

COEDS ON RAMPAGE

Girls Vie With Draft For Male Attention

Considerable unrest is evident on the Humboldt State College campus today. College authorities are reported ready for trouble; the police have been alerted for a possible student body riot.

Unofficial observers state that the trouble locally originates with the women on campus. These sources say that the coeds will probably revolt with noisy demonstrations—for one reason because the Selective Service System is taking too many men into the service.

Although the ratio on the campus is four men to every three girls, (the reverse of the

national proportion of unmarried persons) the women are insisting on their Northern California rights to retain the figures in their favor.

Mutterings in the halls and in the doors, clandestine meetings and other ominous signs point to coming disturbances of a serious nature, which might lead to maladjustment of the studying procedure and possible injury to the men students.

Month Almost Over

Men on the campus, especially single males, are reported apprehensively waiting the end of February.

As the day is gradually

closing the men are watching for signs indicative of trouble. They have been warned to expect mass proposals, riots or any other type of mass hysteria.

Rumors are that the fairer sex does not intend to be choosy in their selections of men.

Women complain that the members of the masculine gender, those left in school, are studying so hard to remain in the upper 10 per cent of their classes that they do not have time for love-life. Sports is another disturbing influence.

Dating isn't even what it used to be. Evening companions are now expected to be able to carry on a conversation intelligibly.

For the first time in four years there is an extra day on the calendar. Gregory (of Gregorian

Women Assume Anxious Role In Mating Pursuits

calendar fame) had to make up some time on his calendar, so he added Feb. 29. Not until Feb. 29, 1956, will these girls (taking post-grad courses) be able to pop the question again.

Unofficial sources working out of Nelson Hall forecast dire consequences for men who decline proposals of marriage, even in view of the draft. The question of support, women maintain, is not involved.

Other college women who already have their men, are reported ready to invoke the old laws of breach of promise in order to maintain their position of engagement. Rivals are being

warned about the principle of alienation of affections; such questions will be settled out of court.

Co-educational students not living in the dormitories are reported well-organized for sorties on gregarious males. House fathers are urging males to be in their homes before nightfall.

What the situation on the HSC campus will be by nightfall is unpredictable. It'll be four years more before another Leap Day comes and the law enforcement authorities say it is the only bright sign in the current situation of unrest on the campus.

COSTUME CARNIVAL-DANCE

Mardi Gras Tonight, Portuguese Hall

RED LETTER DAY

Mardi Gras and Leap Day are being combined on the Humboldt State College campus today, Feb. 29. It might be called a long Tuesday here or the elimination of the rest of the week.

Defined by Webster, Mardi Gras means Fat Tuesday or Shrove Tuesday. Coming on the day before the opening of the season of Lent, the day is one of celebration and confession (shriven of faults).

Hence at HSC the girls will admit today by their proposals of marriage that they have not always been happy alone and that they cannot live without their Humboldt men. The men will confess to their desirability by women; that is all.

It's Mardi Gras Time!

Although the City of New Orleans, the queen of all Mardi Gras, closed up shop last Tuesday on their festivities, the HSC campus will be the scene of belated activities of a celebrating nature tonight, Feb. 29.

A combination dance and carnival, the Mardi Gras, will be in costume with a king and queen to reign over the festivities. Caravans of student groups will be announced by a fanfare according to their time of arrival at the hall.

Student clubs and organizations will operate booths in one section of the hall for games of

chance and sport while dancing proceeds in another section. Linda MacMillan, junior in education, is chairman of the HSC Mardi Gras.

Wear Costumes

Clowns, animals, fat lady, insects will be some of the costumes which students and faculty will wear at the Mardi Gras celebration in the Portuguese Hall.

Booths, operated by student organizations, will open for business at 8 p. m. featuring games of chance, basketball throws, throw the wet sponge and bingo.

The faculty wives will operate a coffee and cake booth for refreshments. Other groups which will augment their treasury coffers will be the Block H, P. E. Club, Knights, Spokes, and many others.

Faculty Aspires

Many members of the faculty have accepted nominations to be candidates for the royal positions of King and Queen of the Mardi Gras.

Nelson Hall is sponsoring Mr. Frank Stegall and Miss Kate Buchanan; Spokes is promoting Mr. J. N. McIntyre and Mrs. Myrtle McKittrick; Knights will root for Mr. Bill Himstreet and Mrs. Merklin; the P. E. Club and Block H have chosen Mr. E. L. Sturdivant and Mrs. Hermie Johnson. Other faculty nominees are being selected by school organizations this week.

To Be Judged

A panel of judges, consisting of a representative from each

(Continued on Page Six)

LAST DAY

Friday, Feb. 29, is the last day for making program changes.

After today, if a student wants to change a course, he must file a petition for review by a faculty committee. If his petition passes, he may drop the class without penalty.

Dropping a class after Friday without a petition will mean an automatic failure in the subject.

Evans Named To Student Council

Blanche Evans, freshman from Blue Lake, is the newly appointed member of the ASB Executive Council. She will fill the post left vacant by Pauline Domogalla, who recently resigned from the Council.

The appointment was made by Toads Stebbins, student body president, and was unanimously approved by the Council members. Miss Evans' term of office expires in June, the date on which Miss Domogalla's term would normally have expired.

Press Woman

Miss Evans is a journalism major. She is on the staffs of both the Lumberjack and the Sempervirens and has taken charge of the publicity work for the Homecoming Committee, the Blood Drive, and the Popera.

Miss Domogalla is a senior from Twin Falls, Idaho, majoring in Education. She has been a member of the student governing body for two semesters and has been active in several other organizations of the college, including the Greater Humboldt Committee, the Rally Committee, and Christian Round Table.

Miss Domogalla resigned from the Council because she feels that her student teaching job keeps her too busy to give the proper amount of time to her council duties.

Conservation Conference At Chico; HSC Attends

"The principle keynote of conservation is action," stated Honorable Clair Engle, congressman from Red Bluff, at the Third Regional Conference on Conservation of National Resources held at Chico State college Feb. 21-23.

Congressman Engle, principle speaker of the opening session, spoke on the role of legislation in conservation.

