

Humboldt Lumberjack

HUMBOLDT STATE COLLEGE in the REDWOOD EMPIRE

VOLUME 16 — NUMBER 1

ARCATA, CALIFORNIA, WEDNESDAY, OCTOBER 20, 1943

DR. BALABANIS RECALLED TO WASHINGTON

Scholarships Won By Three HSC Girls

The tryouts for the music scholarships, sponsored by the Federated Women's Clubs of Humboldt County were held Friday, October 7, at 2:00.

The scholarships this year consisted of two piano scholarships of fifty dollars each. This money is to be used for private music lessons to be given by Mrs. Jackson or Charles Fulkerson.

The winners of the scholarships were Miss Anne Coppin and Miss Patricia Lehman. They were picked from three contestants.

Miss Coppin's numbers were the Scarlatti Pastoral and "The Black Key Etude" by Chopin. Miss Coppin graduated from Reno High School in 1935 and attended Bakersfield Junior College for two years before coming here to Humboldt in 1942. She is now a senior and is majoring in education and music. She has been studying piano for 17 years.

Miss Lehman played "The Wishes Dance," by McDowell, and "To Spring," by Edvard Grieg. Patricia graduated from Del Norte High School in June, 1943. Here at Humboldt she is majoring in education and minoring in music. She has been studying music for seven years.

The judges were chosen by the Federation Women's Clubs and representatives of Loleta, Arcata and Eureka.

Winners of last year's scholarships were: Jean MacMillan and Gladys Roberts, voice; and Katherine Swap, piano.

This year for the first time the Women's Clubs are awarding a scholarship in pre-nursing. This was awarded to Miss Elece Straughan, who is a graduate of Linden High School, class of 1942. She is a sophomore at Humboldt, majoring in pre-nursing. This award is also fifty dollars, to be used for tuition, books and other expenses.

Freshmen Elect Class Officers

At the freshmen orientation class last Tuesday, officers for the freshmen class were elected. The election results were as follows: President, Frances Godec; Vice President, LaVerle Morley; Secretary-Treasurer, Libby Gabriel.

Katherine Swap, vice president of the student body, presided at the meeting until the new officers were installed.

The freshman class is the largest group in school this year. They are planning activities which were discussed at the first meeting.

We have it on good authority that the best pencil sharpener in the county is the one in the College Elementary School Library—really works much better than scissors or dull pen-knife.

To Serve As Principal Economist In The State Department

Dr. Homer P. Balabanis will leave today to return to Washington, D. C., where he will serve as principal economist in the State Department.

A leave of absence from the college until Sept., 1944, has been arranged for Dr. Balabanis, due to receipt of urgent requests for his release from the college for temporary important duties in the State Department.

As principal economist, Dr. Balabanis will enjoy the highest professional rank under Civil Service rating. He will work in the Division of Economics Studies of the State Department, and it will be his particular assignment to work on plans of economic reconstruction for the postwar period affecting southeastern Europe and the Balkans. A group of experts will be engaged on specialized problems, and Dr. Balabanis, in addition to his own regional research, will coordinate the findings of the others with the object of their practical application to this particular area.

Dr. Balabanis came to this country from his home in Greece when he was fifteen. Having no influential friends, and no knowledge of the English language, he went to work in a factory in the middle west to make his living. He attended night school and later the University of Chicago, where he obtained his masters degree, after which he came to Humboldt as professor of Economics. His PhD was obtained later at Stanford University. Now he has been granted dual opportunity of serving his motherland and his homeland when they are fighting to-

gether for a common cause.

Fitted For Work

Recognition of Dr. Balabanis' particular fitness for this particular work came as a result of contact with men who had opportunity to observe his work as senior economist in the OPA, where he served for several months earlier this year. He will work in close cooperation with Dr. Steinbauer, professor of economics at the University of Chicago; Dr. B. F. Bailey, head of the department of economics at Stanford, and Professor M. M. Knight, of the economics department of the University of California, as well as men from Harvard University, the University of Pittsburgh and others pre-eminent in the field of economics.

