

Humboldt Lumberjack

HUMBOLDT STATE COLLEGE in the REDWOOD EMPIRE

WEDNESDAY, MAY 29, 1946 #17

SENIOR CLASS GRADUATES JUNE 7

Humboldt Will Offer Two Six-Week Summer Sessions

For the first time in the history of Humboldt State College, a twelve-week summer session will be held this year, opening on June 17 and closing on August 30. The session will be divided into two terms, the first, or regular session, closing on July 26, and the post session opening July 29.

The program will actually be of only eleven weeks duration, the second period being compressed into five weeks, in order to provide for a longer vacation before the opening of the fall semester.

This program has been adopted for the benefit of the numerous veterans who wish to complete their education in the shortest possible time. It will be possible to earn a total of six units of credit at each session, for a total of twelve units. Tuition fees will be \$25 for each of the two semesters.

Dolf Elected AWS President

Mary Dolf was elected president of the Associated Women Students for the coming year in the elections held last Tuesday. Mary is a social science major and has been on the AWS board this year.

Other officers elected were La Verle Morley, vice-president; Katherine Miller, recording secretary; Frances Brizard, corresponding secretary; Ann Murphy, treasurer and Pat Murray, publicity chairman.

Coffee Hour Set For Today

The second of two coffee hours, sponsored by Alpha Psi Omega, will be held in the social unit this afternoon. Don Williams, a sophomore at Humboldt, will give a play-reading from John Van Druten's popular play, "The Voice of the Turtle."

Following the coffee hour, members of Alpha Psi Omega, Humboldt chapter of the national Dramatics fraternity, will hold their semester initiations. A banquet will be held in the evening for all members.

Marcille Garland is president of Alpha Psi, and Mr. Don Karshner is faculty advisor.

Final Exams Start Friday

Final examinations for the Spring semester, 1946, will cover a four day period beginning Friday. Dates are: Friday, May 31; and Saturday, Monday and Tuesday, June 1, 3, and 4.

Following finals, there will be a two day rest period in which everyone may prepare himself for commencement services.

Associate Editor Appointed For Lumberjack

Marilyn Brizard, a sophomore at Humboldt State College, was recently approved Associate Editor of the Lumberjack by the Student Council.

Marilyn is a journalism major at HSC, and has been active during the past year on the Lumberjack staff, in musical activities, and on dance committees.

With Miss Brizard's appointment, the staff of next year's Lumberjack is: Editor, Charles Peterson; Associate, Marilyn Brizard; Business Manager, Frances Brizard.

Fresno State Prof Here In Summer

Dr. Kenneth Potter of Fresno State College will be a guest instructor at the regular summer session at Humboldt State which will run from June 17 to July 26. This will be Dr. Potter's third summer session at Humboldt.

Dr. Potter's interest centers in the Orient where he spent considerable time in 1937 as a member of a group of American educators studying conditions in the Orient. He will offer a course in Oriental culture this summer as well as one in the History of Western Civilization.

Summer Session To Include Math

One of the features of the first session of summer school will be classes in Algebra and Geometry.

All of those who need either of these subjects to make up certain requirements, will find it to their advantage to enroll in the courses this summer.

The classes will probably be taught every morning, 8-10. No credit will be given, as the courses are offered purely to make up certain requirements.

Faculty Women Elect Officers

At a noon meeting held recently at the College Elementary school, the members of the Faculty Women's Organization of Humboldt State College, elected officers for the coming school year.

Mrs. Sarah Cornelius was elected president of the group and Miss Hazel Hagne was named to the office of secretary.

Bailey Appointed Dean of Students

Dr. Kenneth Bailey has been appointed by President Gist as acting Dean of Students under the new administrative program voted upon by the faculty recently.

Bailey will supervise all student activities and the guidance program. Under him will be the placement secretary, registrar, Men's and Women's advisors, physician, dentist, head residents, publicity, alumni director, and miscellaneous directors.

The revised administrative program, created by Dr. Balabanis, divides the administration into three groups, under three Deans—Arts, Students, and Education. Balabanis was previously appointed Dean of Arts.

Ruth Carroll To Teach Here At Summer Session

Ruth Carroll of the faculty of Arcata High School will teach the second half of the History of Western Civilization to be offered at this year's summer session. The first half of the course will be taught by Dr. Kenneth Potter of Fresno State College.

