

Frances Nye, Barbara Birmingham, and Henry Trione, all of the University of California, were visitors at Humboldt last week.

Humboldt Senior Weds Shively Girl

Marion Kemp, senior at Humboldt State, was married Monday evening, December 30 to Woodrow Stickles. After the wedding ceremony at Carson City, Nevada, the couple toured Nevada and Southern California.

Mrs. Stickles graduated from the Fortuna High School and will graduate from Humboldt State this June. Stickles, also a graduate from Fortuna High School and who attended Humboldt State, is employed at the Pacific Lumber Company at Scotia.

Third One-Act Play To Be 'Star Struck'

As previously announced by Dr. Garff Wilson of the dramatic department of Humboldt State, the college players will give a series of one-act plays. "Fumed Oak" by Noel Coward and "The Slope of the Hill" by Robert E. Gard were the former two selected. Dr. Wilson has now chosen the third one-act play, "Star Struck," a satire on Hollywood by Ryerson and Clements, which will be directed by Richard Jarboe. These plays will be given soon after the final examinations.

The cast is as follows: "Kitty Dare," Louise Corbin; "Her Secretary," Marella White; "Ada the Maid," Warren Elmore; "Paulie Pry," newspaper columnist, Barbara Heasman; "Rosalie," Betty Morrell; "Fifi," Betty Faye; and "Susie," Nancy Jo Birnie.

JENKINS' SHOP COURSE FOR MEN, WOMEN

The Management of School Shops, taught next semester by Horace Jenkins of Humboldt State, is for students majoring in shop work.

This course teaches the methods of shop arrangement, the making of working sheets for the course, and the teaching or managing of it in industries. Mr. Jenkins said there would be possible trips to Scotia to study the management of commercial shops.

Women, as well as men, are welcome to take this course, as well as other industrial education course, according to Mr. Jenkins.

Photography Class For Next Semester

Physics 20, two-unit course in Elementary Photography, will be offered next semester, Dr. William Lanphere, instructor, announced. This course covers all phases of photography for the beginner—taking, developing, printing, treatment and composition of pictures.

The course includes one one-hour lecture, scheduled for one o'clock Wednesday, and one three-hour laboratory period, two to five, Friday, each week. In addition to this, each student is assigned a certain number of hours a week, usually two, in which to work in the darkroom. Extra darkroom time is available to all students, and it is open until nine each evening, Dr. Lanphere said.

GRADUATE GETS POSITION

Virginia Frederickson, a graduate of Humboldt State in June, 1940, has secured a teaching position at the Cuddeback School at Carlotta. Miss Fredrickson has been employed as a clerk by Daly Brothers.
