

Humboldt Lumberjack

Volume 1

Wednesday, September 28 1933

Number 5

Feed, Rally, Parade For Friday Night; Dance After Game

The Rally Committee Functions. A bean feed, a rally, a band, and a parade through Arcata and Eureka and then out to the Horse Show. All this it to happen Friday night as a pre-game celebration before the Humboldt, S. O. N. S. game.

The bean feed and rally will take place in the commons Friday night about 6 o'clock. The parade starts and goes through Arcata and Eureka and out to the fair grounds. The Humboldt State eleven is scheduled to put on an exhibition of plays, passes and punting at the Fair Friday night, so you can get a pre-game view of the team.

On Saturday there is the football game and at 10 o'clock there will be a dance at the Eureka Inn for the teams, both H. S. C. and S. O. N. S. All students are invited. Music will be furnished by Pedro Elmore's boys. The dance will last till 1 o'clock.

W.A.A. Members At Swimming Party

Judging from the remarks of the W. A. A. members "a good time was had by all" who attended the swimming party held at Freshwater, Thursday night. Upon arriving at the pool, the girls had a swim. The food consisted of hot coffee, weiners and buns, doughnuts, apples, and popcorn balls; mystery stories were related around the fire by Betty Fay, Nathalie Brenner, Miss Ann Craig, and Mrs. Monica Hadley.

Among those who attended this first W. A. A. outing were Vesta Moxon, president, Vesta Marke, Jean Brown, Nathalie Brenner, Ida Ivancich, Myrtle Boehne, Helen Howard, Virginia Belloni, Mary Flochini, Bessie Boehne, Betty Fay, Marian Swap, Betty Baldwin, Marjorie Cropley, Ada Regli, Dorothy Chambers, Audrey Hays, Marian Kemp, Joy Stockton, June McCombs, Roberta Hood, Rosie Ivancich, and the advisors, Miss Ann Craig and Mrs. Monica Hadley.

HUMBOLDT GRAD WEDS ARCATA BUSINESS MAN

Evelyn Schuster, Humboldt State graduate, was married Tuesday evening of this week to J. Worthen of Arcata, in the Church of the Nazarene in Eureka.

Mrs. Worthen taught at Bridgeville for several years after her graduation from Humboldt. Later she attended Pasadena College. Mr. and Mrs. Worthen will live in the Schorlig apartments in Arcata, where Mr. Worthen is a partner in the "Don and Jim Pioneer Market."

Frosh Gals Dunked In Pond by Sophs

Four freshman women felt the sting of the sophs' power and also the bottom of the fishpond last Thursday noon.

Barbara Bird, Helen Jones, Valerie Vann and Betty Fay were the victims. Betty, the statuesque brunette, was made to mount the pedestal and all enjoyed the beauty until some prankish soph turned the spray on and Betty came down faster than the high diver in a traveling carnival.

Men Students and Faculty to Dine

The Associated Men students of H. S. C. and the men faculty members will hold their stag dinner at the Bella Vista, Sunday evening October 2.

Over forty students have signed and the men's association hopes that all faculty members that can possibly attend will do so. They are to be the guest of the association.

The party is given in the spirit of a get-together. It is hoped that the students and instructors will become more acquainted with each other outside of the class room.

Francis Givins, president of the men's association, and John McGrath are in charge of the affair.

W. A. A. Host To New Members

The W. A. A. will play host to its new members on Wednesday from 6 to 7:30 o'clock in the new gymnasium. Arrangements are under the direction of Vesta Marke, general chairman, who announced that tickets for the affair will be on sale, Monday and Tuesday. No one will be admitted without a ticket.

There will also be a dinner followed by a program and dancing. Assisting Vesta Marke with arrangements are the following committees:

Program: chairman, Eva Mathison; Nathalie Brenner, and Shirley Davis.

Food: Chairman, Virginia Belloni; Bessie Boehne, Mary Flochini, Joy Stockton, and June McCombs.

