

HSC Welcomes CSCSPA Delegates

LUMBERJACK

VOL. XXXIV

ARCATA, CALIF., FRIDAY, FEB. 10, 1961

No. 17

Five freshman women have been selected by class members as finalists for the annual Freshman Sweetheart Ball. The group of

lovelies (L-R) are Pat Plessas, Lynn Loebner, Linda Hampson, Carolyn Brown and Marge Jackson.

Banquet Features Annual Women's Day Next Friday

A new precedent will be set at the AWS banquet Friday when activity certificates will be presented to women on campus who have worked "faithfully behind the scenes," according to Dean of Activities Kate Buchanan, who will make the awards.

The banquet, at 7 p.m. will round up a full day's activities for the annual Women's Day on campus, this year revolving around an "It's a Woman's World" theme. Reservations for the dinner, slated in the cafeteria, should be made by Monday.

Guest speaker Dr. Mildred Benjegerdes will discuss opportunities for women in the medical world and her experiences as a homemaker and doctor.

Also to be announced is the Best Dressed Coed. Candidates named by the AWS cabinet this week are Barbara Maffia, Carol Johnson, Carolyn Brown, Mary Lou Robertson, Linda Arvola, Delia Johnson, Marilee Starkey, Karen McDonald, Kathy McGregor and Jerry McIntire.

Officers of all women's clubs on campus will start off the day with a pancake breakfast at 7 a. m. in the Home Economics Building. The Home Economics Club will sponsor the breakfast.

The Student Nurses Club will sponsor a coffee hour in the Campus Activities Center in the late morning and a program for the lunch hour, to which sack lunches should be brought, is being coordinated by the Student Wives.

Sweetheart Crowning To Feature Freshman Ball

Featured at the 11:30 p.m. intermission of the annual Sweetheart Ball Feb. 24 at Shrine Park in Eureka will be the crowning of the Sweetheart of 1961 by Freshman Class President Dennis Dinsmore.

Students Boxes Site Changes To Activities Center

Site of the student boxes was moved this week to the Campus Activities Center from Founders Hall in an effort to restore the efficiency of the college's system for relating important news to students.

Each person may ascertain the number and position of his box by checking the listings in the small room to the right of the main section of the CAC. Included in the main list are all those registered prior to the cut-off date. Subsequent assignments of later registrants also will be posted there.

Past success in utilization of the student box method by library, instructors, counselors, and clubs for rapid relaying of information and notice of appointments has prompted the administration to facilitate ease of checking boxes by relocating them closer to the center of present-day campus activities.

One further advantage to the new installation is that there is access to the boxes the whole week, rather than just Monday through Friday.

The queen will be selected from five candidates by the balloting of freshman class card holders on Feb. 16 and 17 in the cafeteria, and her name will be kept secret until the dance.

The Sweetheart will be chosen from the following attractive freshman coeds:

Pat Plessas is a 5'6" blonde from Arcata majoring in social welfare. Her ambition is to someday work in an adoption agency.

Lynne Loebner is a 5'3" brunette who is majoring in social science. She is originally from Olympia, Washington, and hopes to work for the Foreign Service when she graduates.

Carolyn Brown is a business education major from Eureka. She is 5'3" tall with dark brown hair and plans to be a teacher when she graduates.

Linda Hampson is a 4'11" black haired secretarial science major from Crescent City. After attending IBM school, she plans to go into a field which involves both secretarial and IBM work.

Marge Jackson is a P. E. major from Eureka. She is 5'8" tall with blonde hair and wants to teach women's P. E. when she graduates.

11 State Colleges Send Representatives To Annual Spring Conference

The annual spring convention of the California State College Students Presidents' Association will be held here tomorrow for the first time at Humboldt State College.

Forum Makes 1st Appearance On HSC Campus

By HUGH CLARK

The Forum, a new off-campus Humboldt State student publication, made its first appearance on campus last Friday.

A group of students, who claim they have elected to remain anonymous and have not chosen an editor, published eight stories, a quotation from Friedrich Nietzsche, the superman philosopher, and a statement of policy.

Dick Turner, a spokesman of the group, said the Forum will be published at intervals of three days to three weeks. Turner said he is just a staff member and has one vote in determining policy.

He added that publication costs of the two-sheeted mimeographed paper was being borne by the staff members.

A request was made by these students to President C. H. Siemens, asking for permission to distribute the Forum on campus.

Dr. Siemens made the following public answer:

"After seeking advice from various college representatives and faculty members, it is clear that the answer has to be negative for at least two reasons."

"Only those student publications are permitted official campus circulation which operate under established policy and college supervision."

"Any student activity, no matter how meritorious, must conform to applicable policy before it can receive official college approval, in any form. Therefore, student publications must either be entirely independent or obtain official recognition as a campus publication. The Forum, like any other student activity, is invited to seek the latter status," Dr. Siemens said.

GOODRICH IS EXECUTIVE PRODUCER

Professor George Goodrich has assumed the executive producer role on the spring edition of "Focus on Humboldt State" which can be viewed on Monday at 4:30 to 5 p.m. on channel 3 TV. Student producers Lila Cooper, Dennis Hunter, and Marion Brooks, work in conjunction with Vivien George.

Delegates from 11 of the 12 state colleges, representing 100,000 students, will arrive by auto and plane for the day-long session under the direction of HSC Student Body President Dennis Cahill.

President C. H. Siemens and dean Don Karshner will be special guest speakers at the morning meeting.

Main topics to be discussed by the delegates are student unions, parking, campus publications and joint sponsorship of guest lecturers and performers.

Alameda State, Fresno State, San Diego State, San Fernando State, Los Angeles State, San Jose State, Chico State, San Francisco State, Orange County State, Sacramento State and host Humboldt State will be represented at the convention.

Newly organized Stanislaus State is not sending a delegate.

A portion of the 25 students are expected to begin arriving this afternoon by plane with the remainder due Saturday morning.

Two general meetings will be held. The morning session gets under way at 10:30 a.m. and runs to 12 noon. The afternoon meeting starts at one o'clock and runs to 5 p.m. They will be held in CAC conference room.

The Intercollegiate Knights are handling transportation and providing guides. They plan to stage a tour of the HSC campus between the two sessions.

Hilltop Calendar Of Coming Events

FRI., Feb. 10 — Junior Jack-E. P. Ray Eureka Adult League team basketball game at 7 p.m. in the Men's Gym. Mardi Gras, sponsored by the Newman Club from 9 p.m. to 1 a.m. in the Women's Gym. Admission 50 cents.

SAT., Feb. 11 — HSC-Cal Aggie wrestling match at 1:30 p.m. in the Men's Gym.

HSC-Cal Aggies basketball game at Davis, 8 p.m.

CSCSPA meeting on HSC campus.

Feb. 13 to Feb. 17 — Delta Zeta rush period.

THURS., Feb. 16 — Faculty Forum featuring Dr. Dan Brandt at 8 p.m. in science lecture room.

FRI., Feb. 17 — AWS Women's Day.

Opening of "Androcles and the Lion" at 8:15 in the Sequoia Theater.

