Roberta Johnson and Mike Fielding admire the Man and Woman of the year plaque after receiving the award during the Sno-Ball Dec. 14.

MANY HIGHLIGHTS DISTINGUISH HSC SNO BALL -- SOCIAL EVENT OF WINTER

By Joyce Weaver

Highlight of the winter social events at Humboldt State took place before Christmas vacation with the annual "Sno-Ball" formal dance at the Eureka Inn.

The ballroom was decorated with white snowballs and large blue and gold stars hanging from the ceiling. A large silver tree stood in the corner with blue ornaments.

A blue Christmas tree frozen in a large block of ice was the refreshment centerpiece. A spotlight was on it and its beauty was the topic of conversation all evening.

The dance started with a receiving line. Greeting the guests as they came in were Mike Fielding, president, ASB; Miss Kate Buchanan, honorary faculty; Sandi Wahlund, chairman of the "Sno-Ball"; Roberta Johnson, secretary, ASB; Larry Mitchell, senior class president; Dale Callihan, junior class president; and Ed Spencer, sophomore class president.

JERRY MOORE'S MUSIC

Music for the evening was played by Jerry Moore and his "combo." During one of their intermissions came the highlight of the evening when Fern Fowler and Larry Mitchell were named outstanding seniors, and Mike Fielding and Roberta Johnson were chosen as man and woman of the year by the Sempervirens staff. They were chosen on the basis of their activities at HSC. Both will receive the Corbett award, which is a cash award given by Mrs. Katherine Corbett of the HSC faculty.

SURPRISE OF EVENING

The big surprise of the evening was the crowning of the "Sempervirens Sweetheart" by President Cornelius Seimens. Yvonne Papini, freshman from Arcata, was chosen.

Mary Molles, Ruth Susmilch, Barbara Souigny, Barbara Urkov, Rosalind Evans, Denise Moore, DeAnne Brown and Dolores Dah-

len were members of the Queen's court.

Committee members for the "Sno-Ball" were Sandi Wahlund, chairman; Kay Carlson, Joanne Beer, Cathy Davis, Jon Mitts, Dale Callihan, and Larry Mitchell, decorations; Chip Brodie, Dave Shank and Dick Fauerbach, refreshments; Jewell Hyman, publicity; and Rosemarie Gwerder and Marilee Ammer, invitations and bids.

Heritage Week Plans Completed

Plans for the second annual American Heritage Week to be held on the Humboldt State college campus are now complete, according to Dr. Ralph Roske, chairman of the committee. Feb. 13 at 8 p.m. in the college gym there will be a program of contemporary American music to be given by the music department. The noted folk singer, Sam Hinton, will give a concert at 8 p.m. in the auditorium of the main building on February 14. Dr. Reece McGee, at an 11 a.m. assembly, will speak on the "Negro in America." Dr. McGee is a sociologist receiving his doctorate from the University of Minnesota.

HUMBOLDT'S FWC

BASKETBALL SCHEDULE

Jan. 11-12	— At Sacramento State.
Jan. 25-26	— Chico State.
Feb. 8-9	— At San Francisco State.
Feb. 15-16	— University of Nevada.
Feb. 22-23	— Cal Aggies.

Bettendorf Resigns; Arnot Appointed

Frank Bettendorf, junior speech major, resigned from the Vice presidency of the Associated Student Body Dec. 13. President Mike Fielding appointed in his place Jim Arnot, senior pre-law major, who has served this year as the assemblies commissioner for the ASB.

Bettendorf's letter of resignation stated that he did not feel that he could give the office the time it demanded. He was elected to the office last spring during a general election.

Jim Arnot will continue in an advisory capacity to the student appointed under the rules and stipulations of the ASB constitution. He took over the office yesterday during the regular Executive Council meeting.

Two Profs Attend Meeting On TV For State Colleges

Representing Humboldt State College at the recent state committee meeting on television in state colleges were Dr. Lawrence E. Turner, executive dean, and Dr. William Ladd of the speech and radio department.

