No. 20

Over 500 Applications For Scholarships Made

More than 500 applications for 150 or more 1963-64 student scholarships are currently being processed by Miss Kate Buchanan, Scholarship Chairman of Humboldt State's Joint Scholarship and Loan Committee.

The scholarships, which range from \$50 to \$1,000 will include this year an undetermined number of special scholarships, none less than \$500 in value, to be awarded as part of Humboldt's 50th Anniversary celebration.

Under policy rulings by the committee, cumulative grade index is given twice the weight of financial need, and the latter is determined by a formula evolved by the committee. The formula allows basic "cost patterns" for the nine-month

school term of \$220 for books and tuition, \$839 living expenses for dormitory residents or unmarried students living away from home, and for married students, actual rent plus utilities. Commuting students are allowed \$4.25 per mile per year.

The cost to the scholarship applicant of supporting dependent children is computed on a sliding scale which allows \$90 per month for the support of one child, and \$135 for the support of six or more children.

After the clerical staff has processed the applications to give them numerical rank based on the addition of "need index" to "scholarship index," awards are made strictly on the basis of numerical rank except in cases where rank is identical. In such cases, Miss

Buchanan says, it becomes necessary to exercise "subjective evaluation."

"If it weren't for the occasional duplication factor in numerical weighting," Miss Buchanan says, "the whole job might be done much more efficiently by data processing."

Awards will be announced before the end of the present school year, but checks are never issued, Miss Buchanan says, until the student is actually registered for the fall term.

Religious Emphasis Days Near

The schedule of events for Religious Emphasis Days, April 1, 2 and 3, has been announced by Rose Cave, publicity chairman for the student committee working on the project.

Miss Cave revealed a program which will include faculty discussions, student panels, a movie, luncheon, and a guest speaker.

The schedule is as follows: Monday, April 1—11 a.m., two faculty moderated discussions, CAC.

Tuesday, April 2—11 a.m., student panel discussions, CAC; 7:30 p.m., movie, CAC.

Wednesday, April 3—12 noon, luncheon for speaker; 1 p.m., guest speaker; 2 p.m., question and answer period, CAC.

The identity of the guest speaker for the campus religious observance will be made public next week, according to Miss Cave.

Barnum History Contest Open; Closes May 1

The C. R. Barnum history competition is now open to HSC students.

Prizes of \$100, \$80, \$70 and \$50 will be given to the graduate or undergraduate student at HSC who in the opinion of the judges write the best essay on the history of Humboldt County. Essays will be judged on the basis of originality, reliability, literary experience and contribution to the knowledge of the County.

Essays should be approximately 5,000 words in length. They must be typewritten and submitted in triplicate to Dr. Hyman Palais, on or before May 1, 1963.

The awards were made available through the generosity of the late Charles R. Barnum, a prominent Eureka businessman and a member of the College Advisory Board. Barnum hoped that interest in local history would be stimulated among the students.

Klarner Awarded Grants

A three year National Science Foundation Fellowship has been awarded to Dave Klarner, senior majoring in mathematics.

He has been invited by Leo Mosser, inventor of a number system, to study under him at the University of Alberta in Edmonton.

The National Science Foundation Fellowship will provide Klarner with over \$2,000 his first year, raising to over \$3,000 his third year.

He is also an honorary holder of the Woodrow Wilson Fellowship, which was awarded to 1,475 college seniors in the United States and Canada.

Klarner is one of only four students from California State Colleges to be awarded a Wilson Fellowship. The other three are all from San Diego State College.

Early Registration Nixed For Fall Semester, Too

Humboldt State's policy against special early registration privileges for any group of students will be continued on a trial basis into the fall semester.

President Cornelius Siemens, who asked that the Academic Senate review the no-preference policy after this semester's registration, has okayed another semester to further test the new system.

The President's message to the Senate, requesting the extra semester of trial said that both the Dean of Admissions and the Registrar felt experience on spring and fall semesters was need to evaluate the change.

The original Senate resolution which opposed special group treat-

ment stated "That no student be permitted to register early simply because of membership in a group, or employment for a particular purpose, or enrolment in a particular class."

This semester 37 students were allowed to register early, because of physical disability and other causes.

President Siemens had suggested that the Senate study the policy because he believed that it was actually a larger program of preferential registration than was in existence before.

Under the present trial method, graduates and seniors register first, juniors second and the other two classes last.

Registration 'Break' Given 37 Students

Thirty-seven students received special early registration privileges for the spring semester, according to a report by Dr. Don Karshner to the Academic Senate March 14.

