

WEDNESDAY, MARCH 10, 1948

HILARITIES OPEN TOMORROW NIGHT

Registrar Announces Summer Session Schedule For 1948

Recently the Registrar's office announced the schedule for the 1948 Summer Session at Humboldt State College. The schedule is now posted on one of the bulletin boards in the main hall. The Summer Session catalog has gone to press and should be ready soon for distribution upon request, according to Myrtle McKittrick, registrar.

The Summer Session will offer many new courses this year, several of which have not been given previously. Mrs. McKittrick stated also that there will be several visiting instructors here to teach during the session and that each is an expert in his, or her, field.

VISITING FACULTY

Among the visitors will be Frank J. Cameron, Supervisor, Audio-Visual Education, Humboldt County Schools, who will lecture in education; Oden W. Hansen, General Supervisor, Humboldt County Schools, also a lecturer in education; William F. Loveless, instructor in the Eureka Junior and Senior high schools, who will lecture in industrial education; Florence C. MacKinnon, speech correctionist, Eureka City Schools, who will lecture in speech; Oma Belle Emmons, Elementary Consultant, in-service workshop program, Oregon State Department of Education, who will lecture in education; and Hugh B. Stewart, Principal, Arcata Elementary School, who will also lecture in education.

TWO SESSIONS

There will be two sessions this summer. The regular six weeks' session will be held from June 21 to July 30, during which a student may receive a maximum of six units plus physical education activities. For those who wish a shorter program, some courses have been arranged to run for four weeks. The maximum credit for the shorter course is four units and the dates are June 21 to July 16. However, no credit will be allowed for less than four weeks' attendance.

The second session is the Post Session, which will run from August 2 to August 27. A maximum of four units of credits may be earned during this session.

AUDITORS

Persons who do not desire to work for credit may register as auditors for the entire session or for one or more weeks thereof. However, the state requires that auditors pay the same fees as other students.

MANY COURSES

Among the courses to be offered during the summer sessions are several in Art, Education, English and Speech, Industrial Education, Mathematics, and at least three graduate courses, as well as courses in Natural Science, Physical Education, and Social Science.

Additional information concerning the summer sessions will be published from time to time in the LUMBERJACK.

DR HUTCHINS SAYS

Chancellor Robert M. Hutchins of the University of Chicago recently stated that he believes that "football, fraternities and fun were designed to make a college education palatable for those who shouldn't be there."

Most of the earth's atmosphere is concentrated around 360 degrees of the planet's circumference. A).

Handbook For Employees At HSC Printed

A new college publication recently made its appearance at Humboldt State. It is the "Humboldt State College Handbook for Employees" (including a Manual of Style).

The handbook was created primarily for the sake of uniformity. Within it are listed the "agreed-upon" ways of writing business letters, punctuating, etc., along with a section of information for college employees.

The value of such a manual in the college is obvious.

Humboldt Expansion Recommended

The California Commission on Higher Education recently recommended, among other things, that Humboldt State College be expanded to meet the population needs of this area.

Also recommended was that state colleges be permitted to grant masters degrees in arts and science provided the state board of education finds that faculty, library, laboratory and plant facilities are adequate.

Coordinating Council Entertained

The Coordinating Council of Humboldt State was entertained recently in the home of Dr. Eugenia Loder, Dean of Women. Most of the council's members were present, as well as several guests, including President Arthur Gist and Mrs. Gist.

A short business meeting was conducted, presided over by John Green, president of the council. Among the topics under discussion were the recently conceived "Gripe Box," the first publication of which appeared in the last issue of the LUMBERJACK, and the new college calendar which is now posted in the main hall.

After the business meeting a buffet dinner was served.

CINCH NOTICES

Of the 376 cinch notices sent out last Fall semester, 104 became failures, 61 became W or Inc., 96 passed with a grade of D, and 115 passed with a grade of C or better. (In one case the grade was A).

Committee Posts Activities List

On March 1 a calendar of activities for the month was posted in the glass showcase in the front hall. The Coordinating Committee made up this list of student body and club activities to show students future events and to make available the dates open for other meetings. Any organizations desiring a place on the calendar may do so by contacting Mary Lee Connick or Dr. Eugenia Loder. This will be the only way that organizations will be able to schedule activities. A new list will be made at the beginning of each month and posted in the showcase.

Coming Events

March 11, 12, 13—Hilarities of 1948.

April 6 — Motion Picture Series: "As You Like It"

April 20—College Choir and Madrigal Concert

April 24—Regional Home Economics Conference.

May 4—Spring Concert: Orchestra and Chorus

May 6—Motion Picture Series: "Cheers for Miss Bishop"

May 13, 14, 15—Spring Play

May 27—Leland Barlow, Esther Griffith, Jean Fulkerson and Charles Fulkerson—Mu Epsilon Psi Recital

Home Economist Honored At Tea

Miss Addie Lou Goodin, assistant professor of Home Economics at Humboldt State College, was hostess at a tea last week at her home given in honor of Mrs. Helen Matlock of Sacramento.

Mrs. Matlock, junior past president of the California Home Economics Association, spoke on current problems in the field of Home Economics and discussed the future trends in the field.

Mrs. Matlock is the Home Economist for the Made Rite Sausage Company in Sacramento and has been active in women's clubs in the state.

JENKINS, RIGGENBERG WED

Beryl Jenkins, switchboard operator at Humboldt, and Harold Ringgenberg, Bio Chemist major, were married January 29 at Turlock. Ringgenberg's brother-in-law and sister stood with the couple. Mr. and Mrs. Ringgenberg are now comfortably settled in their home in Arcata.