The meeting held at San Francisco State College was of particular interest, states Dr. Turner, because of the proposed television studio in the new Speech-Arts building to be completed on the Humboldt State College campus 1958-59.

Committee members forwarded to Sacramento for final processing a recommended list of equipment totaling \$60,000 for state college television programs such as Humboldt will have.

Use of television as a teaching medium on the campus will be possible with the new fully equipped studio which will include an industrial closed-circuit TV, with two camera chains. This will enable students to observe and view things pertinent to their study without ever leaving the classroom. For example the teacher-training student will be able to watch primary school children in the classroom; the pre-nursing student to view surgical nursing in a hospital operating room.

As a supplementary teaching tool, Dr. Turner and Dr. Ladd feel that the closed-circuit television has distinct and definite educational training value.

At the San Francisco meeting Dr. Ladd acted as chairman of the committee on the "scope of TV offerings in the state colleges." Dr. Turner was chairman of the meeting on "Criteria for approval of state television program" and served on the equipment report committee.

BE SURE AND VOTE

Your support is needed if the proper student government is to take place at HSC. Past years indicated non-support of representatives during the mid-term elections.

AN EDITORIAL MESSAGE

BY K. K. BARNHILL

This is only a personal view, of course, and I will not try to influence any voter to one particular candidate.

In past years Humboldt State has not received the proper voting turnout at the polls for the mid-term elections of representatives-at-large. It is about time that the students recognize their duty as good voters that **DO** vote.

If you recall the past national elections of November there was a very heavy campaign just to get people to vote. Very often the older students at Humboldt will vote nationally and not locally.

This half-hazard, one foot in the mud policy has to be **REMEDIED**.

The people who are looking for

your votes, in order to represent you in the Student Executive Council are John Marcuz, Chip Brodie, Jon Mitts for men's representative, and Pat Miller, Pat Duffy and Sandi Wahlund for women's representative.

These students deserve your support on next Wednesday -- go to the polls and endorse your ballot in support of your candidate.

HSC Rapidly Completing Plans For \$22,500 Wildlife Research Program

Humboldt State College is rapidly taking steps to complete plans for the \$22,500 research program authorized recently by the Wildlife Conservation Board and the State Fish and Game Department to improve fishing in the coastal lagoons.

A final contract will be worked out when representatives of the college meet with Gray Evans, superintendent of logging operations of the Hammond Division of Georgia Pacific Lumber Corporation on Wednesday, Jan. 9. Much of the research study done by the college, according to Dr. Cornelius H. Siemens, president, will be at Big Lagoon on property owned by the lumber company. Meeting with Evans will be Dr. Charles Yocom, chairman of the division of natural resources, Dr. Ernest Salo, assistant professor of fisheries, and Dr. Siemens.

The two-year study will be under the direction of Dr. Salo and will be on steps to improve lagoon fishing and on ways of utilizing lagoons to increase salmon production. Working with Dr. Salo will be two graduate fisheries students, James Joseph and Stanley Elcock.

According to Dr. Salo, the lagoons are unique to the northern coastal areas and he describes them as lakes blocked off from the ocean by sandbars for certain periods of the year. When the lakes fill, the sandbar breaks open and saltwater rushes in to replace the freshwater.

Salo points out that the chemistry and physics of the lagoon will be studied, as bodies of saltwater are excellent areas for the growth of fish during a critical period of their life history. Lagoons used in the present research project other than Big Lagoon, will be Stone Lagoon and Lake Earl.

Salmon and trout now in the lagoons will be trapped during the spawning period and the eggs taken to the new fish hatchery facilities on the campus to be reared. After being marked, they will be put back into the lagoon and their life history will be followed.

Dr. Salo, who heads the project, joined the college faculty in the fall of 1955, coming from Washington where he was connected with the state department of fisheries and was also on the research staff of the University of Washington.

