DISPLAYS SET FOR FIRST HERITAGEWEEK

The diary of a Civil War soldier, copies of the Constitution and the Bill of Rights, and records of people and events in American history will be displayed on the Humboldt State College campus during the first two weeks in February.

Tracing the development of American culture, the display fits the theme of the American Heritage Week February 13-17. Humboldt State is the first College to sponsor such a week, according to chairman Martin A. Watkins, assistant professor of English.

The Civil War diary was written by Oliver W. Bradford, great grandfather of Humboldt State freshman Russell Bradford of Eureka.

About his enlistment in the Union Army in October 1861, O. W. Bradford wrote: "By the fall of 1861 the war had assumed giant proportions and I felt it my duty to enter the service. So about the middle of October 1861 enlisted in a company being made up at Hillsboro, Ia., of which Joseph Newbold, a farmer of that vicinity, became Capt." Bradford was later wounded and captured. Describing his imprisonment in Kentucky and Alabama, Bradford said, "The Rebel Soldiers used to remark that our men were dressed well enough to go to meeting in their country, but thought they could fight as well as though they were well dressed."

In 1862, while in prison, Benton wrote: "To begin, will say that the war was wholly right, and unavoidable upon our part. Necessary to preserve our government and to insure peace and prosperity of our distracted country."

First and second floors of the college library will host exhibits important to American history. Facsimiles of the Declaration of Independence, the Constitution, the Bill of Rights, Washington's Inaugural Address of 1789, the Emancipation Proclamation and other basic documents, including photographs of Lincoln and Lee and prints of American artists, architects and printers will be displayed in the audio-visual room.

A display devoted to the country's musical heritage will include recordings of American folksongs and portraits of composers. Of special note will be a library section devoted to American history written in contemporary newspaper style, making the landing of Columbus and the War of 1812 seem as vivid as the events of yesterday.

Sigma Xi Plans First Meeting

First meeting of the new HSC club of Sigma Xi, national honorary science society, will be held Wednesday, Feb. 8, at 12:30 p.m. in room 103 of the Science building here.

All Sigma Xi members and associate members within commuting distance are invited, said Dr. William Wasserman, of the committee on arrangements. The group will adopt bylaws and elect officers and make final plans for an installation dinner that is tentatively set for Saturday, Feb. 18.

Women Bid Dates To Leap Year Dance Tonight

Women students have an opportunity that comes once in four years when they date the men tonight at the Associated Women Students' leap year dance.

Couples will dance from 9 p. m. to 1 a. m. to the music of Ray Posic's orchestra in the Carson Memorial building, Eureka.

Decorations will follow the theme of "Out of This World," said Sylvia Harris, dance chairman.

Bids may be obtained in the office of the dean of students or at the door tonight. Price is \$1.25 a couple with ASB card or \$1.50 a couple without card.

The dance is "dressy," Miss Harris said.

Assisting here are Carol Semell and Gayle Allen, decorations; Gayle Reynolds and Fern Fowler, refreshments; Roberta Johnson and Dottie Wilkenloh, bids; Joy Parlo, Rosemarie Gwerder, publicity; Fran Singleton and Arlene Sterner, clean up. Committee members are members of the AWS cabinet and women students who have indicated an interest in AWS activities.

Patrons will be Mr. and Mrs. Arthur Stegeman, Mrs. Kathryn Corbett, Miss Kate Buchanan, Dr. and Mrs. Cornelius Siemens, Mr. and Mrs. Paul Johnson, and Mrs. Bernard Hall, and Dr. and Mrs. Don Karshner, Dr. and Mrs. John Baker.

STANDARD GIVES 2 SCHOLARSHIPS

Two leadership scholarships of \$400 each will be awarded for the 1956-57 academic year to Humboldt State College students by Standard Oil Company of California.

Announcement of the scholarships was made Wednesday by Dr. Cornelius H. Siemens, college president, in a conference with R. E. Watkins, the company's district sales manager on Feb. 1, and F. T. Garesche, the firm's public relations representative in San Francisco.

The awards are part of a nationwide education aid program sponsored by Standard.

Selection of the winners will be made by the college's scholarship committee. The awards will be made on the basis of leadership, financial need and scholastic achievements, each receiving equal consideration.

Stokes Outlines Job Prospects

Prospects for summer and permanent jobs with the California state department of fish and game were outlined to more than 100 Humboldt State college wildlife and fisheries students recently by James D. Stokes, regional manager of the department.

Mr. Stokes pointed out the prospects for summer jobs with the department were excellent. Permanent employment is dependent upon results of a competitive civil service examination, but the state is planning to add about 25 new wardens through the examinations this year, he said.

He also gave the students some advice.

