## Innovations Abound In Issue Of Experimental Magazine

By HARVEY MONROE

Last year the editors of Hilltopper magazine plugged the sales theme of "It's Different," and it was. The same can be said of the fall issue that appeared last Monday. Following the idea of producing an experimental magazine, the editors took some new twists and turns, being sometimes inventive and all told turning out a highly creditable product.

This issue is the first that follows a theme, in this case "The Arts at Humboldt State." The arts covered in articles and pictures are painting, pottery, jazz, classical music, fencing, drama, modern dance. The theme is pretty broad, especially since the editors try to capture not merely the execution of the various art forms here but also the philosophy that directs the students and staff.

Some of the articles were written by the artists themselves. For instance Rolph Hellberg, an outstanding graduate art student, did a piece on pottery. Robert Brant, an English professor who also instructs fencing, wrote on swordplay. Elvera Ryerson did the blurb that accompanies the photo feature on modern dance in which she herself is pictured in three ecstatic dance attitudes. As a result the articles catch the artists' own enthusiasm for the subject.

The lead story on jazz by Tony Vasquez, the magazine editor, occupies four pages and is a nice, tight, professional piece that gave us a much better understanding of what jazz is and who jazz musicians are.

We especially liked also the article on Prof. Melvin Schuler and his paintings by Ron Sells, who covers the art department for the Lumberjack. The article took us into Schuler's unique abode and discoursed on what the "artist-instructor" tries to do.

The photographs, which were taken on assignment for the magazine by students in the advanced photography class of Prof. Thomas Knight, provide the strongest content of the magazine. Noteworthy among many fine photos are Jerry Batten's moody, abstract and interpretive shots that illustrate the story on jazz. These and several other photos illustrated nicely, too, that photography is an art form in its own right.

The one-word captions, conceived because the pictures were supposed to "carry themselves," do not really come off, however. Good as the pictures are, we felt they needed more explanatory caption matter to be fully understandable and to relate precisely to the text they were supposed to illustrate.

We felt the center two-page picture spread, which purported to feature works from "The Art Gallery" was by no means representative or emblematic of what hangs in the gallery or what the gallery tries to do. The cryptic one-word captions on this page defeated rather than enhanced the value of the pictures. For example, one photo of a nice-looking girl is caption simply "Sharon." Whether this is a visitor to the gallery or a photo of a girl that hung in the gallery is left for us to guess.

The printing is superior to that of Hilltopper within memory and the cover design by Jack Mays is striking.

Hilltopper was going fast early this week but a few copies may be available in the bookstore. Price is 25 cents a copy.

## Want The Inside Story? Then Join Lumberjack

Want to be on the "inside" of the Lumberjack next semester?

Reporters, photographers and ad salesmen are needed and welcomed. Best way to join the staff is simply to sign up for journalism laboratory, Journalism 27 or 127, for one or two semester units. This section of the workshop meets Tuesday and Thursday at 9 a.m. with two to five hours DHR.

No experience is necessary and there is no course pre-requisite.

A few staff members also may be accommodated by Hilltopper magazine, Journalism 27 or 127, section 2, and the Sempervirens yearbook, section 3. However, students who desire to work on the magazine or yearbook should consult first with Dr. Milton Hollstein, publications adviser, before or during registration.

## One Thing After Another.....

Registration for the Spring semester will begin the week of Jan. 24. Counseling for the new semester will start next Friday and last until the registration begins on Jan. 24.

Students can pick up their registration booklets at the time they see their advisers. Students should check to see if they still have their residence card. This card must be presented for validation before they can register.

The scheduled time for registration is as follows:

Jan. 27 - Registration and payment of fees. P-R 8-9 a.m., S-T 9-10 a.m., U-Z 10-11 a.m., A-B 11-12 a.m., C-D 1-2 p.m., E-F 2-3 p.m., G-H 3-4 p.m., I-K 4-5 p.m., limited students 7-9 p.m.

Jan. 28 - Registration and payment of fees. L 8-9 a.m., M 9-11 a.m., N-O 11-12 a.m.

Jan. 29 - Instruction begins.

Registration ends at noon Jan. 28. No registration will take place that afternoon.

Freshmen entrance examinations will be given next Tuesday. Next Friday examinations in California State and Local Government, United States History, and United States Constitutional Government will be given.

Physical examinations will be given on January 26 from 8 a.m. to 12:30 p.m. They will be held in the Women's Gym.

Fall semester grade reports will be mailed out the week-end of Jan. 24. The registrar's office has asked students not to call or stop at the office to ask about their grades, as it only delays service.

## Grand Inquisition Starts Today

Today! 8 o'clock! HSC students began the end of semester reckoning, finals. The electric light companies have not done such good business all semester as they are doing now. Not to mention the coffee pots. No further comment because there is studying to do. Here it is! The schedule. And, good luck!

### FINAL EXAM SCHEDULE

	Jan. 16	Jan. 17	Jan. 19	Jan. 20
8:00-10:00	MWF 9	MWF 1	MWF 2	T Th 2
10:30-12:30	T Th 8	MWF 10	T Th 10	MWF 12
1:00-3:00	MWF 8	T Th 9	MWF 3	T Th 1
3:30-5:00	MWF 4	MWF 11	T Th 11	T Th 4
7:00-9:00 p.m.	T Th 3	T Th 12	MW & MW p.m.	T Th & T Th p.m.

English X, Usage, Jan. 15, 7:00-9:00 p.m.

Since you won't be needing this semester's books any longer you can sell them to California Book Company. They will be buying used books at the College Book Store on Monday and Tuesday. You can rejoice in the fact that the books are no longer of use to you, and catch up on your sleep.

## Dr. Samuelson Has Short Story Published In Atlantic Monthly

By RONALD SELLS

Dr. Ralph Samuelson, professor of English, has had a short story published in the January issue of the Atlantic Monthly magazine. The story is entitled "A Beautiful Game". The story uses a tennis court as the setting for exploring a deeper problem.

The story was written during the fall of last year and along with two other stories sent to the Atlantic Monthly. He was recently notified that "A Beautiful Game" would appear and received \$350 for the short story. Dr. Samuelson plays an excellent game of tennis and is literarily active on campus as faculty adviser to Toyon, HSC's fiction magazine.

He has had other works published in New Campus Writings No. 2, an anthology of short stories published by Bantam Pocket Books; Assay, published by the University of Washington, and he is due to have a short story, "The Sitters," appear in Inland, a magazine published in Salt Lake City. Dr. Samuelson is also working on a novel.

Dr. Samuelson was graduated from the University of Washington and obtained his Master's Degree from Columbia University in New York. He traveled back to the University of Washington to acquire his doctorate before coming to HSC in the fall of 1956. He and his wife and their two children live at Moonstone Beach.

## Music and Art Program Set

A Chamber Music program is scheduled for Sunday, Jan. 25, at 8 p.m. in the Music Building.

Featured will be a Schubert string quartette comprised of Prof. Floyd Glende and Vernon Ludwick as violinists, Mrs. Esther Thompson as violist, and Mrs. Jean Fulkerson as cellist. Professors Charles Fulkerson and Floyd Glende and Mrs. Fulkerson will compose a Brahms piano trio.