New Faculty Senate Formed

By SHELLY GRUSLIN

The Faculty Senate, a newly formed organization at Humboldt State, will begin making recommendations to President Siemens on policy matters of general concern to the college.

The organization is made up of the four administrative deans, the president of the college, 18 elected faculty representatives, and the president of the General Faculty. The purpose of this organization will be to make recommendations to President Siemens on matters of general college policy, such as the establishment of general graduation requirements, the general edu-

cation program, or even the hours the library will be open.

The Senate will have no official power, and will be merely a recommending agent, with the president making the final decision whether to accept the recommendations.

The first committee to work on establishing such an organization started five years ago in connection with the Association of California State College Professors. The ACSCP plan was submitted to President Siemens last spring and the constitution was approved by the faculty after revision by a general faculty committee.

President Siemens said of the

Senate, "The new Faculty Senate should provide an organized opportunity for the general faculty to participate in the development of the college policy that will be of concern to the entire college."

Dr. Edward Steele, professor of speech, who was chairman of the Faculty Senate committee, says that it will bring about a broader participation of the faculty on matters of concern to the entire college.

In spite of the fact that this plan is favored by many of the faculty, there is some opposition to it. Dr. James Carrol summed up his feelings on the matter,

saying, "A large organization has been created without readjustments in the administrative structure of the school. It is merely being pasted on the side of the present system and is not geared into the actual operation of the school."

"If all the members of the Senate were to drown tomorrow it would not cause a ripple in the actual administration of the school. If this is the case, then the Senate is not very vital and its work is not very important."

Dr. Carrol further explained that the president is not obligated to take any of the recommendations of the Senate.

The Senate could spend an enormous amount of time on issues it could not resolve because it is not a decision-making body. He said that at the present time with the present administrative leaders most of the recommendations might be accepted but such an organization as the Senate, when adopting a constitution should make plans on a long-range view, so that the framework of the organization would hold up no matter what personalities are involved. He also feels that the Faculty Senate will not do what it is designed to do, that is to spread the decision making of the college over a broader area.

'We Want Relief'

How can you expect **your** college newspaper to be worth more than three cents when you pay something less than that as your part of the subscription?

The Lumberjack has found the operation of student finances to be inconsistent this school year. Because of this, 'your' student newspaper has suffered unnecessarily.

When the ASB budget was being prepared last spring, the Lumberjack advisor, Dr. Milton Hollstein, requested \$10,150, but the amount was sliced because of a combination of factors affecting the budget, including football gate receipts and the change in stadiums.

Thus, the Lumberjack's so-called "subsidy," which in all actuality is no more than a meager subscription payment, was sliced.

After operating under the budget, taking into consideration anticipated income through advertising and the amount of ASB "subsidy," the advisor, editor and staff decided there was no course open except to turn to the council for additional income.

The council referred the editor and advisor to the Board of Finance. The request was made to the board and followed a written request to the graduate manager Nov. 18.

No one will argue the fact that receipts were at an all-time high, taking into consideration the student body made no profit from the Western playoff in NAIA post-season play.

The student body treasurer and board explained that a sudden trip to Hawaii and unforeseen work forced on the graduate manager had slowed the actual bookkeeping for the season. The board further added that anticipated student body card money from the spring semester could be down. To this, the advisor and editor agreed. Spring semester registration was at an all time high.

Time has passed and here we are printing the first February issue and still not even a "yes", or "no", answer from the board.

The request was intended for this year. Next year's budget requests will be made this month.

Generally speaking, a newspaper expects to receive at least 25 percent of its income from subscriptions. Roughly this would mean \$2250 in "subsidy" from the ASB. The council provided \$1614 and a request for an additional \$950 has been made, on a basis of five cents per issue per student body card.

The Lumberjack is a non-profit organization, basically a practical learning device.

In this issue, we have elected to publish eight pages because of the great amount of what we believe is important news. It should be 10 or 12 pages.

Economically, we are making a mistake and will lose about \$60. Newspaper-wise, we had to increase our number of pages in order to get some of the campus news into the paper.

In the past, the Lumberjack "has gone in the hole" because it simply refused to follow an unreasonable budget. The council picked up the bill. This year, the staff feels it should attempt to finish in the black.

The ASB constitution guarantees each student body holder a paper and makes it mandatory for each student to hold a student body card. This requirement has made it necessary to print 300 papers more than were printed on a larger 1959-60 budget.

We believe it is not too much to ask that a ratio of five cents per student body card holder per issue be employed in the financing of the Lumberjack.

There are few papers that exist without charging seven to ten cents per issue. And this includes tabloid newspapers such as the Lumberjack. In fact, newspapers haven't sold for three cents since before World War II.

Jacopo
and
Santo

Last month, or maybe it was last week, it was really yesterday, we received an ominous little brown envelope which had "District Director, Internal Revenue Service" as the return address. We never had any kin folk by that name so we disregarded it until we read the fine print "official business." Good old grandma Business had remembered us.

We opened it up and found one four page brochure, one slightly punched IBM card and another little tan envelop. The large type on the brochure read "FOR EMPLOYEES WHO EARNED LESS THAN \$10,000." Directly below were the instructions, "use form 1040A but if you are ineligible, use 1040w." We're still looking for eligibility rules, the usual coupons or box top deals.

We finally found that we would be ineligible for 1040 if "you claim deductions for travel, transportation, or outside salesman" expense (however, see instruction eight page two). After reading this designated section, we learned that "however, if your employer's payments are more than your expenses, you may not use Form 1040A; you must use Form 1040W or Form 1040." Disregarding this blurb, we still wanted to know about the "outside salesman". How did he get into the picture?

Reading further we found, "if a total of more than \$144 of social security (F. I. C. A.) tax was withheld from the wages of either, you may claim the excess as credit. The balance is entered in the Federal Income Tax Withheld column of item five and substitute F. I. C. A." We didn't understand the word but visibly it was either immoral or obscene.

Items two, three, four, and five brought this little point to our minds, "if you had more than three employers, list the information on Form 2836 or on a separate statement, using the heading for item five and show the total of this in item five." How can you find these statements when it takes an additional three statements to find the first form?

The final paragraph which was Item six, number b stated, "If a joint return is filed and both husband and wife had dividend income, each is entitled at most to a \$50 exclusion and one may not use any portion of the \$50 exclusion not used by the other. For example, if the husband has \$200 in dividends, and the wife has \$20, only \$70 may be excluded on a joint return." This didn't mean much to us but it sure showed that married life is figure dealing.

We were preparing to put the final touches on the IBM card when more fine print on the brochure caught our attention. The seldom noticed grouping of words read, "age and blindness are determined as of Dec. 31, 1960." We guess this means that you can't see your age, especially after you're 39.

In closing we read, "any balance of tax shown to be due on Item 11 must be paid in full when you file your return if \$1 or more." Our joint return added up to only 87 cents so we wrote immediately for Form 3737F requesting the "outside salesman" for "special reference" work.

Weaving Exhibit Goes on Display

A new art exhibit is on display in the H.S.C. Art Gallery. The name of the exhibit is "Design in Weaving." It is an exhibit of art in functional usage, in this case, design in woven materials.

