

# HUMBOLDT LUMBERJACK

VOLUME V

ARCATA, CALIFORNIA, OCTOBER 27, 1932

NUMBER 4

## HERBERT HOOVER WINS STRAW VOTE

### HUMBOLDT STUDENTS CHOOSE INCUMBENT WITH ROOSE- VELT CLOSE SECOND

Receiving 162 votes out of a possible 299, Herbert Hoover, Republican color bearer, won the straw vote conducted by the Humboldt Lumberjack here last Monday.

The result was not unexpected as this county is decidedly Republican.

Franklin D. Roosevelt, governor of New York, was a close second with a 115 votes, Norman Thomas polled 18 votes and Garner Foster and Cox 1.

#### Gould Wins Guess

In the guessing contest sponsored by the Humboldt Lumberjack, Don Gould had the highest score. An accuracy of 88.5 per cent. Dr. Homer B. Balabanis had second best of 86.96 per cent.

H

## Pupils Will Give Stevenson Program

The fourth grade of the College Elementary School, assisted by Miss Alice Renfro, college student, will present a program on Robert Louis Stevenson Thursday afternoon under the supervision of Miss Belle Dickson of the faculty.

The class has been studying the life of Robert Louis Stevenson and the program will consist of groups of his nature, slumber and travel poems presented by members of the class. An original dramatization will also be given by the children.

The parents have been invited to attend the program.

H

## Two Humboldt Girls See Football Game

Miss Jean Taylor and Miss Katherine Crivelle, H. S. T. C. students, attended the football game between the University of Southern California and Stanford last week end.

Miss Taylor visited with her two sisters in San Jose, who came up from the south, and Miss Crivelle visited with an aunt and uncle in Belmont and attended the dog races Saturday evening. A dinner and theatre party was given the two girls in San Francisco Sunday evening.

The girls each carried large Trojan horses on the return trip and from the comments overheard and the number of stares, the girls gathered that they were taken for saleswomen.

H

## College Y. M. C. A. Hears 'Doc' Morrow

C. E. "Doc" Morrow, secretary of the Humboldt County Y. M. C. A., was the speaker at a meeting of the college Y. M. C. A. Tuesday noon in the Green Gate room. Mr. Morrow told of the origin of the Y. M. C. A. and traced its progress up to the present time, mentioning the many accomplishments of the organization.

Rudolph Renfer was program chairman for the meeting. President Orman Oak presided.

H

#### GIFT FOR LIBRARY

"World Unity," a monthly magazine interpreting the spirit of the new age, has again been presented to the college library for a year by Alan C. Harris, who lives in Lucerne, Switzerland.

H

#### Students Married

Virginia McMillan, June '32, and Frank Endert, a former Humboldt State student, were married October 10 at Roseburg, Oregon. Mrs. Endert will continue her studies here for the present semester.

### So This Is the Reason He Failed to Show Up

So this is why that at the last assembly there was no announcement of the plans of the Community Recreation Class.

A college man was to make the announcement. As he was on his way to the auditorium, another man came along and decided to give him a "lift." He did so, using speaker-to-be's trousers as a handle. The lift was successful; in fact, as the English would say, it was ripping.

As a result of the tussle, the speaker-to-be was not merely breathless; he was nearly pantsless. And pantsless men are notoriously shy.

## COLLEGE PLAY DAY PROVES SUCCESSFUL

Despite the elements, which decided on rainy weather for Saturday, October 15, the members of the W. A. A. turned out full force to welcome the fair athletes of Humboldt and Del Norte counties to the most successful Play Day ever held at Arcata. A complete indoor program had been planned by the efficient W. A. A. members and registration took place promptly at 9:45, as had been scheduled. From then on the program clicked with clock-like precision until the social dancing broke up at 5 o'clock.

The principal feature of the day was the luncheon given in the Commons from 12 until 1 o'clock. Tables were most attractive, being decorated in the colors of the different schools represented, and carrying out the tennis motif in every detail. Individual favors consisted of tennis visors, made in the school colors, and tied with ribbons. Peppy groups of girls were scattered about and songs, yells, and talks kept the hour lively throughout.

Following the luncheon, the girls adjourned to the auditorium where the program by H. S. T. C. co-eds was put on. The program was excellent and was well received. The school and individual posture parades then followed in the gymnasium and honors went to Arcata High School for the group prize, and to Helen Huzic of Eureka High for the individual. The social dancing was then held with the W. A. A. orchestra furnishing the music, and the girls disbanded at about 5 o'clock.