An art exhibit of water colors and drawings by Max Butler will also be featured. This is a new innovation of the art and music departments working together in the hopes that the exhibit will add to the theme of the music program.

## Results In On Reps. Election; Amendment Issue Decided

By ART DALIANES

Students of Humboldt State College, balloting Wednesday and Thursday in Associated Student Body elections for representative at large returned one incumbent, Larry West, and elected three newcomers—Bob Merritt, Joan Rasmussen, and Linda Sarboe from the field of thirteen candidates. The constitutional amendment dealing with the Activities Commissioner carried by a heavy majority—420 to 36.

The new representatives at large will take office next semester and they will serve a term of one year. The constitution calls for the election of two men and two women representatives at large. These are to be students from the general student body and unlike the commissioners, they have no particular affiliation, other than the general student body whom they represent.

The total field of candidates running for office were Glendyne Baldwin, Linda Sarboe, Joan Rasmussen, Pat Miller, Carol Torrence, Carolyn Sanders, Ray Smeltzer, Neil Evans, Gary Timmons, Larry West, Jon Mitts, Bob Merritt, and John Burger. Incumbents were Larry West, Jon Mitts, Miss Baldwin and Lynn Cannam.

This past year, Humboldt State College's student executive council established a new commission to handle the development of the activities program in connection with the proposed Student Activities Building. The group has been known as the Special Activities Commission.

In order for the Activities Commissioner to have a vote on the council, this amendment had to be passed by a two-thirds majority of the Associated Students voting and at least one-third of the association had to vote to qualify election results.

The duties of the new activities commissioner as specified in the measure voted on were to attend all the meetings of the Executive Council as a voting member, to be in charge of the student activities program, to be the presiding officer of the student activities committee, and to determine the size of the activities committee.

The amendment called for the position of Activities Commissioner to be filled by the Executive Council until the regular spring semester election of 1959.

## Band Needs New Members For Some Sections

Dr. David Smith, Lumberjack bandmaster, is seeking new recruits for the band. "During the semester break, band members leave to teach, and there are still some sections in the band that could use some more players," he said. Players are needed for D flat clarinets, cornets, flute, oboes, tubas, and snar drums. The band included about 60 members this semester, the largest it has ever been according to Dr. Smith.

Activities for the band during the spring semester include participation in the Popera, the formal Spring Concert on campus, several concerts in Sequoia Park in Eureka, and concerts at the Fortuna and Eureka schools. In December the Lumberjack Band gave the first in the series of outdoor concerts on the patio in front of the Music Building. The Band plans to play a concert in the third week of each month, weather permitting.

### LIBRARY SCHEDULE

The Library will be open today from 7:30 a.m. to 10 p.m., and Saturday from 8 a.m. to 5 p.m. All other days will be regular hours.

DR. RALPH SAMUELSON

## PAT'S PERUSALS

By PAT BAKER

And so the semester ended! With a flurry of cramming, gathering material for note books, and all night coffee sessions the fall semester, 1958, closed. For me it closed on a cheery note. On the last day of class one of the profs finished the semester with, "That is the plan of survival for the human race!" ... oh well!

We now have the privilege of going through registration procedure again ... trying to read the bulletin, figure out course requirements, and standing in line ... and standing in line ... One of the hardest lessons a college student has to learn is how to take two required courses, when both are offered only MWF at 9 o'clock ... Now there is a real problem.

This week Pat's Perusals would like to congratulate several deserving ... First of all, the Hilltopper for an outstanding publication. It proved to be well worth the quarter! And, the community merchants who advertised. Certainly the people who took time out from a busy schedule to vote Wednesday and Thursday deserve a special thanks ... Sometimes people are lax when it comes to voting ... The candidates really appreciated this vote of confidence.

To those of you who are graduating this semester ... a very special congratulations. A point of departure can be almost anything. There is a sign that hangs in the auditorium of my former high school, "What you are to be, you are now becoming" ... True, even if you are now "educated" ... In other words—get out and make a living ... and congratulations.

Lawrence Ferlinghetti, a modern but not "Beatnik" poet of the San Francisco area, and a jazz combo provided me an interesting type of entertainment over the Christmas holidays. This group, appearing at San Francisco's Coffee Cup, are part of a national movement to correlate realistic poetry and jazz. Next time you are in the

Bay Area it would be worth your while to hear this group. Also, Mrs. Helen Everett, HSC librarian, told me a book of Ferlinghetti's writings has been ordered for our library. It is entitled "A Coney Island Of The Mind."

The Lumberjack inquiring reporter, Bonnie Montgomery, asked the question, "If you were stranded on a deserted island by yourself, what would you want for reading material?" My choice ... "One Thousand Ideas for a College Newspaper Columnist, To Be Used When News Is Scarce." By anybody who had that many ideas ... All suggestions are welcome.

## The Lookout

By BARBARA GORDON

San Jose State, Spartan Daily, State Regulations to Affect Frosh.

Housing for freshmen students next fall at SJS will be under stricter supervision than ever, owing to a 1957 state law.

The law applies to single male and female students under 21 years of age. They may live only in college-approved living quarters. The law has sharp teeth in it, too. Students not abiding by the rules may have their college registration cancelled.

Dr. Elizabeth Greenleaf, associate dean of students, pointed out that this law does not apply to students, living with parents or guardians, or who, because of unusual circumstances, such as work in gfor room and board, get special permission to live elsewhere.

San Jose State, Spartan Daily, Dr. W. E. Gould Dies

Dr. William E. Gould, 54, for 14 years a journalism instructor at San Jose State, died recently. He suffered a stroke Dec. 8.

Funeral services were held in St. Mark's Episcopal Church in Santa Clara Dec. 20. Burial was in Santa Clara cemetery.

7 ft. boa constrictor received as a Christmas present by life science student Ellie Boys from fellow student Bob Thompson of El Camino College.

The constrictor, in its infancy now, may grow to a length of 20 feet and reach the venerable age of 85.

This is not the first time that the young coed has had to care for a pet of this type. Last spring she helped care for another snake that was being boarded temporarily in the Life Science Department.

University of Nevada, U of N Sagebrush, Nevada Entrance Requirements Rate Among Best.

Although the University of Nevada had been accused at various times of having low entrance requirements, a recent study claims that the school's requirements rank among the top five western land-grant colleges and universities.

The study was part of a master's thesis written by graduate student Diane Martin Stauts and published by the Nevada State Council on Education and the University of Nevada.

The author compared trends in admission requirements over a period of 20 years and concluded that Nevada ranked behind only the Universities of Arizona, California, and Idaho.

## Colorful Campi

## Life's Little Joys

By Larry West

The mass hath spoken ... The great American entity, "the voter" stepped to the polls of HSC and chose his representatives to serve on that great and beneficial head of state, The Executive Council. To those of you who voted for me ... I very humbly offer my thanks, your undying support of my libroconservative cause is truly touching and I can say without fear of being quoted (who would want to?), that I will serve you faithfully and well (if I won) and that if I lost ... I still think that the school should have an all-day BEER-BUST. Now for those of you who didn't vote for me Phhhhhht.

