ARCATA, CALIF., FRIDAY, APRIL 5, 1957

No. 25

Tom Fay (left) and Don Harris direct a group of Del Norte High School students on a tour of the HSC campus. The tour was a portion of the activities the high school seniors participated

in Tuesday, the first of two high school visiting days. Approximately 125 students from Eureka High will be on campus Wednesday.

Mrs. Myrtle McKittrick To Be Founder's Day Guest Of Honor

Mrs. Myrtle McKittrick, retiring registrar and admissions officer, will be guest of honor at the annual Founders' Day social hour and banquet of the HSC Alumni Association at the Eureka Inn tomorrow at 8:30 p.m.

This is the second year the Alumni Association has celebrated Founders' Day formally. April 6, 1914, was the day instruction began at what was then Humboldt State Normal School.

Dr. Cornelius H. Siemens, college president, and Dr. Homer P. Balabanis, dean of instruction, will speak at the banquet. Prof. Leland Barlow, chairman of the Division of Fine and Applied Arts, will sing a few selections.

Members of the Alumni Association handling banquet arrangements are Mrs. Kay Smith, in charge of the banquet and program; Mrs. Francis Stebbins, social hour; Mrs. Eleanor Kellenberger, decorations. Francis Givins will be master of ceremonies.

All-School Picnic Scheduled May 15

The seventh annual All-School Picnic is scheduled for Wednesday May 15 at Camp Bauer, near Korb, California.

On this day school will be suspended in favor of a day full of activities which have remained basically the same since its innovation in 1950, lending itself to be a tradition here at Humboldt State College.

The day begins with a two performance Faculty Show in the morning, immediately after which a caravan of cars leaves the campus carrying the holiday-makers to Camp Bauer for a day of sports, entertainment and a big picnic dinner followed by an entertainment hour around a campfire with the rest of the, by now, evening spent dancing on an open air pavilion.

The entire activity which is a voluntary student effort with the single exception of the Faculty Show, originated out of a need, it was felt, for an all campus

(continued on page 10)

HSC Debate Team In Rugged Tourney

Humboldt State College's top seeded debate team of Jim Arnot, John Mayfield and Jim Shaver are at the University of Nevada this weekend, Friday and Saturday, April 5-6, participating in the rugged District I West Point Invitational elimination tournament.

The two day event of eight debate rounds pits the best debate team from each participating college or university in the California-Nevada-Utah-Arizona district against the other top seeded teams in an effort to select three district I nominees to represent the far west at the annual West Point Debate Championship.

While the Lumberjack entry is green by comparison with many of the major forensic powers entered, and is therefore not seriously a contender for the "top three" of the district, the Humboldt State College team hopes to sharpen its persuasive axe for the national convention and tournament of Pi Kappa Delta which takes place during Easter vacation.

The 'Jack team scheduled a practice debate with Sacramento State's Hornets en route to the Reno competition on as to be ready for the first round.

The 1957 West Point eliminations are being determined differently from previous years. Rather than selecting teams on a "win-loss" record, the teams will be judged by debate coaches who will assign "quality rankings" with the three best teams on the basis of cumulative scores earning the West Point bids.

Humboldt's three man debate team has had two years of varsity competition and is competing at Reno among others against teams

(continued on page 10)

Humboldt Football Schedule To Be Longest In Nation

Humboldt State took on what may well be the longest football schedule in the nation this week when is signed Hamilton Air Force Base as the twelfth opponent for the 1957 season.

The Lumberjacks will meet Hamilton Field in Redwood Bowl on Saturday night, Nov. 23. The game will be the next to last game of a season that begins on Sept. 14, just two weeks after the start of practice, and goes straight through the season without an open date.

Eight of the 12 games will be played at home — possibly the longest home schedule in the nation. Two years ago Humboldt played a what was unheard of home slate of nine games in an 11-game schedule. Last year Humboldt played six of 11 games at home.

Athletic Director and Head Football Coach Phil Sarboe said he made arrangements for the game with Major Ralph E. Phelps, Hamilton Field athletic director, when he accompanied the baseball team on its swing to the bay area two weeks ago.

Sarboe pointed out that Hamilton was eager to negotiate a game because Fort Ord, one of the Flyers' regular opponents, has dropped football. The game also will benefit Humboldt because it will fill an open date between the Southern Oregon game of Nov. 16 and the Thanksgiving day game with Lewis and Clark on Nov. 28.

YOUTH GROUP INVITES

Humboldt State College students are invited to join the Judson Fellowship (college-age group) of the First Baptist Church of Arcata. David Olson, president of the group, will welcome new members at the Sunday evening meeting, April 7, at 6:30 p.m. in the Church.

FIRST SENIOR DAY TUESDAY; EUREKANS COMING APRIL 10

The first of the traditional Senior Visiting Day's was held last Tuesday with some 250 senior students from Leggett Valley, Fernside, Fortuna, South Fork, Hoopa and Del Norte attending. Students from Eureka are scheduled to come April 10.

Student Produced One-Act Plays To Be Presented

Three student-directed, student-written one-act plays will be presented this evening at 8:15 in the college auditorium.

The three plays, "Merrily We Crawl Along," by Bob Stankus, "Cain," by Anne Johannsen and "Room For Rent," by John Dell, were chosen as being among the best one-act plays written by Dr. John F. Pauley's 1955 writing class.

"Room For Rent," a comedy that takes place in a rented room in San Francisco, will be directed by Homer Ratcliff, a Speech-Drama major. The cast includes Louise Lawrence, Gene Clausen, Dion Wright, Harman Bonniksen, John Thomas, and Wally Sinclair.

"Cain," a serious play dealing with the biblical story of Cain and Abel is under the direction of John Tonge, also a Speech-Drama major. The three member cast will include John Smith, Jr., Buck Downard and John Swierstra.

"Merrily We Crawl Along," a light drama is directed by Speech-Drama major, Wally Sinclair. Everything in the play rotates around the hobby Jill is taking care of — worm raising! Those in the cast are Jim Sullivan, Aileen Fredin, Elvera Ryer-son and Ed Spencer.

The plays will be presented to-night only, in the college auditorium. Tickets are 50 cents. Season ticket holders admitted free.

'Tulip Tea' Set Tomorrow Here

The HSC choir and chorus will perform a group of numbers for the annual Tulip Tea, scheduled tomorrow at 1:45 p.m. in the auditorium.

Featured soloists will be students who have recently won scholarships from the Federated Womens' Clubs of Humboldt county, sponsor of the tea. They are Claudine Ray, vocalist, Vernon Ludwig, violinist, Mary Massey, pianist. According to Mrs. Wallace Martin, program committee chairman, several other numbers will be performed.

Tea will be served at Nelson Hall and ushers will be provided by the Spurs.

First Issue Of HSC's 'Hilltopper' To Appear On Campus Wednesday

The first issue of "Hilltopper," a bright, newsy magazine of non-fiction articles, will appear on campus next Wednesday.

It will be sold in a booth in the foyer of the Administration building and by suitably decked out vendors at other strategic locations on campus. Assisting in the sales program will be members of Intercollegiate Knights, who will operate a booth in the Coop.

The first printing is limited, and Tom Freeman, distribution manager, urged students, faculty and staff to get copies early. Price is 25 cents.

Containing 28 pages and printed on slick paper, the magazine is profusely illustrated and includes three picture pages. The cover is done in green and contains a black and white photograph that is emblematic of the magazine's name.

The magazine contains a nicely-balanced variety of articles. Besides the picture pages, the magazine includes six feature-length articles and two shorter pieces.

A special feature of the issue is staff's selection of an HSC "Athlete of the Year" with a warm profile of the athlete written by Arnold Carter.

