

Anonymous Letter Charges Students Being Swayed in Political Science Department

Humboldt Subversive?

Humboldt State's political science department was named in a blanket charge that "Humboldt County is the most subversive county in the state," Tuesday at a California legislative hearing.

The charge was kicked off by assemblyman Louis Francis of San Mateo, who released an anonymous letter and said he would like to see further investigation, saying, "But we don't want to condemn any person or group without sufficient proof."

Following is the complete letter addressed to Francis:

"Dear Mr. Francis,
"We read your proposed legislation and we were delighted that at long last someone is coming to the fore to protect our future generations from 'idealistic' theories of political science professors."

"We have a very fine example of students being swayed by 'socialistic' teachings and communism acceptance in Humboldt State in Arcata in the political science department."

"Good for you. Keep up the good work."

The note was signed only "An Eureka Patriot."

Francis made the letter public at an Assembly Natural Resource Committee meeting. He said, "I have evidence that Humboldt County is the most subversive county in the state, this is particularly true of its public schools."

Meanwhile, Humboldt State reacted in a union of "no comment" following a written statement released to all media by Executive Dean Lawrence Turner, who is acting in place of

President C. H. Siemens, who is on a teacher recruitment trip in the midwest.

The two-member HSC political science department told Lumberjack reporters they had no comment. One, Dr. Ross Y. Koen, whose book, "The China Lobby," has been under fire the past few months, and the other, Dr. Wilmer Bohlmann, both declined to comment.

Dr. Bohlmann referred the staff to Dr. Turner's release while Dr. Koen said he could not comment or respond to any anonymous communication.

Dr. Ralph Roake, head of the social science division, also refused comment, citing Dr. Turner's release.

The announcement that Francis would use, "the best investi-

gators in the world, the FBI," drew no response from a local federal agent, who would not say whether the FBI had or had not been called to make an investigation.

Dr. Turner's reply follows:

"This statement was prepared in consultation with the members of the Political Science Faculty of the college."

"Humboldt State College has followed the policy of employing the best persons available for its staff, and has attempted to maintain balance as to various points of view. We try to avoid name calling and labeling."

"Often people come to us with the complaint that some member of our staff is subversive. We always ask these people to supply us with the type of information that will stand as evidence

in court. To date we have received no such information."

"We have some men on our staff whose personal opinions, like those of President Kennedy and some members of Congress, would probably be classed as liberal. We also have some whose personal opinions would probably be classed as conservative. We like the intellectual ferment on campus that is created by the interaction of different points of view. However in political science classes professors act as highly trained specialists dealing with a critical analysis of the facts and ideas of government and political institutions. There the question of "liberal" or "conservative" is irrelevant. So far as I know we have no member of our staff who is not a good, loyal, and true American."

ASB Elections Slated Monday, Tuesday

LumberJack

HUMBOLDT STATE COLLEGE

24 Candidates Running For 10 ASB Positions

Five Humboldt State students will be vying for the office of student body president, four for vice president and three commissions probably will be filled because of no opposition

when the students go to the polls Monday and Tuesday. The polls will be open from 9 a.m. to 4 p.m. both days in the cafeteria and in Founders Hall Monday and the Wildlife Building on Tuesday.

A record high of 24 candidates have filed for student body positions for the 1961-62 school year.

Dave Brewer, Dick Maynard, Gary Peterson, John Rawlinson and Bill Turner are seeking the ASB presidency, while Don Daniels, Roy McKeag, Pat McElroy and Duane Oneto are running for the vice presidency.

Rally Commissioner will probably be fulfilled by Karen McDonald, Awards Commissioner by Jim Currian and ASB Treasurer position will probably go to Dick Griffith because of no opposition.

Pat Leslie and Helen Wilson are competing for the ASB secretary position.

John Frost, Stan Smith and Be-
(Continued on Page 8)

EDITORIAL:

You Can Vote Monday

Even though much has happened to make a student apathetic toward student government the past week, you can vote and make your selection count toward the future of Humboldt State.

Even though the student council pulled off its biggest blunder in several years last Thursday, causing certain dissension for what were obviously selfish reasons, you can vote.

Even though three candidates are running unopposed, you can vote yes and you can vote no. You can vote.

Even though HSC's student government will not run as effectively without badly needed constitutional changes, you can vote Monday.

Humboldt State's 18-member executive council failed to postpone the elections, as was expected by nearly everyone last week, for two basic reasons:

1. A number of the current members are running for office. At the time of the vote, some were unopposed and they apparently preferred to remain that way.

2. Controversial issues were facing the council as a result of proposed constitutional amendments. Rather than turn down or accept the recommendations made by the committee, the council "cleverly" sidestepped making a decision, saying there will be two elections.

The result is HSC students will vote Monday and Tuesday.

Conservation Week Being Observed At Humboldt

The Conservation Unlimited Club, Forestry Club, and the Humboldt State Library joined forces this week to bring National Conservation Week to Humboldt State. Displays of stuffed animals, models and photographs of forestry, and aquariums were seen around the campus, the chief display being shown in the foyer of Founders Hall.

The program in the Conservation Unlimited Club is carried out under the theme, "Make every week Conservation Week." The week will be concluded by the C.U. Club with the celebration of its annual C.U. Banquet tonight at 8:15 p.m. Dr. Raymond Dammann, former HSC professor of natural resources, will speak on his recent work in Africa, supplementing his lecture with color slides of African game management.

Charles Bloom, librarian and active member of the Boot and Bliss-

ter Club, has further aided the Conservation Week observance by displaying examples of available literature on conservation as well as displays of stuffed wildlife in the HSC library.

A group of students in the Forestry Club, under the leadership of H. A. Froehlich, associate professor of forestry, are presently attending the Annual Redwood Region Logging Conference in Ukiah. They will observe better methods of logging, planned to insure fire protection and promote greater utilization of the forest.

Carmen West will present a solo number, "Rock Bottom" from the theme from Peter Gunn and will appear in a chorus line with the HSC song queens in "Cha Cha for Judy", at the Green and Gold Capers, sponsored by the band Thursday and Friday. The variety show, featuring campus talent, will begin at 8:15 p.m. in the Sequoia Theater. Tickets at \$1 for adults and 50 cents for ASB card holders, may be obtained at the bookstore or from members of the Lumberjack Band.

Variety Show, 'Green, Gold Capers,' Slated March 16, 17

Green and Gold Capers, the first annual band-sponsored Variety Show, will be held Thursday and Friday, March 16 and 17, in Sequoia Theater. Curtain time will be 8:15 p.m. each evening.

Manuel "Big Daddy" Simas, former Humboldt State football player and debator, will be master of ceremonies for the show.

Golden-Aires will sing two numbers. The Golden-Aires are a new trio consisting of Joan Iverson, Pat Sanderson and Carolyn York. Ann Pierson joins this group for

one number.

Larry Gault will perform a unicycle act; Miss Billy Tain a feature ballet; Carmen West a solo dance number and a self-choreographed dance with the song queens. Bill Chastain will do a snake dance with a live snake;

Hilltop Calendar Of Coming Events

SAT., March 11 — CU banquet Delta Zeta tea.