Publicity: Chairman, Irene Paddock; Gladys Hinman, and Myrtle Boehne.

Decoration: Chairman, Ardys Goff, and Blanche Lowry.

Clean-up: Chairman, Frances Nye.

STUDENT IS TACTFUL

When Jim Hall saw Miss Adella Johnson of the French department at registration last week he greeted her as follows: "How is the best teacher of the worst subject in school?"

Humboldt to Open Season Saturday Against S. O. N. S.

The opening game. Practically a new team, and a new coach: How will the Thunderbolts go? You will get the answer Saturday night at 8 o'clock in Albee Stadium when H. S. C. meets the S. O. N. S. of Oregon.

A new system and a new coach face the returning squadmen this year but under the very capable coaching of Herb Hart and Walf Oglesby, the squad has mastered the new system and is raring to go.

Humboldt will have one of its lightest teams in history. The line will average around 180 lbs. and the backfield with the heaviest combination will average about 178.

State will boast of three brilliant, fast-charging ends in Art McGath, Bill Farber, and Franny Givins.

The tackles, guards, and center positions are question marks and only the game will show whether we are weak or not in these departments.

The backfield has an exceptional array of talent. Although averaging over 175 lbs. to the man, the backfield has speed to burn with Snooky Edsall, Earl Meneweather, Don Mahan, Len Longholm, Art Keithley, Mike O'Donnell, Bill Lee, and Nick Barbieri. All of these boys will carry the ball and if they can get in the open they will be used as blockers. Much depends on Ellis, who solely a blocking back and will lead the plays for the ball carrier.

Although Coach Hart has not named his starting lineup, it is expected these boys will start: Franny Givins, Bill Farber, ends: Harold Langdon, Bus Foster, tackles: Herb Gomes, Mose Musante, guards: Bob Madsen, center: the backfield: Snooky Edsall, Nick Barbieri, Keith Henderson, and Jack Ellis. Although this line-up is not official, without a doubt, barring injuries, these players will see plenty of action.

The Humboldt Lumberjack is back of the team to its fullest extent and hopes that the student body will turn out in large numbers to watch the opening game and all other games. Good Luck, Thunderbolts!

DIXIE LEE STARKEY NOW IN PORTO RICO

Dixie Lee Starkey, Humboldt State graduate, will be supervisor of model teaching and demonstration work in schools of San Juan, Porto Rico, this year, according to word recently received here by her parents, Mr. and Mrs. C. L. Starkey. Miss Starkey teaches English in the island school. Heretofore English had been taught only from the fifth grade up; commencing with this term, however English will be taught in the lower grades also. Miss Starkey visited here this summer.

Jim Harris, former Humboldt State athlete, is now in Ukiah with the Standard Oil Company.

DE LUXE SHOP

"On the Plaza"
Haircutting our specialty
Chris and Ray

Earl Meneweather, ace halfback for H. S. C. for the last three years, probably will not see action in the Thunderbolt's opening game this Saturday night in Albee Stadium.

Earl suffered a recurrence of an old knee injury in scrimmage last week. As a result, Coach Hart will save him for the San Jose game.

Coupled with the loss of Verne Thorton, of whom much was expected this year, Humboldt will be somewhat weakened for the opening game.

Annual Frosh-Soph Brawl Thursday Noon

The annual Frosh-Soph brawl will be held Thursday from 12 to 2 p. m. on the college athletic field.

All frosh and sophs are requested to participate in the annual event. The brawl will be under the supervision of John McGrath.

The listed events are: tug-o-war, greased pole, sack race, obstacle race and the Humboldt Hodge Podge. This last event is a new one and was conceived by John McGrath.

There is always keen rivalry between the lower classes and it has usually culminated in the brawl. For the past two years the frosh have won the day, the present senior class being the last sophs to win the brawl. The present senior class also won the brawl when they were frosh, so they have an undefeated record for the frosh to shoot at in the next two years.