HSC TO ADD DIVISION IN SEPTEMBER

Humboldt's rapidly expanding game management and fisheries programs, as well as the occupational curricula in forestry and agriculture, were given added status this week with the announcement that a new Division of Natural Resources will be added to the existing instructional divisions next September.

Announcement was also made that subject courses will be re-grouped in the Division of Language Arts and the Division of Fine Arts. The reorganization reflects HSC's expanding program and is expected to aid the student in his choice of a major field to study.

President Cornelius H. Siemens announced approval by the President's Council on Monday of the reorganization plan proposed by Dean of Instruction Homer P. Balabanis and the chairmen of the various instructional divisions.

The new Division of Natural Resources will include undergraduate and newly approved graduate work in game management and fisheries, the two-year course in forestry, and courses in agriculture. These are occupational curricula which emphasize applied science and field work.

The Division of Natural Sciences will include the basic physical and biological sciences and mathematics.

The second major change in instructional divisions for next fall will bring a merger of the speech arts subjects of speech, speech correction, drama, and radio-television with the English, foreign languages, and journalism subjects into a new Division of Language Arts.

"The combination will make possible a better coordination of speech and English courses," Dr. Balabanis said, "and will allow students integrated majors in these fields, which will be especially helpful for prospective teachers in public schools."

First Woman Wildlife Graduate Is Off To Alaskan Out-Of-Doors

The first woman student to complete Humboldt State college's game management program, and one of the few women ever to qualify for the bachelor's degree in wildlife studies, will complete her work this week and be off to the great out-of-doors she's grown to love.

She is Mrs. Sera Miller Baxter who left Arcata last week for Anchorage, Alaska, to join her husband. Mrs. Baxter was married last June to Rae Baxter, a 1955 graduate of Humboldt State College's fisheries program, who is now employed as a fisheries biologist for the U.S. Fish and Wildlife Service.

Mrs. Baxter is a shy and diminutive blonde who feels most at home when she's close to nature. She realized an ambition she nurtured since childhood when she entered college to train for game management, first at Washington State College and then at HSC.

At Humboldt State she's been an active member of Conserva-

Faculty Cagers Play (?) Yearly Hoop Tilt Today

Biggest news event of the year hits HSC campus today as the fabulous, famous, forthright Faculty "Highwater Hoopsters" basketball team meets the student intramural all-stars in the College Gym during the assembly period, 11:00 to 12:00 a. m.

This is one of the few times a student may boo and heckle his instructors (face to face that is) and still get a passing grade. However, no bottles or any other throwing material will be permitted in the stands.

Many past stars of John L. Sullivan's era will squeeze or pour themselves into basketball suits, rain coats, pajamas, red flannels, swim suits, hip boots, dinner jackets or other appropriate apparel, to show the younger generation how the game (game???) is played.

Expecting to lead the Highwater Hoopsters (or should we say Trippers) in quest of their easily attainable win will be such Wobbly William Wasserman, stars as Jaunty Gerald Partain, Battlin' Bob Doornink, Creepy Ced Kinzer, and Agile Archie Jones. Jumpy Joe "Watch this shot" Forbes and Jolly John Baker carry a lot of weight on the squad and will be closely watched by the referees who are wise to their football tactics in close quarters.

Back from last year's championship team is All-American Gabby Giles Sinclair, who will again perform from his wheelchair, Gorgeous Gene Flocchini, Frantic Frank "did somebody count the gate receipts" Devery, Ferocious Fred "twinkle toes" Telonicher and Devastating Don Karshner, the dashing, debonaire Dean.

Other outstanding members gracing the roster are Cantankerous Kasper Ingebritson (who

boasts anyone can play better than he), Dangerous Dan "the living protein molecule" Brant, Challenging Charles Parke, Hustling Hyman Palais and many more whose name will do down ... period.

FLASH!

It has been learned that appearing as an added attraction on this already colossal bill will be the spectacular, original, comedy brand of musicians consisting of our beloved faculty in all their finery (such you have NEVER seen) with the famous baton twirling artists, John Pauley and Stanley Spaid.

Besides an exhibition by this spectacle - I mean spectacular - band there will be entertainment by Gymnastics and Trampoline Stars under the direction of Ced Kinzer.

If Hank Yamagata and Ray Mechals and other "All Stars" get scared and chicken out at the last minute the "Highwater Hoopsters" will entertain you with a variety of tricks and jokes that have captured the hearts of college students since the grading system started.

For the game of the century, involving the greatest array of talent ever to assemble on a basketball floor (seeing is believing), don't miss this event. This great affair, an annual tradition, is sponsored by the HSC Desk Force. The very low price of 25c for admission goes to a Scholarship Fund.