The lead story, "Freshman at Forty," is a narrative of college

The first Senior Visiting Day, one of two this year, got under way Tuesday morning with a general orientation lecture by Miss Kate Buchanan, associate dean of students.

After the assembly the seniors visited classes and had a box lunch in the gymnasium. Entertainment was provided by singer Jesse Washington and his Half-Notes, the Jerry Moore Quintet, a welcome by Pres. Cornelius Siemens, emphasizing "that Humboldt is one of the most progressive middle-sized colleges on the Pacific coast."

Mike Fielding, student body president, gave a short talk on the friendliness of HSC and the general purpose of Senior Day. Dale Callihan spoke on the Frosh Camp and the many activities that take place at Frosh Camp. Roland Atterbury in his speech, mentioned the Jazz Concert to be held Monday, April 22 and invited all the visiting seniors to attend.

After lunch the students went to a special advisory session covering their major field of interest.

To complete their Senior Day the students took a guided tour of the campus escorted by the Spurs, IK's and the Circle K's.

"Dr. Bernard Hall, senior day adviser, should be given a large hand of applause for the many weeks of preparatory work involved. Thanks also should go to Dr. Don Karshner, dean of students, and Miss Buchanan," said Atterbury, general chairman for senior day.

The second Senior Day, with students from Eureka Senior High and possibly the seniors from St. Bernards High School as Humboldt's guests, next Wednesday, will follow the pattern of Tuesday's events.

Card Stunts For Humboldt State?

Rally Club sign up sheets are now circulating around the Humboldt State College campus in an effort to determine whether or not students want card stunts at future home football games. Sufficient interest must be shown in this proposed campus activity before there is a possibility of having this addition to the rapidly expanding college.

life as seen by an older student, Mrs. Harmony Harper Moreland. Fran Stark has contributed a personality sketch on Dick Bibler, creator of the "Little Man on Campus" cartoon panel, and a two-page picture layout of behind the scenes activity in the Humboldt Players production of "The Caine Mutiny Court Martial."

In a frank, incisive first-person article, Tony Vasquez describes the feelings and experiences of a student who is a member of a minority group. Dick Laursen, the Lumberjack's conservation reporter, has written a story of the Big Lagoon fisheries project that is rich in imagery and detail.

Chloe Kiggins DeBrunner, editor of the magazine, also has written on new and old campus dating possibilities, and Sid Fauerbach has authored a history of the Lumberjack Axe that is

They Represent You

Now that ASB general election petitions are available, it's time to think about reputable candidates to fill these important offices. Many times the person most suited for the job won't get elected because he wasn't even nominated! Then the voter is forced to make a choice between two lesser candidates. Of course, such situations are more the exception rather than the rule, but, nevertheless, they do happen. To prevent a case like this from arising, care should be taken in making nominations.

For example, many times "best friends" will nominate each other for positions. This is understandable, but friendship shouldn't be the only criterion for nominating a person to an office. There are many things to take into consideration: dependability, ability to accept responsibility and some background in or knowledge of student government, to mention only a few.

This year we have been fortunate in having a fine set of student body officers. Each, I am sure, has done the best of his ability and will continue to do so for the remainder of the year. To assure that next year's ASB duties will be fulfilled equally as well, nominees should be selected carefully. Remember, these students will represent YOU.

The Inquiring Reporter

QUESTION: HSC has for two years had championship caliber baseball and track teams. Why aren't these events better attended?

Clifton Langlois, junior, Psychology major. "I don't think they are advertised enough. There is too much emphasis placed on other things."

Jack Pederson, junior, Psychology major. "They are both afternoon sports and a lot of students work and some also have afternoon classes. There is also not much color, such as cheer leaders and cheering sections."

Carol Priestley, freshman, Radio and T. V. major. "Some are, of course, too far away, and they are also not advertised enough."

Lois Morrow, freshman, Elementary Education major. "There is no school spirit built up and not enough emphasis placed on them as far as advertising."

Ray Flynn, junior, Forestry major. "Because the most interest is in other sports that are better understood because most people at one time or another have participated in them. Also they are not as colorful with school spirit, cheer leaders, and they do not have the spirit of night events with social events such as dances following them."

Chris Evens, junior, Psychology major. "There is more communication between the school and such sports as football. Also this being the first opening communication between and among the student body. Another important fact is the degree of emotion between the players and the fans."

LITTLE MAN ON CAMPUS

by Dick Bittler

Minutes of the Student Council

MARCH 28, 1957

The meeting was called to order by Vice president Jim Arnot on the above date. Those present were Joyce Weaver, Jim Barnes, Jim Callison, Don Peterson, Joe Chappelle, Jon Mitts, Chip Brodie, Mike Fielding, Pat Duffy, Howard Goodwin, Jack Sears and Roberta Johnson.

The minutes were approved as submitted.

CORRESPONDENCE

A note was read from Jon Mitts inviting the council and advisers to a Crab Feed on Thursday, April 11, at 7 p.m. at his home.

A letter was received from the Council on Student Travel informing the council members of the added number of trans-Atlantic sailings to their 1957 schedule.

OLD BUSINESS

A letter is to be sent to each class officer as a reminder that the council is in favor of an Inter-class meeting of the four presidents.

It was reported that the Leadership Conference Booklet is finished and being shipped to each high school. A booklet was given to each council member.

ICS has appointed a committee to draw up the ballot for the forthcoming constitution election. Jean Sylva will act as a resource person on the committee.

It was moved, seconded and passed that the ASB Election be scheduled for Wednesday, May 1, and petitions will be available on Wednesday, April 3.

NEW BUSINESS

There was some discussion about securing a sign similar to the plaza sign to be placed somewhere on campus. It was decided to turn this idea over to ICS and have them discuss the possibility of price, position and approximate kind of sign.

It was recommended that the idea of securing a billboard to put on the freeway be looked into. Jon Mitts is to look into the possibility along with Dick Fauerbach, Public Relations Committee member.

COMMITTEE REPORTS

Jim Callison reported that he is to receive a letter from Laurel Dell Lodge within the week quoting prices for the ASB retreat.

The ASB election was discussed and the committees were appointed. There will be a meeting Monday evening, April 1, in the Coop at 7 p.m. for the election and jazz committees.

It was moved, seconded and passed to accept the recommendation that Phil Bartlett be appointed as Business Manager of the Lumberjack.

COMMISSIONER REPORTS

ICS Commissioner reported that a "Hello Day" will be held on campus on Wednesday, April 3.

Class organizations were also discussed at the meeting and the information will be brought to the council.

Publications Commissioner reported that the Hilltopper, the magazine being published by the Journalism Class on campus, will be ready before Easter Vacation and will be sent to the high schools. It was also reported that the Sempervirens will be here by Wednesday, May 15.

The Rally Commissioner reported that there will be a girls drill team next year headed by Miss Slagle. The yell leader and song queen tryouts are scheduled for Tuesday, April 9, in the Little Dining Room at Nelson Hall.

Board of Finance: It was moved, seconded and passed to accept the following:

1. The salary schedule for the Graduate manager as presented by the Board of Finance.

2. The transfer of \$15 from the Executive Council Account to the ASB President's Account.

President's Report: Mike read three letters from Van Tonkins referring to the Jazz Concert to be held on campus on Monday, April 22. Committee members were informed of their specific duties. The Entertainment Committee for the college will be appointed at the retreat. Mike passed around the PSPA (Pacific Student's Presidents' Association) 1956 report to the council.

It was moved, seconded and passed to give Jack Sears a vote of thanks for his service and competence as Graduate Manager.

Jon Mitts, chairman of 1957 Homecoming, reported that there will be dedications of the new buildings on the Saturday of Homecoming. State officials will be on campus at this time.

There being no further business, the meeting was adjourned.