Would like to leave the election and note a couple of things. First of all did anyone notice that there were two (2) movies in Eureka that were "Adult Only" last week? Yep, that's right ... Can't you imagine what the kids were doing while the old folks were watching the "adult only" movies.

The other thing is final scheduling ... am just kind of interested in the fact that it seems to be so blasted important the HSC doesn't waste a day between semesters that finals are given until 5:30 on Saturday afternoon. Then we get a free day on Wednesday and back for counseling etc., etc. with registration the next week and CLASSES RESUMING ON THURSDAY? Seems to me a little breathing spell of five or so days wouldn't hurt anyone. But then I'm merely a student.

Another thing, while I'm complaining, why doesn't each division get organized as to what kind of courses will be accepted by the registrar towards graduation ... Some of the "Academic Minds" don't seem to be certain of anything except promotion of their particular field ... and the loser is the student. My advice is to go to the registrar and find out what it takes to graduate and then take "advice" with a grain of salt. I'm not directing this criticism at anyone in particular, but if a freshman student listens to certain individuals on the staff, it's a sure bet that it would take him eight years to get his BA and still not get the courses he wants.

Well, guess that's about it for this week. Actually could go on and on about such things as rain and its effect on the love life of the sophomore ... How does it feel to sit in your car and kiss your girl good night with your feet in 7½ inches of water? I'm not saying that it's wet around here in the winter time, but when you drive down the highway and your passed by a duck, swimming, and you can't get your shoes off cause the fungus has—well, never mind. It just seems to me that there is a little too much of a good thing. Why I know of places in the west where a man would give his ... at least he would be mighty grateful if one tenth of one percent of this blessed wet stuff would grace his water trough. Seems to me we could sorta pipe it down where they could use it ... I mean just enough for a bath now and then ... I tell you I've lived in that

country and you tell a man's age by how long it's been since he had a bath. Anyway I hope you all pass your finals in fine style ... and you leeches who bummed coffee all last week, needn't come around anymore ... the election is over.

## Natural Resources Guide Prepared By Library Members

The "Library Guide For Students in The Natural Resources," prepared by Lee Fetzner and Charles Bloom of the Humboldt State College Library especially for the benefit of the students on campus, will be distributed next week to all Natural Resources students, the Department of Fish and Game and other colleges and universities. It is free of charge. This guide is primarily concerned with forestry, wildlife, and fisheries and explains the use of the card catalogue, periodicals, and government documents.

## Forensics Students To Participate In Audience Debates

Two San Francisco State College debaters will arrive at HSC Wednesday to participate in various audience debates in north coast high schools. Clayton Morareidge and James O'Sullivan, the SFSC team, will accompany an HSC squad including Doug Kane, John Rawlinson, Ed Spencer, Ron Edwards, and Muriel Armstrong, to the NCAA league coach meeting at the University of Santa Clara.

HSC Forensics students will participate in the Portland State Town Meeting and Stockton Tournament in February and the Linfield Open in March.

## Campus Spotlight

By BONNIE

Hi There:

Here I am back again with some more news on people, clothes, campus life and such.

How're you doing on finals, or wasn't I supposed to mention that? It hardly seems possible that it's the end of another semester already!

First off I want to tell all the girls about the sensational new shipment of the All-Weather Wool Jersey Coats that just came in DALY'S. They can be worn for rain coats, dress, or sport! You'll just love the new spring colors in Aqua, Beige, Powder Blue and Red . . . for just \$29.95.

Seems old Dan Cupid played Santa Claus during Christmas Vacation for several well-known couples on campus. Congratulations to the newly-married couples Jackie Stow and Carl Middleton; Bonnie Barbour and Roger Werts; Jacquie McLeod and Dale Callihan; Melinda Roberts and Bob Wedell.

Overheard today in the school cafeteria . . . some rebellious students planning a great rebellion to be carried on right here at HSC! Something about putting food coloring in the milk to brighten up the cafeteria! Under very evident circumstances I cannot reveal the names of Frank, Bill and Rich.

Styles, mmmmmmm, DALY'S Men's Department sure has got 'em. Seen the new Rough Rider and Pendleton Slacks yet? These aren't ordinary Slacks, they're America's best! Both guaranteed for unvarying, high quality, distinctive styling, and lasting satisfaction. Prices range from \$19.95 to \$22.50. And for those Pendleton and Rough Rider Slacks, why not get a Textan belt that comes in varied colors and finest in leatherwear? Prices start at \$1.50 to \$10.00. You just can't afford to miss these values!

Here's another tip for all you gals! Start your new Spring Wardrobe now, with DALY'S new Fritzi Cotton Dresses. They come in Checks or Solids, Roll-up Sleeves, Detachable Collar, and, here's the best part of all, they're Drip-Dry! These new Shirt-Waist Styles are only \$7.95 to \$8.95.

I've just been told about some TV repairmen who were given an order to fix up some wiring at a small motel on the outskirts of town. As they were preparing to leave the shop, one of them phoned the motel.

"Do you have AC or DC current?" he asked the operator. "Just a moment, I'll see," she answered. Then after a short interval: "I'm sorry, sir, neither of them is registered here."

Once more it's time to close — good luck on all your finals!

For your new Spring outfit be sure and see DALY'S Cotton Dresses, by Fritzi . . .

## Students Needed For Coming Drama Activities

Are you interested in drama in any way?

This question is being asked by a number of students who are trying to organize a new drama organization. The organization's activities will be widely varied.

Some students are now beginning to prepare several one-act plays for performance early in March, according to Dr. Jerry Turner, drama instructor. Students will, with faculty supervision and help available, select, direct, publicize, and handle all aspects of the production of these plays.

Tryouts for the various plays will be held early in February. Dr. Turner expressed the hope that a greater number of students will become interested in drama and will find it easier to participate if they do not have the time to put in on major productions.

Student help will also be needed for the backstage work. Help will be needed with costumes, makeup, publicity, properties, and scenery. There will be about 15 or 20 people needed as actors.

Students who have any interest in drama and who might like to participate are urged to contact Mr. Lloyd Crisp, Lee Mitchell, or any member of the drama department.

## Institute at CES Hosts Teachers In S. Humboldt

Some 70 teachers and administrators from the Southern Humboldt Unified School District are attending Institute Day at College Elementary School today.

Institutes are held annually at CES, as a regional service of the college. This is the fifth such Institute and most of the school districts in Humboldt County have now participated in them. Sponsors of today's Institute are the HSC Division of Education and Psychology, the office of the county school superintendent and the Southern Humboldt Unified School District.

The visiting teachers arrived at 8:30 a. m. and met in classrooms at CES. Reading and social studies demonstrations will be held in each classroom. After each demonstration the visitors will meet to discuss it.

At a luncheon at 12:15 p. m., President C. H. Siemens will welcome the group. Guest speaker will be Mrs. Nene Collver, assistant superintendent of Eureka city schools, who will talk on unit procedures.

A film strip on an Indian unit developed by Dr. C. Hap Gilliland, supervising teacher in fourth grade at CES, will be shown after luncheon.

It will be followed by a library program in the CES Library to be conducted by Miss Lora Palovic, CES librarian, Mrs. Julia Begley, curriculum librarian, and Miss Wilda Tomlinson, Humboldt County school librarian. Exhibits of books representing units of work in the classroom will be on display in the library and teaching materials and representative work by children done in units will be on display in the Curriculum laboratory.

