

# Humboldt Lumberjack

WEDNESDAY, OCTOBER 13, 1948

## IN A NUTSHELL

Each week the LUMBERJACK office receives several stories and comments which are difficult to write into regular news stories, despite the fact that they are interesting and worth printing. Henceforth, the best of these pieces will be published in this column.

We see where the Humboldt Times took a good feature story right out from under our noses. It appeared in that paper last Sunday. It concerned Humboldt Village. We are sorry we didn't think of it first.

There will be no Hilarities this year, and we are sorry. Of course, there is a story behind why the show won't be put on this year, but we haven't, as yet, learned what it is. All we have heard are some vague rumors about somebody not "cooperating" last year during the event. My, we can hardly believe that—especially at HSC.

There are great doings going on about the Co-op these days. It seems that young Joe Barkdull is attempting to buy ham and cheese wholesale, with an eye to cutting prices on sandwiches. The reason sandwiches are so expensive in the Co-op now is that all meat has to be bought already sliced. This, as we understand it, runs into dough. The last we heard, the Co-op crew was going to buy meat and cheese by the hunk and cut it up on the meat slicer in Nelson Hall.

Another item on the Co-op concerns this same Joe Barkdull. Joe is working with Mr. Alexander MacMillan, supervisor of buildings and grounds, on a scheme to remodel the Co-op. The first step will be to move the counter from its present position to the east end of the Co-op, where it will occupy that entire end of the room. Mr. MacMillan is already checking into the type and amount of material that will be needed for the change. If the project goes through, the work will probably be done during the Christmas holidays.

## Student Conduct Better, Says College Prexy

The conduct of college students "in relation to drinking and sexual behavior is better than that of many prewar generations of college men and women," says Robert L. Stearns, president of the University of Colorado.

Addressing the convention of the Association of Governing Boards of State Universities and Allied Institutions, President Stearns said that "there is less drunkenness and disorder than during the prohibition era."

He added, however, that cheating in colleges had increased.

Humboldt State College graduates are teaching successfully in almost every county of the state of California.

## Publication Difficulties Delay Yearbook

In answer to the anxiety expressed by many students concerning the arrival of the 1949 yearbook, the book's business manager, Eddie Oliviera, states that everything possible has been done to hasten its arrival. It is due to unexpected publication difficulties that the book has been so long delayed.

The 1949 yearbook will be edited by English major Mal Buchanan who is at present consulting several publishers to secure an early printing date for the annual.

## V. A. Needs Full Data Before Mailing Checks

Subsistence checks of many veterans enrolling in Northern California schools this semester under the G. I. Bill will be delayed because the endollees are not submitting complete information on their enrollment papers, or the information is so poorly written that it cannot be read, the Veterans Administration has reported.

The San Francisco office will have to process approximately 48,000 enrollment papers in the next few weeks. The veteran who fails to submit complete or legibly written information threatens to delay not only his own check, but those of all other veterans entering school, says the San Francisco regional office.

**OTHERWISE CHECKS PROMPT**  
If, however, all information is received by the V. A. in good form, veterans are assured prompt receipt of government checks under a newly streamlined control system in the regional office of the administration.

The new system enables the regional office to know at all times the status of each individual veteran's case. It also provides for notifying each veteran of the receipt of his enrollment papers, the date by which he can expect his check and a notification of the nature of any undue delay.

### CHECKS BY NOV. 15

The VA expects to have checks out by Nov. 15 to all veterans whose complete records and enrollment papers have been received in the regional office during September.

For other enrollments, which result in papers not being received until October, the checks probably will not be out much before December 5.

The new plan aims at the prevention of complaints by insuring prompt payment and keeping the veteran informed as to his status.

About 50 miles south of Eureka is Cape Mendocino, the western most point of the mainland of California.

Blondes are more likely to become bald than brunettes, and brunettes are more likely to become bald than redheads.

## ADNAN HOWARY HAS COME AND GONE

During the ten days he was with us, he made many friends by the warmth and responsiveness of his personality.