There are examples from Mexico, Morocco, Scandinavia, the South Pacific, and Navajo Indians. All objects on display have been borrowed from local collections. The exhibit will run from Feb. 6 until Feb. 24.

Graduate Foresters Working On Project

Humboldt State graduate forestry students E. V. Andersen and Foster Robinson are working on a research problem in the new HSC forest, located on Freshwater road.

They intend to map out an acre, number, tag, cruise all trees, and make a planimetric map of the area and the trees on it so that future classes can design cutting plans in their classroom projects.

They are assisted in this project by Edwin Pierson, associate professor of forestry.

On Campus with Max Shulman

(Author of "I Was a Teen-age Dwarf", "The Many Loves of Dobie Gillis", etc.)

"THE SLOW RUSH"

Illustrated below is the membership pin of a brand-new national fraternity called Signa Phi Nothing. To join Signa Phi Nothing and get this hideous membership pin absolutely free, simply take a pair of scissors and cut out the illustration and paste it to your dickey.

Let me hasten to state that I do not recommend your joining Signa Phi Nothing. The only thing I recommend in this column is Marlboro cigarettes, as any honest man would who likes a filtered cigarette with an unfiltered taste, who yearns to settle back and enjoy a full-flavored smoke, whose heart is quickened by a choice of soft pack or flip-top box and who gets paid every week for writing this column.

It is difficult to think of any reason why you should join Signa Phi Nothing. Some people, of course, are joiners by nature; if you are one such I must tell you there are any number of better organizations than Signa Phi Nothing for you to join—the Mafia, for example.

But if you should join Signa Phi Nothing, let me give you several warnings. First off, it is the only fraternity that admits girls. Second, there is no pledge period; each new member immediately goes active. Perhaps "inactive" is a more accurate term; there are no meetings, no drives, no campaigns, no sports, no games, no dues, no grip, and no house.

The only thing Signa Phi Nothing has that other fraternities have is a fraternity hymn. In fact, two hymns were submitted

to a recent meeting of the national board of directors (none of whom attended). The first hymn goes:

Hotcha, boop-boop-a-doop,
Mother's making blubber soup.

The second hymn is considerably longer:

A Guernsey's a cow,
A road is a lane,
When you're eating chow,
Remember the mein!

Pending the next meeting of the national board of directors, which will never be held, members are authorized to sing either hymn. Or, for that matter, Stardust.

Perhaps you are asking why there should be such a fraternity as Signa Phi Nothing. I will give you an answer—an answer with which you cannot possibly disagree: Signa Phi Nothing fills a well-needed gap.

Are you suffering from mental health? Is logic distorting your thinking? Is ambition encroaching on your native sloth? Are your long-cherished misapprehensions retreating before a sea of facts? In short, has education caught up with you?

If so, congratulations. But tell the truth—wouldn't you like to make an occasional visit back to the good old days when you were not so wise and composed and industrious—when you were, in fact, nuttier than a fruitcake?

If you pine for those old familiar miasms, those dear, dead vapors, join Signa Phi Nothing and renew, for a fleeting moment, your acquaintance with futility. We promise nothing, and, by George, we deliver it!

© 1961 Max Shulman

We, the makers of Marlboro, promise smoking pleasure and we think you'll think we deliver it—both from Marlboro and from our new unfiltered king-size Philip Morris Commander. Welcome aboard!

Melvin Dies, Murdered, By Fisheries Department

By DREW DILLARD

Melvin has died!

Melvin, the ocean sunfish, scientifically known as the *Mola mola*, who was caught by Don Lollock, HSC graduate fisheries major, and placed in a live tank, recently expired.

Although ocean sunfish are common locally in the summer and fall months, Melvin was caught recently when the water was cold. He was caught with a dip net from HSC's chartered vessel "Seagull," which was on a field trip of ocean study four miles west of Samoa.

Melvin, who weighed in at an estimated 40 pounds, was a lightweight for ocean sunfish which frequently weigh close to a ton. They have thin, oval-shaped bodies, pop eyes, a gaping mouth, stubby tails, and flipper-type fins on top and bottom.

They are considered a delicacy by people of the Mediterranean Sea area for their firm, white flesh, and for their liver and intestines, which are made into soup.

A rumor has been circulated that Melvin was intentionally murdered by the fisheries department to cause him to lie still while they conducted their research on the strange marine parasites which ocean sunfish host. The murder weapon used was a square fish tank where Melvin could only trap

himself in a corner and bash his head repeatedly. Ocean sunfish can survive in round tanks only.

The corpus delicti, which is too big to preserve, can still be viewed in the fish hatchery ice box. Persons interested should contact hatchery. Haste is necessary however, for the remains may soon be cremated in the college incinerator.

Seal Contest Deadline Set For March 1

The Humboldt State College Seal contest will close March 1. Inter Club Senate President Roger Olsen, whose organization is sponsoring the contest, announced this week.

The contest is open to all students of the college, and drawings will be judged by the members of the ICS. The drawings for the contest are to be submitted on paper no smaller than 8½"x11".

The drawings to be considered may be submitted to any member of the ICS before the March 1 closing date. The prize for the contest will be a \$25 gift certificate at the college bookstore.

The Seal that is judged the winner by the ICS and accepted by the student council will receive the prize. If the student council does not accept the Seal chosen by the ICS the prize will not be awarded.

The contest is to establish a college seal for Humboldt State. At the present time Humboldt State is using the California State seal on all of its official communications.

Civil Engineering Courses Slated In Former Book Store

The old campus Bookstore, which was vacated this semester, is being converted into laboratories and classrooms for the civil engineering courses which are being offered on HSC's extended day program.

These courses are fluid mechanics, taught by Prof. Roland Jeppson, and structural analysis, taught by Prof. Charles Roscoe.

Both courses will be held in the old Bookstore until permanent quarters are constructed.

Students Hover Over Melvin

Richard Hansen, left, and M. S. Oliphant, fisheries students, hover over Melvin, a 40-pound sunfish, that died recently in the fisheries' aquarium.

Carol Gertz Elected Prexy

Carol Gertz, sophomore elementary education major, was elected president of Sunset Hall, women's dormitory, during a January election.

Along with the selection of president was vice-president, Ellen Kilgo; Secretary, Sandra Brause; Treasurer, Kay Suffran; ICS Representative, Marie Alyward; AWS Representative, Carlotta Anderson; Fire Marshall, Belinda Thompson; Standard, Ruth Turner; Scholarship, Nancy Mullen; and Publicity, Carolyn Doyle.

Each floor of Sunset also elects floor officers, governor, lt. governor and secretary-treasurer. The governor serves on the executive council, which is the governing board of the dormitory.

Floor officers include: first floor governor Lynn Loebner, lt. governor, Mary Hopkins; secretary-treasurer, Carlotta Parsons.

Second floor governor, Martha Gabriel; lt. governor, Sandra

Brause; secretary-treasurer Milene Tacket.

Third floor governor, Shirley Shattuc, lt. governor, Jean Pratt; secretary-treasurer, Carolyn Doyle.