H

## Humboldt Picture In "Sylvan Archer"

A recent number of "Ye Sylvan Archer," which, as its name would indicate, is a magazine devoted to archery, contains a short article on archery at Humboldt and a picture of one of last spring's archery classes, sent in by C. W. Frost, archer and tackle maker, now taking work at Humboldt.

Those in the picture are Elaine Rasmussen, Halcyon Wilson, Dorothy Dexter, Oliva Torgersen, Elma Davis, Nina Miller, Dorothy Johnson, Carl Green, Lawrence Windbigler, Paul Douglass, Lester Dedini, Harold Johnston, Harmon Minor, Herbert Stuart, Frank Look, Gillis Courtwright, Harold Moulton and Fred Telonicher, class instructor.

H

#### ROTARY BOARD MEETS

The Rotary Club board of directors of which President Arthur S. Gist and Dr. Homer Balabanis are members, met in the Green Gate room last Tuesday. A dinner was served to the board.

H

Ruth Nellis, H. S. T. C. '32, is working in Eureka at Daly Brothers.

## RECREATION OUTLINE PLANNED BY CLASS

### "DEE" HENDERS TO DIRECT INTRAMURAL ACTIVITIES FOR STUDENTS

Intramural athletics at Humboldt State Teachers College are to be conducted in the future by the members of the class in Community Recreation of which Fred Telonicher is the instructor.

The class will be organized as a city recreation department. The governing board will be composed of Louis Fleckenstein, chairman; Ugo Giuntini, Earl Tatman, Vada Hall, and Alice Renfro. Dolores Henders is to be supervisor and in all probability, the members of the class will comprise her council. Each member of the council is to be an expert in one particular branch of sport and to arrange for a tournament in that sport, looking after such details as arranging schedules, officials, etc.

The new system will place new emphasis upon intramural athletics at Humboldt, and will give members of the class actual experience which should prove beneficial in teaching work later on. The following directors have

(Continued on page 4)

## FRANK MENDES NOW AN OFFICIAL

Frank Mendes, junior student at Humboldt State Teachers College, has been granted membership in the National Board of Approved Officials, as a basketball official, the recognition being based upon his work as an official in this section as a member of the North Coast Officials Association. Mendes has officiated widely in high school and independent league games here. He is the first person north of San Francisco to secure membership in the national organization.

In addition to recommendation from local officials, Mendes was required to pass an examination sent out from headquarters, in which technical questions were raised by situations arising on the basketball court.

H

## Faculty Man Named Kiwanis President

Maurice Hicklin of the English department and Robert Poultny of the science department were recently elected president and vice-president respectively of the Arcata Kiwanis Club to serve during 1933.

The Kiwanis Club is the third Arcata service organization to choose its head from college faculty men. Homer Balabanis of the social science department is now president of the Arcata Rotary Club and Fred Telonicher of the physical education department is a past president of the Arcata Twenty-Three Club.

H

## Dorothy Havemann Hostess at Party

Miss Dorothy Havemann gave a linen shower at her home recently, for Miss Vera Armstrong, '32, who was married last week to Vincent McClure of Blue Lake. The guest list included the following: Misses Wanda Wright, Clara Taubman, Isabella Moseley, Erna Wahl, Roberta Winter, Vera Armstrong, Ophelia Robertson, and Mesdames Everett Havemann, Bernard Anderson, Eugene Berry, Herman Armstrong, A. W. Havemann, and E. G. Bretherton.

### And This Is the Reason That Faculty Members—

If the director of the Commons says it is time to use a Number Three Iron, not a spoon,

If the professor of biological science, seeking specimens, says to bring him a "birdie,"

If the librarian frowns on seeing a torn initial page and wants to know who made that hole in one,

If a professor of English asks what's par instead of what's the lesson,

If faculty women shoppers write checks for "four" instead of for three ninety-eight,

Then,  
It's Golf!

## LESSONS ON BIRDS FOR RURAL SCHOOLS

Robert Poultny, professor of biology and physical science at Humboldt, and members of the vertebrate zoology class are at work on a series of nature lessons, in the form of pamphlets on birds, for children of the rural schools.

The pamphlets, which were originally planned by Mr. Poultny, are based on the study of birds and will each contain a drawing of one bird and an original story to acquaint the children with the bird; in addition there will be an information chart for the teacher, a test, references and questions for discussion.