FACULTY WIVES ENTERTAINED

Faculty wives club of Humboldt State college was entertained at the Fred Telonicher home one recent evening by Mrs. Telonicher, Mrs. Leland Barlow, Mrs. Harry Griffith and Mrs. Charles Fulkerson. Dessert was served and a brief business meeting was held.

CALIFORNIA DRIVERS

California is usually high on the motor vehicle accident list for the nation in heavy driving periods like 3-day holidays.

Very few billy clubs in the U. S. are utilized by male goats.

Over 200 Students Participate In Annual Humboldt State Show

Tomorrow night is the night!

Tomorrow night is the night that the Hilarities of 1948 will take to the stage, and the event will mark another momentous achievement by the students of Humboldt State College.

This annual production is all-student acted, written, and directed, and is under the supervision of Don Karshner, assistant professor of Speech.

"PAST, PASTE, AND POSTERITY"

The show this year has been titled "Past, Paste, and Posterity," and will run March 11, 12, and 13 in the college auditorium.

The first scene of this year's Hilarities opens in the point of time where last year's production left off. Plans are being discussed in the scene for the big show of 1948. The grandfather of one of the students enters into the discussion and through him and his family the audience is taken into the continuity of the show which is based on college years of the past. Flashback scenes present college days in the years 1920, 1865, 1910, 1774, 1933, and in the future, respectively.

Tickets for the Hilarities of 1948 have been on sale since Monday, March 1, at the Associated Students Office. The prices are adults 75c, students 60c, tax included.

All seats are reserved.

CSTA Meets; Appoints Panels

The California Student Teachers Association chapter met recently in the College Elementary School library and appointed two committees to organize panels for the purpose of spreading information concerning the teaching profession to senior students in the county's high schools.

The panels will visit each county high school (also Del Norte High School) and discuss the profession with the seniors. It is hoped that many future teachers will be recruited through these panels.

At the CSTA meeting other committees were chosen to work up reports concerning the college which have been requested by the state CSTA headquarters. The contents of these reports will be published in subsequent issues of the LUMBERJACK.

The meeting was presided over by Bob Thoman, chapter president and state president-elect, and the closing minutes were utilized by those present in a discussion of the pros and cons of the organization adopting a policy of night meetings rather than the school-day meetings now being held.

MUSIC FESTIVAL HERE

A high school music festival for April 30, with daytime sessions at Humboldt State college and the evening feature in the junior high school auditorium in Eureka, has been planned by the North Coast Section, California Music Educators Association, of which Miss Pearl Jacobson is chairman.

WESTERN HIGHWAYS CROWDED

On account of the more crowded highways, eastern drivers are reputed to be more careful than westerners.

Who's Who In The Hilarities And Who Did What

DIRECTORS: Don Karshner, Ted DeLay.

TECHNICAL DIRECTOR: John Van Duzer.

SENIOR MANAGERS: Verle Gaddy, Emery Ringstad.

JUNIOR MANAGERS: Loretta Allen, Joe Barkdull, Frances Brizard, Pat Clark, Cora Lee Davis, Mary Dolf, Elmer Haskin, Mary Hull, Jackie Jordan, Ted Lanthaeume, Bob Linstadt, Charlotte Marks, Courtland Mudge, Phil Perry, Leon Pike, Ed Quill, Fern Stahl, Marie Weil, Jacquie Woody.

PLAYWRIGHTS: Faculty Adviser, Don Karshner; Darrell Altimus, Bob Clark, Ernie Gianotti, Zola Hill, Mary Hull, Wilbur Jensen, Ted Lanthaeume, Fern Stahl, Chuck Willcox, Bill Wilkins.

DRAMATIC DIRECTORS: Faculty Advisers, Ted Delay and Don Karshner; Darrell Altimus, Alene Beers, Pat Hofferbert, Elmer Haskin, Doris Kennedy, Ted Lanthaeume, Ed O'Donnell, Fern Stahl, Zatha Tallman, Chuck Willcox, Don Williams, Margaret Wurche.

DANCE DIRECTORS: Faculty Adviser, Miss Barbara Lyddane; Jerry Abbey, Alene Beers, Cora Lee Davis, Mary Dawn Melendy, Janet Oppenheimer, Joe Oppenheimer, Joan Telonicher.

MUSIC DIRECTORS: Faculty Advisers, Lee Barlow and Woody Thompson; Elmer Haskin, chairman; Chet Bosch, John Gasser, Ted Lanthaeume, Milt Makoski, Fern Stahl.

COSTUME COMMITTEE: Jackie Jordan, chairman; Loann Beamer,

Published weekly during the school year, except during vacations and examination periods, by the student body of Humboldt State College, Arcata, California.

EDITORIAL

"Hilarities of 1948" is the fourth annual student variety show to be presented since the inauguration of the all-college revue idea by a group of students and faculty in 1941. The first two productions were in 1942 and 1943. World War II so depleted the student body membership that the show was discontinued until it was revived in 1947. Last year's and this year's show each have included over 200 students in their casts and staffs.

The purpose of the "Hilarities" is three-fold: First, it presents unlimited opportunity for student participation, offering excellent experience in leadership and in practical application of skills learned in such fields as Drama, Dance, Stagecraft, Music, Art, Journalism, and Clothing Design and Construction. Second, the show strives to bring a good brand of entertainment to the college and community. Last, and surely not least, it offers a wonderful opportunity for all who participate to work together on a common problem and thereby achieve a level of cooperation which will contribute immeasurably toward strong school spirit and loyalty toward our alma mater.

