Student Presidents Meet With Reagan

"Reagan still doesn't feel students are capable of handling responsibilities," stated Harold Hartman, ASB president, after returning from a special meeting called by Governor Ronald Reagan with the CSCSPA (California State College Student President's Association) held in Sacramento last week.

Hartman's comment was spurred when asked what his over-all impression was of Reagan's attitude at the conference. The special meeting was called by Reagan to informally meet and discuss problems with the state college student presidents. Reagan requested a closed session with the CSCSPA representatives, and there was no set agenda. A press conference followed.

Hartman said that the discussion was in general about education and its problems. He stated that a few

times the governor lost control and got mad, and "justifiably so" at times.

Reagan was asked why the Educational Opportunities Program was cut entirely from the California state colleges augmentation budget. He stated that it was because it was low on the Chancellor's priority list, and for that reason it was cut. He went on to say that the problem of underprivileged students really exists at the grade school level and should be solved there.

Hartman said that a lengthy discussion followed regarding a Senate bill which proposes that a state-wide Academic Senate member and the president of CSCSPA be represented on the California Board of Trustees with voting privileges.

Reagan stated, according to Hartman, that he was opposed to the

P.E. Chairman Responds To Requirement Issues

The opportunity for physical education should be available to the students of HSC said Dr. Joseph Forbes, chairman of health and physical education.

In commenting on last week's editorial in the Lumberjack, which called for the elimination of PE as an academic requirement, Forbes called it a "good article." He agreed that PE should be put on a pass-fail basis because it would make the teacher's job easier as well as being more fair to the student.

Forbes stressed, however, that the campus currently has 1000 juniors and seniors taking PE as an elective, and many more students that benefit from the PE facilities for intramurals, recreation, and extra-curricular events. Forbes said that the campus needs new facilities "desperately" and that the only way the state will authorize such buildings is if the buildings will be used for courses

having credits.

Forbes said that the Curriculum Committee had studied the proposal to drop PE but had recommended that it be kept in the curriculum for credit. Forbes also commented that since PE represents only 3 graded units out of 186, its effect on a person's GPA would not be too drastic.

Forbes defended the health program by saying that the school seeks to "remind" college students of some basic values as well as emphasizing safety, diseases, and a frank discussion of drugs. "We're not missionaries," Forbes said, "we offer the student a chance to obtain the knowledge and make a choice."

Forbes said the objectives of having PE are still valid, and that new facilities at the school would benefit the entire student body. He added that he was happy to see student concern with the PE issue.

MINI WINNERS — The first Mini Skirt Contest unfolded another record for HSC by topping the Fresno State effort of last month. A married member of Sigma Pi tapes the skirt of Patsy Givens, an English major from Arcata.

Deny Voting For 300 Without Card

Students who have not picked up their ASB cards may do so any day during business hours at the business office window in the Administration Building. ASB cards will be checked for next Tuesday's election. There are 300 - 400 cards unclaimed.

Originally the cards were to be mailed to students with their official study list, but since computer registration did not work, no cards were mailed.

Some cards were handed out to students at the time they received their permit to register and class cards. This caused time problems so the cards were moved to a table away from the permit-to-register line, but there were still delays.

LEGISLATORS POSITIONS DISCOURAGE SOS

A bundle of letters to politicians and state college officials, one student's journey to the state capitol, and a 20-page report on HSC's need for a new oceanography ship has resulted largely in disappointment for the Ad Hoc Sink or Ship Committee.

Bill Stankus, a member of the SOS committee, said that the replies from legislators and state college officials left him "disillusioned."

The committee sent out letters containing the 20-page report outlining the need for a new oceanography ship to numerous Assemblymen, Senators, and state college officials. Stankus said that the replies expressed a "so what" attitude that "stated no position whatsoever."

stamp of approval from the administration of HSC."

Stankus also received replies from Assemblymen Jess Unruh and Frank Belotti. (Belotti represents Humboldt County in the Assembly.) Unruh's letter stated that he was too busy with a heavy speaking schedule and legislative duties to actively support the ship drive. Belotti's letter contained a copy of a complaint sent by the Department of Fish and Game, complaining of the bad condition of their ship.

Commenting on Belotti's reply, Stankus said, "I'm disappointed."

Stankus visited the state capitol over the quarter break and came back with mixed emotions about California state government. "It left me feeling kind of funny," he said.

Complaining of an air of "evasiveness" in Sacramento, Stankus observed, "I don't know how the people that work in the capitol can face themselves in the mirror." He cited his visit to over 20 offices having to do in some way with education or financing and getting

"non-committal" replies at nearly every one.

In spite of the many disappointments, Stankus did receive some encouraging results from his trip to the capitol. Russel Reece, who is a member of the California Coordinating Council for Higher Education, called the whole matter of the oceanography dilemma at HSC "a unique situation." Stankus said Reece was "amazed at the situation at Humboldt" in regards to the oceanography problems, and that Reece was "impressed with Dr. Gast" and his presentation of the problem.

Stankus also received what he termed as an encouraging letter from John Baird, an Associate Dean of Academic Planning in the Chancellor's office.

He stated that in January the U.S. Department of Health, Education and Welfare gave a 219-foot ship to the U.S. Office of Education to train disadvantaged youths and high school dropouts. HEW gave a grant of

Editorial

Amendments

The Associated Students of HSC will consider three major revisions to the ASB Constitution at the upcoming election. The Lumberjack urges that the students of HSC give strong consideration to these revisions.

First, and most important, is the revision of the office of ASB Treasurer office to an appointed Director of Finance. The appointment of a Director of Finance by the Student Body President, with the approval of the Student Legislative Council, and based on sound qualifications is a good plan.

The situation where the position of ASB Treasurer is determined by the ability of the respective candidates to finance a poster campaign is a bad influence on the operations of this office. No "pretty face" ever balanced a ledger on its own.

Luckily, our recent Treasurers have been competent in the execution of their duties. Luck will not be with us forever, and we should not depend on it.

The proposed amendment calls for an upper division student with previous experience in budgets and a background in accounting, with preference to be given to former members of the Finance Committee.

The amendment concerning the Freshman Class Representative is designed to clarify a cloudy situation concerning the status of the Freshman Class, which is non-existent. The Freshman Class, as an organization on campus, was declared inactive at the beginning of this school year.

The Student Legislative Council decided that a representative of the Freshmen on the Council is valuable to the Council and to the freshmen. To keep the representative on the council it was decided to change the words Freshman Class Representative to Freshman Representative in the constitution.

This measure is necessary to clear up the situation.

The last measure provides for extending the period of voting in ASB elections, and allows the Elections Commissioner to choose the places of polling. Periods of election could be extended to two days in the spring election because of the importance of spring elections. The extra freedom given to the Elections Commissioner in choosing locations and numbers of (from three to five) locations will permit changes in elections policy to allow different situations.