Dr. Hyman Palais Recovering Here

Dr. Hyman Palais, professor of history, is recovering in Trinity Hospital, Arcata, after being hospitalized by an illness on Dec. 15. His classes for the remainder of the term are being taught by Dr. Stanley Spaid, chairman of the division of social sciences, and Dr. Ross Koen, assistant professor of social science.

Knights Make Formal Initiation At Stafford Inn

By K. K. BARNHILL

Seth Buck and Dick Harmer past members of the Intercollegiate Knights on this campus, recalled former days of Knighthood and some of the events that were important and humorous about the establishment of the Knights at HSC. They spoke before some 100 pledges and members and their guests Saturday evening Dec. 15.

There was a formal initiation of all surviving pledges of "Pledge Week" before the Knights and their guests sat down for steak and the trimmings at the Stafford Inn south of Scotia.

The dinner progressed with presentations being made to advisor and Mrs. Wilcox and a welcome being given to Mr. Chester Collins future advisor of the Knights.

Several presentations were given to the most outstanding of the Pledge Week hazers, namely swats to the rump, shoe shining kits and others.

After the dinner and presentations the Knights partook of refreshments and sang songs of college days gone by with extreme gusto.

HSC Book Store Buying Texts

The college book store will be buying back text books beginning today and continuing through exam week.

Students will get 50 per cent of the retail cost of their text books back if the book will be used on campus next semester, said Mrs. Geneva Kinzer, assistant manager.

Lists of books the store needs for next semester are posted on bulletin boards in the Administration building, the Coop and the book store.

In addition, the store will buy any text books regardless of whether they are used on this campus, but at lesser prices. The book store has a working agreement with a large used book firm, Wilcox and Follett Co. of Chicago.

The book store is open from 9 a. m. to 3:30 p. m. Mondays through Fridays.

Editor's Notes

With another year upon us we should feel somewhat slighted because of the lack of chaotic acts of nature during the Christmas vacation.

With the memory of the last few years' floods and earthquakes still fresh in my mind I wonder why we were left out this yuletide season.

EARLIER DATES

Before vacation HSC had one of the most active social weekends of the Fall semester in that the major dance of the season, the Sno-Ball, was very well attended by the students and faculty along with their guests.

Various parties in lieu of the coming vacation separation of the students took place with great success and good fellowship.

The Intercollegiate Knights held their formal initiation of the largest group of pledges to enter the organization since it became national.

Late in the evening the fellows, new members and old gathered around to sing songs of college days and memories of by-gone parties and celebrations. The standing favorite of all was the very sweet, "Sweetheart of Sigma Chi."

All in all the weekend was very reminiscent of active college life. Meaning that the formal ball and other events were indictative of "Memories."

STUDENT GOVERNMENT

Due to the resignation of vice president Frank Bettendorf, handed the Student Executive Council on Dec. 13, 1956, the Council favored the suggestion of Mike Fielding as to the appointing of Jim Arnot to the vice-presidency.

With only supreme admiration of Frank I can say that his action left me with deep respect for a good man. He was very capable and sincere to all concerned.

Jim Arnot is also a very capable senior member of the Executive Council with a good head on his shoulders and a certainly strong dedication to the needs of Humboldt.

An Assemblies Commissioner will be appointed to replace the vacancy left by Arnot. Jim, I am sure, will provide the incoming commissioner with all the help possible to make the job a successful one in the coming days ahead.

COMING REPRESENTATIVE ELECTIONS

The question has been posed to the staff of the LUMBERJACK as to how far are the staff members willing to go in order to promote votes for candidates.

The answer is not one that would be favorable to any specific campaign manager, but with all due respect to all concerned the staff will grant equal space to the campaigners if all will co-operate in a moderate manner.

Moderation is the general policy of the LUMBERJACK in all publication matters political or promotion. Regardless of staff feelings there is the code of equality on our staff in the treatment of all news stories. Please respect this policy with your cooperation and understanding.

BISTRIN'S DEPARTMENT STORE

Headquarters for Well-Dressed
College Men and College Women

President Siemens crowns Yvonne Papini, Sempervirens Queen of the year.