GRIPE BOX

GRIPE: Since so much emphasis is put on the fact that organizations using the dishes in the social unit must wash, dry, and put those dishes away when the club function is over, we feel that it is only fair that hot water, soap, and dish towels be provided for the purpose. It ain't easy to dry dishes which have been washed in cold water with pieces of cheesecloth.

E.

GRIPE: Why is so much fuss made over the fact that the student body generously allots \$1006.25 to a 12 piece band and only \$511 to a 40 member choir, when the choir does more advertising (choir trips, etc.) for this school than many other organizations. The same is true of the dramatics department. These organizations put more into the student body funds than they take out.

Too much emphasis is put on

sports in this school. Our student body is not large enough to support a large sports program. Sure it is nice to have baseball etc., but it is also nice to be able to boast of a fine music department, art, home economics, dramatics and business departments instead of only sports.

E & B

GRIPE: I think that a round of applause should be given to the boys in the band that have worked like dogs for the past three months arranging music for the Hilarities. They have worked very hard to get the music ready only to find that all their work was in vain since it all had to be re-arranged at rehearsal because the singers could not sing (or should I say would not sing) it in that key. These boys are not receiving any recognition for taking time from school work to make this year's Hilarities a success. Would it be too much to have Woody Thompson and Chet Bosch take a bow during the finale for all their work.

E, B, B, F, J, C, P, M, N, E, M, C, S. B. J.

Due to the lateness of the arrival of the gripes printed in this issue of the Lumberjack they cannot be answered at this time, but if you will watch this column in the next issue of the paper we are hoping that we can give you a satisfactory answer.

RADIO RAMBLINGS

By DON CHAMBERLAIN

Everybody's buddy, H. Morgan, hits the news once again. This time it's because he's on top, not on the skids. He's known as the "triple threat" in the entertainment world, since he has a new radio contract, a Hollywood lantern slide release known as "So This is New York," and a B. Way musical revue with no title as yet. Yes, he's really hitting on all counts, and more power to him. Heard his show last week, and had an opportunity to appreciate a subtle brand of humor, unlike so many other comedians.

"Buck" Benny is riding high these days. He's second only to "Fibber McGee and Molly," according to the Hoopering. Bob (Trout Snout) Hope is down to sixth place, after being surpassed by even "Truth or Consequences."

It's a funny thing about Hooperings. They really don't show what programs are listened to the most. You see, only cities of a certain size are polled. Communities the size of Eureka and Arcata are never caught by Hooper. Therefore, if the truth could possibly be known, perhaps we would find that "The Grand Old Opry House" actually has a wider listening audience than "Fibber McGee and Molly," the first place show. Horrible to imagine, isn't it?

For the latest in HSC radio news, watch the "Radio Row" bulletin board. That's thirty for tonight. Goodnight and good listening.

More Scholarships And Contests

PHOTOGRAPHY CONTEST

The American Association for the Advancement of Science is conducting a contest in photography. The information concerning the contest has been turned over to Dr. William Lanphere, associate professor of biological sciences.

STORY CONTEST FOR WOMEN

Mademoiselle magazine is sponsoring a college fiction contest for women undergraduates only. Stories which have appeared in undergraduate college publications are acceptable, but only if they have not been published elsewhere. There are two prizes of \$500 each.

Mr. Thurston Womack, English instructor, has further information concerning this contest.

AMERICAN LEGION SCHOLARSHIPS

The American Legion scholarships are known as the National Commander Scholarships and are designed to aid sons of deceased veterans of World War I and World War II, actually in need of financial assistance to continue their education after completion of a high school course. Any such orphaned son is eligible irrespective of the date and cause of the death of the veteran parent.

Applications for the scholarships are to be submitted to the Commander of a post of the American Legion in the community in which the applicant resides, who will forward them for consideration. Application forms may be obtained from the Chairman of Education of War Orphans Commission, American Legion, Department of California, 2225 Gerber Avenue, Sacramento, and should be filed not later than March 31, 1948.

Twenty scholarships are to be awarded this year. Each will entitle the recipient to an allowance of \$100 every three months period he is engaged in pursuing a full time course of instruction at a college, university or technical institute of college grade, with a maximum limitation of \$1200 for the entire course.

In the year 1776 Americans were revolting. Some still are.

Viewing The Exchanges

By Pat Lauritzen

Viewing the "EXCHANGES" "beats" on the LUMBERJACK. Through this column I will attempt to keep you informed on the "happenings" at the various colleges in the state. My only hope is that this new feature will prove as interesting for you to read as it will be for me to write.

SAN JOSE SPARTAN DAILY: Ten of the top women bowlers were selected from the W. A. A. Bowling Club to represent the college in a National Telegraphic Tournament. S. J. State is out to repeat their victory of last December.

THE SISKIYOU, SO. OREGON COLLEGE: "Escaping gas sends student up for air," so it was said in the SISKIYOU. The gas was allowed to escape because of poor laboratory technique on the part of careless students. (To bad this didn't happen in our gym just before the S. O. C. vs H. S. C. basketball game!!!)

CAL. STATE POLY COLLEGE, EL MUSTANG: the plain truth as quoted from the above mentioned paper. WOMENS LAMENT. "If you smile at a man, he thinks you're flirting. If you don't flirt, he thinks you're an iceberg. If you let him kiss you, he wishes you were more reserved. If you don't he'll seek consolation elsewhere. If you flatter him, he thinks you're simple. If you don't he thinks you don't understand him. If you let him make love to you, he thinks you're cheap. If you don't he'll go out with a girl who will. If you go out with other fellows, he thinks you're fickle. If you don't, he thinks no one will have you. Men, bless them, don't know what they want!!!"