Dr. Roy E. Simpson, director of the State Department of Education, listed the purposes of the conference from the viewpoint of education.

He stated that teaching our children the needs of conservation is one of its most important phases. "We can't fool children," Dr. Simpson pointed out.

"Children will not recognize our teaching unless we practice wise usage ourselves."

Hannum Speaks

"Survival, good living, and the desire to pass resources on to our heritage are the ultimate

objectives of conservation," stated Warren T. Hannum, director of the Department of Natural Resources.

He also emphasized that we must remain aware of the interrelations existing between our resources. "Neglect in one phase of conservation may adversely affect another," said Hannum.

The conference was attended by more than 700 persons from various state organizations, conservation clubs, and members of the state colleges.

HSC Represented

Representing Humboldt State College at the conference were President Cornelius H. Siemens, Dr. Homer P. Balabanis, Dr. Fred A. Glover, Mr. John DeWitt, Jim Adams, Galan Mann, Bill Hines, Bill Hawes, Ray Johnson, Don Gastineau, Jim Wagner, Ed Hansen, and Dan White.

Other topics discussed consisted of the nature of the land

Leap Day, 1952

Page 2

DEMOCRACY—RIGHTS AND RESPONSIBILITIES

Democracy is founded on a series of inter-related rights and responsibilities.

One of these rights refers to that of equal representation in government.

All of the people can not serve in the Capitol. Instead a few hundred or thousand band together and choose a representative. The people then let these representatives express their collective voice in the affairs of the country.

But a representative is not able to correctly express the desires of his electors, if they do not first inform him of their wishes.

Herein lies one of the responsibilities of the people—that of the electorate keeping the elected informed as to its desires.

We are always ready to demand our rights, but not our responsibilities. We do not even want to accept them.

Apathy Reigns

One might try to rationalize and say that a particular issue does not concern him. After awhile this argument may even become a habit. It is the result of such a phlegmatic attitude on the part of the people that a minority is often victorious over a majority. Witness the HSC ballot concerning universal student body cards.

Student body government at HSC is a classic example of this apathetic deluge. For instance, the Ten Per Cent Plan recently passed by the Student Council levied a ten per cent service charge on non-student body card holders purchases at the Associated Student Body bookstore and refused service to non-card holders at the Student Union.

In effect this was a plan whereby the council hoped to impress upon the students some of the benefits received from ASB membership. Few, if any, of the students knew of the plan before it was passed and put into effect. The explosion came after it was adopted.

Protests, legitimate and otherwise, came from scores of students. If the protesting students had been exercising their responsibility, perhaps by proposing an alternative plan, this problem could have been solved in a more satisfactory manner.

Express Your Will

At present there are many proposals and problems being discussed by the council. Many of these, if passed, will affect the entire student body. If we expect the council to act the way the majority wills, then the council must be informed as to what the majority wants.

Some of the council members have stated that during their one or two terms in office not one student has ever asked them how they stood on a certain issue.

In order that our student body government may become truly representative and express the will of the students, we must place our responsibility in government on a par with our rights.

From the Files of the Lumberjack

April 23, 1937

To Robert (Bob) Madsen, now mayor of Eureka, goes the credit for having established the traditional all-campus work day at Humboldt State.

Under Bob's direction, the first workday was held at Humboldt April 23, 1937. Since that time, workday has been enthusiastically supported by the student body.

April 10, 1946

Joe "Cowboy" Forbes, recently appointed head coach at Humboldt State, is expected to visit the Humboldt campus during next week.

Forbes, who is under contract at Compton Junior College until June will probably outline his style of play to the Lumberjack gridders who at present are right in the midst of spring practice."

February 12, 1941

"Milwaukee, Wis. (Special) — An extensive study of the art of pottery, entitled "Practical Pottery for Craftsman and Students," has come from the pen of Roy Horace Jenkins, professor of industrial education at Humboldt.

Veterans Enrolled

The registrar's office reports that 84 veterans are enrolled this semester at Humboldt. Of these 30 per cent are majoring in Wildlife, Biological Science, Education and the Fine Arts fields each have 13 per cent.

MEMO FROM THE PRESIDENT

Feb. 25, 1952

To: All Lumberjacks
From: The President's Office
Re: Proposed State College League

An unusual event occurred in Los Angeles on Valentine's Day. The presidents of our ten state colleges voted unanimously and emphatically to establish a new league for intercollegiate sports. For the first time the public colleges of California will plan mutually advantageous schedules, financing, rules and regulations covering athletic competition.

This move is both timely and desirable. **Timely** because only four state colleges are at present in a league. **Desirable** because the state colleges have the same administrative policies and organization, the same admissions and academic standards and they incorporate athletics as an integral part of the regular curriculum. This should make it reasonably easy to establish and control the rules and regulations for athletics.

The ten state colleges with the possible addition of U. C. at Davis and U. C. at Santa Barbara could form northern and southern divisions in the major sports. Competition would also be scheduled in other sports and hopefully in the areas of art, music, and speech. Wholesome competition among these schools, devoid of pressures and undesirable practices, could be possible because coaches contracts, aid-to-athletes, stadium mortgages, and fancy bowl games would not be at stake.

Humboldt State has much to gain from membership in such a league. Scheduling and financing would be simplified, with student and community interest increasing as we compete on reasonably equal terms (even if smaller) with our sister colleges. Let's all hope that this forthright attempt to solve the perplexing problem of intercollegiate competition meets with the success it deserves.

C. H. Siemens
President

Von Humboldt Portrait on Way

Humboldt State College will be presented with a portrait of its namesake, Baron Alexandre von Humboldt, by the Cooper Union for the Advancement of Science and Art of New York.

It was offered in a letter to the college president, Dr. C. H. Siemens, which stated that "... It is in fair state of preservation although, as it was framed some years ago with inadequate space between canvas and glass, a small portion of the canvas has adhered to the inside of the glass ..."

The college will have the portrait repaired and pay express charges. It will probably arrive sometime this spring and will be hung in an appropriate place.

Baron Friedrich Heinrich Alexandre von Humboldt (1769-1859) was a German scientist, author and traveler. At the time of the settlement of this area he was quite prominent in his field. One of his best known papers is "Cosmos, a sketch of a Physical Description of the Universe."