Junior Jack-Arcata High baseball game at 1 p.m. at College Field.

SUN., March 12 — Student recital at 8 p.m. in the music auditorium.

HSC-College All-Stars baseball game at 1 p.m. at the College Field.

MON., March 13 — ASB elections at Cafeteria and Founders Hall from 9 a.m. to 4 p.m.

College assembly at 2 p.m. in Sequoia Theater featuring Dr. Ross Y. Koen.

TUES., March 14 — ASB elections in Cafeteria and Wildlife building from 9 a.m. to 4 p.m.

THURS., March 16 — Green and Gold Capers, variety show sponsored by the Lumberjack Band at 8:15 p.m. in the Sequoia Theater. Tickets at \$1 general admission and 50 cents with ASB card.

FRI., March 17 — Green and Gold Capers at 8:15 p.m. in Sequoia Theater.

Conservation or 'Preservation'?

Do we really understand the meaning of conservation of our forests, or do we confuse the word with "preservation"? Although we all fully appreciate the values of parks and preserved areas of forests, it often seems shortsighted to grasp additional chunks of land to padlock as wilderness areas, while ignoring the larger and equally important "everyday" forest lands of our country.

Sometimes, areas offering only mediocre aesthetic values are sealed off as parks, while no thoughts are given to improving forestry and recreational use in the adjoining areas where the "big bad foresters" are cutting trees.

Other areas claim to be National Parks, offering real rustic beauty, but only disillusion the real nature lover, as he fights the traffic, attempts to catch a glimpse of the scenery between the Frank Lloyd Wrightish hotels, or stumbles over beer cans in the populated back-country, such as in Yosemite.

By the year 2000, with our predicted population of 300 million, the demand for lumber should double and the demand for pulp-wood triple. Certainly this gives us several reasons for the need of conservation in the form of multiple use in our National Forests and private lands. First, we must expect to produce greater quantities of lumber to meet this enlarged demand. Without being able to tap today's rapidly vanishing virgin stands, we must make vast improvements in the production of timber crops.

Second, we should spread this population out over these multiple-used forest areas, not pile the people up in a park where there's standing room only. Even today, many of our National Parks are inadequate; it's not possible to add parks fast enough to outrun the population. This means we must fall back on our "producing" forests.

During this Conservation Week we should give consideration to the wise use of all our resources, with an eye to the future.

You Can Vote Monday

(Continued from Page 1)

day for next year's officers, then vote later on constitutional revisions.

Council adviser and Dean of Students Don Karshner advised the executive group not to hold two elections, saying, "You people won't get a 'corporal guard' to turn out after the general election."

And activities commissioner Betty Bird earlier pleaded, "You will not get the required one third to vote if you send every student an engraved invitation in red ink!"

Disregarding this advice, the council voted to hold the elections separately, citing an even more selfish reason, the annual spring ASB retreat. (This year's event is to be held with University of Nevada). The council said the retreat would have to be postponed or even cancelled if the elections were not held on schedule to permit the new officers to take part in the one or two-day session on student government. Which is more important, a retreat, which alone is certainly worthwhile, or a properly held and conducted student election?

True, there was just a quorum on hand when the council made "its" decision. In fact during a discussion of a revision point, one member yawned and said, "Let's go home."

Eleven of the 18 members voted 7-4 in favor of the motion that elections be held as scheduled. This will be the earliest ASB election in several years, if not in the history of Humboldt State, and one of the earliest in college government circles.

Six members, not including the vice-president, who was unable to vote since the issue was not deadlocked, had already left the meeting because of work or class commitments.

One member, Senior Class President John Bryant, held out for a bi-cameral legislature and an executive form of government, a measure he earlier proposed. He did not receive a second. What did the rest of the council have in mind when it voted?

Thus voters go to the polls this next week without having a chance to correct a constitution which, because of inadequacies, created the great furor of less than a year ago, causing three elections to be held instead of one. The cry by observers is still being heard, "Vote early and vote often at Humboldt State."

Even though all this is true, students have filed petitions at the last minute. There are more candidates than ran in 1960. There are three unopposed candidates, but Thursday, when the council voted, there were six.

And a record vote might re-open the now dead constitutional revision. At least such a vote would elect officers the students want. This is far better than a partial vote resulting in partial representation.

Even though you may be mad or disgusted, you can vote Monday and Tuesday. Polls are open from 9 a.m. to 4 p.m. One will be stationed in the Cafeteria both days, another in Founders Hall Monday and the Wildlife Building Tuesday. Yes, you can vote.

Physics Activities Stressed Lumberjack Size To Be Smaller In Brueckner Lecture Here In Next Issues

By DAN BRYANT

The current activities of physicists in pure research, economic influences of technology and advanced application of technology to space travel where the major points stressed by Dr. Keith A. Brueckner, chairman of the department of physics at the University of California at La Jolla, in his lecture, "The World Research in Physics" last Thursday at Sequoia Theater.

His visit was sponsored by the American Association of Physics Teachers. He holds a Ph. D. in physics from the University of California. He has served on the faculties of Indiana University and the University of Pennsylvania. He is also a consultant to the Atomic Energy Commission and the National Aeronautics and Space Administration.

The accelerating rate of discovery in the last 10 years has brought to light an "almost unimaginable complexity in the structure of matter." The relatively recent discovery of mysterious particles which influence the physical properties of elements has changed the earlier principles of composition of matter.

"The structure of space is hinged on the understanding of these particles and their relationships," he commented.

Dr. Brueckner continued with background on the importance of research and discovery during the last 30 years. Fermi's 1935 discovery of fission of uranium led to the devastating atomic bomb of World War II. One pound of fissioned U235 yields the energy of 10,000 tons of high explosives.

The wartime atomic piles with their arrays of uranium and graphite isotopes also gave rise to further discovery and invention of reactors using plutonium for peacetime purpose.

"Coal and oil are being consumed at a rate which doubles every 10 years," Dr. Brueckner pointed

out. "Granite," he added, "with its fissionable fuel utilized has energy equal to coal and is much more abundant."

The next two issues of the Lumberjack will be smaller than usual stated George Abbott, journalism instructor, because the editors and several staff members are attending a journalism convention in San Diego next weekend.

Twelve of the Lumberjack staff members will leave next Wednesday for a convention of the Alpha Phi Gamma, national journalism fraternity March 17, 18 at the El Cortez Hotel in San Diego.

On Campus with Max Shulman

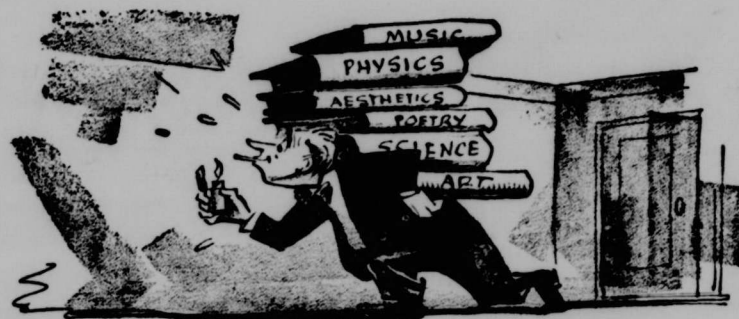

(Author of "I Was a Teen-age Dwarf", "The Many Loves of Dobie Gillis", etc.)