SMITH NAMED NEW HEAD OF C. U. CLUB

Felix Smith, senior wildlife student from San Francisco, was elected president of Conservation Unlimited, organization of fisheries and wildlife students at Humboldt State College, in balloting this week.

Other officers named are Reed Sanderson, Pleasant Hill, vice president; Norman Scott, Arcadia, recording secretary; Bill Pague, Arcata, corresponding secretary; Mike Perensovich, Windber, Penna., sergeant-at-arms, and James Eshelman, Severna Park, Md., treasurer.

The new officers replace Bruce Wyatt, Modesto, president; Kay Johnson, Tulare, vice president; David Lenhart, Downey, recording secretary; Richard Laursen, Palerme, corresponding secretary; William Shaw, San Leandro, sergeant-at-arms, and Joe Harn, Petaluma, treasurer.

C. U. officers serve for one semester. The new officers will take over direction of club activities beginning spring semester next week.

Mardi Gras Set For Feb. 10

The Mardis Gras, annual costume ball sponsored by the Newman club of Humboldt State College for the entire student body, has been scheduled for Feb. 10 in the Carson Memorial building, Eureka.

Students will dance from 8 p. m. to midnight to the music of Claude Gribble's orchestra.

Chairman Sylvia Graham said valuable prizes would be awarded for the best costumes.

Assisting Miss Graham are Dick Cahill, tickets; Pat Duffy, Jon Mitts and Pat Hammond, decorations; Dottie Wilkenloh and John Borel, refreshments; Arlene Sterner, Nancy Everhart, Sheila Parsons, Jay Eshelman, Norma Shreve, Bill Papke, Nona Rosasco and Merle McCormick, advertising.

READING OF DON JUAN POSES QUESTION OF MAN'S DESTINY

By Dr. Archie H. Jones
Assistant Professor of History

The sensitive reading of George Bernard Shaw's "Don Juan in Hell" by a faculty drama quartet Sunday night again posed the perennial question: What is man's destiny?

Shaw wrote this play within a play as the third act of his Man and Superman. It was written in 1903, forgotten for a time, then revived in the last decade by a generation that has lost its way in a wilderness of newspapers, news commentators, public opinion, political nostrums, Cadillacs, and kitchen gadgets. What is man's destiny?

The play is essentially a debate in which Shaw drives home his point through the constructive argument of Don Juan and a burlesque of the rebuttal. Dialectic is indeed the proper form because the question of destiny is ever present in man's constant, although sometimes one half conscious, debate with himself.

The alternative solutions were well expressed by the great Jewish philosopher, Martin Buber, when he wrote that man must ever balance upon a narrow ridge "avoiding the abyss of self-affirmation on the one hand and self-denial on the other". Shaw would have us escape and dilemma by falling into the "abyss of self-denial".

Man, Don Juan argues, must submerge himself in a naturalistic "life force" if he is to realize his potentialities as the only thinking form of life; this realization will take the form of human perfection . . . a superman who is God. There is both parallel and contradiction between Shaw and the Christian tradition. Jesus would also have man submerge himself in reality, in God, if potentialities are to be realized; this is the parallel. But Jesus did not promise human perfection because man's mind is never to become God's mind; this is the contradiction.

In this parallel and contradiction lies the problem of our time. All about us we see the evidences of material success which can only strengthen our faith in the power of man's mind. Yet there remains a haunting sense of sin which is constantly buttressed by the obvious failure to discover any method of eradicating man's inhumanity to man. Because Shaw is divorced from the Christian tradition he cannot account for this continuing failure; he can only casually sweep it aside as the temporary bumbling of his as yet "stupid" life force on its way to perfection.

Shaw does not in the last analysis give us a final answer to the question, for knowledge of destiny would be knowledge of the ultimate form of man. Shaw only convinces one that unceasing struggle is the way to our destiny. Perfection is not the assured end; it is only the hope which gives us strength for the struggle.

This perhaps inevitable failure is balanced by his incisive critical estimate of our present position in the struggle, the criticism of modern man's attempt to reach perfection by way of an elaborate system of laws governing physical consumption is especially well taken. Only Shaw's sophisticated wit could have given us that devastating denial of the validity of a morality of physical consumption: man "thinks he is moral when he is only uncomfortable". Morality is not lack of comfort; it is to be found, as Shaw so plainly says, in the conscious effort to become a part of the continuing struggle for self-realization. Philosophy is not the whole of Don Juan in Hell. It is also great art.

There is an indefinable understanding and pleasure in Shaw's art which defies the poor powers of the reviewer; it must be heard to be known.