CHICO STATE, WILDCAT: Through the efforts of A. S. B., Chico State finally has a baseball diamond on which to practice. At the present time it is only for practice, whether or not it will be used for the actual playing of games is still the question.

Problems Of Education Acute In California

A recent talk by President Robert Gordon Sproul of the University of California, should be of great interest to future teachers studying at Humboldt State. President Sproul said that California's tremendous population growth threatens the State's leadership in higher education.

"Our entire State," he stated, "and especially the Southern part of it, is now faced with that problem in aggravated form, for it is now the receiving end of one of the greatest migrations that the world has ever known."

"To some extent," President Sproul said, "Californians are behaving like the people of a small community whose homes are imperiled by the sparks of a conflagration, and who run pell mell to the largest water hydrant, each fighting to get a hose attached first. Thus they end by saving a cottage and letting a hospital or

Katty Korner

By F. L.

College life is not all Books, Classes and Homework!!!!, and to prove this statement just take a look at the night life around the "Bay Area" (Humboldt Bay that is!!!!)

Many Humboldters were seen tripping the light fantastic at the local Brawl in the gym last week. Remember ???

PHIL PERRY, and not with you know who. This time it was CARL BLANKENSHIP BRYAN SHIEMAN and MARILYN BRIZARD were there just long enough to get their names in print PAT BLAUSKOUSKY (minus her jeweled pin for the evening) and STAN STUDLEY seemed to be having quite a gala affair Oh yes, your friend and mine!! BOB WASSON was there but where "o" where was ELMER HASKINS ???

CRITTENDON, CHAMBERLAND, and ABBOTT were proposing to every gal there, their only excuse being, "guess it's the only way you can get a gal to dance with you." Come now, times aren't that tough BRICK (lover boy) BRALICH and MARY DOLF were so engrossed in conversation that music or NO music was going to stop them

"SPIDER" KLINGENSPOR seemed to be having quite a gay time all the while one of his old "flames" was holding down a seat in the first row balcony, why don't you give the E.H.S. gals a break ??? JOE OPPENHIEMER and VIOLET LUND had that gleam in their eye - - guess they were counting the days to June 6th, won't be long now Nuff said about the BRAWL on the campus news

It's rumored that any gal with enough capital to cash in on a pawn ticket can become engaged for more data see GORDAN SCHROADER Who is the gal that comes up from S. F. each week end to see And in reverse, who are the two gals at Nelson who each time the phone rings, start packing their suitcases ???

JACKIE JORDAN and EMERY RINGSTAD seem to enjoy all the rehearsals required to put the Hilarities over. I wonder why ??? . . . and last but not least Who is the popular fellow on campus who seems quite interested in Foreign Affairs ??? Namely, Latin American Relations ??? Nuff said

WILLIAMS REPRESENTS MEN'S ASSOCIATION

SCHOLARSHIPS and CONTESTS

SWEDISH AMERICAN ESSAY CONTEST STILL OPEN

The Swedish Pioneer Essay Contest, launched last October, is open to college undergraduates; high school preparatory school students, and all other adults regardless of occupation.

Six free trips with all expenses from the winner's hometown and return are among the eighteen prizes offered by the Swedish American Line, sponsors of the contest, which closes April 1, 1948.

A list of recommended books for study for this contest is in the office of Thurston Womack, English instructor.

The problem in the contest, in case students are not familiar with it, is to write an essay on "The Influence of Swedish Settlers on a Community or Region."

Mr. Womack also has a copy of the contest rules.

SENATOR PHELAN POETRY AWARD

An announcement was made recently by the Trustees of the Estate of the late Senator James D. Phelan of one award being offered for the year 1948, open to the writers of poetry and carrying a stipend of \$1000. It is made available annually under the terms of a bequest to bring about a further development of native talent in California in the fields of literature and art.

Noel Sullivan, speaking for the Trustees, called attention to the fact that applicants for the award, both men and women, must be native born citizens of California, and must be between the ages of 20 and 40. Those competing must present specimens of their handiwork. A committee of experts in the field of poetry will be appointed by the Trustees to recommend to them the successful candidate.

Applications must be made on forms especially provided for that purpose, and may be obtained from the office of the James D. Phelan Award in Literature and Art, 820 Phelan Building, San Francisco, 2. The competition closes the 15th of March 1948, and the award will be made about the 1st of May, 1948.

TAMMINT CONTEST

A first prize of \$1,000, with thirteen additional awards amounting to \$2,000 will be distributed to college students by the Tammint Social and Economic Institute of New York, for the best 5,000 to 6,000 word essay on "An American Program For World Peace in the Present Crisis," submitted to its

Alumni Plan Payments Can Still Be Made

The Alumni Association of Humboldt State is a fast-growing, important function embracing numerous benefits for its members.

When you stepped up to the last window in the registration line at the beginning of the semester, you were asked whether or not you wished to join the Alumni Association. If you were like many, you revolted at the thought of paying a dollar with no immediate returns, even before you knew the facts.

The payment plan is on installment basis. If a person pays \$1.00 per semester for eight semesters, he automatically becomes a paid up life member with all the privileges connected with such membership. In all, \$8 entitles you to a life membership.

If an individual pays only a percentage of the \$8 total, upon graduation he is given the option of paying the difference and still receives a life membership status.

As member of the Alumni Association, you will receive these benefits: 1—You will receive the *Alumnus*, the official publication of the A.A. 2—You will be on the mailing list of the association so that you will know what the A.A. is doing and to be invited to all affairs. 3—You will have a direct contact with your college and friends. 4—You will be entitled to full voting privileges in all the activities. 5—You will be a part of the future of Humboldt State College.