About the Monster

LIBRARY A STOREHOUSE OF WORLD KNOWLEDGE

By Ed Hansen

"Dead monster" is a common phrase tacked to the library. Nor is it a morgue, as they say in journalese. This is far from the truth. It is not just a four-walled room filled with pages and covers.

The activities which take place in it are not as simple as stamping books with dates, collecting fines, or the uttering of the traditional—shhhh!

Full of Life

In reality the library is a whirling mass of living protoplasm. Sparkling personalities in the form of staff members and active student minds, which turn the lifeless words of authorities into dynamic thought, add life to this cell-like structure. The chief function of the library is to disseminate information in one form or another to the students.

Experts on Staff

The staff is composed of experts who are more than willing to aid in reference problems.

Mrs. Helen A. Everett, head librarian, states that professional employees are required to have at least one year of graduate work and are carefully selected as specialists in one or more fields.

Mrs. Everett is a specialist in language and English literature. Architecture is one of her hobbies. She drew plans for her own house.

The order work is headed by Mr. Richard Dean Galloway. He is well-versed in the social science field and is interested in bird-watching.

In the position of head cataloger is Mrs. Miriam C. Maloy who directs her knowledge toward the sciences and art. The history of San Francisco occupies much of Mrs. Maloy's spare time.

Over at CES

Mr. Robert R. Freeman, CES librarian, has a good background in audio-visual education and finds diversion in photography and playing the trombone.

Theodore Wimmer, library clerk, favors the fields of language and literature. He derives much pleasure from collecting and listening to Dixieland Jazz records.

The professional staff is to be enlarged in March by the addition of Miss Eleze Butler. She is a specialist in education and school library work.

The work of the staff is both varied and voluminous. They must spend long periods in preparing the yearly budget and giving justifications for its expenditures. It is their job to see

that money is spent wisely and "elastically" at the same time.

Knowing New Books

A good deal of time must be spent keeping up to date with new knowledge and new publications. Instructors must be informed of books which they may not be aware of.

Also many tedious hours must be devoted to classifying books received to make sure they are placed in the proper sections. Mrs. Everett says that it requires about one-half hour of work per book from the time it is unwrapped until it is placed on a shelf.

"At the present time there is need for another cataloger and a circulation and reference librarian and it is hoped that the latter will be obtained by July first of this year," Mrs. Everett said.

Besides the full-time staff, there are 14 part-time employees whose duties are directed toward typing orders, preparing books for circulation, shelving books, and maintaining the reserve book room.

Not Peanuts Here

The library may well be classed as a big business. Over \$40,000 is allotted by the budget this year according to Mrs. Everett. This amount is divided as follows: \$16,000 for books, \$2,525 for periodicals, and the remainder for salaries, binding, and miscellaneous supplies.

About 375 new books are purchased each month. A certain portion of the budget is apportioned to each faculty member for procuring these books.

The number of different periodicals runs well over 400. These have been selected as the best from the various fields. The staff attempts to scan each one as received so as to have some knowledge of what it contains. Thus if an inquiry is made they will have sufficient command over the material to steer students in the right direction.

On Stolen Books

The great problem of missing literature looms each year, the result being not only an economic loss but also a deprivation in knowledge to students which can not be evaluated in dollars and cents.

The entire staff urges students to utilize the available facilities, to consult not only books and periodicals but also the library specialists.

Every Humboldt Stater should remove from his mind the misnomer of "dead monster" and instead recognize the library as one of the most important cogs in the educational machinery of the college.

College Men In Service Report On War Duties

Pfc. Carl M. Jensen, 19429410, 37118th Training Squadron, Lackland Air Force Base, San Antonio, Texas.

At the present time Carl is shipping clerk for his squadron but has made his formal application for officers candidate school. Upon completion of this six month course he will be a second lieutenant in the air corps.

Cpl. Jim Vernon, RA 19384391, Hdq. Co. 2nd Bn., 15th Inf Regt, APO 468 c/o HM San Francisco, Calif.

Jim, as did all the others, expressed his gratitude for the Christmas package which HSC students sent. Jim is located somewhere in North Korea with the infantry and is patiently awaiting the cease-fire order.

Choir Leaves Wednesday For Three-State Concert

With 12 stops scheduled on their itinerary, the College a cappella choir will leave the campus March 5, by special bus to tour in three states.

On their week's tour they will sing in Hoopa, Redding, Yreka,

Grants Pass, Springfield, Eugene, Albany, and Vancouver, Wash. On their return trip they will visit in North Bend, Ore., Bandan and Crescent City, reaching home March 2.

This group of 37 unaccompanied voices is under the direction of Mr. Leland Barlow. They received high acclaim from music educators and radio executives on the Pacific Coast.

Humboldt's choir was honored as the first choir to make an appearance over a television program in San Francisco. Last spring they gave a 30-minute program over the Mutual Network.

Madrigal Singers

A special feature on the program to be presented at the schools will be a group of selections by the Madrigal Singers. The ensemble of nine voices sits formally about a candle-lit table and sings the part-songs of the 16th century. Members are Alice Stockhoff, Darlene Peterson, Earl Rumble, Yvonne Morrison, Rebecca Balabanis, Betty Everett, Jim Arnot, Ed Solenberger, Leland Barlow and Jerry Beck.

Plan Home Concert

Following their return the choir will present their home concert on March 18 in the college auditorium. It will begin at 8:15 p. m.

Mr. Barlow, who has been at HSC since 1946, is a graduate of the Oberlin Conservatory of Music and completed his Master's degree at the State University of Iowa. He has studied choral work with Mr. Olaf Christiansen, new director of the St. Olaf Choir, and with Mr. Thompson Stone, director of the Handel-Taydn Oratorio Society, Boston, Mass.

Carlisle Of West View For College

With the establishment of an Indian scholarship project and the opening of permanent headquarters in the college for the Indian Welfare Foundation of California, E. L. Godfrey, Foundation vice president, and general manager, speaking in Arcata recently, said, "Humboldt State College can become the 'Carlisle of the West.'"

College officials are offering educational opportunities, reviving Indian arts and crafts and recognizing the responsibility to the state's lowest income group, he said.