Clarence Milotte will make the drawings of the birds for the pamphlets. Mr. Poultny is using as the basis of information results of his research at the museum of vertebrate zoology at the University of California. Students assisting in preparing the pamphlets are Valeria Del Ponte, Vada Hall, Ruth Carson, Elma Biasca, Harlan Still. The pamphlets will number 30 or 40 in all and will be ready for distribution in about ten days.

Last year for the first time, Humboldt County had an organized course in elementary science in rural schools, introduced by Mrs. Bertha Murray, county superintendent of schools, and Mr. Poultny. This consisted of twenty pamphlets on birds, work on which, including the drawings, was done by Mr. Poultny himself. The bird pamphlets this year, which are a professional contribution from the zoology department at Humboldt, are a continuation of the work of last year.

It is hoped to issue pamphlets which will form a four-year course in science for the county rural schools. Future classes at Humboldt will work on pamphlets to acquaint children with trees, flowers, ferns, mammals, with additional lessons on amphibians and reptiles.

The success of the course last year, according to Mr. Poultny, was due largely to the co-operation of Mrs. Murray and to that of the supervisors, Mrs. Floy Railsback and Miss Laura E. Cuddeback.

H

#### Play for Faculty

Miss Lucy Neely McLane, instructor in dramatics at Humboldt, plans to direct a play with a cast of faculty members this year, probably some time in January. Just now she is reviewing several plays which she has received from the East and will select a play for the faculty from these.

H

#### Twin Sons Born

Mr. and Mrs. Jack Smith, Eureka, are the parents of twin sons, John and James, born October 13 at the St. Joseph Hospital. Mrs. Smith was formerly Miss Dorothy Ohman, who graduated from H. S. T. C. in 1929.

## FALL PLAY TO BE GIVEN NEXT MONTH

### "THE COMMAND PERFORMANCE" TO BE PRESENTED IN EUREKA, ARCATA

The presentation of "The Command Performance" directed by Miss Lucy Neely McLane, will be one of the events on the school calendar for November. Two performances of the production will be given: one in Eureka and one in Arcata.

The advanced class in Dramatic Art is working under Miss McLane's supervision with the stage effects. They are painting tapestries, making artistic panels, and arranging drapes.

Those who have seen the rehearsals say that the play is going to be good, even better than "The Royal Family."

The cast of characters for "The Command Performance" is as follows:

"Queen Elinor of Moldavia," Madeline Kammerzell.

"Queen Elizabeth of Wallachia," Margaret Rogers.

"Princess Katherine of Wallachia," Jessie Hinch.

"Lydia Petrovic," Harriet Finne.

"Prince Alexis of Moldavia" and "Peter Kraditsch," Louis Tallman.

"Count Vellenburg (Chancellor of Moldavia)," Leo Schussman.

"King Nicholas of Wallachia," Harlan Still.

"Hilred Sabidoff," Fred Goodwin.

"Paul Masoch," Dale Merriam.

"Blondel," Lloyd Wasmuth.

"Olaf Milosovic," Claude Kistner.

"Sergeant," William Ott.

H

## Field Trip Made To College Cove

College Cove was visited by Miss Violet Stone's Elementary Science class last Sunday morning under the direction of Leland Lawson, for the purpose of studying the animal and plant life found on the seashore tide land.

Among the animals studied were the limpets, periwinkles, coral sponge, sea anemone and flying ants. Plants studied were the sea palm, kelp and sea weed.

According to members of the class, one of the most interesting features of the trip was watching the flying ants work. They were moving small sticks and pieces of wood obviously for use in building their nests. When any other insects attempted to interrupt their work, the ants killed them.

H

## Holland Will Be Theme of Program

"A Half Hour in Holland" will be presented by the third grade of the College Elementary School this afternoon in their classroom. This program is being given in connection with a study of Holland that the class has been making under the direction of Miss Evelyn Fielding, student teacher.

Jimmy Smith is general chairman of the program which will include Dutch poems, songs and dances. The children made a Dutch movie and each pupil will tell about the picture he made. The boys in the class have constructed a Dutch windmill to be used in the program. Dutch invitations were made by the pupils and sent to the mothers.

H

#### HURT AT RALLY

All football casualties do not occur on the football field. A freshman girl of Humboldt State Teachers College, while "serpentine" last Wednesday evening at the annual football rally, fell over a burning log that dropped from the bonfire and severely skinned her back and shoulders.