He felt a deep concern, it developed, over the hatred for the Arabs which he believed to be spreading over the world as a result of the Palestinian situation. So in a way, he became a casualty of that faroff conflict.

He failed sometimes to understand the friendly overtures which were made and felt himself singled out as a conspicuous foreigner. He was disturbed, too, by the questions so frequently asked as to how he liked America and American games and ways. Being absolutely honest, he could not give a blanket endorsement to things which he did not understand, and he was worried lest he might be considered unfaithful to America.

We are proud of the kindness and interest which many of our students manifested toward him.

We wish that we all might have had a little more understanding in dealing with a lonely boy in an alien land. We deeply regret that we have lost the opportunity to gain a better understanding of his people which he might have brought to us. We regret, too, the loss to his country - the good work which he had hoped someday to do for his people.

We wish that we could extend to his parents and his brothers and sisters our sympathy in this sad ending to their pride in his outstanding honor and preferment.

Adnan Howary has come and gone. But because he was here, we shall try hereafter to be a little kinder to the stranger who is within our gates.

Myrtle M. McKittrick,

Don't forget the preliminary game against Lassen Junior College this Saturday night in the Redwood Bowl, starting at 6:00 p. m. Give the Lumberjack juniors some support as they go all out in an attempt to score a double Saturday night gridiron win.

## New HSC Smoking Rules Published For First Time

The following smoking rules were set up and passed upon by the outgoing Executive Council of the Associated Students of Humboldt State College last semester. Because they have never been published before they are new to HSC students. Henceforth **THEY ARE THE LAW** and must be obeyed by all of the personnel of the college.

1. There will be no smoking in classrooms or laboratories in the main building.
2. There will be no smoking in the halls of the main building, except when there is a function in the building which is open to the public.
3. There will be no smoking in the auditorium or on the stage, except when smoking is a part of the action of a play.
4. There will be no smoking in the wooden buildings south of the main building, except in the Co-op and in the faculty offices. Smoking is permitted in the quadrangle between the shops and the
5. There will be no smoking in the gymnasium, except in the restrooms.
6. Smoking is permitted in the inner court of the main building.
7. Smoking is permitted on the second floor balconies of the main building.
8. Smoking is permitted in faculty offices.
9. Smoking is permitted in the restrooms, with the exception of the restroom adjacent to the Co-op.
10. Extreme care should be taken when smoking in and near the wooden structures on the campus.

## Extensive Safety Program Inaugurated At HSC; First Phase Now In Affect

Students at Humboldt State College are asked by the administration to cooperate in developing a working safety program for pedestrians and especially for the children at the College Elementary School.

Through the cooperation of the Arcata Police Department "Stop" signs have been located at strategic corners and it is hoped the students and faculty of Humboldt State College will observe them meticulously.

The P. T. A. of the College Elementary School, in order to assist motorists in the facilitation of the program, has painted "School Slow" signs and cross walks on the pavement in numerous places in the area of the College Elementary School.

## HSC Students Invited To Church Hour

All students of Humboldt State College are invited to attend a fellowship hour and snack supper at the First Methodist Church, 12th and H streets, Arcata, every Sunday evening at 5:30 p. m., according to the pastor of the church.

There will be musical entertainment, and a program of discussion, worship, and recreation will follow the supper.

## Students Teach At A. U. H. S.

Five Humboldt State College Students are doing student teaching at the Arcata High School this semester.

Laurald Stebbins, whose brother is president of the Arcata High School student body, and James Radford are teaching art under the direction of the high school art instructor.

Gene Moses, HSC basketball, and Marvin (Tex) McKeown, full-back on the college football team, are student directors of boys' physical education, while Wayne Robinson is teaching algebra and chemistry to the high school youth.

## Bullen, Schuler To Exhibit Work

All Humboldt State College students are invited to attend an art exhibit to be shown by Mr. Reece Bullen, assistant professor of art, and Mr. Melvin A. Schuler, also an assistant professor of art, in the college social unit from October 19 to October 31.

The original Humboldt State Normal School was established in 1913 by an act of Legislature.

College students exert tremendous influence on the children of the College Elementary School by the example they set. It is, therefore, very important that all college students set a good example by driving and walking carefully.