The early registrants included: Four forensics students who were to leave on a trip at 9:30 a.m. and were permitted to register at 8 a.m.

Three physically disabled freshmen and sophomores who registered at 1 p.m.

Three freshmen and sophomores who registered at the same time because of conflicts between work and classes.

Twenty-seven students who had 60 units by the end of the fall semester and appealed to be allowed to register as juniors.

The Dean of Students also announced that students who have 50 units by the end of summer will probably be classed as juniors for registration next spring.

HSC Choir to Sing Sunday in Theater

The 47-voice Humboldt State choir will perform its first on-campus concert of the spring season Sunday in Sequoia Theater.

The concert will start at 3:30 p.m.

A four-part program is scheduled, and will feature religious selections, folksongs, spirituals and five songs by the madrigal singers.

Sunday's concert will be the first since the choir toured local high schools.

The 11-voice madrigal group includes sopranos Louise Crosswhite, Barbara Haydon and Gale Wilcox; altos Kit Barlow, Joan Byker and Kathleen Fauquier; tenors Jerry Lewis, Jerry Thomas and Derrald Vaughn; and basses Steve Peithman and Ken Thrus-ton.

SUGGESTION BOX

Channels of communication between Humboldt State College students and cafeteria management have been opened by means of a suggestion box recently installed in the cafeteria.

Students are requested to place in the locked box suggestions, complaints regarding food, service, or management.

Low Quality Table Tops Put in Science Building

Representatives of Metalab, Inc., a New York firm, were on campus this week to determine the method by which they can bring to specification inferior quality countertops on cabinets they installed last year in the new HSC Science Building. Laboratory benches in 11 major labs, three major stockrooms, and more than a dozen associated facilities are involved.

Meanwhile, spokesmen for the California cabinet industry were charging and the State Division of Architecture was denying that "the state was saving money by permitting inferior cabinets made by southern firms" to be installed in state colleges.

Metalab, Inc. hopes to remove an unacceptable wax finish by the use of hot detergent rather than by a longer and more expensive process of sanding to a depth of 1/16 inch. Specifications call for polyvinyl acetate finish instead of the wax that was used.

"No matter which method is used," stated Dr. Lawrence Turn-

er, Assistant to the President, "the actual work of replacement can be done only during the summer when occupancy is at its lowest." The college, he said, would insist that a Humboldt State faculty member be present in an advisory capacity to insure that expensive equipment is not damaged.

The State Division of Architecture has notified B & R Construction Company, general contractor, that the building cannot be accepted until Metalab, Inc., a sub-contractor, meets specifications. Local building trades officials have been unable to confirm a report that B & R Construction has a quarter-million dollar performance bond hanging fire on the issue, and that the campus has filed suit for damages against the sub-contractor.

"B & R Construction Company was most cooperative," Dr. Turner said. "The building would have been completed well ahead of schedule had it not been for the cabinet problem."

The cabinets, he said, were faulty both in the construction of the bases and in failing to meet specifications for the finish on the tops.

The cabinets themselves (without counter tops) were rejected in the summer of 1961 while still in crates on the Humboldt State campus. They were not installed until brought up to what Dr. Turner termed "substantial if not actual compliance."

Shortly after occupancy of the building in May of 1962, staff members of the Science Division noted that counter tops appeared to be neither stain nor corrosion resistant. Tests made by Dr. John B. Russell, Humboldt State College, and Tom Shelley, of the Research Testing Laboratory of the California Division of Highways revealed that the material had not been coated in compliance with the specifications.

The charges against the Division of Architecture were aired at a hearing in Sacramento on Mar. 13 called to hear charges of the California cabinet industry that Alameda State College in Hayward was about to get some laboratory cabinets which do not meet specifications. Cabinets already installed at Humboldt State and Long Beach State were specifically cited as failing to meet specifications.

Hilltop Calendar Of Coming Events

- TODAY**—Track, H-DN high school carnival on Redwood Bowl oval.
—Baseball, Junior Jacks vs. McKinleyville High on college field.
—Last day for entering Delta Zeta board contest for Lumberjack Days.
—Baseball, Varsity vs. University of California at Berkeley.
TOMORROW—Music, Spring Music Festival at Sequoia Theater starting at 10 a.m.
—Baseball, Varsity vs. University of California at Berkeley.
—Baseball, Junior Jacks vs. St. Bernard's at college field.
—Peace Corps Placement Test in Basement of Federal Building at 9th and H in Eureka at 8:15 a.m.
SUNDAY—Music, Choir concert in Sequoia Theater at 3:30 p.m.
—Baseball, Varsity doubleheader at San Quentin.
MONDAY—Baseball, Junior Jacks vs. Eureka High at Albee Stadium.
—Faculty wives meeting.
TUESDAY—Baseball, Junior Jacks at McKinleyville High.
WEDNESDAY—Baseball, Junior Jacks at Fortuna High.
THURSDAY—Baseball, Junior Jacks vs. Eureka High at Albee Stadium.