Miss Carroll is a graduate of Humboldt State College and received her general secondary credential from Stanford University. Her course is lower division and will be open to freshman and sophomores.

No Bids Made On Buildings

Progress has been temporarily halted on the construction of the several new buildings planned for Humboldt State due to the reluctance of contractors to bid on the contracts because of the uncertainty of labor and material costs, according to an announcement last week from the office of President Arthur S. Gist.

Plans and blueprints have been approved by the state architectural office and construction will get under way as soon as the contracts are let.

Bulletin Ready For Coming Year

The Humboldt State college bulletin for the coming school year, 1946-'47, has finally been completed according to Mrs. Myrtle McKittrick, registrar.

Mrs. McKittrick has been at work organizing the college bulletin since April 29, and her work ended May 28. It will be a larger bulletin, completely reorganized,

Students Urged To Attend Next Friday Commencement

A small post war class of 27 members will graduate on June 7, with commencement exercises held in the HSC gym. The ceremony, under the direction of Dr. Balabanis, will have Dr. Lynn Townsend White, Jr., president of Mills College since 1943, as the speaker. Frances Rovai is to be the student representative.

The students and faculty will be present at an academic procession. The invocation will be given by a local minister. Announcement of awards and scholarships for next year will be made. The orchestra, under the direction of Charles Fulkerson, will play the processional and recessional. Some numbers will be given by the A Cappella choir.

Decorations for the gym will be supplied by the Junior Class.

An informal reception will be held in the college social unit after the ceremony.

Dorothy Gentry Resigns Position

Mrs. Dorothy Romero Gentry, director of teacher training at the College elementary school, has resigned her position at Humboldt State College, effective the end of this school year.

Mrs. Gentry, who has recently married, will join her husband who is working towards his doctor's degree at the University of California.

Griffith Sends Jap Magazines

A collection of magazines published by the Foreign Affairs Association of Japan was recently received by President Gist from Captain Harry Griffith, former director of teacher training in physical activities at the College Elementary school and now director of the Normal schools in Japan under the military government program.

The magazines, known as "Contemporary Japan," are printed in English but give the Japanese outlook on war and East Asiatic affairs from September, 1937 to January, 1945.

A young lady after a broken engagement returned all the gent's letters marked "Fourth Class Male."

Many a married man gets into difficulty through a miss understanding.

due to the administrative and college reorganization.

Bulletins will be mailed this summer to out of town students.

Workshop For Summer Session Being Planned

For the fourth consecutive year, a Workshop in Elementary Education will be held this summer at Humboldt State College in cooperation with Humboldt county schools and the city of Eureka. The workshop will run for four weeks, opening July 1 and closing July 26.

Mrs. Dorothy Gentry will direct the workshop, which will be organized around three demonstration rooms. Sarah Cornelius, primary instructor at Humboldt State, will be demonstration teacher for grades one through four and Ward Melendy, classroom instructor in the eighth grade at the College Elementary School, will have grades five through eight. Mrs. Myrtle Callinger will conduct a demonstration group based on a one room rural school house.

Tuition for the four weeks will be \$25.

Mary Suchanek Wins Scholarship

Mary Suchanek, a junior at Humboldt State College recently elected Campus Queen, has been awarded a scholarship in the sum of three hundred dollars.

The scholarship was presented to her by the California Parent-Teachers' Association for her high scholastic rating. She received word of the award last Monday.

Similar awards are made every year to students taking elementary education. Helen Millios, Mary Melendy, Lois Sherman, and Frances Ravai, have been awarded such scholarships in the past.

Nelson Hall Only Co-Ed Dorm in U.S.

Nelson Hall, H.S.C.'s dormitory, is the only co-educational dormitory in the United States for undergraduate students to his knowledge, said Arthur S. Gist, president of Humboldt State College.

The International Houses on the campuses of the University of California, University of Chicago, and Columbia University are co-educational, but are used by graduate students.

In other colleges and universities, the men and women students are segregated into separate living quarters. They thereby lose the home-like atmosphere which Nelson affords, said President Gist.

OF STUDENT COUNCILS

There will be a lot of people around Humboldt next term. There will also be a lot of people in the various organizations on the campus. These organizations, plus the various activities such as Lumberjack, Sempervirens, Music, Drama, etc., will have many requests and gripes to bring before the student body.

