HUMBOLDT STATE COLLEGE

Vol. XXXIX

ARCATA, CALIF., FRI., SEPTEMBER 24, 1965

No. 3

A MILESTONE. Mary Jane Coyne became a part of HSC history last week when she broke previous enrollment records as the 3,000th student to sign up for the fall semester. In special ceremonies, Miss Coyne was presented a school yearbook, *Sempervirens*, by (l-r) Vice President Dr. James R. Turner, President Cornelius H. Siemens and Registrar Thomas Price.

Enrollment Tops 3,100

Approximately 3100 students, the most in Humboldt's history, have registered so far for the fall, 1965, semester, according to Tom Price, registrar.

Mary Jane Coyne, a junior social science major from Stockton, made history for Humboldt when she became the 3000th student to register. President Cornelius Siemens presented her with a copy of the college yearbook, *Sempervirens*.

Price stated that registration was a bit more confused than he had expected, due to the large amount of junior college transfers. "Apparently we had more transfers than expected. I am going to re-examine the alphabet and thin it out," he said.

He explained that he plans to readjust the alphabet next semester, especially in the junior and senior groups. He will make the alphabet groups smaller.

"I think I could have made the freshmen and sophomore groups larger, and the junior and senior groups smaller and registration would have gone smoother," he added.

He also explained that next semester, "The first will be last," which means that those who registered first will go to the bottom of the list, and everyone will move up one.

The exact statistics on registration will be through processing in about three weeks.

Campus Calendar

TODAY — Last day to add classes.
SATURDAY—HSC vs. Hawaii, 8 p.m., Redwood Bowl. After game dance.
TUESDAY — Student Council Meeting, CAC, 3 p.m.

Librarian Outlines Fall Changes Caused by Local Budget Slashing

The library budget has been cut drastically for the 1965-66 school year according to college librarian Helen Everett. This year the library has been allotted \$25,000 to operate on — exactly one half of what it had last year.

According to Mrs. Everett, the reasons for this big cut stem from a new formula developed by the California State Chancellor and Governor Brown's budget balancing.

Last spring, the chancellor's office developed a new formula for determining state college library book funds. The system was developed hastily and library heads were not consulted.

The system was taken to the finance department where it was torn apart and then put back together with many items left out. The result was that the HSC library budget was cut while the other California State college library budgets remained untouched. Many California State colleges get over \$100,000 per year. Some get

as much as \$300,000, Mrs. Everett said.

A special appropriation of \$35,000 was put in by Senator Christiansen for the library. It was passed by the legislature, but Governor Brown, who was having budget balancing troubles at the time, would not sign it, Mrs. Everett said.

The results of this budget cut are causing many changes in the library. The library staff has been cut down, many periodicals will have to be discontinued, and less than half of the amount of books ordered last year can be ordered this year.

"Many of the faculty members have rallied to this cause by contributing their own subscriptions to periodicals which would otherwise have to be discontinued," Mrs. Everett said. Many students have helped by writing letters to prominent government officials and by discussing the situation with Humboldt County voters.

Recreation, CAC Schedules Set

Newly appointed Student Activities Adviser "Scotty" Reed has announced that Recreation Night will again be offered hilltop students every Wednesday evening from 7 to 9.

The mid-week study break is open to all students and swimming and athletic facilities are available free of charge. Sunday evenings the pool will open from 7 to 9.

Reed further stated that the snack bar in the Campus Activities Center will be open Monday through Saturday evenings from 7 to 10:30 and Sunday from 6 to 10.

Reed, a 1965 graduate of Cal State at Hayward, expressed that he is here to help the students and would appreciate any and all suggestions they might have as to desired activities or how the CAC could be improved either in operation or the existing building itself.

Positions Open On Sempervirens

Positions are still open on the *Sempervirens* staff, and students having a "real" desire to work on the yearbook are especially welcome, according to Dr. Larry Miles, journalism instructor.

Students may earn one or two units for this extracurricular activity by enrolling in Journalism 27-127, on Tuesdays and Thursdays at 2 p.m. or may take the class as an activity with no units earned, added Miles.

According to Miles, many opportunities are offered in layout, photography, and art, as well as in writing.

Interested students may see Dr. Miles, Language Arts 20C.