Wade DeLashmutt - - A True Lumberjack

Wade DeLashmutt, 34-year-old social science major who graduates this June, is one Humboldt State student who really deserves the name "Lumberjack."

Wade, who never finished his sophomore year of high school, has spent some 13 years working in the woods of Oregon, California and Montana as a high-climber.

But unlike most high school drop-outs, he returned to college. In 1958 he took HSC's entrance exam, passed ("I was scared to death," he says), and has been attending school ever since.

Wade, who grew up in McMinnville, Ore., is descended from John DeLashmutt, captain of a wagon train which came to Oregon in 1852; Van Buren DeLashmutt, a former mayor of Portland; and Joe Walker, who fought in the 33rd Illinois Infantry and was wounded at Chickamauga.

From this independent stock came a boy who didn't care much for school or the poultry farm operated by his father.

Quit School
Wade stayed in school only long enough to reach the legal age to

quit. At the same time his father became ill. Added to this was a life-long interest in logging. "I guess the woods satisfied a need for me," is the way Wade explains it.

His first woods job was in 1945, setting choakers on a high-lead. "It was a good place for a young kid to be killed," he comments.

After that first job Wade drifted between Oregon and Montana, cutting Christmas trees, fishing, hunting and generally enjoying himself. He spent a stretch back in school, but was out of the classroom in a hurry.

In August, 1948, Wade came to

A Montana Cabin

Humboldt County to work for Ruby "Madame Cork Shoe" Harroun, who operated a mill near Orick.

Part of the reason for the trip south was report of one of the biggest yarders (the machine which supplies power for a logging show) in the woods. A 550-horsepower diesel monster, the yarder is described by Wade as a "man killing s.o.b."

Full-time Climber

Wade started high climbing seriously at the Harroun show. The dangers of the job, generally conceded to be the most hazardous in the woods, are summed up in the statement "it isn't the fall that hurts you, it's that sudden stop."

Despite the dangers, Wade believes that climbers are a cautious breed. He has seen eight or nine men killed in the woods, but has only heard about other climbers' deaths.

As a 19-year-old climber, Wade continued his itinerant ways. He worked near Grants Pass, Roseburg and Myrtle Creek in Oregon, drawing pay from as many as 10 or 12 outfits in a year. "By the time they knew my first name I was gone," he says.

Wade usually came back to Humboldt County in the winters, because work was more available here. Besides, he comments, "there

was a rumor that there was no law in Orick and no God in Klamath."

Up 200 Feet

As a climber, Wade went up nearly 1,000 trees in his many years in the woods. Most of his trees were around 140 feet, but he has been up as high as 200 feet.

A couple of times Wade nearly experienced that "sudden stop." Once a tree fell over on the one he was in. Another time a dynamite charge used to blow the top off a tree went off before he was all the way down.

"You never went more than a week without nearly getting it," Wade remembers.

Wade, who married his sweetheart Doris in 1955, says he started thinking about going back to school in 1957. At that time he was working his own show in Montana. But he could see that automation was moving into the woods and chances for advancement were poor.

The decision to try school again came the next year. Helping Wade pass that entrance test may have been the fact that he saw a man killed in the woods on the very day he took the exam.

After the test, Wade enrolled in the forestry program. But after one semester, he changed majors. He explains that forestry professors often distort the true picture of the woods, making it into something idealistic.

"Loggers are a hard-headed group," he says. "They're very adamant and unflexible in their beliefs."

What is needed most, Wade

On the Job

says, is finding new ways of using wood. New products are replacing wood in many areas, he points out.

Transition Hard

The transition from high-climber to student wasn't easy, Wade comments. "I had a good vocabulary, but not for academic subjects."

High Climbing

Wade expects to receive his diploma in June, and will take post-graduate courses for one or two years.

It's a long way from the woods of Montana to a college classroom.

Billiard Class Starts Monday

Beginning next week pocket billiard instruction for women will be given in the Campus Activities Center recreation area. Instruction will be given every week on Monday and Wednesday evenings from 7:30 to 9:00 p.m., and on Sundays from 2:00 to 3:30 p.m.