Respectfully submitted,
Roberta Johnson,
ASB Secretary
Jim Arnot,
ASB Vice President

Two former presidents of the United States died on the same day, Thomas Jefferson and John Adams; July 4, 1826.

the lookout

Prof. Lloyd Jones, while driving down W. First street yesterday shortly after noon, crashed into the rear of a black Hudson at the corner of Salem and W. First street. While Prof. Jones watched bewilderedly, a lady stepped from the driver's seat of the Hudson, walked to the rear of her car, announced, "Well, my car's not hurt!" and got back in the Hudson, and drove off leaving Prof. Jones there to face the police alone.

VASQUEZ REPORTS ON 'HELLO DAY'

(Ed. Note: The Lumberjack assigned Tony Vasquez to determine whether last Wednesday's "Hello Day" on campus was reasonably successful.)

By TONY VASQUEZ

Last Wednesday was set aside as the first "Hello Day" on the Humboldt State College campus. "Hello Day" has come and gone and Humboldt State is and always has been a friendly college. The complaint which came to the attention of the executive council may be taken as an individual circumstance and not as necessarily being reflective of all the students or visitors on campus.

Humboldt is a friendly college. An overwhelming majority of students when polled as to whether Humboldt was friendly answered with an emphatic "yes."

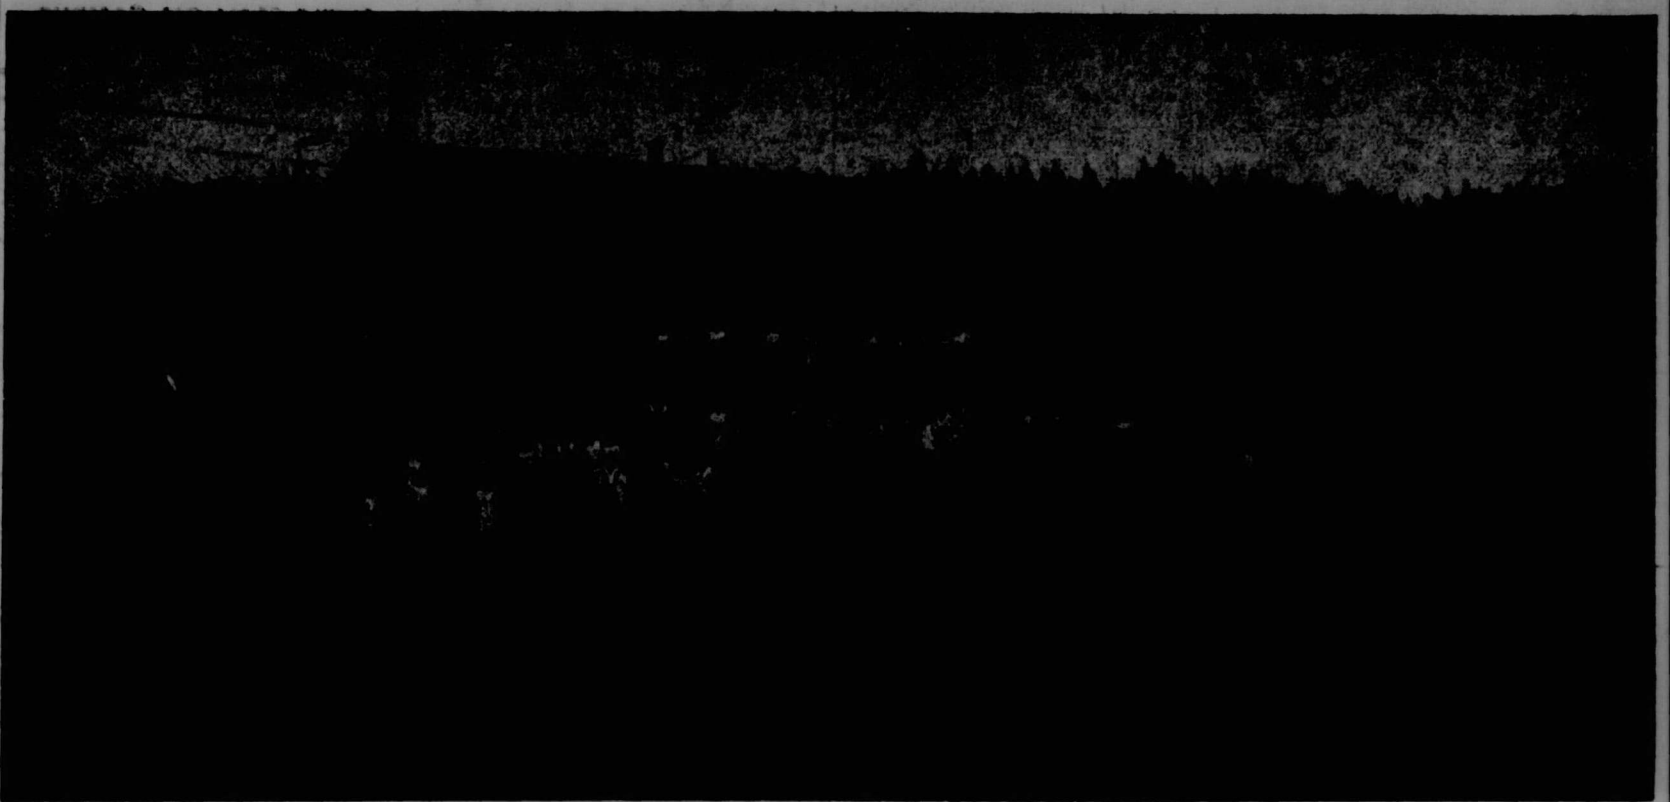

"Hello Day" did not make Humboldt a friendlier college. It was already about as friendly as it could get. Posters were displayed proclaiming "Hello Day." People read them but were little affected by them. It never occurs to most people on campus that they are unfriendly.

Some people are shy. Therefore a "Hello" may not be readily forthcoming from them. It is up to the individual to take the initiative and give the first friendly salutation. It should give one a good feeling to be friendly with everyone on campus.

"Hello Day" dawned beautiful and sunny and the wind was blowing. It was a beautiful blustery day. I said "Hello" to everyone I met. Everyone said "Hello" back. It made me feel good.

The purpose of "Hello Day" was to make everyone conscious of Humboldt's friendly tradition. A good western "Hello" should be the rule rather than the exception when walking about on campus.

Don't pass up a collector's item. The very first issue of HILLTOPPER will be on sale next Wednesday.

How the campus has changed! This view of the Humboldt State plant and student body dates back to about World War I. The school was moved from the old Arcata Grammar School

buildings in downtown Arcata to its present hilltop site on January 1, 1916.

'Jazz Showcase' To Come April 22

"Jazz Showcase '57" will be the first big name jazz troupe to come to Humboldt State. On Monday, April 22, at 8 p.m., this troupe will perform in the college gymnasium.

Some of the top artists who will be here to perform are the Pete Jolly trio, RCA Victor recording stars; Jack Montrose, RCA Victor, Atlantic and Pacific and formerly with the Stan Kenton orchestra; Donna Fuller, Liberty recording star; and Sonny Criss from Jazz at the Philharmonic Tours of 1949-50.

These stars have traveled from one end of the country to the other giving performances. This troupe was very much in demand by other colleges and HSC is fortunate in being chosen to be the lucky one. If this jazz concert is a success, HSC has a good chance of being established as a circuit stop. This would mean more top entertainment in the future.

The members of the Executive Council have been working on the plans for this jazz concert. Also helping are the Intercollegiate Knights, Circle K and Comus.

The public is invited to this concert which is being sponsored by the Associated Students of HSC. Admission is 75 cents for students with Student Body Cards and \$1 general admission.

San Francisco's Golden Gate Park contains 1013 acres.