### ONLY A PHASE OF CAMPAIGN

The program outlined above is only one phase of an extensive traffic safety program now underway at Humboldt State College. A committee, appointed last semester by the Co-ordinating Council and reappointed recently, under the chairmanship of Robert Exton, an HSC student studying at the college in preparation for a career in law enforcement, is now at work on formulating the program.

The idea of the campaign was presented to the Co-ordinating Council last semester by college president Arthur S. Gist, who at the beginning of this semester appointed Dr. Burton Henry, assistant professor of English and Education, to spearhead the program as faculty advisor to the committee.

DR. BURTON HENRY

The first problem to be taken up by the committee is that of parking.

### COMMITTEE MEETS

The committee, consisting of Exton, Charlotte Marks, John Green, and Vernon Whalen, editor of the LUMBERJACK, met with Dr. Henry, President Gist, and Mr. Alexander MacMillan, supervisor of buildings and grounds, last week and discussed the parking problem at HSC.

At present, many areas are being utilized by students as parking spaces which soon will be designated as "No Parking" areas. One of the first jobs to be undertaken (Continued on page 3.)

## BULLETIN!

Information recently received from Mrs. Margaret Brookins, controller of Student-Body affairs, concerning student finance reveals that 99 percent of H.S.C. enrollees have purchased student-body cards; but only 222 purchases of the Sempervirens, the college yearbook, are on record.

# HUMBOLDT LUMBERJACK

EDITOR ..... Vernon Whalen  
 MANAGING EDITOR ..... Janet Oppenheimer  
 SPORTS EDITOR ..... Don Terbush  
 BUSINESS MANAGER ..... Ralph Gilbert  
 FACULTY ADVISER ..... Mr. Bert Alward

Published weekly during the school year, except during vacations, holidays, and examination periods, by the student body of Humboldt State College, Arcata, California.

The following article appeared in the LUMBERJACK for the first time on October 15, 1947. It was written by one Peter Anderson, who is no longer a member of the student body of Humboldt State College, but because of its satirical fitting of the shoe upon the foot that should wear it, we are reprinting it.

## RULES SUGGESTED TO SOUR STUDENT MEETINGS

I have noticed that many people are again failing to support the student body government. Seeking to serve all our readers, I have discovered the following rules to better guide those who wish to thoroughly wreck the organization.

1. Don't attend meetings, but if you do, arrive late and leave before the meeting is closed.
2. When at a meeting vote to do everything, and then go home and do nothing.
3. Get all the organization will give you, but don't give the organization anything.
4. Talk cooperation, but don't cooperate.
5. If asked to help, always say you haven't time.
6. Never accept an office, as it is easier to criticize than to do things.
7. If appointed to a committee, never give any time or service to the committee.
8. Don't do anything more than you have to do, and when others willingly and unselfishly use their ability to help the cause along, howl because the organization is run by a clique.

## JUST FOR THE RECORD

To those who read last week's editorial on the reporting by the HUMBOLDT TIMES of the Humboldt State College-Southern Oregon College game we submit, just for the record, the write-up which the Southern Oregon College newspaper, THE SISKIYOU, carried on the game. You will note in the following lines that SOC did not make excuses for itself. It appears that it felt that it was beaten fair and square.

"Southern Oregon Raiders again took to the road this last week end, traveling to Arcata, California, to face Humboldt State College, for the second game of their Far Western Conference series. On a muddy field, amidst a spasmodic drizzle, the doggedly hard-hitting teams went into a three-quarter deadlock. The Huskies pass defense proved impregnable, and the wet ball caused the ball carriers on both teams anxious moments while handling the pig skin and in running. Then with nine minutes left to play in the ball game, Malady (Melendy), of Humboldt State, took quarterback, Chuck Jandreau's, punt on the 35 yard line and went all the way to score standing up to defeat the Raiders 6-0."

## GUESS WHO?

You see her every day, and we bet that she never once said an unkind word to you. She is always on the job, and she does her job wel. She is a friend of every person who enters the Co-op of Humboldt State College, whether that person be a member of the faculty or a freshman who has stepped into the Co-op for the first time.