It is the customary procedure for any gripe or request to be brought first to the student council, then to the students, and a very good procedure at that! However, here is some food for thought for the various clubs.

Why doesn't each organization elect a member whose only duty is take the requests and gripes of the club to the student council. This would save time and worry for the organization involved, and also be of some help to the council.

Here is another point. I think that the editor of the Lumberjack should have a seat on the council—not for voting—but for the specific purpose of printing the proposed business in the Lumberjack, presenting pros and cons to the students, before the affair is actually brought before the students themselves. In this manner, students could be better informed as the business ready for their votes, and would have considerable time to think on both sides of an issue.

Don Ray.

When it come time to write the last editorial, an outgoing editor usually feels like crying into a very large bucket of beer. (coca cola)! Singing a Swan song to the tune of Aloha Oe can be very sentimental, so here goes on some reminiscing of an almost ex-editor!

The past semester has been one of a continual good time. It has been loads of fun getting out these editions of a college paper. When it's time to say good-bye you forget the bickering, swear words and hard work that's gone on in the editorial office, and you just remember that it's been a heck of a lot of fun.

As a newcomer to Humboldt, I can truthfully say that this has been the best semester I have had in college. The informality of HSC is something that I shall never forget; the students are friendly; the teachers are all "regular guys!" (I shall never forget my surprise when I found out

that John, Don, Mac, and Murf were professors and not a gang of kids working for an A. B. !)

Humboldt is really looking up. Next year will be one of the biggest yet, and each succeeding year should top the last one. All that is necessary is a little cooperation on the part of the older students to set the ball rolling, and you are just the kids that can do it! So get in there and let's see what happens!

The best part of a Swan song is to be brief! But I do want to say that there's nothing like Humboldt that I know of. Council Crest, the co-op, Nelson hall, the L.J. office, even the atmosphere in the library are things few schools have—sure they have their statues, plaques, pictures by the ancients, but there is nothing comparable to life at Humboldt.

Your new editor, Chuck Peterson, is going to do a bang-up job next year, and the Lumberjack will probably be a weekly, instead of a spasmotic edition. So it's yours from here on out, Pete, and the best of luck to you and your staff!

Editor's Nook

This is the last issue of the Lumberjack for this year. I'm a sentimental cuss at heart, and it really does something to me when I look back over this past year. It's been fun editing the paper, just as it's been fun watching so many do so much instead of a few doing everything. Good for school spirit, too, I suppose. This may be rather a bit of a bromo to foist into a final issue, but the Lumberjack staff has certain laurels to hand out for services this past year, so here goes:

To our President, vice-president, administrative officers, and faculty we owe sincere debt of gratitude. They have been good leaders and good friends as well. Mr. Gist has never ceased in his efforts in the new Humboldt buildings construction, and next year will see a decided change about the campus.

Our student body officers have held the student government above water, and have kept things going during this transition period from pre to post-war activities. It hasn't been an easy job, and there was no slacking, no complaints from the officers or from the council.

Athletics took a front place during the past year, and the rising enthusiasm in sports gives us a glimpse of what is to come next year. To the coach and the athletic managers and all of the men who have been on the teams, we give our thanks.

To Charlie and Don, we give our thanks for their fine leadership in music and dramatic activities. The spring concert and play brought good advertisement

Personality of the Week

Our choice for Personality of the Week is an outstanding senior of H.S.C., Shirley Thompson.

Sissy has been on Humboldt's campus for four years. She's taken an active part in all college activities . . . Social Chairman of H.S.C. '45 . . . on the Executive Council '44-45 . . . Social Chairman at Nelson Hall . . . Vice-president W.A.A. 1944 . . . president of Alpha Psi Omega . . . member of Mu Epsilon Psi . . . President of Nelson Hall '45-46 . . . enthusiastic member of Tap Club . . . had the part of Bingo in "Letters to Lucerne . . . yes, Sissy has been a working member of Humboldt's campus life.

How'd she decide to come the long distance from Canoga (south in the San Fernando valley)? Her parents were passing through Humboldt county on a vacation trip, arrived home and told Sis that the college was "cute," and Sis sent her transcript up. It was as simple as that. Once, she decided to try a semester at Santa Barbara. After two weeks there, Sissy was back at Humboldt. "The complete honest and sincere people," that's Humboldt's attraction for Sis. The weather was hard for her to get used to at first, but now she admits that it's "grown" on her.