Humboldt State College To Mark 43rd Birthday Anniversary Tomorrow

By Sid Fauerbach

Humboldt State will mark its 43rd birthday anniversary tomorrow.

The college began as Humboldt State Normal School on June 16, 1913, in action by the California state legislature. A bill submitted by Hans Nelson of Eureka, led to the establishment of the college. Instruction officially began on April 6, 1914, in old wooden structures located at 11th and M Streets, formerly the old Arcata Grammar School, with 61 students and a faculty of six. The faculty included HSC's first president, Nelson B. Van Matre, who doubled as an instructor.

On January 1, 1916, the school was moved to its permanent site of 51 acres on which temporary wooden structures had been constructed. The campus since has been enlarged several times, now occupying approximately 145 acres.

The first commencement took place on May 26, 1915, with 15 students receiving diplomas.

In 1917 the state legislature appropriated \$245,000 for construction of the main building, which was completed and occupied in 1922.

In 1921 the name was changed to Humboldt State Teachers College and control was transferred from the local board to the State Board of Education. Also during this year three and four year curricula and the granting of the bachelor of arts degree in education were authorized.

In July, 1924, Ralph Swetman became president. He served until the summer of 1930, when Arthur S. Gist became president. The year found the completion of the gymnasium and the establishment of liberal arts curricula in the fields of biological sciences, English and the social sciences.

The college conducted a civilian pilot training school in cooperation with Pierce Flying Service under auspices of the Civil Aeronautics Authority from 1939 to 1941.

The tennis courts were completed in 1932 and the College Elementary School in 1933.

The name was changed again in 1935 to Humboldt State College, and the school was authorized to grant the bachelor of arts degree in the liberal arts. Two

years later the bachelor of education degree was authorized.

The year 1940 marked the completion of Nelson Hall, at the time the only permanent dormitory on a state college campus. In 1946 Redwood Bowl was completed.

Authorization of a general secondary credential came in 1947, making it necessary to offer a year of graduate work. Further expansion came in 1949 with approval of the master of arts program in education and the social sciences and the bachelor of science degree for certain specialized curricula.

Dr. Cornelius H. Siemens became Humboldt State's president in July, 1950, three months after the completion and dedication of Jenkins Hall.

Shortly after Dr. Siemens arrived the college began its biggest period of growth in both enrollment and physical facilities. In 1953 the library, biological science and corporation buildings were completed. The forestry-lumbering curriculum was added to the two-year occupational training program.

In 1954 the college won reaccreditation for five years by the Western College Association and the State Board of Education. In 1955 the wildlife building was completed and occupied.

Last year saw construction started on a new gymnasium, the art and home economics building and music building and further development of the wildlife plant. And this year has seen the completion of the home economics practice house, progress toward setting up a school of nursing, official approval for development of four-year programs in forest management, and development of many other programs and courses of study.

HSC has had a great growth from a small, struggling institution to its present enrollment of 1397 and professional staff of 124.

Building Programs Receive Cuts

SACRAMENTO — CIP — The building programs of four state colleges were cut a total of \$970,855 this week as a part of a whole-sale budget trimming by the Senate Finance Committee.

The cuts were partially offset by budget increases amounting to \$655,510 which the committee granted to three other state colleges.

Los Angeles State College took the biggest cut when its \$9,181,000 request was cut by \$446,800 to \$8,734,200.

Other cuts were:

San Diego State: \$242,855 — from \$9,572,800 to \$9,329,945.

Sacramento State: \$152,050 — from \$3,701,130 to \$3,549,080.

Fresno State: \$129,150 — from \$2,747,350 to \$2,618,200.

Los Angeles State College of Applied Arts and Sciences received the largest boost. The committee added 544,160 to the college's request for \$13,321,890.

Chocolates Passed By Joy Parlato

For many years it has been a tradition on campus for a girl to announce her engagement to the other girls by passing a box of chocolates.

The Sigma House girls were recently honored at such a ceremony when Miss Joy Parlato, a senior education major, announced her engagement to Mr. Robert Wotherspoon, a Fortuna

Big Moose Head Donated By Clyde J. Bacon

Clyde J. Bacon, supervising custodian in the maintenance department and an ardent big game hunter, recently donated a large moose head to the Wildlife Building.

The head, now hanging in the main hall of the Wildlife Building, has a spread of 50 inches. That is not a record, but the symmetry of the antlers makes the head above average. The animal was killed some 40 years ago by Mr. Bacon, in Alberta, Canada, and weighed approximately 1200 pounds. The weapon he used was a 303 British Winchester.

Mr. Bacon is a true 'wildlifer.' In his youth he hunted the area near Edmonton in Alberta, Canada and was able to bag deer, moose, caribou, bear and goats. He now spends his vacations hunting in the Blue Mountain and Desolation Valley areas in Oregon.

JAPANESE ART EXHIBITED HERE

That the current exhibition of Japanese art in the Humboldt State College gallery is one of the finest exhibits shown this year, is the feeling of exhibit chairmen Melvin Schuler and Glenn Berry.

Seventeen prints and ten kake-monos (wall-hangings) ranging from the secular and humorous to the religious, make up the interesting and colorful exhibit which will be shown through the month of April.

Pieces in the show are from the private collection of Dr. and Mrs. Joseph Trainer, Glenn Berry and Mr. and Mrs. Robert Kingsbury. Dr. Trainer, assistant professor of education, and Mrs. Kingsbury, college special services librarian, both spent several years in Japan in government educational services. Berry obtained his art collection while on duty with the navy.

Kenji "Ken" Yamamoto, Japanese art student at Humboldt State, lent his knowledge of the language and culture in assisting with picture mounting and hanging of the exhibit.

In giving background of the art work, Berry points out that the early Japanese prints had a strong influence on impressionist and post-impressionist artists of the latter part of the nineteenth century. But the recent American interest in Japanese art is a result of the contact with Japanese culture by American troops following World War II. West coast architecture shows the oriental influence and the current popularity of wood-block prints and other graphic media is traceable to the pleasure derived from Japanese prints.

LITTLE MAN ON CAMPUS

(by Dick Miller)

"Did you get an 'A' too?"

Forestry Students Win New Notice

Humboldt State forestry students have won new notice for their work in finding a new "World's Tallest Tree." The cover and picture in last Sunday's "Your Town" magazine of the Oakland Tribune features the tree and a lead story describes the manner in which it was found and surveyed.

The picture was taken by Mr. Gerald Partain on a field trip with his forestry students last month. It is a handsome view of the tree in the Rockefeller grove about two miles west of the dethroned champion, the celebrated Founder's Tree at Dyerville.

In a story by Virginia Dennison, staff writer, the magazine details how the forestry students found the Founders' Tree to be only 346.1 feet tall instead of its advertised 364.

"And a new tree, found in the same Humboldt Redwoods State Park by forest engineering students from Humboldt State College at Arcata, takes the championship title at 368 feet or 359.3 feet, depending on the side it's measured. Because of a 'lean' common to the tall trees the measurement varies" the article points out.

Election Petitions To Be Available For Two Weeks

Petitions are now available for the general elections of Wednesday, May 1.

Students desiring to run for an office can get a petition from the Graduate Manager's office or the Student Body office in the Coop. Petitions will be available for two weeks, but are due not later than Wednesday, April 24. Completed petitions should be turned in to the ASB office.

In the general election of May 1 the following offices will be filled: president, vice-president, secretary, treasurer, awards commissioner, organizations and activities commissioner, publications and publicity commissioner, rally commissioner and assembly commissioner.

This year elections will be held on two days, May 1 and 2. The voting will be held in the main hall of the Administration building the first day and in the Wildlife building and the Coop on the second day.

Members of the Executive Council have been working on the plans of the general elections. Helping also will be the Inter-Collegiate Knights, Circle K and Comus.