The communication of this "something" is the art of the actor and the director. Shaw was well served by the faculty quartet in the first, and we hope not the last, reading of the play. Reg White (Don Juan), Jack Pauley (The Devil), Giles Sinclair (The Statue), and Jean Wagner (Dona Ana) were especially adept in their interpretation of Shaw's biting wit. Lyn Pauley's direction did more than justice to the pace and cadence of Shaw's work.

JUNIOR JACKS PLAY SUNDAY

The Junior Jacks will play Sunday at 6:30 p. m. in the Eureka high school gym against a Crescent City team, Nickols Pontiac, in the preliminary to the House of David - Harlem Globetrotters game.

LITTLE MAN ON CAMPUS

by Dick Bibler

"I didn't say 'bring a case an' we'd study' - I said bring a Case Study."

WILDLIFE TYROS NEED COLLEGE, REFUGE MANAGER SAYS HERE

Youngsters hoping for careers in game management are finding it more and more difficult to get work with government agencies or to advance without a college education, Humboldt State College students heard recently.

Vernon Ekedahl, manager of the Sacramento national wildlife refuge, Willows, Calif., pointed out that the employment situation has changed considerably in the U.S. Fish and Wildlife service. Opportunities are greater,

but so are the demands, he said.

"Twenty years ago a young man could enter the service and work up to be refuge manager if he had a high school education. Nowadays he must qualify through a civil service examination, and his employment and his advancement depend upon his academic preparation as well as his demonstrated ability.

"This is true even though the wildlife service has a policy of promoting from within," he pointed out.

Mr. Ekedahl was on campus to interview students and answer questions about prospects for seasonal and permanent employment with his agency. He was representing the service's region 1, with headquarters in Portland.

Sophomore and junior wildlife students must take the civil service entrance examinations to qualify for summer work. The same examination will suffice to qualify the student for permanent work when he graduates, Mr. Ekedahl pointed out. Eureka has been selected as one of the sites for administering the examination, which will be announced soon, he said.

Mr. Ekedahl was the first representative of his agency to interview students at HSC for jobs in federal waterfowl management.

Yocoms Entertain Senior Wildlifers

Senior students in Humboldt State college's game management and fisheries program were entertained at an informal dinner recently at the residence of Dr. and Mrs. Charles Yocom, 1666 Charles Ave., Arcata.

Guests were Arlan King and Joan Matthews, Darrel Cooley and Barbara McCloskey, Mr. and Mrs. William Burgen, Mr. and Mrs. Fred Kindel, Mr. and Mrs. F. Dale Horne, Dr. and Mrs. H. D. MacGinitie, Miss Bea Ann MacGinitie, William Shaw, Dave Lenhardt, and Mrs. Sara Miller Baxter.

Dasmann Talks On Deer Today

Problems related to the movement of deer will be discussed by Dr. Raymond Dasmann of the Humboldt State college wildlife department at the annual meeting of the California section, Wildlife Society, at Davis today.

In a paper to be presented in the society's section on big game, Dr. Dasmann will indicate the direction he feels future studies should take on deer migration.

"The remaining problems can only be solved as the result of long range studies, such as tagging the animals. These problems include such matters as how much range improvements applied to one herd would ultimately affect others."

Dr. Dasmann also has prepared a paper for the "Journal of Mammology" on "Social Behavior of Deer" that goes into the deer movement problem in some detail.

Dr. Ernest Salo, assistant professor of fisheries, and several HSC wildlife students also are at the meetings.

JACKS EIGHTH IN DEFENSE

In the first ten games of the season, Humboldt State's hoopers were eighth ranked among small college basketball teams in team defense, official NAIA statistics showed this week. The Jacks limited opponents to an average of 61.7 points a game.

HSC Researchers Publish Study Of Mtn. Beaver

Probably the only recorded observation of the birth of mountain beavers, made by two 1954 graduates of the Humboldt State College school of wildlife management, will be published in a scientific journal.

Howard M. Cramblet and Richard L. Ridenhour are co-authors of an article, "Parturition in Aplodontia," scheduled to appear in the Feb. issue of the monthly Journal of Mammology.

As students at Humboldt State, Cramblet and Ridenhour started trapping the gopher-like animals as material for a report writing class. The trapped a pregnant female and, encaging her in the College science building, spent many hours making acute notes. When three young were born they were measured, weighed and photographed. The offspring died six days after birth, for no apparent reason. The mother survived for several months.

"As far as we have been able to find out," said Cramblet, "this is the only time the birth of the mountain beaver has been observed." The mountain beaver is a burrowing rodent with dark brown, short, stiff hair, a very short tail and sharp, prominent front teeth. The animal is found, according to Cramblet, from Lake Tahoe north and from Marin county northward into British Columbia.