Delivery of TV Equipment Set

The delivery of HSC TV equipment is hoped for early in March, according to Dr. Dale Anderson, advisor for the project. Two studio cameras, one film camera and kinescope recording equipment are expected. All other materials have been delivered.

The third annual radio-TV workshop is scheduled for June 26 through July 21. This four unit course is offered as a part of summer session and is especially suited for teachers.

Octopus Finds New Home At HSC Aquarium

An octopus, which was caught in Humboldt Bay by a sports fisherman using a ring net, recently found a new home in HSC's wildlife building's aquarium.

The octopus, which has eight two-foot long tentacles, is feeding actively, although octopi are quite susceptible to toxic substances in salt water aquariums.

Other aquatic creatures that are displayed in the aquariums are sea trout, ling cod, sea urchins, sculpins, sea perch, sea smelt, sea poachers, and goose-neck barnacles.

The aquariums and the fish hatchery are both open during the day to interested students. Permission to tour the fish hatchery can be received from Dr. George Allen or other authorized personnel. The aquariums are located on the first floor of the Wildlife Building.

Dr. Harris Has Article Published

Humboldt State's Dr. Stanley Harris recently had his article, "Migrational Homing in Mourning Doves," published in the Journal of Wildlife Management.

Dr. Harris' article was based on his work in the corn belt of southern Minnesota, where he was in charge of upland game birds for the Minnesota Division of Fish and Game.

Students Borrow \$110,000 From Placement Office

Humboldt State students have borrowed \$110,000 from the placement office since the start of school last September. This amount doubles past semester loans.

The Placement Office will re-award a number of scholarships that were given in the earlier part of the semester for the school year. Students who are transferring or turned down the semester funds will have their scholarships awarded to another applicant.

The exact number of scholarships to be reawarded is indefinite. Placement Officer James F. Hoffe said, "The students are changing their minds so fast that it is impossible to give any close estimate."

"Those students wishing to apply for one of the 150 scholarships to be awarded next year should pick up their applications at the Placement Office," Hoffe added.

Scholarships are awarded for the full school year and no new ones will be presented this coming semester.

Band Forming Fraternity, Sorority Groups

Band members are organizing chapters of Kappa Kappa Psi, national band fraternity, and Tau Beta Sigma, national band sorority, according to Dr. David Smith, band director. The groups hope to be installed in late spring or in the fall.

Smith described Kappa Kappa Psi and Tau Beta Sigma as honorary service organizations to assist and compliment band activities on and off campus. Membership is open to band members and anyone interested in the welfare of the band.

Joan Iverson is president of Tau Beta Sigma. She will be assisted by Rosalie Prince as vice president and Darleen Garcelon, Secretary-treasurer.

Kappa Kappa Psi president is Roland Neilsen. Vice president is Merle Lemon and David Farr is secretary-treasurer.

St. John Passion Slated For Chorus

"St. John Passion" by Johann Sebastian Bach will be the spring project of the Humboldt Chorus (Chorus), which has a membership open to students, staff members and the community. It may be taken for 1/2 credit or as a non-credit activity and may be repeated.

Here Peachum, alias Dr. Leon Wagner, associate professor of music, wonders at the ignorance of his daughter Polly in a scene from the first act of "The Beggar's Opera", by Bach. This and two other operas were performed Friday, Saturday, and Sunday by the fall semester Opera Workshop, started and directed by Dr. Wagner.

'The Telephone' Climaxes Second Opera Workshop

By BETSY JOYCE

"The Telephone", by Gian-Carlo Menotti, climaxed the second appearance of the Opera Workshop last Friday, Saturday and Sunday in the Studio Theater.

Tanise Rost as Lucy in the fast-moving contemporary opera, was charming. Dr. Frank Wood, associate professor of modern foreign language, as Don was equally charming as a frustrated suitor, and the outside telephone masterpieces added to the air of spoofing. This is another triumph for Mrs. Rost, who was outstanding in last year's operas.

Dr. Leon Wagner, associate professor of music, as Peachum in the first act of "The Beggar's Opera" also repeated an outstanding performance from a year ago. As a wily tavern-keeper, receiver of stolen goods and informer, Dr. Wagner and Ellen Connitt, portraying Mrs. Peachum, conspire against their daughter Polly, played by Joan Iverson, and her husband MacHeath, played by Volmar Dean Boyd. Mrs. Connitt is a newcomer to the workshop and is a welcome addition, as is Boyd. Miss Iverson played a demure Polly, but was hard to understand in parts.

In the "Coffee Cantata" by Johann Sebastian Bach, Richard Ames, as Schendrian, tricks Joan Iverson, as his daughter Liechen, into giving up coffee drinking, which he hates. But she outwitted him in the end. This episode was

put on by the villagers, played by the Madrigal Singers, for the Lord. Played by Phillip Eisel, and his Lovely Bride, played by Lynn Ricker. Dr. Wagner on the harpsichord added a different tone in the accompanying music.

The accompanists, Sarah Hallin and Charles Moon, assistant professor of music, were superb.

Speech Contest Tryouts Held

Tryouts were held yesterday for the Annual Speech Arts Association of California Interpretive Reading Contest which will be held on March 4 in San Francisco. The first place winner in the preliminary contest will travel to San Francisco to represent HSC in the contest.

Students entering the contest will read Shakespeare's Sonnet No. 65 and two other selections chosen from poetry, prose or dramatic arts. Cash prizes will be awarded to winners at the San Francisco contest.

WUS Committee Planning Drive As Part of Lumberjack Days

World University Service committee is planning a drive as a part of Lumberjack Days during the first part of May. This drive will be coordinated by the WUS committee and will feature various activities sponsored by campus clubs to raise funds for World University Service.

Annual Mardi Gras Scheduled Here Tomorrow

Newman Club's annual Mardi Gras will be held tomorrow in the Women's Gym from 9 p.m. to 1 a.m. The dance is an old function that has been presented on campus by the Newman Club for 10 years.

"Greenwich Village" will be this year's theme, complete with a modern art display, weird lighting and "expresso coffee." Other refreshments will also be served for less daring soles.

This year a juke box has been supplied for the dance with a large selection of tunes from which the students may make their own selections. Due to conflicting activities the Newman Club was unable to procure a band for this event.

While the past tradition of choosing a king and queen has been done away with this year, Roy Sheppard, president of the Newman Club, announced that an award will be given to the most "beat" couple. A committee composed of students and faculty members will choose the couple.

The cost will be 50 cents per person with an ASB card and 75 cents without. Couples will be charged \$1 with ASB cards and \$1.25 without.

The drive will culminate an extensive education program designed to make all HSC students aware of the purpose of World University Service and our part in it as a college community.

The committee plans to make this year's drive the first of an annual for funds and a continuous program of educational and cultural exchange between university communities of the world.

World University Service is an organization dedicated to helping those university communities in need throughout the world in the fields of health facilities, student lodging, educational facilities and activities, and refuge aid.

This help is given only by students and faculty of the "have" countries in an effort to give college students in "have not" countries more educational advantages than they would otherwise have. This material assistance is given on a self-help basis with WUS contributing 50% and the receiving country putting up the other 50%.