Revisions have been proposed to HSC's Constitution. These revisions have gone through the Inter-Club Senate and the Executive Council. In the general elections on May 1 students will have the opportunity to approve or disapprove these revisions.

PICNIC MEETING

There will be a general meeting of all the committee heads for the All School Picnic on Monday April 8, at 4 p. m., in Miss Kate Buchanan's office. All such persons are urgently asked to be there as it will be a very important meeting.

CIPA News

SACRAMENTO — (CIP) — A bill which would have given a state commission control over all college athletics in California is dead.

The Assembly Committee on Governmental Efficiency killed the measure Tuesday (March 26) when it sent it to an interim committee.

Assemblyman Charles H. Wilson (D-Los Angeles) introduced the bill following the Pacific Coast Conference scandal on payments to athletes. He admitted the proposal needed additional study and did not fight the motion to send it to the interim committee.

It's a puzzlement:

When you're old enough to go to college,
you're old enough to go out with girls. When
you're old enough to go out with girls, who needs
college? Oh well, there's always Coke.

SEE YOUR GROCER TODAY

This is a slack time of year when most hunters and fishermen are fretting and biting their finger nails. Each hunter has cleaned and polished his rifle and shotgun at least a dozen times, making imaginary swings on a fast disappearing buck. Each fisherman has checked and rechecked his fishing rod for broken windings, bent guides and dented ferrules. He has tied flies of all descriptions — stone flies, caddis flies, May flies — and the list goes on. Along with this puttering around, these outdoors men have been dreaming of open season on their favorite game and of days in the field again.

This may seem like a stagnant part of the year to most of us, but to some people this is a very busy season — namely California's senators and assemblymen.

These law-making officials are currently amassed in the state's capitol in an effort to establish new laws that we have asked for and amend those we have asked to be amended. These men are from different sections of the state and were elected into the office they now hold by the people

in each particular section of the state. It is through these senators and assemblymen that legislature learns of our wants and needs, and attempts to make or amend laws in proportion to these wants and needs.

Those of you reading this column are probably interested mostly in fluctuations of the Fish and Game laws. There are some 200 bills pertaining to fish and game being introduced to legislature this session. True, one person can hardly be expected to take a stand on all of them, but we should be able to take a stand on those that concern us. Write to your senator or assemblyman and tell him your ideas on these bills. He will then be in a better position to tell legislature of your wants and needs.

Three hardy HSC anglers, namely Pat Tomlinson, Jim Adams and Dick Nitsos gave the south jetty the good old college try last weekend. The rains came, the winds blew and the waves broke over the jetty, but our stalwarts stayed on. To top it off the fish wouldn't cooperate and the trio eventually had to go

MacGinitie Granted Sabbatical Leave To Do Scientific Research Work

Dr. Harry D. MacGinitie, professor of physical science and chairman of the division of natural sciences, has been granted sabbatical leave for the fall semester of 1957, according to announcement by President Cornelius H. Siemens.

COMUS SAYS

The "Great God Comus," ever mindful of his follower's welfare, has retained Dick Tracy to find the missing ax as soon as he has disposed of the Kitten Sisters.

Gordy Turner, the most honorable leader of the Cult of Comus, has announced a happy hour to be held Saturday night in honor of the dedication of the official temple of Comus at 1404 Foster.

To all non-members... To end all speculation the emblem to be worn on the new Comus Club jackets contain a likeness of the old god. This is intended to end rumors that Comus is present at HSC in the form of Doctor Girard.

All members are reminded to be on the lookout for notification of several social events to be held before the end of this semester.

home empty handed. Better luck next time guys.

WRITE YOUR SENATOR OR ASSEMBLYMAN IF YOU ARE INTERESTED IN THE LAWS CONCERNING YOUR FISH AND GAME.

Dr. MacGinitie will do scientific research work and study in several localities and universities in the United States, Mexico and Guatemala.

Leaving the latter part of June, the eminent scientist and his wife, Mrs. Beatrice MacGinitie, will drive to northern Nebraska and then on to the University of Minnesota for special work and study in geology and fossil plants. Concentrated time will be spent at the National Museum in Washington, D.C., before returning to California and the Stanford campus in August, where Dr. MacGinitie will present a paper at the meeting of the Society of Systematic Geology. Meeting at the same time on the campus, will be the Botanical Society and Dr. MacGinitie will conduct the group on a field trip to areas in the Sierras, Nevada City, and Weaverville, Calif.

During September and October Dr. MacGinitie will be engaged in research work in the science laboratories of the University of California. From there he will go to Houston, Texas, to work in the Shell Oil Research laboratory on pollen. Continuing on down the coast, he will spend the months of November and December doing research work in Mexico and Guatemala. Returning home by the west coast route, Dr. MacGinitie will visit eight of the state colleges to study and discuss problems of administration of college science departments.

"Mac," as he is affectionately known to his colleagues, has been on the Humboldt State College faculty since the fall of 1927. At that time, he stated, there were only two people in the entire science department, which at that time included classes now in the separate natural resources division. There are now 15 faculty in the division of natural sciences, of which Dr. MacGinitie has been chairman for the past six years. Dr. MacGinitie received his A.B. from Fresno State College, completed a year of graduate work at Stanford; and received his Ph. D. from the University of California in 1935.

The MacGinitie's son, Gordon and their daughter, Bea Anne, will both be enrolled in college next fall. Bea Anne graduates from Arcata Union High school in June and will attend the University of California. Gordon will continue his studies at Cal-Tech. Dr. MacGinitie will return to the campus for the spring semester 1958.

Dr. Allen Attending Biologist Confab

Dr. George Allen, assistant professor of fisheries, left Wednesday morning for Richardson Springs near Chico for the Nineteenth Annual Meeting of the Pacific Fisheries Biologists. The meeting started at noon Wednesday and will end today at noon.

The meeting brings fisheries biologists together to discuss new techniques and methods of research. New papers are read and panels are held. Dr. Allen will be taking the place of Dr. Ernest Salo, assistant fisheries professor who was to be on a discussion panel, but is staying home because of a recent appendectomy.

The meeting brings fisheries biologists together from all over the Pacific theater and many of these men are in the position to hire permanent and temporary help.

Dr. Allen in representing Humboldt State College and the Fisheries Department may be able to place some of the HSC Fisheries students with these biologists.

Adult visitors to San Francisco's Zoological Gardens outnumber children three to one.

See what happens...

Switch to Shell!

Before TCP... The car above was bought brand new and driven about 3000 miles on a competitive premium gasoline. Then its rate of acceleration was checked by radar. The pick-up was poor because of engine deposits, which caused the spark plugs to "miss."

After TCP... The same car now performs after it has been run on a few tankfuls of Shell Premium with TCP*, which overcomes engine deposits. Radar checks on this and other cars showed in most cases a 6 to 18% increase in pick-up after TCP additive had overcome pre-firing and spark plug "miss."

Today's high-powered, high-compression engines are really rarin' to go, but they're especially sensitive to engine deposits.

Within about 3500 miles these deposits can short-circuit your spark plugs—causing them to "miss." The result: power loss. Your almost new engine has lost its fine edge.

The picture above of a radar-clock acceleration test shows how TCP additive restores this lost power, delivering up to 18% faster acceleration—"pick-up" that even

the most careful driver sometimes needs for safety.

Try Shell Premium with TCP and re-power your car while you drive. See your Shell Dealer.