"The mountain beaver has changed very little, anatomically, since prehistoric times," said Cramblet. It may have received its name because, as a vegetarian, it chews down small trees and climbs trees to cut off limbs. In Oregon it is called "boomer" or "whistler" but its noise is a squeak.

Cramblet, who is attending Humboldt State to secure a general secondary education teaching credential in June, has studied the animals actively for two years. However, his observations have been temporarily halted, due to the unexplained death of his last captive specimen, a female, which was living in his garage at 1203 G street, Eureka. While driving a Greyhound bus, Cramblet was forced to remain in Weott for three days, and returned home to discover the loss of his pet.

Returning Students Elect Officers

The Returning Students elected officers for their new club this past week with Miss Tommie Thompson as president, Mrs. Clara Byers, vice president and program chairman, Mrs. Viola Barnes, secretary, Mrs. Dorothy Hanley, treasurer, Mrs. Nora Auxier, Service chairman. Miss Thompson appointed Mrs. Lois Kaufman in charge of all records for those who are returning students as well as those who left college after last semester. The group has set up a plan to keep in touch with all who have been members of the group. Mrs. Carolyn Faulkenburg will be parliamentary for the group.

Miss Kate Buchanan was unanimously elected to be the group's adviser.

There has been an interesting and sometimes humorous response to the group's request that the faculty give them a name. The results are not all in, but Miss Thompson says that some of the returns are classics.

VET'S CORNER

"Welcome Aboard" to the new veterans who recently enrolled. A word of advice from an "old sea dog". Check with the registrar immediately for the possible granting of college units for ser-

vice schools you have attended in the service. If I had have known earlier in my college career I would have been able to collect 14 units towards graduation. (This could apply to others

too, if you haven't gotten too far along in school already).

Some of you may be interested in knowing that we now have over 100 members in the Veterans Club. However, we can always use a few more members. Along this line, if you haven't already joined or at least indicated a desire to become a part of the Club, and wish to be a member

you should contact one of the officers before Feb. 28. After that date the dues will be graduated upward 50 percent.

That's it for this time. Next week there will be a draft of the regulations for the Loan Fund, which will come up for approval at our next meeting.

Fred Byrd.

CHAMBER MUSIC SUNDAY

Wolfgang Mendelssohn, Mozart and Schumann will be featured in the monthly chamber music program presented by the music department of Humboldt State college Sunday, Jan. 29 at 8 p.m. in Nelson Hall.

The informal chamber music programs are free to the public.

WIN

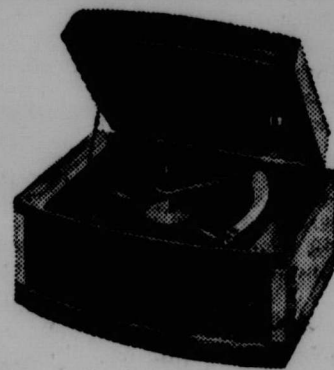

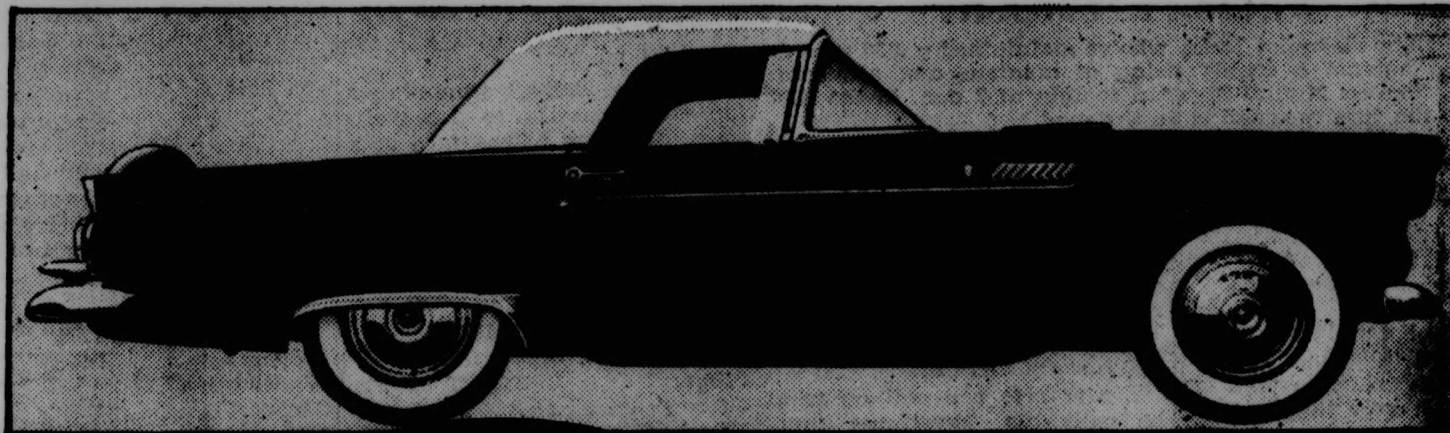

\$50,000 IN PRIZES

HURRY! HURRY! HURRY!
CONTEST CLOSES JAN. 31ST

10 Ford Thunderbirds

PLUS 40 COLUMBIA Hi-Fi Phonographs

FOR THE 50 COLLEGE STUDENTS WHO WRITE THE BEST NAMES FOR VICEROY'S PURE, WHITE, NATURAL FILTER!