Minutes of the Student Council

Dec. 13, 1956

The meeting was called to order by President Mike Fielding on the above date. Those present were Jim Barnes, John Marcuz, Roland Atterbury, Pat Miller, Fern Fowler, Hank Cooper, Keith Barnhill, Jim Callison, Joe Chappelle, Jack Sears, Dr. Karshner and Roberta Johnson.

The minutes of the previous meeting were corrected to read: Award Assembly is scheduled for Friday, Jan. 11.

CORRESPONDENCE

A letter was read from Bay Freeman, President of the Associated Student Body at San Jose State College, informing the council of the Blood Education Contest to be held among the California Colleges. It was decided to write to San Jose and apply for the contest blank along with further information.

OLD BUSINESS

It was reported by the Chairman of the Red Cross Hungarian Relief Drive that the clubs on campus would turn their donation of \$5 in by Wednesday, Dec. 19. The total contributions received to date was reported at \$38.50.

It was moved, seconded and passed to table the matter of the Korean Relief Drive indefinitely.

NEW BUSINESS

John Mayfield, representative from the Business Club, reported to the council of the plans that have been made to hold a Business Day on campus. The purpose of the Business Day is to acquaint the people in the high schools with what Humboldt State College is offering in the business field. Businessmen will also attend to explain the requirements of various positions in the business field. The Business Day is scheduled for March 6.

It was moved, seconded and passed to accept the petitions for the nomination for Representative at Large from Pat Duffy, Chip Brodie and Sandi Wahlund.

A letter was read from Frank Bettendorf resigning from the office of Student Body Vice-President. It was moved, seconded and passed to accept the resignation of Frank Bettendorf from the office of Vice-President of the Associated Student Body.

It was then moved, seconded and passed to accept the resignation of Jim Arnot from the position of the Assembly Commissioner. It was moved, seconded and passed to accept the appointment of Jim Arnot as Vice-President of the Associated Student Body.

**NOTE: ASB CONSTITUTION
ARTICLE 11 No. 31**

The term of office shall be for

one school year beginning with the start of the semester following election, unless the officer is recalled, disqualified, or resigns. Vacancies shall be filled by appointment of the President with the consent of the Executive Council. The appointee shall serve until the next regular election.

It was reported that the ceiling in the Coop has been leaking. Jack Sears is to see that it is repaired.

COMMITTEE REPORTS

Chapel Committee members reported on the preliminary planning that has been proposed for the chapel.

Coop Committee reported that sixty questionnaires were turned in from the Saturday classes. It was moved, seconded and passed to put off the opening of the Coop on Saturdays until the beginning of next semester. It was then moved, seconded and passed that the motion be amended that the opening of the Coop on Saturday mornings begin next semester but to begin publicity now. Two committees were appointed. Keith Barnhill and Jim Arnot are on the Publicity Committee for the opening of the Coop on Saturday. Joe Chappelle, Jack Sears and John Marcuz were appointed on the committee for expansion on food products in the Coop.

COMMISSIONER REPORTS

Activities Commissioner reported that the clubs will decide who will welcome the referees at the games. Jack Sears will attend the next ICS meeting.

Awards Commissioner reported that the old trophies will be used for intramurals.

It was moved, seconded and passed that a vote of confidence and appreciation go to the Lumberjack Staff.

Rally Commissioner reported that the Christmas tree in the Administration Building was decorated. Thanks was given to Miss Buchanan for her help.

Board of Finance: It was moved, seconded and passed to table the problem of students financed by the government but didn't get their activities card until further information is secured.

Graduate Manager: It was moved, seconded and passed that a vote of confidence be given to Gen Kinzer and Frances Christian for all they have done for the Bookstore.

Dean of Students: Dr. Karshner invited the student council to hold its next regular scheduled meeting at his home.