Apathy

The last ASB election saw 12.8 per cent of those eligible voting. The result of this apathy is a student government that does not represent the students. A vote of 5 per cent of the students was required to win at the last election. These 200 students have the legal and moral right to deal with all student affairs, the budgeting of the \$20 fee that we are all required to pay.

If the students of HSC desire to have a government structure that is not representative, so be it.

If apathy among students is their own expression of distaste for petty student government affairs, let them participate and make student government meaningful.

How can we criticize apathy in American society, and try to change it, if we cannot handle our own affairs?

Letters to the Editor

Libel

Dear Editor:

I have made several inquiries as to the nature and origin of the "Slut-of-the-Week" award, and after considering it in its true context, find nothing slanderous in its conferment, nor libelous in printed reference to it.

Slander and libel are defamatory utterances and printed statements, respectively, which, according to the ruling of the Supreme Court (New York Times v. Sullivan), must be made with malicious intent. This definitely is not the case here.

The Lumberjack's advocacy of responsible reportage in the editorial of 18 April is commendable; I should think before criticizing others, however, its own house should be put to order. Statements out of context and less than thorough research are not, I deem representative of this responsibility.

Stephen Bowlus

Editor's note: The Sullivan decision mentioned applies only to public officials. Regarding malice, the book Legal Control of the Press, by Frank Thayer, says "any written statement charging without foundation that a woman is immoral is generally regarded as actionable per se," and "it is not necessary to allege malice in the case of words libelous per se, for upon proof of the publication of a story defamatory upon its face malice is presumed."

Pro Amendment

Dear Editor:

Next Tuesday and Wednesday the members of the Associated Students will go to the polls once more. This time, however, there will be some very important amendments included on the ballot for their consideration. I would like to urge that every member of the Associated Students inform himself about this series of amendments.

In my opinion, the amendments concerning the ASB Treasurer must be passed if Student Legislative Council and the Association President are to properly manage our money. Humboldt State has grown beyond the size where the Association can manage itself through an elected Treasurer. We have placed a heavy responsibility upon our elected officials — isn't it about time they were given the proper tools to do an effective job?

The result of having the Treasurer's position be an elective one is an annual fluctuation and set-back in our progress toward the most efficient possible management of our Association Funds. In ratifying these amendments, we will allow our elected President and Representatives to choose a Director of Finance. The Director can be removed easily if necessary. Our Association officials have the responsibilities of their offices well in mind; therefore, I feel that they are the ones who can best choose a financial advisor to achieve a high level of continuous and experienced management of our money.

Isn't it about time that we students established a system to manage our own money matters rather than being

coddled by some of the staff in the Administration Building?

Craig D. Richards,
Treasurer
Associated Students.

Con Amendment

Dear Editor:

In action of April 17, SLC has exonerated itself from the student body of HSC by approval of a demagoguery Amendment to the ASB Constitution. I am speaking of the approval of a "Director of Finance" to replace the present position of Treasurer. This amendment will be brought before the students of HSC in the general elections.

Essentially the amendment changes the name of the position and outlines specific qualifications for the position. Some of these qualifications are: "upper division student," "Preferably a past member of the ASB financial arm," and "economic or budgetary experience." These qualifications could be developed into criteria for a person running for election for Treasurer. The only catch is that the position of "Director of Finance" must be an appointee of the President of the ASB.

The instigators of this conspiracy state that, "an appointee, meeting the qualifications, could be more knowledgeable about ASB finances than a person elected at large on his 'popularity' platform." I disagree. First, in the Spring 1968 election, two candidates ran on very similar platforms. One was a past member of the ASB financial board and the other had a competent background in budgetary and financial workings through working with State and ASB budgets. The difference in the vote was less than 20! This clearly indicates that the voters of the student body did select a candidate whom they thought had the best qualifications. Secondly, a new Prexy may pick a friend who helped on his campaign, not the most qualified person. Thirdly, I feel that elected officials are the basis of a democratic organization. Fourthly, it makes no matter whether a person is elected or appointed to the position on his length of time of adjustment, as the proponents state, so long as he has the necessary qualifications. Finally, no matter if the person is elected or appointed, he is still a student with academic obligations, etc. to consider, and the difference on which type of position will do the best job is of little concern. The question is, do you want to vote for whomever you feel is most qualified or have some one appointed.

I believe that I can speak with SOME expertise in the finance field of the ASB in the light that I've been both a member of the Board of Finance and ASB Treasurer.

So vote "NO" on the "Director of Finance" amendment!

Ken Fulham
SLC Rep-at-Large

Concur

I concur wholeheartedly with Mr. Fulham and add that: (1) The advocates of this amendment feel that if the position of "Director of Finance" were appointive then incompetence on his part could result in his removal by the ASB President.

Do you honestly believe that the ASB President would step forward and concede that he, the highest ranking officer in student government, had made an unwise decision on such an important appointment? I say no! Would the ASB President remove a close friend that he had appointed? Need I answer? (2) One of the qualifications for the proposed position of "Director of Finance" requires that the appointee be an upper division student. I will agree that the majority of qualified individuals for the position would be found at the upper division level. But why should this "blanket" requirement be made against students of the lower division level some of whom may actually be more qualified and more eager to work than the upper division student?

If you, the voters, feel that you will make an unwise selection for the position of ASB Treasurer then you should allow the all-knowing ASB President to make the decision for you. But if, on the other hand, you feel you and your peers are qualified to make the selection, vote no on the "Director of Finance" amendment.

"Smokie" Dean
SLC Rep-at-Large

Pres Names Two Deans

The appointments of two of the five deans who will head schools under an academic reorganization at Humboldt State College this fall have been announced by President Cornelius H. Siemens.

The reorganization will result in establishment of the above schools plus Schools of Business and Economics, Natural Resources, and Science. The new administrative structure will succeed the present nine divisions, with the exception of the Division of Health and Physical Education.

The two appointees are Milton Dobkin, HSC Professor of Speech currently on leave at the California State Colleges Chancellor's Office, and Dr. Houston T. Robison, Vice President for Academic Affairs, State University of New York College at Buffalo.

Dobkin will head the School of Creative Arts and Humanities. He came to HSC in 1953 and served as Chairman of the Division of Language Arts and Assistant Dean in the Office for Academic Affairs before taking the post at the Chancellor's Office.

Robison will be Dean of the School of Behavioral and Social Sciences. He holds bachelor's and master's degrees in science from the University of Oregon and a doctorate in history from the University of Chicago.

Squires : Reflections On The Maharishi

by Mike Stockstill

"The Maharishi Mahesh Yogi will be the greatest man of the twentieth century, he is the greatest man I've ever known."