Union Question Revived; Henry Promises Changes

By MARILYNNE MOONEY

Every semester brings new problems to the members of student government and ASB President Bob Henry has more than his share with the responsibility of putting the new College Union proposal before the students.

Many students have asked him why the issue failed last year and as a member of the College Union Committee, Henry felt qualified to release an answer.

"The main reason, I believe, the College Union failed was because of distrust of our own student leaders who students felt were trying to run a blank bill of sale down their throats."

"As a member of the College Union Committee I resented this distrust a great deal. However, this year the distrust will be dispelled because we intend to see that the College Union proposal comes from the students and not to the students."

Henry emphasized that Dr. Don Karshner, Dean of Students, approached the student executive council with the idea that perhaps

Lumberjack Enterprises, which functions as the management of the bookstore, cafeteria, and vending machines, had outlived its efficient usefulness on our expanding campus. With this in mind he gave "the ball" to the students in hopes they would come up with a suitable substitute to manage and operate the existing cafeteria, bookstore, and College Union to be.

Henry further stated, "since the students will bear a great deal of the cost of the College Union the student committee feels that students should have adequate representation on its management. This will call for a great deal of responsibility from the students."

Council Begins New Year With Meeting Tuesday

By BILL HUFFMAN
Publications Commission

Student Legislative Council officially began the new year Tuesday night as they held their first meeting.

Bob Henry, ASB President, told council that he has written to the Division Chairmen of all Divisions on campus asking them to nominate two students from their areas to act as members of the Student Disciplinary Council which is beginning its first year of operation. Of the names turned in from the various Divisions, Henry will select five of the students and they will sit in on the Student Disciplinary Council to determine judgment in all Student Discipline problems arising on campus during the year.

In other student government news, Johnny Mathis is set to come to Humboldt for a big concert in October. Details are now being worked out. Another artist likely to appear on campus this year is comedian Bill Cosby. Several dates are being tossed around about when to schedule him but it appears as though next March would be the best time.

Also, Oct. 1, the fabulous "Ventures," backed up by the "Dillards," move onto the campus for a big show and dance. Tickets for this concert are now on sale at the Bookstore at just \$2.75 for adults and \$2.00 for students with ASB cards.

On the Student Body President's Cabinet, Don Rubin replaces Terry Marquette as Assemblies Commissioner.

Inter-Greek Council had its constitution approved at the meeting. Also discussed Tuesday was setting up policy toward College of the Redwoods students attending HSC functions. Jack Sheridan, vice president, appointed a committee to investigate and advise a policy solution to the matter.

Council meets next week at 3:00 p.m. Tuesday in the CAC Conference Room.

Mengel to Head TKE Fraternity

Lowell Mengel, senior history major from Eureka, has been elected president of Tau Kappa Epsilon fraternity for the fall semester. He succeeds Bob Henry, new ASB president.

Mengel is a representative-at-large, a past president of the HSC Young Republicans, a charter member of Pi Kappa Delta forensics honorary.

Other officers include: Mike Miller, Oakland, re-elected Vice President; Dick Allen, San Bernardino, who replaces Bob Clark, Hawthorne, as Secretary; Dick Giacolini, Eureka, succeeds Les Schneitter, Arcata, as Treasurer; Bill Shaw, Albany, follows Fred Nave, Stockton, as Chaplain.

Also, Joe Forbes, Arcata, succeeds Lloyd Welzbacked, Fortuna, as Pledge Trainer; Jim Mills, Eureka, replaces Oscar Filgas, Ukiah, as Historian; and Brian Konnersman, Fortuna, replaces Mike Viera, Antioch, as Sergeant-at-Arms.

Miss Andy Roccaforte, education major from Eureka, is the 1965 Teke Sweetheart.

Committee Chairmen include: Don Rubin, San Diego, Social Chairman; Doug Lane, Douglas City, House Manager and Activities Chairman; Mills, Finance Chairman; Viera, Content and Public Relations Chairman; Nave, Rush Chairman; and Shaw, Fraternal-Scholarship Chairman.

Radio Moves People

Radio is a mover of people. It is surely true that no student of the twentieth century can fail to observe how radio and television have succeeded in permeating American life.