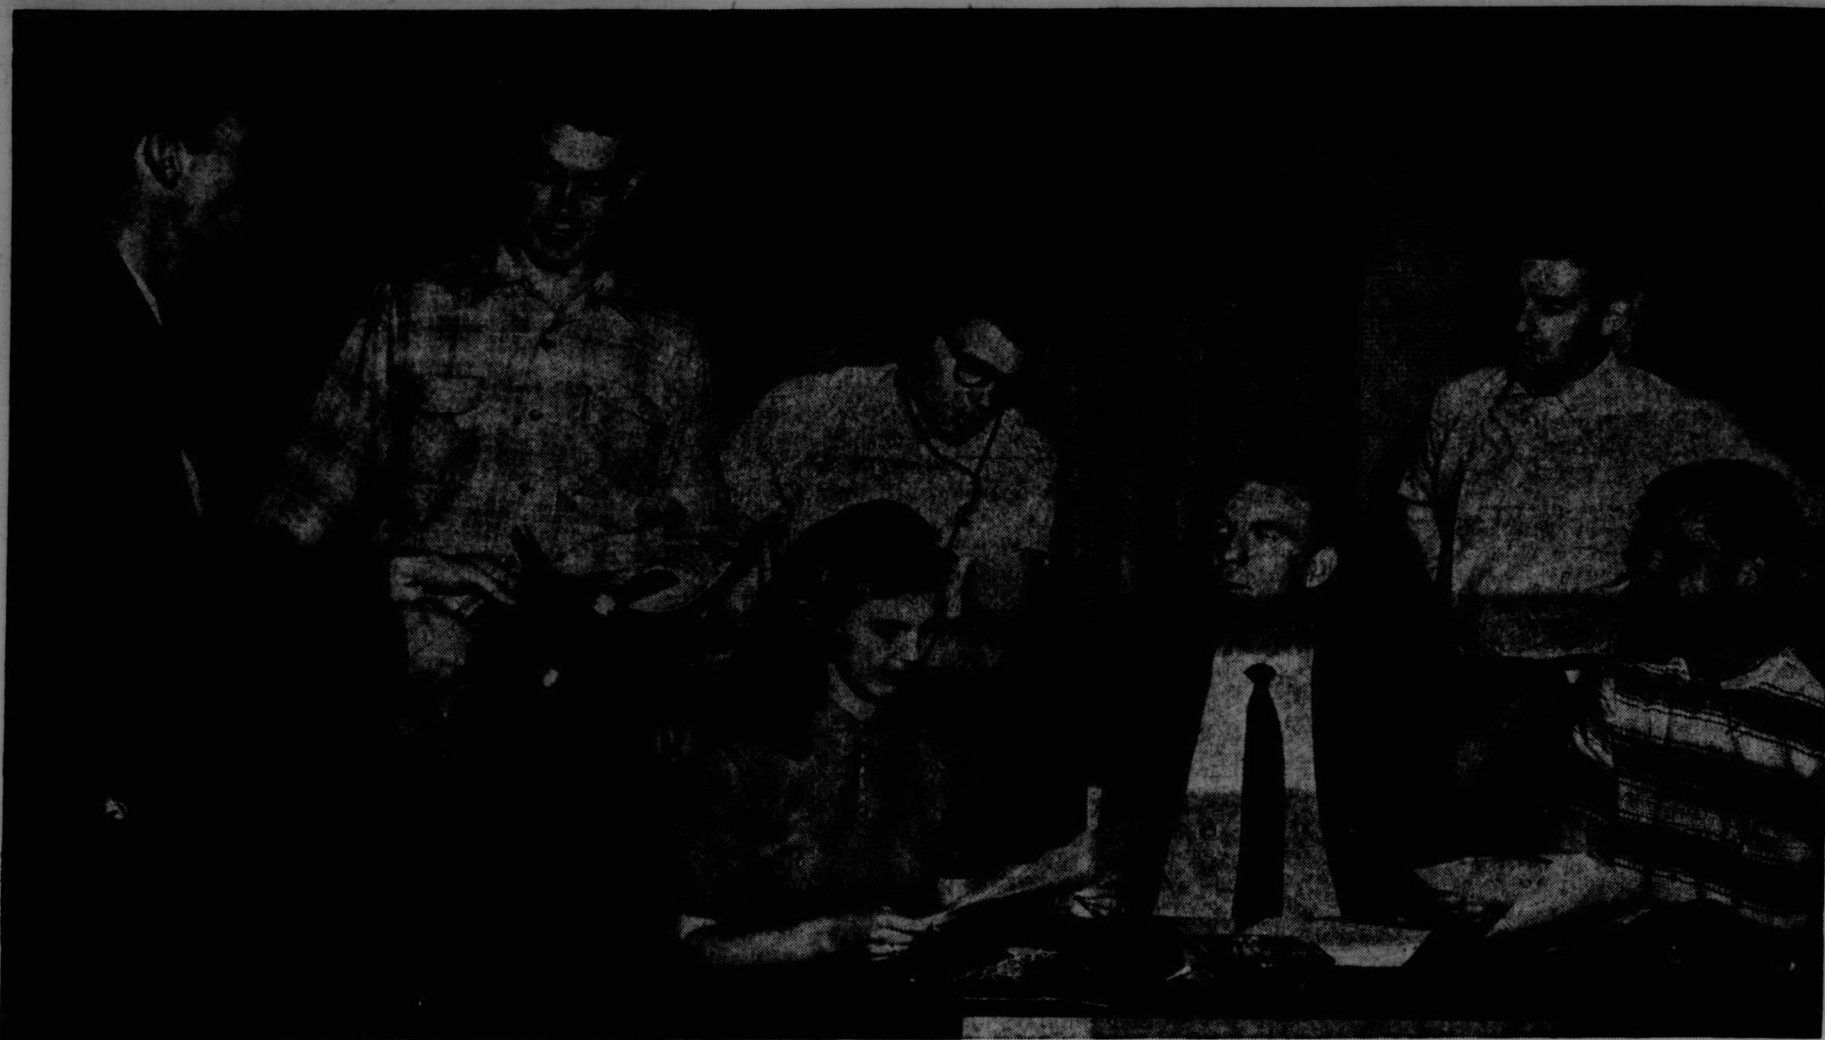

*Shell's Trademark for this unique gasoline additive developed by Shell Research. Patent applied for.

"Moments To Remember" Producer-Director Jean Sylva shows the rest of the production staff what the finished product will be — a recording of reminiscences to accompany the 1956-57 Sempervirens. Staff-members pictured, left to right, are Sylva, Wally Sinclair, Pat Hutchens, Mike Stone, Homer Ratcliff, Bob Rickard and Larry Heise. Not shown is Wendy Alexander.

PICTURES AND STORY BY FRAN STARK

Above, Pat, Jean and HSC President Dr. Cornelius H. Siemens recall the campus visit of Governor and Mrs. Goodwin J. Knight during the fall Homecoming celebration. The Governor's address to Humboldt State students, captured on tape, will be incorporated into the "Moments To Remember" production. Left, Director Sylva and Homer Ratcliff go over some of the script material prior to a trial-run over it. The deadline for the completed chronological story-in-sound of the major events of the College year will be May 1.

The master tape for the "Moments To Remember" souvenir record to be included in the 1956-57 Sempervirens is finished and ready to be sent to the Burbank processing firm, Dr. William Ladd, assistant professor of radio, reported this week.

Students in the radio department have edited 50 hours of taped events down to fit the two sides of the clear vinyl 45 rpm record to be attached to the inside cover of the yearbook at no extra cost.

Included in the 12 minutes of memories will be fragments of events of the HSC school year, and a chronology narrated by College President Cornelius H. Siemens, as well as an address by California Governor Goodwin Knight.

Participating in preparation of the "Moments To Remember" production were Pat Hutchens and Joyce Weaver, script writers and cast voices; Gary Mead, ghost voice, Announcer Hal Lewis, Engineer Ken Willman, and Tape Editor Larry Heise. In charge of pre-recorded sequences was Jean Sylva.