With vitality, vim, vigor, and a never missing sense of humor, our gal's 5 ft 4 3/4 inches, 123 pounds, green eyes, short, dark hair, and "pearly teeth" (her uncles a dentist) are admired by all H.S.C.

Born on March 3, 22 years ago, Sis had no idea she'd be a P. E. major and a history minor. Also, I doubt that she knew she'd be teaching math and physical education in Wasco, California next semester. Plans for getting married? "I'll say I have! I like children, but not forty at a time. I really think I'll enjoy teaching, though." Sissy added the last bit for you, Dr. Loder.

By the way, her latest accomplishment is playing the sax. After two lessons from Ted Ross, she can play "I Love You Truly" well enough to drive her roommate crazy.

Best of luck, Sis! A gal who gets as much fun out of life as you do, deserves it.

that it might be weddin' bells for Marcille this summer. Also Emmie and Curt. Keith and Janice pulled a fast one—sure had us fooled!!

John and Justine gave the school a big surprise, Barbara Hodge did likewise.

A few of the guys still looking the field over—Wally Mac., Bob Brennan, Francis Barry, Gen Wilkinson,—some of you gals should be able to get one of them.

What about the ex-S. B. Prexy and June?—see them together a lot. Speaking of prexys, Alene and Len . . . need we say more?

HILLTOP
HALLUCINATIONS

By S & M

Summer comes but once a year—and this will be a booming summer for the County Clerk. Marchin' down the middle aisle will be Jinx and Sweetpea (never tho't they'd get around to it) Lois and Bert, Astrid and Red, Franny and Hank, Rouss and Jean, and Doris and her man.

Hear rumors by the grapevine

to HSC and offered the students worthwhile activities.

To Don Williams, who has been so faithful in his efforts as co-op manager, we express our appreciation. To Lovey Morley, Loris Baumgartner, and Wally Tudor, who began work on this year's Sempervirens, go other orchids. Although, because of lack of time and equipment publication was impossible, the efforts and work were present in all of the planning and organizing.

To all of the organizations and their officers go laurels for the lively school spirit in the dances, parties, bean-feeds, and other school activities.

And we, the Lumberjack staff, tired and beaten under the heavy strain of printer's ink and deadlines, bow our heads wearily and merely smile, and thank God that it's all over.

Ten Games Possible For 1946 Lumberjack Gridders

With six games definitely signed and the possibility that four more will be contracted for in the near future, the 1946 Humboldt State grid schedule is almost complete, according to word received from the office of graduate manager Eugene Flocchini.

The four games which are still indefinite are those with St. Mary's Junior Varsity, Lewis and Clark College, and a home series with Southern Oregon.

The schedule as it now stands is as follows:

Sept. 22 — St. Mary's Junior Varsity here (tentative)
 Sept. 28 — Linfield College here.
 Oct. 4 — Southern Oregon at Eureka (tentative)
 Oct. 12 — Alhambra Club here
 Oct. 18 — Chico State at Chico
 Oct. 26 — San Francisco State at San Francisco
 Nov. 12 — Cal Aggies at Davis
 Nov. 11 — Lewis and Clark College here (tentative)
 Nov. 16 — Pepperdine College here
 Nov. 23 — Southern Oregon at Ashland (tentative)

Upperclassmen Trounce Frosh

Sissy Thompson pitched the upper-class softball team to a 9-5 victory over the frosh softballers in a game played last Thursday.

Sissy allowed only nine safe hits while her teammates were collecting 16 from the offerings of Phyllis Lewis and Catherine Brandt. The upperclassmen played error-less ball while the frosh were committing five miscues.

Marge Puckett, Kathie Nuckols, and Thompson paced the winners at the plate with three safeties each.

A famous star of stage and screen whose income tax amounts to a half million dollars says, "All that I am or ever hope to be, I owe."

Reconversion problem: Getting the women out of the war plants and into the kitchen - - or, from nuts to soup.

Steppin' & Lispin

In one of the recent plays given in our auditorium, the girls in the play couldn't seem to find a word that rhymes with started; so we have written this little poem:

It is the end of the day
 We sit here lonely hearted.
 There is no time for even play,
 We must rhyme that doggone word started.