In fact, our entire society has become geared to these medias, and our lives shaped by the messages they bear. Our modern informed population depends on the broadcasters of this nation for a multitude of services that include running up to the minute accounts of people and events of the world, to educational services of the most sophisticated nature. The potential of educational radio and television is just starting to be realized and future demands are sure to call upon new ideas and methods to help carry the weight of educating our vast and varied society.

KHSC, your campus radio station, has accepted the challenge of these demands and of further providing educational programs of the present and planning for the future listening public and the learning student. Humboldt State College is indeed fortunate to possess outstanding studio facilities on campus and will begin regularly scheduled programming after the first of October. During the interim, evening music will be provided between the hours of 7 p.m. and 10 p.m. each week night.

KHSC fm is operated by the radio workshop students of HSC. New students are still being accepted in radio courses which are given for credit. Interested students are invited to visit the studios in room 206 in the Language Arts Building.

Student Wives Meet Thursday

Student Wives Club will hold its first general meeting on Thursday, Sept. 30, at 8:00 p.m. in the lounge of the Home Economics Building.

New members are being sought to join in the picnics, pot-lucks, and parties as well as the regular twice-monthly meetings. Each meeting consists of a business session and a program, followed by refreshments.

Some of the programs being planned for this year include speakers on hypnosis, budgeting, cake decorating, sales gimmicks, and crystal. The first meeting will include planning for an October 2 tour of campus arranged for student wives and guided by the SPURS.

Membership in Student Wives Club is open to all wives of HSC students and married women who are students themselves. Further information or help arranging transportation can be obtained by calling Mrs. Russell Shaddix at 822-3747.

Sorority Opens Chapter House

By GEORGETTE TELFORD

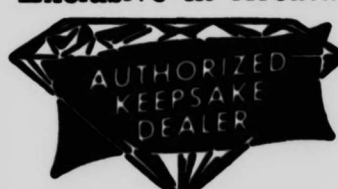

Delta Zeta Sorority hosted women students last Sunday afternoon between 2-5 p.m. at an open house.

The Delta Zeta Sorority is now located at 1162 "C" Street in Arcata. The visitors were taken on tours of the house and refreshments were served.

This open house marked the first day that the house was "officially" open for formal entertainment. The girls have been working all summer fixing up their new two-story residence, including many hours of painting, plastering and cleaning.

Sorority members chose a color theme downstairs of soft pastels with accent on two colors, pink and green, the national sorority colors.

Just Why You Cry

(Editor's note: The following editorial is reprinted from The Voice of the Faculties, a monthly newsletter of the Association of California State College Professors. The message is extremely timely and provocative, in this week following registration.)

If you are one of the many students who are disappointed because you can't obtain the courses you need, this message is for you and explains what you can do to improve conditions.

We sympathize with you in this incredible situation and will do everything we can to solve these problems. We will do everything, that is, except compromise the quality of the available programs.

Under present conditions it is impossible for the California State Colleges to fulfill all commitments and obligations to their students.

Budgetary allocations last year did not provide enough money for salaries to attract as many qualified members as were needed for new positions and replacements. They were not even adequate to hold many of the qualified faculty members employed in the state college system last year because of the fiercely competitive situation in the academic marketplace — and that is why you are having difficulties now.

The warning of the Association of California State College Professors, the Chancellor's office, and many other concerned groups of an impending crisis in the state college system brought stopgap salary increases late in the year which were not only too late in arriving, but were still inadequate to make salaries in the system competitive.

Unless budgetary appropriations are increased considerably next year, the situations you face now—closed classes, not enough professors to staff many departments, cancelled classes—these things will be compounded next year.

We realize how deeply disappointed many of you may be now because you may not be able to obtain the classes and educational programs you need. We realize, too, that it is futile to commiserate further. Instead we want to suggest several steps you can take to rectify the situation before the 1966-67 academic year:

First, we urge you, your parents, and your friends to write to Governor Brown immediately requesting that he recommend sufficient funds to provide for the California State Colleges in the next budget he submits to the Legislature. Let the Governor know the extent to which you are being deprived of essential courses and how this has hampered your educational objectives.

Second, when the Legislature reconvenes in January, follow up and reinforce your letter to the Governor by writing to your state senator and assemblyman, requesting them to insist upon adequate provisions for the needs of college and university students in California.