## Faculty Reading Is Pleasing

The Fourth Annual Faculty Play Reading was presented Sunday evening at 8:15 p. m. in the College Auditorium, with members presenting "A Tale of Chelm" by Arnold Perl and "The Lesson" by Eugene Ionesco.

In "A Tale of Chelm," The Melamed, Dr. James McNellis, presented an easily believable character. He read his part as if he had actually memorized the lines and they were the words which he might have used in a similar situation.

Also deserving of credit is Mr. John Van Duzer who arranged the staging and lighting. The effective use of lighting helped establish the proper mood.

Mr. Henry Tropp, Mendele, could have known his material a bit better since at times he appeared to be groping for his place, but his accent was a help in establishing the mood.

Mrs. Jean Wagner, the goat-seller, did not appear to be participating in a play reading as much as she was recreating life.

Other cast members included Mr. Milt Dobkin, Mrs. Raisa Abcarian, Mrs. Evelyn McCurdy, Dr. Jerry Turner, Kathryn Corbett and Mr. Lloyd Crisp.

The accompanying music, played by Dr. Leon Wagner, complimented the play immeasurably. At times, though, it appeared to intrude on the action.

"The Lesson" had only three characters. The maid, Kathryn Corbett, was not believable generally. The pupil, Mrs. McCurdy, was not only believable, but evoked a feeling of sympathy on the audience's part. Dr. Turner, the professor, demonstrated the ability with which he is endowed. On a few occasions the part appeared a bit overplayed, but not much.

Mrs. Ethelyn Pauley directed the readings. The results were very pleasing.

—John Rawlinson

## Creative Art Work Goes Up Monday

An art exhibit featuring student works from practically all the creative art classes will go up Monday and run through Jan. 30. The exhibit will fill the art gallery and overflow into the Green and Gold Room.

The show will include works in water colors, oil paintings, sculpturing, drawing, photography, graphics, design, pottery, lettering, crafts, and works from the extension courses. All works will be of student composition only and will show various problems encountered in the classrooms. For this reason only the work best representing the problem will be displayed in the exhibit.

## Waters Elected IK Honorable Duke

Kenneth Waters was elected honorable duke of the Intercollegiate Knights this week. Waters succeeds John Burger.

Other officers are Richard Ames, vice president; Ross Stromberg, secretary; Douglas Kane, treasurer; Donald Daniel, knight at arms; and William Turner, pledgemaster.

The new officers will serve during the spring semester.

## Stuck In The Mud Not Duck Soup

Three Humboldt State students were left high and dry after a hair-raising rescue.

Nick Cizmich, Pete Cizmich, and Kenneth Higgs, were duck hunting at the Eel River last Sunday when their small boat capsized. They made their way to a small sandbar and fired shots into the air to summon help. Help arrived in the form of the Sheriff's Marine Posse who took the trio to shore.

## IS STUDYING NECESSARY?

Once there were three roommates and their names were Walter Pellucid, Casimir Fing, and LeRoy Holocaust and they were all taking English lit. They were all happy, friendly, outgoing types and they all smoked Philip Morris Cigarettes as you would expect from such a gregarious trio, for Philip Morris is the very essence of sociability, the very spirit of amity, the very soul of concord, with its tobacco so mild and true, its packs so soft and flip-top, its length so regular or long size. You will find when you smoke Philip Morris that the birds sing for you and no man's hand is raised against you.

Each night after dinner Walter and Casimir and LeRoy went to their room and studied English lit. For three hours they sat in sombre silence and pored over their books and then, squinty and spent, they toppled onto their pallets and sobbed themselves to sleep.

This joyless situation obtained all through September and October. Then one November night they were all simultaneously struck by a marvelous idea. "We are all studying the same thing," they cried. "Why, then, should each of us study for three hours? Why not each study for one hour? It is true we will only learn one-third as much that way, but it does not matter because there are three of us and next January before the exams, we can get together and pool our knowledge!"

Oh, what rapture then fell on Walter and Casimir and LeRoy! They flung their beanies into the air and danced a schottische and lit thirty or forty Philip Morris and ran out to pursue the pleasure which had so long, so bitterly, been missing from their lives.

Alas, they found instead a series of grisly misfortunes. Walter, alas, went searching for love and was soon going steady with a coed named Invicta Breadstuff, a handsome lass, but, alas, hopelessly addicted to bowling. Each night she bowled five hundred lines, some nights a thousand. Poor Walter's thumb was a shambles and his purse was empty, but Invicta just kept on bowling and in the end, alas, she left Walter for a pin-setter, which was a terrible thing to do to Walter, especially in this case, because the pin-setter was automatic.

Walter, of course, was far too distraught to study his English lit, but he took some comfort from the fact that his roommates were studying and they would help him before the exams. But Walter, alas, was wrong. His roommates, Casimir and LeRoy, were nature lovers and they used their free time to go for long tramps in the woods. One November night, alas, they were treed by two bears, Casimir by a brown bear and LeRoy by a Kodiak, and they were kept in the trees until mid-January when winter set in and the brown bear and the Kodiak went away to hibernate.

So when the three roommates met before exams to pool their knowledge, they found they had none to pool! Well sir, they had a good long laugh about that and then rushed to the kitchen and stuck their heads in the oven. It was, however, an electric oven and the effects were, on the whole, beneficial. The wax in their ears got melted and they acquired a healthy tan and today they are married to a lovely young heiress named Ganglia Bran and live in the Canal Zone, where there are many nice boats to wave at.

## Tension Is Beneficial At Times As Well As Being Detrimental, States Faculty Forum Lecturer

By PAT BAKER

"Tension is the mechanism utilized by the body to accomplish its tasks," stated Dr. Louise Watson, associate professor of physical education, in a Faculty Forum held Wednesday night in the Science Building Lecture room. Speaking on muscular relaxation, Dr. Watson presented a lively discussion on a topic related to modern day living. "Tension is always a response to a stimulus occurring at the conscious, non-conscious, or sub-conscious level," Dr. Watson continued.

Tension can be constructive, it was pointed out. Tension developed in preparation for a task which is carried out due to that tension and its subsequent release is constructive tension. If the muscles are prepared for action and that action is not carried out the resulting tension is destructive.

Tension can be released by a number of more or less satisfactory methods, Dr. Watson went on to say, among these are psychological treatment, "Philosophical systems, especially religious experiences, are extremely helpful in relieving tension in some persons," Dr. Watson continued. Chemical treatment, known to the laymen as tranquilizers, are a relatively

new method of relaxing. "While tranquilizers are helpful in some cases, they also have harmful effects," Dr. Watson stated. There has also been research in the field of surgery and its use in relieving tension.

By far the best method of learning to relax is a change of activity and consciously learning to relax excessive or unneeded muscular tension. "This learning to relax or release excessive tension is a slow process for most people because he is really working contrary to instinct!" Dr. Watson added, "One reacts against irritation by a series of tensions which may be harmful to the body as a whole." Dr. Watson pointed out that learning to recognize the sensation of tensions in skeletal muscles is the preliminary stage of the ability to release that tension. As soon as tension is recognized it can be released.