A pal of ours has an aunt who smokes a pipe (this pal smokes a pipe, too). One day he and his aunt lost their pipes and he found his aunt's in his pants. We also know a mother who is so modest that she wouldn't let her children in the barn when they were stripping the cow, they call one of the little kids Sen Sen because he's a little stinker. Did you know that natives in the islands grow their own grass for their skirts, and each nite the foreigners come over and watch the natives rotate their crops? During the recent campaign, one of the candidates (male) bent over too quick and split his vote: this fellow had to get some new supporters (suspenders to you) after such a hair raising experience. Some of the girls here at college are so dumb that they think a tanning factory is a place where they can get a tan.

We called our old cat Ben, but since she had kittens we call her Ben her. We have an old tom cat that used to go out quite a bit at night; we cut off his allowance and now he has to stay at home. Two old women were telling each other secrets under the church tower, and the bells tolled. There's old theater that we used to frequent, it's called the Liberty and the height of the evening is when the Liberty belles peel. We hear that some manufacturers are now making bathing suits from spun glass, this summer we're going to get a job at the beach as window watchers. In our spare moments we have patented a windshield wiper that is guaranteed to keep all the drips off. Our old pal Joe has booming business, he sells womens' hats (he owns a

SPARKS OFF THE SPORT CIRCUIT

By P E T E

Since this is the last Lumberjack of this semester, it would probably be best that this column not sign off on a sour note, but there is one more gripe that I feel should be recorded.

This particular peeve rests in the awarding, or rather the not awarding of athletic letters this year. This was probably excusable on the part of the student body administration due to difficulties in obtaining the wards, but this columnist feels that next year's officers should make every effort to give the athletes their deserved recognition.

Now that that is off my chest and while on the subject of student body officers, this column wishes to congratulate Len, Ellis, and the rest who will be at the helm next year. Under them, Humboldt should experience the best and best year in her history.

cow). It's really a slick business. They say she was the belle of Adano and he was the perk at the end of the rope.

We journeyed to the city the other day to pick up some new material for our column. It was very difficult to find a place to stay; we finally found a man hole for rent with only a small cover charge. We couldn't sleep very well, though, because of the bed spring. While we were there we saw our brother fraction (he's only a half brother). While resting down in the lobby of the hotel, we heard what we thought was a woman pilot telling some of her experiences. She told about the time she was going to take off and and she over-sot the runway. It seems as though she was working at a burlesque show, where they called her Broken Compass because she doesn't get around much any more. Her sister is called the Shack because she has sagging foundations. Well, a happy vacation to you one and all.

Science is wonderful. It couldn't raise Pullman windows, so is air-conditioned trains.

RAMBLIN GS

By DAYTON MURRAY

The U. S. Policy reminds me of something George Murphy always used to say: "It stinks."

Gromyko is getting so much practice walking out of U. N. Councils meetings he'll be Russia's entry in the walking races of the 1948 Olympics.

It's too bad we can't divorce politics from diplomacy. Then instead of someone who controls the lower east side votes in K. C. we might get a man who went to school.

Jimmy Byrnes may be a good politician, but every time he takes a trip, the Russians hear him coming and sharpen up the sickle and put a new handle on the hammer.

I hope our atomic bomb test at Binkini makes a real big noise—even that kind of diplomacy is better than none.

Most people wouldn't mind the Iranian deal if they could be sure the Russky's wanted that oil to pave their roads with.

Maybe it will all work out—but I sure don't want to hear that old slogan again—"Go get 'em, Yank."

Bohler To Return To Chico State

Roy Bohler, director of physical activities at Humboldt State college during the past year, has resigned his position and will return to Chico State college next year.

Bohler has been very active during the past year not only teaching the physical ed classes, but as coach of the basketball teams. He will be replaced by Joe "Cowboy" Forbes, who will come to Humboldt next year from Compton Junior College.

Living Dangerously

By MEATLESS

Sure swell to get back to the little old pink college. Anyway it's still pink if you look at it from Council Crest. Which was where I was the other morning when I got my first premonition that maybe things weren't as safe, sane and peaceful as formerly. Being naturally eager I had gotten up at five on my first morning back and was hiking up an appetite. So I was tramping along, giving out with an "I Yi Paesna" when a branch dropped thirty feet and knocked my trusty briar from between my bicusps.