10 Winners! 10 Thunderbirds! Win a fully equipped new '56 Thunderbird! In your choice of colors! Automatic transmission, two tops, power steering, radio, white side walls. Act now and win!

40 Winners! 40 Columbia Hi-Fi Sets! Own America's most exciting Hi-Fidelity Phonograph—the Columbia "46"K—in beautiful Mahogany!

Plus 10 RCA Victor Color TV Sets to the college organizations designated by the 10 Thunderbird winners!

JUST NAME THIS
AMAZING FILTER!
THAT'S ALL YOU
DO TO WIN!

20,000 FILTER TRAPS
TWICE AS MANY AS THE
NEXT TWO LARGEST-SELLING
FILTER BRANDS—FOR THAT
REAL TOBACCO TASTE!

HINTS TO HELP YOU WIN!

You'll think of dozens of names when you read these facts: The Viceroy Filter is the most modern in the world today! Perfected through 20 years of research!

It contains no cotton, no paper, no charcoal, no asbestos, no foreign substance of any kind! Instead, it is made from pure cellulose—a soft, snow-white, natural material found in many good foods you eat.

Only the Viceroy Filter has 20,000 filter traps—twice as many filter traps as the next two largest-selling filter brands! No wonder Viceroy gives you that Real Tobacco Taste!

Name this amazing filter and win! It's easy!

NO OTHER FILTER LIKE VICEROY!
No cotton! No paper! No asbestos!
No charcoal! No foreign substance
of any kind! Made from Pure Cellulose—
Soft...Snow-white...Natural!

It's easy to name this amazing Viceroy Filter when you know what it's made of... it's superior... why Viceroy's give you that real tobacco taste you miss in every other filter brand!

Remember, the Viceroy Filter is made from 100% pure cellulose—a soft, natural material found in many good foods you eat! There are no impurities in the Viceroy Filter. So naturally it lets the real tobacco taste come through!

Name the Viceroy Filter! Enter this \$50,000 contest, today!

JUST FOLLOW THESE EASY RULES!

- 1 On any plain paper, write the name you think most suitable for the pure, white Viceroy Filter described on this page. It's easy! You can think of dozens of names like "Super-Pure," "Filtron," "Naturale," "Flavor Flow," "Cellutrate," "Twice-The-Traps." You can use one, two or three words. Any name may win!
- 2 Mail your entry to Viceroy Thunderbird Contest, P. O. Box 6A, Mount Vernon 10, New York. Write plainly or print your name, the name of your college and your mailing address at college! Submit as many entries as you wish—but with each entry include the picture of the Viceroy Filter Tip top or cut from the backs of two (2) Viceroy packages.
- 3 Contest open to all students attending colleges and universities in the U.S.A.
- 4 Contest closes midnight, January 31, 1956. Entries judged by The Reuben H. Donnelley Corporation on the basis of aptness of thought, originality and interest.
- 5 Prizes listed elsewhere in this ad. Winners of the ten Thunderbirds will also be permitted to designate the school organizations to which Brown & Williamson Tobacco Corporation will award RCA Victor Color TV Sets! Write the name of the organization you want to receive this award on your entry.

Lumberjacks Play Chico Tonight

LEAGUE LEAD AT STAKE IN CONTEST

Lumberjack hoopsters get another stiff test on the long and rocky road toward the Far Western conference crown tonight and tomorrow night when they play at Chico State.

Chico has a lackluster season's record this year but has won both its starts in the conference, against the Cal Aggies whom Humboldt defeated twice early in January. December was a month of rebuilding for the Wildcats, who are noted for coming on strong in the conference competition. Chico won the title in 1954 and the Wildcats were strong runners-up to San Francisco last season.

Humboldt takes a spotless 4-0 record in conference play to Chico. The Lumberjacks got over one big hurdle when they upset San Francisco State twice at Arcata Jan. 13 and 14.

Four Chico players have averaged more than ten points a game in the first 15 games this year, in which Chico won five and lost ten. Ken Piercy, for two years an all-conference selection and the defensive workhorse of the Wildcat team, also has been the leading Chico scorer with 15 points a game. He is followed by John Wagoner, 12.8, Mose Mastelotto, 10.8 and Allan Darby, 10.1.

