Easter Vacation begins.

Student Senate Proposal Up For ICC Vote

Action on the controversial proposal to reorganize the Inter-Club Council into a student senate will be taken next Thursday at 12 when the council meets in room 110, President Ray Cesaretti said today.

A proposal to reform the ICC and make attendance compulsory aroused opposition from many campus organizations when it was discussed at the ICC's last meeting March 11. The recommendation was originally made at the Winter Retreat in February.

A special sub-committee, under Cesaretti, appointed at that meeting, will return their recommendations when the Council meets Thursday.

The proposal would reform the ICC, now nearly dormant, into a student senate investigating and recommending body. It would primarily be concerned with curriculum.

PAGE FOR POP

Pop Jenkins' memory will be enshrined in this year's Semper-virens, according to Editor Ray Smeltzer. A page at the end of the administration section has been chosen for the memorial and copy and layout material has already been made up and is being processed at the engraving plant in Berkeley.

the chronicler of the running battle between Professor Snarf and Worthal, will join the faculty about September 1, Dr. Siemens said.

Cartooning has been Bibler's hobby since his undergraduate student days when he created "Little Man on Campus," for the Daily Kansan, the University of Kansas Paper. Since then the feature has been syndicated to some 150 college newspapers.

Cartooning, however, is just a sideline with the newest addition to the HSC faculty. He holds the degrees of bachelor of fine arts from the University of Kansas, bachelor of arts in art education from Colorado State College of Education, and master of arts with a major in painting from Stanford. He plans later to complete a doctor's degree at the University of Oregon.

Mr. Bibler is married and has two children. He will bring his family to Arcata about September 1, following a summer of teaching and study in Elkhart, Kansas, and at the University of Colorado.

Mr. Bibler will teach courses in painting and an additional course in commercial art.

Neptune's Ball Theme of Prom

King Neptune's Ball will be the theme when the traditional Junior-Senior prom is held April 29 in the Carson Memorial Building in Eureka, co-chairman Rose Linser and Russ Vatsndal said this week.

Dancing at the formal program dance will continue from nine through one, they said. Orchestra for the annual event has not yet been selected.

Committee chairmen for the junior class sponsored dance have been announced as Geri Baker, Craig Stark, publicity; Dale Ingvarsdson, band; Mona Christensen, May Borel, decorations; Louis Sbrana, tickets; Joan Guyn, patrons; and Claudette Hummel, refreshments.

PLAN CAR WASH

Home Economics club members will wash cars next Wednesday at 12:00 P. M. in the Corporation yard. Price of the service is \$1.00.

ANNUAL POPERA ON TONIGHT

Speech By Robert Sterling Hicks Will End Marriage Education Week

Dr. Robert Sterling Hicks, lecturer of the American Institute of Family Relations, concludes a three-day stay on campus with his appearance at the assembly on Marriage Education this morning.

Dr. Hicks was heard Wednesday as he gave his keynote address in the auditorium. He spoke on "Your Personality Thermometer Reading."

Marriage is "in a bad way" in the United States today because too many people just haven't grown up," he said.

"Today we live in a fruitful world. We live in a gadget age and have an easy life. We want it that way, but it's doing things to us. We prolong childishness in America. Nearly everything is done for us from our early lives through college. When we're thrust out and have to meet problems we regress. When life threatens we take flight. That's our trouble today: we have more flighters than fighters."

In a marital conflict there's rarely an innocent party. Both partners have room for improvement, Dr. Hicks said. He noted, that counseling could help greatly. "I rarely talk to a person who's divorced who didn't think divorce brought more problems than it solved," he said.

Today's assembly will be devoted to reports by the student reporters from each of the discussion groups conducted Wednesday and Thursday. Wednesday's meeting was devoted to bull sessions but regular topics were set up for Thursday including Marital Conflict, Mate Selection and Hazards of Courtship.

Besides discussing marriage and courtship problems facing young people today, Dr. Hicks also held counseling periods all three days at which time individual students made appointments to talk over their own difficulties.

The visiting speaker is a member of the department of education, American Institute of Family Relations in Los Angeles and has a varied background in education. A graduate of Occidental College, University of California and Salem College, he is a member of Phi Beta Kappa, was a high school administrator for more than twenty years and has held many offices in educational associations.

Joline Benites, popular HSC singer, will appear on the intermission program at the fifth annual Popera tonight. She plans to sing "Make Believe" and "Please Explain."

EXPECT NEW HIGH

Enrollment at Humboldt State is expected to reach 1200 next fall.