Respectfully submitted,
Roberta Johnson
Mike Fielding

Dr. Allen Says Demand For Fisheries Students

By Ruth Holmes

Humboldt fisheries students are in demand. The fisheries graduate easily finds a job "because of government grants for research and the increased interest of both sport and commercial fishing in fish conservation." So stated Dr. George H. Allen, fisheries instructor in the department of Natural Resources.

Dr. Allen is a new Ph. D. from the University of Washington. During this, his first year at Humboldt, he is acting as replacement for John De Witt, who is on leave of absence.

"The fisheries training received at Humboldt can be applied to fisheries work in any other part of the country," said Dr. Allen. Fundamentals are taught which enable the student to adapt his training to either fresh water or ocean fisheries problems, Alaska or the East coast as well as Pacific coast states.

Much of the work in fisheries is determined by current needs. "Because of shifting emphasis on research and conservation needs, the fisheries graduate must be prepared to change his fields of interest," said Dr. Allen.

The majority of Humboldt fisheries graduates are working in government conservation and research fields. Although employment opportunities in public agencies are the largest, private industry would "dig its own grave," said Dr. Allen, if it did not support fisheries conservation programs.

Dr. Allen's own graduate work stressed the biology of the silver salmon. While at the University of Washington he held positions as a research assistant and research instructor, and was also employed as a biologist by the Washington State Department of Fisheries.

Dr. Allen is interested in actual fisheries research. While working for his Ph. D. he assisted with studies on the age and growth of Pudget Sound flatfish. As a pre-doctoral associate he made studies of physical factors influencing the movement of salmon. Research for the State of Washington Department of Fisheries included a project on physical requirements for successful spawning of Pacific salmon.

Other studies included research on the food of Pacific salmon and surveys of salmon streams in southeastern Alaska.

Dr. Allen received his Bachelor of Science in the field of wild life conservation from the University of Wyoming in 1950. He has, also, worked in Wyoming in the Fish and Game Department.

Dr. Allen lives in a home on the Humboldt campus with his wife, Beverly, and 13 month-old daughter, Terry Lee.

Former Humboldt Golfer To Receive Pro Schooling

Jim Vinum, who last year was the outstanding golfer on the Humboldt State team, leaves this week to attend a seven-week Professional Golfers' Association school for assistant golf professionals at Dunedin, Florida. The study is designed to help the linkster assisting golf enthusiasts on the course. Some of the best golf pros in the country will be on hand during the school to instruct the students.

Vinum is employed at Bayside Golf Course as assistant pro under Mel Babica, who, along with other club members, is financing the trip.

Upon completion of the course, Vinum will return to his job. He must serve an apprenticeship of five years before he can be classified as a professional.

Nevada Wins FWC Tournament

Coach Franny Givins, above, leads his Lumberjack basketball charges into the final practice games of the year before the Fur Western Conference gets under way next week as Humboldt plays road games against the San Francisco Olympic Club and St. Mary's College tonight and tomorrow night.

FIN AND FUR

By Dick Laursen

Welcome, 1957! It is a time for new (or reaffirming of old) resolutions and promises. Have you made any yet? Perhaps you've made a resolution to finish that skiff you started last year, or perhaps to finish that custom gun stock, or is it that fly rod that you're going to make this year? Hope you made at least one resolution to help improve our outdoor sports. Something like, "I am not going to be a litter-bug", "going to release all small steelhead", "going to be satisfied with less than the limit".

Our population is increasing and more people are entering the hunting and fishing field, causing the same amount of fish and game to be divided be-

tween more hunters and fishermen. Where once we were able to safely take large bag-limits, we must now share these animals and fish with our new outdoor friends. We will have to adjust from the large bags of the 'old days' or be perpetually disappointed.

Speaking of the 'old days', the Smith River has been producing steelhead just about like of old. Jack Legate, Wayne Salmon, Frank Adams, Lee Glenn, Matt Keller, Glenn Eaton, the author and various others have all taken nice fish from this stream, mostly in the South Fork.