There will be no public address system available for the opening game against Southern Oregon Normal, as M. A. Parry, who has the public address equipment, is forced by previous agreement to announce the horse show at the same time as the game. Parry said, however, that his equipment will be on hand for all other Humboldt games.

Freshman Reception Attended by Large Number of Students

"One of the best ever." That is the summary of the Freshman Reception dance held last Friday night in the college gym. Dancing to the seductive strains of Pedro Elmore's boys was one of the largest crowds ever to attend the Frosh receptions. Vocal entertainment was supplied by Edith Jennings, Dolores Scholl and Earl Meneweather.

The gym was decorated in same theme as the dance, "Small Fry." Life size silhouettes portraying dance steps decorated the walls and multi-colored ribbons were hung from the ceiling.

Thelma Baker was the general chairman and John McGrath was in charge of decorations.

Coach, Players to Be Heard on Radio

As a feature of the first college radio program of this year, Rod Belcher, sports commentator on the program, will interview Coach Herb Hart, end Francis Givins, and half-back Earl Meneweather at 7 o'clock this evening over radio station KJEM. They will give their different viewpoints on the coming football season, particularly dealing with the situation here at Humboldt State.

Another feature of the program will be a talk by Art McGrath, president of the sophomores on the behavior of freshmen and the traditions regarding freshmen at Humboldt.

Keith Emenegger, publicity manager of H. S. C. is in charge of the program again this year.

TROTH IS ANNOUNCED BY HUMBOLDT CO-ED

Miss Mary Handshy, Humboldt State student, announced her engagement at a luncheon at the Eureka Inn Saturday of last week to Jack Durnford, young business man of Eureka.

Miss Handshy's home is in Watsonville, where she attended high school, later graduating from San Jose High School. She is a sophomore at Humboldt State.

Guests at the luncheon were Misses Betty McWhorter, Jayn Harville, Mary Scholl, Dolores Scholl, Ernesta Ghera, Jean Ross Lorene Grove, Mrs. F. F. Flaherty, Mrs. Geneva Durnford.

EMENEGGER GETS BUCK

K. Emenegger, business manager of the Lumberjack, bagged the largest buck he ever killed, last weekend on Kneeland Prairie. The buck had four points on each side and weighed 150 lbs. dressed.

SUPPORT THE COMMONS

Where shall we eat? Of course in the college commons. Why the commons? Well, its the College commons and we should back it to our utmost. In the past business at the commons has been none too good, but this year under the capable managing of Mrs. Walter and her staff the commons has been run efficiently and profitably. Let's keep it that way. It is our commons and we should back it. The food is good and economical and the more trade the better it will become. So students, let's back our College Commons 100 per cent all year round.

New Regulations Made for Dormitory

The first regular meeting of the Dormitory association was held Wednesday evening in the Dorm Social Unit. It was decided to have the election of officers next meeting. The new, head resident, Miss Imogene Platt then explained the regulations for the coming year. With the enforcement of these rules the veteran inhabitants of Sunset hall will have more trouble readjusting themselves than the lucky freshmen who merely have to adjust themselves.

All girls, with the exception of Seniors who have special privileges, must wend their ways homeward at 10:30 on school nights and not later than 12 on week-end evenings.

No parking of cars outside after dates is to be allowed. Radios must be turned so that the girls in the opposite end of the building may have a little rest and quiet.

The eighth grade of the College Elementary school is for the first time studying the principles of News writing.

Campus Commentator

Higher learning once more beckons and 343 hale and hearty Humboldters answered the call. Although the bookworms and brownies seem to be far outnumbered by the jitterbugs and hep-cats, the portals of Humboldt are open to all...and as Prexy Nick Barbieri says: "For God's Sake, we want you to stay."

Football, of course, draws its due share of new faces to fill the vacancies created by the departure of many of Charlie Erb's "Siege Guns." We don't know how good Lee Flink will be on the gridiron but according to shower room gossip he shakes out a wicked "Lambeth Walk."