The following letter was received by President Gist; it was written by the Leo Pasvolsky, head economist and special assistant to the Secretary of State:

"We have a pressing need in the Department of State for a competent person to make certain economic studies needed in the conduct of foreign relations. After diligent search, we have come to the conclusion that Dr. Balabanis of your staff is exceptionally qualified for this work because of his training and experience, his unusual facility in the languages of continental Europe and his firsthand knowledge of the Balkan countries. I venture, therefore, to lay before you a request for his temporary release from his present important duties for the purpose of undertaking this work. The need is urgent, and we should like to have Dr. Balabanis join our staff

INFANTILE PARALYSIS

Infantile Paralysis starts with headache and stiff sore neck, also with upper respiratory infection (cold) or with intestinal symptoms.

Students should stay away from school and see doctor if:

1. Have a temperature.
2. Headache.
3. Sore neck or any sore or stiff muscles.
4. Cold.
5. Intestinal symptoms or signs.

Dr. H. L. Jenkins, College Physician, and Monica W. Hadley, Director of Health Service, urge students showing such symptoms to stay home from school and see their doctor immediately.

as soon as may be practicable.

"Were it not for the importance of the work to be done, and were it not for the unique qualifications of Dr. Balabanis, I should most certainly hesitate to ask you and your college to accept the inconvenience involved in releasing Dr. Balabanis for government service at the beginning of the school year and at a time when institutions of higher learning have difficulty in maintaining adequate staffs. Under the circumstances, however, I hope you will be willing to recognize the importance of the occasion and the service when you and your institution can in this way render to the United States Government."

President Gist

In announcing the leave of absence, President Gist said: "Despite the fact that we are loath to release him at this time, the college could not deny the urgent requests of the State Department, especially in view of the high honor which has been conferred upon Dr. Balabanis, the importance of the work, and the opportunity it offers for patriotic service and professional growth. We believe, too, that when he returns to the campus next September, his experiences will enrich his offerings to students and the community at large, and thus more than compensate the temporary loss."

Dr. Nathalie Hall, who taught at Humboldt State during Dr. Balabanis' leave last spring, will again return to replace him for the current college year.

Going with Dr. Balabanis to Washington are Mrs. Balabanis, daughter, Nancy, and son, Paul. In discussing his plans, Dr. Balabanis said he regrets leaving Humboldt again, but believes the importance of the work is such that it presents a challenge which he could not conscientiously refuse.

A moron went up to a store to buy a jar. He saw one turned upside down and exclaimed: "How absurd! This jar has no mouth." Turning it over, he was once more astonished. "Why, the bottom's gone too!"

News Received Of Former Humboldt Football Coach

By means of a letter from Murph, somewhere in the Hawaiian Islands, to President Gist, news was brought to Humboldt about one of its former football coaches. Charles Erb, who was football coach here five years ago, is now Captain Charles Erb, of the Army Air Force, and head coach of the 7th Air Force football team.

Rifle Club To Begin Firing Thurs.

On Thursday, Oct. 21, at the regular 10 o'clock class, the Humboldt State Rifle Club, member of the National Rifle Association, will begin shooting on the college range.

Before shooting it is necessary to complete a basic small arms instruction which is prescribed by the National Rifle Association. The pre-shooting course includes: safety precautions, nomenclature of rifles, sight-picture by means of charts, sighting exercises using sighting bar, various positions (prone, sitting, kneeling, and standing), trigger squeeze exercise, and triangulation. Triangulation is a sighting exercise in which the student sights over a fixed rifle at a small rifle which is moved by another student; when the student at the rifle thinks the target is in the proper place a pencil mark is placed on the paper on which the target rests. This is repeated twice and the three points joined. A small triangle indicates that the student is sighting consistently.

The firing shed is located just off the road that runs behind the college. The pit in which the three targets are located is across the athletic field. The range on the targets is 127-2-3 yards or 383 feet. The range is the best of its kind in this end of the county and has been used by both Army and Navy personnel.