I WAS A TEEN-AGE SLIDE RULE

In a recent learned journal (*Mad*) the distinguished board chairman (Ralph "Hot-Lips" Sigafoos) of one of our most important American corporations (the Art Mechanical Dog Co.) wrote a trenchant article in which he pinpointed our gravest national problem: the lack of culture among science graduates.

Mr. Sigafoos's article, it must be emphasized, was in no sense derogatory. He stated quite clearly that the science student, what with his gruelling curriculum in physics, math, and chemistry, can hardly be expected to find time to study the arts too. What Mr. Sigafoos deploras—indeed, what we all deplore—is the lopsided result of today's science courses: graduates who can build a bridge but can't compose a concerto, who know Planck's Constant but not Botticelli's Venus, who are familiar with Fraunhofer's lines but not with Schiller's.

Mr. Sigafoos can find no solution to this hideous imbalance. I, however, believe there is one—and a very simple one. It is this: if students of science don't have time to come to the arts, then we must let the arts come to students of science.

He will know that he is a fulfilled man...

For example, it would be a very easy thing to teach poetry and music right along with physics. Students, instead of merely being called upon to recite in physics class, would instead be required to rhyme their answers and set them to familiar tunes—like, for instance, *The Colonel Bogey March*. Thus recitations would not only be chock-full of important facts but would, at the same time, expose the student to the aesthetic delights of great music. Here, try it yourself. You all know *The Colonel Bogey March*. Come, sing along with me:

Physics
Is what we learn in class.
Einstein
Said energy is mass.
Newton
Is highfalutin
And Pascal's a rascal. So's Boyle.

Do you see how much more broadening, how much more uplifting to learn physics this way? Of course you do. What? You want another chorus? By all means:

Leyden
He made the Leyden jar.
Trolley
He made the Trolley car.
Curie
Rode in a surrey,
And Diesel's a weasel. So's Boyle.

Once the student has mastered *The Colonel Bogey March*, he can go on to more complicated melodies like *Death and Transfiguration*, the *Eroica*, and *Love Me Tender*.

And when the student, loaded with science and culture, leaves the classroom and lights his Marlboro, how much more he will enjoy that filter, that flavor, that pack or box! Because there will no longer be an unease gnawing at his soul, no longer a little voice within him repeating that he is culturally a dolt. He will know—know joyously—that he is a fulfilled man, a whole man, and he will bask and revel in the pleasure of his Marlboro as a colt rolls in new grass—content, complete, truly educated—a credit to his college, to himself, and to his tobaccoist!

© 1961 Max Shulman

And while he is rolling, colt-wise, in the new grass, perhaps he would stop long enough to try a new cigarette from the makers of Marlboro—unfiltered, king-size Philip Morris Commander. Welcome aboard!

24 Candidates Running for ASB Offices

DICK MAYNARD

GARY PETERSON

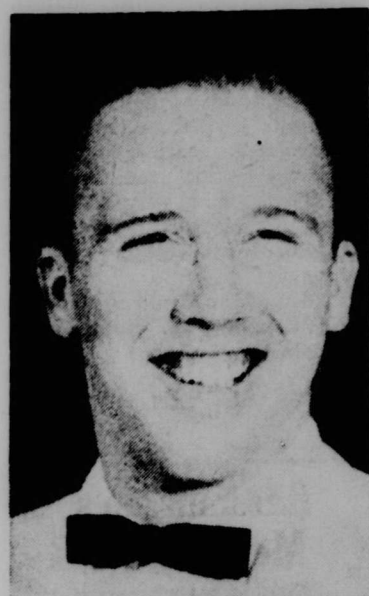

DON DANIELS

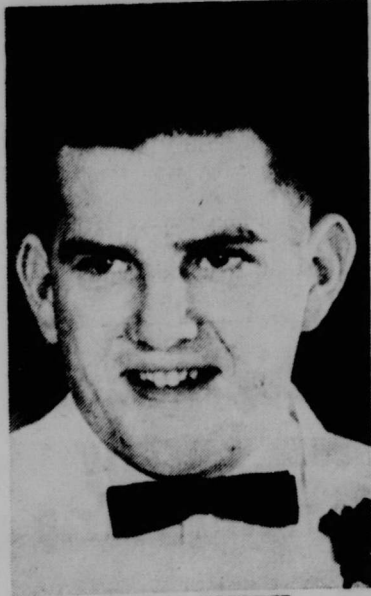

DUANE ONETO

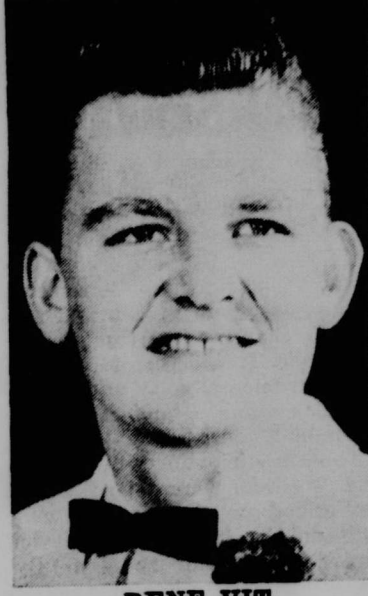

HELEN WILSON

DICK GRIFFITH

STAN SMITH

RENE VIT

BILL CONNOLLY

DAVE CRANE

(Editors' Note: Each candidate was invited to provide his picture and three inches of copy, presenting himself to the student body. Eleven delivered pictures and about the same number presented appeals. The remaining background has been taken from the college information files.)

President

... Maynard

"Dick Maynard has had extensive experience in student government. He has held the office of Rep-at -Large and is the student adviser of the freshman class. He is a wildlife major, a member of TKE Fraternity, and a resident assistant at Redwood Hall. He is also the Student Union Regional Representative and a member of the CAC advisory board. Currently, he is the vice-president of the Student body.

"Dick feels, 'That by running independently, I will be better able to give to you mature judgment and experienced leadership without being obligated to any specific group.'

... Peterson

Gary Peterson is a junior life science major from San Jose, Calif. running for the office of ASB President. For this office he refers to a list of qualifications: Treasurer of Redwood Hall; President of TKE; President of IFC; President of the Intramural Council; Awards Commissioner; Board of Finance; Athletic Advisory Board; and Leadership Conference Chairman.

He heads the only party, the Lumberjack Independents.

... Rawlinson

John Rawlinson, a junior history major from Bakersfield, Calif. is running for the office of President of the student body.

He has been active in debating for three years, he has been in the plays "Comedy of Errors" and "Corn is Green." He was assistant director of "Our Town". He is program director of KHSC, President of Redwood Hall, and Secretary of ASB Board of Control.

... Turner

Bill Turner, junior music major from Eureka, is running for the office of President of the student body. He is married.

He was actor of the year in 1959, yell leader, Head yell leader, Sophomore class president, on Frosh Camp committee, on Homecoming committee, Delta Sigma Phi Fraternity, in IK's, has received Gold Mike award, in choir, Popera King Candidate, and on the Rally committee.