Cousin Mose Mussante's formula for building up that Charles Atlas physique is swimming. He takes his morning dip in the creek in his neck that he gets from sleeping in Brother John's and Ott's bawth-tub.

Herbie Gomes, one of the G-boys of Room 23, plans to make a full-back out of "Peanuts Lee as soon as he unpacks his bar bells.

Have you met the successor to Tom Meckfessel and Dummy Wells? It is "Who's afraid of the Big Bad Wolf" Oglesby.

Among those who turned up missing this semester are Bud Villa and Helen Hartsook who leave a vacancy in the Big Apple lineup—Jackie Walsh and Ernesta Ghera leave their places on the South Bench to any enterprising newcomers—Lil Richie Blackburn and Rita Sandlin are among the missing—Lois Ohman's luscious black curls no longer grace our campus and we've also missed Audreys Kjer's platinum tresses a-fluffing down the hallways.

The backbone of our gentlemen of swing faded away when San Jose State enticed Dan Oliver away from us—Sorely missed in the department of music will be Warren Elmore, Norm Grunert and Carl Owen—Jean Cooper and Meredythe Young have gone away

to be nurses and the new Freshmen girls will never have the opportunity of being called "gorgeous" by Frank "Casanova" Dearing.

This week's "umph"—La La La Grove's fingernails...Bruce Wylie's corduroy pajamas suit...Betty Fay's hair-do...Franny Moore's "chickens"....

Pedro and his Clam Baked five were fine, weren't they? Altho' if the decoration committee had been familiar with their rendition of "The Shiek of Araby," the patrons row would have been located at yonder end of the ball room.

Theme songs:
 John McGrath (at the ball) Save the last dance for me, sweetheart.
 Mary Handshy (and cousin Jack) Now it can be told.
 June McCombs—Old man Mose.

Keith Henderson is playing Cupid to all the lonely hearts this semester. Mister Keith had a date bureau for all those who like to go to dances but just haven't been discovered. Several attractive couples were seen at the dance, Friday thanks to the "Henderson Academy" for the prevention of wall-flowers-itis.

Famous Last Words:
 An enterprising student in G and D—I once heard of a child who had two heads. Bob Madsen—His mother must have slept in a double

Mexico Is Scenic Wonderful, Says MacGinitie After Summers Trip

Mexico is a scenic wonderland with a delightful summer climate, and an automobile tour can be made there as comfortably and inexpensively as in the United States, provided one stays on the main highways, according to Dr. Harry D. MacGinitie of the Humboldt College science department. Dr. MacGinitie was in Mexico this summer on a plant collecting trip.

Though Mexico is often pictured as a bandit-infested country, Dr. MacGinitie had only pleasant experiences with the people. Even in jungle settlements inhabited by Indians his party was hospitably received.

Although Mexico is a pleasant land for tourist to visit now, Dr. MacGinitie is not optimistic for the immediate future because of the political and economic problems arising from the program of President Cardenas. Dr. MacGinitie talked to foreigners and to Mexicans of all classes, and everywhere he sensed a feeling of unrest.

Cardenas has taken over the large holdings not only of foreign landowners but of Mexicans as well. Dr. MacGinitie talked to a Mexican woman who had owned a fifty-thousand acre estate which had been in her family for five generations. The government had recently deprived her of half of her land, and she feared the remainder would be confiscated soon. President Cardenas has decreed that no one is to own more than 381 acres in Mexico; land confiscated is turned over to the people in small tracts.

The present difficulties in Mexico, Dr. MacGinitie believes, are arising because the people are not yet ready for their opportunities and the accompanying responsibilities. Some sixty per cent are in bed.

Dale Bennion (when the blonde got on the commuter's bus at Bucksport)—"Oh, she's got her clothes on today."