Among the members of the club this year are Ralph Bryant and Leigh Manley, who were members last semester; and Betty Jo Barker, Walter Bennet, Patricia Jeanne Coeur, Betty Anne Coppin, Marilyn Henery, Violet Marsh, Wallace McAdams, Darrel Norberry, Gene Orlandi, Paul Ricks, Dave Swanlund, and Dolly Toole, new members this semester.

On the range .22 calibre rifles will be used and two hundred rounds of ammunition will be all that will be sold to each student during the semester, due to wartime restrictions.

There's still room for more reporters on the Lumberjack Staff, if you're interested.

Looking At The Basketball Lineup

—By Melendy

Football at H. S. C. has given up the limelight to basketball. After taking a trouncing from the Commuters, the Dormites have challenged their conquerors to a series of basketball games.

Your writer's opinion is that that the commuters would do well to take the challenge hurled at them by the Arcata fellows more seriously than they are. The Dormites line up would probably read as follows:

FRANCIS GODEC: 4 years for Fortuna High. From what has been seen of this boy, he could do well in any game of basketball.

WALT SWEET: 3 years for Ar-

cata High. High point man in County high school league. In casaba slang "a dead eye."

BOB PRITCHARD: 4 years for Arcata High. The writer remembers when "Pritch" was a player of renown when just a lowly Frosh at Arcata. A better player would be hard to find in Arcata, or H. S. C.

PETE ANDERSON: A fast boy. Maybe not a top notcher, but a man to be reckoned with. He might be "dark horse" of the team.

LEIGH MANLEY: If Leigh shows up as good in basketball as he did in the pigskin game, he'll be on top. All that is known about him is that his middle name is "Speed."

About the other fellows playing for the "Home" team, little is known, as scouting facilities are not what they should be; but Don Calder, Paul Ricks, Warren Hill and a few others can probably handle themselves very well in a game of "ball and basket."

Now a word about our somewhat complacent commuters. The boys looked good in football suits. Walt Bennett, stalwart center for the commuters, is a good man on the gridiron. Bret "Powerhouse" Melendy is a fast boy and the same goes for Harold Nelson, "Ike" Lindgren and Dave Swanlund. But... the big question now is how will they perform on the hardwood? Here's an attempt to furnish an answer. All Sports fans will remember Sut Walsh, halfback for the boys out of town. Sut is a tall, rangy lad, who can really whip a basketball around. He had a lot of experience at the game at Eureka High. Seems to be good. Brett Melendy is a master of impossible and very lucky shots. His speed and dexterity on the floor is really amazing.

Walt "Boomer" Bennett is no slouch at basketball, as he has a good eye for long shots. Dave Swanlund and Harold Nelson are fast and tricky, but are somewhat on the weak side when it comes to making points.

Forrest Waters may be able to participate in the series. If so he would automatically become the lives in Eureka. Several of the property of the Commuters as he follows of the game, here at school, say that Waters would be a valuable asset to the boys out of town.

This column hopes that Forrest will be able to play as the Commuters will need, in my opinion, a little more material than they now have. This is all the dope available for now. More will be coming over the wire after the two teams begin their practice sessions.

The Lumberjack Staff needs an assistant Business Manager; contact Dave Swanlund or the Editor.

BULL SESSION

—BY REAUME—

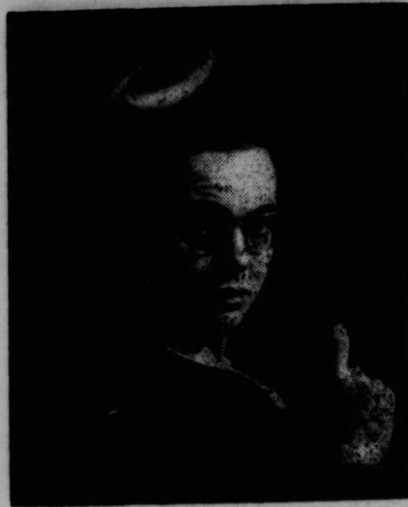

Be it known from the beginning, worthy readers, that the heading and by-line on this column is misleading, not to say plagiaristic. Bull Session is not being written by Reaume this week; Reaume is on a weekend whose extended and complex plans do not include a column—Bull Session is being guest-edited.