Finally, we urge you to check the records of your legislators, and if they are not fully supporting the state college system, demand to know why they have dedicated themselves to a second-rate state college system and insist upon their support.

The effectiveness of your personal efforts will be increased if you seek organized support from other students whose educational plans are also obstructed, discuss the problem with community and alumni groups, encourage the editors of your school paper to comment on the issue, and get your friends and relatives to support you.

Borrowing some of the immortal words of Dr. Suess, the time has come for every frustrated "Who in Who-ville" to make as much noise as possible so that together we will be heard by the powers that be. And the first of these is Governor Edmund G. Brown, who can be reached at the State Capitol, Sacramento. Write him immediately urging him to incorporate adequate provision for higher education in his next budget.

LITTLE MAN ON CAMPUS

New Advisor Describes Student Activity Post

By NOEL ABANANTI

"Scotty" Reed, who describes himself as "outgoing, almost too much at times," is HSC's new Activities Advisor. Three years in student activities at Hayward State college climaxed with his election as student body president led him to his present job.

He graduated from Hayward last year with a major in Sociology and minors in Speech and Drama. It was there he discovered that his previous plan to make law enforcement his career did not allow him leeway he wanted.

"Life is a two-way funnel. A vast amount of experiences leads to college where it narrows down to specific experiences. With your new knowledge the growth pattern again expands to its greatest point. With a major in sociology there is more growing room than there is in law enforcement, for example.

"My experiences at Hayward showed me that the job of Activities advisor was one I could handle and would enjoy at the same time."

Mr. Reed has a very small room in the Campus Activity Center with a sign designating it as the office of the Activities Advisor.

"The 'office' that he frequents almost as much as the little room stretches anywhere from the men's room to walking across campus. Why such a large office? Because Mr. Reed's clientel includes the entire HSC student body, administration and faculty. 'I'm here to serve the students and act as a liaison between them and their faculty and administration. When a liaison is needed, I find the right people so that we can get to know each other.'"

Mr. Reed, 27, hopes to do his graduate work in college union management. When not at the "office," his home is in Eureka with his wife, Sandy, and his two daughters. This is also another reason for moving to Humboldt County "I want my children to know something of the world besides pavement and artificial Christmas trees."

KHSC to Resume Broadcasting In October

KHSC fm, Humboldt State's own radio station, plans to begin broadcasting again sometime in early October, according to Mr. William White, faculty advisor of the station.

KHSC is operated by the Radio Workshop students of Humboldt State for credit, and plans to broadcast from 7 p.m. until 10 p.m. for the first few weeks after it begins operation. Gordon Schmidt, program director, stated that he will know later on what the permanent hours will be.

At press time, only 13 students were enrolled in the Radio Workshop class, which White feels might be due to the fact that many students aren't even aware that there is an operating radio station here. White urged all students interested in taking the radio and television courses to see him in his office in the Language Arts building.

In the Radio Workshop class, students investigate the techniques of broadcasting, where they are utilized, announcing, station operation, and production techniques, with the use of a well-equipped radio station. The station is equipped with two broadcasting studios, besides a control room.

Supplementing the radio classes is a fine television department that offers a television workshop, according to White. The program is similar to that of the radio classes.

KHSC operates at 90.5 on the fm radio dial. In the dormitories, it is brought in by cable and can be found around the 700 mark.

Forester's Wives Team Up And Form New Club

With the new school year just beginning, a new campus club is being formed through the Dean of Activities office.

The new club will be known as the "Forestry Mates" and is open to any married girls who's husbands are Forestry students here.

Among the activities planned by the club this year include the raising of funds for a scholarship to a Forestry husband, social events, fund raising activities and service activities.

The purpose of the new club is to further the knowledge of the Forestry wives of their husbands field through the use of films, slides and speakers.

The advisor to the "Forestry Mates" will be Mrs. Borgerson and the first meeting for interested individuals is Sept. 28 at 7:30 p.m. in the Home Ec. Lounge (Rm. 106) of the Home Ec. Building. Dress is skirts and sweaters.

Election of officers will be held after the first two meetings.