According to student instructor Ralph Marsh, no previous experience in pool or pocket billiards is necessary. The purpose of these instructions will be to teach a basic knowledge of the game.

Class sizes will be from eight to 10 women. Any women students interested in signing up for the class may do so by contacting the Activities Adviser Art Dalianes, CAC room 2 today.

It's even a bigger change to stop thinking about men like Down the Line Duggan, Jimmy the Tramp and Isiquaw Pete, and start studying Aristotle, Martin Luther and Jefferson. Wade DeLashmutt has made both changes successfully.

Frosh Leaders May Register

Students interested in becoming Frosh Camp Counselors may sign up in the office of the Dean of Testing and Counseling in the Business Administration Building.

Applying students must have a minimum 2.0 grade average and must be available one week in advance of college instruction for frosh camp.

Applications for Frosh Camp will be taken for two weeks with regularly scheduled meetings for counselors to follow in April and May.

NOW YOU CAN BE YOUNGER THAN SHE IS

It is a scientific fact that girls reach emotional maturity earlier than boys. For this reason freshman girls are reluctant to make romantic alliances with freshman boys, but instead choose men from the upper classes.

Thus the freshman boys are left dateless, and many is the night the entire freshman dorm sobs itself to sleep. An equally moist situation exists among upper-class girls. With upper-class men being snapped up by freshman girls, the poor ladies of the upper class are reduced to dreary, manless evenings of Monopoly and home permanents.

It pleases me to report there is a solution for this morbid situation—indeed, a very simple solution. Why don't the two great have-not groups—the freshman boys and the upper-class girls—find solace with each other?

True, there is something of an age differential, but that need not matter. Take, for example, the case of Albert Payson Sigafos and Eustacia Vye.

Albert Payson, a freshman in sand and gravel at Vanderbilt University, was walking across the campus one day, weeping sortily in his loneliness. Blinded by tears, he stumbled upon

We could build a Snowman...

the supine form of Eustacia Vye, a senior in wicker and raffia, who was collapsed in a wretched heap on the turf.

"Why don't you watch where you're going, you minor youth?" said Eustacia peevishly.

"I'm sorry, lady," said Albert Payson and started to move on. But suddenly he stopped, struck by an inspiration. "Lady," he said, tugging his forelock, "don't think me forward, but I know why you're miserable. It's because you can't get a date. Well, neither can I. So why don't we date each other?"

"Surely you jest!" cried Eustacia, looking with scorn upon his tiny head and body.

"Oh, I know I'm younger than you are," said Albert Payson, "but that doesn't mean we can't find lots of fun things to do together."

"Like what?" she asked.

"Well," said Albert Payson, "we could build a Snowman."

"Bah!" said Eustacia, grinding her teeth.

"All right then," said Albert Payson, "we could go down to the pond and catch some frogs."

"Ugh!" said Eustacia, shuddering her entire length.

"How about some Run-Sheep-Run?" suggested Albert Payson.

"You are callow, green, and immature," said Eustacia, "and I will thank you to remove your underaged presence from mine eyes."

Sighing, Albert Payson lighted a cigarette and started away.

"Stay!" cried Eustacia.

He stayed.

"Was that a Marlboro Cigarette you just lighted?" she asked.

"What else?" said Albert Payson.

"Then you are not immature!" she exclaimed, clasping him to her clavicle. "For to smoke Marlboros is the very essence of wisdom, the height of American know-how, the incontrovertible proof that you can tell gold from dross, right from wrong, fine aged tobaccos from pale, pathetic substitutes. Albert Payson, if you will still have me, I am yours!"

"I will," he said, and did, and today they are married and run the second biggest wicker and raffia establishment in Duluth, Minnesota.

© 1963 Mac Shuman

Freshman, sophomore, junior, senior—all classes, ages, types, and conditions—will enjoy mild, rich, filter-tip Marlboro—available in pack or box in every one of our fifty states.

Beard Contest Starts Today

Today is the last day to register for the annual Lumberjack Days beard growing contest. It is sponsored by the Delta Zeta Sorority.

Judging by a local barber and one college official will take place during Casino Night, May 3.

The winner will be awarded a trophy.

Lumberjack Days will be May 2, 3, and 4.

College sponsored social affairs are over no later than 1:00 a.m. unless special permission is granted from Activities Office.