## Chi Sigma Epsilon Rousers

There was a notice on the bulletin board last week to the effect that there would be a "Rousers" meeting. Many Freshies and other new students began to wonder what these "Rousers" might be, so for their information and the re-enlightenment of those forgetful old students who may have forgotten about the organization, here is what the Rousers are.

This organization was formed last spring by Chi Sigma Epsilon, our honorary society for upperclassmen, to recognize scholarship among lowerclassmen. Eight members of the Freshman class were elected to the "Rousers" on the basis of scholarship and character, and these eight members now make up the club. They are members for one year only, for at the end of their Sophomore year, they become upperclassmen, perhaps eligible for membership in Chi Sigma Epsilon. As well as forming the organization, Chi Sigma Epsilon awarded a silver medal to the one Freshman excelling in scholarship, character, and extra-curricular work, last year's medal being presented to Mary Jean Russell. Other Freshmen elected to the "Rousers" were Marian Cutler, Dorothy Dexter, Peggy Robinson, Mary Nielsen, Alma Ruth Sweet, Lester Larsen, and Alton McLaughlin. Officers of the club are, President, Mary Jean Russell, Vice-president, Lester Larsen, and Secretary-Treasurer, Dorothy Dexter.

The members of the "Rousers" are trying to make the club a real, live organization, although this is the first year time is needed to get started. They are working on an original design for a membership pin, the same design to be used in future years. They are also thinking about plans to encourage scholarship among Freshmen and High School students.

Freshies! Remember this—that you all have chances of becoming honored at the end of the year by being elected to this society. Membership in the "Rousers" is something to be proud of, so let's see how many we can have in the organization next year!

## Ye Editor Speaks

It is the consensus of opinion that Friday was a very eventful day as far as Humboldt College activities and organizations are concerned. Friday marked the appearance of two of the new organizations on the campus.

We think Carl Owen deserves a lot of credit for his work with the Humboldt College Band. He has accomplished what several students in previous years have tried, and the quality of his work is evident from the fine showing the Band made in the Assembly Friday and at the game in the afternoon.

It certainly was a treat to listen to a group of young men in a Glee club once again. Mr. E. V. Jeffers has shown the value of setting a goal. He aimed at a membership of forty. Some people said he couldn't get it, but that he did is shown by last Friday's appearance.

Keep up the good work in Band and Glee Club.

## An Avoidable Catastrophe

When is a Bonfire Rally not a Bonfire Rally? "When there's no bonfire when the crowd arrives." This year's bonfire experience is one from which the A. M. S. can profit much. The Lumberjack would like to ask the following questions: Why was the construction of the bonfire put off until Wednesday? Why was the actual construction left to kind-hearted upperclass fellows who were not even on the Bonfire Committee? Why was the pyre left unguarded from 5:30 to 6:30 Wednesday evening?

Next year let's have a Bonfire Committee which will remember to build the fire, and guard it efficiently.

## We'er Behind You, Fellows!

Don't give up, Fellows! You've had two hard fought games this season, and you've come out on the short end of both of them. There is one more game, and we'd like you to win it. But remember—win or lose, Humboldt is behind her team. The manner in which you lose is the important thing. You fight hard to the finish, and if you are behind you shake the other fellow's hand. More power to you, team, and good luck in the Santa Rosa game.

H

## A Job Well Done

Congratulations Board of Athletic Control! The way the S. O. N. S.-H. S. T. C. game was conducted is worthy of the praise of every Humbolter. The pre-sale of tickets was timed just right, and the details were attended to with care. We are proud of the organization, and hope it will continue to act as efficiently throughout the year.