Dr. Tolle was talking about reserve books in Philosophy of Ed. Says he, "There's no Horne in the library. I may order one." Beryl Unsoeld—"That's not necessary. You can hear the bill from the hall."

dians, uneducated, and satisfied with their primitive way of living. Consequently, large enterprises which involve co-operative effort are at a standstill.

To prepare the people for their responsibilities, Perident Cardenas is building schools everywhere, but Mexicans to whom Dr. MacGinitie talked wondered from where the money to pay for these schools was coming. The state has expropriated the foreign oil fields but is getting little revenue from oil; the United States has stopped buying Mexican silver; money supposed to be used for estates confiscated from Mexicans has gone to pay government officials, it was said.

Cardenas has also established state colleges to train teachers, who, incidentally, are men. These teachers are enthusiastic and idealistic, Dr. MacGinitie said, but they are meeting with opposition from the Indians who fear they may try to overthrow the religion. Some teachers were driven away by the Indians, and the state decreed they could arm themselves. Now one may see the country school teacher in Mexico carrying a gun.

The property-owning class, both foreign and Mexican, is opposed to the economic plans of President Cardenas. Labor, which is highly organized, favors him at present, but Dr. MacGinitie wondered how long this support would continue with wages dropping. Dr. MacGinitie talked to bricklayers and to other workers in the building trades who now get the equivalent of fifty cents a day in United States money. When foreigners controlled the oil industry, the highest paid workmen received the equivalent of about \$7 or \$8 in American money; now they are receiving about one-tenth as much.

Dr. MacGinitie made the trip with a Princeton faculty member and three Princeton students. On their way home they barely missed the disastrous flood at Monterey, Mexico. Had they arrived there one day later, they might have been delayed for a long time.

Grid Snapshots

Fond memories of last football season. (Let's hope we have some repeats this year.) Bill Farber's uncanny fumble recovering ability. Pooky Saunderson's shortcoming of not being physically able to hit anybody above the knees. Phil Littlejohn's bang up game whenever he played. Meneweather's staggering runback of St. Mary's punt to a touchdown. Windy Moore's consistent gains of 5 to 10 yards. Big Nick's cool touchdown pass to Bill Farber with 10 seconds to play in the St. Mary's game. Jack Ellis' surprise showing in the San Jose game. Bob Madsen's determination and fight throughout the season, and of course, Franny Moore's accurate conversions. Negative suggestions...Bud Evan's livan's hankerchief act--Bob Evan's turf-grabbing scene in the Southern Oregon game. Of course some of these can't be repeated because of the loss of some of the fellows, but I'll bet that there will be just as good a crop of memories for next season.

Keith Henderson finally came out for the team on Friday, and it didn't take him long to get started. Whenever he packed the ball during scrimmage, he made substantial gains. Keith is a fast starter and once through the line, he drives hard and is a tough man to bring down.

Len Longholm is another back who has looked good in scrimmage. He is a fast man and picks his holes nicely. Len does not pass or kick very well, but his running makes him a real threat. He looks like a good blocker and defensive man also.

Just speculating--what a fast quartet of backs Humboldt could put on the field if ever the occasions arose! Don Maham, who does 10 flat in the hundred; Henry Trione, 10.1; Art Keithley, 10.2; and Len Longholm, who does 10.5--and then Meneweather, Snooky Edsall, and Dick Baldry are certainly no slouches. Shake any of these men loose and the secondary defenses will have their hands full!

Marshall Kousseau shapes up as one of the hardest charging line blockers on the squad. Although handicapped, he doesn't have to take any guff from anyone on Humboldt's team, and I'm betting he won't take any from anyone else.

One of the good things about Hart's coaching is that he can teach the fundamentals. He drills regularly on the fundamentals of blocking, tackling, defensive play, etc., which are, after all the basis of football. With this method of coaching in effect, Humboldt no longer needs ready made football players to carry the team through. Hart is the type of coach that builds for the next year as well as for the ensuing season. In this way, inexperienced players have the chance to learn the game and show what they can do, and reserve strength is built up.

