

# Dr. Siemens Gives Views on Campus Issues

It would make little difference if students at HSC did vote to ban military recruiters from campus as asked by representative John Woolley.

In a recent frank interview President Cornelius H. Siemens stated that the recent new policy decision by the Board of Trustees of the California State Colleges limits the powers of individual campuses in such matters. The Board is all powerful in making such policies with not only student but faculty and administration opinion making little difference. He indicated that student opinion would be listened to but would bear negligible weight at this point.

During the interview, President Siemens was asked about the subject of the recent increase of VD on campus, birth control pills for college girls and the communications code.

On the subject of VD he stated, "I don't feel that the institution should be a parent to the students." He went on to say that he hoped that by the time a person entered college, he would be sufficiently mature to take the responsibility for his own actions.

## Problem

President Siemens does not see the VD problem as being one of the sexual activity in itself; rather the problem lies in a lack of caution on the part of the

people participating. "Sex itself is not the problem. Often there is a lack of maturity that leads to severe emotional and physical problems." He feels that decision whether to engage in sexual activity lies with the student, a personal decision. The President praised the Student Health Service and Dr. Charles Yost, the director, and indicated that he felt that the service was capable of handling the health problems arising in this area.

The President summed up his position as follows:

"The problems of health, sex, religion, and the like are, of course, purely personal and represent areas in which the college is properly concerned, but does not attempt to control the student's behavior or to make decisions for him--except where such behavior would interfere with the college operation. The student should not look to the college to decide for him whether sexual promiscuity is morally right or wrong nor will the college decide whether a student should take up smoking. The college does not, nor can it, take the place of the parent or the student's conscience in such matters and, thus, leaves the student to make his own decisions. The college does stand ready to assist him through non-directive counseling and providing aid if

he requests it. Our goal is to provide the best environment, assistance, and instruction for the individual to learn, to mature, and to make individual judgments concerning himself and others that will best meet his needs and, in the long run, serve well the society of which he is a part."

When asked about dormitory regulations, he answered as follows:

"In reply to the question about fewer regulations in the dormitory, it should be noted that the trend nationally and at Humboldt State College is toward greater freedom on the part of the students, particularly the women. Whenever the students' desire it and show they have sufficient maturity, more freedom of action is provided. We attempt to have only as many rules and regulations as necessary to operate within the law an effective, efficient student residence on campus. If, on the other hand, the lack of regulations results in disturbances or other difficulties, it may become necessary for the good of all the students and the college to add restrictions. Practically speaking, for the minor student the extent of student freedom in the campus residences must be a three-way compromise involving the desires of the parents, the students and the college. With the older students, it

is primarily a matter of working out an agreeable modus operandi between the students and the Dean of Students."

Continuing on the subject of individual responsibility, he said that caution on the part of the people involved should do much to reduce the problem. In all areas individuals should be aware of the possible consequences of their actions and should be prepared to accept and to deal with the consequences.

## Physician

Asked about birth control pills for college women, the President said, "I would be willing to go along with the recommendation of the campus physician." He said that the physician should be the one to decide when and to whom the pills should be prescribed, if at all.

## Opinion

He said, "I would also be interested in the opinion of the student body on the subject, as it would be partly their money that would be used. The actual decision as to whether to give the pills should rest with the consensus of the student and the decision of the college health director."

The discussion over the proposed communications code was the next subject raised. President Siemens indicated that the request came from the Chancellor's Office. The problem does not arise from this campus. Part of the reason for the difficulty about publications codes already in effect on other campuses is irresponsibility on the part of other staffs and editors and the lack of effective supervision. The San Francisco State paper and magazine were mentioned.

According to the President, it is his responsibility to answer for any publication bearing the name of the college. He was asked by the Chancellor to develop publications if the campus did not have one.

One proposed code would provide for a committee to make the final recommendations regarding disputes or criticisms involving student publications, radio and other publications. He stated, "As I see it, there would be little effect on the operation of the Lumberjack or the Hilltopper." The President feels that though the communications committee may question the competency of the student editor and the faculty advisor, it is a question that does not arise from the present situation at HSC. He feels that the present personnel involved from the student body and the Journalism department are capable of following the canons of journalism which he feels are sufficient for the governing of our student publications.

No.11

## New Policy on Dissent

The Board of Trustees of the California State Colleges has adopted a five-point policy on student conduct. The statement includes an unqualified condemnation of "violence or threats of violence."

The HSC Information Service, in a December 4 news release, reported that the Office of the President at HSC had received the resolution from the Board of Trustees.