In conclusion Dr. Watson stated "Training in muscle relaxation helps the individual decrease the reaction to the stimuli and thereby reduce body stress. "One should learn to take advantage of the "Built-in Tranquilizer" which each of us naturally possesses," Dr. Watson concluded.

## Now Playing: A Major Attraction, Construction-Wise

One of the main talking and viewing points of interest of late is the skeleton structure of the new Speech Arts Building. Now in place are the main supporting I beams, part of the gridiron, hangers, loft block walls, and loading platform. The large horizontal beams on the east side of the framework comprise the proscenium arch skeleton. More structural steel is due to be positioned next week.

## Anderson Named Student Director

Keith Anderson has been selected as student assistant director of the Lumberjack Band. The selection was made by Band Master Dr. David Smith in competition with two other students, Joe Chappelle and Iris Osborne.

The students were judged in three different categories; each conducted a number selected by the band master, a number of his own selection, and from a score which they had not previously seen. Judgement was based on clarity of conducting technique and interpretation of the score.

Duties of the assistant band director include the warming up of the band at the beginning of rehearsals, replacing the band master if he is unable to attend rehearsals, and the arrangement of a few numbers he is to conduct while the band is on tour. Keith Anderson will hold the position for the balance of the school year.

## Survey Discloses Vets Choices For GI Program Courses

Business administration, engineering and teaching are the three top choices of veterans attending college under the Korean GI Bill, according to a Veterans Administration survey released this week. So far more than 1,000,000 Korea veterans have gone to college under the GI program. Another 1,000,000 have taken other types of training in schools below college, on-the-job and on-the-farm.

Of the GI college students, 168,000 chose business administration; 145,000, engineering, and 106,000 teaching.

Number one choice of the GI engineering students was electrical engineering, followed by mechanical and then civil engineering.

Most of the veterans preparing for teaching careers have gone into general education, but several thousand have entered specialized fields such as industrial arts and physical education.

Other objectives attracting large numbers of Korean GI college students have been science, with 39,000; medicine and related professions, 49,000; business courses such as accounting and advertising, 36,000; social sciences, 30,000; law, 40,000, and the ministry, 10,000.

Actually, veterans have been preparing for almost every conceivable type of career at college. On the rolls have been agronomists and zoologists, architects and dietitians, newspaper reporters and mathematicians, librarians and law enforcement officials, and many others.

## Faculty To Study Under Two Award Programs

Dr. Arthur Smith was recently awarded the Science Faculty Fellows award by the National Science Foundation, a government agency. He will leave Humboldt State for nine months, starting Sept. 1 of this year to June 30, 1960. He will be working with a former classmate, Karol J. Mysels, professor of chemistry at USC. Dr. Smith will be primarily concerned with working in the field of colloidal electrolyte with his sub-field being that of electrochemistry.

The purpose of the award is to increase the competence of teachers at the college level work with their students. Dr. Smith hopes his observations will lead to publication and that he will return to Humboldt, better equipped with knowledge and stimulation to encourage his students.

Henry S. Tropp, assistant professor of mathematics has been awarded the Mathematics Faculty Fellows and will study for three summer sessions at the University of Washington.

"I don't mind your  
running out of gas—but Camels!"

Many a girl would rather walk home than do without Camels. For the 10th straight year, this cigarette outsells every other—every filter, every king-size, every regular. The Camel blend of costly tobaccos has never been equalled for rich flavor and easygoing mildness. The best tobacco makes the best smoke.

Don't give in to  
fads and fancy stuff . . .

Have a real  
cigarette—  
have a CAMEL

# What! Sell 'My' Books?

The College Bookstore has arranged for a buyer to come to the campus to buy your used books at the end of this school year. This arrangement was made after a careful survey of the buying procedures of other major colleges in California and the results obtained. We think this will result in better service to you. Since there is certain information regarding the repurchase and resale of textbooks that will be of value and interest to all of you, we have in the following bit of copy attempted to help you understand the problems of the used-book business and what determines the prices they receive. Through such understanding, we feel that both the store and the student will benefit.

You are interested in receiving the best price possible for the books you no longer need. It is also to our best interest that you receive the best possible price. You also wonder whether it is wiser to keep all your books after they are no longer needed, or to sell them.

## WHAT DETERMINES THE PRICE PAID FOR BOOKS?

(In other words, why aren't all books repurchased at the same percentage and why isn't it more?)

The books which you have to sell at the end of each term will usually be of three types.

1. Books that will be used again the following term at this campus.
2. Books that will no longer be used at this campus, but are in considerable demand at other schools.
3. Books that will no longer be used at this campus, and which are not in much demand elsewhere.

Books in category one will, of course, be worth the most money. These books are normally repurchased at 50% of the retail price. They are resold by the bookstore at 75%. These percentages I might add, are standard at college bookstores throughout the country.

Books of the second category are repurchased at varying prices, depending on the age of the books, the popu-

larity of the subject and general supply and demand condition on the national market. This will usually vary from 30% to 40% of the list price. The discontinued books for which we will pay the best price are those books which are in the greatest demand. For on those that we recall quickest, we can take a small margin. You might be interested to know that when a book is resold on the national wholesale market it is sold for 45% of the original price.

The books in category three are books which must be purchased — if at all — at a price that will take into account the fact that many of them will never be resold. A textbook is an article that usually cannot be cleared by reducing the price, because usually very few people are interested in an old textbook (especially an elementary one) unless it's required. When the limited demand of this type is filled the balance often must be discarded.

## WHICH BOOKS SHOULD I SELL?

Most books acquired by a student during his college career have limited reference value. This is for two reasons. One is that most of the information that might be later needed is scattered through many books, and is more readily available in other single volumes. The other reason is that new books are always being

published and older books changed and brought up to date. Most of the books you now have are probably copyrighted within the last four years and will be used again in a similar period. Those books which have permanent reference value are better kept than sold.

## WHAT IS THE FUNCTION OF THE BOOK BUYER?

By utilizing the buying service of a wholesale book company, it is possible to give you more money for all your books than would otherwise be possible. For those books which are to be used at Humboldt State for another term you get exactly the same price as the Bookstore pays for the book. There is no mark up or fee of any kind. The books which are to be discontinued can be marketed best by (in fact only) a company

specializing in that function. This is because there are in use today more than 14,000 different titles in colleges throughout the United States. There are in fact only six companies in the United States who do textbook wholesaling, which underscores the specialized nature of the business. Our buyer knows the wholesale market well, and that knowledge enables us to pay higher prices than if we did not know.

**REMEMBER: IT IS THE DUTY OF OUR BUYERS TO BUY AS MANY BOOKS AS POSSIBLE ...  
TO ACCOMPLISH THIS, WE MUST ALWAYS PAY THE BEST PRICE POSSIBLE**

**BOOKS WILL BE BOUGHT IN THE BOOKSTORE**

**Monday and Tuesday**

**JANUARY 19 & 20**

# SPORTS

## Cindermen Start After Finals

The 1959 Humboldt State College track team under the coaching helm of Bob Doornink will begin workouts immediately after the start of the spring semester.