Because she has always been so nice, and because we know that very often her job has not been the easiest on earth, we would like to inform her that the students of Humboldt State College appreciate her gentle kindness. She is one of the college's employees that we shall remember always.

Her name is Vera Walters. She is the manager of the college Co-op.

## WHO, ME???

There are many students at Humboldt State College, But some, we fear, are not here after knowledge.

San Francisco State College  
**GOLDEN GATOR:** "For the third consecutive semester, the Golden Gator has won the highest journalistic award the Associated College Press newspaper service has to offer—the All-American honor rating for the Spring of 1948."

University of California College of Agriculture  
**CALIFORNIA AGGIE:** "According to figures released early this week by the recorder's office there are 1,700 students representing 20 states and 23 nations on the Aggie campus this semester. Only 910 of the 1,700 are returning Aggies."

## The World Pool

By PHIL SIMON

We wonder to what extent was our successful prosecution of the last war due to individual initiative in the masses of our citizenry? The chances are this question never will be satisfactorily answered, for our government, in using compulsion, rendered most unknowable the degree of self-generation behind the individual's actions.

That many co-operated in the war effort simply because it was the line of least resistance, there isn't the slightest doubt. But the important question is: What percentage of we Americans was so motivated? Was it a negligible percentage? Or was it a significantly large one? We hope that is was the former, for it seems to us an unhealthy state of affairs when a government is not a positive reflection on its people's wishes. When its policies are put into effect merely because its constituents submit to such action, the body politic is not as much imbued with the democratic philosophy as some of us would like to believe—whether or not such submission is, in any particular instance, for the best.

## WHY NOT END WARS?

Again, be assured, we hope it was the former case prevailing. But, if so, where is this initiative today? If millions of us co-operated in doing something that at best is only a necessary evil—that is, fighting a war—why won't we same millions co-operate to stop another war and establish a universally desired peace? Why this appalling indifference to the greatest crisis in recorded history? Is lack of compelling governmental decree the answer after all? Must we be made to act by regimentation?

Some may insist that in spite of our present lack of initiative the government's compulsory methods during the war did cloak widespread individual initiative, and that the conspicuous absence of it now is due to the goal being one unprecedented and having less hope of achievement.

This is not an unreasonable explanation, being accepted by many. But why should lack of precedence deter Americans, who are noted for having been the first to do so many things?

It may be that our initiative is still primitive and elementary like that very worthy and inspiring forbearer of ours, the farmer of Lexington; he was defending something that was close to him, and an advancing redcoate is easily interpreted as an enemy. You just up and take a shot at him. Simple.

## PRESENT WEAPON COMPLEX

Now we have a much more formidable weapon than a musket, but it's s-o-o-o complex. It involves assemblies, petitions, drives, letters to representatives, and all that sort of thing—to say nothing of having to think. All very tedious — and not nearly as exciting as popping off three-cornered hats as they go bobbing through the woods.

However, allow us to let you in on a secret. We no longer can afford the luxury of being primitive—not even if it involves a bazooka instead of a musket. We not only

## Students Urged To Be Active In Class Affairs

By HAROLD TUPPER

At the beginning of each semester, the presidents of the four classes, Freshmen, Sophomore, Junior, and Senior, exert a great deal of effort in an attempt to bring all those qualifying into the fold of their particular class. However, very often they are very unsuccessful. This should not be.

It is to the benefit of every student in Humboldt State College to be an active member of his class organization. It is the means by which the student becomes acquainted with his classmates. Also, without class organization a class cannot add to the tradition of college life, and tradition is a important to the social life of Humboldt State College as learning is to the academic life.

In order that each student will know exactly in which class he, or she, belongs, we publish the following information:

Anyone having less than 30 units is a **FRESHMAN**.