Siemens to Visit Polish Universities, Tour Orient

President Cornelius Siemens has been invited to be a member of a seven man team visiting the institutions of higher education in Poland next month.

Institutions will be toured in the cities of Warsaw, Lodz, Krakow, Wroclaw, Poznam, and possibly others. Particular emphasis will be placed upon schools for the preparation of teachers.

The project is being sponsored by the United States Department of State in cooperation with the government of Poland. The proposal for the visit was submitted by a committee on International Relations of the American Association of Colleges. The members of the team will prepare reports for the two U.S. organizations following their trip.

Finances for the study tour will be supplied by reciprocal funds which are on deposit to the credit of the U.S. in Poland.

The other west-coast member of the team is Dr. Donald Patterson, President of Eastern Washington State College. The interpreter for the group will be Dr. John Woznick, Dean of the school of education at Loyola of Chicago.

Similar groups are going to the Arab states, and Poland will be sending scholars to visit American educational institutions. The ultimate purpose of the project is to promote better international understanding in higher education.

The particular intentions of the Polish mission will be to observe the extent and manner in which Poland has recovered from the devastation of World War II, specifically the post-war development of colleges and universities and the kind of programs and methods of learning in a communist state.

Dr. Siemens has received special permission to return by way

of the Orient, which will permit stops at Vienna, Beirut, Teheran, New Delhi, Bangkok, Hong Kong, and Tokyo. He will visit the American University in Beirut.

While at New Delhi, former President Leonard of San Francisco State will take him on a tour of several American projects there. In Tokyo he will discuss with Professor Amemiya at Tokyo University the proposed transplanting of native Japanese sport fish to California streams. The pilot project is under the direction of Dr. John Dewitt.

Dr. Siemens will return on May 6 in time for the college's 50th Anniversary celebration.

Delta Zetas' Open House Held Sunday

The members of Delta Zeta Sorority presented an open house last Sunday at their chapter house in Arcata for students and faculty.

The Zeta Iota chapter of the sorority has been in existence at Humboldt State for four years since May 9, 1959.

At present the sorority is renting its chapter house and has been occupying it for two years. There are eight women living in the house.

The latest event that the chapter is now proceeding with is its spring rush. The rush period will extend for two more weeks with a formal pledge group to form following rush.

The members of the chapter are available at any time for questions concerning their chapter and their national sorority system.

Local Economic Study Continued by Dickerson

Research on the local economy, that was begun last October by three economics professors here, is on the threshold of gathering some good data, according to Dr. Robert E. Dickerson, Assistant Professor of Economics and head of the research group.

The other two researchers assisting Dr. Dickerson are

Dr. Robert R. Kittleson and Dr. Theodore K. Ruprecht. They are working under a grant of \$13,500 from the California Department of Social Welfare to study the local economy in relationship to social welfare recipients.

Dr. Dickerson said that after Easter vacation the group should have enough material gathered to submit a preliminary report to the state welfare department.

As of now they have a good seasonal index of the wood products industry and they will have the same type of indexes for other industries in Humboldt County.

Once the relationships begin to appear, and they are able to find the relationships of all the economic variables, they will let the community know the results.

'Jack Golfers Seek First Win

The Humboldt State golf team, 0-2 on the season, trekked to the Bay Area yesterday for a dual meet against strong San Francisco State.

Coach Ford Hess' squad was an odds-on underdog against the Gators, who are given an excellent chance of winning the Far Western Conference championship. Results of the meet were not available when the Lumberjack went to press.

Humboldt is led by first man Don Harling, Dick Visser, Jeff Ziegler, Brad Bishop and Mike Gadsby or Danny Sousa. The Jacks lost both their previous meets to Chico State and Sacramento State.

Swimmers Vie

The Lumberjack swimming team will be entertained by the Chico State squad tomorrow after suffering a season opening loss to the San Francisco State Gators, 61-30, in the Humboldt Natatorium last weekend.

Twelve records were broken in the Gator meet with Humboldt freshman Bob Wigand setting two pool marks and three Humboldt State records.

ENTERTAINMENT
6 NIGHTS A WEEK

8634 Broadway Eureka

KAVA'S KORNER

by Norm Kava

It didn't take long for Wendell Hayes to prove himself an outstanding track competitor. Hayes broke the college shot put record and you can look for him to launch an assault on some of the other HSC track marks. Hayes is capable of heaving the 16-pound iron ball over 55 feet and should go a lot farther than he did against UOP in the discus.