At one time in a valiant day that is gone, it would have been the duty of the Editor to challenge Reaume to a duel, with bludgeons, pick-axes, or even bitter words for the way in which page two was left with a large blank space in which there was nothing to run but 17 cuts of the pictures at the right.

That was the day when it was a matter of honor for the staff to meet their deadlines, and for the Editor to remonstrate sharply with any person failing to do so. Remonstrate, it might be added, to the extent of a bloody battle. Yes, there was a day—and anyone interfering with the chastening process would not only get his teeth bashed in with a rock, but would deserve it.

The arm of the law is long and the ways of city desks have changed regrettably, but the impulse for effective use of ground glass, death by Chinese water torture, or tilting on the green with long, sharp spears still persists.

Let us sing a requiem; a dirge over the ruins of the newspaper business which has degenerated

into journalism; newspapermen who have become Writers, with temperaments and mood.

While lurking about in the cop, vicious rumors were heard. It appears that People, the great reading public, desire a scandal column... large screaming headlines and bold face type damning the reputations of erstwhile solid citizens.

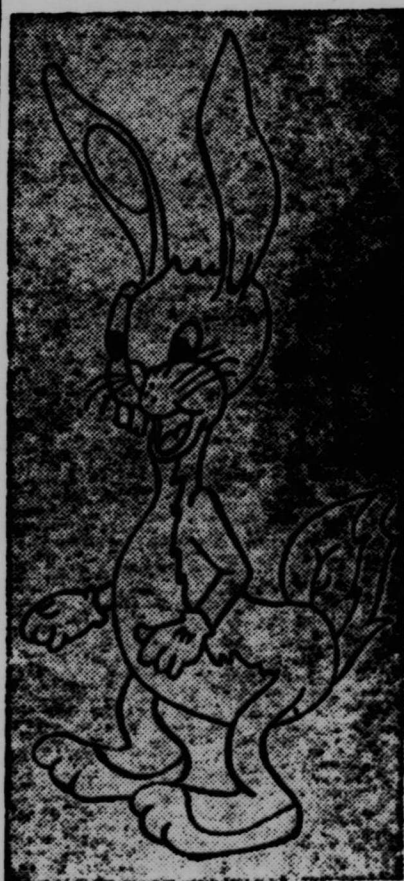

To oblige the aforementioned great reading public is the sole objective of this ragged remnant of a paper and since Winchell and Hurst have coined money and gained the undying enmity of a glorious number of people, we are not in a position to sneer. If anyone knows any scandal, we will print it in large 36 pt. caps. More than that, we will crown them as the prince of pryers and feed them large bowls of cream.

We do not know any scandal. We are sorry, although not very.

We sat in on a poker game recently, all of the participants of which were of the feminine gender. They were playing most unordinary draw poker, and at the first of the game only deuces, sevens and jacks were wild. There was a violent battle over whether or not five aces beat a royal flush, and later when they were playing a variation called forty-four, with 2, 4, 6, 8, 10, queen, ace wild, we departed, desperately chewing our metacarpals and crunching the bones with frenzied glee.

It is raining like bloody hell outside, and we are hungry like same. We depart.

COMING!

LOOK FOR ME!
I'll Be Waiting For You!

14,149 Deer Killed Up To October 8

As of October 8, a total of 14,149 deer had been reported taken so far this season. Five counties have reached the thousand mark or over. Modoc county is leading with a reported kill of 1238 deer; Tulare follows with 1216; then Siskiyou county, accounting for 1212; Plumas, 1053 and Fresno with 1,006.

The last day of deer hunting in these Sierra districts is October 15th.

Get on the bandwagon and help make the Humboldt College Play-Day a success.