Anyone having more than 30 units, but less than 60, is a

have this more formidable weapon, but we also have a much more formidable enemy — one that would have made King George's whole army appear, in comparison, as the Swiss Navy; namely, the Frankenstein monsters fathered by our science and technology in conjunction with the apathy and despair of millions of our countrymen and other peoples. There, you red-blooded American, is a challenge really worthy of your metal! Only your red blood isn't enough; you can spill all of it and it still won't do anone any good until you begin using mental initiative. In fact, the amount spilled of the former is in adverse ratio to the use of the latter.

## SOPHOMORE.

Anyone having 60 units, but less than 90, is a **JUNIOR**.

Anyone having 90 units or more is a **SENIOR**.

Each class has an organization, headed by a class president, and each class organization holds periodic meetings throughout the school year, as well as tradition social affairs. In order that your college life may be a full life, you owe it to yourself—and to your school—to participate in all of the functions of your class.

## DON'T BE AN OUTSIDER!

San Jose State College **SPARTAN DAILY:** "Dean of Personnel and Guidance Joe H. West released figures today which showed total registration to have passed the 7000 mark."

Eureka, California, is the county seat of Humboldt County.

The library of Humboldt State College contains over 20,000 books.

By BOB CRITTENDEN

...PATTI PAGE — George Barnes Trio;  
"Ready Set Go" and "Got-to Have More Money."

Pert Patti Pages' fluid-drive voicings score on the former, a smash with class! The whole staffing having been cleverly conceived and presented for you on this pleasant platter by Mercury. Predict a great juke-box furture for same.

For the latter—uh uh! It's just about the "end." The voluptuous miss does what she can to save this, but even her best possible isn't enough.

Sparked by the ever present, ever sour Hawaiianish guitar, the tune gives you lots of time to memorize the tilte, and a good reason to want to forget it. To Miss Page I would suggest a change in Trios.

**Freshmen Think HSC "Swell," Learns Writer**

By MARILYN BRIZARD

"What do you thing of College?" This question, asked many members of the Freshman class at Humboldt State College, brought, in most cases, the unhesitating response, "Me? I think it's swell!" Peristant inquiry as to specific likes and dislikes brought more thoughtful, but none the less enthusiastic, declarations of satisfactions at the student's lot at HSC.

The Freshmen seem highly appreciative of the new freedom from supervision in study and class-attendance periods. They like "its being up to you to get to classes, and to get good grades." The library and book-store facilities are seen as real services to the student in providing a relatively quiet place to study and a convenient place to purchase school supplies.

The Co-op, as a social gathering place, is the mecca of the Freshman class. "I think everyone enjoys the Co-op," says Donna Burbage. "It's an ideal place to meet new kids." And, the Freshmen agree, "the kids are swell at Humboldt!" — as are the professors, who have already gained their new students' admiration for their consideration and interest in help-

**Law, Medical Exams Slated In Coming Year**

The Law School Admission Test, required of candidates by a number of law schools throughout the country, will be offered four times in the coming year. New this year, the LSAT was taken in the spring and summer by over 6,000 students, in partial satisfaction of admission requirements of law schools which so prescribed.

This semester, candidates may take the LSAT on Saturday, November 13th; in 1949 the dates are February 19th, May 7th, and August 6th, all Saturdays. Administrations are held at numerous local centers in all parts of the country. Since many law schools select their freshman classes in the spring preceding their entrance, the ETS advises candidates for admission to next year's classes to take either the November or February test where possible. It should be noted, however, that the LSAT is not universally required. Each candidate should inquire of his

ing the individual solve the new problems which confront him.

But the Freshmen are not blind to Humboldt's faults. They are, uncomfortably aware of the lunch bags, cigarettes, and candy papers dropped on the approach of the building, in the square outside the Co-op, and on the floor inside that building. "Humboldt State," one declares, "has great possibilities, if only the student would learn to place their rubbish in the spots provided for it."

Such comment, stressing the positive assets of H.S.C. as a small, friendly institution, would appear, in the author's opinion, to contrast favorably with the dissatisfied, more sophisticated mutterings of upper-classmen and instructors who, trying to push Humboldt toward a big-school status, are naturally disappointed at its sluggish response.

"We wanted to come to a small school," the Freshmen say. "We think it's swell!"