The non-profit Foundation has set the goal of \$250,000 for Indian rehabilitation scholarships. A fund-raising campaign in 1952 will seek this sum.

The Indians themselves are behind this plan to improve their standard of living, vocational skills and social conditions through education.

NEW LETTERHEAD FOR ASB

The Associated Student Body of Humboldt State College has a new letterhead for business correspondence. Designed by Bob Harper, special student in education from Crescent City, the green printing on green-tinted paper features a lineup of HSC students in the various uniforms of athletic, social and academic endeavor, led by the marching Lumberjack with his traditional axe.

COMO ESTA?

An educational tour of Mexico will be conducted June 26-July 23 by Prof. and Mrs. Juan B. Rael, 574 Lasuen St., Stanford University. Expenses for the round-trip tour from Los Angeles will be \$498.

UNDER THE DIRECTION of Mr. Leland Barlow the College Choir leaves next week for a tour of several concert appearances in Oregon and Washington as well as in this state.

Navy Wings Open To Eligible College Men

College men with no immediate plans for their post-graduate future except a tour of military duty have an opportunity for a Naval Reserve commission and an aviator's wings in the Naval Aviation Cadet program.

The program recently reopened after being closed for nearly a year, due to a large back-log of applicants. The enlisting office for the entire northern part of California is at the U. S. Naval Air Station, Oakland 14, Calif.

Interested men can procure applications by mail from that office, but they must report there in person later for physical examination and interview. However, qualified Aviation Cadet applicants living at a distance from Oakland will be furnished free government transportation.

To be eligible to fly with the Navy, an applicant must have 60 semester hours, must be unmarried and remain so during training, must have received induction orders, and must pass physical and written aptitude examinations.

NAVY NEEDS WAVES

The Navy wants and needs women to serve in nearly every type of shore activity, including air stations, naval hospitals, district headquarters, Navy yards and supply depots. Women are needed to fill many important assignments that are essential to maintaining our fleets at sea. Without the presence of Waves in World War II, 86,000 men would have had to fill shore billets.

THESIS PUBLISHED

The Abstract of Charles Isberg's Master's Degree thesis, "Survey of Secretarial Workers in Humboldt County," has just recently been published in the California Journal of Secondary Education, December 1951.

Charles Isberg received his B.S., June 1948, from the University of Indiana, his General Secondary Credential, January 1950, and his Master's Degree, June, 1950, here at Humboldt State. He is now teaching English and Newswriting at the Eureka Senior High School since February 1949.

Cash Competition Opens In Literature and Art

The 1952 James D. Phelan Awards competition is made available annually under the terms of a bequest to bring about a further development of native talent in California in the fields of literature and art.

First award will be \$500.00, the second award \$300.00, and the third award \$200.00.

Applications must be made on forms especially provided for that purpose, and may be obtained from the office of the James D. Phelan Award in Literature and Art, 320 Phelan Building, San Francisco 2. Applicants must submit not less than two and not more than three short stories. The competition closes the 31st of March 1952.

POPERA CHAIRMAN

Bob Titlow was named general chairman for the Popera held February 22nd in the Eureka Municipal Auditorium. "Popera" means a combination of popular concert and dance.

WINDING UP a successful basketball season, in which the Jacks defeated each conference opponent at least once, the HSC squad includes these 14 players. Back row, Bill Joy, Bob Matthews, Bob Eggers, Ray Mechals, Jerry Anderson and Bob Dunaway. Front row, Dick Stacy, Lee Randall, Dick Oliver, Eldon Watts, Don Flemming, and Walt Greene.

Wildlife Graduates Scatter Over U. S.

Quite often the wildlifer wonders if he will be able to get a job upon graduation. At a recent interview with Dr. Fred A. Glover one of the ideas brought out was the variety of jobs HSC graduates have filled. Some are not working directly with fish or game but have managed to study in the field indirectly.

Harvey Kalbach is working for the Public Health Service studying the effects of atomic radiation on animals.

Animals and Crops

Earl Beihn, while working for the Public Health Service, wrote a paper on crop depredations by game animals. It was published recently by the California Fish and Game.

"Spike" Naylor, assistant game manager; Burt Collins, conservation aid; and Bud Reinicker, assistant game manager, are working out of Honey Lake Waterfowl Refuge.

Naylor and Collins were trapping Brant geese on Humboldt Bay recently and at the last report were highly successful. This is the first time Brant have been trapped and banded on their wintering grounds.

At Longhorn College

Ken Teaburg is working on Mourning Dove at Texas A & M for his M. S. degree.

Glen Carter is also working on his M. S. degree in Fish and Game Management at Oregon State College.

Wes Fleming is assistant project leader on the waterfowl survey in Arizona. Fleming is the only man working directly with waterfowl in the state of Arizona.

Bill Monroe has been with the U. S. Fish and Wildlife Service at Coleman Fish Hatchery until recently when he was called back into the Navy.

Shooting Trouble

Bob Ledonne is with California Fish and Game at San Francisco. His job is in part, that of a trouble shooter, going into the field wherever his help is needed.

Fred Wright is a game biologist with the Nevada Game Commission.

George Turner is project leader on cover development in Ohio.

Draft Test Applications Must Be In March 10

All eligible students who intend to take the Selective Service College Qualification Test in 1952 should file applications at once for the April 24 examination, Selective Service National Headquarters advised today.

An application and a bulletin of information may be obtained at any Selective Service local board.

Applications must be postponed no later than midnight, March 10, 1952. Early filing will be greatly to the student's advantage.

Women Here Prefer AB Education Degree

The A. B. degree in liberal arts and in education and the bachelor of science degree are the most desired goals of the majority of Humboldt State students, according to a recent survey.

Of the women enrolled at Humboldt, over half (91) are working toward Bachelor of Arts degrees in Education; 56 women want an A. B. degree in liberal arts. In business administration and secretarial training 26 women are enrolled. The remaining 44 are following a variety of special, terminal and pre-professional courses. These include art, home economics, pre-nursing and others.