... Brewer

David Brewer, a junior physics major from Eureka, is running for the office of President of the student body. He is married.

Veep

... Oneto

Duane Oneto, a junior from Angels Camp, Calif., has been active in several phases of campus government. He was president of Redwood Hall during the crucial first semester of its governmental organization.

Presently, he is a member of Alpha Phi Gamma, journalism honorary fraternity, has been on the Lumberjack four semesters, serving in key editorial and report- es posts.

Oneto also served at the leadership conference last month. He says, "I can see the many problems that face Humboldt State's student government next year. I would like a chance to help steer the course."

... McKeag

Roy McKeag is a sophomore game management major from Richmond. He is Redwood Hall scholarship chairman, active in class government, ICS representative from forensics, and currently on two ASB Executive Council committees.

... McElroy

Pat McElroy is a junior forest management major from Santa Rosa running for the vice-presidential post.

At Humboldt, McElroy has become an active member of Conservation Unlimited and the Forestry Club. He transferred here from Santa Rosa Junior College where he was a member of Alpha Gamma Sigma, an honor society.

"I have long been interested in student government, although this is the first time I have run for an office since my high school days," McElroy stated.

... Daniels

Don Daniels is running for the office of Vice-president of the student body as an Independent. He is a junior from Trinidad.

Two Independents agree on the following three-point program: (Bill Turner for President, Don Daniels for Vice-president.)

Proposed Platform:

1. A bi-cameral legislation, consisting of the present executive council. A subordinating house composed of the existing ICS Representatives and the eight appointed commissioners. Equal power of both houses will insure a more democratic form of government and more equal representation of the students.

2. To publish monthly financial reports of the ASB to be available to all students.

3. Establishment and support of World University Service.

Secretary

... Wilson

Helen Wilson is a candidate for secretary on the Lumberjack Independent Ticket. She is a junior psychology-English student from San Bernadino.

As a freshman, she served on the fresman class cabinet, the Sweetheart Ball, ICS, and on Rally. In her sophomore year she was a Frosh Camp counselor, a member of Spurs, and the Blood Bank Committee. This year she has been active on AWS, Constitution Revision, and was Bus-

iness Club's candidate for Homecoming.

She has served on the ASB Executive Council as a Rep-at-Large for the last year and a half.

... Leslie

Pat Leslie, a sophomore business administration major from Monterey, is running for the office of Secretary of the student body. She has been active in Spurs, Lumberjacks and Jills, has been secretary-treasurer of the Bowling Club, and is now Secretary of the Boot and Blisters Club.

Treasurer

... Griffith

Richard Griffith is a junior at Humboldt State majoring in physical education. He is a member of the Board of Finance and Junior Class Secretary-Treasurer.

These offices give him adequate qualifications for the office of ASB Treasurer. He has participated in intercollegiate athletics at Humboldt being on the Junior Jacks and the swimming team. He is also an active member of TKE Fraternity.

Assemblies

... Thompson

Belinda Thompson, a sophomore Elementary Education major from Paso Robles is running for the office of Activities Commissioner. She has been on the Sunset Hall Executive board, active in Delta Zeta, on the WRA Executive Board, Camping Chairman, WRA, in Spurs, and on the Standards Committee in Sunset Hall.

... Smith

Stanley J. Smith is running for the office of Assemblies Commissioner. His qualifications are: Present ICS representative for TKE Fraternity and Representative on the Intramural Council for Redwood Hall, 2nd floor. "I feel that I have the interest and the ability this office demands."

KAREN McDONALD

... Frost

John Frost, a junior game management major from Banning, California, is running for the office of Activities Commissioner.

Activities

... Vit

Rene Vit, a junior political science major from Monterey, is seeking the office of ASB Activities Commissioner as an Independent.

He has served in the following capacities: Frosh ICS representative, Redwood Hall Social Chairman, Redwood Hall Vice-president, Inter-Dorm Council, Sgt. at Arms of TKE, Vice-president of TKE, and Inter-Fraternity Council Representative. Recently he was a discussion leader for the annual High School Leadership Conference.

"The importance of the Activities Commission can not be overlooked. The machinery, which Betty Bird so aptly put to our disposal, only awaits to be set in motion. This is precisely my purpose - to carry on and extend the work of the Activities Commission to its fullest capacity."

(Continued on Page 7)

ICS Reviews Controversial Revisions In Constitution

Vice-president Dave Crane led a discussion concerning controversial portions of the revised student body constitution at the ICS meeting Monday.

The most bitterly contested amendment continues to be that dealing with the seating of the class presidents on the student council as voting members.

After a lengthy discussion, the Senate voted in favor of retaining the class presidents on the council. Reasons given by the majority included: "The freshman class has no other representation on student council;" and "Each class president only represents a segment of the school, but the four presidents together represent the entire student body." The dissenters including Paul Asp, representing the constitution revision committee, argued that "the council is getting too large and cumbersome," "the class presidents represent a minority of their classes due to the low turnouts at class elections."

Also discussed was a proposal

to postpone the student body elections after Easter at which time the constitution will be eligible for ratification. The delay stems from the ruling that a student body constitution must appear in the Lumberjack 15 days before it can be voted on.

The Senate voted to retain March 13 and 14 as the voting days and to hold a special election after Easter for ratifying the constitution. Under the present document, one third of the student body must participate in this special election to make the results valid.

Another controversial change appearing in the new draft is the abolition of the office of assemblies commissioner and the creation of a world affairs commissioner to take its place.

Under the pending constitution the duties of this new commissioner, aside from being a voting member of the student council, would be to promote a better understanding among HSC students of international cultures and world affairs and to organize and serve as the presiding officer of the World Affairs Commission which will in turn supervise and co-ordinate the activities of the World University Service committee and the college program for international students. No vote was taken on this issue.

Also during the meeting, Crane read off the section of the proposed constitution dealing with the Inter-Club Senate.

Butler Painting Wins 2 Awards At Texas Show

Assistant Art Professor Max Butler's painting, "Dessert in Moonlight", took two awards in the Witte Museum in San Antonio, Tex.

The top purchase award of \$359. and \$100. for members only were won by the painting.

The painting will be added to the Museum's touring collection through 1961-62.

Green And Gold Capers Variety Show Scheduled

(Continued from Page One)

Rowland Nielsen a novelty percussion number, "The Worried Drummer"; Miss Iverson and Dean Boyd a medley of tunes from "The Sound of Music", by Rogers and Hammerstein.

Sarah Hallin will play "Rhapsody in Blue" by Gershwin on the piano accompanied by the band.

Jerry Moore and the Studio Band and the HSC Band under the direction of Roger Olsen, will provide background music and entertainment.

Tickets for the show are available from any band member or in the bookstore and are 50 cents for students and \$1 for adults. Proceeds from the show will go to the Lumberjack Band Travel Fund, which is being raised to finance special band trips, according to Dr. David Smith, assistant professor of music.

Student Recital Slated Sunday

A Mu Epsilon Psi sponsored student recital will be held Sunday in the concert room of the Music Building at 8:15 p.m.