Nine Candidates Vie For King Of Annual Event

Musical entertainment ranging from classical to popular to comic will be heard tonight during the fifth annual Popera in the Eureka High School gymnasium.

Curtain time is 8:30 with admission \$1 for adults and 50 cents for students.

Students have been balloting yesterday and today to select their choice of the nine men vying for crown title tonight. Contestants are Joe Myers, Intercollegiate Knights; Gene Marks, International Relations club; John Voris, Conservation Unlimited; Jim Westman, Lumberjack Band; Lou Sbrana, A Capella choir; Dale Ingvarsdson, Spokes; Larry Marcell, Nelson Hall; Bill Papke, Engineering club.

Besides gifts from the sponsoring clubs and the Popera committee, the King will also receive gifts from Arcata merchants.

The first half of the evening will be devoted to musical selections from the Lumberjack Concert Band, the A Capella choir, the Humboldt Little Symphony and the college chorus.

Crowning of the King comes next. After the ceremony is complete the royal procession will lead the audience into the women's gym where the dance will take place. Music will be furnished by the Musicians' Union All-Star Dance Band.

Specialty acts will add a little more variety to the dance half of the evening's program. Numbers will be presented by Joline Benites, The Treblettes, The Faculty Quintet and the Blow-Holers.

The musical extravaganza is sponsored annually by the Humboldt State College music department with the assistance of the Musicians' Union. James Mearns, assistant professor of music, will emcee the entire show.

VET'S STAG TONIGHT

A stag spaghetti feed will bring Humboldt State veterans together this evening at 7 p. m. in the Big Four Inn. Sponsored by the vet's club, the feed is open to all campus veterans. The feed will be over in time for all attending to go to the Popera, sponsoring officers promised.

Radio Station KHSC Open House Scheduled Monday

By Fred Zehnder

Students and faculty of Humboldt State will have the opportunity of visiting the campus studios of KHSC and observing the new station's operations from noon to 3 p. m. Monday.

The station will open its doors to the public, after its second successful week of broadcasting, so that interested persons may view the new facilities and watch students perform on the air, said Dr. William Ladd, assistant professor of speech-radio.

Visitors will find that KHSC is comparable to most commercial radio stations, using professional

console, turntables, microphones and tape recording equipment. The studios, totally remodeled in 1951 have undergone many physical changes in past months, including redecoration and such additions as master traffic board, on which the complete weekly program schedule is made up.

The principal feature of Monday's open house will be the inaugural broadcast from 12:30 until 1 p. m. Guests will be Dr. Cornelius H. Siemens, college president; Dr. Homer P. Balabanis, dean of instruction; Leland Barlow, chairman of the division of fine and applied arts; Dr. Don W.

Karshner, dean of students; Dr. Lawrence Turner, executive dean; Dwain Haines, student body president; Carroll R. Hauser, owner and general manager of station KHUM; and William B. Smullin, president of the Redwood Broadcasting Company.

Broadcasting and open house will continue through the afternoon until 3 p. m. Coffee will be served by the newly-formed Press-Radio Club.

Dr. Ladd said he was "anxious that all interested will visit and enjoy the first major step in our progress in broadcasting at Humboldt State College."

LETTERS TO THE EDITOR

Dear Editor:

This morning my little dog was struck and killed by an automobile on one of the streets bordering the campus. He wasn't much of a pup—probably not even all cocker. But we liked him just the same, and when I carried his body out to the car to dispose of it I felt hurt and angry.

The one mitigating factor in the death of my little mut was that it WAS just a dog, and not one of the dozen or more children who live in the houses immediately bordering the campus on Sequoia and Pine Streets.

I hope I'm correct in observing that most of our students are adult enough to use a good deal more restraint and caution in driving around the campus. We tend to forget, I think, because of the nature of the expanding campus, that the college streets are not thoroughfares on which we may speed with the gay abandon of the open highway.

It would save my bitterness, and perhaps even make it easier for me to explain the loss of the dog to my three-year-old daughter, if I knew the person who hit that dog had learned a lesson there.

Sincerely,
MILTON HOLLSTEIN,
Assistant Professor of
Journalism

Club Capers

Nelson Hall Notes: Open house is tentatively scheduled for May 2. Doors of all the rooms will be open to visitors at this time. . . . "Dress-Up Night" is now a regular procedure at Nelson Hall on Tuesday evening. . . . A phonograph-loudspeaker system has been installed in the cafeteria for added listening-dining pleasure. . . . Morley Farquar was elected representative to the Inter-club Council at a recent dorm-meeting. Other officers elected are Ray Cesaretti, president; Homer Ratcliff, vice-president; Mel Oliver, treasurer; and Jack Chipman, secretary.