Humboldt men are interested in liberal arts and science, the survey showed. One hundred and five men are working for bachelor's degrees in each of these fields. Sixty-six of Humboldt's male students want to receive bachelor of arts degrees in education. Seventeen are enrolled in pre-medical courses and 15 in pre-engineering. Most of those remaining are taking pre-professional and special courses.

See New Horizons For Fisheries Grads

Fisheries graduates are doing well in their field according to Mr. John W. DeWitt, who is in charge of the HSC fisheries program. Frank Short will return to work with the California Fish and Game as soon as he is discharged from the Navy where he is serving now.

Don Hosterman is a fishery marketing specialist with the U. S. Fish and Wildlife Service in New Jersey.

Clarence Vevington is working on his M. S. degree at Stanford University.

Jim Richards is a junior aquatic biologist for the California Fish and Game now at Placerville, California.

Manager Candidate

Looking forward to a managerial position, Doyle Gates is working for Lazio's Fish Co. in Eureka.

Also working in Eureka is Wayne Baldwin at the Bureau of Marine Fisheries.

There are some who, at the present time, are not working with fish but are in hopes of finding a place soon.

Clifford Middleton has been employed by the Idaho Fish and Game Dept. for the past year in charge of fish-counting and taking operations. He is now looking for a position in California.

Seasick Fish-Man

Chronic seasickness is what kept Bob Menchen from continuing his work with the Bureau of Marine Fisheries. He is now looking for a dry-land job.

After a summer with the N. Y. Conservation Department, Vern King returned to California to manage a private fish farm. It is located in Sonoma County near San Francisco. The three-acre lake, with its 50-60,000 trout, caters to sportsmen only.

BASEBALL WORKOUTS BEGIN; 30 GAMES ON HSC SCHEDULE SENEN LETTERMEN BRING OLD BLOOD TO SQUAD

As Coach Phil Sarboe's hard-wood proteges wind up a successful cage season, baseball comes into the limelight on the collegiate sport calendar.

Phil Sarboe will again coach baseball. Phil is well-qualified for the position having played three seasons of professional baseball as an infielder.

Daily practice sessions began the week following the last encounter of the basketball team. The first game for the hilltop horsehiders will probably be in the middle of March with a team from the surrounding area.

Seven With An H

Seven lettermen will greet Sarboe at the initial practice. Al Braud, catcher; Bob Matthews and Bob Kezsely, pitchers; Jack Fiskness, Jim Gillogly and Dick Harmer will be the returning infielders with Dale Sorenson the only returning outfielder.

With these lettermen to form the nucleus, Sarboe will have a large number of freshmen and college transfers to choose from to make up the balance of the team. At the present time 22 men are signed up for intercollegiate baseball but Coach Phil hopes to have at least a dozen more before the first practice.

Newcomers Include

New baseball hopefuls include catchers Bill Joy, Art Perra, Tim Corrigan and Mel Hurd; Pitchers Steve Kezsely, Bill Sellsor, Bob Dunaway, Gene McKamey, Glenn Wallace and Larry Paynter; infielders Jerry

CONFERENCE BASEBALL GAME SCHEDULE

(all games doubleheaders)

Apr. 15—Chico State—There
Apr. 17—Cal Aggies—There
April 19 or 20, So. Ore.—Here
Apr. 26—Chico State—Here
May 1—Cal Aggies—Here
May 10—South. Ore.—There
Other games with schools such as Oregon Tech., Santa Rosa JC, Camp Beal, San Francisco State, Sacramento State plus a number of teams from the surrounding area, have been set but the dates have not been decided upon yet.

Garcea, Keith Darling and Ray Mechals; outfielders Red Pettersen, Dick Trone and Dick Mencke.

The positions of the new freshman and transfers are not definite as are the lettermen because Sarboe must switch around in order to get the best workable nine.

Such losses as Wally Maciel, Ken Dunaway, Don Flemming, Jerry Zattola by graduation and ineligibility will be greatly felt by this year's club.

First Conference Game

Humboldt will play all home-and-home series with conference opponents starting with Chico State April 15.

When asked by your reporter for a comment on the chances of this year's team, Phil stated, "It all depends on old man weather."

FISH STUDENTS TOUR STATE AGENCY POSTS

Along with five advanced fisheries students, Mr. John W. DeWitt, assistant professor in charge of fisheries, recently returned from a tour of the state where they visited many educational installations.

Making the mid-semester trip were Joe Cranic, Ralph Pickens, Earl Gibbs, Leslie Lahr and Kenneth Gelatt.

Among the places visited were the U. S. Fish and Wildlife Service office in Sacramento, the state warm-water fish hatchery at Elk Grove, the Bureau of Reclamation at Tracy, the fisheries museum at Stanford University, the Hopkins Marine Station in Monterey and the Steinhart Aquarium, California Academy of Sciences in San Francisco.

Side Lines on Sports

The selection of the belated All-Conference football team, which was released last week brought many staccato howls and Mr. Mackay Martin, league statistician at Chico State, became the target. Baying at the moon in this case was misdirected.

Many grid fans in this part of western Oregon did not know that the four coaches of the conference made the selections, many times, it seems, not knowing opposing players by name. They might see that HSC, for instance, had a bear-cat of a line-backer; to them his name didn't really matter. Thus it was that Walt Greene, an outstanding guard on offense, was given both offensive and defensive honors on the first team, although he did not play defense last season for more than a few minutes. Ray Mechals deserved the defensive laurels.

The result was that the players, at least in this area, laughed at the selections. They were not honored in the least. Because the selections lack any value, they are not repeated here in print.

However, Mr. Martin cannot be blamed for the grid selections. Rather the trouble is being caused by the long-time growing pains which the Far Western Conference is undergoing. The league and the coaches are not well-organized enough to come to any agreement of the minds at this stage. Coach Phil Sarboe is urging regular meetings of the coaches.

What the future of the Far West Conference will be depends on developments in the contemplated League of State Colleges, which include 12 teams, 6 in each division. The Far West Loop may drop out of existence by 1953 in all sports.

We'll just have to wait and see which way the wind blows.

INTRAMURAL NEWS

By Pat Quakenbush

Nelson Hall still dominates the maple with their record of four wins and no losses. Their fast brand of ball-playing and the height of Al Williams and "Big Gene" McKamey to control the backboard make the Nelson Hall quintet seem unbeatable.