Mu Epsilon Psi is a society for music majors, and holds a recital each semester to give music students a chance to perform before the public. It will consist of voice and instrumental solos and instrumental ensembles and is free to the public.

Those participating will be Rowland Nielsen, percussion; Kathy McFarland on the piano; Duane Olds on the french horn; Sewell Lufkin on the flute and Joan Byker on the clarinet in a duet; Charles Hytken on the saxophone; Harold Wilson on the piano; Mickey Hoke, vocal solo; and Volmer Dean Boyd, vocal solo.

3 Humboldters Attend First Board Meeting

President C. H. Siemens, Fred Telonicher, president of the Humboldt State Faculty; and Roscoe Peithman, a member of the newly formed Faculty Senate attended a conference of trustees, college presidents and faculty representatives of the 16 state colleges at Fresno State College where they discussed the various problems related to transferring the control of the colleges to the new Board of Trustees.

Governor Pat Brown gave a talk to the assembly, stressing the importance of solving the problems of higher education.

Baptist Crusade Starts Sunday

The Rev. John Nastari will conduct an eight-day evangelistic crusade at the First Baptist Church of Arcata starting Sunday at 8 p.m. Nightly meetings at 7:30 p.m. will follow except on Wednesday when a fellowship dinner will be held at Danish Hall, Arcata at 7 p.m. Humboldt State students are invited to attend the functions.

Open House Planned For Home Management

An open house is being held today in the Home Management House from 2-4 p.m. All students and employees of Humboldt State are invited. The house, which serves as a training lab for home economics majors, has been made into a "Light for Living Home" with donated lighting equipment.

Mona's Cafe

104 G STREET
IN ARCATA

Graduate Student Speaks To Science On Oxidation Pond

Charles Hazel, HSC graduate student, spoke on "Daphnia Cycles in an Oxidation Pond" at the weekly meeting of the Sigma Xi Club recently.

Hazel has received a National Science grant for his study of daphnia, small water animals more commonly known as "water fleas." In addition he has received the National Sigma Xi Award and was named to the President's list of Scholars.

Hazel explained and demonstrated with graphs his observations of daphnia in the laboratory and the Arcata Oxidation Pond.

Daphnia feed on algae, bacteria and colloidal material. A daphnia 1.8 millimeter in length is capable of filtering slightly less than two inches of water daily.

The filtering capacity of daphnia promises a practical use for them in collecting minute particles of waste material in ponds.

TAU KAPPA BREAKFAST

Tau Kappa Epsilon Fraternity held a formal breakfast last Sunday in the college cafeteria. The event, for fraternity members and their dates only, was the first of its kind for the fraternity.

Guests of honor were Mrs. Neva Slacks and Mrs. Avis Passie, dorm mothers of Redwood and Sunset halls.

Pauley Returns From Faculty Recruiting Trip

Dr. John F. Pauley, assistant dean of instruction, returned Wednesday from a three week faculty recruiting trip to ten midwestern colleges and universities.

Dean of Instruction Homer P. Balabanis advises that a total of twenty new instructors will be needed for Humboldt State this fall. For the main part these new instructors will be replacing people who will be leaving Humboldt, with the only new department being added being psychiatric nursing. In the past the students at Humboldt in this field have gone to San Francisco for this particular training.

The procedure for the interviews called for Dr. Pauley to not only meet with prospective instructors, but also to talk with people in the various fields about who is available.

Later in the semester President C. H. Siemens also will take part in the faculty recruiting, and will interview prospective faculty members.

The new faculty members will be obtained from all parts of the country. The trip this year was taken by Dr. Pauley as Dean Balabanis was unable to go because of poor health.

Atkinson Places Third at Tourney

Charles Atkinson, senior Humboldt State business major, placed third in the debate tournament held last weekend at Linfield College.

Thirty-six colleges, including the University of Oregon, University of Utah and University of Nevada, from seven western states sent students to the Seventh Annual contest.

LETTER TO THE EDITOR

Dear Editor:

"I have been keeping a hive of bees on campus for about a year. Bees are especially well suited for experiments and demonstrations in certain aspects of biochemistry because they possess an unusual type of muscle tissue in the thorax. The thorax muscles when contracted in a certain sequence and pattern cause the wings to vibrate at high frequency. They do a tremendous amount of work when considering the small size of the animal. To accomplish this work relatively large amounts of carbohydrate material must be quickly metabolized to carbon dioxide and water. In this process chemical energy is made available for muscular contraction. The process involves many interrelated chemical reactions catalysed by enzymes. The bee's thorax muscle is literally "chucked full" of enzymes. My beehive, therefore, was my source of enzyme material used in my work.

"Last fall someone tried to disrupt the hive but gave up in the attempt. Monday night students carried the hive to the dormitory and reportedly scattered the parts all around setting free the angry bees. This seems very foolish to me, for occasionally bees can kill a person. Furthermore, the destructive act shows a certain contempt for academic endeavor which I believe is inappropriate in a college.

"Yours truly,
/s/ Carl Widmer

Humboldt Professor's Book on German Occupation Published

Dr. John Gimbel, assistant professor of history at Humboldt State, has written a book on the American occupation of Germany which was published

yesterday by Stanford University Press.

The book is entitled, "A German Community Under American Occupation," and specifically is a study of the American occupation

in the county and town of Marburg, Germany, from the year 1945 to 1952.

Stanford University Press says of the book: "This is the first comprehensive attempt to study

the impact of American occupation upon a German community. The author has written an illuminating case study of the occupation as a whole."

Dr. Gimbel served with the Am-

erican military government in Germany in 1945 and '46 and studied at the University of Marburg on a Fulbright Scholarship in 1953 and 1954.

HURRY! 1022 CHANCES TO WIN! ENTER NOW!

L&M \$169,000.

SWEEPSTAKES

CLOSES MARCH 30

\$40,000. FIRST PRIZE INCLUDES
\$20,000 Westinghouse TOTAL ELECTRIC VACATION HOME
plus 1961 THUNDERBIRD HARDTOP
plus \$15,000 CASH

'61 THUNDERBIRD HARDTOP
 —to take you to and from your new vacation home in high style! This is the most exciting prestige car ever to be introduced in America. Unmistakably new, unmistakably Thunderbird... in luxury and sparkling performance it stands alone in the fine-car field.

2nd prize

A BUNDLE OF MONEY! \$10,000 IN COLD CASH!

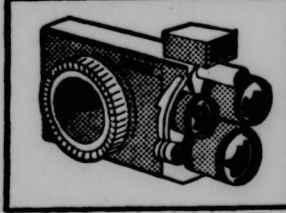

20 3rd PRIZES '61 FALCONS

Twenty winners will soon take the keys to a '61 Falcon Tudor Sedan—the compact that does things you expect a compact to do. Up to 30 miles on a gallon, 4,000-mile oil changes. Room for six!

1,000 4th PRIZES

ARGUS MOVIE CAMERAS
 Making your own movies is easy with this famous Argus Match-Matic m3 turret model camera. No calculating or guesswork...the Match-Matic exposure meter does it for you. A \$79.95 value.