The **Engineering Club** plans a social field trip in the near future. By the way, to those who noticed green top hats on some of our students, and wondered a bit at it: Those colorful creations were worn by Engineering Club members because St. Patrick's Day (which it was) falls on Engineers Day (which it also was). See? . . . Another activity of the club will be providing tags, a different color for each class, for students attending the All-School picnic. Tags will be ten cents each or what you will, and will entitle the wearer to a change or chances at door-type prizes (without the door).

The **Associated Women** officers met recently to discuss the Mother's Day tea.

Prank Wave Still On; Car Found on Steps

The deluge of practical jokes which has bedeviled Humboldt State College authorities for the past week continued Tuesday when an ancient automobile was found perched on the last landing of the stairway leading to the Administration building.

The automobile was removed before students arrived for their 8 o'clock classes.

It was the third such prank in the space of a week. Some enterprising collegians managed to haul a World War II Japanese artillery piece up to the foot of the stairway last week, then followed up with a muzzle-loading cannon pilfered from Fort Humboldt. The students responsible for the wave of thefts have not been located.

Faculty Forum . . . Communications and Explosions

By WILLIAM LADD

Assistant Professor, Speech and Radio

Students in my Speech 1 classes are, I hope, familiar with the definition of Speech which has been given them: "Speech is a system of communication by means of audible and visible symbols for the purpose of influencing other people's thoughts and/or actions." There is much significance in those few words. Communication, for instance, has become something of a by-word in daily life as well as in the academic world. We speak of "the importance of communication," "the communicative skills," and of "lines of communication."

One can speculate that it perhaps seems a bit strange that only in relatively recent years have both public and educators become actively aware of the potency of communication. Obviously, educators have been aware of these skills for a long time and modern technological developments have made the public increasingly aware of its value in society. In any event, by whatever term our particular era may eventually be called, it is also an era of communication.

As Dr. Charles Siepmann points out in his valuable book, "Radio, Television, and Society," . . . The power of thought and of communicating thought is man's unique attribute. Space has always limited the range of its communication. Radio and television are rapidly abolishing this barrier. What happens when it is gone? With the growth of broadcasting, a revolution is overtaking us. Man is living in a new dimension. What we are witnessing today is the beginning of a transformation in human relations. Private life is yielding more and more to communal life, in the sense that, through radio and television (and in only slightly less degree through films, newspapers, magazines, and books), we are most of us being daily more subject to simultaneous common influences. Does this mean that as individuals we draw less on our own inwardness and rely more on outward stimuli? While radio and television have captured popular imagination and have become dominant pastimes in our lives, what are we, the people, doing about controlling and directing this flow of communication?"

Daily news reports tell us of the explosive nature of the world situation. We learn, too, of the explosive potentials of the latest thermonuclear weapons. But radio and television, and the other media of communication, are explosive instruments, too. Our cultural survival depends, in no small measure, upon their proper use.

Top-level administrators in our national government are constantly at work in their attempts to use communication judiciously to "make the enemy understand"; to influence other people's thoughts and/or actions. Every effort is made to bridge the gap between peoples with language which will be understood—and heeded. The explosiveness of this age of communication lies as much in the vital necessity of these communicative attempts succeeding as it does in the potential destructiveness of the weapons which our technology has developed.

It appears to be a most moot question as to whether the "world is getting worse" or whether our means of communication have improved to such an extent that we, as individual citizens, are only more aware of each event, every day, all over the world. Communicative devices have abolished the barrier of space. Let us hope that adequate communication of the right ideas may prevent the abolition of mankind. That may well be the greatest accomplishment of our era of communication.

Marine Recruiters Here During April

U. S. Marine corps officer procurement teams have scheduled visits to the Humboldt State College campus to interview both men and women interested in obtaining commissions.

A team headed by Capt. W. J. Skvaril will be on campus March 30 from 9 a. m. to 3 p. m. and March 31 from 9 a. m. to noon to interview freshmen, sophomores and juniors interested in applying for the platoon leaders class program.

First Lieut. Frances M. DeVos will be here April 11 and 12 to discuss the women officer training class program, for which college sophomores and juniors are eligible.

Student Senate

(CONTINUED FROM PAGE 1)
rent student affairs, and, it was felt, would provide a body more responsive to student needs and problems, and leave the Executive Council free to transact the business of the Student Body.

The senate would have no legislative power. It would make only recommendations for enactment by the Student Council.

The question of representation, which stirred up a virtual hornet's nest of criticism among some clubs, was left open for decision by the ICC at this meeting. The original recommendation had made attendance compulsory.