The news release said the resolution "defends the right of the students to meet with recruitment representatives from government, private industry and public agencies on campuses of the state colleges, and condemns acts of coercion and demonstration on the part of any group of students that interferes with the rights of other students."

## Comment

HSC President Cornelius H. Siemens said, "This resolution by the Board agrees with our existing general policy on the campus in this regard, but further strengthens and defines our position."

The President pointed out that he had appointed an Ad-hoc Commission on Students Rights and Responsibilities last spring, composed of student, faculty and administration representatives. This commission, the news release noted, has recommended a policy of public expression that includes campus demonstrations, meetings, invitations to off-campus speakers and defines the legal rights and moral responsibilities of the college communities in these matters.

The Trustees' resolution was adopted November 30 as the Board concluded a two-day meeting at the College System's headquarters in Los Angeles.

The Trustees' action follows

ed presentations on the subject of student conduct by Donald M. Hart, Chairman of the Board, who is a Bakerfield businessman; Glenn S. Dumke, Chancellor of the State Colleges; and Sol S. Buchalter, Chairman of the Academic Senate, officially recognized voice of the statewide faculty.

## Text

The full text of the Trustees' resolution follows:

**RESOLVED** by the Board of Trustees of the California State Colleges that the following expresses its policy:

1. The Board unqualifiedly condemns violence or the threats of violence against persons or property, or any acts of coercion which result in the interruption or are designed to interrupt the educational process or lawful operations of any State College.

2. Vigorous enforcement of campus rules on student conduct is essential to preserve the campus as a place of freedom in which the rights of individual students are recognized and protected.

3. Students have the right on campus to meet with representatives of the government of the United States, and of other public agencies and of any or all private industry on a non-discriminatory basis for interviews in connection with planning their future or private service or employment. These rights shall be protected.

4. The Board of Trustees is sensitive to the rights of the students to debate current issues, to protest policy and to dissent. These rights, in accordance with pertinent college rules as to right to dissent affords no excuse to disrupt college operations or to interfere with the rights of fellow students.

5. It is expected that the leadership of the president, the judgment of the faculty and the good sense of the students will maintain the college campus as a place of order in balance with freedom. In any event, the Board recognizes that it is desirable for a college, as far as possible, to provide for its own internal security. The Board therefore authorizes the Chancellor to take all feasible action to make available or to procure additional funds for such purpose and to provide funds for additional assistance, where necessary, to the respective Deans of Students. If internal measures and security are insufficient to safeguard the campus and the orderly process of education, the college administrators are authorized and expected to call in outside community law enforcement officers.

ership of the president, the judgment of the faculty and the good sense of the students will maintain the college campus as a place of order in balance with freedom. In any event, the Board recognizes that it is desirable for a college, as far as possible, to provide for its own internal security. The Board therefore authorizes the Chancellor to take all feasible action to make available or to procure additional funds for such purpose and to provide funds for additional assistance, where necessary, to the respective Deans of Students. If internal measures and security are insufficient to safeguard the campus and the orderly process of education, the college administrators are authorized and expected to call in outside community law enforcement officers.

## SLC Turns Down Ban On Military Recruiting

by Gary Morse

On the strength of a 2-9 vote, the Legislative Council of the Associated Students rejected representative John Woolley's proposal to oust military recruiters from the HSC campus.

The recruiter controversy regained the floor as Woolley expounded upon the resolution which had been presented the previous week. He indicated that his primary goal was to dissolve the link between the military and the educational institution, because he sees the two as incompatible. Woolley also commented on the recent decree by Selective Service Director Lewis B. Hershey, which stated that student anti-war demonstrators should be reclassified as delinquent I-A (meaning immediate induction), declaring this to be a malicious threat to higher education, and one which we promote by advocating on-campus recruiting. As a final point, Woolley demonstrated the importance and legality of student dissent, by reviewing the termination of napalm production by Dow Chemicals as a consequence of student concern and the resultant loss of college brainpower.

## Debate

A wise decision by the chair limiting debate to three minutes per speaker, restricted discussion to short negative responses to Woolley's points. After discussion was ended by a call for the question, the motion to approve was defeated, with only Reps Woolley and Cooper responding favorably.

On the grounds that a void had been created by the above action, Rep Jeff Eggert requested that Council go on record as having approved of the "Policy on Student Dissent and Disruption" from the Board of Trustees, (Nov. 30, 1967) (See another article in this issue on this subject)

Approval was granted despite loud dissent by Reps Dave Smith and John Woolley. It is interesting to note the inherent ability of Council to bind itself to static policy. Perhaps some of us recall the action taken last spring to remove recruiters from the cafeteria, a move which re-

sulted in their transplant to the CAC. It is conceivable that a request of that stature, or any other strong form of reaction against the military recruiters will now be illegal, due to the nods of our student leaders who continue to pass legislation without pausing to see the limits they place on themselves and their student body.