"What, out of senseless nothing to provoke
A conscious Something to resent the yoke
Of unpermitted pleasure, under pain of
Everlasting Penalty, if broke!"

lations between the planets of our constellation, the reconciliation of the eaters of cooked cereal and the eaters of non-cooked cereal; the yids and the Wrights; it marks the completion of all knowledge.

From the revered halls of the Humboldt Institute on Earth comes the solution of the cereal problem. The Zylac Reaume, Kb, Yl, Ss, Phz, life-long devotee of Science, Shaw and vodka, has succeeded in creating man. The Zylac Reaume has long contended that this could be accomplished; and in his laboratories has created enough more citizens of the U.P. S. S. so that cooked cereal and non-cooked cereal eaters are minorities to the borscht for breakfast bund. Ninety-seven years ago, in collaboration with Mtzala Jean Hardwick, the Zylac Reaume published his first book, "The Behavior Pattern of the Sea Anemone."

The yids have been removed en masse to Saturn's seventh satellite. The Wrights have been placed in Mtzala Gladys Smith's Institute of Living, where their all-flute orchestra pipes in 111 A. F. with a special arrangement of Bruner's "Hail to Franklin" in F sharp Major.

The foremost problem of the past year, Jupiter's contention that they were deserving of a heavier vote in the U. P. S. S. legislature, has been solved by Mtzala Platt, who has campused the Jupiterites even unto the fourth generation, thus restricting their constellar activities for the next 1060 years. Thus the year 11—sing, brethren; praise the prowess of the people of the planets: we, for whom the bells toll.

Duck Season Opens; Deer Hunting Closes

Today marks the close of the 1943 deer season and the opening of the duck season.

Reports on the number of ducks in this locality are good although as soon as stormy weather starts, more birds are expected to make their temporary homes on Humboldt Bay and other water areas.

Hunters have been busy getting their clubs in shape for the season. Shooting of ducks opened today. It was previously announced that the season would open Saturday. However, a late bulletin

New Faces To Appear On Humboldt Stage

A combination of experienced and non-experienced actors and actresses will bring "Letters to Lucerne" to the Humboldt stage sometime in December.

The story revolves around a girl's school in Lucerne, Switzerland, at the beginning of the war. Cast as Erna, a German girl, is Rosanne Hill. Rosanne is a veteran of the Humboldt Stage, having appeared in the three-act play last year, "Heart of a City," "Little Prison," one of the one act plays presented at mid-years, and in several acts of the Humboldt Hilarities last spring.

Olga, whose sympathies are with the Allied Forces and who is also in love with Erna's brother, Hans, is being played by Sally Blackford. Sally is a newcomer to the Humboldt stage, but judging from her work in the tryouts and rehearsals, she will soon be one of Humboldt's best.

The rest of the women's cast includes Mrs. Hunter, played by Jean Hardwick, Miss Linder, played Maxine Olsen; Sally, Opal Shull; Bingo, Sissy Thompson, and others whose performances in the rehearsals promise to make this fall play stand out as one of Humboldt's best presentations.

There are four men in the cast. Hans, Erna's brother, is being played by Walter Bennet; Koppler, Gene Orlandi; Gustave, Warren Hill. One of the men will probably double in the role of Francois.

Listening Hour Every Monday

The "Listening Hour" is held every Monday evening from 7:30 until 9:15 for those members of the student body, faculty, and the community who are interested in classical music.

Next week it is to be held at the home of Mrs. Jeffers at Seventeenth and E Streets, one block from the fish and game commission said the season would open today.

Interesting Talk On Newspapers Given By Hicklin

A highly interesting and educational talk on "Newspapers" was given Wednesday noon at the Big Four Inn before the Arcata Rotary Club by Maurice Hicklin, professor of English at Humboldt State College and former newspaper editor.

Hicklin's address included the definition of news, how it is written and how various stories are developed into news. His talk was in connection with National Newspaper Week.

A. O. Cooperrider was program chairman. Two piano solos were played by Nancy Balabanis.

John Hilfiker presided over the meeting in place of President Walter N. Wood.

Visiting Rotarians were Frank Brennan of Eureka, and Dick Fleisher of Fortuna.

east east of Hunter's lunch room.