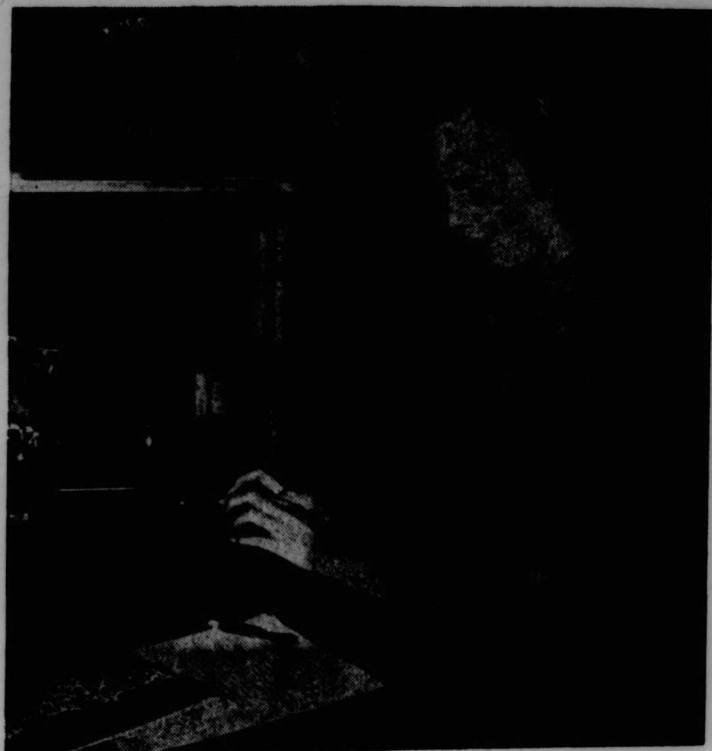

This is the first "memories" record to be included in the Sempervirens, although University of California, San Francisco State, San Jose State, and other colleges have enthusiastically acclaimed such mementoes.

"The fidelity, editing, and transitions of this HSC 'Moments To Remember' production are better than those of any other similar records I've listened to," comments Dr. Ladd, who supervised the project. "The staff has done a fine job."

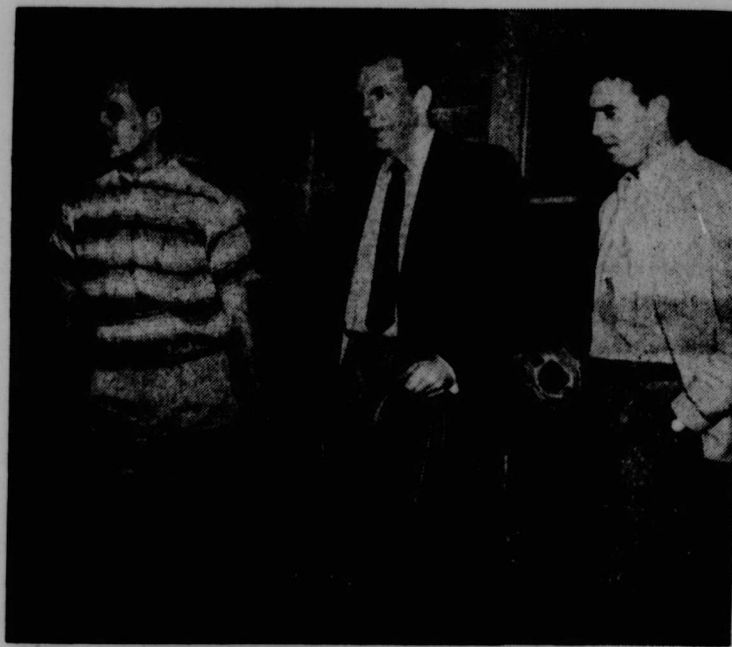

Sports color is a must for the "Moments To Remember" sound-picture of campus events of the year, and so production engineer Larry Heise, with Homer Ratcliff and Bob Rickard, head for Redwood Bowl to tape cheers for the Lumberjacks.

And now comes the hard part . . . selecting the highlights of the year's events . . . the cream of the golden moments to be remembered by Humboldt students in years to come. Editing and splicing just a few of the many tapes from which the final master tape will come are Wally Sinclair and Bob Rickard.

Board-man Larry Heise, Director Jean Sylva, and faculty adviser Dr. William Ladd listen to a portion of the completed tape to be included in the "Moments To Remember" long-play record. The disc will contain 24 minutes and 30 seconds of 1956-1957 College memories.

In charge of writing the script linking tape-recorded selections is Girl-Friday Pat Hutchens.

The new Home Management House will have open house starting at 2 p.m. today. The college population is invited to tour the house.

Open House For Home Management

The new Home Management House will have an open house this afternoon beginning at 2 p.m.

The Home Management House, for senior Home Economic majors, is located at 1888 Pine St., directly behind Jenkins Hall.

The open house is scheduled from 2 to 5 p.m. this afternoon and is open to faculty members, students, maintenance and office staff.

The purpose of the open house is to let the college population go through the house and see how it is set up with the four

girls living there. This will also give the college an opportunity to see the new modern furnishings, the new kitchen equipment and laundry equipment.

The women who live in the house and other Home Ec girls will act as hostesses for the occasion.

Many other state colleges and universities have Home Management Houses but this is the first year that the state of California has taken action to equip their state colleges with houses for their home economics training.

LUMBERJACK AX 'Disappears' ...?

Running true to form, the Humboldt State-Chico State football "grudge" Lumberjack Ax staged one of its mysterious disappearances last Sunday night, March 28, between the hours of 8 and 11 p.m. from its resting spot in the Coop.

One of the two metal brackets was sawed through allowing removal of the ax after entry of the Coop had been gained. The exact method of entry was not determined but Frank Tollett, junior, discovered some dirt behind the interior front door when he opened the Coop at 11 p.m. to attend to some Coop business. Another employee noted that the dirt had not been there at 8 p.m. when the Coop was locked up.

It may be suspected that the ax, won back from Chico last fall in the annual football classic by a score of 7-0, has been stolen by CSC students but some students have speculated that the thievery was an "inside job" by members of HSC student body.

No matter the case it is just another day in the life of the ax which thrives on upholding the tradition that it has established. Hilltoppers themselves have had their own days in borrowing the ax back from Chico. The most recent time was in 1955 when a group from Gamma House staged a successful raid on the Chico State campus and brought the ax back to a Hilltop hideaway.

CLUB OF THE WEEK

RALLY CLUB

The Rally Club performs many duties during the course of a school year to make campus intercollegiate athletic activities more enjoyable for the Humboldt State College student body and other spectators at these events.

Under the guidance of Rally Commissioner Joe Chappelle the club engages in decorating Redwood Bowl before each home game, choosing the yell leaders, providing or sees to halftime activities at home basketball games, all around promotion of school spirit, and participating in other school activities.

Other Rally Club officers are Ben Crabb, vice commissioner; Martha Smith, secretary; Jay Garr treasurer; Dick Fauerbach, sgt. at arms; John Thomas L.C.S. representative and Mr. Paul Johnson, adviser.

Current and future activities of the club are competition of a second emblem for the Victory Flag, selection of next year's yell leaders which will take place this Tuesday, April 9, at 12 noon in the auditorium, creating greater interest in this seasons baseball activities, a girls drill team for next year's football games and trying to get card stunts innovated for future football contests.

The club is open to all Humboldt State College activities card holders and all persons who wish to join are invited to attend the meetings which are held every Tuesday at 12 noon in the little dining room of the Nelson Hall Cafeteria.

Humboldt Student Finds Rare Whale

A twenty foot Cuvier's Beaked whale was washed ashore on the beach just north of the mouth of Mad River recently. This is only the fourth time that this particular species has been found on the Pacific Coast of the United States. The large animal was found by Dave Maxon, game management major, while surf fishing.