So said Dr. E. L. Squires, an English professor here at HSC who has recently returned from a three month stay in India with the leader of the Transcendental Meditation movement. Squires, a soft-spoken man who wears a full beard flecked with white and gray hair, talked about meditation.

"Meditation is simply a process like eating or sleeping," Squires said. "It is aimed at a life of action." Squires described the actual process of meditation, explaining that the meditator simply sits quietly for 20 to 30 minutes twice a day and lets "the mind take you by means of natural thinking processes to more and more subtle levels of consciousness until you transcend to the real essence of thought." This is accomplished by use of a single word that the meditator meditates on, Squires said.

"Meditation is a more profound method of relaxing," Squires said.

Dr. Squires has been meditating since 1967 when he was introduced to it by a friend at Berkeley. He said that at first he was skeptical about the claims that meditation offered, such as better health and more energy. However, since he has been meditating Squires said that he "feels a lot better about everything." He stressed that meditation is a natural process and that it cannot be manipulated by the meditator. It is simply a method of freeing the mind, Squires stated.

Squires traveled to India last January with a group of 150 people from all over the world to study with

the Maharishi at the Academy of Meditation. According to Squires, the Academy is in the foothills of the Himalayan Mountains and on the banks of the sacred Ganges River in northern India.

While with the Maharishi, the 150 people spent many hours meditating and listening to lectures and teachings about meditation. Squires called the Maharishi a "great teacher." "Like all great teachers he uses parables and analogies to explain the more abstract aspects of meditation." He said the Maharishi was a man of infinite patience whose explanations of meditation were the philosophy of bringing together the inner and outer man into integration as one. Squires said that meditation as taught by the Maharishi enabled a person to get in touch with his being and to advance his own evolution.

Squires explained that the Maharishi himself was a monk of the Shankaracharya sect in India. The men of the sect are regarded as Holy Men in India, Squires said. He said the Maharishi studied for ten years with the head of this sect before emerging into the outside world in 1959. The Maharishi has translated ancient wisdom into modern terms with his explanations of Transcendental Meditation, Squires said.

SIMS, the Students International Meditation Society, gave Squires a \$2,000 scholarship to travel to India. SIMS is growing rapidly, Squires said, and there are some 160 people meditating at Humboldt State.

When asked how to describe the feeling that meditation gave him, Squires smiled and said, "it feels good, it's bliss." Squires said that meditation "works on everyone" and that it is "all encompassing."

The new cheerleaders will be Denise Denison (L), Jim Powers, Vicki Joyner, Larry Gerbaz, and Don Kopeland.

Cheerleader Tryouts End

Next year's cheerleaders were announced at the Spring Sing held Thursday night, while songleader tryouts have been postponed until tomorrow.

Twelve students tried out for five positions. Those who made it are: Denise Denison, Jim Powers, Vicki Joyner, Don Kopeland and Larry Gerbaz.

Tryouts were held Thursday afternoon in the new CAC. The candidates went through a routine of their own choosing, and then were given a "situation" (such as first down and goal to go on the six-yard line with three seconds left and the score's tied).

Others who tried out were Cindy Ochoa, Jay Roberts, Carol Porter, Sandy Luzzi, Randy McNeif, Louise Mouat and Sue Kuneheim.

Judges were Stan Mottaz, student activities advisor; Dr. Ed Simmons, associate dean, student activities; Don Crotty, head cheerleader; Linda McMillan, rally commissioner; Lucy Benson, cheerleader; Jody Littleton, head songqueen; Margaret Taylor, rally commission member; Marilyn Moore, songqueen; and Rich Winnie, ASB vice-president.

Reagan Political Tests Reality

THE FOLLOWING STATEMENT HAS BEEN PREPARED AND AUTHORIZED FOR RELEASE BY DR. PAUL DALE BUSH, PRESIDENT OF THE ASSOCIATION OF CALIFORNIA STATE COLLEGE PROFESSORS.

"The decision of the University of California Board of Regents to remove the authority of the Chancellors to grant tenure, and the power to confirm appointments of overage professors, are the first steps taken by the Regents to implement Governor Reagan's proposal that a professor's political philosophy should be a factor in the determination of his competence to serve on the UC Faculty.

"Regent Roth has noted that he has never heard the Regents discuss a faculty member's fitness in other than political terms. Therefore, his amendment to the Regents' motion is likely to have little practical effect in preventing Governor Reagan and other like-minded Regents from vetoing the tenure of professors on the faculty whose political philosophy displeases them.

"This action immediately places in jeopardy the positions of hundreds of UC professors who have served on the faculties for less than the time required to reach tenure. They have been put on notice by the Reagan administration that they must either conform to what they imagine the Regents' views of an acceptable political philosophy is or risk having their careers at the University terminated.

"The Regents' action will be viewed by academic people across the country as the most serious blow struck against academic freedom since the height of the McCarthy era. Few scientists and scholars will

voluntarily submit their professional integrity to the scrutiny of men like Governor Reagan and his supporters on the Board of Regents. The University of California will find it difficult either to maintain its present faculty or to recruit candidates for new positions."

The teams line up in front of the Language Arts building for the start of the annual bed race. The machines carried at least three passengers with the rest of the team providing the push.

Pregnant Debate

"Women should be barefoot, pregnant, and in the kitchen" will be the topic of the first parliamentary debate of this quarter.

In the CES Auditorium, at 8:00 p.m. tonight, Ted Kay and Bruce Johnston will be taking the pro side with Suzy Moore and Linda Sterling on the con.

22 VIE FOR EIGHT ST PRESIDENTIAL

Vice Presidential Candidates

Gary Montgomery

Gary Montgomery is a representative on Student Legislative Council and serves on the Board of Finance. He is a business major.

"It would seem that one of the principle ways in which a candidate campaigns for student body office is by criticizing the student officers now in office, and then promising that, if elected he will improve the sad situation. Perhaps this is the best method of obtaining votes, but after having served on Student Legislative Council and the Board of Finance this past year I find that I cannot justly criticize the present administration.

The present student body

executives have accomplished a great deal this year. The most important of these accomplishments has been the organizing of student government into an efficient, responsive structure. But even though a firm foundation has been laid this year for student government a good deal more remains to be done.

One of the major issues which will face HSC next year will be the increased participation of students in the overall governing of the college. I feel that increased participation of students here at Humboldt is desirable, but only if such participation is meaningful.

Another issue of tremendous import is the involvement of Humboldt State in CSCSPA (California State College Student Presidents Association). To date CSCSPA has been, for the most part, ineffectual. I feel that even though CSCSPA has yet to prove itself, Humboldt State should continue to participate fully. The task of aiding CSCSPA in becoming an effective lobbying agency for student needs on the state level again rests with the student body executives.

I believe that I have both the experience and the ability to effectively handle the responsibilities of the office of Associated Student Body Vice President and I would appreciate your votes in the coming election."