Although the program continues until 9:15 those who cannot remain for the whole program are invited to come for as long as they wish. Requests for numbers to be played on the program are gladly accepted.

Activities in girl's gym classes are now in full swing. The 9 A. M. tap class has already begun the second routine. The first was military and this one's a waltz. What next? . . . Mrs. Hadley has not been well so the more strenuous steps are being taught by Rosanne Hill and other advanced students.

Hockey teams in the freshman class have been chosen. The Captains are: La Verle Morely, Barbara Reynolds, Margaret Bugenig, Millicent Jesse and Pat Rimby. There's going to be some real competition!

SPORT SCENE

A powerful Commuter team defeated a stubborn, but outclassed, Dormite eleven, 30-0, last Thursday in a game of six-man football, played at Humboldt State College.

The Dormites never threatened and were outplayed throughout the game by the more experienced Commuters. The Commuters made little yardage through the air, but their powerful running attack proved the decisive factor. Mark Melendy, playing for the Commuters, did nearly everything but pack in the water for his team. Melendy scored four touchdowns and tossed a touchdown pass to Lindgren for the other score. Lindgren made several nice gains through the line.

The Dormites were weakened when Calder injured his knee in the second quarter. From there on Bob Pritchard handled the ball on most of the Dormite plays and proved to be the one bright spot on the Dormite team. He made several nice gains on running plays and threw five completed passes. The Dormite line composed of Paul Ricks, Pete Anderson and "Frog" Sweet proved to be a stubborn obstacle, but was outpowered by the faster and more experienced Commuter line of Dave

Swanlund, "Web" Bennet, Hal Nelson and Sut Walsh.

Warren Hill and Leigh Manley alternated at the Quarterback position for the Dormites and turned in good performances.

Brett Melendy played good defensive ball in spite of his injured knee.

Following is a play by play description of the game:

1st Quarter:

The Commuters kicked off to the Dormites. The Dormites were held on down and forced to kick. M. Melendy ran back Pritchard's punt 35 yards for a touchdown. M. Melendy's attempted conversion was blocked by Anderson. Commuters, 6; Dormites, 0.

The Commuters kicked off to the Dormites' 5-yard line and Calder returned the kick to his own 25. Pritchard passed to Calder for 14 yards. The Dormites lost the ball on downs. The Commuters were held and forced to kick. Pritchard returned M. Melendy's kick to his own 20. M. Melendy intercepted Pritchard's pass and ran 30 yards for a touchdown. M. Melendy's try for point was low as the quarter ended. Commuters, 12; Dormites, 0.

2nd Quarter:

The Commuters kicked off to the Dormites. Lindgren intercepted Pritchard's pass on the 35 and ran it back 10 yards to the Dormite 25. M. Melendy passed to Walsh for 10 yards. M. Melendy

ran around right end for 15 yards. M. Melendy's attempted conversion was blocked by Anderson. Commuters, 18; Dormites, 0.

The Commuters kicked off to the Dormites. The Dormites lost the ball on down on their own 25. Lindgren made 12 yards through the center of the line as the half ended. Commuters, 18; Dormites, 0.

3rd Quarter:

The Dormites kicked off to the Commuters. M. Melendy made 13 yards around left end. M. Melendy was held for no gain. Lindgren hit center for five yards and a first down. M. Melendy passed to Lindgren for 25 yards and a touchdown. M. Melendy attempted to run left end for the extra point, but was spilled by Pritchard's block on the five. Commuters, 24; Dormites, 0.

The Commuters kicked off to the Dormites. Hill fumbled and recovered for no gain, but the Commuters were off side on the play. Pritchard was held for no gain at center. Pritchard passed to Sweet for 12 yards. Pritchard passed to Anderson for five yards and a first down on the Dormite 45-yard line as the quarter ended. Commuters, 24; Dormites, 0.