Dr. Warren Houck, assistant professor of physical science, and Dr. Dan Brant, assistant professor of biological science, went to the scene and after some consultation positively identified the mammal as a relatively rare Cuvier's Beaked whale. It is also sometimes called a Goose Beaked whale because of its long hooked snout.

This was an average sized adult male and showed no external causes for death. Several people have eaten some of the meat and found it very palatable.

The head was removed by Dr. Brant, Dr. Houck, Maxon and Dave Patterson, game management major. Maxon and Patterson are cleaning the skull by letting the elements and insects do the job for them in a pasture near the mouth of the Mad River. The skull will be added to the mammal collection at HSC.

HAY HOP SET MAY 11

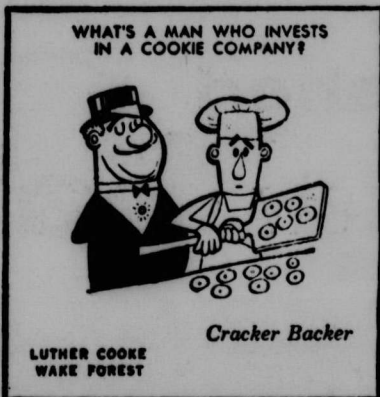

The second annual Hay Hop will be held on May 11 in the gym, sponsored by Nelson Hall Women and Redwood Hall Men.

The Hay Hop is a come as you are "stag or drag" dance.

Tracksters Set For Home Meet

JACKS HOST CAL AGGIES IN TEAM'S ONLY REDWOOD BOWL SHOWING OF YEAR

The Humboldt State College track squad will make its first home showing tomorrow at 12:30 when they tangle with the Cal Aggies. This will be the Lumberjacks only home meet of the year.

Humboldt is fresh from a surprising victory over last year's Far Western Conference Champions. They emerged victorious over San Francisco and Sacramento in a triangular meet last Saturday. The Gators were last year's track champion.

The Lumberjack thincads met the Aggies earlier in the season in a triangular meet involving Sacramento, Humboldt and the Aggies. They outpointed the Lumberjacks very decidedly. But Humboldt has come along since then and should give a much stronger battle to the invading Aggies.

This meet gives the Lumberjacks their first chance to display their full potential. They will be able to field a full team for the first time this year. It is hoped that good weather this past week will make for a fast track.

GOLFERS TRAVEL TO CHICO IN FIRST COLLEGIATE MATCH

With a pair of pre-season matches under their belts the Humboldt State Golf team travels to Chico this weekend for a four way meeting against Chico State, Sacramento State, and Nevada. The four team affair will get under way at 9 a.m. tomorrow morning.

Captain Bob Rice and freshman Bob Bestor finished in a dead heat for the top position on the team with both averaging 82 in competition thus far this season. Captain Rice will play the No. 1 spot at Chico with Bestor No. 2, followed by Bob Archibald, No. 3, Alan Hendrickson, No. 4 and either Jim Knox or Ron Sandretto will hold down the No. 5 position.

Knox and Sandretto played a 36-hole match this week to determine the fifth spot.

In last Sunday's match with the HSC faculty the Humboldt golfers defeated the teachers 10½ to 4½. In the individual matches Bob Bestor defeated Dr. Larry Kerker 2-1; Bob Rice dropped Dr. Ivan Milhous 2½-½; Alan Hendrickson defeated college president Dr. Cornelius H. Siemens, 2½ to ½; Bob Archibald defeated Dr. Archie Jones 3 to 0 and in the only faculty win of the day Franny Givins defeated Jim Knox 3 to 0.

Bob Archibald was medalist with an 83 followed by a pair of 84's by Rice and Hendrickson, an 85 by Bestor, an 87 by Sandretto, a 93 by Knox and a 98 by Dean McColum.

The top five left early this morning for Chico with Coach Phil Sarboe. The squad plans to work out on the Chico course this afternoon.

* Many points are expected from strong man Manuel Vasquez. Manuel is a freshman from Garfield High School in Los Angeles. This is his first semester in college and he has been burning up the cinder track for Humboldt. Manuel has yet to be beaten in the 100 and 220. He also turned in an outstanding 10 flat in the 100 against San Francisco. This is one-tenth of a second off Ozzie Gooden's 9.9 record.

Manuel has also been a consistent scorer in the pole vault and last week came in second in the low hurdles against Sacramento and San Francisco. This is a new event for him.

Another man who is expected to give the Aggies much trouble tomorrow is co-captain Earl Barnum. Earl is the Far Western Conference broadjump champion and is a consistent first place winner in this event. He has also been a strong element in the high jump and is expected to surpass the school record before the end of the season. Warren Baker is expected to push Earl in the high jump, however.

The Aggies are strong in the high hurdles but with the Lumberjack hurdlers beginning to round into shape they may get stronger opposition than they are expecting.

The Aggies are also very strong in the distances but this is offset by Humboldt's decided advantage in the dashes, high jump and broad jump.

Probable starters for the Lumberjack thincads tomorrow afternoon will be the following:

100 yard dash, Manuel Vasquez, (continued on page 10)

SPORTS

HOOP PLAY ENDS THIS WEEK AS INTRAMURAL SPRING SPORTS BEGIN

The basketball intramural race comes into the final phase this week and the first half of play is now over. In the first round of the elimination tournament Block H projected itself into the finale with the IQ's, who won their right to the championship playoff this week.

In the first game Wednesday night Block H took a 64-48 verdict over Nelson Hall. High point man for Block H was Ron Fredericks with 35 points. This broke Ed Hansen's old record of 31 points in one game. Hansen led the Nelson Hall attack with 14 points. Ike Peterson followed him up with 10.

Ron Fredericks big 35 points gained him the player of the week award for the second time this basketball season. Ron was the highest overall scorer in the basketball round robin just completed.

The second game of the night matched the league leading IQ's with the powerful Ramblers. The IQ's squeaked by with a 47-43 victory in one of the most exciting games to date. Larry Amos led the IQ's to victory with 12 points. Dick Wasmouth had 13 for the Ramblers.

With these results Block H and the IQ's will battle for the championship and Nelson Hall and the Ramblers will tangle for third and fourth places.

With basketball ending this week three new spring sports will start in April. Softball will be the first of these. It will start April 23, the first week after spring vacation. It will run on a double elimination basis and two games will be played a night.

The games will probably start about 6:30 p.m. and may run simultaneously.

The second sport is horseshoes. The pits are now being dug and should be ready for operation soon. This sport will also commence April 23. Horseshoes will be run on a single elimination basis.

Tennis is the third sport and it will start April 29. Single matches will be played only and it is to be run on a double elimination basis.

Equipment for horseshoes and baseball will be checked out from Mr. Davis, downstairs in the boys side of the gym. The tennis participants must furnish their own equipment.

Special merit should be given to Alpha House and Nelson Hall for their fine participation in overall intramurals. The IQ's and Ramblers have also shown tremendous participation despite handicaps.

Nick Zupo has been named the new scorekeeper for intramurals and has also been placed in charge of statistics. Nick is to be commended for a fine job all year. He has been a great boost to intramurals.

That covers intramurals for this week other than the fact that Billy Caver and Joe Johnson will officiate at the championship basketball game this week.

You smoke refreshed

A new idea in smoking...all-new **Salem**

Created by R. J. Reynolds Tobacco Company.

- menthol fresh
- rich tobacco taste
- most modern filter

Think of a Spring breeze blowing over fresh, green grass and you'll have a good idea how refreshing all-new SALEM Cigarettes taste. The freshest taste in cigarettes flows through SALEM's pure white filter. Rich tobacco taste with new surprise softness...menthol-fresh comfort. Try SALEM—you'll love 'em.

Salem refreshes your taste