The ICC, under another section of the original proposal, will meet in conjunction with a speech course in parliamentary procedure. The meeting will serve as the laboratory for the course, which is optional for ICC members.

Why do more college men and women smoke VICEROYS than any other filter cigarette?

BECAUSE ONLY VICEROY GIVES YOU A PURE, NON-MINERAL, NON-TOXIC FILTER WITH 20,000 FILTER TRAPS IN EVERY FILTER TIP!

1. Yes, only Viceroy has this filter composed of 20,000 tiny filter traps. You cannot obtain the same filtering action in *any other cigarette*.
2. Besides being non-mineral and non-toxic, this cellulose-acetate filter never shreds or crumbles.
3. The Viceroy filter wasn't just whipped up and rushed to market to meet the new and skyrocketing demand for filtered cigarettes. Viceroy pioneered. Started research *more than 20 years ago* to create the pure and perfect filter.
4. Smokers en masse report that filtered Viceroys have a finer flavor even than cigarettes without filters. Rich, satisfying, yet pleasantly mild.
5. Viceroy draws so easily that you wouldn't know, without looking, that it even had a filter tip . . . and Viceroys cost only a penny or two more than cigarettes without filters!

That's why more college men and women smoke VICEROYS than any other filter cigarette . . . that's why VICEROY is the largest-selling filter cigarette in the world!

20,000 TINY FILTER TRAPS . . . plus Richer, Smoother Flavor

Typical of the activities now underway in the radio hut is this scene as a program is put on the air. Frank Bettendorf is at the controls with Jimmie Stibbard (left) and Kathy Chapman in the background. Official dedication of the station will be conducted Monday, March 28.

Plaudits Given Behind-Scenes Campus Workers

By FRAN STARK

When Dean of Student Activities, Miss Kate Buchanan, needed someone to keep the Student Body coffee hour running smoothly, it was Senior Art-Education major Jean Eich whom she called.

"Jean does so many things like that so efficiently and quietly that one hardly knows she's around," comments Dean Buchanan.

Situations like this one in which a student responsible for much of the success of a college activity remains in the background while the recognition goes to others is typical both at Humboldt and in daily life.

This column is an attempt to remedy, in a small way, the situation, and to thank those many unpublicized helpers, among who are: Alan Ripine and Shirley Mace, both art majors, who design and prepare many of the posters required by campus organizations.

Harry Rohrs, education major, who is efficiently continuing the College "Y" sponsored Bull Session series started initially by junior pre-med student Larry Flammer.

There is no way of mentioning all of the student helpers to whom recognition is due, but this series will be continued in subsequent issues, in the hope that they may realize how much their services are appreciated.

Actual Training Given in New Radio Course

Labeled by Dr. William Ladd, HSC radio professor, as "one of the most valuable aspects of the radio and television training program," is the course in Field Training. The class is characterized by a variety of activities which lend themselves to the application of realistic practices in the broadcasting industry.

Assisting with the production of a new television program are Ron Goble and Don Leach, juniors majoring in radio. "Redwood Spotlight," the commercially sponsored show under the direction of the John LoBuono advertising firm, consists of presenting to the video audience local persons prominent in current news. In addition to aiding with studio set-ups, Goble and Leach make frequent appearances, interviewing various guests. The show is telecast Monday nights at 8:30 on KIEM-TV.

KHSC Operated By 21 Staffers

Operated in conjunction with the radio workshop class, Radio Station KHSC has a staff of 21 students, whose jobs are as varied as those found in commercial broadcast stations. The operation, split into two segments daily (11:45 a. m. to 1 p. m. and 5 p. m. to 10 p. m.) is under the supervision of faculty director, Dr. William Ladd.

Joe Trainer, industrial education major, is the chief engineer of the station. Earlier in the year Trainer rebuilt much of the control room equipment and recently assisted in the construction and installation of the KHSC transmitter.

Program director and sports editor positions are held by radio majors Fred Zehnder and Ron Goble respectively. Zehnder is an employee of KHUM, Goble an announcer on a series of weekly TV shows.

KHSC announcers include Deyrol Anderson, Frank Bettendorf, Charles Brumm, John Dufour, Happy Haft, Norm Imeson, Bob Maupin, Jim Parks, Mike Stone, Homer Ratcliff, Mel Hurd, Don Leach and Frank Devore. Script writers are Shirley Marsh, Joan Millis, Pat Hutchins, Marie Greene and Kathy Chapman.

Students and faculty will have the opportunity of seeing the station in operation during open house next Monday, March 28.