4th Quarter:

Pritchard's pass was intercepted by M. Melendy, who ran the ball back to the Dormites 20 yard line. M. Melendy passed to Walsh for 12 yards. M. Melendy's pass was knocked down by Pritchard. M. Melendy's run around left end was short of a first down and the Dormites took the ball. Pritchard passed to Sweet for 6 yards. Pritchard made 15 yards around right end for a first down. Pritchard was held for no gain at center. M. Melendy intercepted Pritchard's pass and ran it back to the Dormite 45. Lindgren was held for no gain. M. Melendy's pass was incomplete. M. Melendy ran right end for 45 yards and a touchdown. Lindgren's attempted conversion was low. Commuters, 30; Dormites, 0.

Calder ran back the Commuter's kickoff to the Dormite 15. Sweet made a sensational catch of Pritchard's pass on the Dormite 35. The play was good for 20 yards and a first down. Pritchard's pass to Ricks was incomplete. Calder's pass was incomplete as the game ended.

Commuters, 30; Dormites, 0.

A direct hit from this United States gun disposed of an Italian tobacco factory which was being used as an artillery observation post by the Germans. After successfully resisting desperate German attempts to defend Salerno, Allied forces steadily pushed northward toward Germany, capturing strategic military and industrial towns.

Where Japs Lost

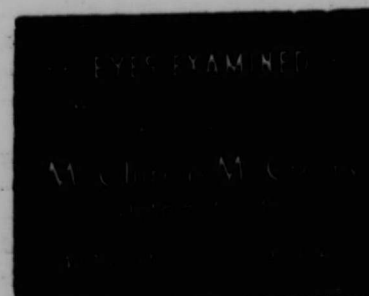

Bitter battles were reported in this area for possession of the port of Finschhafen and Wewak harbor. When the Japanese attempted to re-enforce bases in this sector, Allied air fighters destroyed 58 enemy planes, seven surface vessels, and many supply barges. Many enemy planes were caught on the ground.

Something new has been added! Tink Belfils has joined Marty Mathieson's one o'clock tennis class. Do you think he's there to learn tennis? Most likely.

If you have any interesting letters from former Humboldt men or women in the service, bring them around to the Lumberjack office.

The post of Associate Editor on the Lumberjack is still open.

Coast Guard In Big Drive For 17-Year-Old Boys

The Coast Guard is now in the midst of a drive to enlist youths of 17, and stresses the need to enlist now. Dennis J. Sweeney, Y-2-3, and his assistant, Clarence A. Harmon, S-2c, urge every youth of this age to come to the Eureka Field Recruiting Unit, 323 G Street, and discuss how he may become a petty officer in the Coast Guard. After basic training, probably at the Alameda Training Station, 17-year-old recruits may qualify for one of a variety of service schools such as pharmacist mate, cook and bakers, motor mechanic, seamanship, fire and police, storekeeper, radio, carpenter's mate, yeoman, electrician's mate, and many others.

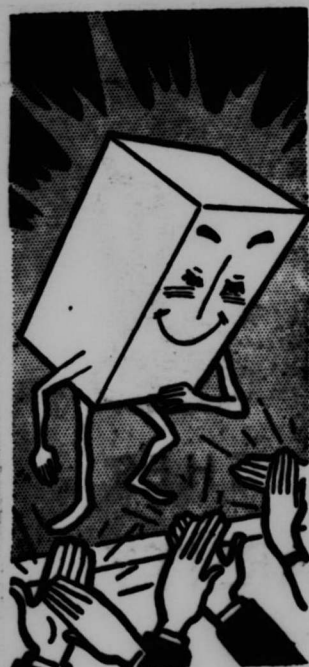

The 17 year olds in this area who missed the Mobile Recruiting Unit this week, may contact by mail or in person, the San Francisco Recruiting office in the Customs House, or the Eureka Field Unit, 323 G Street. Following the three days in Eureka, the Mobile Unit will spend two days in Crescent City, October 15-16. Fred F. Thevenin, Y, 3-c, in charge of the Eureka office, will assist the Mobile Unit while in this area and at Crescent City.

Watch for posters about the Men's Association dance, coming soon.