Gillogly and Adrain took top honors in the game between the Knights and the Block H Feb. 21. Gillogly scored nine points for the Block H, while Adrain racked up six for the Knights. The final score was Block H, 27, Knights 18.

Redwood lost to the "Villagers" 32 to 20 the same night, with Hulsberg and Holmgren of Redwood tied for first place at five points each. Gruel was high for the "Villagers" racking up 14 points.

Nelson Hall came out on top against the, until then, undefeated "Hornets," with a score of 26 to 22 Tuesday night. Maciel was high point man for Nelson Hall with 10 points, while McNaughton of the "Hornets" also scored 10.

The faculty beat the Wildlifers by a score of 25 to 12. Roscoe and Himstreet, for the faculty, tied for top place with six points each. Gelatt was high with nine

IN CONFERENCE WINDUP

JACKS TIE FOR THIRD WITH 3-9 RECORD

Chico State couldn't do anything wrong in the eight quarters of basketball, which they played against Humboldt on Feb. 15 and 16.

They won the first contest by the score of 97-57 and didn't have much trouble in repeating Saturday night by a score of 77-53.

Friday night the Jacks played good ball, but couldn't hold together through the third quarter.

Although losing, Bob Dunaway stole high-point honors in the first game with 23 markers.

As for Saturday night, Butler of the Wildcats was high with 21 and the Jacks were led by Wallace and Dunaway with 17 counters apiece.

Split with Aggies

Humboldt State College, hot one night and cold the next, gained a split from Cal Aggies.

Friday night the Jacks couldn't be stopped as they outplayed the Aggies by a score of 81-64. High point honors were well-divided between Bob Dunaway, Jerry Anderson and Dan Wilson. Dunaway poured through 17 points, Anderson 16, and Wilson 15.

The second game was a different story as Ron Knight of the Aggies put on a one-man show by sinking 38 counters. It was just a reversal from Friday as the Jacks came out on the short end of a 72-52 score.

New Type Basketball Game Ends in 30-30 Deadlock

"This is basketball?" could easily have been the question posed as the Spokes tied up the Intercollegiate Knights 30-30 in a cage game played at the Eureka High Gym, Feb. 12, for the March of Dimes benefit.

The Knights played under the slight handicap of being tied together and having only three legs between two players.

The scoring was a bit irregular. Three points for field goals and 1½ for free throws were awarded the girls while the men received one point for field goals.

Not that it mattered, but the Knight combination of Ioelu-Gipson took honors with 8.

M. Bartlett and Balabanis paced Spokes with 7½ each.

The Knight participants were Syvertson-Braud, Harmer, Ripini, Ioelu-Gipson, Cook-Mendes, Johnson - Rall, Weatherwax - Crawford, Collier-Wilson, Stebbins-Adrain and Jordan-White.

Spoke players: Earl, Loeb, B. Bartlett, M. Bartlett, Oman, Lewis, Balabanis, Smith, Waight, Ball and Annie McGaraghan.

Coach for the Spokes was Anne Colosimo, and for the Knights Mel Hurd. Eureka mayor, Bob Madsen and Councilwoman Annie McGaraghan were the referees.

points for the Wildlifers.

The intramurals have proved successful, and competition between the fast-playing ball clubs is keen. The teams really put on a show, but they lack spectators.

Team	Won	Lost	%
Nelson Hall	4	0	1000
Eureka Hornets	4	1	800
Villagers	3	1	750
Redwood Hall	2	1	666
Block H	2	2	500
Faculty	2	2	500
Knights	0	4	000
Wildlifers	0	4	000

By a strange quirk of fate the four teams in the Far Western Loop ended their 1951-52 basketball season with deadheats in two positions on the league ladder. There will be no playoff for the title.

Far Western Conference (Final)		
	won	lost
Cal Aggies	9	3
Chico State	9	3
Humboldt State	3	9
Southern Oregon	3	9

Southern Oregon Drops Jacks Twice

By Dick Stacy

One of the worst games the Humboldt squad has played all season in the Far Western Conference, happened Friday night. The Southern Oregon outfit trounced the Jack five, 68-44, in a fast game.

In the scoring race "Bones" Wallace netted the top for 19 counters, playing a wonderful offensive game. For the Raiders' outfit Weaver took scoring honors with 14 points; following close behind with 12 points was Kimwia.

Repeat Next Night

For the second night in a row, a red-hot Red Raider basketball combine caught a cold State outfit by surprise to rack up a 74-39 rout, thereby sweeping the two game weekend.

Every Lumberjack who appeared on the floor on the Ashland court managed to draw a

STURDY VIEWED ON SPRING SPORTS

With the arrival of occasional sunshine the tennis courts are the scene of increasing activity! Twelve matches are scheduled for the team this year, and most of them away from home.

The proposed matches are: May 3, Chico at Chico; May 10, Southern Oregon there; May 16 and 17, Far Western Conference meet at Chico; Northern California Tennis Association Tournament April 16 and 17 at San Francisco, and six matches with various local high schools.

The team, still far from complete, will have some pretty fair players. Personalities like Paul Hartloff, Jack Geary, Buzz Lincoln, Chris Colgrove, and Walt Green will be seen sporting Humboldt's Green and Gold on the courts.

According to tennis coach, Sturdivant, there are still many openings on the team! Racketmen and women should see Mr. Sturdivant immediately.

Bounce Ball Bowling

Bowling is creating a large amount of interest among the student body as shown by the foul, from the whistle-happy officials.

The game between the Jacks and Red Raiders was a one-sided affair all the way.

It seemed like never-die-Dunaway took top scoring honors for the Jacks by netting 10 points for the winners.

For the Red Raiders Johnson and Weaver set the pace, 16 and 15, respectively.

overflowing bowling class. "Sturdy" Sturdivant, instructor, has organized inter-class bowling teams and from all accounts these teams are enthusiastically supported.

Humboldt State does not have a bowling alley and the alley here in Arcata is small. As a result many students who would like to participate in this sport are having to be turned down, Coach reports.