Colorful Decor Found in KHSC

Humboldt State's KHSC may not be the largest or the most powerful college station in the west, but the likelihood is that it may be the most colorful.

Recently a profusion of brilliant pigments was applied to the formerly modest white acoustic walls. When the painters were through, these were the results:

The lobby is finished in a flame red, the adjoining office in desert coral. Contrasting these colors is the hallway with walls of bright sea foam green. The main classroom, also Studio A, was done in apple blossom pink, the control room in coral, the music library nude tan, and Studio B is set off in canary yellow.

The colors are quite a transition from the more sombre shades found in most radio stations.

Of All Things

By SYD STIBBARD

There was a time when I lived in Redwood Hall and I was able to get to school on time in the morning because of two things; one, the steam pounding in the radiators and, two, the wild-lifers tromping up and down the halls dragging dead and half-dead animals and fish behind them, shouting to everyone to come have a look . . . It got me up alright—that and my alarm clock.

When I moved across the street from Redwood Hall, my friend Lee would wake me just before he went to work. That got me up—that and my alarm clock.

Now, I have two alarm clocks. One is set to go off about ten minutes before the other, but the first one runs fast and the second one lags, so about the middle of the week it takes five minutes of sleepy peering and lightning mental calculation to know what time it really is.

I have lain there so long, sometimes, trying to figure the relationship between two faulty-set, faulty-running clocks and

Dr. William Ladd To Study Radio

Dr. William Ladd, HSC professor in radio and speech, has accepted an assignment on a state-wide committee to study the extent of development of radio and television occupational curriculums in state colleges.

The committee, under the chairmanship of Mr. Albert Graves, dean of educational services of Los Angeles State College, will meet this spring and twice next year. A final report of recommendations will be submitted to the State Department of Education in the spring of 1956.

Dr. Ladd was selected for the committee in a meeting of state college presidents held on January 26 and 27 in Sacramento.

Greenwich - honest-to - goodness-time, that I have been hopelessly late for school in consequence.

What I will have to have, beside the two erroneously set alarms is a third clock hidden behind them that does not ring, but only tells the correct time, so that my mornings of doubt and frantic calculations may forever be ended.

Press-Radio Club Set Social Meet

The newly organized Press-Radio Club plans to hold a social meeting at 7:30 Sunday evening, March 22. Mr. and Mrs. Craig Stark will host the evening affair.

A special speaker from one of the two fields will be guest of the group which will meet at the Stark home. Refreshments will be served.

The group recently named Stark as temporary president pending official recognition by the student council with Don Goble chosen vice-president and Blanche Harp-ham, secretary-treasurer.

Membership in the club is still open, Stark said. The group met Wednesday at the home of Mrs. Mary Baker, 2067 Sequoia Street, where future plans were discussed.

LUCKY DROODLES! GET 'EM HERE!

WHAT'S THIS? For solution see paragraph below.
Droodle suggested by Norman Gerber, C. C. N. Y.

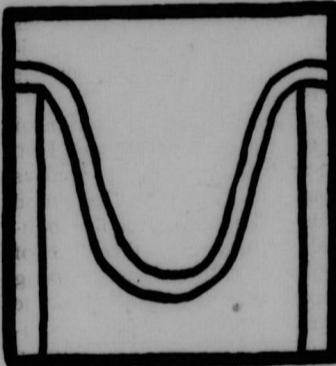

HAVE A LITTLE FUN when you smoke. Enjoy yourself. Give yourself the pleasure of a better-tasting Lucky Strike. The enthusiasm often inspired by Luckies' famous better taste is illustrated in the Droodle (right) titled: Alphabet soup for Lucky smoker. So why *stew* over what cigarette to smoke? Luckies' taste is *letter*-perfect. After all, L.S./M.F.T.—LuckyStrike means fine tobacco. Then, that tobacco is *toasted* to taste better. "*It's Toasted*"—the famous Lucky Strike process—tones up Luckies' light, mild, good-tasting tobacco

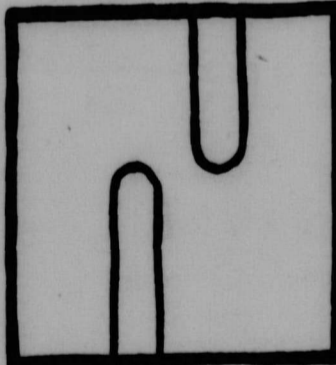

to make it taste even better . . . cleaner, fresher, smoother. When you light up, enjoy the better-tasting cigarette . . . Lucky Strike.