### History Instructor's Son-in-Law Editor

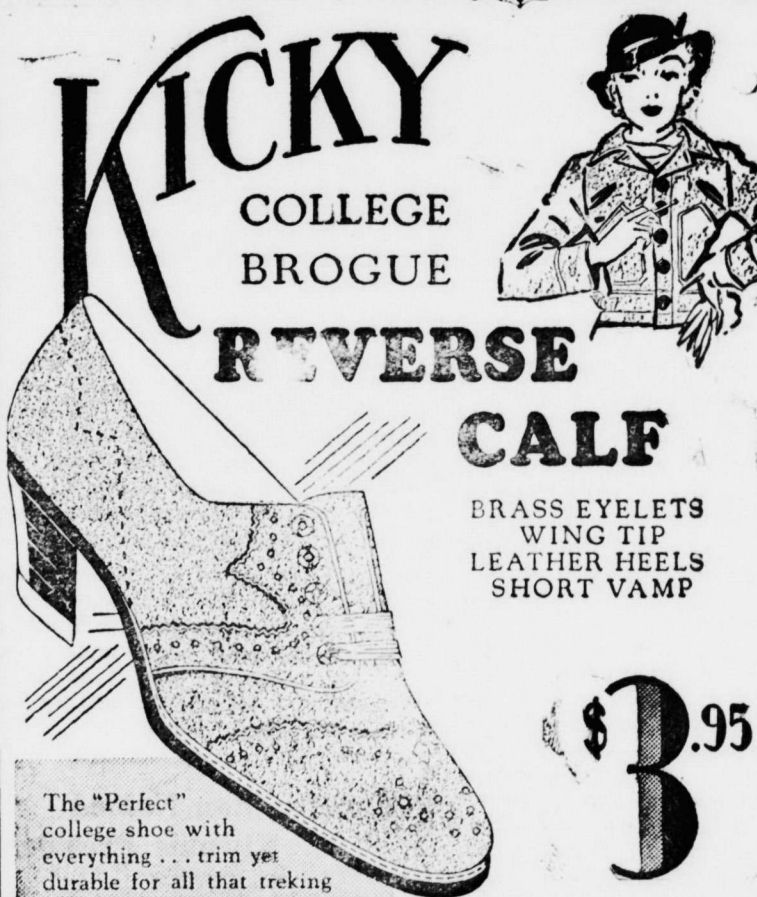

"A Survey of the Parties — 1932," a folder giving the history, analyses of platforms, and the parties' stand on various relations, reforms and the candidates' record, which was posted recently on the college bulletin board, was a special supplement of "World Tomorrow," a weekly magazine whose aim is to make Christian ideals practicable in the economic and business world.

Devere Allen, son-in-law of Frederic M. Hollister, history instructor at Humboldt State, made the survey and published it. He also is co-editor of "World Tomorrow" which is in the college library.

H

Misses Harriet and Alyce Finne, Humboldt State Teachers College students, drove to Ukiah last Friday with their aunt, Mrs. Clarence McCord, where they visited with their parents. The group returned to Arcata Sunday evening.

# HUMBOLDT SPORTING NEWS

## HUMBOLDT DEFEATED BY ASHLAND TEAM

Proving that their tie with the California Aggies and their win over the College of the Pacific were not flukes the Southern Oregon Normal School eleven took the college by a score of 25 to 0 here last Friday.

Playing a stubborn defensive game the first half Humboldt held the northerners scoreless only to succumb to a passing and running attack in the second half. McLain, Indian halfback was too much for Humboldt, while he was in the game and Lancaster proved even worse when he went in after Ashland's first touchdown.

Ashland's first two scores came as the result of bad breaks for Humboldt. The first was a result of Fleishman's fumble of McLain's punt, which Ashland recovered on the four-yard line and the second came when Bradford picked up a punt that should have been down and ran it over the line.

Ashland displayed a powerful passing attack and despite the efforts of the Humboldt Backfield there was always someone in the clear to receive a pass. Fleishman looked good on defense against passes.

Last year it was Ashland's punting which beat Humboldt. This year, with Lancaster only playing the last part of the game and only punting twice, this was the only part of the game in which Humboldt excelled. The entire Humboldt team played well, but it was just like the case of the Trojans and Stanford, Ashland was too strong.

## Elementary Pupils Study Postoffice

A study of the postoffice is being carried on in the second grade of the College Elementary School by Miss Elinor Cloney student teacher, under the supervision of Miss Ruth E. Bestor, of the elementary school faculty. The class studied the history of the postoffice and during the

## Roe Can't Box For Five More Weeks

Mark Roe, Humboldt State Teachers student is anxiously waiting for the next two weeks to pass, when the splint on the index finger of left hand will be removed. He expects to be able to start his fight training in about five weeks.

Roe broke the second metacarpal of his left hand during his bout at the American Legion Arena in Eureka about two weeks ago. Roe says that during the third round of his fight with Indian Ike, he swung at his opponent's jaw, missed and hit his head. The force of the blow was concentrated on the knuckle of the index finger breaking the second metacarpal, or that bone in the hand connecting with the index finger.