Students interested in the challenge World University Service offers are invited to contact Kay Gerdes, chairman.

Review Published

Humboldt State's Associate Journalism Professor George L. Abbott recently learned that his review of Clarence A. Schoenfeld's "Effective Feature Writing", was published in the fall edition of "The Journalism Educator."

Fast Growing Forestry Department May Have Masters Program In '62

Since its initiation of the first four-year program three years ago, Humboldt State's Forestry Department has been growing at an enormous rate. About 60 students were undertaking forestry studies at that time. Today, 156 from all over California, as well as several other states come into the redwoods to study forestry.

Choir, Singers Leave Monday on Bi-Annual Tour

The Humboldt State College Choir and the Madrigal Singers leave on their bi-annual spring concert Monday.

The program, which will act as a good public relations service to the college as well as provide music, sees HSC musicians travelling up and down the Northwestern California coast. The two units are scheduled to return Saturday.

The Choir will present an interesting and varied program of classical, traditional folk and modern choral music, while the Madrigal Singers will present chamber choral-music, famous in the Shakespearean time during the 16th century.

The groups will sing Monday in Garberville; Tuesday in Willits, Fort Bragg, and Point Arena; Wednesday in Ukiah; Thursday in Napa and at Talmage State Medical Hospital; and Friday in the bay area, terminating at San Francisco State College.

Fee Hike Could Hit HSC Students

State College students may have to produce an extra \$6 next fall if Governor Pat Brown's budget is approved. The budget asks for an increase of \$6 in student fees for over six units, and an increase of \$3 for less than 6 units.

This increase is to cover the rising cost of student services and if passed, will go into effect at the beginning of the 61-62 college year.

HSC Announces New Program For Music MA

The Division of Fine and Applied Arts of Humboldt State College recently announced a new course of study leading to the degree of Master of Arts in Music.

Two of the graduate courses listed are being offered this semester. These are Music 220, Theory Seminar taught by Mr. Charles Moon on Mondays and Wednesday, 4, to 5:15 p.m., and Music 240, Supervision and Administration of Music Education, taught by Mr. Floyd Glende and Dr. David Smith on Tuesdays 4:20 to 6 p.m.

In the fall of 1961 Music 298, Methods of Graduate Study, and Music 201, Psychology and Philosophy of Music, will be offered, and in the spring of 1962 Music 209, Twentieth Century Music, and Conducting will be taught.

Other courses necessary to fulfill the requirements of this curriculum are being offered.

Inquiries concerning this degree curriculum should be directed to Leland Barlow, Chairman, Division of Fine and Applied Arts, Humboldt State College.

RECEIVES PHD

Assistant professor of economics, Theodore K. Ruprecht recently received his Ph. D. degree from the University of California.

Federal Scholarship Program Will Affect Humboldt Students

By Merriene Duncan

More money for more students is the essence of the proposed new Federal Scholarship program expected to be passed by the 87th Congress, which would be in effect in time to aid students for the coming year. Top students of the nation's four-year colleges and universities would be eligible to receive these scholarships from the Federal government, according to James Hoffe, Placement Officer.

The percentage of students to be helped, total amount to be sent on the program, size of individual grants, and the basis—if other than

scholastic—for the award, are decisions yet to be made by the lawmakers.

"Enactment of such a program should work to reduce the problems in college and university financial aid systems. Typical of the strain these institutions are feeling is that of Humboldt State College, where the whole area's economics are reflected in the students' financial needs," Hoffe said.

Here, students willing to work, but unable to find employment, are going into debt for their education rather than dropping out of school. As a result, already this year, \$133,000 has been paid out in scholarships, loans, and grants—\$15,000 more than was spent last year. An increase in enrollment of over one hundred does not, alone, account for the upward trend, as the size of the loans has also been increasing. Scholarships constituting \$21,000 of the total for this year; the remainder was for loans and grants.

To the married students go 45% of the loans made and these loans are usually larger than those made to single students.

Education-Psych Building To Be Started Soon

Directly to the rear of the college elementary school is the site chosen for the new Education-Psychology Building to be constructed in the fall of 1961.

This new facility will consist of two stories which will include 10 large lecture rooms, a child study and observation center and 19 offices.

In addition, the unit will have animal quarters for experimental psychology to be conducted on various animals such as rats, mice, and monkeys.

With construction to be completed by the fall of 1962 the bidding for the contracts for this new building will be completed sometime this month.

HSC Matmen Meet Aggies Tomorrow

Hilltoppers Seek Revenge Of Earlier 19-13 Setback

The Humboldt wrestling team seeks revenge tomorrow, meeting the Cal Aggies in the Men's Gym at 1:30 p.m. The Aggies defeated the 'Jacks at Davis earlier in the season.

The Lumberjacks will be working under the handicap of two injuries, John Bobell and Bill Vines. Bobell is suffering from a rib ailment, while Vines is hampered by a bad ankle. However, both injuries are responding well to treatment.

In the opening match, 123-pound Darwin Schager will face John Green. Schager pinned Green in the Davis meet in an exhibition match. However, Schager was overweight at the time and forfeited the team points.

Humboldt's entry, Ron daSilva, will meet Joe Kimm in the 130-pound class. da Silva pinned the Aggie man in Davis.

In the 137-pound division, Howard Covington of Humboldt will face Aggie Don McClellan. In an earlier meeting McClellan decided Covington.

HSC's Tony Chess will face Bob Frescura in the 147-pound tilt. Chess wrestled in the 157-pound match at Davis and was pinned while Frescura decided the Humboldt representative in the 147-pound class.

John Ayerza, one of the top Aggie wrestlers, will meet Carl Struby in the 157-pound clash. Ayerza pinned Chess in the first meeting of the two teams. Struby was not present at the first match.

Gene Van Horn, the Lumberjack's 167-pound entry, will meet Larry Palm of the Aggies. Palm pinned Van Horn's predecessor at Davis. Horn did not make the trip.

As usual the match will be highlighted by the 177-pound and heavyweight clashes.

In the 177-pounder, Aggie Bill Moore will face Bill Vines. Moore is the Aggie team captain, and decided Al Hagerstrand in the earlier meeting. However, Vines has taken victories in the 191-pound, heavyweight and 177-pound divisions.

Moore traveled to the Pacific Coast Invitational meet in Seattle last year. He was eliminated in the first round. Both wrestlers have had extensive experience.

John Bobell and Bob Brown will renew their rivalry in the heavyweight match. Bobell, Humboldt's team captain, decided Brown in the Davis meet. However, Bobell won the match on riding time in the last round.

This will be the last match for the Lumberjacks before the Far Western Conference championship meet in Chico, Feb. 25.

Going into the match, the 'Jacks compiled a 1-5-1 record.

Peterson Urges Large Turnout For IC Meeting

Gary Peterson urged all those interested in entering the intramural swimming meet to attend the Intramural Council meeting at 4 p.m. today in the CAC conference room.

The swimming finals will be held Feb. 16-17. The swimming pool will be open the following times for those wishing to practice: Monday and Wednesday, 6 to 7 p.m.; Tuesday and Thursday, 4 to 6 p.m.; and Friday, 7 p.m.