Our vote for the most conscientious, fighting, "die-for-dear-old Humboldt" player on the team goes to Bob Madsen, the real unsung hero of the line. Last year nobody came close to Bob in the department of standing up under terrific beatings. While the other fellows may ease up a bit, Bob is always in there fighting. The worn out phrase, "The old college try" was invented by sports writers watching players of his type.

We don't know much about Southern Oregon's team this year, but we do know that their team has been in the building stage, and that they will field a better ball team than last year. We hear reports that some of the boys who

Dick Baldry, Versatile Athlete Now Enrolled Humboldt College

by Red Belcher

Among the new faces here at college this year is that of Dick Baldry. He is studying to become a physical education teacher, and he has a very enviable athletic record.

His accomplishments are so outstanding that I hardly know where to start, but right here I'll explain why I had a by-line put on this story. I want everyone to know that I wrote the story and that I alone am responsible for it. Dick Baldry is a swell fellow and I'd hate to let anyone get the mistaken idea that he is a big talker or is conceited. Very definitely he is neither.....I had a plenty tough time to worm the following facts out of him.

First of all he was recognized as the second-ranking all-around athlete of the United States in 1933. He is co-holder with Barney Berlinger of the world's pole vault record at 13 feet, 5 inches. The decathlon at that time was all run in one day and the pole vault is the eighth event of the day. He was National decathlon pole vault and Javelin champ in 1933-34 with a best mark of 207 feet in the javelin. Dick won 3 first and one second setting one record in the 1929 Southern A. A. U. championships. He was captain of the Rice Institute track team and later ran for the San Francisco Olympic club. He is very good in the broad jump also, having best mark of over 24 feet.

Besides his work in track, Dick is also a tournament tennis player, a good golfer, and has been a member of championship basketball and soccer teams. He is an excellent swimmer and baseball pitcher, too. He is regarded as an expert fencer and worked for 6 months in the picture "Robin Hood" as a broadswordman. He has worked in various other movies as a stunt man. Dick is a very good archer, having been trained by the world champion, Howard Hill, and hunts game only with bow and arrow.

About the only sport Dick hasn't played is football, but now he is out for Humboldt's team.

Dick decided to attend Humboldt when he visited a relative who is on the staff of a Eureka paper. He said he had thought of attending other colleges, but when he heard about Humboldt State from various people and then investigated himself, he decided he need go no further in his search for a good college.

Mike O'Donnell, well known Eureka baseball player, is enrolled at H. S. C. and is trying out for football. Mike is no stranger at the game as he played fullback for two years at a Junior College in Mississippi. Mike will also add strength to the baseball nine. He is taking a teacher's course.

Bill Sherf has been appointed football manager for this season. Bill is a freshman and resides at the Dorm. He will receive a manager's letter.

RETURNS TO HUMBOLDT

Jean Lawyer, former Humboldt State student, has returned to work for her elementary and junior high school teaching credentials. For the past two years she attended the University of California where she obtained her A. B. degree. She majoring in French at the university.

were slated to go to Oregon U. are on Southern Oregon's team this year, so don't stay away from the game on the assumption that it will be another pushover. Come out and support the team in its first game and show Coach Hart and the team that the H. S. C. student body is behind them 100 per cent.

Instructor Has Had Wide Experience

G. Dana Kinsman, the new associate professor of music, will replace Edmund Jeffers who has taken a year's leave of absence. Kinsman is a graduate of Wesleyan University, Illinois. He was music instructor of city schools of Towanda and Anchor, Illinois; director of the choir in Community Center; and has had five seasons of professional music work, such as radio broadcasting in Bloomington and Peoria, Illinois, Memphis, Tenn., Minneapolis, Minn.