Vacation Time Fable

There was a certain Cal Poly student who, at the end of his Frosh year, hadn't definitely chosen his Major. So he decided to spend his vacation working for a time in each of the fields in which he might possibly want to try for a degree. This student's name, incidentally, was Freddie Composite, so that's what we'll call him.

First off, he took a crack at Animal Husbandry; and second off, he had six cracked ribs and a fractured sternum. The animal was a horse, and her husband kicked.

So next he tried Horticulture. He was, perhaps, unsuited to this field; for in the space of two weeks he had contacted hay fever, rose fever, ivy fever, psitticosis (from sitting on a Bird of Paradise plant), and polygonaceous fever—a little thing he picked up from a few common, indigenous plants

such as knockweed, jointweed, smartweed, bistort, and dock.

After they released him from the hospital for THAT, you'd think he would have tried to get into advertising, or with a law firm. But Freddie was sticking to the curriculum, so he went into Engineering. Got a job working on a bridge. First day, he didn't notice a swinging steel beam, and you should have seen HIS bridge-work. To say nothing of his nose. But there's always cosmetic surgery.

About all that was left for Freddie to try now was Liberal Arts, so he located a liberal guy named Art and went to work for him.

Well, Art was so Liberal (financially, of course — this is a non-partisan fable) that he gave Freddie a brand new Jaguar-Benz Mark VIII Model 400-X convertible. It would go 180 miles an hour. Freddie was sure lucky, huh? But he got carried away with his new toy, and when they carried HIM away, multiple contusions were the least of his medical problems. He was rather close to rigor mortis.*

His wife, meanwhile, had developed fallen arches and varicose veins from pacing various hospital corridors, waiting for word on Freddie's various conditions.

Now, since Freddie was practically broke when vacation started (he WAS a Composite, remember), wouldn't you think that all those medical and hospital bills would have put an end to his career at Cal Poly?

Well, they didn't. He came back for the Fall Semester, not much wiser, maybe, but not much poorer, either. And all the bills are paid!

Of course, a certain Insurance Company is not paying dividends at present. And a nice, bald-headed man named John Fergus had come down with a rather serious attack of the Mutters.** But Freddie Composite is fine! So is Mrs. C.

MORAL: SIGN UP FOR STUDENT HEALTH INSURANCE! TODAY! NOW! THIS MINUTE!

\$21 covers you for a year! For \$46.40, bring your wife along!

*His Fergus policy would have covered him for that, too.

**Not covered.

Zeta's in the 'Pink'

Delta Zeta Sorority has a new look on campus this fall. The girls will be wearing official sorority outfits every other Monday to promote sorority public relations on campus.

The pink sheaths with large white collars set off by a green bow at the neckline are new this semester. It was felt by the sorority that since the fraternities and other service organizations have days when they wear a certain dress for recognition on campus that it would also be good for them to do the same.

LITTLE MAN ON CAMPUS

Spurs 'Big-Little' Sister Party Set

The Spurs, sophomore girls honor society, will hold its annual "Big-Little Sister" party Wednesday.

Members of the Spurs traditionally "adopt" freshman girls with the idea to help them become better acquainted with campus life.

Claudette Fridley is in charge of preparations this year. All freshmen and interested students are urged to attend even if they haven't yet received a big sister. Many lasting friendships evolve from this tradition, Miss Fridley said.

Casting Complete For First Play

Sequoia Theater's first production of the fall, George Bernard Shaw's "Caesar and Cleopatra," has been cast, according to Dr. John Pauley, director of the play.

Caesar will be portrayed by Tom Thompson; Laurie Walters will play Cleopatra and Tina Palmer is cast as Fittatecta. The rest of the cast includes: Pothinus, Lloyd Scott; Theodotus, Thelwell Proctor; Achilles, Richard Haspers; Rufio, Reginald Mintey; Brittanus, David Brune; Centurion, Noel Zinn; Sentinel, Brian Kieth; Lucius Septimus, Norman Barker; wounded soldier, Jim Spading; Apollodorus, Tom Redmond; Second roman soldier, Edward White; musician, Linda Dugan; Iras, Kathie Daniels; Charmain, Gloria Imhoff; Broomman, Jim Spalding; palace official, Richard Haspers; second palace official, Edward White; Persion, Brian Kieth; Cleopatra's ladies, Janis Hogan, Valee, Missy Hill, Nancy Elliott.