L&M SWEEPSTAKES RULES

1. On an official entry blank, the back of an L&M wrapper, or plain sheet of paper, print your name and address and write down the following statement, filling in the correct missing word: "L&M has found the secret that _____ the flavor in a filter cigarette." Mail to L&M Sweepstakes, Box 383, New York 46, New York.

2. Entries must be postmarked no later than midnight, March 30, 1961, and received by April 7, 1961. Send in as many entries as you wish. Each entry must be mailed separately. All entries become the property of Liggett & Myers Tobacco Company and none will be returned.

3. Prize winners will be selected in random drawings on or about April 21, 1961. Drawings will be conducted by D. L. Blair Corp., an independent judging organization. Its decision, with respect to all phases of the Sweepstakes, will be final. Winners will be notified by mail approximately 30 days after final drawings.

4. First prize does not include lot or landscaping for house.

First prize winner may elect to take cash equivalent of house (\$20,000). This election must be made within 60 days of notification. If winner chooses house a good lot must be provided within one year. No other cash equivalent prizes. Any tax or liability on any prizes will be the sole responsibility of prize winner.

5. Entries limited to residents 18 years of age, and older of the United States and Puerto Rico. Employees and their families of D. L. Blair Corp., Liggett & Myers Tobacco Company and its advertising agencies are not eligible. Entries from Wisconsin, Florida and Virginia must be on official entry blank or plain sheet of paper only. This offer is void in any locality or state where a sweepstakes is contrary to law. Federal, State and local government regulations apply.

For a list of prize winners, send separate self-addressed 4¢ envelope to: L&M Winners List, P.O. Box 1818, G.P.O., New York 1, N. Y. Do not send this request with Sweepstakes entry blank.

Just fill in the correct word on the dotted line below. You've heard it many times in the L&M jingle.

L&M has found the secret that
 the **FLAVOR**

Flavor that lets your taste come alive—friendly flavor that never dries out your taste!

Entries must be postmarked on or before March 30, 1961, and received by April 7, 1961. Be sure to include your name and address below. Send to: L&M Sweepstakes, Box 383, New York 46, New York.

 Think what the vacation home could mean to your group! Or the \$20,000 cash equivalent! Get all your members to enter the L&M Sweepstakes now!

All-Time High Number Named To Honor List

A new all-time high number of students have been listed as outstanding scholars on the Humboldt State President's list for the 1960 fall semester. A student must have a grade point of 3.5 in 12 units or more to qualify for this honor.

Of the record 65 students on the list, forty-three are upper division, and 22 are lower division.

Five of the students, four upper division and one lower division, have perfect 4.00 grade points. They are Marilyn A. Hager, education major from Eureka; Reginald Heth, history, Ukiah; Carl W. Lehman, botany, Arcata; Georgia McDaniel, home economics, Arcata; and Roberta Hanley, English, Eureka.

Others on the list are: **Lower Division**—Hollie Bartscht, home economics, Eureka; Richelle Baumgarten, speech, Torrance; Craig Berry, civil engineering, Eureka; Evelyn Davis, business administration, Eureka; Nancy Dean, secretarial science, Medford, Ore.; Arlene Hartin, education, Eureka; Martin Hessel, history, Arcata; Dolores D. Hill, education, Eureka; Mary Hitt, physical education, Arcata; William Hulsizer, biology, San Jose;

Karen McFarland, secretarial science, Eureka; Delores R. Mattson, education, Crescent City; Ellen R. Milhous, education, Arcata; Naryne Nichols, Arcata; Winifred Oberhausen, San Francisco; Leroy Rakestraw, political science, Arcata;

Wildas Roney, education, Arcata; Lucy Santino, education, Eureka; George Spangler, fisheries, Chico; Josephine Terry, English, Eureka; and Sharon Tarion, art, Eureka.

Upper Division—Wendy Alexander, education, Arcata; June Bernardi, education, Arcata; Diane Caracappa, social science, Eureka; John Cooper, chemistry, Arcata; Annette Corrigan, home economics, Fortuna;

Joyce Daugherty, education, Eu-

reka; Bernard Day, wildlife management, Central Point, Ore.; Franklin Frank, forest management, Arcata; Joyce Hammons, education, Arcata; Dianne Hauger, education, Cutten;

Christine Hawkins, education, Arcata; Douglas Houston, game management, Antioch; Nancy Hunsinger, physical education, Eureka; Frank I. Jewett, economics, Eureka; Sharon M. Judkins, education, Arcata; Sam Kunkle, forest management, Arcata;

Alice S. Langworthy, mathematics, Arcata; Vesta McBride, education, Arcata; William Cabe, pre-med, Forks of Salmon; Stanley McDaniel, speech, Arcata; Barbara Maffia, education, Eureka; David Maldewin, art, Eureka;

James Malone, physical education, Fresno; Beverlee March, psychology, Arcata; Ken Matias, education, Arcata; Charles Moser, zoology, Eureka; Janet Nelson, education, Eureka; Judith Nilson, music, Eureka;

James Phelps, pre-med, Redding; John Quinn, English, Arcata; Joan Rasmussen, education, Danville; Jane Schussman, life science, Blue Lake; Wilma Silva, life science, Eureka; Sybil Slate, education, Eureka;

Eugene Sligh, education, Ocean-side; Richard Spellenberg, life science, Burnt Ranch; Patricia Tilley, education, Arcata; Marshall White, game management, Shasta; and Weston Williams, mathematics, Garberville.

New Hilltopper Editor Expands Spring Magazine

Plans to expand the spring edition of Hilltopper, HSC campus feature magazine, by some 10 to 20 pages was announced here this week by recently appointed editor Jack Mays.

Mays says the usual 30-page magazine will be increased to at least 40 and possibly 50 pages. Mays is returning to publications after serving as editor of the Sem-pervirens yearbook during 1958-59.

Don Daniels, new advertising manager, and Mays have prepared special advertising for merchants and report sales already exceed those of the fall semester.

Mays is seeking additional story ideas for the Hilltopper. Students with ideas, or interested in writing, should contact either Mays or George Abbott, publications advisor, at the Hilltopper office in the Language Arts Building.

Other staff members this semester are Bill Abbey and Robert Schultz, writers, Doug Wilson, photographer, and Mrs. Donna Turner, cartoonist.

The first Humboldt Lumberjack was published Feb. 13, 1931.

HSC Professor's Book Translation To Be Published

Dr. Clarence Howe, Humboldt State assistant professor of philosophy, has done a book translation which will be published by Yale University Press this April. The translation is of Ernst Cassirer's work, "The Logic of the Humanities." This will be the first English translation of the work and the first time it has appeared in book form.

The late Ernst Cassirer was a German philosopher recognized as being one of the great historians of philosophy in the 20th century as well as an important theorist of knowledge, for which he is more noted.

Cassirer was born in Breslau, Germany, in 1874 and received a liberal education, doing most of his graduate study at the University of Marburg under Choen, the man who founded the Marburg Neo-Kantism school of philosophy.