Kinsman has already set tentative plans to present "Elijah" by Mendelssohn, about Christmas. He also plans to organize a band for the school activities. Kinsman also plans to present the Humboldt State A Cappella Choir at the International Exposition in San Francisco this coming May.

TEACHERS IN REDWOOD CITY

James Hemphill, graduate student who attended Humboldt last year, is now teaching in the McKinley Junior High School at Redwood city. Hemphill was a former Students Body President at HSC. Last spring he assisted Coach Telonicher by coaching the baseball team.

Ray Pedrotti, last year's business manager of the annual, has been appointed editor of the annual for this coming year. His appointment, by the executive council, was made on experience and willingness.

FARBER

BRILLIANT END

How many students at H. S. C. connect the affable manager of the college co-op with the brilliant, hard charging Bill Farber, Humboldt's greatest end?

For the past three years Bill has started and starred in the majority of H. S. C. games. We can remember one incident three years ago at San Jose when Bill went into the game a hip injury and recovered a fumble and raced 50 yards for Humboldt's only score. Because Bill plays left end few passes are thrown to him yet he is the surest receiver on the squad. On defence Humboldt county has never seen his equal. Always alert and ready for everything, Bill, if you watch him, may not make many tackles but he spills the interference so as to give the secondary a clear shot at the ball carrier.

Not only a great fighter but a great spirit maker. Not only a scholar and a gentleman, but an athlete.

Marian McPherson, Humboldt State commercial graduate, is now with the Firestone Company in Eureka.

Student "Indices" Determine Loads

Certain students this fall were not permitted to take as many units as they hoped. The normal load is fifteen or sixteen units, plus a half unit of physical education.

Variations are permitted according to the student's "index." Those who have an index of 1.75 and above can take eighteen and a half units; those with indices from 1.25 to 1.74 can take seventeen and a half units; those with 1.24 and below are limited to sixteen and a half units and in some cases are advised to take considerably less.

One's index is derived by dividing his honor points by his registered units.

Elementary Faculty Has Longer Summer

Humboldt College faculty members connected with the College Elementary School Staff and their corps of student teachers "got a break" this year.

Heretofore the College Elementary School has opened from one to several weeks before H.S.C. itself; this resulted in a shorter vacation for the elementary school staff.

MRS. WALTER HEADS PROJECT FOR W.P.A.

Mrs. Ellen J. Walter of the Humboldt State home economics department spent eight weeks this summer doing special home economics work as supervisor of a W. P. A. household demonstration project in Eureka.

The course was designed to give women thorough domestic training. Those completing the course were given certificates and placed in household positions. A large Eureka home was used in the actual training work.

This Sleep-Walker Has Near Fatality

Scene 1—Psychology Class, Spring 1938.

He was reporting his theories on sleep-walking, giving as a basis for his theories his actual experiences as a somnambulist.

"I believe that in a way I have complete control of my mental faculties while walking in my sleep; I do not believe that I would ever do anything in my sleep that I would not do if actually confronted with the situations that occur in my dreams. Furthermore, I do not believe that I will ever do anything in my sleep that might do me physical harm; in other words, I don't think I would ever shoot myself or jump out of a window to my death or anything similar."

Scene 2—Summer 1938.

The truck he was riding on came around the curve very fast, only to come to face with a bigger truck that it could not possibly avoid. There was only one thing that could save him—jump! The truck was close to the edge of the road where a sheer cliff fell off for fifty feet. Yes, he had to take a chance on going over the cliff—he jumped, landed on his back with a thud, got up, staggered away only to fall down from weakness. His mother came running toward him—that was funny, how could she be way out in the hills when he thought she was home? He looked around again—say, this looked familiar—why, could it be—? Yes, it was! The cliff was his house, and the screen on his bedroom window 20 feet above was broken!

BLOCK "H" DISCUSSES PLANS FOR YEAR

According to Art McGrath, president of the Men's Block H Society, the Varsity H Men hope to sponsor a college dance the latter part of the semester. During the football and basketball season the society will tabulate the playing time of each man playing in college competition. These records will be used in determining who shall receive awards.