If you missed your opportunity during the registration to pay your \$1.00 installment toward a life membership in the Alumni Association, you may still do so at room 107.

Former Faculty Member Author

E. Edward Graves, formerly librarian at Humboldt State College, has an article appearing in the Winter 1947-1948 issue of *LIVING WILDERNESS* Magazine. Mr. Graves is well known here.

The article, "In the Three Sisters Primitive Area," is about the author's experiences during a mountain climbing photographic expedition taken in the Three Sisters Mountains.

Producer of slide sets accompanying lectures in the "Colorful America" series, distributed by the Philip Photo Visual Service in Long Beach, Mr. Graves looks back on a long period of service in educational institutions from New England to the Pacific Coast, with spare time devoted to mountaineering, lecturing, writing, and scenic photography.

He was librarian at HSC from 1924 to 1945.

second annual contest. Closing date of the contest is April 23, 1948.

Students interested in this contest will have to dig for further facts concerning it, as the *LUMBERJACK* was unable to learn anything more than that printed here.

"Going Steady?"

By I. BEN READIN

Recently I read an article in the paper which frightened me nearly to death.

"The frequency ratio of dating girls by college students is directly proportional to their emotional personality," it said.

I could hardly believe it!

"This has been determined by Professors Meyer F. Nimkoff and Arthur L. Wood of Bucknell University," the article continued.

But it was difficult for me to.

This statement was the result of a study made by the two professors the article explained.

For quite a while I thought seriously of withdrawing from college. Studying could be dangerous.

Professors Nimkoff and Wood based their study on questionnaires sent to 500 students and a canvas of every other student in the student directory.

Perhaps they were students majoring in the *WILD LIFE*.

The study proved, the article said, that students who never date are predominantly socially retiring, with slight tendency to emotional maladjustment.

On the other hand they could be attending college under the G. I. Bill of Rights.

Then again, maybe they are married to narrow minded wives.

The professors claim also that students who date frequently (four to 16 dates in two weeks) are predominantly socially aggressive, and moderately emotionally adjusted.

And they probably sleep in class a lot, too.

Furthermore, the professors say that students who "go steady" are predominantly socially adjusted.

But they won't be for long—if they don't watch out.

However, the professors know more. For instance, students who "go steady" with parental approval, but start late in college life, approximate the norm for personality types.

It's almost unbelievable.

And if students start "going steady" in high school with parental approval, the professors know what's wrong with them, too. They are emotionally adjusted.

And at their age!

But then, if students "go steady" with parental approval while in grade school, they are socially aggressive and emotionally maladjusted, say the professors.

What a men thing to say!

In the last mentioned class, state the professors, are also those who start "going steady" under parental disapproval.

I liked that part best of all. I couldn't understand it, either.

The only true groundhog known to science is one which has been made into sausage.

Thirty-Five Disqualified At Humboldt

Mrs. Myrtle McKittrick, Registrar, announced last week that a total of thirty-five persons were disqualified at the end of the fall semester under the new rules adopted a year ago by the faculty. Of these thirty-five, nine were students who withdrew from college during the fall semester with one or more "F" grades. Since the new rule provides that any student who makes a minus index (less than a "D" average) is to be disqualified, these nine students are also included in the disqualified group. Of the thirty-five, thirty were men and five were women; sixteen were members of the Freshman class.

READMISSION ALLOWED

Disqualification means that a student may not enroll for the ensuing semester. After the lapse of one or more semesters, he may petition for readmission, and in most cases, a second chance will be allowed. In commenting upon the new system, Mrs. McKittrick stated, "These students are invited to make full use of the institutional facilities for testing and advancement, and are urged to spend the interval in profitable employment or study. Experience indicates that students possessing the ability to do college work often achieve a greater degree of success with greater maturity or with the clarification of vocational objectives. Disqualification should not be regarded entirely as a punitive measure, but rather as a protection to the student against continued failure, and the amassing of disastrous grade point shortages."

Some anthropologists believe that without women mankind would become extinct after one generation.

Fall Semester Offers Many New Courses

Fifteen new courses, some of which have appeared before in the catalog, but have never been scheduled, are offered to HSC students this spring.

Education: 195 PE and 195S which will interest those working for General Secondary Credential.

Art: 103—The Art of House Design.

Home Economics: 40, 165 — A good elective for non Home Ec. majors.

Journalism 120: Reporting.

Anthropology 1A.

Zoology 114.

Wild Life Management 8: Game Law Enforcement.

English 35.

Economics 106: A study of economic systems.

History 153.

Political Science: 105, 113, 153.

Social Science: 102, 106.

Some authorities are of the opinion that man descended from monkey. This makes the monkeys very angry.

People living in the far corners of the world believe the earth to be square.

Faculty Member To Teach At Stanford

According to the Stanford University News, a bulletin received periodically by Humboldt State College, Mr. Albert M. Graves, director of Secondary Education here, will be a visiting faculty member and lecturer for the Summer Quarter at Stanford.

Mr. Graves will take part in Stanford's summer program which is formulated to provide short, intensive periods of training aimed primarily at responsible adult leaders in business, labor, industry, the arts, government, and education. Its objective, according to Stanford authorities, is to reach and help the leaders of today as they grapple with current problems.

Experience No Longer Needed By Nurses

To meet the need for nurses in California state institutions, the State Personnel Board has eliminated the nursing experience requirement for Graduate Nurses.

Registered nurses who possess a valid California license, but have no experience, are now eligible to take the State Civil Service examination for Graduate Nurses, March 2, 1948. The salary range for this class is \$220 to \$268 a month.