**Many Scholarships Go Begging For Applicants In U. S.**

Scores of scholarships paying from \$50 to \$350 a year are going unused, and almost eighteen percent of all scholarships and grants in the U.S. are inactive because of a lack of applicants.

According to a nation-wide survey, made by Varsity Magazine, thousands of dollars in school aid go begging each year, simply because students are unaware of the fact that the grants exist. Moreover, the belief that proficiency in studies is the only basis for scholastic awards has discourage individuals who may be eligible for other reasons.

prospective law school whether or not he is expected to offer it.

Objective in type, the LSAT features questions which measure verbal aptitudes and reasoning ability rather than acquired information and, according to the ETS, it cannot be "crammed" for.

**MEDICAL EXAM**  
The Medical College Admission Test (formerly known as the professional Aptitude Test) required of candidates by a number of leading medical colleges throughout the country, will be given twice in the coming year, according to the Educational Testing Service, which prepares and administers the test in cooperation with the Association of American Medical Colleges.

Candidates may take the MCAT on Saturday, October 30, 1948 or on Monday, February 7, 1949, at administrations to be held at more than 200 local centers in all parts of the country. Since many medical colleges begin selecting their freshman classes in the fall preceding their entrance, candidates for admission to next year's classes will probably be advised to take the October test. Students interested should inquire of their prospective medical colleges whether they will be expected to take the test and, if so, on which date.

The MCAT consists of four tests of general scholastic ability and two achievement tests—Premedical Science and Understanding of Modern Society. No special preparation other than a review of premedical subjects is necessary. All questions are of the objective type.

Application forms and a Bulletin of Information on both the Law and Medical exams, which gives details of registration and administration, as well as sample questions, are available from premedical pre-law advisers or direct from the Educational Testing Service,

**More Safety Drive**  
(Continued from page 1.)

by the safety committee is to assist the administration in working out a parking program which will provide new parking areas to replace those soon to be designated "No Parking" areas.

Further decisions on this phase of the program, however, will not be made until traffic signs, now on order, are received by the college. The parking program cannot be inaugurated until the signs are received and installed. The LUMBERJACK will publish all information concerning new parking rules as it is received.

**COMMITTEE'S RECOMMENDATION**

Although the safety program is only in the formative stages, the committee working on it has made the following traffic safety recommendations to the college administration:

1. That an extensive safety movie campaign be conducted at the college.
2. That safety lectures be given at assemblies and in classes.
3. That an extensive safety advertising campaign be set up within the college.
4. That a survey of the campus traffic situation be made.
5. That a survey be made of the roads over which students drive.
6. That the possibilities of forming a campus police force be investigated.
7. That a college traffic code be formulated.
8. That a student court be set up.
9. That all "potential" professional law-keepers be recruited to work in the safety campaign.
10. That all cars at the college be registered at the college and that all cars be compelled to show a campus pass when parked on the campus.
11. That a safety club be formed at the college.

**SAFETY ASSEMBLY NOV. 2**

The over-all safety campaign will get underway during an assembly to be held Nov. 2. The LUMBERJACK will keep the student body informed on the progress of the campaign plans between now and then.

Box 592, Princeton, J.J. Completed applications must reach the ETS office by October 16 and January 24, respectively, for the October 30 and February 7 administrations.

# HSC-Van Port Clash Saturday Night

## Van Port, Lassen J. C. To Meet HSC Elevens

By Don Terbush

Still a bit red-faced and chagrined over the 13-7 spanking administered to them by the Golden Gators from San Francisco State last Friday night at Merced Stadium, the Lumberjacks today were in the midst of prepping for their Saturday night tilt with Van Port College from Oregon.

Double gridiron fare is to be served up to local football fans this Saturday night, when the Van Port eleven comes south to the Redwood Bowl, as a preliminary game will be played between Lassen Junior College and the Humboldt reserves starting at 6:00 p. m.

Little is known of the J. C. contingent except that they are reportedly strong enough to make the green and gold junior yell

"Uncle," and are expected to do just that.