Divoters Do Digging

Three or four more golfers of collegiate caliber are needed to round out the golf team. At present only three experienced golfers, Fuzzy Lampella, Frank Pike, and Barney Elking have made known their intentions of shouting "Fore!" for Humboldt State.

The aspirants meet every Friday afternoon, weather permitting at 2 p. m. "With spring just around the corner here is your chance to get out into the invigorating fresh air to feel the thrill of driving the ball 250 yards, and to finally succeed in lowering your golfing score. Come on out!" Sturdivant says.

Few Fists Flying

Lacking fist power the scheduled inter-collegiate boxing matches have been cancelled. However, the boxing class is still continuing twice weekly, Monday and Wednesday at 10 a. m. under Coach Sturdivant, who hopes that some of the fighters from this class will be the nucleus for a team next year.

On bit of excitement for the future collegiate boxing this year is the prospect of the trip to watch the Pacific Coast Conference fights to be held in Sacramento, March 21 and 22.

HS Girl Reporter Budget Talks Advises on Men

By Nancy Earle

While rambling around the football field the other day, with a magnifying glass in hand, looking for old cigarette butts to smoke, I came across a group of fellows practicing sprinting and fast take-offs.

Curious to know the meaning of all this pre-season track-training, I inquired. The boys (mudders), safe on the other side of the field, shouted that they were aware that it was Leap Year.

Who Needs Excuses

They made up some flimsy excuses for wanting to be able to outrun the fair young things that had been chasing them since the beginning of the year. Such excuses!!!

Continuing my search, I came across a group of gals, who, by the furtive glances (issuing from their eyes) looked as though they were about to hatch an atomic attack or something.

Deep Dark Plot

The conspiracy, as I should have guessed, was directed against the young men and other moles who attend HSC. They unwittingly supposed I wanted in on the plot so they gave me a few pointers.

For the benefit of less fortunate takers-advantage of Leap Year who as yet have not discovered the secrets of obtaining a spouse, here are some hints that I'll pass on.

1. Keep in good physical condition so you'll always be able to take off after HIM. To be on the safe side, carry a lasso in case your legs give out.

2. Curl your eye lashes and roll your eye-balls.

3. Bait the chairs with glue.

4. Strengthen the muscles in your little finger so you can curl HIM around it.

And, gals, if none of these work, you can always set bear cat traps outside of Nelson Hall and catch a prowler or two.

If worse comes to worse, there is always the possibility of inveigling our legislature into passing a law similar to the one passed in Scotland in 1288.

The Scottish law reads, "It is statute and ordaint that during the rein of hir maist blisit megeste, for ilk years knowne as lepe yeare, ilk mayden ladye of bothe highe and lowe estait shall hae liberte to bespeke ye man she likes, albeit he refuses to talk hir to be his lawful wyfe, he shall be mulcted in ye sum ane pundis or less, as his estait may be; except and awis gif he can make it appeare that he is betrothit ane ither woman he then shall be free."

Conservation Meeting

(Continued from Page One)

of northern California, the distribution of the population and its utilization of the land, the role of science in conservation, and a discussion concerned with the capability of land versus the use of the land presided over by President Siemens.

Study groups concerned with the various phases of conservation were also held.

Purposes of Conference

In the closing session Dr. Jay D. Conner, associate superintendent of public instruction, State Department of Education, stated that the purpose of the

Budget Talks At Capitol

A \$659,668 budget for Humboldt State College for 1952-53 is being considered by the Ways and Means Committee in the State Assembly in Sacramento. This is a 10.7 per cent increase over last year's budget.

The increase is due to an enlargement of the faculty from 93 to 110, which includes additional maintenance personnel, President C. H. Siemens reports. The cost of college operations per student has also risen from \$1,143 to \$1,271 for the new academic year.

Extension Classes Now Underway

Registration for extension courses for the current semester has been carried on this week and will continue through next week.

Courses are given on the campus and at Eureka Junior High School. Dr. Ivan C. Milhous, coordinator of extension services, has announced the following courses will be offered this semester.

Agronomy, a course in elementary soil science, has been scheduled to meet Tuesday and Thursday nights at 7:00 p. m. Mr. John Dolson is the instructor.

Water Color Class

Also on the campus, a class in water color painting will meet Tuesday from 7:00 to 10:00 p. m. The instructor will be Mr. John Berry.

An opportunity to do elementary or advanced woodworking will be provided on Mondays at 7:00 p. m. The class will meet in Jenkins Hall with Mr. Arthur Stegman in charge.

Two education courses are offered in Eureka. School finance on Mondays at 7:00 p. m. and a workshop in curriculum construction, Tuesdays at 7:00 p. m. The workshop is open only to advanced students.

First Aid Given

A standard Red Cross course in first aid will be given Wednesday nights. Dr. Joseph Forbes is the instructor. Fundamentals of biological science will be given by Mr. Ernest Beebe. This course is channeled for the elementary school teacher.

Classes in art appreciation will be given by Mr. Reese Bullen on Monday nights.

For the convenience of off-campus students several courses have been extended to the late afternoons and evenings. Information concerning these courses may be obtained from the office of the registrar.