Also on the agenda for today is the setting of an intramural basketball schedule. At present, 13 teams have signed up for the hardwood sport, and four teams are still uncommitted: Sunset Hall, Delta Sigma Phi, Forestry, and Redwood second.

Peterson said that these teams should send representatives to today's meeting if they wish to be included on the schedule.

Peterson also requested that anyone interested in earning money for refereeing basketball contact Tom Schubert, Intramural advisor.

Plans Under Way For Water Ballet

Plans are now underway for the water ballet show to be staged May 6 and 7 in the swimming pool, Miss Lea Zion announced.

Miss Zion requested, "All those interested in working on choreography, costumes, stage setting, script writing, or music please contact me."

A small group of performers are now working out in the pool on Tuesday nights from 7 to 9. Miss Zion added that anyone interested should turn out.

The show is sponsored by the Women's Recreation Association.

Humboldt State College had one of its greatest track seasons in 1959, winning the Far Western Conference cinder crown under coach Bob Doornink. The team boasted several standouts including Bill Hook in the discuss.

In 1959, a new sport came to Humboldt State, fencing. Professor Robert Brant introduced the sport.

'Jack Wrestlers Battle Back For 14-14 Deadlock

Humboldt State's wrestling squad fought to a 14-14 tie with the Chico State Wildcats in the Men's Gym Saturday.

Heavyweight John Bobell was given an 8-7 decision over Chico's Wayne Cook, after fans had left the match believing the Wildcats had won the match, 17-11, when the scoreboard showed Cook ahead 7-6.

Referee Mack Provart admitted he failed to give Bobell a reversal in the third round, giving the Hilltopper two points and the victory.

Darwin Schager, in the first match of the evening, pinned Tony Angeles in 1:55 of the second round. Chico's Paul Sengo tied the match at 5-5 when he pinned Ron DeSilva in 56 seconds of the second round.

Humboldt went ahead 8-5 when Howard Covington decided

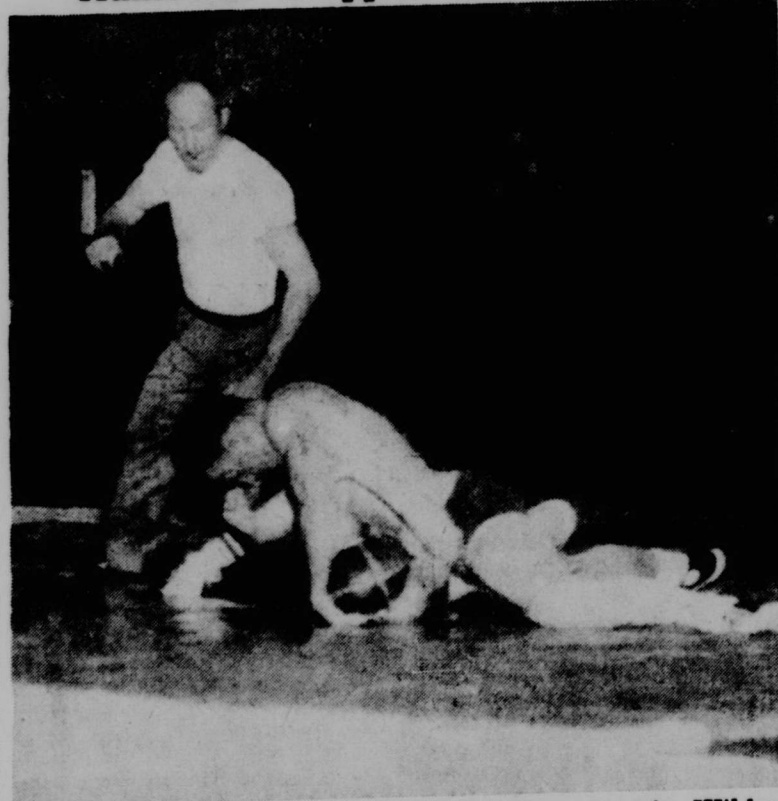

Don Davis, 8-5. The Wildcats jumped to an 11-8 lead as Stan Benson and Dave Kosow decided Tony Chess and Carl Struby respectively. Chico went ahead 14-8 when Ken Harns decided Gene Van Horn.

Lumberjack 177 pounder Bill Vines started the 'Jacks comeback with a 7-2 decision over Clyde Forrest.

PROMOTED TO FULL PROFESSORSHIPS

Business instructor Miss Imogene Platt and Dr. John Pauley, administrative assistant to the Dean of Instruction, both were promoted to full professorships, effective this semester.

Humboldt Grappler Attempts Pin

Humboldt wrestler Tony Chess attempts to pin Wildcat Tony Angeles in the 147-pound match here Saturday. Angeles won the match on a 20-10 decision. The Lumberjacks tied the score for a 14-14 deadlock with a close decision in the heavyweight division. Referee Mack Provart looks on.

Humboldt Drops Weekend Series To Chico State

By LARRY WINGFIELD

The Humboldt State Lumberjacks lost a weekend series to Chico State as the Wildcats took an overtime 63-53 non-conference win Friday and a 62-49 Far Western Conference victory Saturday.

Friday, Center Larry Krupka sank a free throw with seconds remaining to knot the score at 51-51 and put the game into overtime. Guard Wilbur Smith then connected on nine points to give Chico the win.

Humboldt came from behind to tie the game at 24-24 at intermission. Felix Rogers then got hot as HSC went ahead 40-35 at the end of the third ten minute session. But Smith and Jerry Miller started hitting to tie the contest.

Smith had 21 while Rogers and Krupka lead Humboldt with 20 and 15 respectively.

Saturday Smith again told the story. The Chico guard scored eight points in the last ten minutes as the Wildcats overhauled

a early HSC margin.

The Lumberjacks, after a slow start, went ahead 10-7 after ten minutes. Chico came back to tie the game at 23-23 at the half. At the end of the third ten minutes Chico had taken a 39-38 edge.

Dennis Varley was high point man for the night with 22 points. For Humboldt Krupka had 12, Bill Crichton scored 11 and Rogers added 10.

Humboldt Skiers Invited To SOC 'Skiesta' Meet

The Humboldt Ski Club has accepted an invitation to attend the Southern Oregon College "Skiesta" at Mt. Shasta Ski Bowl Feb. 25.

This year the Winter Skiesta will be a one-day affair, with plans for expanding it to a two-day affair. Toboggan races, snow shoe races, Snow Queen contest, a dance and other activities are on the agenda.

Representatives of each college attended a meeting at the Mt. Shasta Ski Bowl on Friday, Dec. 30. The Humboldt Ski Club sent three members to this conference.

One-Two From The Bench

Humboldt Baseball Opened Undefeated

by Duane Oneto

As spring sports rush in on us, we are going to give our readers, or try to anyway, a summary of the history of spring athletics at Humboldt State. We will begin with baseball.

HSC baseball commenced in 1923 when coach Altho Sly led his horsehiders to a undefeated, untied season. They beat such worthy opponents as Willits High, Point Arena, Mendocino, Fort Bragg, and Eureka City College in racking up a 5-0 season.