Wendell also broad jumps, high jumps and can throw the javelin and after viewing the big 210 pounder from Oakland take off in a full football uniform there is no doubt in our minds that he would be an excellent sprinter.

It's a shame that Humboldt State can't come up with a more complete track schedule. The Lumberjacks looked good in their first meet, however now when they need the competition most of all—they're suffering an enforced idleness.

Humboldt also has nothing planned between the Far Western Conference and California Relay meets. It's hard to put the blame on anyone because not too many teams are willing to make the long trip to Arcata. Coach Frank Van Deren's squad is at home two more times against Sacramento State on April 20 and the Cal Aggies on April 27.

We came pretty close in predicting the All-Far Western Conference cage quintet, hitting on four of the five selections. Congratulations are in order for Hayes, a first team selection, Larry Krupka (2nd team) and Punky Rogers (honorable mention).

Joining Hayes on the first squad are Mike Carson and Brad Duggan of San Francisco State, Wes Walsvick (Chico) and Nevada's Stew Johnson. The absence of Earl Busby's name on any of the teams kind of startled us. We tabbed him for a first team spot and figured he could get no worse than honorable mention. Busby is a fine guard from Alameda State, who gave HSC such a rough time.

Johnson's selection came as a surprise. The 6'4" forward is a better than average shooter, but displayed little defensive ability and was not a tough rebounder. All the other choices were definitely justified.

Unbeaten Jayvees In Busy Week Of Baseball

The Humboldt State College Junior Jacks face McKinleyville High School today and St. Bernard's High School tomorrow to cap a busy week of baseball.

The Junior Jacks played McKinleyville Tuesday, St. Bernard's Wednesday and Eureka High yesterday as they continued one of their busiest seasons ever.

Coach Jack Altman and his crew ran their record to 4-0 last weekend by dumping St. Bernard's 5-2 and 5-1 in a doubleheader. Earlier last week the JV's had beaten Mac High 10-4 and edged Arcata 6-5.

Next week the Junior Jacks are slated to play every day, in fact they have a game scheduled every day, except Sunday, until April 3.

Jim Cosentino and Gordon Cox limited the Crusaders to one hit in the Junior Jacks' 5-2 win in the opening game. Cosentino picked up the win, striking out four and walking four. Cox fanned three and walked one.

The collegians scored twice in times in the ninth.

the first, once in the fourth, fifth and the seventh. Mike Carroll, Chuck Beatty and Gerald Bergquist each collected two hits in four trips for the winners.

In the nightcap Howard Kamperman, former Arcata High pitcher, set St. Bernard's down on one hit over the nine inning route while walking four and fanning 10.

Don Timmons went two-for-four to lead the Junior Jacks at the plate. Jay Burgess and Ed Jensen had booming doubles for the collegians who scored once in the fifth, once in the eighth and three

HSC 9 in Berkeley

The Humboldt State baseball squad is in Berkeley today for a game starting at 3:15 p.m. with the University of California Golden Bears on the Cal diamond.

The Jacks will also play the Bears again on Saturday in a single game and will travel to San Quentin on Sunday for a tentatively scheduled double-header. San Quentin consistently produces good teams as baseball is played 10 months a year.

Coach Ced Kinzer has named veteran Larry Taylor as his starter in the opener while Tom Leitz will go in the second game. Humboldt will go into the University of California encounter with a 3-5 pre-season mark and an 0-1 regular season record. The Jacks dropped a 7-6 non-conference tilt to the Chico State Wildcats last week although outitting the Cats 14-7.

Humboldt opened with two runs in the first inning on a leadoff single by Gary Mayes and Dave Minor's walk, followed by RBI singles by Tom Di Mercurio and Joe Taylor. Chico came right back with a pair of runs on two errors, a fielder's choice and a single.

The Wildcats went ahead in the third on a single, a stolen base and another single with the bases loaded. Humboldt knotted the score in the fifth on consecutive singles by Ralph Mayo, Joe Taylor and Ted Snapp. They scored another in the sixth on a single by Scott Clow, an error and Minor's second RBI.

Chico matched the Jacks with one in the bottom of the sixth on a triple and a sacrifice fly. Humboldt tallied two in the seventh on a walk, error and a double by pitcher Jay Dickinson, but back-to-back doubles off of Dickinson in the eighth set up the Chico win. Pinch hitter Bill Wright hit a two-run single off of reliever Mike Thurbur to give Chico the win.

Dickinson was tagged for the loss giving up six hits, walking one and fanning five. Joe Taylor collected three for five while Mayes, Mayo, Di Mercurio and Snapp each nabbed a pair of hits.