KHSC Broadcasts German Elections

The listeners of KHSC were given an opportunity Sunday afternoon to hear, broadcast live from West Germany, the West German elections.

The presentation marked the first time in the 41 year history of the National Educational Radio Network that educational stations nationwide have been linked together for a live transoceanic transmission. KHSC-FM is a member of the National Educational Network.

The station went on the air Sunday morning at eleven a. m. with pre-election views and highlights presented by Dr. Velma Richter, professor of German at HSC and Mr. White, station adviser for the station.

Lumberjacks To Face Hawaii Tomorrow Night

Led by quarterback Mel Wise, the University of Hawaii Rainbows invade Redwood Bowl tomorrow night for an 8 p.m. encounter with the Lumberjacks.

Wise has a pair of good ends to throw to in Bill Alfonso and Herbert Moriyama and is aided in the backfield by the steady running of Bill Jordan.

But, the Clark Shaugnessy coached Rainbows have dropped two games in as many weeks since leaving the islands and the strong 'Jack defensive unit hopes to continue the string.

The Hawaii club has a fine defense of its own with returning lettermen Agenhart Ellis, Mike Chow, Steve Kuna, and Jim Roberts forming a solid nucleus.

The 'Jacks counter with their proven and formidable "Green Chain" featuring offensive and defensive standout lineman, Anthony Kehl, and a strong defensive secondary led by glue fingered Dave Minor.

The Jack defenses proved themselves last week against Central Washington when the "Green Chain" tightened up and refused to allow the Wildcats within the Humboldt 30 yard line at any point in the game.

End Carl Del Grande was on

the receiving end of most of Sarboe's passes and figures to be in the same spot tomorrow evening if the 'Jacks are to emerge victorious. He has plenty of pass catching help in the form of halfback Ron Maher, who made a spectacular grab of a Sarboe pass in last week's game.

Business Club Awards Prizes Tomorrow Night

Six lucky winners will be announced for the Business Club's scholarship fund contest tomorrow night during the intermission of the after-game dance sponsored by Business Club and the Delta Zeta Sorority.

Prizes range from a \$25 merchandise certificate from three local stores to the first prize winner, who will receive a total of \$103.75 worth of gift certificates from sixteen different local stores. All together the Business Club has invested \$350 in prizes.

They take American friendship with them
...everywhere they go!

They're not the kind of men who often make news. But they carry American friendship—and ideas—into some of the most out-of-the-way places on earth. They are Standard Oil geologists, engineers, technicians.

They explore primitive jungles, deserts, tundras, bay areas even the ocean bottoms, for oil.

When they find oil in far-off places, many other benefits follow. The local country gains a new source of energy, new jobs, new revenues, improved living standards. American cooperation makes stronger friendly nations.

Standard Oil men are more than oil-hunters. They are goodwill ambassadors. They take American friendship with them... everywhere they go!

Standard opened another frontier, America's first service station, in Seattle, in 1907. From this proud tradition, the man at the Sign of the Chevron serves you with today's highest quality S.O. Products.

Oliver Gives 'Jacks Win With Final Quarter TD

Mel Oliver's two-yard touchdown plunge in the final quarter led the Lumberjacks to a 7-0 victory over the Central Washington State Wildcats in the 1965 grid debut of both squads at Redwood Bowl Saturday night.

Oliver's plunge capped a 42-yard, 16-play drive that almost ended when the Wildcats picked up a Lumberjack fumble only a split second after the whistle had blown; leaving the 'Jacks in possession of the ball.

Billy Wilkinson returned a punt 13 yards to the Wildcat 43 to start the drive. Then quarterback Joe Sarboe hit Carl Del Grande with a five yard pass that ended the third quarter.

But Sarboe was right back at it with the start of the last quarter, hitting Oliver for a nine yard gain. Gary Mayes ran for seven and Sarboe again took to the airways for eight yards and a first down on the visitors three yard line.

After the earlier mentioned fumble mix-up, Oliver performed his game-winning heroics and Phil Colson added the extra point to give the 'Jacks a 7-0 lead with

10:27 left in the game.