Carl Shaff

Vice Presidential candidate Carl Shaff outlined in an interview last week what he thinks are the issues in the election, and listed his six-point plan.

The issue in the vice-presidential race, Shaff said, is the role that the Vice President plays in the Student Legislative Council. Shaff said he thought the Vice President, as chairman of the council, should guide the council, but that he should assign the work to other members. He said the chairman should set up short-range projects and help form long-range policies.

The six-point plan outlined by Shaff is:

1. To continue the housing study started this year.
2. To continue the Parking Committee and get results.
3. To continue a study of a park for HSC.
4. To try and solve the communications problem between the SLC and students.
5. To work for the establishment of a College Hour, an hour during the day set aside for meetings and programs.
6. To study the use of facilities at HSC and determine if they are being used to their fullest potential.

Shaff said he would work with any president, as any Vice President should.

Rich Varenchik

"If elected I will put my whole salary into a fund for students who get busted." This was a statement by vice presidential candidate Richard Varenchik.

Varenchik claims to have studied "Transcendental Titillation: The Road to Inner Peace Through Mental Stimulation," with the Maharishi Hash-Hish Yogi in downtown Burbank.

"It changed my whole life. I learned to expand my mind and other things without the use of drugs or any external stimuli.

"In the greatest tradition of student government at HSC I will either do nothing or do something inane. The other candidates will do the same but they are not as honest about it as I am."

Varenchik was asked if would try to challenge the alleged impotency of HSC's student government. I'll support the policy of comrade Liebowitz on lollipop dispensers in the President's foyer."

When asked if his whole campaign was a farce, Varenchik said, "Only in as much as it reflects the farce that is student government at HSC."

Dave Bennett

Dave Bennett is a candidate for ASB President.

"It is the function of student government to serve as a liaison between the student body and the administration. A further responsibility is that of insuring that all student body funds are properly spent. It is also necessary for student government to attempt to finance the programs which the students seem to desire. Going one step further, it is mandatory that student government provide the student with a balanced program.

"More specifically, it is the job of the ASB President to administer desired programs in their most efficient and effective manner. He serves as an administrator for the Student Body. As the chief executive it is his job to serve as the outstanding link between students and the administration. He is responsible to the student body and must serve as their voice to the administration.

"At the present time Humboldt State College is a member of the California State College Student Presidents' Association. It is my feeling that it is to our advantage to remain in this organization. This organization is the recognized spokesman for the students to the Chancellor's Office and the Board of Trustees. It is important that we maintain this voice for all students.

"Earlier this year SLC approved the Community Involvement Concept. It is a worthwhile project and must be discussed in the light of the overall concept of a balanced student body program.

"Having served on SLC for the past year I am familiar with the discussions surrounding the many proposals brought forth. Given this, I will be able to objectively look at both sides of the upcoming questions.

"The office of president would, indeed, be a challenging one. It is, however, a challenge I willingly accept."

STUDENT BODY POSTS CONFIDENTIAL CANDIDATES

Each of the candidates were requested to write and have their pictures taken. These are the 11 that responded in time to make print.

Waine Benedict

Waine Benedict is a candidate for president.

"Although I profess myself as a serious candidate for the office of ASB President, I find the content of campaign statements leaving a little to be desired. Like, how are you going to know me through the parking issue or constitutional reform or the Board of Finance?"

"Meanwhile the race goes on, and perhaps a few words may not boggle the mind too badly."

"My major concern is getting a good education, i.e. broadening my experience and outlooks in order to make better decisions about my life style. Why do I concern myself with student government? Because student government makes decisions about our education, yours and mine, making it important to be concerned about these decisions. I would like to emphasize certain areas.

- A. Student/Faculty relationships
- B. Creative and Innovative student activities
- C. And a commitment to a personal education

Therefore, it boils down to a direction of issues not a position on issues. As a leader I will explore all important issues and recommend answers to the student body. I can promise no more."

Dan Liebowitz

"I am running for office primarily to annihilate this sado-masochistic governmental playpen structure we call student government."

"Last weekend, Bennie Dubie, Mary Jane and I were engaged in a little joint group therapy. Bemusedly I watched the visceral vibrations of Mary Jane's passionate glittering uvula when suddenly I had visions of id-ego gratification of enormous proportion and a tremendous yearning for the roots of power... student government seemed to be the obvious answer."

"If elected, Comrad Varenchik and I plan to institute sweeping reforms — the first of which will be to install lollipop dispensers at the President's foyer for all those who care to partake."

"As far as qualifications for the office are concerned, I can only say that unlike some of my opponents, I have given up smoking cigarettes."

Don Crotty

Don Crotty is a Business Administration major with two years' experience as an SLC member. He has served and chaired on committees within its structure.

"The objectives of any candidate for the office of ASB President should be oriented towards major deficiencies which exist in our current system. Too many times candidates have addressed themselves to questions which, granted need resolving, were not within the scope of a campaign for such a major office. I see my obligation as solving long-term (1 year) projects which due to their nature require the full-fledged effort of an executive officer."

Currently, the situation which I feel demands paramount attention is the ASB's accounting system. This slow, bulky arrangement is becoming more outdated and impractical as time goes along. The major deficiencies are that no outlined policy of checks and balances is present and that due to the processing procedures, accounts are overdrawn because posting is slow and balance sheets run well over a month behind. What this means is that monetary mismanagement is condoned due to the inequities of this required function. The \$20 a year contribution by students, a projected total of \$90,000 for next year which constitutes the lifeblood of our activities, can easily be misused. If elected, I pledge to correct this situation in particular.

"The ASB's involvement with such organizations as CSCSPA should also be studied as to their worth and potential. A total of \$1,400 has been preliminarily budgeted for travel in the executive budget. If a true benefit is derived, I think this total would be justified. But I don't think the ASB should have a chartered travel account for the pleasure of its officers. So many little things like this which are generated out of the President's office should be looked at very closely."

Business Officers

The HSC Business Club has elected new officers for the coming year. The new officers are David Smith, president; Christopher Cross, vice-president; Susan Pranglely, secretary; Annie Bonnard, treasurer; and Mardi Ring, historian.

Robert Alexander

"It is too far beneath the dignity of free men to be intimidated by groups of people trying to get their way by violent takeover of public buildings, especially armed takeover."

"As candidate for Student Body President at Humboldt State College I, Robert Alexander, believe in a policy on this vital issue BEFORE such situations develop."

"My beliefs are the following:

"1. All student groups and individuals should be given a forum to state their complaints and requests so their merits may be openly considered by students and faculty."

"2. School buildings should be kept open at the usual times for authorized faculty and students. The campus Security Police should see to this and if they need help the City Police should be called on for assistance, especially where firearms are involved."