Coach Kinzer accounted for the six errors in the game as, "A lack of experience due to a young club." Humboldt has committed 18 errors in the last four games while they also left 14 men stranded in the Chico tilt.

HSC 200 001 200—6 14 6
Chico 201 101 02—7 7 3

The Jacks were scheduled to play a pair with the Sacramento State Hornets last week but bad weather forced the games to be cancelled.

Hayes Shatters HSC Shot Put Record

The many athletic talents of versatile Wendell Hayes were again on display last Saturday when the Lumberjack track team opened its season with an 80-50 dual meet win over the University of Pacific.

The powerful junior from Oakland put the shot 51-8 to break the Humboldt State College record of 49-6 set by Bill Hook three years ago. Hayes also won the discus with a throw of 135-8½ and tied for second in the high jump.

Humboldt's half-mile duo of Bruce Lempke and freshman Jerry Blueford easily took first and second in that order. Lempke, a tremendously improved sophomore, ran the 880 in 1:59.7, which is only a tenth of a second off the HSC record.

Long distance ace Bill Ferlatte, a transfer from Marin JC, came through with strong performances in both the mile and the two mile. Ferlatte won the longer jaunt in 10:10.6 and finished a close second to UOP's Vern Courtwright, who won the mile in 4:29.0.

Senior Chuck Ehlers, normally a half miler, dropped down to the 440 and led an HSC sweep in the time of 53.2. Ehlers was subbing for the injured Jim Reams and won with ease. Freshmen teammates

Ed Pfeiler and John Schonwald got second and third.

Fred Cross won the 330-yard intermediate hurdle race in 41.7. This was the first time the event has ever been held in an HSC track meet, so Cross now holds a college and stadium record. Sprinters Ron Remington and Dale Potts picked up second and third spots in each dash, while Nissen was runnerup to Cross.

Field-event specialist Gordon Bobell was second in both the shot and javelin and also garnered a third in the discus. Bobell hit a respectable 46-2 in the shot put. Sophomore Dennis Bolsinger took third in the shot, giving the 'Jacks another sweep.

Tom Farmer bettered 21 feet in the broad jump, but lost by less than an inch to Jerry Youngblood of UOP. Pole vaulter Lewis Edson also got a second place, hitting 12 feet.

Fencers Place Fourth In Meet

Humboldt's fencing team moved to first place in the Northern California League by taking fourth in the Western Intercollegiate Fencing Tournament at San Francisco last weekend. San Fernando State, to whom the Jacks lost their first season meet, nosed out the defending champs of the Air Force Academy for first place.

Dave Littleton, the Jacks Number one man, won two and lost

four of his bouts with number two man Louis Williamson winning five and losing one and Al Spears, the number three man, splitting three wins and three losses. The final meet standings were: First-San Fernando State, second - Air Force Academy, third-UCLA, fourth-Humboldt State, fifth-Valley JC, sixth-San Francisco State, seventh-San Francisco City College.

THE BELL TELEPHONE COMPANIES SALUTE: DICK VAN ALLEN

Dick Van Allen (B.B.A., M.S., 1960) is responsible for the accounts of 48,000 telephone customers whose monthly bills total nearly \$750,000, and for the people who handle these accounts. Dick is a Business Office Manager in Pacific Northwest Bell's Portland Commercial Office.

On earlier assignments, Dick turned in outstanding performances in personnel and traffic departments of the com-

pany. Such achievements helped bring him his present job, on which he can run his own office. This is the kind of responsibility he likes.

Dick Van Allen and other young men like him in Bell Telephone Companies throughout the country help bring the finest communications service in the world to the homes and businesses of a growing America.

BELL TELEPHONE COMPANIES

Wendell Hayes is pictured above setting a new Humboldt State College record in the shot put. Hayes broke Bill Hook's old mark of 49-6 by over two feet in HSC's first dual meet of the season at Redwood Bowl against UOP. Wendell also won the discus and tied for second in the high jump.

Senate Asks That Loan, Scholarship Panels Split

What Mr. James Hoffe, HSC Loan and Placement Officer describes as "a two-headed monster," will be surgically separated into two self-sufficient entities if President C. H. Siemens approves a resolution adopted Mar. 14 by the Academic Senate.

The resolution would replace the present 12-member Joint Loan and Scholarship Committee with two smaller committees, one for loans and one for scholarships. It was introduced by Dr. Bob R. Kittleson and seconded by Dr. Giles Sinclair.