The South Fork of the Eel River has produced many nice fish including Salmon's fourteen pounder, which is leading in the HSC steelhead contest. The lower Eel cleared up around Christmas time and some good fish were caught. Also the Mad River became fishable near the same time and some large fish were taken out of that stream. The largest reported was a nineteen pounder (dressed weight)!

This goes into print early in the week so won't be able to get the scoop on what the HSC outdoorsmen have done over the

Jacks Defeat Cal Aggies, Lose To Wolfpack and San Francisco Fives

If the results of the Third Annual Far Western Conference Invitational Basketball Tournament offer a key as to what is to come in league play in rapidly-approaching season, it will be another one of those years when anything can happen.

Humboldt State found the going rather rough as they lost to the University of Nevada, who went on to win the tourney, and to San Francisco State before winning their final contest against the Cal Aggies.

Nearly all the games were close, hard-fought battles that could have gone either way. As expected, Nevada took three straight to win the tourney crown. Following their Humboldt State win, they defeated the Whittier Poets to reach the championship bracket. In the final they topped Williamette 79-55.

JOHNSON STARS

Freshman Joe Johnson was the outstanding ball player for Humboldt during the three-day affair held in Reno last weekend as he was high point man for the Jacks in all three of their tilts, scoring a combined total of 48 points.

Center Stan Summers sparked the Wolfpacks win over the Jacks in the opener as he scored 16 points and controlled both backboards to lead the host Nevadans to a 69-54 triumph.

Johnson teamed with Grant Erhart, another one of the Jacks bumper crop of standout Freshmen, for high point honors as the duo scored 11 markers each. Nevada jumped to an early lead and held a halftime edge of 39-20 over the Humboldters, who could never quite get going.

Other first round action saw Whittier edge the San Francisco State Golden Gators 81-77 in an overtime thriller, the Sacramento State Hornets take a 63-51 win over the Aggies, and the Williamette Bearcats thump Chico State 80-54.

FOULS HURT JACKS

Fouls proved the downfall in Humboldt's second game as they bowed to the Golden Gators 61-52. Although the Jacks scored more field goals than their opponents, 21 to 18, the Arcata team was charged with 21 personal fouls.

The San Francisco team grabbed the opportunity as they sank 25 out of 36 free throws to erase the Jacks margin in floor shooting. Humboldt made 16 out of 25 charity tosses.

Johnson scored 16 points for the Lumberjacks while diminutive guard Eddie Thomas added 14 to the Hilltoppers cause.

Nevada scored a 57-45 win in their second round contest but the fairly close score belies the actual situation. The Wolfpack led 35-15 at the half and were ahead 53-21 when the second and third teams took over for the victors.

In other play Williamette advanced to the finals by topping Sacramento State 59-56 in another battle of free throws. Final game of the day saw the Chico Wildcats defeat the Aggies 83-77 in an overtime.

DEFEAT AGGIES

Determined not to come home without a victory the Lumberjacks nudged the Cal Aggies 74-71 in a free scoring fracas in Saturday's final round of play.

Johnson really found the mark in the final contest as he scored 20 points to lead the Jacks. Thomas had 12 while Jack Evans scored 11 and Warren Baker added 10.

The Mustangs broke to an early lead as they enjoyed a 14-4 score before the Humboldt team got

holidays. Will have that info next week.

MY 1957 RESOLUTION IS NOT TO BE A LITTERBUG! WILL YOU JOIN ME?

Jayvees To Meet Shasta JC In Two 'Main' Games

Humboldt State's frosh basketball players will play "main event" games when they take on the Shasta Junior College Knights in games tonight and Saturday at 8 p.m. in the Humboldt gym.

No admission charge will be levied and no preliminary games will be played. The Humboldt varsity squad will be in action against San Francisco Olympic club at San Francisco Friday night and against St. Mary's at Moraga Saturday night.

Coach Jack Netcher's frosh will be playing without big Joe Johnson, the sensational freshman from Oakland who starred against Shasta when the Jayvees won two earlier games at Redding. Johnson, who divided his playing chores between the varsity and frosh teams, will be playing with the varsity.