"3. No student or faculty group should consider any complaints or requests under the duress of building takeover."

"4. Takeover of campus buildings by any student groups or individuals should result in their AUTOMATIC DISMISSAL from HSC for one year."

"5. Any students making use of FIREARMS for any purpose during such a takeover should not be considered for readmission for four years."

"If you agree with me on this matter, fellow students, give me, Robert Alexander, your vote for Student Body President in the May 6-7 election."

Brent Howatt

"By way of introduction, I am Brent Howatt, a junior Biology major from Eureka, running for representative-at-large. I have been at Humboldt State for three years and have been active in such campus activities as Frosh Camp, parking committee, and varsity athletics. I am a member of Delta Sigma Phi fraternity and served as chapter secretary this past year."

"I support the peer group concept for the residence halls and will encourage its extension to other areas of campus activity. I will do everything in my power to further student participation in the running of the college."

"It is my opinion that while SLC is fairly responsive to student opinion, the students are often in the dark concerning the activities of SLC. I will try to publicize the activities of

For Rep-at-Large

council to a greater degree so that all students will know exactly what their student government is doing."

"I believe a representative-at-large should be exactly that: a representative of all the students. I will seek the opinions of all students, not just a select few. I urge you all to vote for me, Brent Howatt, for Representative-at-Large."

Chuck Duffy

"The job of a representative-at-large requires a willingness to work and experience in student politics. I have fulfilled both of these requirements by possessing a strong desire to get things done and by having been Freshman Class Representative."

"The Student Legislative Council at every meeting is swamped with requests, studies, and reports from the many and various activities that occur daily on campus. They need hard workers like myself and I am confident that I can do the best job. I will always be open to suggestions and can be easily reached."

DELUXE Barber Shop

885 N St.

2 Barbers to
Serve You

Dean Palius

Dean Palius is a freshman political science major.

"As usual parking is still one of the major problems facing the H.S.C. student. A proposal to open up the 'Jolly Giant' parking lots, which right now are only open to dorm residents, is being looked into. I think this proposal will prove to be inadequate because there are only a limited number of spaces available on any given day. The state is also planning on a raise of \$3 per quarter for a parking permit without providing better service to the student. I also feel that the parking meters around campus should be removed and these spaces be opened up to cars with parking permits. There is a definite need for more parking areas to be opened up."

"The question of whether or not the HSC oceanography department is going to have a ship next year is still open. I feel that every effort should be made by this school and the Board of Trustees to acquire a vessel. A ship is vital if we are to have any oceanography program at HSC in the future."

"The peer group concept has been initiated here at HSC. I feel that this is a step in the right direction. The students must have a say in academic affairs since they are directly involved and must live with the outcome of administrative decisions. I think that other state colleges can take a lesson from HSC."

More Candidates

Bill Thurman

"I often have a recurring dream. I find myself craving for the chance to get my hands on real middle-class money. As the A.S.B. Treasurer, I not only could solve my anxiety but could evaluate the existing conditions around the corporation yard, game pens and C.A.C. as being extremely complex.

"I have never held the office of treasurer before, but Reagan was never a Governor before and look at the crack job he's doing. As for qualifications, I've had 3 years junior varsity basketball experience in high school and for quite some time have been the proud possessor of an LBJ piggybank, a B mojo tooth, a black cat bone, as well as John the Conqueror, and I am going to mess with you, lead me by the hand, and the whole world's gonna know I'm your Hoochie Coochie Man."

Rick Khamsi

Rick Khamsi is a candidate for representative-at-large.

"Our campus is filled with people who are concerned with the quality of their education. The student government should help them. This is why I would like to represent the

students of this college: to help give students the opportunity to achieve their goals.

"There are several ideas that could improve the college situation. For an example, general education. Rather than argue for its end or its continuation, perhaps we should concern ourselves with making the present program as meaningful as possible. One way of improving the quality of courses would be for a representative group of students to discuss these courses with the professors or department heads. In this way, the courses could be modified to the benefit of both the students and the professors.

"Another aspect of student life that needs improvement is student activities. The concert-lecture series can be made into a very important part of the student's education. It can be made to provide a forum of ideas that will increase the scope and reach of our education.

"All these things and more can be done to improve the life and education of students at Humboldt State. Having been a concerned and active participant in other activities (i.e., acting as coordinator of Eureka's McCarthy petition campaign), I think I am capable of helping concerned students improve their college. That is why I ask you to vote Rick Khamsi for Rep-at-large."

Ken Byrne

Ken Byrne is a candidate for Rep-at-Large.

"Our educational system is in a crisis that demands our greatest consideration and energy. This crisis is not insoluble, but the solution will require radical changes in the degree of student-faculty participation in the operation of the college. The failure of our educational system thus far to provide for the adequate student-faculty participation in the educational institutions is not entirely the fault of the institutions. Much of the failure must be attributed to the lack of vision on the part of the student government. The SLC at Humboldt State should have the necessary vision and guts to initiate the much-needed changes in our college community. Let's end the isolation that rubber stamp student governments promote. Let's get out

from under the political domination that presently afflicts our college. Power to the People."

Tim McKay

As a candidate for rep-at-large I feel that the ASB should represent the student's needs. The student is here for an education and thus the ASB should be concerned with improving the educational opportunities of the student. It seems to me that the ASB is presently concerned with a great deal of trivia that could be handled elsewhere.

I feel that the student wants an education relevant to the society in which he lives. I would suggest that the ASB work with the faculty in an effort to re-evaluate general education requirements and to recommend changes where needed.

Student government should not simply rubber stamp present activities each year but rather should constantly re-evaluate old ones and consider ways to make them more viable as well as studying proposals for new activities. More speakers are needed on campus to bring contemporary issues and problems to the student.

In conclusion the ASB should: (1) cast off any red tape that hinders it, (2) work with faculty to effect any changes necessary to improve the relevance of education to the student, (3) demand the best possible facilities for the student, and lastly should expand student activities to meet current needs.

I am a history major and have been active in community affairs in the Bay Area where I attended Diablo Valley College. Last year I was chairman of Students for McCarthy on campus as well as youth chairman for Humboldt County. I am presently a member of The Wilderness Society and the Sierra Club.

Old Third Floor Win Spring Sing

Old Third Floor received the first place trophy for the second year at the Spring Sing, last Thursday night. About twenty girls who lived on third floor of Sunset Hall last year sang about the party raids, their attempts to sneak in booze, and Mrs. Passy.

Phi Mu sorority, second place winners, sang of the life of Freddy Forester. Third place went to the Marching Lumberjacks.

The annual TKE Athletic Award was presented to Gary Tuttle, HSC track star, who received the award last year.