KHSC Almost Ready to Open

Humboldt State's radio station, KHSC, is almost ready to operate! This is the final word as received from Ted DeLay, heading the Radio Department here at Humboldt.

In a recent interview, Mr. DeLay stated that wired sound would be in operation within two or three weeks. Wire will be strung from the studio to the dining room in Nelson Hall, the Co-Op, and to the front steps of the Administration Building. Bill Blackford will handle the immense jobs of stringing the wire. Present plans call for programming between 12 and 1 p. m.

Before the semester is over, the Radio Department plans to have carrier current service running to all section of the campus, including Nelson Hall.

Wired sound system is merely another phrase for "public address system," and can be heard only from loudspeakers wired to the transmission setup. On the other hand, carrier current will enable listeners within a certain area to hear KHSC on any standard radio receiver by merely tuning to the proper frequency on the dial. It takes some time to build and install equipment for such a system, therefore wired sound will be substituted for the present.

Mr. DeLay Radio Department is working overtime to get KHSC on the air as soon as possible. M. A. Perry, chief engineer for the station, is now working on the building and installation of the electronic equipment. Serge Steshuk is constructing the console desk and a crew of workers headed by Bob Brennen is busy sound-proofing the control room and studio B.

"Radio Station KHSC" has long been a dream of the faculty and students here at the college, and soon it will be a reality of which we can all be proud.

Associated Men Elect Officers

The Associated Men of Humboldt State are in the campus spotlight this week as the result of a recent reorganization meeting and election.

Des Shanahan was elected president of the Association. James "Turkey" Thompson was chosen vice-president, and Elton Bailey was named Secretary-Treasurer.

The main business on the organization's agenda in the annual mens' picnic, which will be held near the end of the spring semester. Preliminary plans are now being made. It is believed by the men of the Association that this year's picnic will be the most gigantic brawl in the history of local pubbing.

A meeting will be scheduled in the near future to complete final arrangements for the affair.

MEN GOOD AT LOVING

At Otterbein College in Westerville, Ohio, the men students are one per cent better at love making than women, according to a psychological test prepared by Prof. John Clippinger. Clippinger said the test indicated that seniors show greater geniality and compatibility than freshman.

CONSERVATION UNLIMITED, the official club of the Wildlife Department, held its first meeting Tuesday, February 24. The following men were nominated to fill the club's offices for the spring semester:

President, Hugh Bozarth, Bill Bailey, and Bill Smith.

Vice-President, Harvey Kalback and Wayne Heuer.

Corresponding Secretary, Elton Bailey and Ray Phillips.

Recording Secretary, Joseph

Verret and Frank Short.

Treasurer, Fred Easterday and Bill Nicol.

Sergeant of Arms, Jack Wright and Jim Studley.

Representative, Paul Barnes, Bud Hagerman, Norm Bird, and Carl Blenkinship.

The people who inhabit the country of Russia are known as Russian people. Americans, also, are often referred to as rushin' people.

EDUCATORS AGAINST U. M. T.

While the Truman administration and military leaders are now going all out to get Congress to enact universal military training, 75 per cent of the nation's leading educators recently voted to oppose the legislation.

Since World War II San Francisco has been serviced by three transcontinental railroads, 177 steamship lines, 30 truck lines, three air transport routes, and a trans-pacific air line.

REHEARSALS MAKE THE SHOW

The most difficult, and yet the most enjoyable, part of any show is the long series of rehearsals before opening night. The Hilarities is no exception.

One of the main headaches of Hilarities rehearsals is due to the important fact that people had to be coaxed to appear in the show. Students who did not wish to act, or even carry a spear, found their lives plagued around the clock by all sort of individuals out "scouting for talent." To stay out of the Hilarities, it became necessary for one to remain violently busy twenty-four hours a day.

In spite of the numerous dis-

Girl Manager

VERLE GADDY

Verle Gaddy is the girl senior manager for the Hilarities of 1948. Verle is a sophomore working for her teachers credential. However, following this semester her transcript should include—"First Class Shepherd" (one unit)—for the co-management of over two hundred students is a job for no beginning sheep herder.

Assisting Verle will be a group of junior managers, including Jackie Jordan, costumes; Phil Perry, Charlotte Marks, Jean Heise and Al Rosenfield, properties; Marie Weil, and Courtland Mudge, front house; Pat Clark and Jackie Woodie, wardrobe; and Loretta Allen, make-up.

Male Manager

EMERY RINGSTAD

Emery Ringstad is the male student-manager of the Hilarities of 1948. He will have the assistance of the following junior managers; Bob Lindstad, Mary Dolf, and Don Chamberlain, publicity; Mary Hull, dance; Elmer Haskins, music; Frances Brizard and Fern Stahl, program; and Joe Barkdull, Ed Quill and Leon Pike, stage force.

comforts however, rehearsals went through on time, with directors reading several parts when students had "classes".

Many pessimists looked aghast at the results of several weeks of rehearsals, and decided that, "It'll be a flop." After witnessing the first dress rehearsal of "The Show," the same pessimists found themselves saying, "It'll be a hit!"

Tomorrow night will tell the story. After that the 1948 Hilarities will be a success, for two performances, and then will be pushed in the background while more pressing problems are brought to the fore. But every "spear carrier," every "walk-on" will forever have a soft spot in his heart for the an-

1890 Heroine

MARY HULL

Mary Hull, will take the role of the Heroine in the 1890 act, one of the highlights of the Hilarities of 1948. After seeing Mary in this role you won't know whether the year is 1890 or 1911 and you won't care. This act is sure to make potential heroes out of the entire male attendance.