## College May Have Guards at Bonfire

Having learned that it does not take a rival school to light off a bonfire, students of the Humboldt State Teachers College will probably make sure that guards are stationed around the annual bonfire next year, to prevent the pile's being lighted prematurely as it was this year.

The bonfire rally last week drew out a large crowd and much spirit was shown. Talks were made by Coach Fred Telenicher, Captain Simpson, former captains Rollo Guthridge and Leo Sullivan, Football Manager Gillis Courtwright and the following members of the team: Dolt, Cavanaugh, Tatman, Boice, Minor, Inskip and Buxton.

Harlan Still lead some yells after which everyone attended a short dance in the college gymnasium.

activity period the children built a postoffice out of their construction blocks. They plan to send each other Halloween cards through their little postoffice. Miss Bestor took the class to visit the Arcata postoffice Wednesday.

## Olympic Clippings Given to Library

"Key to the Olympics," a collection of news clippings and pictures of the 1932 Olympic Games at Los Angeles, made by the sixth grade of the College Elementary School under the supervision of Miss Violet Stone, was recently presented to C. Edward Graves, college librarian, by Jean Schussman, who was chosen by the class for the presentation.

The book, which is now in the college library, contains a score card showing the points won by each country and best pictures taken from the Los Angeles Times.

Students of the sixth grade are: Helen Arnold, Brita Aronson, Evelyn Gubbins, Dorothy Harp, Hazel Martin, Eleanor Mathews, Beth Nixon, Beverly Roberts, Nellie Rylander, Jean Schussman, Ruth Sequist, Betty Von Alvensleben, Edward Mort, Jack Martin, Fred Smith.

## Golf Tournament In Second Round

Parings for the second round of the Humboldt State Teachers College golf tournament to be played at Bella Vista this week, are as follows: Harold Brogan vs. Don Gould; Buster DeMotte vs. Louis Tallman; Channing Hadley vs. Harmon Minor, and Wayne Overholser vs. Carl Green.

Over the week end, Harmon Minor defeated Frank Mendes, 9 and 8, and Harold Brogan won from Gordon Hadley, 5 and 4.

The winner of the tournament will have his name engraved on the Sam Beer Trophy recently presented to the college.

## Picture of College In 1932 Blue Book

A photograph of Humboldt State Teachers College is included in the 1932 California Blue Book, and official publication of the State of California, recently received for the college library.

This year the text has been enlarged and the book has become encyclopedic in character. California's wealth in education, in industry, in buildings and in recreational sports are displayed in some three hundred illustrations.

## Creamery Visited By Science Class

The Golden State Milk Products Company was visited by the Elementary Science class recently under the direction of Louis Fleckenstein, a member of the class. The trip was one of a series which are being taken this semester to determine the possibilities of such field trips for children in the elementary grades.

The students saw the various processes in the making of butter from the time it is pasteurized until it is put into the cartons. It is cut and wrapped by machine and is weighed and packed by girls. Each carton of butter must weigh exactly a pound or it is rejected.

The class also learned how powdered milk is manufactured. The skim milk is stored in tanks until it is to be used. It is then put into a large dryer and all of the milk is forced through a hole the size of a pin head. A pressure of 3000 pounds is required to force it through.

The powdered milk is packed in spruce barrels, each barrel containing 200 pounds of powder. Only nine pounds of powder can be obtained from 100 pounds of skim milk. The other 91 pounds is moisture.

Most of the powdered milk is shipped east of the Mississippi river. It is used by bakeries and ice cream factories.

The advantages of powdered milk are that it is easy to ship and that it keeps indefinitely, sometimes two or three years. Admiral Byrd used this product on his expedition to the South Pole. One adds water to the powder, sweetens it, and it is ready for use.

## RECREATION OUTLINE PLANNED BY CLASS

(Continued from Page One)

been appointed:

1. Volleyball, Fielding and Giuntini.
2. Tennis, Hall and Brogan.
3. Horseshoes, Fleckenstein.

## ELECTION DANCE TO HAVE STRAW VOTE

Walker Bailey Post No. 205, American Legion, and the Scotia Volunteer Fire Department invite the college students to attend their party on Saturday, November 5, the Election Dance at Loleta Pavilion.