For the Lumberjacks sharpshooting George Ibarreta, who has led the squad in scoring all season, will be out to tighten his leadership in the conference scoring race. Ibarreta leads FWC basketball players with an average of 19 points a game in the four league tilts so far this year.

Joe Myers, who led the Jacks in scoring last season, has concentrated on rebounding and screening this season but has shot enough in conference play to take third place in the scoring race with an average of 14.8. Glenn Wallace is sixth with 13.3.

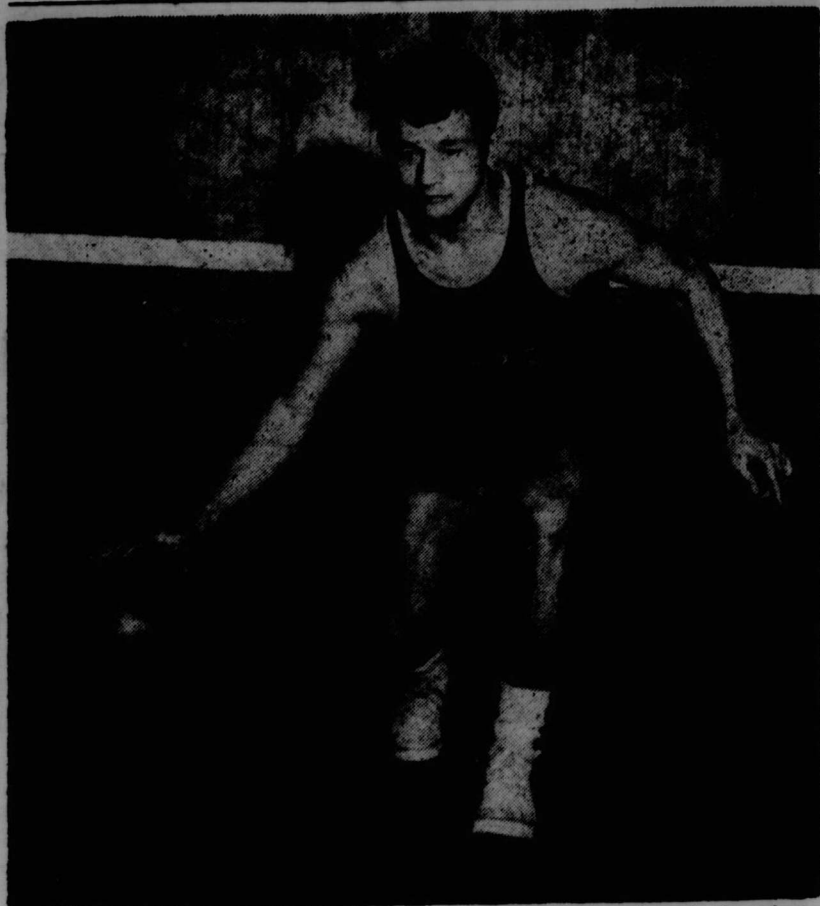

Other Lumberjack starters will be playmaker Hank Cooper and Warren Baker.

Chico won twice over Humboldt last season at Arcata, squeezing out a tough 61-58 victory in the first game but coasting to an 81-62 win in the second. Chico holds a wide lead in the all-time series with 46 wins in 60 games.

Hank Cooper, who was the football team's "most inspirational player" last season, is proving to be just that on the HSC basketball team. Cooper filled the shoes of last year's playmaker, Jerry Smith, and has been a clutch scorer. He's one of the big reasons the Lumberjacks are rated a power in the conference this season.

JAYVEES ENTERTAIN MUTUAL PLYWOOD IN HSC GYMNASIUM TONIGHT

Humboldt State's Junior Jacks, who've maintained a .663 record this season against a steady string of amateur and semi-pro opponents, take on Mutual Plywood tonight at 7 p.m. in the HSC gym while the varsity squad is on the road.

Coach Ced Kinzer has a 14-man squad with potential varsity timber.

Beale Flyers Tip Humboldt, 72-49

Beale Air Force Base sent a classy quintet to Humboldt State last Saturday night to extend the Flyers' streak over the Lumberjacks to three straight wins. The Flyers were never seriously threatened as they coasted in 72-49.

Paced by sharpshooting of Lt. John Cherry, the squad's playing coach, the Flyers rolled up a 42-23 halftime lead. Lanky John Askew, 6-6½ center, dunked in 12 points, mostly by tip-ins, although he sat out most of the second half.

The Flyers presented as fast and fancy a team as has been seen here in some time, with several performers who shot beautifully on a dead run. Humboldt was able to pull to within nine points in the second half but couldn't match the hot Beale squad bucket for bucket.