Stibbard Work Up in Gallery; 'Capable Artist'

By CRAIG STARK

Cartoonist, writer and artist, Sld Stibbard's offbeat but pleasing personality is apparent in the one-man show of his work now on exhibition in the Audio-Visual Gallery. The exhibit will continue through April 1.

Stibbard, a sophomore art education major, is probably more widely known for his talented cartoon work, exhibited weekly in the coop, and for his weekly Lumberjack column, to be found this week on page 4.

In this exhibition, however, he proves himself a capable artist and an unusually able technical craftsman. The humor brought out less subtly in his cartoons still gleams through the ink sketches of "Chickens," but there are other moods in the exhibition.

The sombre, yet translucent feeling of "Crossways," an ink and tempera work, presents an interesting contrast. The perspective of the piece borders on the surrealistic; the gleams of color in the traffic light against the gray tones of the background provide an unusual but pleasing range.

Of still another mood is the lithograph pencil and chalk drawing of "Nounouche." This is also dark, but it is a warm and friendly, twilight feeling of a young child.

Perhaps the most beautiful of the exhibition in my opinion is the nude done in charcoal and chalk. There are few more commonly attempted subjects in art than the effect of light on the human skin and body. In this work, Mr. Stibbard has succeeded more completely than many artists judged by the world his superiors.

CLASSIC HERE SATURDAY

"The Oxbow Incident," movie classic sponsored by the Film Club, will be shown in the college auditorium Saturday night at 8 p. m. Admission is 75 cents.

Seven Student-Directed One-Act Plays Scheduled Sunday, Monday

Campus Station Has Affiliation With IBS Group

While on the air this semester for the first time, Radio Station KHSC has been affiliated with the Intercollegiate Broadcasting System since 1952. The IBS, a non-profit corporation, is owned and operated entirely by the member campus stations. The purpose of the college network of stations is to exchange programs and ideas, to aid in the solicitation of national advertising and to further the growth of the campus radio movement.

The system, financed by annual dues paid by its stations, was founded at Brown University in 1940. At the present time 110 college stations are in membership.

KHSC is under the jurisdiction of U. S. area 12 of the IBS, with headquarters in Cheney, Washington.

Request Vending Machines for HSC Buildings

Vending machines, to be placed in the ad building, dorms and science buildings, was a project suggested at last week's Student Executive Council meeting. Coordinator of Student Affairs Dick Harmer was appointed to look into the availability of different types of machines and it was decided to write to the President's Council for permission to install machines and then to make a survey to determine the type of machines most desired.

A question of why mail addressed to students in care of the college cannot be delivered brought about the recommendation that Dick Harmer find out if delivering the mail is the responsibility of the state rather than the ASB.

Jim Nameth, rally commissioner, announced that tryouts for yell leaders would be held in May and will be announced one month prior to tryouts. He reminded the council that it was their responsibility to choose the three men yell leaders and added that rally committee is working on a score sheet to be used in choosing them.

Richard M. Thomas, regional secretary of the World University Service, wrote to the council saying that he will be in Arcata March 29 and 30 and wishes to talk with as many council members as possible.

A series of seven one-act plays will be presented on the two consecutive evenings of March 27 and 28, in the college auditorium. Four of the presentations will be given Sunday evening, and three on Monday.

Sunday's series will include "Moonshine," directed by Don Leach, featuring Larry Flammer and Don Evangelinos; "The Happy Journey" by Thornton Wilder, directed by Kathy Chapman, with Larry Mitchell, Jamesetta Stibbard, Mary Ann Hill, Bob Chapman and Eugene Giroux; "Mooney's Kid Don't Cry," a Tennessee Williams play, directed by Gene Marks, featuring James Sullivan and Virginia Campbell; and a scene from Maxwell Anderson's "Winterset," directed by Tom Murdoch, with Ann Peithman, Bob Maupin and Pat Hutchins.

The Monday offerings will be "A Marriage Proposal," by Chekov, under direction of Homer Ratcliff, in which Kathy Chapman, Deyrol Anderson and Wally Sinclair will appear; "The Woman Who Was Acquitted," directed by Joline Benites, featuring Frank Bettendorf, Louis Davis, Bob Alender, Craig Stark, Don Filbert, and Gunvor Robbert; and "Hansel and Gretel," a children's play, directed by Pat Quackenbush, with Chuck Coon, Jackie Loeb, Beverly Dahlen, Fran Stark and Jerry Chase.

Both evenings of entertainment will be presented at 8 p. m. in the college auditorium. Admission is free, and the public is invited.

KIEM Official To Speak Here

Eddie Arnold, program director of Station KIEM, will be guest speaker when the Press-Radio club meets Sunday evening at 7:30 p. m. The meeting will be held at 1240 G street, Arcata.