In connection with this event,

## YE GOOD OLD DAYS WERE NOT SO GOOD

By MARK ROE

The fossil leaves which were found recently in Trinity County by Harry MacGinitie or the college faculty and placed on exhibition in the hall display cases at Humboldt College are said to date from the Upper Eocene period. If subtropical vegetation grew in Trinity County, as these leaves indicate, there must have been many interesting things at the same time in this period.

As many of the writer's theories of Eocene times may be a bit fallacious, it would be advisable for the reader, before accepting any of the following statements as facts, to refer to some good text on geology, which, of course, can be obtained at any up-to-date news stand.

One of the first things of interest to a layman on picking up a text on geology and delving into the secrets of the Eocene period is the fact that this period is a division of the Cenozoic Era, or the era of modern life. That is interesting and easy to understand. One immediately thinks of classroom lectures, speed cops, tenor, modern art, lip-stick erroneously advertised as kiss-proof, and other horrors of modern life.

Further study, however, proves that life must have been modern even back when grandmother was a girl, because the Upper Eocene period, in which life was also modern, was a long, long time ago. It was even before Humboldt College was promised the tennis courts just obtained, and that wasn't recently. Geologists claim that the upper Eocene epoch dates back about 25 million years ago.

As history books hadn't yet been invented, all records were preserved in the form of fossil remains. As this particular chapter of the Trinity leaves laid down in the Eocene period reads, times haven't always been as they have since the Depression.

Twenty-five million years ago, dinosaurs and other mammoth herbivorous animals which ravenously devoured the spaghetti patches and made life miserable in general for truck farmers and flower gardeners, had disappeared.

If the evolutionists are right, these dinosaurs and many of their relatives had sprouted wings and flown away. And that doesn't

a county-wide straw election ballot based on the political campaign is now being held. Attached to each ballot is a coupon entitling the holder to a twenty-five cent refund—the full price of the ballot—on a fifty-cent ticket to the Election dance. In other words, the ballot is free to all who attend the dance. In addition, those attending may win one of six prizes aggregating \$100. Votes will be counted on the night of the Election Dance, November 5, when the results, together with the names of the prize winners, will be announced.

Ballots may be obtained from the editor of the Lumberjack.

seem so impossible. Fact is, any fond mother who thinks that her co-ed daughter is an angel could be made to believe that.

Not only had the extinction of such pests taken place, but the fierce carnivores, which later prowled on the face of the earth and made pedestrians take to the trees and become monkeys, had not yet evolved. Also, other products of evolution such as saxophones, Zoology field-trip reports, and customs officers were as yet unknown.

From all indications, life must have been grand here then, and Northern California was an ideal place in which to live. Maybe even Humboldt County was warm. Ghandi could have lived here without greatly altering his attire.

Yet, in spite of the innumerable conditions that should have insured a one hundred per cent Utopia here, there is one bit of evidence that clearly shows that men must have been terribly unhappy even then. There must have been moans, groans, political speeches, and great battles: the absence of fossilized bottle-caps shows that Prohibition must have been rigidly enforced.

## Dance for Ashland Sponsored by Men

The Associated Men's Students sponsored the informal dance held at the gymnasium last Friday evening in compliment to the Ashland football team.

Ellis McMillan was the general chairman of the affair and working with him were Paul Ely, chairman of the decorations and invitations committee; William Morehouse and Frank Mendes who had charge of the tickets.

About three hundred students and their friends were present at the dance. Music was furnished by Wayne Simpson's Collegians.

## Three New Books On Rental Shelf

There are three new books on the rental shelf in the college library.

Honore Morrow's "Beyond the Blue Sierra" is a dramatic and exciting episode of American history, based on the struggles and hardships of men, women and children in an attempt to open an overland route from Mexico to California. Hugh Walpole's "The Fortress" is a dramatic social history of the Herris family. Mr. Walpole introduces in "Rogue Herris" followed by "Judith Paris." "Smith," by Warwick Deeping, is a character study of a shy young man who liked his work and enjoyed living an uneventful married life. The main character's philosophy of life is a hopeful and happy one.

## Last Year's Graduate Weds

Miss Vera Armstrong became the bride of Vincent McClure at a beautiful ceremony performed at 2 o'clock at Christ Church in Eureka with Rev. C. T. Leachman officiating. Miss Dorothy Havemann attended the bride and Richard McClure was best man.

The bride is the daughter of Mr. and Mrs. H. W. Armstrong and is a graduate of the Arcata Union High School and the Humboldt State Teachers College of this year, where she took a prominent part in all scholastic affairs.