This year's cinder squad may be a much improved squad with good performers in several events. This year the Jacks will be strong in the high jump with five members clearing the six foot barrier. These men include Bill Crichton, a freshman now playing basketball, Jim Christensen also playing basketball, Earl Barnum of football fame, Don Black, and Loren August.

A strong contender in field events will be Roger Biffle, a pole vaulter who has cleared over 14 feet. In the weights the outstanding prospect is freshman Bill Hook from Ukiah who placed first in the discus and third in the shot in the California State Prep Meet at Long Beach last year. A returning platter spinner is Tom Schubert.

It is hoped that Manuel Vasquez, the conference 100 yard dash champion will return to the squad this season. Buck Crosby, an excellent miler has been working throughout the year and much is being expected of him.

## 'Jacks Lead Nation

Humboldt's Lumberjacks are leading the nation's small colleges in defense according to statistics released last Wednesday by the National Collegiate Athletic Association. In games through January 3, Humboldt had an average of 43.4 which was the lowest according to the NCAA of all small colleges but evidently the record will not be included with the larger institutions.

## Baseballers Begin Limited Practice

Humboldt State's baseball team coached by Cedric Kinzer started practicing in the Women's gym last week. The practice consists mainly of pitchers and catchers working out in order to get their arms in shape for the coming season. Other men, some of them freshmen, have been coming out also with the frame of mind that their arms will be in the best shape possible when regular practice rolls around.

Kinzer's 1956 nine were co-champions with Sacramento State, each team losing to the other. That year the Jacks had a 19-6 record. In 1957, his team won 20 games while losing 7. Last year's team won 14 games and lost 8. The rain hampered the season a great deal and many games were called off because of inclement weather.

## C.U., Faculty Tied; Basketball To Start

As volleyball goes into its final week of play, Conservation Unlimited and the Faculty teams are neck and neck with seven wins and seven losses each.

C. U. and the Faculty are all alone as the only team giving them trouble is the Caterpillars which has a 5-3 record. The rest of the teams records are as follows: Teke's 4-4; Nelson Hall 4-4; Block "H" 4-6; Gamma Delta 3-5; Redwood Hall 3-5; Forestry Club 3-6; Fraternity 2-6; and Circle K 0-10.

At the start of next semester intramurals will turn to basketball which will be followed by a ping pong tournament.

## Jacks Host Tallest

Humboldt will host barnstorming Gonzaga University on February 7. The small Oregon university boasts the tallest player in collegiate ball. Jean Claude LeFevre, 7' 3" leading player from France leads the Gonzaga five. LeFevre is a top rebounder and weighs over 280 pounds. He has a 47.6 shot average and in his freshman year of ball tanked 50 points to erase Gonzaga's existing school marks. The game will be one of two that Humboldt will face, the other being highly touted St. Mary's College of Moraga. On February 2 the Lumberjacks travel to Moraga to meet the Gaels who were ranked number two by pre-season polls on the Pacific Coast.

## Starting Lineups for Humboldt vs. Chico

CHICO STATE			POS.	HUMBOLDT ST.		
No.	Name	Hgt.		No.	Name	Hgt.
11	Alan Darby	5' 9"	G	11	Billie Caver	5' 11"

32	Harold Ellis	6' 3"	F	41	Joe Miller	6' 3"

Game Time 9 p. m.

## Junior Jack Basketballers Split; Lose To Ned's, Win Over Nickol's

By CHARLIE JONES

The Humboldt State Junior Jack basketballers split their slate of weekend games. The Jacks dropped their opening game on Friday night against Ned's Men's Wear and then took a victory from Nickol's Pontiac of Crescent City on Saturday evening.

The Jacks this year begin with three promising freshmen of which two have moved up to the regular varsity. Larry Krupka and Bill Crichton, both graduates from Eureka High, are now on the Varsity reserves and are not in the services of coach Tom Schubert's Junior Jacks.

It was Ron Fredricks that made the difference in the Friday night game. Fredricks, a former HSC cage star, found the range for 28 points, 20 of them coming from the floor. Joe Meyers and Jerry Paul, who also played with the Ned's five, are former Hilltop standouts. Meyers collected 11 and Lawson five.

Ned's moved to a 22-18 halftime lead and kept their advantage during the remaining minutes of the

game. However, Jack Atwood found range and the Humboldtters pulled up to a 53-50 score with three minutes remaining. Atwood connected with 14 to pace the losers.

Saturday the Jacks put together a team effort and emerged with a 46-33 decision over the visiting Crescent City five. In a very slow first half Humboldt edged Nickol's five 14-12 but pulled ahead with a better shooting performance in the second half. Felix Rodgers with 11 followed by Atwood's 10 was high for the Junior Jacks and Bill Johnson led the losers' efforts with 10 points.

## Senior on Survey Trip This Spring For Fish, Game

Senior Game Management major Richard Bauer of Albany, will take part in a coastal survey to be conducted by the U. S. Department of Fish and Game this spring and summer.

Bauer will take time off from his studies during the spring semester, returning to complete his B. S. degree next fall. In the meantime, he will assist in a study of Pelagic Fur Seals which will cover an area from San Francisco bay to the Pribiloff Islands off Alaska.

The study will be made from three boats chartered by the U. S. Dept. of Fish and Game. Crews of the boats will collect specimens and study the age, habits and physical makeup of the seals in an effort to determine whether they are a factor in the decline of Pacific salmon.

Since he registered at Humboldt State in September, 1955, Bauer has been active in Conservation Unlimited, a student wildlife organization. He has also been assisting in a special research project on the oxygen requirements of aquatic insects that serve as a source of supply for game fish in coastal streams.

## FWC Accepted In NCAA Group

Delegates at the recent NCAA convention held at Cincinnati, Ohio chose to put three conferences in their association. Included was the Far Western Conference which was voted on a provisional basis. The acceptance was provisional because Humboldt State has not been accepted into the NCAA. The three leagues according to NCAA officials would automatically qualify for this spring's 1959 national basketball championships. The new members raised the total to 533 colleges and universities affiliated with the NCAA.

# HSC Drops Two; Wildcats Next

## SACRAMENTO TAKES TWO AND FWC LEAD

By HUGH CLARK

The Humboldt State basketballers came close, but not close enough, against the Sacramento State Hornets and consequently dropped two games to the homestanding Sacramento five.

### Thomas Leads Cage Scorers

Eddie Thomas, diminutive 5' 9" Humboldt basketball guard, has taken over the leadership of the Lumberjack scoring as the Hill-top five is at the halfway mark in its 1959 cage schedule.

Thomas added 32 points last weekend in the Jack's two losses at Sacramento to put him ahead of big Joe Johnson who trails by a total of eight.

Johnson tops the free throwers with 28 charity tosses and Thomas leads in the field goal department over his closest rival by 11.

Center Grant Erhart, fifth in the scoring, leads the personal foul department with 46.

In statistics released last week Humboldt was second in the small colleges on defense and Johnson was listed as one of the top rebounders in the nation.