I puffed up the hill and ambled into the smoker. There was Bob Oliveira squatting on the window sill and steadily sobbing. There

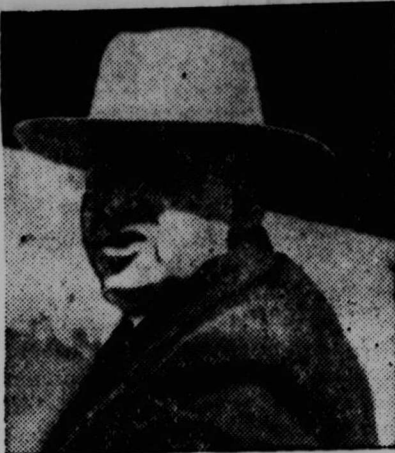

was a strange glint in his eye and he was pulling hairs from his head one by one. I backed away shuddering. Upon investigation I discovered that the condition had been developing for some time. His first attack seized him one afternoon as he was simultaneously directing a trio, a quartet, and a quintet while working on his Econ. assignment. Chas. Fulker-son's take-off on him in the Orchestra Scene of the Faculty Show was an aggravating factor. Then he cast his ballot for Williamson and lost by one vote.

In desperation I took off like the proverbial bird and decided to make a routine check at the Varsity. Some dormites twisted my arm and I joined them. Only ten at the table. In an off-guard moment I paused to lite a weed. Looking back at my plate I saw two guys digging into my salad and a third drinking a tall coke. Seeing it was every man for himself I grabbed the nearest hamburger and blocked with my left. Just then I stopped Gasser's inside curve ketchup bottle with my nose. To stem the asanguine flow I reached for a handkerchief. In my pocket. Anyway I thought it was my pocket but I got slapped. So I left. Life, I concluded, was not safe at HSC.

Dr. Bailey: You look, Mr. Williams, like you are enjoying yourself in this class.

Georgia: I'm glad I do, because that's the only thing I am enjoying.

Girl machinst: "It's all right. I saw the doctor and he said these lumps on my arms were just muscles.

THE HAT . . . Fiorello H. LaGuardia, New York's former mayor, recently climbed to the top of the wheat ladder to give the farmers a few facts of life. At Fargo, N. D., he asks for wheat for Europe.

Girls when they went out to swim

Once dressed like Mother Hubbard,

Now they have a bolder whim: They dress more like her cupboard.

Girl to returned serviceman: "If mother acts a little queer, you must be patient. She's been taking a course in the psychological treatment of returning soldiers."

The sad thing about diets is that they do so much for the will power and so little for the waistline.

Nelson Hall girl to follow dormite: I have an uncomfortable feeling that we're not being followed.

Two drunks were driving like mad in a car. "Shay," said one, "be sure to turn out for the bridge that's coming down the road toward us."

"What do you mean, me turn out?" retorted the other. "I thought you was drivin'."

Patient: "Doctor, are you sure this is pneumonia?" Sometimes doctors prescribe for pneumonia and the patient dies of something else."

M. D. (with dignity): "When I prescribe for pneumonia, you die of pneumonia."

Loud Mouth

By LEN CONRY

WRONG?

There is nothing more discouraging in an argument than to have some narrow-minded ant-brain insist that what he is saying is right—one hundred percent, completely, right!

A student has open mind, as a rule. Students are not always to be found in schools. Oliver Wendell Holmes was reading Greek (for practice) at the age of ninety. The great men of the world are the men who can see both sides of an argument. Not just the side that is the more appealing, form the emotional or financial appeal.

Rational thinking is really the answer (don't ask me to define rational). Take the local strike. Isn't the main issue centered around an old established tradition, i.e., "I didn't need a Union man to run my mill a year ago; and I don't need one now" The man may be right; however, by taking such a stand he automatically closes his mind to mediation. What possible conclusion can be reached with "Collective Bargaining," or any other device; What can the employer expect? What can the employee expect? The net total of a stalemated struggle.

The boards of conciliation trying to find a hole in this pathetic situation draw no conclusion. The answer, in my eyes, is "Compulsory Arbitration." But that is probably unconstitutional, and I'm

probably over impatient because the wind blew away our "out-house," and I can't get any lumber for a new one.

Prayer of an advertising man's child: "Give us this day our daily, golden crust, slo-baked, vitamin-enriched bread.