Experimental College Director Glen Dreher was granted an extra \$750 to his budget, for the preparation of a large-scale film festival, to be held near the end of April. Mr. Dreher explained that the anticipated revenue of \$775 was not unrealistic, since there may be four separate presentations of experimental films from various schools having programs in cinematography (S.F. State, Iowa State, HSC). The projected returns are on the basis of \$1.00 for ASBers and \$1.50 admission for non-students.

Pat Crooks attempted to present the corrections as advised by the Board of Control on the Restructuring proposal, only to discover that the board had not been supplied with the new changes resulting from last week's meeting. It was decided to call a special meeting of Council on Friday, to grant final approval on the proposal.

## Spurs Traditional Starlighting Set

The traditional SPURS Starlighting will be presented for its fourteenth consecutive Christmas season on the steps of Founders Hall at Humboldt State College on Sunday, December 10 at 7 p.m.

The 25 members of the sophomore women's honorary will join the HSC Choir in presenting the program. The two groups will begin the program with a processional leading to the steps.

In the event of rainy weather, the Starlighting will be held in the Founders Hall Auditorium.

The program is open to the public and will precede the Twentieth Annual Arcata Community Christmas Concert to be held that evening in the Men's Gymnasium at 8 p.m.

# LETTERS TO THE EDITOR...

## Library

Dear Editor:

The November 10 issue of the Lumberjack has just reached me here in Wyoming and I was very much disturbed by the article criticizing the HSC Library.

I do not believe the writer has any idea of the tremendous task the librarians face in trying to provide the best service possible. Their knowledge and skills plus many hours of planning are behind every decision that must be made. Books, magazines, records and A-V materials are not just stuck on a shelf. They are put where they will do the most good for the greatest number of students.

Yes, it does take time to find much of the information you students seek, but the HSC Library isn't some small town depository. It is a college library housing many thousands of volumes from technical matter on down to fiction. You cannot expect to find a wealth of information simply by

walking up to a few shelves and picking out what you want.

HSC library's record collection is kept behind the front desk for a good reason: to protect it and to assure the records will be available for the lifetime of the record and not until someone may decide to make it a part of his private collection.

The library must operate within a strict budget. As the library seeks to provide the best in new materials published, it can ill afford to spend great sums replacing lost, stolen or damaged items.

May I suggest the following to all you students that find the library a mystery. Pay attention during the library orientation sessions. Take a few hours or more to find out what the card catalogue is about and how to use it. Find out where your most needed reference materials are located and above all, ask the librarians for assistance. They are there to help and want to help you in locating materials.

The HSC Library is still changing from the Dewey Decimal System to the Library of Congress System, a project of gigantic proportions, taking several years to complete. I know you fine HSC students will be patient during this time of transition.

As I have been both a student and an 11 year employee of HSC, I know many of the problems on both sides of the fence. So please, if you have any questions on the workings of your library seek your answers there. If you are truly concerned with the library policies go to your College Librarian. The library is there to serve you. Learn to use it.

Phillis M. Ritter

## Pre-Registration

Editor:

The sign on the door reads: "PLEASE WAIT PATIENTLY IN LINE FOR YOUR TURN." (All the students are in the same boat). We could overhear the secretary indistinctly explaining that we shouldn't be upset with pre-registration. She went on to say that she had the inside scoop from the "big wheels," and at a meeting the day before, many of the professors had stated that they were so confused with pre registration that they wanted to call off the whole thing.

We were dumbfounded to realize that the pre-registration experience could be such an "excellent 'head start' opportunity" for the students; precisely as the Lumberjack had predicted in their December 1 front-page article. We were, along with many fellow-students, also a little shaken to realize how totally inefficient the registration procedures of a California State College could be.

Few people will question the complete confusion that accompanied pre-registration. The lack of communication between the administration and staff was staggering: one instructor shrugged his shoulders in bewilderment when asked about pre-registration procedures by a student. We wonder if the faculty can appreciate the students' frustrations. We received no official or concrete notification of pre registration procedures, nor did we encounter any uniformity in pre-registration practices between departments. Since a college is built of separate and distinct departments, there should be at least a minimal unity of action among the departments in the registration process. As an example, the Social Science department, after half a day, changed its mind and required registration cards signed by one's advisor before pre-registering for a class. However, some advisors from other departments re-

fused to sign any of these registration cards, saying that they had been instructed not to do so until the final registration.