Green and Gold Key presentations were given to: Jill Farmer, Mike Graft, Jill McIntire, Mike McDermott, Dave Bennett, Jeff Eggert, Judy Ferguson, Chad Roberts, Linda Surbaugh, Richard Brazeau, Tom Green, and Mark Hilliard.

Dr. James Gast of the oceanography department served as auctioneer for the Slave Sale. Candy Fowler (L) and Jill Farmer are the subjects on "the Block."

Bell & Bull Awards

For the second year in a row, the HSC Bull of the Woods trophy went to Walter Sipher, a forestry major. Sipher won first place in the axe throw and was on the winning team in the double bucking and pulp throw. He also won second place in the single bucking event.

This year's Belle of the Woods was won by Gail Snarzczynski. She was on the winning team in women's double bucking. Last year's winner, Jill McIntire was second.

The awards were given on a total points basis. Thus a person did not have to score first in all events to win the over-all prize.

Winners in each category were: Chopping: 1. Daniel Meeker, 2. John Rollin, 3. Leo Evans.

Single bucking: 1. Brent Howatt, 2. Sipher, 3. Laurence Compton.

Men's double 1. Sipher, Walter Mobley, 2. Meeker, Bryon Craighead, 3. Russ Gripp, Gregory Patillo.

Men's axe throw: 1. Sipher, 2. Michael Morey, 3. Mobley.

Pulp throw: 1. Sipher, Rollin, Grip, Mobley; 2. Larry Gerbaz, Donald Copland, Compton and Daniel Jacobs; 3. John Powell and team.

Burling: 1. Craighead, 2. Patillo, 3. Wayne Stanfield.

Boom run: 1. Craighead, 2. Jacobs,

3. Mobley.

Bull of the Woods: 1. Sipher, 2. Tie - Patillo and Craighead, 3. Meeker. Paul Bunyon (boxing): Felix Hooven.

Mixed bucking: 1. Meeker, King; 2. Gripp, Rogers; 3. Sipher, Forsom.

'67 Casino Night Is 'Best Ever'

Casino Night, which has been a traditional Lumberjack Days' event since 1961 was described as "the biggest success ever" by chairman Randy McNiff following the joint casino night and logging town held last Friday night.

Set up in the Field House, the logging town surrounded the perimeter of the building and the casino was located approximately in the middle of the town.

Three crap tables and eight blackjack tables were set up and other tables were available for poker. Packets of bogus money were purchased at the entrance to be used at the tables.

Throughout the evening, between 5 p.m. to 1 a.m. drawings for prizes were held. Among the prizes given away were an instamatic camera, golf clubs, jewelry, and pizzas.

Judy Miller launches a rolling pin in the Belle of the Woods event held last week. Miss Miller is a representative on the Student Legislative Council

ATHLETE-OF-WEEK

BOB CLARKE

Bob Clarke gained Athlete of the Week honors for golf by shooting a 79 and dropping his opponent 3-0 against San Francisco State.

A local boy, Bob graduated from Eureka High and then went on to two years at College of the Redwoods.

The tall senior presently maintains a GPA of 3.1 in engineering and plans to go into some phase of civil engineering after graduation.

JOHN ALCALA

John Alcala received the nod for track's Athlete of the Week by hurling the discus 155-5 1/2 against Chico and Nevada — his best toss ever.

A history major minoring in art, Big John sports a GPA of 3.0.

John came to HSC via Delano High and the College of the Sequoias with a total of 6 years of letterman track behind him.

The 220 lb. senior plans to get his credential after graduation, then teach in Delano.

FRANK TOPOLEWSKI

Frank Topolewski was named baseball's Athlete of the Week for his strong all-around performance against Hayward.

The 5'10" Junior is a graduate of Petaluma High, where he lettered in basketball and baseball and was active in the student council.

He then went on to two years at Santa Rosa J.C. before coming to H.S.C.

Frank enjoys to golf and water ski in his spare time.

Bill Scobey Wins Mile 4:07.7-Breaks HSC Mark

Bill Scobey turned in a record-breaking mile run, but the Jacks track team lost the war, as they were defeated by both Sacramento State and host Cal Hayward, Saturday in FWC triangular competition.

Alternating as pacemakers for each other, Scobey and teammate Gary Tuttle both cracked HSC's mile record of 4:09.7 held by Vince Engel. Scobey was clocked in 4:07.7 and Tuttle in 4:08.9 as they burned off a stretch challenge by Cal State's Don Williams, who finished in 4:11.9.

In team standings, Sacramento edged Cal State at Hayward, 71-70, while the Lumberjacks totaled 51 points. The losses put the Jacks at 3-2 in FWC standings and 5-3 overall.

Despite the twin losses, Coach Jim Hunt wasn't disappointed in the team's performance. "I was extremely pleased with our boys," Hunt said. "The entire team put out a 100% effort and if we had been up to full strength, perhaps the outcome would have been different."

The Jacks were without star 880 runner Pete Haggard and the injured Paul Johnson, HSC long jump record-holder.

Even though severely hampered by injuries, weightmen Lee Barton and Dan Hook grabbed third in the javelin and fourth in the shot, respectively.

Vince Engel and John Alcala picked up the only other first places for the Jacks. Engel eked out a narrow win in the 880 with 1:54.4 while Alcala hurled the discus 154-2 1/2.

Ernest Provost of Cal State grabbed first in both the 100 and 220 making him the meet's only double winner.

A trio of Jack freshmen turned in their best efforts of the season as Mike Ukena took third in the 100 with :09.8, Joe Giovannetti took third in the 880 with 1:54.6, and Alan Battle was fourth in the 120 hurdles with a :15.4.

Soccer Club Beats Shasta

On April 20, the Humboldt State College Soccer Club traveled to Shasta Junior College in response to an invitation by the Redding Soccer Club. The game resulted in a 3-1 victory for HSC. Redding scored the first goal in the first half but slowed down in the second half giving HSC a chance to score three goals in the second half. Two goals were scored by inside left Bob Newcomb and the remaining goal was scored by Tony Lorenzo.

On Sunday, May 4, there will be a tournament beginning at ten o'clock in Redwood Bowl. The teams participating will be Shasta Junior College, Southern Oregon College, and Arcata Soccer Club.

It was only a matter of time, and Bill Scobey proved it by cracking the HSC mile record with a 4:07.7 clocking in the mile at Hayward Saturday. The slender ex-GI turned it on down the stretch to beat out teammate Gary Tuttle (4:08.9) and Hayward's Don Williams (4:11.9).

Tennis Drops To Sac

Humboldt's tennis team dropped a 7-2 decision to league-leading Sacramento State Saturday at the HSC courts.

Freshman Steve Flannes continued his unbeaten streak, to give HSC its only singles victory. He later teamed up with George Nagel to take a doubles match as well.

This weekend the Jacks travel to Sonoma to take on the Cossacks, then meet Southern Oregon and Oregon College Saturday.