The group also plans to elect a new vice-president replacing Jim Cady who has left college. Other officers of the organization are Secretary, Bob Madsen and Treasurer, Fred Hibler.

Word has recently been received in Arcata that Mr. and Mrs. Herbert Yocom are the parents of a son born September 17. Yocom is a regional correspondent for the Associated Press, stationed in Washington. A graduate of Arcata High School, he attended Humboldt State for two years and then went to Columbia University, New York City, where he was graduated from the School of Journalism.

Details of Honor Points Outlined

New students have been asking how the Recorder's office determines honor points. Three honor points are given for each unit of "A"; two for each unit of "B"; one for each unit of "C"; none for "D" grades; one point per unit is deducted for each unit of "F."

If a student carrying five three hour courses should, by some queer fate, receive a different grade in each course he would come out with an index of "one." That is, for the three units of "A" he would get nine points; for the three units of "B" six honor points; for the three units of "C" three honor points, or a total of eighteen points. For the three units of "D" he would receive no honor points. For the three units of "F" three honor points would be deducted. This would leave the total of fifteen honor points, and this number divided by his total of fifteen registered units would give his index of "one."

FACULTY WIVES CLUB HOLDS FIRST MEETING

The Faculty Wives club of Humboldt State College held its first meeting of the new school year Tuesday of last week at the home of Mrs. Arthur S. Gist, with Mrs. Maurice Hicklin as co-hostess.

Members of the club, which is composed of the faculty wives, and of the mothers of faculty women, are: Mesdames Arthur S. Gist, Homer Arnold, Homer P. Balabanis, H. T. Cluxton, Raymond Fisher, Mary McCann, C. Edward Graves, Herbert Hart, Maurice Hicklin, Horace Jenkins, George D. Kinsman, William Lanphere, Harry D. MacGinitie, Leo G. Schussman, Vernon O. Tolle, Everet Jackson, and Elizabeth Hess.

Civil Service Tests For Office Workers

A new list of State Civil Service examinations, to be given in October, has just been received by Prof. Bert F. Wilson. Those which may be of interest to some students are: Junior Accounting Clerk, Junior or Intermediate Clerk, Assistant Cashier Clerk, Junior or Intermediate Typist Clerk, Junior or Intermediate Stenographer Clerk, Janitor, and Junior Messenger.

In the examinations requiring typewriting tests no errors are allowed. The salaries for Junior and Intermediate Typist Clerks, range from \$80.00 to \$140.00 per month; for Junior or Intermediate Stenographer Clerks, from \$90 to \$150 per month.

Applications must be filed at the Eureka Junior High School on Monday, October 3, between the hours of 9 a. m. and 5:00 p. m. The tests will be given on Tuesday, October 4, in the Junior High School.

United States examinations will be held at an early date for Senior and Junior Stenographers and Senior and Junior Typists. The salaries received for these positions range from \$1280 to \$1620 per year. Application blanks may be obtained from the post-office and must be on file with the United States Civil Service Commission at Washington, D. C., not later than October 6, 1938.

GIRLS TO PLAY HOCKEY

Hockey has been selected as the sport for women for this semester by the physical education department. Games will be played by teams representing the various

PRACTICAL JOKER IS AT WORK AT COLLEGE

Wally "Wind of the Valley" Lozensky received a letter from "Ken" magazine last week telling him that Red Belcher was to receive 26 issues of "Ken" and that he, Wally, was to pay \$5.50 for said 26 issues. The gag was that the letter was addressed to Wally in care of H. L. Hart, Arcata. Those of you know Wally figure that one out for yourselves.

There must be a practical joker lurking around the college, because both Lozensky and Belcher obviously didn't know anything about the subscription or about Wally's unusual address.

classes. Upper class women are needed for the activities class which meets at 4 p. m. on Tuesdays and Thursdays, the department reports.