From 1919 until 1933 Cassirer taught at Hamburg University. He left Germany in 1933 because he was Jewish and realized that Hitler's anti-semitism campaign made it impossible for him to remain. He took refuge first in England, teaching at Oxford, then in America, in Sweden. At the University of Gothenburg, then back to America.

In this country Cassirer taught at Yale, New School of Social Sciences in New York City and Columbia University. He died during the spring of 1945 while still teaching at Columbia.

Cassirer is well known in this country as a result of English translations of four of his other works. These are his "Essay on Man," "Myth of the State," "Philosophy of Enlightenment" and "Substance and Function."

Dr. Howe will review his translation in the March 20 Faculty Forum. Anyone interested is invited to attend.

Fifty-six letters were awarded to Humboldt State College athletes for football, baseball, and basketball during the school year 1949-50.

By SANDY WILBUR

I can't think of a better way to end Conservation Unlimited Week than by repeating the Conservation Pledge:

"I give my pledge, as an American, to save and faithfully to defend from waste the natural resources of my country—its soil and minerals, its forests, waters and wildlife."

Can you say it—and mean it?

'Good Music' Rating of HSC Spring Concert

"Good music", "Very enjoyable evening", were a few remarks heard after the Spring Concert of the College Choir and Madrigal Singers last Thursday evening in Sequoia Theater. Dr. Leon Wagner, associate professor of music, directed the group.

The program was divided into four sections: sacred hymns and choruses, romantic and contemporary choral songs, folk songs and ballads by the choir, and songs and airs from the sixteenth, seventeenth and eighteenth centuries by the Madrigal singers. This was the climax of the Spring Concert season and was the same program the groups performed on their bi-annual tour of the Northwestern coast.

Five HSC Women Go To Convention

Five women will attend the annual Convention of California Athletic and Recreation Federation of College Women, which will be held in Asilomar, Calif. this weekend.

Those attending the convention from Humboldt State are Penny Neville, Nancy Hunsinger, Carolyn Sander, Marlene Thompson, and Gayle Frakes.

Music Festival Slated At HSC

The North Coast Solo and Ensemble Festival will be held in the HSC Music building Tuesday, Mar. 14 at 7 p.m. High school and junior high students from Humboldt and Del Norte counties will present vocal and instrumental pieces of both solo and ensemble for a board of judges for criticism. The pieces are limited to five minutes each.

Charles Moon, assistant professor of theory and piano and coordinator of the festival, emphasizes this is not a competitive contest but a chance for the soloists to perform publicly and receive constructive criticism.

Five HSC Students Participating In Reading Contest

Five Humboldt State students traveled to San Francisco last weekend for an Interpretative Reading Contest sponsored by the Speech Arts Association of California.

Lila Cooper, winner of the preliminary contest here, participated in the San Francisco contest. The four other HSC entries were Lila Evans, Teryl Wakeman, Floyd Nichols and Jack Senteny.

Mike McElheny, assistant professor of speech and drama, accompanied them on the trip.

Humboldt State College's enrollment was 621 in 1950, including 204 women and 417 men.

24 Candidates Running For 10 Council Posts

(CONTINUED FROM PAGE 1)

... Moore

Jack Moore, junior business major from Arcata, is running for the office of Activities Commissioner. He is Scribe for IK's and is active in ICS.

Awards

... Currivan

Jim Currivan is running for Awards Commissioner to strengthen the intramural program, give better communications to the student body, improve the award's program, and will act as the student's representative on the student Council. He has held offices in the Forestry Club and Redwood Hall.

Organizations

... Connolly

Bill Connolly, a sophomore fisheries major and active member of Tau Kappa Epsilon Fraternity, has announced his candidacy for Organizations Commissioner.

He proposes that ICS serve as an advisory committee to the executive council; that ICS handle functions such as Lumberjack Days; and that better club relations be promoted by personal contact on his part. Connolly is running as an independent candidate so he will not be bound by any ties to clubs or parties.

... Crane

Dave Crane, candidate for organization commissioner, is a sophomore business administration major from Agana Guam. In high school Dave was the president of the senior council and editor of the school paper.

He is currently the president of the sophomore class and the vice-president of the Inter Club Senate. He has spent three semesters in the ECS, and two semesters on the Executive Council.

"If I am elected Organizations Commissioner I will do my best to co-ordinate the functions of ICS with the Executive Council here at Humboldt State."

... Riscioni

Dewey Riscioni, a junior from Petaluma, is running for the office of Organizations Commissioner.

He is a Game Management major, an officer for Conservation Unlimited, and Vice-president of the Humboldt College Bowling League. He is also a member of the HSC Ski Club and has been a player on the junior varsity football team.

GENE SOULIGNY

Jeweler
Watchmaker

Publications

... Giuntini

Dennis Giuntini is a veteran member of Humboldt State publications, serving in many capacities on the yearbook and the Lumberjack.

He is the recognized head of the journalism students, serving this year as president of the Alpha Phi Gamma, journalism honorary.

Giuntini has been active in athletics, the Delta Sigma Phi Fraternity, is a member of the "Green and Gold Key" and was recently named to "Who's Who in American Colleges and Universities."

"I will devote all my efforts toward good communications between the student body, the publications and radio television departments with the student council."

... Wilbur

Sandy Wilbur, a junior game management major from Oakland is running for the office of Publications Commissioner. Wilbur is past president of the Boot and Blister Club, has written "Fin and Fur" for a year and a half, and is Vice-president of Conservation Unlimited.

Rally

... McDonald

Karen McDonald, a sophomore elementary education major from San Bernadino, is the only candidate for the office of Rally commissioner.

Some of her past activities are: Rally Committee, decoration Chairman, Student Activities Commissioner, Leadership conference, Spurs, Song Queen, and Homecoming Committee.

LETTERS TO THE EDITOR

Dear Editor:

"I have heard several rumors in the past few weeks about the cafeteria and I wondered if you would clarify them for me."

I know that the cafeteria gets rather messy at times with coffee cups, coke cups, and hamburger wrappers littering the tables, and the rumors I have heard are that the prices at the fountain will be raised if the littering doesn't stop or that the south door will be locked so that people have to go near the conveyor belt in order to leave. I don't think such drastic action is really necessary. Everyone has read the sign that Mr. Olds put up, and everyone has heard him talk over the microphone, but people just forget to clean up before leaving.

Would you please clarify the situation.

"Sincerely,
/s/ Roy McKeag"

EDITOR'S NOTE:

The clean-up committee, good common sense and a "Stop" and "Think" policy will help crush this problem.

Williamson First In Tyro Tourney

Louis Williamson and Jack Turner, members of HSC's debate squad, defeated teams from Stanford and the University of San Francisco at the Tyro or lower division debate tournament held at the College of San Mateo last weekend.

Louis Williamson also took first, second and third place in three rounds of expository speaking at the tournament where colleges from all over Northern California competed. The quality of participation in the tournament was higher than in previous years according to Leah Grigsby, speech instructor, who accompanied the squad.

'Jacks Meet Stars Tomorrow

One-Two From The Bench

Alameda State College May Enter FWC Soon

By Duane Oneto

After three years of discussion, the Far Western Conference appears to have made up its mind to enlarge the circuit.