Following is the complete Humboldt scoring for the first 12 contests:

Name	GP	FG	FT	PF	TP	AV.
Thomas	12	49	12	24	110	9.1
Johnson	12	37	28	29	102	8.5
Miller	12	38	21	24	97	8.0
Milions	12	36	16	18	88	7.3
Erhart	12	21	25	46	67	5.5
Caver	12	21	16	32	58	4.8
Krupka	6	4	5	7	13	2.1
Crichton	11	5	8	5	18	1.7
Boehme	5	4	0	2	8	1.6
Giuntini	9	7	0	4	14	1.5
Christianson	4	2	1	2	5	1.2
Hathaway	1	1	0	4	2	2.0

### Junior Jack Cagers Take Semester Break

The Humboldt State Junior Jacks ended practice sessions for this semester last Wednesday. With final exams starting today, the players have been given the extra time to study. To participate in athletics a player must be passing in 10 units. Next year or in the near future a player will have to maintain a C average to be eligible.

The Junior Jacks will be losing one of their mainstays when the new semester rolls around. Bob Reeves from Salem, Oregon, has found it necessary to go back to Salem and work the rest of the school year.

Last summer Reeves played for the Humboldt Crabs and proved to be pretty good with a bat. He played guard for the Junior Jacks and saw plenty of action.

The Hilltoppers will return to the hardwood with the end of final exams.

### Boxers' Last Chance To Save Program

The Humboldt State boxing program under coach Bob Doornink is contemplating the holding of a smoker, but a lack of participation may cancel such an event.

There are hopes of fielding an intercollegiate team, but coach Doornink points out that "more participation is needed in order to enter such a team." Anyone interested should contact Doornink immediately at his office in the gymnasium.

#### Far Western Standings

Team	W	L	Pct.	GB
Sacramento	2	0	1.000	
Nevada	2	0	1.000	
Chico	0	0	.000	
San Francisco	0	0	.000	
Humboldt	0	2	.000	2
Cal Aggies	0	2	.000	2

The Lumberjacks found the hitting range was poor, couldn't stay away from the official's tooting whistle and lost out 67-59 in the FWC opener on Friday night and came back on Saturday to drop a closer 56-51 contest. Earlier in the season Humboldt easily knocked Sacramento out of the Far Western Christmas tournament championship round by a 53-36 decision but last weekend was another chapter in the HSC sports book.

During the first ten minutes of action in the first game Humboldt seemed on the road to victory as they annexed a comfortable six point lead. Then Joe Johnson, leading Humboldt cager, was charged with his fourth personal foul of the evening and the Hill-topper advantage was gone. The halftime score stood at 29-29.

With four minutes used in the second half Johnson was taken from the game and was soon followed in turn by other regulars including Grant Erhart, Bill Caver, and George Milions. The Humboldt quintet fought hard but with so many key personnel out of play and the vast number of fouls, Sacramento jumped to a lead and maintained it throughout the remainder of the game. Although Humboldt equalled the Hornets from the floor, each sinking 22 shots, the Sacramento team made eight more charity shots than the Jacks could muster, and the margin of victory was made.

Humboldt was not as sharp as their counterparts, hitting a little better than a third of their shots, while the Hornets managed over 50 percent. Chuck Mobley, usually a thorn in the Lumberjack side, was no exception, as the 5' 9" forward recorded 24 points. Little Eddie Thomas was high point man for the Jacks with 19, followed by Joey Miller's 14.

Perhaps Humboldt has been riding on the good fortune of Joe Johnson? The 6' 4" forward who has led the Hilltopper basket-makers and rebounders all season could not do anything but foul or at least that was what the scorebook showed at the end of the two night stand at Sacramento.

Humboldt opened quickly and stayed amidst the Hornets throughout the first half. At the intermission Sacramento held a slim 26-24 lead and could not increase their advantage by an substantial amount. Johnson then tied it up with his first basket of the evening accompanied by a charity throw. Big Joe had contracted three fouls to this point midway the second half. Then on the following two plays, he fouled out. Gone was Humboldt's rebounding strength and later it was demolished when center Grant Erhart was charged with his fifth personal infraction. Sacramento edged through in the final minutes with a five point victory to give the Hornets a two game sweep as well as part of the leadership with Nevada in the Far Western conference cage battle.

Mobley again was the leading scorer with 18 while Thomas tanked 13 followed by Miller's 12 and Johnson's 11.

Player	FG	FT	PF	Pts
Johnson	0	2	5	2
Miller	7	0	1	14
Erhart	1	2	5	4
Thomas	7	5	3	19
Crichton	0	2	0	2
Handy	1	0	1	2
Krupka	0	0	0	0
Giuntini	1	0	0	2
Milions	4	2	5	10
Caver	1	2	5	4
Totals	22	15	25	59

### Jack of the Week

JOE MILLER

Selected as this issue's Jack of the Week is 6' 3", 185 lb. senior basketballer Joe Miller.

Miller is a two-year veteran who came to Humboldt State from John Rogers High School in Spokane, Washington, where he participated in football, basketball, and baseball.

Throughout the current season the big forward has been a consistent scorer and a top flight rebounder. Joe has a high standard of leadership and sportsmanship which makes him a team player and leader.

He is married, has two children, and is an art major.

#### HSC Opponents Win

Future Humboldt State basketball opponents took three of four casaba games last weekend. Nevada added a fourth with their victory over Cal Aggies.

Chico State made it a sweep over the Alameda Sailors in a close 60-58 meeting and 76-55 in the second game. The two victories made it four wins for the Wildcats.

San Francisco, after scaring USF in early January, lost to the San Diego Marines 66-51 in their meeting last Friday evening. The Gators five has played San Jose, USF and the Marines for their only losses while winning their other games, many by a large margin. Meanwhile Nevada triumphed twin wins over Cal Aggies to put the Mustangs in the cellar of the FWC with Humboldt.

Player	FG	FT	PF	Pts
Mobley	7	10	2	24

### Arch Rival Chico Here Next Week In Two Games

By RON KUNSTAL

Returning to the hardwood after a week of finals, the Humboldt State Lumberjacks will be entertaining arch rival Chico State next Friday and Saturday night at 9 p. m. in the Men's Gymnasium.

The contest will mark the first in Far Western play for the Wildcats who go into the contest with four wins. These four wins came at the expense of Southern Oregon College and the Alameda Naval Air Station. This same Wildcat team has lost to some top flight competition in the University of San Francisco Dons, the College of Pacific Tigers, and the San Francisco State Gators. The San Francisco team won the recent Far Western Conference Tournament at Humboldt State and are heavy favorites to win the hoop crown this year.

Chico State to date has been a team unable to put together a good strong scoring punch, but who are capable to do so with the present material. At guards for the Cats are Allan Darby and Don Richardson. Darby is 5' 9" and has three years of varsity experience and is very fast. Richardson is 6' 0" and is a two year hardwood veteran who has a good shot.

Playing forwards are 6' 0" Jim Westlake and 6' 3" Harold Ellis. Both are good shots and strong rebounders. At center is 6' 6" Harold von Barga, a sophomore who is an excellent prospect for future seasons according to his coaches. He is a fine defensive player and has a very good hook shot. Ready to take action are two reserves in guard Bobby Sherrard and center Gary Newman. Sherrard is 5' 9" and is the fastest man on the squad. He is a terrific hustler who sparkles on defense with his ball-hawking tactics.