The frosh also will be without the services of Pete Mathieson, who sprained an ankle in practice. Ron Thomas and Billy Caver, two top-flight frosh players, had not returned to campus from holiday vacation Thursday and may not be in action.

This leaves Netcher with only five players: Jerry Hathaway at center, Ben Garrison and Jim Hadley at forwards and Lars Fredericksen and John Washington at guards.

Humboldt's freshmen have a sparkling 10-1 record going into Friday night's game, but because of the depletions in his squad Netcher described his outlook as "a bit pessimistic." The Knights have been playing very good ball of late and against the full frosh team lost the Redding games only 55-48 and 84-75.

untracked and came back to earn an 45-36 halftime lead. But the Aggies came out at halftime and hit their first five shots from the floor to go ahead.

The lead see-sawed back and forth before the losers opened up an eight point bulge early in the final ten minutes of play. Henry Cooper tied the score with a minute and a half left to play with a set shot after the Jacks had staged a rally. Erhart added a free throw to put Humboldt ahead 72-71 and Baker clinched the win with a lay-in with two seconds left.

Nevada defeated Williamette in the championships, Whittier won third place in the consolation by beating Sacramento 65-49 and San Francisco edged Chico State 71-69 in other last day play.

Mrs. Carter Says Learning Process Never Ceases

The learning process never ceases. A number of Humboldt State students in the 40 and over brackets are proving this thesis to themselves, family and friends.

One of these, Mrs. Laura Carter, has won a frankly skeptical husband and amused children to pride in her present status as a student.

"My husband was resentful at my re-entering college and my kids thought it was silly. Now they tell everyone that their mother goes to school."

Mrs. Carter said that the whole family "gets a kick out of helping with my homework projects." Her girls have collected snails and bugs for a class in elementary school science methods. Mr. Carter nailed together a little theater for an art methods class. Of course, the whole family checks up on mother's test grades.

Mrs. Carter entered school this fall with fear and trembling. "After all, almost 25 years away

30 Day Limit Set On Return Of Vet Questionnaires

Annual income questionnaires have been mailed to more than 1,200,000 veterans and widows and children of deceased veterans who are receiving pension, the Veterans Administration has announced.

VA urged those who received the questionnaires to fill them in completely and return them immediately to the VA office shown on the form.

Unless completed questionnaires are returned to VA within 30 days, pension payments will be stopped, VA stressed.

Questionnaires are mailed out yearly because disability and death pensions are subject to annual income limitations. The current questionnaires request data on 1956 income and anticipated 1957 income.

The questionnaires have been sent to 660,000 veterans and 570,000 widows and children of deceased veterans.

The annual income of those receiving pension must not exceed \$1,400, without dependents, or \$2,700 with dependents.

SPAWNING GROUNDS

Los Angeles — Steelhead and salmon spawning grounds in Northern California are being endangered by logging operations, according to Robert Culkins, a Fish and Game Department representative. Culkins warned a State Senate Interim subcommittee on Beaches and Streams that logging operations fill streams with silt. The suggested "buffer strips" he established to stop contaminants from getting into streams.

Larry Mitchell and Fern Fowler are shown above as they came forward to receive their awards of outstanding seniors of the year.

from school is a big gap," she said. "I thought I'd be considered a freak." However, she found that the casual acceptance as "just another student" by students and professors relieved her fears. "I felt right at home — the kids were friendly and there were other older students around," she said.

Although she had successfully graduated from college and then nursing school in 1932, she was "scared and worried at first" that

she no longer had the mental ability for college studies. And it did take a while to re-orient herself. "I wasn't used to concentration after all those years of being a housewife," she said.

Even the chores of a housewife are interesting now that she is in school. "I was bored doing it 24 hours a day," Mrs. Carter said. She finds that she actually accomplishes more at home. "I organize things better now — I have to," she said.