At a basketball coaches meeting held recently a seven-team 1961-62 basketball schedule was drawn up with Alameda State College being considered the seventh member.

Alameda has said it plans to become a full-fledged member in 1964 in all sports. The college may enter basketball next year as well as baseball and track, adding football in 1963. However, the new Bay Area school wanted to be sure of fulfilling its commitments hence, the 1964 deadline.

Other colleges interested in joining the FWC are the California Polytechnic at Pomona and the University of Pacific, formerly the College of Pacific. Traveling makes the entrance of Cal Poly unlikely as a full-time member; However, the college may join on a part time basis participating in football and basketball.

UOP has shown interest in the FWC since their football program went "small time," but any decisions are still in the discussion stage.

Just how far the FWC will expand is yet undetermined. Football coach Phil Sarboe gave a hint, saying, "I think ten teams would be nice."

Trackmen Hold Successful Time Trials

Humboldt State's track and field team held a successful time trials meet with the Redwood Empire AAU Athletic Club Saturday on Redwood Bowl's new all-rubber surface.

Pat O'Brien was the surprise of the afternoon as he was clocked at :51.3 in the quarter mile run. Veteran Frank Alden turned in a :50.8 to lead the way.

Freshman Bob Haley came within a second of two HSC records as he ran the 120-yard high hurdles in :15.8 and the 180 low hurdles in :21.5.

Bob Smith led the way in the mile run as the distances were dominated by the older and more experienced athletic club runners. Ken Simmons won the half-mile in 2:03.1.

The Lumberjack cindersmen were scheduled for a dual meet with University of Pacific, but the affair was cancelled by coach Bob Doornink because the track had not been completed and heavy rains threatened to hold it up. Negotiations are underway to hold a two-way affair with UOP next spring.

17 Teams Play In Intramural Basketball Loop

By MARC LaFLEUR

The intramural basketball program got under way last week with two leagues composed of 17 teams. Under the directorship of Coach Tom Schubert over 30 games have been played.

Eight teams make up the 4 p.m. league. Heading this league is Humboldt Village "A" with three wins in as many starts. They are followed by the Old Timers, Tau Kappa Epsilon, Delta Sigma Phi, Redwood Second Floor, Sunset Hall, Independent "C" and Redwood Third Floor.

The 5 p.m. league, a nine team circuit is headed by the Independent "B" with a 3-0 record. Independent B's are followed by Conservation Unlimited, Circle K, Humboldt Village B, Independent D, Misfits, Forestry and Block "H".

At the conclusion of the regular league play, championship games will be played between the first and second place teams in each league to determine the overall intramural champion.

April 5, at 4 p.m. the winners of the 4 p.m. league will play the runner-up team of the 5 p.m. league. At 5 p.m. the winner of the 5 p.m. league will play the runner-up team of the 4 p.m. league.

The following day the losers will play for third place and the winners will compete to determine the intramural champion.

Humboldt Golfers Finish Fourth In 4-Way Meet

The Humboldt State golf team scored 14 points to finish last in a four-way meet at Davis Saturday. The Cal Aggies and San Francisco State tied for first with 28 points, the University of Nevada was third with 19.

Dick Visser shot an 80 for Humboldt's low, scoring five points, a team high.

The 'Jacks lost to all three opponents in the dual meets, 11-4 to Nevada; 10-5 to San Francisco and 9½ - 5½ to the Aggies.

Others scoring for Humboldt were Dennis McManus and Hank Strong, 3½ points each and Dennis Harling, 2½.

Siino Takes Lead In Batting Race

Humboldt State catcher Joe Siino collected three hits in four times at bat Saturday against the University of California to capture the team leadership in batting.

The backstop has three hits in seven tries for an average of .429. Dennis Pontoni is second with .257 and Tom DiMercurio is third with .250.

In the pitching department, Al Snarski has the lowest earned run average with 3.33. Snarski has worked the most innings, 10. Larry Taylor leads in strike outs with six and Snarski is second with five.

Hilltoppers Seek Revenge For Earlier Double Loss

By DUANE ONETO

The Humboldt State baseball team will be out for revenge tomorrow and Sunday, meeting the College All-Stars for the second time in a pair of doubleheaders starting at 1 p.m. both days.

The Stars dumped the 'Jacks in both ends of their last twin bill, 9-2 and 4-2. The first scheduled doubleheader was rained out.

The 'Jacks will attempt to break a three-game losing streak if they can get approval from the weatherman. The rain has forced the 'Jacks to run for cover three times this year, costing them five games.

Coach Ced Kinzer was pleased with the showing his players made in the 12-9 loss to the University of California Saturday. He blamed the weather for hindering his players from picking up needed experience.

The 'Jacks scored their nine runs off Cal's two top chucks, but the Hilltopper defense failed in key situations.

The Stars will return in full strength. Alva Kinney and Steve Cottrell will head the pitching staff with Maury Ayala and Dick Gray in relief roles.

Larry Taylor and Al Snarski will start for the 'Jacks with Tom Leitz working as the firemen. Don Solberg will see action after his fine performance in the first series between the two teams. Others slated for action are Bob Freeman and Ron Stammer.

Joe Siino will start behind the plate for the 'Jacks. He turned in a fine performance against California, getting three hits in four tries.

Larry Taylor will start at first base. The double play combination will be Rich Tomosini at second and Tom DiMercurio at short. Larry Wimer will start at third.

The outfield includes Ken Matias, left, Dennis Pontoni, center, and Don Lampe, right. Matias collected one hit in three attempts while Pontoni hit the ball hard but failed to get on base.

Voting Set Monday

(Continued from Page One)
Linda Thompson are seeking the Assemblies Commissioner's job. Activities Commissioner is being run for by Jack Moore and Rene Vit. Dennis Giuntini and Sandy Wilbur are opposing each other for publications commissioner and Dave Crane, Bill Connely and Dewey Riscioni are seeking the Organizations Commissioner post.

Wally Landis, former HSC full-back, was elected the first president of the Block H which was organized in 1950.

Costs Increase Semperviren's Student Price

Expanding enrollment at Humboldt State together with higher printing costs have necessitated an increase in the price of yearbooks this year, according to George L. Abbott, publications advisor.

The new rates, ranging from \$3 to \$7, were set by the student council last spring. Howard Goodwin, graduate manager, said this was the only way the program could be financed. The cost of a student body card is already at the legal maximum, and an increase, if legal, would have forced those not interested in buying a yearbook to partially pay for one.

This year's annual, which is being published in the summer and distributed in the fall in order to avoid an even greater increase in costs, will contain 224 pages, including pictures of commencement and other spring events which have not been included in previous books. This will give students 16 more pages than were in the 1960 annual and 60 pages more than the 1958 Semperviren's contained. The first 113 pages have been shipped to the Taylor Publishing Company, Dallas, Texas.

"It will cost nearly \$7 per book to publish the 1961 Semperviren's," Mr. Abbott said. "We receive only \$1400 from advertising; therefore, the balance must come from sales and the student body cards," he added. The budget for the 1961 annual is \$6,910, with anticipated income from sales making up \$2750 of this amount.

Subscriptions will be sold again during the first week of April.