TENNIS TEAM WINS

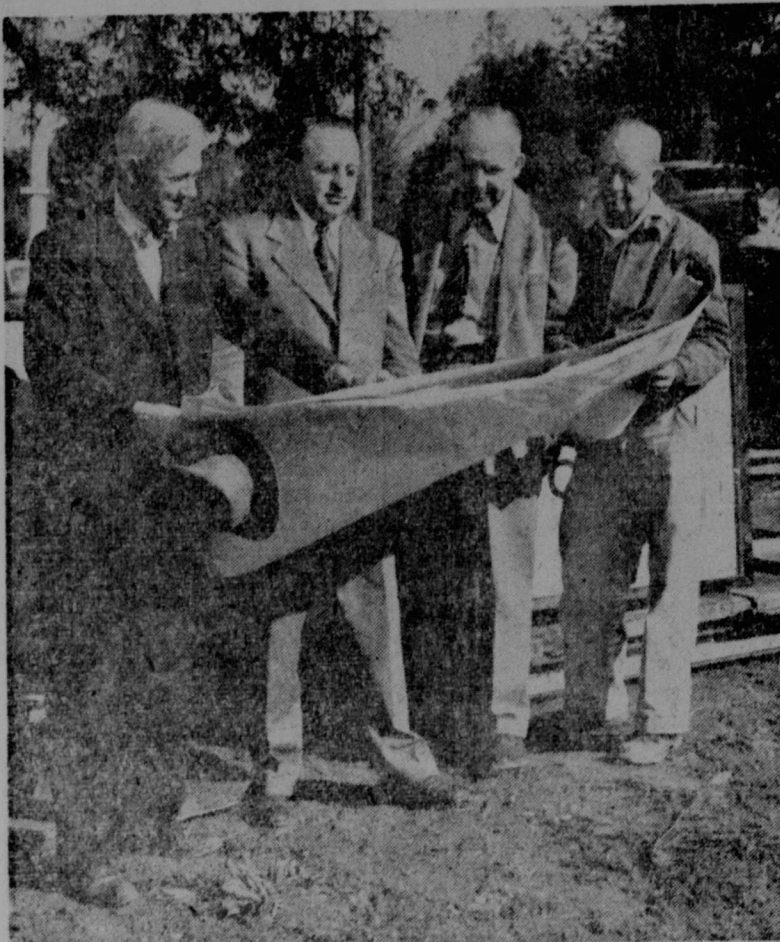

The HSC Tennis Team thumped Eureka High School Tuesday afternoon 5-1 at their courts.

The Jacks won in the doubles tennis matches at EHS. Greene and Lincoln downed Dalianes and Marcus.

conference was to promote community wide conservation education and to afford the opportunity of those interested in conservation to bring forth their accomplishments and problems.

A NEW LIBRARY for Humboldt State College was on the way last week with the ground breaking ceremony. President C. H. Siemens (second from left) reviews blueprints for the \$240,000 structure, which will have 17,000 square feet of floor space. Others pictured are Mr. George Kneppler, State Division of Architects (far left), Mr. George Storm, construction superintendent and Mr. James Tracy, site development contractor.

Arcata Fire House Where Alumni Association Began

The Alumni Association of Humboldt State Teachers' College was formed in 1924, and held its first meeting at the Firemen's Hall in Arcata on September 12 of that year.

The affair was in the form of a Homecoming Banquet in honor of Dr. Ralph Sweetman, then president of Humboldt State. With about 300 people in attendance the following "first" officers were elected:

Pres. Hugh B. Stewart; Vice-Pres. Alice Dupré Murray, Sec.-Treas. Jessie Turner Woodcock.

The first constitution for the

organization was adopted in September, 1925. In 1930 Hugh B. Stewart accepted the office of treasurer, a post he held most capably until 1946 when he retired from active duty with the Alumni Association.

During these past 27 years the Association has sponsored many successful social events, and has provided various athletic scholarships. Also members receive, at stated intervals, the alumni's own newspaper, "The Alumnus."

This year Dr. Everett Watkins is president of the Alumni Association. Mrs. Mildred Sears is treasurer.

Art Students Exhibit Last Week

An exhibit of student Arts and Crafts work was recently held in the college social unit for both students and the general public.

The show, tentatively scheduled to close this evening at 5 p. m. is the output of work produced during the fall semester of 1951. The exhibit includes oils, watercolors, pen and ink, charcoal, pencil sketches, color problems and designs for draperies, bookbinding and leather craft.

Students whose work is represented are Betty Walter, Jean Stephens, Wesley Willits, Virginia Anderson, Alan Ripine, Irma Watts, Merle Akins, Helen Fiamma, John Whitaker, Herman Fleischer, Meri Monroe, Elsie Nelson, Doris Raynor, Wayne McLean, Don Erikson, Joan Meyerhoffer, Mary Bowersox, Betty Everett, Henry Bettiga, Jack Shaffer, Ray Lorenzato, Peggy Hunt, John Grisham and Bob Crittenden.

Choir To Tour Northwest Region

Leaving Wednesday on a week's singing tour, the Humboldt State College a cappella choir will stop in 12 towns before returning home March 12.

Following are the members going on the trip: Jo Myerhoffer, Fern Stahl, Claire Valentine, Diane Goodrich, Shirley Pitlock, Vera Mathews, Rebecca Balabanis, Joan Flockhart, Betty Maston, Yvonne Morrison, Betty Reynolds, Mary Bowersox, Jackie Ambrosini, Kris Brown, Alice Smith, Jackie Loeb, Joan Caligari, Marilyn Eshleman, Darlene Peterson, Dwain Haines, Frank Crane, Alice Stockhoff, Ken Poyfaire, Adrain Mendes, director, Leland Barlow, James Palmer, Hal Sieber, John Smith, Robert Titlow, Bernie Johnson, Bacome, Jerry Beck, Earl Rumble, James Arnot, Ed Solenberg, and Peter Louquet.

Steel Allotted For New Buildings

The President's office at Humboldt State has received word that the National Production Authority has allocated sufficient steel and other critical materials for the immediate construction of the Library, Biological Science building and the Maintenance building. These projects were begun last fall but were halted for a period of three months because of lack of priorities.

Mr. Anson Boyd, state architect, has requested in a letter to the general contractors, Haas and Rothschild of Oakland, "to initiate construction on this very urgently needed facility at the earliest possible date."

The three buildings involve over one million dollars worth of construction and will replace badly overcrowded and limited teaching library and maintenance facilities.

The new library building will have a large general reading and reference room, an adequate reserve book room, an audio-visual room, which will be available for films and club meetings. There will be additional offices for library staff workers.

Estimated cost of the library will be \$450,000. The modern design will have 17,000 square feet, and two floors of re-enforced concrete.

MARDI GRAS TONIGHT

(Continued from Page One)

school club or organization, will vote for the King and Queen of the Mardi Gras on the basis of best costumes. ASB President Toads Stebbins will place the royal crown on the rulers for the evening in the coronation ceremony.

Members of the Newman Club, which is sponsoring the combination Dance and Carnival, have been working during the past week preparing booths in the Portuguese Hall, located at 11th and D Streets. A special aerieal event on Friday after the assembly announced the affair.