Arnold will discuss program directing and newscasting with members of the club. Anyone interested in the field of mass communications is welcome to attend the meeting, President Craig Stark said.

Student's Mail To Be Delivered

A solution to the long-standing problem of what to do with student mail addressed to Humboldt State college was promised this week by Richard E. Harmer, coordinator of student affairs.

Mail addressed to students at Humboldt State has been returned for correct addressing under a regulation announced by the Dean of students office last fall.

Acting on a request by the student council at its last meeting, Mr. Harmer said that a student assistant would be hired to distribute the mail.

Students were still requested, however, to notify correspondents of their correct address.

Faculty Members In Community Play

Two HSC deans, Miss Kate Buchanan and Dr. E. Nedd Girard, have prominent parts in the Arcata Community Players production of Sam and Bella Spewack's "My Three Angels."

The play, which began a three-night run last evening, is being directed by Miss Buchanan, dean of activities. The plot revolves around three convicts who come into the lives of a family during a crucial period. Dr. Girard, associate dean of guidance, is featured in the role of one convict, Jules.

Curtain time for the production is 8:15 p. m. for performances tonight and Saturday. Tickets are available from the cast and all members of the Arcata Community Players.

Montana Foresters Visit Humboldt Area

Twenty-six senior forestry students from Montana State University, Missoula, will study redwood logging and mill operations in the Arcata-Eureka area March 31-April 4.

Making arrangements for their tour here is Edwin W. Pierson, assistant professor of forestry-lumbering at Humboldt State College.

Visiting the redwood area is part of a several-week tour being made by the Montana group, which will leave Missoula March 23. The students will come here from Coos Bay, Oregon, where they will have spent several days studying fir logging operations.

SWINGING THE AXE

By MURL HARPHAM

Our conference brothers of the south are way ahead of our baseball and track squads. The other schools have had either baseball games or track meets or both, while to date our boys haven't participated in intercollegiate play.

The track team goes into action next week against San Francisco State and Cal Aggies at Fresno. Intercollegiate baseball also starts next week for the Jacks.

Some of the times turned in by the Aggies thus far are pretty good considering the time of the season. 100—10.3; 220—23.3; 440—53.8; 880—2.08; mile—5.10; two mile—12.20; 120 high hurdles—16.5; 220 low hurdles—27.4; high jump—5 ft., 6 in.; broad jump—19 ft., 6 in.; pole vault—11 ft., 6 in.; shot put—43 ft., 5 in.; javelin—155 ft., 3 in.

The only times from San Francisco are in the 100 and 220 yard dashes. Oresse Elmore has ran the century in 9.9 and the 220 in a record breaking 21 seconds flat.

On the baseball scene around the conference the Cal Aggies have beaten Nevada twice, 12-10 and 4-1; College of Pacific twice, 9-7 and 7-2, and lost one to Sacramento State 9-5.

Intramurals

The intramural race saw a change last week when Nelson Hall upset Redwood Hall (upstairs) while Redwood (downstairs) defeated the Knights. The loss dropped the upstairs boys a game behind the leaders.

Last Wednesday night the league leading Little Loafers were to match buckets with both Redwood (downstairs) and Nelson Halls. Results were not known in time for publication. The results of those games were to decide which of the top three would be champions. The top teams are the Little Loafers, Redwood (downstairs) and Redwood (upstairs).

The Great Maderos Falls

Chico State's all-around athlete, George Maderos, met his Waterloo recently in the annual Pacific Coast Intercollegiate Boxing Championship fights while scrapping in the light-heavyweight class.

Previously Maderos had run up twenty some consecutive wins, but fell hard before the gloves of Roger Rouse of Idaho State in 1:32 of the second round.

Tennis News

Late this week Tennis Coach Franny Givins set up a ladder elimination contest for his squad to determine the varsity material that will travel to Davis next Friday and Saturday for matches against Sacramento, Nevada and the Cal Aggies.

Golfers Leave For Two Meets

The Humboldt State College golf team moved off its home course yesterday and headed for San Francisco for the first of two medal play tournaments to be held this week-end.

Coach Phil Sarboe's college linksters will match scores with San Francisco State and Sacramento today and then depart for Chico to participate in a medal play tournament with Chico State and Nevada Saturday.

The decision of whether additional matches will be scheduled rests on the teams showing at these two tournaments. Sarboe said. Captained by Bob Glende, the Jacks will field veterans Dennis Boese and Joe Kramer and newcomers John Halbach and Alan Hendrickson in the top five berths.