In addition to these specific complaints, many students could not pre-register because they had to attend class due to the impending finals. Also, the master schedule of classes was not made available to the students until after pre-registration began. Hence, coordinated student schedules could not be planned in advance.

In view of the problems and shortcomings we have enumerated, we submit the following suggestions to be offered as a springboard for the needed refinement of the pre-registration system: 1). All the students should be notified, preferably by mail, of the registration procedures. 2). The master schedule of classes should be made available to the students at least one week prior to the beginning of pre-registration. 3). All departments should have pre-registration, and all should start at the same time. 4). If the purpose of pre-registration is to make necessary classes available to the students, waiting lists should be provided for all classes so that new class sections may be opened when necessary.

We favor the advantages of pre-registration. We realize that the system has shortcomings that must be worked out in the course of time, and it is for this reason that we have offered our suggestions.

Greg Kroll

## Forestry Students

Dear Editor:

During the past two or three weeks, I have read of the controversy concerning the Humboldt State College Band, and as a graduate of this institution have considered the viewpoints with mixed emotions. This discussion a parently gained momentum after the Homecoming Game which so many graduates and students attended.

My concern, however, is not with this issue but with an event that took place on Homecoming Day and which has received very little publicity.

During the weeks preceeding the Homecoming Activities, a group of gentlemen approached our staff and offered their total services for this day to the Handicapped Children of the Humboldt Bay Area. They identified themselves as the

Forestry Club and offered, asking nothing in return, to give the crippled children of this area a day they will long remember.

It was that day and the days to follow at school, when the children related their experiences, that I witnessed the children's reactions. Never have I seen and enjoyed the results of a more worthwhile and difficult effort than was the case with the Forestry students and their dates on Homecoming Day. These students took upon themselves the responsibility of contacting the parents, arranging the schedules, providing transportation, preparing the meals, and setting up a schedule flexible enough to meet the needs of each individual child and his ability to participate.

These students chose to spend their day in service when they could have enjoyed the activities in a selfish way, concerned only with themselves. I am sure that they are proud of their achievement because it wasn't an easy task. They did not ask for nor receive any recognition of a public nature. However, after seeing the children the following Monday, I believe they deserve it.

Our heartfelt thanks to an unselfish and responsible group of students.

Ray R. Cetina  
Eureka

## Cheers

Dear Editor:

I'm sure I speak for the other cheerleaders when I say that this football season was one of the greatest ever. I would like to thank the fans who came to the games and gave us such a fabulous response. You were really great and anyone who thinks we have no spirit should think about it before saying so.

We have had more fans at our home games than did San Francisco at their Homecoming! At some away games we have had almost as many rooters travel with the team as have showed up for the home team. Again I would like to sincerely thank those people who have cared enough for their school to really yell out at the games, for this is what people judge our spirit by.

I would also like to mention that basketball season is now here and we have a fine team who is sure to do well this year. The cheerleaders would like to ask that our spirit continue and that all who can attend the games come loaded with pep and ready to yell.

Cheerleader, John Stevenson

# Music, Revelles on Christmas Slate

## Christmas Revelles Will Feature Medieval Drama

Beginning December 9th, the HSC drama department's lively troupe of actors, jugglers, tumblers, poets, "fools," and musicians will present a selection of three plays from the colorful drama of the Medieval Ages.

On December 9th the Christmas Revelles will be presented in the McKinleyville Shopping Center at 11:00 a.m. and in the Arcata Plaza at 2:30 p.m. At 2:30 p.m. on December 10th, the plays will be presented in the Eureka Mall. On December 15th, the troupe will be on campus at 12:30 p.m. outside the Sequoia Theater foyer. Other performances will be given in Fortuna and Ferndale and at four Humboldt County schools.

The three plays to be performed are "Durham's Christmastide

Sword Dance," "Noah's Flood," and Shearman and Taylor's "Nativity Play."

The color and vitality of the plays gives the key to their presentation. Nonnita Mann, director, and the cast of fourteen hope to catch the spirit of enthusiasm and spontaneity that was the hallmark of this early popular drama.

The collapsible set, consisting of a series of levels, arches, and a bit of "magical" transformation, is flexible so that set changes for each of the plays can be done in front of the audience.

Alternative sites will be posted for the Christmas Revelles in the event of rain. Admission is free.

## Traditional Concert Slated

The Twentieth Annual Arcata Community Christmas Concert, blending the talents of college, high school and community musicians, will be presented at Humboldt State College in the Mens' Gymnasium on Sunday, December 10 at 8 p.m., according to Dr. Leland Barlow, Professor of Music.