Following the ensuing kickoff, Wildcat quarterback Butch Hill fired a 31 yard pass to Dennis Esser, then handed the ball to Steve Smith who bulled 10 yards to the 'Jack's 41.

Anthony Kehl stopped that threat with a recovered fumble on the next play, but the Wildcats were right back at it a little later when Hill's aerial found Jim Gray for 16 yards and Smith followed with a 11 yard carry that left the pigskin on the 'Jack 30, but the threat ended when Dave Minor batted away a final down, desperation pass attempt.

But the unheralded heroes of the contest were the members of the Humboldt defensive unit, the "Green Chain". From the opening kickoff they served notice of their determination as they refused to allow the Wildcats within the Humboldt 30 yard line at any point in the game.

The 'Jacks took the opening kickoff and moved to the Central Washington 35 yard line when they were forced to punt. And from that point on the defenses took over with a total of six punts coming in the first period alone.

It was more of the same at the start of the second quarter, but Sarboe took to the air to launch a 76 yard march with passes of 11, 11, 10, and 14 yards to Del Grande. And Oliver came through with key gallops of nine and 16 yards to help the cause.

But that drive ended in vain on the one yard line when a mix-up in signals resulted in a Wildcat fumble recovery.

Night Reading Set

A night interpretive reading program to be held in October has been inaugurated by Mr. Ronald Young, director of forensics.

Any student interested should contact either Mr. Young (L.A. 9) or Mr. Hales (L.A. 20B) on Monday, Sept. 27, or Tuesday, Sept. 28.

LINEMAN ANTHONY KEHL (66) pulls out to lead the blocking for Mel Oliver who scored the Lumberjack's game-winning touchdown in last Saturday night's 7-0 win over Central Washington State.

Junior Jack's Turnout Small

Due to stiff entrance requirements only 25 grid hopefuls greeted newly appointed coach, Dr. Ralph Hassman in the Junior Jack's initial practice Monday.

Coach Hassman takes the vacated post from James Musick who accepted a position as an Industrial Arts teacher at Fresno State College. The new Junior Jack mentor previously served as defensive coach for the Lumberjacks from 1960-1961. Dr. Hassman's assistants this year are three former 'Jack greats; linemen Matt Kelley and Bill Joy, and halfback Manuel Vasquez.

Capable of speeds better than 2,000 mph, the YF-12A is the hottest aircraft around. Now Maj. Walter F. Daniel, test pilot for the YF-12A, answers your questions about the world's fastest manned airplane and America's Aerospace Team.

(Maj. Daniel, a test pilot since 1954, is a member of the Society of Experimental Test Pilots. He received a B.S. degree in Aeronautical Engineering from the University of Oklahoma. In February 1962, he set world class time-to-climb records in a T-38 jet trainer.)

Is the YF-12A the world's fastest manned aircraft?
It certainly is. On May 1 of this year the YF-12A (formerly known as the A-11) reclaimed the world absolute speed record from the USSR. It was clocked at 2,062 mph over Edwards Air Force Base.

How big is the YF-12A?
The exact dimensions of the YF-12A have not been released yet. But it's approximately 100 feet long, with about a 50-foot wingspan. That's half again as big as our present interceptors!

Is the Air Force training many men as pilots these days?

Yes, very definitely. In spite of all you hear about unmanned vehicles, the human pilot is still very much in the picture. As a matter of fact, the Air Force pilot quota is on the increase.

What other kinds of jobs does the Air Force offer?
Since it's one of the world's foremost technological organizations, the Air Force has plenty of openings for scientists and engineers. There are also many challenging and varied administrative-managerial positions.

What do I have to do to become an Air Force officer?

Air Force ROTC is the best way to get started as an

Air Force officer. The new two-year Air Force ROTC program makes this method available to men who have already completed a year or two of their college education. For college graduates, if you did not take advantage of ROTC, you can still get started through Air Force Officer Training School (OTS), a three-month course open to both men and women.

Can I keep up my studies while I'm in the Air Force?

The Air Force encourages its men and women to continue their educations. For instance, you may qualify to study for a graduate degree during off-duty hours, with the Air Force paying a substantial part of the tuition.

What kind of future do I have in the Air Force?
A bright one. As we move further into the Aerospace Age, the Air Force is going to grow even more important. And you can grow with it!

United States Air Force.