In 1924 the record book deserts us, and we find this remark: "No record of a team or games".

Bert Smith replaced Sly in 1925 and scheduled eight games. The 'Jacks managed a 4-4 record defeating Santa Rosa J. C. 15-6 and then losing to San Jose by the same score.

For the third season in a row the 'Jacks found themselves with a new coach, Fred Falkenberg. He coached the Hilltoppers to a 4-1 mark in 1926 when the Lumberjacks lost a 2-1 decision to the University of California. Falkenberg coached the Green and Gold to a winning season in 1927 as the nine won 7 and lost 5. The Humboldt-Chico baseball series opened that year with the Wildcats taking a 6-5 victory.

Fred Telonicher picked up the coaching reins in 1929 and continued in that position until 1938. He amassed a record of 34 wins, 11 losses, and 2 ties. He started series with Southern Oregon College and Marin J. C.

In 1937 Telonicher met with an injury and Franny Moore was named player coach. Telonicher led the Hilltoppers to undefeated seasons in 1933, 5-0; 1935, 1-0; and 1938, 2-0. Moore, in his one season, also had an undefeated team, compiling a 2-0 mark. Last fall, Moore was named to the Humboldt State Hall of Fame.

Walt Olgesby handled the coaching duties in 1939, and the 'Jacks broke even, 2-2.

World War II entered into HSC baseball, and the Green and Gold played only one game during 1940-46. The 'Jacks won that one 13-11 from the Recreation All Stars in 1941.

* * * *

In 1947 the Green and Gold returned to the diamond with a 12-game schedule, winning eight and losing four. Coach Larry Pape started series with San Francisco State and the Cal Aggies. This season the 'Jacks swept two games from the Chico State Wildcats, 10-6 and 10-8.

The Humboldt nine had its first losing season in 1948, losing six and winning four when Warren Conrad piloted the 'Jacks. Lou Tsoutsouvas coached the 'Jacks in 1949. The 'Jacks continued losing as they managed to win three while dropping six and tying one.

In 1950, Ted Staffler took over as head mentor and the 'Jacks managed to capture one victory while dropping five.

Phil Sarboe replaced Staffler in 1951 and handled the team through 1953. Sarboe compiled a 2-2 record in 51 and 7-7 in '52. In '53, Sarboe coached the first winning season in six years.

Ced Kinzer arrived on the scene in the spring of 1954 to coach the 'Jacks from that point on. During his seven seasons, he has compiled a 107-50 won-loss record. His winning percentage of .682 probably ranks among the best on the coast.

He has coached six winning seasons and one losing. His best was in 1956 when the Lumberjacks captured 20 wins in 26 starts. He compiled a 20-7 record in 1957 and a 19-6 in 1959.

He opened the 1954 campaign with a 12-8 mark and followed with a slightly better 14-7 in '55. The 1958 season saw the 'Jacks record a 15-8 record.

The only losing season came in 1960 when Humboldt batted 7-8, slightly less than .500. And chances of hitting .500 in the won-loss department ranks good this year and a bevy of promising choices are on hand.

* * * *

We hope that this summary has helped stimulate some interest in the coming baseball season. Kinzer had a turnout of 31 prospects this year, and after a four-hour practice Saturday, he was all smiles.

HSC Travels To Davis, Hoping To Better Mark

The Humboldt State basketball five travels to Davis tomorrow to meet the Cal Aggies at 8 p.m. The Lumberjacks hope to improve their 1-5 Far Western Conference record.

Jayvees Attempt To Break Five-Game Losing Streak; Host Ray Quintet Tonight

Humboldt State's Junior Jacks will host E. P. Ray of the Eureka Adult League tonight at seven o'clock in the Men's Gymnasium.

HSC Women's Cagers Down Kittens, 33-29

Humboldt State's women's basketball team defeated the Chico State women's team 32-29 Saturday. In a preliminary contest the Chico reserves turned in a 33-19 triumph.

Forwards Penny Neville and Marlene Thompson hit two apiece in the second period to give HSC a 18-10 halftime lead. HSC was ahead 8-7 at the end of the initial period.

In the third stanza Miss Thompson added a basket and two free throws to give the Hilltoppers a 23-17 advantage. The lead changed hands five times as Chico suddenly started to hit.

Michele Nance and Miss Thompson each scored two points to give the win to Humboldt. Miss Thompson and Miss Nance had 13 and 12 respectively.

In the opener HSC was tied at 6-6 at the end of the first quarter, however this was short lived as Chico took a 17-10 half-time lead and a 27-18 lead at the end of three. Janice Bryant had 14 points for Humboldt.

Kittens Score Double Win Over Jayvees

The Chico State Wildkittens defeated the Humboldt State Junior Jacks, 64-48, Friday and 57-30, Saturday.

Friday Chico scored 24 points in the final ten minutes for the win. The Wildkittens went ahead 12-11 at the end of the first ten minutes 27-24 at the half and 40-37 going into the final ten minutes.

Then the winners broke loose with their fast break to sink the Jacks. Lou Black lead the evenings scoring with 25 points. Pat O'Brien and Joe Taylor had 12 and 11 respectively for Humboldt.

Saturday, the visitors took a 19-9 lead at the end of the first ten minutes and extended to a 28-11 halftime lead. Then the winners broke the Jacks zone defense and used a fast break to take a 46-16 bulge going into the last ten minutes. Taylor had 12 for HSC.

Humboldt Swimmers To Participate In April FWC Meet

The Humboldt State swimming team will participate in the Far Western Conference Swimming meet at San Francisco State, April 29.

Coach Ralph Hassman has eight swimmers turning out at the present time, he is hoping for more to turn out.

"At the present time, we don't have enough swimmers for a full team, but we will enter several events. If we can get enough swimmers, we will try to schedule some meets with local high schools," Hassman said.

The Junior Jacks will try to bounce back from a five game losing streak, and improve on their season's record of nine wins and six losses.

Number one scorer, Joe Taylor, will be lost to the team as he has moved up to the varsity and will be in Davis to play against the Cal Aggies. Center Jack Penrod has also moved up and will not be available for duty.

Coach Tom Schubert will start Marv Fregi and Mike Glimpse at forwards, Pat O'Brien and John Ammon at guards, and Gary Powell at center.

E. P. Ray is currently in second place in the Eureka Adult League with a 12-3 record. Team members are Tom Lee, Jim Ziegenbein, Jerry Long, Dennis Giuntini, Al Sanders, Steve Andrews, and Mason Milton.

Giuntini and Ziegenbein also played some basketball at Humboldt.

The starting lineup will include Lee and Giuntini at forwards, Andrews and Sanders at guards, and Ziegenbein at center.

'Jack of the Week

Darwin Schager has been selected 'Jack of the Week for his wrestling victory Saturday. The 123 pounder pinned his opponent in the second round and gave the Lumberjacks five important points. Schager has won five in six starts this season. Last year he was Individual Far Western Conference champion.

Four Construction Projects Under Way

For the future—Construction continues on the \$1,536,300 science wing to be completed by 1962. The building was started last fall with three other structures planned. All new buildings are part of Humboldt State's Master Plan.