The highlight of the program will be a performance of Vivaldi's "Gloria," by the Humboldt Chorale under Barlow's direction and

the Humboldt Symphony under the direction of Charles Fulkerson, Professor of Music. The two groups have been rehearsing for the performance since September.

The Humboldt State College Band will also offer a number of selections. The Band this year is under the direction of D. Valgene Phillips, who joined the College's music faculty this fall. Miss Ruth Carroll, Music Instructor at Arcata High School, will conduct a choral group from the high schools.

Barlow stated that the final selection will be a rendering of the "Halleluia Chorus" from Handel's "Messiah," combining both choral groups and the orchestra.

The concert is free and the public is invited to attend.

## HSC in Tourney

Chico held an Invitational Open Badminton Tournament on November 18. Humboldt State was represented by Chuck DeKay and Jay Stuart.

DeKay took first place in the Novice Flight. Stuart made the quarter finals in the same flight. They teamed up to enter the doubles competition but did not place.

Badminton is a coed extramural sport. Regular practices will be scheduled later this year. Dr. Leela Zion will be coaching the players.

Once again pre-holiday events include the annual college Christmas Assembly, to be held in Sequoia Theatre on Thursday, December 14 at 11:00 a.m.

Sponsored by the Music Department, the program will feature the Concert Choir, under the direction of Leland Barlow, the College Chamber Singers, directed by Leon Wagner and a reading for Christmas from the Speech Department.

The Concert Choir selections will range from the traditional "Ye Watchers And Ye Holy Ones" to the contemporary "Caroling", by Burt, and will include seasonal music by Shvediv, Vittoria, Praetorius, Byrd and Poulenc.

Of particular interest will be the Chamber Singers' second performance of Director Wagner's new composition, "The Three Kings of Saba," recently premiered at the Eureka Art and Music Festival before an appreciative audience. Described as a chamber opera, the twenty-five minute work will be presented in dramatic concert form with stylized, geometric movement. The text and music are both Dr. Wagner's creation, the plot being taken from a children's story by Alf Evers,

as originally suggested by a fragment of narrative in Marco Polo "Travels."

The roles of the three kings of the city of Saba are sung by Paul Zellmer as Balthazar, Don Sears as Melchior and Nelson Enns as Jaspas. Mary is sung by soprano Gayle Wilcox; Camille McNall sings the Messenger while the chorus portrays the townspeople and Kings' Counselors. Elizabeth Huddleson reads the part of the Speaker.

Students, faculty and staff, as well as the general public, are invited to attend the 11:00 a.m. program. There is no charge.

## 125 Students Gathered For Rally

Approximately 125 students gathered at noon Wednesday to hear speakers talk against Army recruiters, the draft and the military industrial complex in American life.

The rally, supported by SDS, started when Walt Sheasby began speaking in front of the kiosk in opposition to having military recruiters on campus. The crowd soon gathered and hecklers, dressed up with wigs and protest signs, began shouting, and throwing pennies and banana peels at the anti-draft speakers.

The main purpose for the rally was to explain the position of two students turning in their draft cards as a protest against the role of the military in the lives of the American people, and stud-

ents in particular. The rally, however, turned into a confrontation between protesters and counter-protesters. The rally remained peaceful, and the rally organizers did their best to keep the discussion going.

While the speakers were talking two students, Walt Sheasby and Larry Hensley, turned in their draft cards to Ken Bums at the Placement Office. They then reported this back at the rally. After a few more questions the rally was ended, but many students stayed in the area to discuss the draft, or went into the CAC to talk.

# If You Turn in Your Draft Card What Happens?

Two weeks ago Steve Houg, a junior at Humboldt State College, acted in accordance with the dictates of his conscience and mailed his draft card to his local board in Santa Rosa California. Within a few days Houg received

a letter from his board informing him of the following facts:

1. You are hereby notified that this Local Board is considering declaring you to be a delinquent because of your failure to have in your possession SSS Form #2 (registration certificate) and SSS 110 (classification card).

2. You are hereby directed to report to this Local Board immediately in person or by mail, or to take this notice to the Local Board nearest you for advice as to what you should do.

3. Your willful failure to perform the foregoing duty or duties is a violation of the Universal Military Training and Service Act as amended, and such failure may result in your being declared delinquent. A delinquent registrant loses his eligibility for deferment and may be placed in a class immediately available for service. He is ordered for induction ahead of other registrants.

4. This Local Board may excuse your delinquency status if it finds that the reason for non-compliance was not willful and

you comply. In any event, this document becomes part of your selective service file and should such delinquency be excused any further noncompliance on your part could result in your immediate induction."