A Dedicated Actor

Everyone would agree that an actor should portray a part as realistically as possible, but is breaking an ankle, so that you can better portray a lame man, the wisest course to follow in achieving realism?

Frank Ross must think so, because that is exactly what he did for his portrayal of the old prophet in "Oedipus the King."

Frank walked down the aisle, up the stairs to the stage, and then off again in the March 1 and 2 performances with a broken ankle.

Actually it was due to an accident that occurred the previous Wednesday while backing down some stairs at his home, but anyone who saw the play on those final two nights would have to admit that the "realistic" limp was truly effective.

Prep Singers Here Tomorrow

Local area high school and junior high singers will perform on campus tomorrow at the first annual Spring Choir and Vocal Festival, sponsored by the HSC music department.

Schools from Humboldt, Del Norte and Trinity counties will participate in the festival which, for the first time, will be separate from the band and orchestra section. The instrumental groups will have their spring festival next weekend at McKinleyville High School.

Vocal Festival chairman Dr. Leon Wagner cited "tremendous recent growth of the festival" as the reason for the split into two parts.

Another Top Film Scheduled Next Thursday

Another film of the current Student Activities Commission program is scheduled for Thursday with "Once More with Feeling" being featured.

The color film, starring Yul Brynner and Kay Kendall, is the musical-comedy version of a Broadway success. It is free to ASB card holders and will be shown in the Founders Hall auditorium at 7:30.

The last picture, "Anatomy of a Murder", filled the auditorium to capacity (over 300) with a number of students being turned away for the lack of seating space.

Activities Commissioner Julie Fulkerson predicts another capacity crowd and suggests early arrival for students interested in a seat for the showing.

The films are being sponsored by the commission in its effort to present quality entertainment and activities for HSC students.

TOURNEY POSTPONED

The high school math tournament scheduled for March 9th has been postponed until May 18th, said Dr. James E. Householder, Professor of Mathematics.

HSC Frosh Subdues Gunman, Aids Police

Truman "Rock" Warlick, freshman physics major, held a gunman at bay with the thug's own gun last Saturday in San Francisco until police arrived to take charge.

Warlick, a passenger in a car driven by his fiancée, Miss Edie Gibson, observed two men fighting on the sidewalk while a crowd gathered but did not interfere. When one man drew a gun and shot his opponent threw the neck, Warlick braked the car to a stop, and ran across the street "yelling like a command," he reports. Wrestling the gun from the combatant's hand, he covered the gunman and his victim until the arrival of the police.

"I hope I get called as a witness," Warlick said. "It would mean a free trip to San Francisco to see my girl."

Warlick, who is 6'1" and weighs 240 pounds, attended Humboldt State in 1957, and returned to Humboldt State in the fall of 1962 after four years in the U.S. Navy where he served as a member of the Armed Forces Police.

Letters To The Editor

Editor:

I wish to call your attention to several things which I, as a captive reader, find disturbing.

1. While I rejoice that the Lumberjack is printing articles in spite of possible controversy, if they are newsworthy, I cannot but note that the most newsworthy part of the article is all too often omitted: the rationale of a decision made or a charge filed. For example the March 1 article announcing the defeat of the proposal to reduce Mr. Goodwins' salary made no mention of the council's reasons for defeating this proposal. The reasons for the action (whatever it may be) are to me the reason for the article.

2. For what reason does the Lumberjack fail to show a masthead? I would feel more at ease if there were a statement in every issue that the Journalism department, and not student Peter Israel, is responsible for its contents.

3. While I feel that it is the duty of a newspaper to express an editorial opinion, the lack of a signature on that editorial I cannot condone.

4. I deplore the loss of "Faculty Reports" to allow for a greater number of Activities Office clippings.

Unfortunately, if my proposals are not taken to heart I cannot cancel my subscription.

/s/ Peter O. Israel

These letters stand for Air Force Officer Training School—the gateway to an Air Force career for ambitious college men who didn't have the chance to enroll in AFOTC.

OTS is a tough course. But it's a great opportunity—one that may not always be available. If you're within 210 days of graduation, we welcome your application now. We can't guarantee that we'll be able to in a year.

As an Air Force officer, you'll be a leader on

the Aerospace Team. You'll be serving your country while you get a flying headstart on an exciting career.

The U.S. Air Force is at the forefront of every vital new technological breakthrough of the Aerospace Age. It sponsors one of the world's most advanced research and development programs—and you can be part of it.

OTS is open to both men and women. For information, see your local recruiter.

U.S. Air Force