In the beginning—only blue prints to begin with but by the fall of 1962 a science wing fully supplied with modern equipment and space for chemistry and physic experiments.

Three-Story Library To Add To Growth of Humboldt Campus

Adding to the growth of Humboldt State will be a new three story library adjacent to the Administration Building.

Twice as large as the present Library the new building is scheduled for construction this spring.

New Forestry Structure To Join Wildlife

In the spring of 1961, the allocation of \$488,300 is designated for the construction of a new Forestry Building.

It is planned to raise this structure at the rear of the present Wildlife Building.

This two story structure will house classroom and lab facilities. The paneling for the corridors and offices will be supplied by eleven different varieties of wood.

Completion date for this building is set for the spring of 1962.

Mentioned along with the forestry addition is a new green house planned for construction during this semester. It will be located east of the Home - Economics Building. Estimated cost is \$33,000.

It will be receiving approximately 700 periodicals as well as federal and state documents.

Estimated cost of the construction is \$1,300,000 with the outside of the building containing a new type of paneling never before used on buildings here.

Because of the inadequate site upon which the present library building is located, construction of the new building is slated for completion in the fall of 1962. The old library building will become a part of the general purpose classroom buildings.

Ground Is Broken For Science Wing

Ground was broken this fall for a new science wing to be located directly behind the women's gymnasium and adjacent to the present Science Building.

Cost for this specialized wing is estimated at \$1,536,300 with an additional \$500,000 budgeted for the specialized equipment to be housed in this new facility.

Completion of this wing which will mainly consist of various laboratories for chemistry and physics is slated for the fall of 1962.

Along with the labs for chemistry, which will entail construction of special drainage for acids and valves for production of gases, the building will house labs for the study of optic lenses, electronics, electricity, and radio transmitting.

The southern part of the wing will be four stories while the northern will stand as two stories.

59 Degree Programs, 21 Permanent Buildings, 350 Employees by Fall

By MARTHA GABRIEL
Lumberjack Feature Editor

Construction has begun or is slated to start on four new projects at Humboldt State College as part of what may well seem an eternal building project.

Ground has been broken for a physical science addition. Bids have been let for an Education-Psychology Building, a new Forestry Building and a new three-story Library.

Curriculum-wise, Humboldt State College now offers 39 baccalaureates and 20 master degree programs. Beginning next fall these programs will be administered by nine Divisions.

There will be approximately 21 permanent buildings for these academic and activity programs. The total college employees now number 350 and will keep these programs functioning.

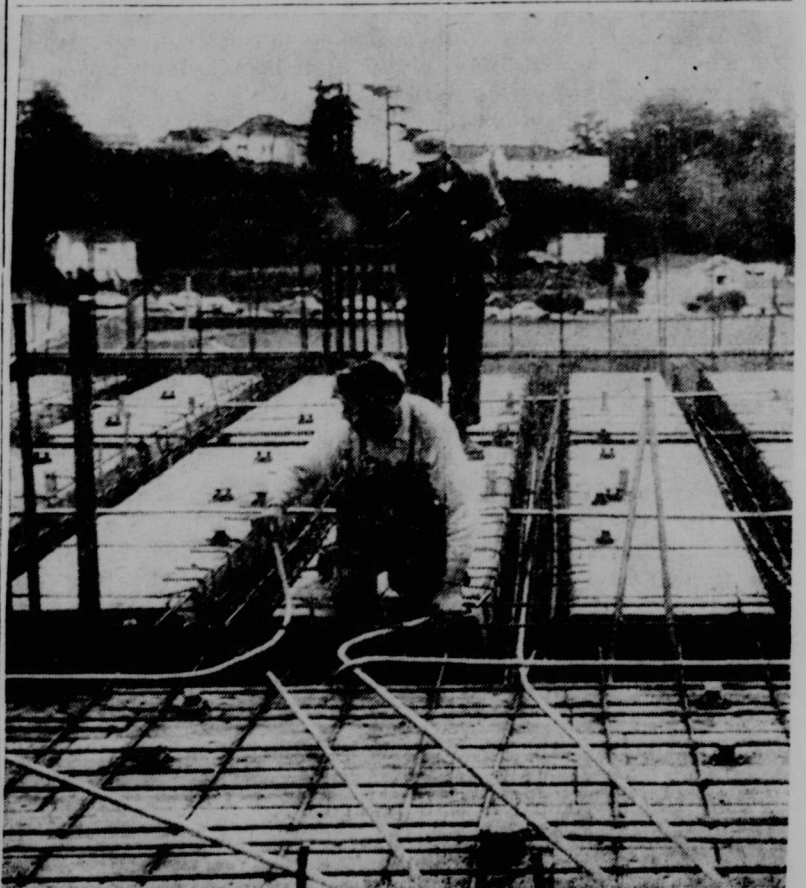

The constructional evolution of Humboldt State dates back to 1921 when the name Humboldt State Normal School was changed to Humboldt State Teachers' College and control was transferred to the State Board of Education.

The first construction following the naming of Teachers' College was Founder's Hall in 1922. Eighteen years later Nelson Hall, the

first permanent residence hall on a state college campus, came into existence. Jenkins Hall followed in 1950 as the first permanent Industrial Arts Building on the Humboldt campus. The Library, Biology Science, and Corporation Buildings were occupied in 1953 with the Wildlife Management Building being completed in 1955.

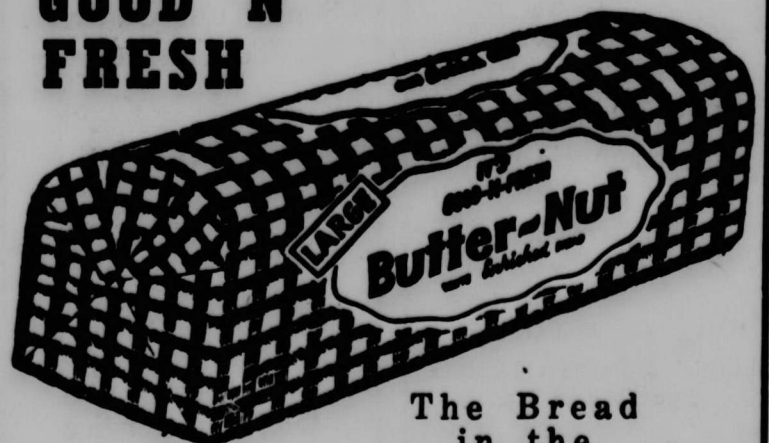

Current construction changes are visualized in the Master Plan Unit of 1957 which consisted of a new Wildlife Facility, Music Building, Art-Home Economics Building, Home Management Cottage and the Men's Gymnasium. At the beginning of the fall semester of 1959 these new units were completed: Athletic Field House, Administration Building, Cafeteria, Language Arts Building, Natatorium and Student Health Unit.

Two residence halls were included in the 1959 completion plan. Sunset Hall, housing 200 women and Redwood Hall housing 200 men.

Men at work — weather conditions make little difference here. Work continues constantly to further the construction of Humboldt's modern science wing.