### Noncompliance Reaffirmed

Houg, upon receiving this letter wrote back and reaffirmed that his was indeed a willful non-compliance with the Universal Military Training and Service Act and that he would not change his position in any way. As he will naturally refuse to be inducted Houg now faces the prospect of court action.

During the past month an extremely significant movement has been quietly unfolding across the nation. Like Steve Houg, approximately one thousand young men, almost all of whom had some type of deferment status, have seen fit to mail their draft cards to their local boards. Through such a blatant and irre-

vocable act, they have expressed their total opposition to the system of American military conscription as it exists today. The consequences of such an action are equally irrevocable; a fine not to exceed \$10,000 or a prison term not to exceed 5 years or both. Considering the present political climate it is indeed highly probable that sentences rendered will be the maximum allowable by law.

### Controversial Draft

Although it is true that many

Americans have only been too willing to serve their time in the armed forces, the draft itself has always been a controversial issue in the American domestic scene, and since the advent of the Vietnam War attention has been focused on it as never before. Many students go into the greatest of contortions to avoid the draft, using every means at their disposal to obtain and then maintain some type of deferment or safe status.

Others play it cool by enlisting in some branch or department of the service where they can serve out their time in absolute safety and security. Still others, who have supposedly passed judgement on the system and found it morally deficient, engage in such activities as protest marches, sit-in, or the burning of their draft cards.

However, the action taken by Steve Houg and others like him is in a different realm entirely. Houg was for all practical purposes draft-exempt. He has at least a year of school remaining (with its inherent draft-exempt status), after which he had a high probability of being classified 4F or an equally valid opportunity for C.O. status. Should either of these failed he could have gone to stay with friends in Canada as so many others have chosen to do.

### Personal Action

WHY DID HE DO IT? Houg explained by stating, "What I have done is a completely personal and private action. I have never belonged to any student activist organizations and am not anti-anything but am instead totally pro-pacifist. I could no longer continue to believe that the Selective Service System is immoral and at the same time cooperate with that system by carrying a draft card - no matter what my classification. I feel that the present trend of creeping militarism will eventually destroy completely our already tarnished American 'image' and quite possibly all of mankind in

the process. I realize fully that my action will affect my future. I realize that I face a possible prison term and I realize that I will never be able to vote, carry a passport or ever teach in the public school system (as I hoped to do). What is more important to me now after travelling through Europe this summer and actually feeling ashamed of my country, is that I can perhaps, through this gesture initiate some change in this country, whereby my children can grow up in a country in which democracy, decency, and moral values are a reality rather than a myth." --Monte Gust

## Fellowships Deadline

Tuition graduate fellowships for entering or currently enrolled graduate students who hope to become college teachers in California will be available in 1968-69 for approximately 850 students. The State Scholarship and Loan Commission, the administrating

The State Graduate Fellowship Program was designed to encourage students to become college teachers and to this extent is similar to the Woodrow Wilson National Fellowship Program and is a one-year award. Junior colleges are part of higher education in California and students with intentions of becoming junior college teachers are eligible for State Fellowships.

Applications may be secured at the graduate office or admissions or financial aid office at a California college or directly from the State Scholarship and Loan Commission, 520 Capitol Mall, Sacramento, California 95814. agency, has announced a January 15, 1968, application deadline but has authorized an additional testing date of the Graduate Record Examination for entering graduate students. The Commission will accept GRE scores from the January 20, 1968, national administration or from the special administrations in Los Angeles and San Francisco on December 17 and January 21 in addition to earlier scores. Currently enrolled graduate students applying for State Graduate Fellowships do not have to take the GRE. They will be evaluated and recommended by their major advisor.

The 850 fellowships for 1968-69 will be up to the amount of full tuition and required fees at a graduate school in any accredited California college. Students must be legal residents of the State of California. According to pro-

## C.U.B. Elects New Officers

A recent election by the College Union Board brought to the group a new Chairman, Vice-Chairman, and Secretary-Treasurer.

Dave Adams was elected to replace the former chairman, Terry Jackson who resigned because of his graduation next month.

Also elected were Phil Backland, Vice-Chairman, and Pam Renner, Secretary-Treasurer.

The College Union Program Board is new this year, replacing the Student Activities Committee of past years.

This panel of 12 members is responsible for a vast portion of the activities program at HSC, according to Mr. Stan Mottaz, Activities Advisor.

Their realm of activities includes the Sno-Ball, Lumberjack Days, Homecoming, the Drug Forum, the "Meet Your Prof" program, the Film program, and the special concerts.

Of the retiring Jackson, Mr. Mottaz said: "His was a very active two year chairmanship." Jackson also served as the Forestry Club President, Lumberjack Days Chairman, and Representative-at-Large for the Student Legislative Council.