Grandpa Wasson

BOB WASSON

The lead in this year's Hilarities is handled by freshman Bob Wasson, who, as Grandpa, holds the show together.

Wasson's past is somewhat of a mystery but a boy with such talent could have only been born unto the theater. Rumor has it that Wasson spent his early years hiding in brass drums in various theatres studying the then renowned Ben Turpan, in whose footsteps he had planned to follow. In the years following a disheartening change of appearance came over Wasson and his hopes and plans were crushed. Thus he has entered HSC and is majoring in Radio, where he can be heard and not seen.

Bob is a great character actor and does a swell job portraying the role of Grandfather in the 1948 Hilarities.

nual Hilarities of Humboldt State College.

CALIFORNIA CARS

California, with almost 2,500,000 automobiles, had the most cars on the road during last year. New York was second with almost 2,000,000.

HUSBAND GOOD CREDIT RISK

Husbands are the best credit risk a store can take, according to recent research. The second best risk is single girls, and single men are the poorest.

Dancer

CORA LEE DAVIS

Cora Lee Davis is the featured dancer in the opening scene of continuity in this year's show. She will dance with Jerry Abbey in a modern dance routine.

Cora will be seen also in the Charleston and Bunny-Hug dance routines being presented in the 1920 act.

Karshner Heads Northwestern Speech Group

Don Karshner, chairman of Division of Fine and Applied Arts at Humboldt College, was recently elected president of the Northwestern California Speech Association.

This is an active group of people who are interested in the promotion of speech, drama, and radio throughout northern California, and particularly among the young people of high school and college age.

The association members meet once a month for dinner and discuss current trends in speech and drama. They also have readings of currently popular plays and productions during the meeting.

This group has been instrumental in getting the young people of northern California interested in dramatics and speech. The staging of the Northwestern California Dramatic Festival, held annually at Humboldt State College, has been one of the associations main projects. The Dramatic Festival brings together the speech and dramatics groups of many of the northern California high schools and colleges who give dramatic skits and readings for the public.

Other officers of the Northwestern California Speech Association are vice-president Gladys Roberts, a Humboldt graduate now teaching in Eureka, and secretary-treasurer Richie Jarboe, former outstanding dramatic student at Humboldt State now teaching dramatics at Ferndale High School.

The speech association's next meeting will be held Saturday night, March 13.

Man is the only animal on earth which can communicate over long distances for long periods of time without saying anything.

Singer

GENE ORLANDI

Gene Orlandi sings a solo in the 1920 act of the current Hilarities. The song—"This Holiday."

Gene appears also in the Troubadours and A Cappella Choir scenes as a member of those groups.

Also Sings

LOANN BEAMER

Loann Beamer plays the role of Sally in the "Future" sequence and sings one of the production's original songs, "You Will Be The World To Me."

REASONS WHY WE STUDY POLITICAL SCIENCE

A poll of Arizona State College freshmen showed recently that less than seven per cent were familiar with the Truman doctrine and only 22 per cent knew about the Marshall Plan. Twenty per cent had never heard of General Eisenhower.

Nearly all of the world's history is the result of events which have happened in the past.

H. S. C. BASEBALL PROSPECTS BRIGHT

Competition Tough for All Starting Positions

With the familiar cry of "play ball" less than three weeks away, Coach Warren Conrad has his Lumberjack baseball prospects hustling around like kids at an Easter egg hunt as he drills them in preparation for the opening game against Linfield College to be played at the Arcata ball park March 26-27.

In the opening practice of the season the Lumberjack baseball mentor was greeted by almost a complete all-veteran team, plus a host of promising newcomers. Only three players were lost from last year's horsehide aggregation. Phil Young, regular backstop, and John McDonald, first baseman, via graduation; and Gene Johnson, hurling ace, who signed with the Boston Braves.

Slated to handle the mound chores for the Lumberjacks this year in addition to veteran pitcher "Red" Hunt, who shows improvement with each practice, will be Ted Anvick, former Arcata High fastball ace, and Don Carlson and "Shorty" Stebbins dependable performers from last year's squad.

Catching prospects include: Bob Barnum, former Eureka High star, and Royce Lima, well known local athlete. The initial sack is still wide open due to McDonald's graduation.

Keystone prospects are as bright as the spring sunshine with Kenney Dunaway, Fortuna High great; Lyn Carranco, hard hitting veteran baseball campaigner, and Jim Dickinson, returning regular from last year's sparkling infield, breathing down each necks for that starting call.

The "hot corner" will feature an all out battle between George Renworth, last year's hot fielding regular; Cliff Peterson, batting sensation at Eureka High last year, and Cliff Prelow, fast, smooth fielding prospect from Southern California.

Shortstopping duties will fall either to Eddie Oliveria, speedy all round athlete who held down the berth last year; Byron Wilson, former Crescent City High school performer, or Dick Oliver, fielding marvel from Fortuna High School.

Outstanding prospects for the outfield are as plentiful as 1948 presidential candidates, and Coach Conrad may have to consult an Ouija board to determine just who will earn the starting berths. Heading the list of returning regulars is Mike Whalen, slugging home run king of last year; Bill Bailey, hard hitting right fielder of last year, and Bob Bell, the Eureka speed merchant with the whiplash arm who played the left field spot last season. Newcomers include: Joe Newman, prep sensation from Jordan High of Long Beach; Bob Brennan, who starred last year as a catcher be-

WARREN CONRAD

Fields Landing Defeats C. C. In Intramural Play

Play in the intramural double elimination basketball tourney got underway last Wednesday night when a potent Fields Landing quintet decisively trounced the Crescent City five 51-30, in a game played in the college gymnasium.