Newman is a big strong cager who gets his share of rebounds with his 6' 4" frame. The Wildcats aggregation is coached by Gene Maxey.

For Humboldt the picture is one of a do-or-die situation. A deep freeze offense and a fouling defense caused the Jacks to drop a pair to the Sacramento State Hornets in their initial conference games. In an earlier tilt, the Lumberjacks found little trouble in turning back the Hornets led by three year All-Conference player Chuck Mobley. The team was very much in the contest until four starters were lost via the foul route.

With hopes of getting back in the winning ways, the Jacks will try to overcome the stumbling defensive problem and also the cold shooting.

Starting at guards for the Lumberjacks will be 5' 9" Eddie Thomas and 5' 11" Billie Caver. Thomas has been the leading scorer and has shown excellent floormanship. Caver has been steadily improving and has begun to be a consistent scorer. At forwards are 6' 4" Joe Johnson and 6' 3" Joe Miller. Johnson has been the team sparkplug to date with his sharp shooting and terrific rebounding. Big Joe was the 15th leading rebounder in small college circles in the nation last week. Miller has been a consistent scorer who adds to the Jack offense. At center will be

6' 5" pivotman Grant Erhart who is a good rebounder. Filling in as a reserve is 5' 11" George Milions who is one of the trio of fine guards.

A preliminary game featuring the Junior Jacks will begin at 7:30.

### Teacher Interviews Begin Thursday

Administrators from three elementary and secondary schools will be on campus in the next two weeks to interview graduating students who plan to teach.

Next Thursday James Carvell, superintendent of the McKinleyville Union Elementary School District, will interview students who intend to teach in elementary schools.

Friday, Dr. Chester Ingils, superintendent, and Mrs. Nene P. Colver, assistant superintendent of the Eureka City Schools will be interviewing graduates seeking positions in both elementary and secondary schools.

The following Monday, Jan. 26, Dayne Jones, principal of Milpitas Elementary Schools, will hold interviews with graduating students who are hoping to find teaching positions in elementary schools.

The interviews will be held in the Placement Office, which is located in room 109 in the Green and Gold Room.

Further information may be obtained by contacting Mr. Albert Blood, Placement Officer, room 109.

## Student Wives To Install Officers

Installation of Student Wives club officers for the spring semester will be held next Thursday in a traditional candlelight ceremony. New officers are: Carol Jennings, president; Betty Lessley, vice-president; Evelyn Ibarretta, secretary-treasurer and Connie Millionis, publicity director. The new ICS representative is Pat Noah.

The first meeting of the spring semester will be held in the Green and Gold room on Feb. 5th.

The club has been meeting every first and third Thursday of the month in the Green and Gold room during fall semester. Officers presiding over the meetings were: Maureen Foster, president; Janet Backlund, secretary-treasurer; Wanda Deniz, vice-president; and Marsha Morrow, publicity director. The club's ICS representative was Carol Baney.

The main project for the semester was publishing the student directory. The money received will be put toward the club's annual scholarship.

The Christmas meeting was a party and was held at the home of Mrs. Elizabeth Ward, club adviser. Gifts were exchanged and refreshments served.

## 'Spring Fancy' Theme of AWS Fashion Show

"Spring Fancy" will be the engaging theme of the Associated Women's Students fashion show Feb. 12 at 8 p.m. It will be held in the Auditorium of the College Elementary School. Admission price will be 25 cents.

Barbara Wilber is chairman of the affair. Co-chairman is Glendyne Baldwin. Daly's department store, of Eureka, will supply the Spring fashions.

Models for the occasion will be HSC students: Miss Baldwin, Marilee Ammer, JoAnne Ferguson, Elvera Ryerson, Susan Runyan, Judy Ferguson, Pat Hodges, Lois Gardenhier, Mrs. Wilber, and Mary Ann Regan.

## Winner Named In Speech I Contest

The HSC Speech I contest was held Monday evening. Winner was Billie Frazier with her subject, Religion in Russia. Second place went to Tom Harper, third to Stan Brandenburg, and fourth to Chuck Atkinson.

Professors Milton Dobkin and

Kenneth Humphrey and Mr. Scott of the Institute of Banking were judges of the evening.

Miss Frazier's name will be placed on the AIB permanent trophy.

## HAPPY BIRTHDAY

Students may have wondered to whom the carillon bells were playing "Happy Birthday" last Thursday. It was in honor of President Siemens' birthday.

## Persian Student Has Ambitious Degree Program

By HUGH CLARK

HUSHIDAR MOTLAGH

Humboldt State is growing and with its growth it has been honored by the attendance of a number of foreign students from nearly every place on the globe. Students have come from all over the North American hemisphere in recent years and now students from the Near East, Far East and Europe are obtaining their higher education at the Hilltop campus.

One of these students include Hushidar Hugh Motlagh who hails from Tehran, Iran. Motlagh came to Humboldt from Ontario Junior College in southern California where he attended school for 19 months after leaving his native Iran or Persia as the people sometimes prefer to call that country.

Hushidar is a sociology and psychology major and plans to receive his degree in each here at the home of the Lumberjacks. Prior to his coming to the United States, he attended the Tehran University and soon the Iranian government offered to help Hushidar with education as a foreign student.

The 24-year-old student hopes to teach in Iran or work for the government. He said without any noticeable accent he though Humboldt was very friendly. We asked him why he had such a remarkable command of our language in just two years, and Hushidar quickly answered that he had studied English for quite some time in high school and college.

Motlagh has three brothers and his parents in Iran whom he hopes to see very soon, but he added, it is not likely since he plans to carry on his studies until 1963 when he returns to Iran.

He has two hobbies and interests including body building and the studies of comparative religions. Much of our surprise when we asked Hushidar what his faith was he replied "Bahai".

We learned this religion is not yet 100 years old and originated in the Near East but since has spread to 237 states or nations and over 130 languages. It is one of the rising faiths in the United States today. In July of 1963 Hushidar will be on hand for the hundredth observance of the founding of the religion. This centennial will not be held in Iran but in neighboring Bagdad, Iraq.

One soon learns that a considerable amount of valuable experience can be obtained through the talking and meeting of these fine foreign students who have fit very well into the framework of growing Humboldt.

# THINKLISH

## PUT IN A GOOD WORD AND MAKE \$25

We're paying \$25 each for the hundreds of Thinklish words judged best! Thinklish is easy: it's new words from two words—like those on this page.

Send yours to Lucky Strike, Box 67A, Mount Vernon, New York. Enclose your name, address, college or university, and class.

English: INSECT-COUNTER

English: FAKE FROG

English: VALISE FOR A TRUMPET

English: MAN WHO STEALS FROM THE RICH AND GIVES TO THE POOR

**Thinklish translation:** To smuggle loot, this fellow dons his plunderwear. For street fighting, he wears a rumblesuit. He totes his burglar tools in thuggage. The only honest thing about him is the Luckies in his pocket. (Like law-abiding folk, he enjoys the honest taste of fine tobacco!) In the old days, he'd be called a robbin' hood. Today, this churlish but altruistic chap is a (good + hoodlum) goodlum!

English: DIVORCE PROCEEDINGS

English: REFORM SCHOOL CLASS