## Tutorial Use of School OK'd

The Arcata Elementary School Board on November 14 approved a request from the ASB Tutorial Project to reopen Manila Elementary School for use by the Project and to provide means of contacting students through the schools to participate in the program. In return, the Project agreed to keep in contact with the schools on problems and ideas that come up and to have a viable faculty advisory committee that will help in the supervision of the Center.

The Tutorial Project, which is now named Youth Aid Service (YAS), is now focusing on the Winter quarter activities for the tutor and tutee. YAS wants to provide the benefits of academic assistance that will help the elementary student in school, and to combine this with social activities that will help enrich his personality. YAS, in the process will work with the parents and teachers to help further improve the student's environment.

The college student who wants to learn about Manila and its problems, and be able to help improve the community, should enter the program. There are no limits to the possibilities of activities. Any student with an interest who could dedicate some time will find YAS a very gratifying project.

## Fellowships

(continued from page 6)  
Voters of a new law passed by the Legislature this last year there is greater opportunity for a student to hold a State Graduate Fellowship in addition to a teaching assistantship, research assistantship, or a graduate school fellowship.

Students who pre-register by reserving places in classes during this week's pre-registration, must still register during the registration period at the start of the winter quarter, it was announced.

## Viera, Miss Telford Honored at Sno-Ball

Michael Viera of Antioch and Miss Georgette Telford of Eureka have been named "Man and Woman of the Year" at Humboldt State College. The announcement was made by President Cornelius H. Siemens Friday evening at the College's Annual Sno-Ball Christmas formal.

Also announced at the dance were the winners of the annual "Outstanding Senior Man and Woman" awards, Terry Jackson of Woodland and Miss Janene Krueger of Eureka.

Viera, a senior majoring in political science, is past president of Tau Kappa Epsilon fraternity, a member of the Green and Gold Key honorary, and a debater. He was chairman of the Dad's Day held last month at the College and a Frosh Camp Counselor earlier this fall.

Miss Telford, a senior history major preparing for a career in elementary school teaching, is a member of the College Union Program Board, the Green and Gold Key, and the Inter-Greek Council, of which she was 1966-67 president. She is currently Commissioner of Movies and a member of the Interim Government.

Both Viera and Miss Telford are listed in the "Who's Who in American Colleges and Universities." Jackson and Miss Krueger are also members of the "Who's Who" and were presented their awards by Dean of Students Dr. Don Karshner.

Jackson is a forestry major preparing for a career in the timber industry. His activities include president of the forestry Club, chairman of the College Union Program Board, and a past representative-at-large on the Student Legislative Council. He has been chairman of Lumberjack Days for the past two years.

Miss Krueger is a business administration major and she is planning for a career in accounting. She was chairman for the 1967 Sno-Ball and is currently Associated Student Body Treasurer. She is a past president of Delta Zeta sorority and was last year a member of the Student Legislative Council and president of the Business Club. She is also a member of the Green and Gold Key.

The award winners were presented with plaques bearing their names added to those of winners for the preceding years.

## 'Little 500' Matches Cyclists in Redwood Bowl

Bicycling enthusiasts will be competing in the Little 500 intramural bike race tomorrow in the Redwood Bowl at 2:00 p.m.

The race will be 200 laps (50 miles) and will be held on a team basis. Each team will be composed of four men and each of the contestants will take equal turns.

It will be exactly like a relay race in that the bike will take the place of a baton. The winning team members will all receive trophies.

In tennis competition, Professor David Louck advanced to the semi-finals by downing John Ellsworth. The other semi-finalist hasn't been determined as of yet. Dale Roukangas seems to be the choice in the loser's bracket, however.

Louck handed Roukangas his lone defeat and is the favorite to the tennis singles crown. Should Roukangas lose once more in this double elimination affair he will be eliminated and Louck will become the champion.

Handball action saw John Kilbin and Dave Plessas come out

on top in West League play. The East League play hasn't been completed. Its winner will meet Kilbin and Plessas for the final championship.

Dr. Ralph Hassman, head of the intramural program of Humboldt State has four different activities to offer to students this fall. They are: freethrow shooting, basketball, swimming, and two man volleyball.

No entry is necessary for freethrow competition and the contest will begin Thursday, January 11, at 4 o'clock in the Mens' Gym. In basketball the deadline for entries is Monday, January 15, and play begins on Monday, January 22.

Entry deadlines for swimming is February 13. Competition will start February 19 at 7:30 p.m. The pool will be open for practice (not free swimming) on February 12 and 13, from 7:30-9:30 in the evening.