Trackmen Preparing For Collegiate Meet

With the first college track meet only two weeks away, Coach Bob Doornink's HSC track squad ran through an intrasquad meet late this week. Results were not ready for publication.

With the largest track team in the history of the school working out every day, Gerald Partain, assistant professor of forestry-engineering, has volunteered his services to the squad. Partain was an outstanding trackster a decade ago at the University of South Carolina. He also played baseball.

Partain ran the 440-yard dash in a blistering 48.6 and ran a leg on the mile relay team. Partain will help Coach Doornink with the dash men and hurdlers.

Next week the track squad will meet Ferndale and Arcata high schools in a practice session to provide experience for both the college and high school boys. The following week the HSC cindermen will travel to Frisco for a tri-meet with San Francisco and the Cal Aggies.

TRACK SCHEDULE

April 9, tri-meet with San Francisco, Cal Aggies and HSC at San Francisco.

April 22, dual meet with Shasta Junior College at Arcata.

May 6, dual meet at Sacramento State.

May 13 and 14, Conference meet at Chico.

LUMBERJACK

Friday, March 25, 1955

HURLS TOMORROW NIGHT—Ben Henke, left-handed Lumberjack mound artist, will start tomorrow night when the Hilltop baseballers meet a tough Alumna team in the Arcata ball park. Henke was one of 1954's pitching mainstays.

Diamond Squad Defeats Eureka

The HSC Lumberjack baseballers opened the 1955 season with an 8-1 exhibition win over the Eureka High Loggers. At the same time the HSC "B" squad, coached by Dale Thomas, battled to a 5-5 tie with Arcata High.

Ex-Eureka High all-around athlete Ralph Mayo led the Jacks varsity squad with two booming home runs, a single and played excellent field game at his second base spot.

Jack Kinser, also a former HSC athlete, contributed a double and a single to aid in the defeat of his alumnus.

After a scoreless first inning, Mayo blasted his first homer over the right center wall. In the same inning with two men aboard, Kinser unloaded his two-run double to give the Jacks a 3-0 advantage.

In the bottom of the second frame the Loggers scored their lone run after Catcher Allan Schrader smacked a double against the left field fence and was able to score on First Sacker Zeke Van DeVenter's long single to right.

HSC's Ossie Gooden entered the game in the sixth and when the game was over he had hit a double and a single in two trips.

Jim Richardson started on the mound for the Jacks and in five innings allowed only three hits. Al Gray took over in the sixth, blanking the high school boys while fanning two.

HSC Baseballers Face Alum Squad In Night Game

Coach Ced Kinzer will hold an intersquad battle today at 3 p. m. on the diamond above the football field in preparation for the exhibition game tomorrow night at the Arcata ball park against the HSC Alumni. Game time is 8 p. m.

The Alumni squad is composed of such recent HSC stars as Dave Dana, who graduated from the college in 1952 after playing baseball and football, and who will manage the team; Ray Mechals, a June graduate, will probably start at first base; Keith Darling, also a June graduate, will romp in the outfield and make his big bat boom at the plate; Eddie Oliveira, former Jack's star and now Arcata High coach;

Kenny Dunaway, one time HSC most valuable player award winner, will see action in the infield; Cal Phelps, a long hitting outfielder, and little Jug Davis, who needs little build up.

Davis is ineligible this season and will keep in shape for next season by playing with the local teams. Darling and Mechals have too much outside work to turn out full time for the Jacks, while Cal Phelps dropped from school.

Other former Jacks expected to play are Maury Ayala, who has four years of experience in the Coast League and will share the pitching duties with Bob Keszely; Dale Sorenson and Don Vanni should see action in the infield.

Ben Henke will probably start on the mound for the Lumberjacks and will be backed up by Al Gray and Jim Richardson.

Jack Menzia will be behind the plate with Phil Huff at first, Ralph Mayo on second, Bob Lawson at shortstop and Bill Tuttle on third.

The outfield will be composed of Larry Taylor, Jack Kinser and Bob Flockhart with Ossie Gooden and Jim McAuley alternating.

WAA Cagers Split Santa Rosa Tilts

Eleven members of the WAA recently returned from Santa Rosa where they represented the college in the annual Santa Rosa basketball play day. Eight teams were present at the invitational tournament.

The Humboldt State team played two abbreviated games, defeating Chico State 16-13, and losing to Santa Rosa 16-15. The purpose of the annual play day is to foster better interschool relations, and to give future women physical education teachers practical experience in the field.

While in Santa Rosa, Dr. Louise Watson, coach of the team, passed the National Rating Examination for women's basketball officials.