In the varsity tilt scheduled to start at the regular game time, 8:00 p. m., the locals will attempt to climb back into the win column in anticipation of the conference tilt the following week against their arch-rivals, Cal Aggies.

Last Friday night's contest against the Bay Area eleven found the locals exhibiting a very mediocre and impotent aggregation the first half, while the Gators settled down and chalked up a 13-point lead.

In the second half, apparently jerked out of their lethargy by some fiery halftime comments from Coach Tsoutsouvas in their dressing room, they roared onto the fog-bound turf and looked more like the thrice-victorious Lumberjacks of earlier season play, but a one-half effort wasn't enough to trip the determined Frisco lads.

Saturday night's affair with Van Port college is a non-conference tilt and will give the Lumberjacks an opportunity to iron out some of the kinks which hampered them against the Gators.

Last week the Van Port Oregonians scored a 19-0 win over Columbia J. C. and reportedly will field a potent eleven come game time in the Redwood Bowl.

Coach "Choo Choo" (that nickname does not refer to the fact that the grid mentor chews bubble gum), in all probability will use virtually the same lineup that has started against the Lumberjack's previously played opponents. It is not known whether Manville or Klein will hold down the right wing spot, and there is still some speculation as to who will be in the starting halfback berths come game time.

Tentative starting lineup for the Saturday night clash between Van Port College and Humboldt State College is as follows:

Humboldt	Pos.	Van Port
Lawrence	LE	Howard
Bishop	LT	O'Hara
Seufert	LG	Sandvig
Lawitzke	C	Nelson
Schroeder	RG	Newell
Viracola	RT	Burke
Klein	RE	Randolph
Meledny	Q	Hlebechuck
Smith, or		
Dunaway	LH	Wheeler
Schroeder, or		
Oliveria	RH	Burley
McKown	F	Davis

**SCHEDULE**

Following is the schedule of the remaining home games of the Lumberjack pigskin varsity:

Oct. 30-Cal Poly of San Dimas -

JACK SMITH

## Gridder Jack Smith, Versatile HSC Back

Jersey number 20 on the Humboldt eleven is amply filled by the bulky frame of one Jack Smith. Lumberjack followers will recall that he is the lad who opened the scoring against La Verne college with a devastating 10 yard smash off tackle.

Jack pours 172 pounds into a 5 ft. 10 in. frame; and aided by powerful leg drive, attempts to bull his way through the line. "Smitty" is one of the hardest workers on the club, never letting up, always hustling.

"Spade" worked up the ladder to win his starting left half post on the Lumberjack elevens. As a member of Joe Forbes' '46 club, "Spade" was alternate half and fullback, starting only a few games. Last season it appeared as though "Smitty" was due for a hot year. He had won a starting assignment and was leading ground gainer in early season, when a severe back injury sidelined him for the remainder of the year.

Some of you will still remember his 40-yard jaunt that set up our only score against Southern Oregon. But Jack's climb to the top actually began in High School where most college gridiron heroes are developed. Smith is an Oregon product hailing from Klamath Falls High School where he worked his way up from the lightweights to a varsity assignment as the blocking back on their '43 "Powerhouse."

Klamath compiled an attractive 9-1-1 that year, losing only to Grant High of Portland, 6-0 in the state finals.

Oh yes! Lest we forget, the "Klamath Komet" spent 1945 on Uncle Sam's ball club—they too had a pretty good record.

Comes winter and you will again see "Smitty" pounding the hard-

woods for the green and gold basketball squad. Two years first string at Klamath (State champs), and two years varsity work for Humboldt will make him a solid contender for casaba honors this year.

Now for the lighter side, and for the ladies—"Spade" yodels, plays the guitar, and has a liking for Burl Ives' recordings. Very active in student affairs, Jack was a featured performer in the '47 Hilarities when he played straight man for Hal Harshman. At present he is a member of our student council.

All this crammed into jersey number 20? That's right! Watch him this week against Van Port. Jack's prediction—"we'll win by two touchdowns."

The women of the U. S. lose about 55 million hairpins a day.

American men spend about \$75,000,000 a year for hats; women, \$200,000,000.