The Lumberjacks are now 1-4 for the season.

Results are as follows:

- Singles**
Steve Turpen (S) def. Roy Stephens 6-1, 6-3
Tom Pucci (S) def. Steve Miller 6-4, 4-6, 6-3
Gary Prawdick (S) def. John Corbett 6-4, 8-6
Steve Flannes (H) def. Harold Haddock 6-2, 6-1
Bryn Cotton (S) def. George Nagel 6-1, 6-3
Dave Harris (S) def. Ron Lowe 6-4, 6-2

Jacks Spoil Sac's Climb Wins Third

by John Watt

After being banished to the second division in FWC play the Jacks became spoilers Saturday in Sac State's move for the crown. By winning the third game of the three-game series, 10-9, HSC put the damper on Sacramento's chances to catch front-running San Francisco State.

Humboldt lost Friday's opener 11-10, was trounced 15-1 in the first game Saturday, and came from five runs back to win the second game, 10-9.

The scoring in Friday's game started in the third inning when Sacramento turned in four runs off two singles, a sacrifice fly and a three-run homer. The Hornets' Steve Tobias provided the four-bagger that went out over the left-center barrier.

HSC picked up one in the fourth on Curt Wood's double and Fred Patton's sacrifice fly to right.

In the fifth, both teams found the score-board; the Hornets with two runs and the Jacks with five to tie the game.

Sac's runs were the product of a hit batsman and three successive singles.

Humboldt's five run fifth featured the double power of doubles by Frank Topolewski and Paul Jackson.

The Hornets turned right around and put five more on their side in the sixth. They came in on three singles, a hit batsman, three walks, and a wild pitch.

Humboldt picked the eighth inning for their next show of power when they scored four runs on five hits, one of which was a two-run belt to

right by relief pitcher Doug Gilley. Hornet starter Bill Wesnousky was relieved by Bacon who stilled the Jacks bats for the rest of the game.

Starter Greg Shanahan, who was hit hard most of the day, was pulled in the sixth and senior Doug Gilley came in to hold the Hornets scoreless for the last three innings.

In the seven-inning curtain raiser Saturday it was an all Hornet show as three Humboldt hurlers were ripped for 12 hits and 15 runs.

Humboldt's only score was in the sixth when Patton and Shuman singled back-to-back and Patton scored on Jackson's fly to right.

Freshman Craig Olson, the first game's starter, was brought into game in the ninth to preserve the win for Danny Alfson.

The Jacks were down by five runs, 6-1, at the end of four innings. In the fifth they got one and in the sixth picked up four more. Three of those came on Curt Wood's three run blast over the 350-foot mark in right center.

It was a tie game until Humboldt came up to bat again in the seventh inning on a pair of walks, a hit batter, and Alfson's perfect bunt down the third base line.

Three more runs were added eighth. The heavy hitting was a double to left by Mel Shuman and Alfson's rbi triple off the top of the center field fence.

Alfson went into the ninth with a 10-6 lead. He walked the first man up, got the next two in order, and then the fun started.

Back-to-back singles were followed by two straight walks and suddenly

the Hornets were two runs closer, 10-8. Olson then entered the game and promptly pumped a pitch into pinch-hitter Younglove's body to advance him to first base and make the score 10-9. He then retired the next man on a force out and the Jacks got off the thin ice.

Alfson had to thank two of his outfielders, Ken Papini and Mel Shuman, along with Olson for helping out with two great defensive plays. Papini's aid was a long running catch to deep center and Shuman's was a diving, one-handed catch in right.

HSC Tees Cal

The HSC golf team shot down Cal State Hayward 18-9 Friday at the Baywood Golf and Country Club, moving the Lumberjacks into a first place tie with Sacramento State for the FWC title.

The Jacks invade Sacramento this weekend to take on the Hornets.

Against Hayward, Greg Bean took medalist honors with a 74 to defeat Pat Azenne 3-0. Number one man, Larry Babica carded a 75 to put down Hayward's Mike Spellman (76) 2 1/2-1/2. HSC won the best ball 3-0.

Hayward's Steve Blackstone dropped Bob Clarke 2-1 as he fired a 76 to Clarke's 81. Hayward's Greg Hood then went on to top Randy Bresee 2 1/2-1/2 as Hood notched an 82 to Bresee's 83. Hayward took the best ball 2-1.

HSC's Gary Crooks shot an 84 to tie Greg Williams, 1 1/2-1 1/2, and teammate Jim Guy dropped Len Feld 2 1/2 - 1/2, to give HSC the best ball, 3-0.

Locals Found Guilty Of Disturbing Peace

by Eric Davis

Two HSC students were convicted of disturbing the peace last week and fined \$100 each for an incident on the campus last November.

The two, Thomas J. Maddock, 27, 40 E St., and Marten N. Rau, 24, 2257 1/2 Western Ave., were arrested by Arcata Police near the women's dorms in the Jolly Giant Commons at about midnight on Nov. 11, 1968.

According to testimony given at the jury trial of the pair by Ronald P. Valencia, a Prosecutor for the dorms, both Rau and Maddock were asked to leave by Resident Advisor Dave R. Onizuka. Valencia said he also asked them to leave.

Later, Valencia said he called the Campus Security because the two would not leave. According to his court testimony, Valencia said that both Rau and Maddock disappeared when the Security Police arrived, only to reappear when they had left.

This time, according to Valencia, Rau and Maddock were seen behind one of the women's dorms yelling at the residents. After the two again refused to leave, Valencia called the Campus Security. This time however, they could not be reached.

In the arrest report on the two students, Valencia said he talked the situation over with several of the Resident Advisors, and then decided to call for outside help. He defended his action saying, "there would have been no problem if they (Rau and Maddock) would have just left when the Campus Security arrived, but they persisted in making trouble."

Valencia said his phone never stopped ringing from girls calling asking that something be done about the disturbance. "We couldn't get ahold of the Security Police and when you've got a dorm full of scared girls you have to do something," Valencia said.

According to Police, when they arrived they found the pair hiding in the bushes behind one of the women's dorms. Police were asked to arrest them after Valencia was given permission to press charges by HSC Housing Director William Kingston.

Both Maddock and Rau testified in their own behalf at their trial and said that they felt that they had done nothing wrong and that they were

just having fun.

During the one-day trial, seven HSC students were called to testify by Assistant District Attorney William I. Quinlin, including four of the girls involved in the incident. Except for the defendants themselves, the defense called no witnesses.

The conviction was returned by the jury after 35 minutes of deliberation. The pair waived their right to time before sentencing, and Judge E. V. Sweet immediately fined them the \$100.

Neither Maddock or Rau lived in the dorms at the time of the incident.

Chad Roberts, Election Commissioner, is congratulated on his selection for the Green and Gold Key. The honor requires a 2.5 grade point average and participation in at least two fields of activity.