A sizeable between-semester crowd of some 600 fans waited patiently for nearly an hour for the Beale squad to arrive and the game to get underway. Because of slow and hazardous road conditions the Beale team's trip was in doubt until Friday, and the squad did not leave until Saturday morning. A game scheduled at Beale Jan. 9 was cancelled because of road conditions.

Beale won twice over Humboldt last season in a home-and-home arrangement.

The box score:

HUMBOLDT STATE				
Player	FG	FT	PF	Pts.
Baker	3	0	1	6
Wallace	3	2	1	8

Usual starters for the jayvees are in the "speedsters" unit composed of Jim Babcock, former Fort Bragg star; Carl Carlson of Arcata, Dennis Celleram of Prosser, Wash., Charlie Hale of Ukiah and Gary Mauney of Ferndale.

Kinzer also can call on what he calls his "skyscraper unit" composed of Don Malte of Eureka, Bob Spencer of Eureka, Dick Voorhees of Ferndale, Jack Elsel of Eureka and Tom Roval of Fortuna.

Malte, at 6-7, and Spencer, at 6-6, are the tallest men wearing Lumberjack uniforms this season. Elsel, at 5-9, is the smallest.

Also due to appear for the jayvees are Dick Hoefle, Les Schn-eitter and Warren Martin, all former Arcata high school players, and Pete Mathieson, a transfer this semester from Cal Poly. Mathieson is ineligible for varsity competition, under conference rules, until next season.

HUMBOLDT STUNS S.F. TWICE TO TAKE CONFERENCE LEAD

Two stunning wins over San Francisco State's defending Far Western conference basketball champions game Humboldt State undisputed leadership in the league. The Jacks won 72-66 Friday, Jan. 13, and 78-63 the following night. Both games were played before near-capacity crowds of 800 in the HSC gym.

The Lumberjacks led all the way in the opening game, refusing to be awed either by the Gators' impressive record of 15 straight wins against league opponents or by the Gator racehorse game.

Connecting with 38 percent of their shots from the floor, the Jacks held a 56-45 lead with ten minutes to go when the Gators began gambling for the ball and began to foul out. Vic Gipson left with ten minutes to go and Gary Kenny with seven minutes remaining.

HSC's five starters, Joe Myers, Larry Taylor, George Ibarreta, Glenn Wallace and Hank Cooper, played the entire game.

In the second game the Lumberjacks trailed the visitors for nearly three quarters and were down by ten points before they came to life. The Jacks caught the Gators at 47-all with a pair of charity tosses by Myers and went ahead when Ibarreta drove in for a field goal.

The game was a testimonial to the squad's ability to stay well-knit and game in the face of a breakaway opponent and a seemingly insurmountable point deficit.

Ibarreta, was high point man for the series with 44 points in the two games.

FIRST GAME				
SAN FRANCISCO STATE				
Players	FG	FT	PF	Pts.
Gipson	3	2	5	8
Browning	2	0	5	4
Nance	2	3	3	7
Garfield	4	5	1	13

St. Mary's Quint Takes 73-42 Win Over HSC

After the torrid two-game series with San Francisco State the previous weekend, Humboldt cagers wilted against St. Mary's Tuesday, Jan. 17, in the HSC gym to drop a 73-42 inter-sectional basketball game.

The Gaels, one of the contenders in the California Basketball Association, put together a tight defense and ball control defense. Humboldt played a neat defensive game for 15 minutes but never could find the range, and under the deliberate Gael pressure could do no right in the second half.

Joe Myers' free throw was the only Humboldt score in eight minutes of the second half. Reserves played most of the remainder of the game and accounted for almost half of Humboldt's points.

The box score:

ST. MARY'S				
Players	FG	FT	PF	Pts.
Wadsworth f	4	2	2	10
Sachez f	7	2	1	16
Getris, c	1	1	1	3
Johnson, g	8	6	2	22
Bagley, g	3	0	0	6
La Porte, f	1	2	4	4
Stewart, f	1	0	1	2
Phillips, g	1	2	0	4
Crew, c	1	0	0	2
Williams, g	2	0	1	4
Totals	29	14	12	73

HUMBOLDT STATE				
Players	FG	FT	PF	Pts.
Taylor, f	1	0	0	2
Wallace, f	0	0	1	0
Myers, c	2	5	2	9
Ibarreta, g	2	1	1	5
Cooper, g	4	0	2	8
Baker, f	3	0	1	6
Lawson, f	1	0	1	2
Fredericks, g	2	0	0	4
Paul, g	0	0	1	0
Fiamma, c	1	2	1	4
Deniz, g	1	0	2	2
Totals	17	8	12	42