Two man volleyball deadline entries is set for Friday, February 21 and play begins on Tuesday, February 27.

## Burman Named To All-FWC Team

Humboldt State's third place finish in the Far Western Conference football race placed only one man on the recently named all conference first team.

Junior halfback John Burman, who was the Jacks leading rusher and scorer, made the first team backfield along with Bernie Oliver of Cal State, Tony Christo of the Cal Aggies, and quarterback Bob Toledo of San Francisco State.

However, the Jacks managed to land four players on the second squad with two on the defensive unit and two on the offensive team.

Tackle Phil Stearns and guard Steve Brown made the second team offensive line, while lineman Gene Eklund and defensive halfback Jeff Getty were named to the defensive club.

Linebacker Galen Sarvinski received honorable mention on defense.

## Women Swimmers Place in Stockton

The women's swim team participated in the Intercollegiate Championships at Stockton on November 18.

Teams were there from San Jose State, American River Junior College, Chico State, Sacramento State, Humboldt State and University of the Pacific.

Participating from Humboldt were Georgia Becker, Pat Giampaolo, Jill McIntire, Janet Neice, Sharon Penn and Kathleen Sisler. They were accompanied by their coach Mrs. Betty Anderson.

The team placed as follows: 200 yd. Medley Relay, Penn, Neice, McIntire, Giampaolo, 5th; 50 yd. free, Giampaolo, 6th; 25 yd. butterfly, McIntire, 3rd; 50 yd. butterfly, McIntire, 3rd; and 200 yd. free relay, Neice, Giampaolo, Sisler and Becker, 3rd.

## 'Jacks Face Ore. Tech In 1st Home Cage Test

A revenge-minded Humboldt State quintet, after two setbacks, go after highly regarded Oregon Tech from Klamath Falls tonight at 8:00 p.m. in the Mens' Gym.

The junior varsity five tangle with Shasta junior college at 6:00 p.m. in the opener.

Oregon Tech is the favorite to take the championship in their Oregon College Conference. Oregon's quintet boast of a Little All-American in Steve Mayo, who measures 6-6 and sports a 24.3 scoring average. Adding more punch to their line-up is Kent Gooding, 6-7, who scores at a 20.3 clip.

Bill Hood, 6-5, and Larry Griffin, a high school All-American, adds more zest to the Oregonian line-up.

Humboldt counters with some top talent of their own. Dick Bowling, Far Western Conference guard and its leading scorer and another sharp shooting guard, Frank Evans, will start at the guard positions.

Starting in the forward spots

will be Don Paterson, who with his great spring can rebound with much taller men, and Steve Rocca, another fine rebounder and shooter.

Opening at the center slot will be Connie Seymour, the Second leading rebounder in FWC action last year. Clint Bainbridge, Greg Whitlock, Roger Williams, Bill Winkelholz, and Charley Johnson are slated to see plenty of action.

Last week the Jacks were defeated 96-85 and 93-86 by Oregon College. Coach Dick Nicolai wasn't at all pleased with his charges play. His comment was, "We didn't play as well as we can. We made too many first game mistakes."

"We didn't shoot as well as we were capable of," Nicolai added. "We only hit about 33% of our shots," he went on.

Because of their height advantage the visitors are favored to beat the Jacks but "We'll be in there fighting," stated Coach Nicolai.

## Swimmers in Big Win

In a "swim now and see who wins another day" meet, the Humboldt State Lumberjack swim team started its season off with a record smashing and winning performance against Colorado State College, 54-41.

This meet took place last week with each team swimming in its own pool. The two teams then mailed their individual times to each other.

Colorado jumped off to a quick lead by winning the 400 yard medley but the Jacks came roaring back to sweep the next six events.

Ken Cissna, Far Western Conference defending 200 yard butterfly champion, took his favorite in 2:20.5. Marshall Kane followed

ed with a 1:55.7 in the 200 yard freestyle to shatter the pool and school record.

The second record of the meet was set by John Whelan in the 1000 yard freestyle with a 11:56.9 timing. Colorado then took the 200 yard backstroke.

Lumberjack Eric Oyster then proceeded to set a third school record in the 500 yard freestyle in 5:31. Humboldt's fourth record breaking performance was done by Childs, Howatt, Kane, and Mike Morey in the 400 yard freestyle with a time of 3:30. Leroy Childs and Brent Howatt showed the way by clocking a 23.3 and a 52.0 in the 50 yard freestyle and the 100 yard freestyle.

COMPETING in inter-collegiate meet at Stockton were HSC's women swimmers including (from left): Janet Neice, Georgia Becker, Pat Giampaolo, Kathleen Sislerand, and Jill McIntire.