Fry Outlines Registration

Registrar John Fry explained and answered questions about computer registration at the April 24 SLC meeting. Fry said that surveys have been taken of a student sample to find their opinions about computerized registration. According to the registrar, a larger percentage was opposed to computerized registration than were for it, but he said that they really had nothing for comparison.

However, computerized registration will be a reality this fall.

Some changes have been made in the student request forms. Instead of two hours, three free hours may be requested every day and Saturday may be entirely blocked out. Also, Fry said, no classes will be scheduled

to start after 8:00 p.m. Another change is that 18 instead of 17 1/2 units may be requested.

During discussion, Fry brought up the point that entering freshmen and transfer students will probably not be admitted this fall if their applications were not received by February 6 and February 14, respectively, because "we are 120% over enrollment."

He outlined the probable schedule of registration. Entering freshmen will probably be required to pay their fees by June 15th in order to assure the college that they are coming, while other students will receive their registration material around August 20. Fees and requests must be returned by September 5 and schedules will be available September 25 and 26, the Thursday and Friday before classes.

Another new idea brought out by the registrar was that Freshmen are now guaranteed 12 units of general education the first quarter if they want it.

The Peace and Freedom Club, which has brought its constitution before the council on several occasions was declared inactive because they failed to turn in a revised constitution.

Chad Roberts was approved as the chairman of the College Program Board.

In other action the council approved lifetime ASB membership cards to Elizabeth B. Ward, who has been teaching at HSC since 1953 and is retiring and Mr. Paul Ely of Arcata, the 1969 Alumni Association's Who's Who winner.

Legislators

\$155,000 for a 20-week training course to teach the big city youths to become oceanographic aides. Stankus remarked that it was ironic that the government could afford a ship for untrained youth when HSC had a college level course that couldn't find a ship.

Stankus said that he doesn't know what direction the committee will take now. "We will wait and see what happens," Stankus said. If the 1970-71 budget contains an allocation for the ship, then the committee feels that its objective will have been accomplished. Stankus said that he feels that "student action has been an impetus to the administration." He said that the 2300 signatures obtained indicate that the student body is interested in the project.

Stankus said that he would like to see a letter-writing campaign directed at local representatives and the trustees urging that action be taken on the ship. Stankus concluded by saying that John Reed of the Times-Standard had interviewed the SOS Committee and that the article had not yet appeared in the paper. Stankus said that he was eager for the article to appear so that local people would become aware of the oceanography problems.

Climber Robbins Climb Program

America's foremost rock climber, Royal Robbins, will present a program on rock climbing in Yosemite May 3 in the new recital hall. Admission to the 7:30 p.m. program is one dollar. Tickets will be available in the CAC during the preceding week.

The program, which will include a movie and slides, is sponsored by the HSC Sierra Club, COR Alpine Club, and the HSC Boot and Blister Club.

Robbins is credited with many first ascents in Yosemite as well as in Europe. His record was climaxed recently with a ten day solo ascent of Yosemite's John Muir route on El Capitan.

Presidents

proposal because he felt that the Academic Senate member would not truly represent the faculty, because there are other bodies which represent them (i.e. AFT, ACSCP). He also feels that students shouldn't have voting rights in personnel decisions (hiring and firing), and in executive decisions, and therefore, shouldn't be on the Board of Trustees.

Hartman went on to say that he disagrees with Reagan, because he feels that if students are given responsibility they will react responsibly, in most cases.

When asked if he benefited from the conference, Hartman stated, "Actually, I think Reagan derived more benefit from the meeting by talking with responsible students. In the back of Reagan's mind he still thinks students are irresponsible."

Mini Record Set

Bobby Tracy's miniskirt was just a little bit mini-er than anyone else's, as she edged her closest competitor by barely one percent during the first HSC miniskirt contest Saturday, a part of Lumberjack Days.

Miss Tracy's attire covered 8 1/2 inches of the 22 inches between her waist and knees, for a scant 39.4 percent, a new record for California State Colleges.

Graduation Shorter, Prayers Cut Out

Humboldt State College commencement ceremonies, which have been termed by some as "tiring, boring and of little value to the students and faculty" will take on a new look as four items were deleted from the commencement schedule.

The invocation, main guest speaker, commissioning ceremony and the benediction have been removed from the commencement format following recommendations from the Senate Ad Hoc commencement committee.

At the April 18 commencement committee meeting, Dr. W. J. Stradley, chairman of the Ad Hoc Committee, explained the thinking of the faculty where the religious elements are concerned. The feeling is, since attendance of faculty is required, that separation of church and state as in any classroom situation should be maintained. It was agreed that in the absence of the invocation, the national anthem would be sung as an opening.

It was the view of the committee and President Siemens that it would be desirable not to have an outside guest speaker. In place of this, a suggestion was made to have a student speaker, faculty speaker, and the President each speaking for five minutes.

According to Mr. Michael Corcoran, chairman of the 1969 Commencement Committee, students will march across the stage to receive their diplomas in a continuous flow rather than one at a time.

According to Registrar John Fry

approximately 650 students graduated last year and the number will be slightly more this year. As a student approaches the president, his name will be called over the loudspeaker to give parents an opportunity for photographs as in past ceremonies.

Because of the large attendance, the east stands in Redwood Bowl will be used for seating accommodations rather than the usual covered west stand. Because of this, a morning ceremony is under consideration Corcoran said. The reasoning behind this would be the discomfort caused from sitting several hours in the afternoon sun. It was decided by committee members to leave the decision as to time of day up to the students.

A poll was conducted by Dean Charles Bush and according to Corcoran, there was no significant preference to the time of day. He said that he felt if most students knew the reasoning behind the morning ceremony (discomfort for elderly relatives, specifically) they would not mind the morning scheduling. The time, however, is still under consideration.

The probable schedule of events for the June 6 graduation includes a carillon prelude, the processional, national anthem, welcome, conferring of degrees, academic honors, awards and scholarships, charge to the graduates, alma mater and recessional.

Five To Fresno For Model UN

A team of students from Humboldt State College will travel to Fresno, California to participate in the 19th Session of the Model United Nations of the Far West. The session will be held at the Fresno Convention Center, hosted by Fresno State College, May 7th through the 10th.

Under the guidance of Miss JoAnn Fagot, the five students will represent the country of Colombia, South America. The model session is expected to include the representatives of more than one hundred colleges and universities in the western United States.

Accurately portraying the views of Colombia, the delegation will participate in the General Assembly and its committees, the Security Council, and the Economic and Social Council. The delegates from Humboldt State are: Marwan M. Hujiej, Joan E. Maxwell, Monica Trione, Ken Weller, and Pat Gregg. Expenses for the delegation have been provided by the student body.