Crescent City spent most of the first quarter trying in vain to locate the approximate position of their basket, and in throwing passes into the empty bleachers as Fields Landing piled up an 8 to 0 lead. Halftime score favored the "whaling station" lads by a 24 to 6 margin.

Wally Maciel, of the Crescent City Maciels, found his eye in the second half to spark a rally that almost brought his team to within dribbling distance of the victors, and gave him scoring honors for the evening with sixteen digits.

Bob Bell with twelve points was high for the Fields Landing five, followed by Cunningham with eleven and Red Hunt with ten.

Other teams in the red hot race for tournament honors include: Fortuna, Arcata, Knights, and the Troubadours.

"BUFFALO BILL" COLLEGE PREXY

Col. William F. Cody, more widely known as "Buffalo Bill," was a man of diverse talents but few people realize he also attained prominence as an educator. Buffalo Bill achieved universal fame as an Indian fighter, a hunter and a Wild West showman. However, from the archives of the University of Wyoming comes the information that he was also, at one time, a college president. The college was not named.

fore being injured and changed over to the outfield, and George Phillips, local flychasing demon.

SPORTS SPIEL

BY DON TERBUSH

H. S. C.'s Lumberjack cagers closed out their 1948 play by defeating the Crescent City Merchants 83-56 in a free for all at the northern city, Tuesday night, March 2. Despite the fact that the C. C. boys did everything but tattoo him with a pitch-fork, Darrel Brown managed to collect scoring honors for the fracas with 16 hard earned points. An indication of the brutality of "give-Brown-a-rough-time-night" was the fact that "Brownie" missed seven consecutive free throws. Games like these are unnecessary and uncalled for. In the future to save the expense of traveling, why not match the basketball team against the boys who are out for spring football practice, thus insuring the fact that the basketball team will end each and every season in a badly bruised and battered physical condition.

Hate to keep yapping and griping like an overbearing mother-in-law, but just what is holding up construction on the new Humboldt State track? Work was to have started on March 1st and so far even the gophers haven't moved any dirt. Waiting until a day or so before the first track meet is leaving entirely too much to fate. Our hard working cinder stars deserve something better than that.

While on the subject of poor athletic fields, why not put the baseball candidates on pogo sticks and have them work out on an ice rink? Their chances of good practice sessions and possible survival would be much enhanced. That junk-littered stretch of swamp land they are now working out on is a menace to all nine lives of an alley cat. Actually, that practice field still holds the remnants of last fall's rally bonfire and several coils of rusted wire, while the ground is so uneven that the pitcher sends smoke signals to the catcher to indicate that a pitch is coming towards him, and the umpire lets the pitcher know the result of the pitch by field telephone. Let's not endanger the life and limb of our ballplayers simply because the responsible parties won't take the time to remedy the situation.

Guess it's about time to join the rest of the crowd and start looking over that four leaf clover that everyone is singing about, and wax enthusiastic over the bright potentialities of our track and baseball teams. Watching them work out is reason enough to become highly optimistic—they look GOOD!

Track candidates are hereby reminded that Thursday, March 18th is the date tentatively set for that interclass trackfest. So take it easy on the milk shakes, eat your spinach, and don't talk back to girls. It's leap year you know.

HSC Millmen Lose Far Western Bouts

A disheartened and disgusted band of travel weary Humboldt college boxers arrived home Saturday from the Far Western Conference boxing tourney which was held on the Cal Aggie campus at Davis last Friday night. The flashy Lumberjack leather-tossers failed to win the judges decision on a single bout as the spectators booed the verdicts lustily.

According to local boxing enthusiasts who accompanied the team to Davis, H. S. C.'s Lawrence, Ferguson and Hawkins failed to win because they chose to merely outpoint their opponents instead of going in with fists flying like participants in a street brawl. Evidently the judges felt that college boxing doesn't warrant skilled tactics.

Grady Lawrence gave his opponent, Herb Jergentz of Chico State, a lesson in the art of fisticuffs and tagged him with enough solid blows to cop a decision. Evidently the judges wanted a knock-out and wouldn't settle for less.

Clarence Ferguson, classy middleweight, lost another heart-breaker to Don Brown of the Cal Aggies and the Lumberjack fans started chewing up their programs.

Ralph Goldsmith who fought at 135 pounds made it three losses in a row in dropping the duke to Carl Schoner of the Cal Aggie Mustangs.

In the light-heavyweight division, Lee Hawkins of the Lumberjack campus had his man staggering around the ring in quest of a soft place to lay down and still managed to lose the judges' nod.

Cal Aggies emerged the ultimate winner in amassing a grand total of 24 points, followed by Chico State with 22, and San Francisco State with 10.

WAR'S END EFFECTS VETS

Public Law 239 has set July 25, 1947, as the official end of World War II for the purpose of computing eligibility for veterans benefits under the GI Bill of Rights and P. L. 16. As a result, education and training under both laws must be completed by most student veterans by July 24, 1956.

Competition in the double elimination intramural basketball tournament is waxing hot and heavy with each and every contest well worth the short jaunt to the gym to see it. Use some of that free time to view these games with your best girl, and if you can't find a girl take an ice cream cone. You haven't lived if you've never held a pistachio ice cream cone in your arms as you watched a closely contested intramural basketball game being played.

Well said the snowflake as it drifted lazily down a smoking chimney, "here's where I dry up!" Bye sports.

ANNUAL CSTA MEETING ANNOUNCED

The annual meeting of the Junior Executive Council of the California Student-Teachers Association will be held at the Palace Hotel, San Francisco, on April 9 and 10.
