

Humboldt State Homecoming Starts This Afternoon At 1 p.m.

LUMBERJACK

VOL. XXXIV

ARCATA, CALIF., FRIDAY, NOVEMBER 4, 1960

No. 8

Franny Moore Becomes HSC Hall of Fame Member

Humboldt's most valuable football player from 1934-37, Franny Moore, joins the elite ranks of five others in the Humboldt State College Hall of Fame.

The sixth alumnus will join other greats, including Earl Meneweather, who was elected in 1955; Billy Lee, 1956; Roy "Dobe" Harrison, 1957; Leonard Longholm, 1958; and Mrs. Elta Stromberg, 1959.

Moore graduated from Humboldt in June of 1938, with a Bachelor of Arts Degree in physical education.

The man "who wouldn't have missed coaching for anything," was born in Korb, graduated from Eureka High, and did his coaching at Arcata High. He was the only, and head coach of Arcata High from 1938-42. Moore commented on the difference of football now and then. "Football is more specialized now, than it used to be. We had no squads or JV teams, we just played 'football'."

He served in the Navy from April of 1942 to Nov. of 1945, where he came out as a full lieutenant. In 1945 he returned to Arcata and coached basketball and spring sports. In 1947 and 48, his teams won all titles.

"Franny" left coaching in 1951, bought a share of stock in a plywood corporation, and "it worked out fine." His 13 years of teaching at the secondary level, "brought me many fine memories."

Moore recalls Humboldt's 1934 game with Chico, when the 'Jacks won 19-6.

That year, Humboldt won its first seven games but lost the season final to San Jose, 20-6.

The game he thought was Humboldt's greatest was in 1936 when an underdog HSC eleven

upset a powerful San Jose team, 20-0.

The 1937 meeting with San Jose was a feature in that the game was delayed because of San Jose's uniforms. Moore can recall them wearing levis and having their thigh pads taped to their "pants".

He married Roberta Jean Oglesby, at Lake Forest, Ill., where he was stationed for a period during the war.

Moore lives on a small five acre ranch, near Freshwater Corners, with his wife and their four children, Rusty, 17, Tom, 14, Nancy, 12, and Bobby, 10.

The former HSC great said he doesn't get to see as many HSC games as he would like to, as his job of teaching the sixth grade at Jefferson Elementary School keeps him quite busy.

He did see the Humboldt - San Francisco game, and said of the "Green Chain": "I thought they were tremendous!"

Moore said he would not force his children into sports, "I want them to do whatever they wish, I would not force a sports career on them, if they would be happier doing something else."

Moore will ride in a featured car during tomorrow's homecoming parade, will be honored at the Chico-Humboldt game, and be the featured speaker at a banquet to be held in his honor.

The first newspaper published by HSC students was called the "Fog Horn".

300 Expected To Turn Out For Play Opening

Nearly 300 playgoers are expected to turnout tonight for the opening performance of the Sequoia Masque's production of "Death of a Salesman," according to Dr. Jerry Turner, head of the college drama department. Curtain time in the Sequoia Theater is 8:15 p.m.

Stars of the production, which will also be presented tomorrow night and on Nov. 11 and 12, are William Livingston and Lila Evans. Directing his first play at Humboldt State is Prof. John M. McElhaney. Prof. John Van Duzer supervises the preparation of the set, and Mrs. John Pauley was in charge of costuming.

Of the numerous students helping with backstage and costuming work, Jack Wadell faces the greatest challenge, according to Dr. Turner. Wadell will operate the light control board for what Dr. Turner calls an "extraordinary show in lights and sound."

"Death of a Salesman" was written by Arthur Miller, current husband of film actress Marilyn Monroe. Miller began his career in the 1930's with group theater work in New York. His first big success, "All My Sons," was staged in the 1940's.

"Death of a Salesman" was produced in 1949, with Lee J. Cobb in the lead role.

About 1,000 persons are expected to watch the first campus play of the 1960-61 season. Tickets will be on sale at the Sequoia Theater box office until the evening of the final performance. The downstairs section of the theater seats 386 persons, Dr. Turner said.

Senator Kuchel Speaks to HSC Faculty, Students

California's Republican United States Senator, Thomas Kuchel, spoke to Humboldt State students and instructors in the CAC building on Oct. 27.

Senator Kuchel told the assemblage of his contacts with President Dwight Eisenhower and Vice President Richard Nixon. The senator said that Eisenhower is dedicated to peace, is firm, and does not lie. He added that Nixon was taken into the administration as a responsible partner and has received eight years of unique preparation for the presidency.

He said both Nixon and his running mate, Henry Lodge, have had active experience in foreign affairs and are well qualified to represent the United States.

When asked what Nixon's policies would be concerning the de-

(CONTINUED ON PAGE 3)

BUFFET DINNER TODAY

A buffet dinner today from 4:30 to 6 p.m. in the Cafeteria replaces the Homecoming bean feed of years past. Meal tickets will be honored and the general admission price is \$1.25. The dinner has been planned in co-operation with Robert Qlds, cafeteria manager.

Coronation Of '60 Queen, Variety Show To Kickoff Big Three-Day Celebration

Humboldt State's annual homecoming, centered about the theme "Around the World in Eighty Hours", will officially get underway this afternoon at 1 p.m. with the variety show in the Women's Gym, featuring the coronation of the 1960 Homecoming queen. Classes will be dismissed at noon.

The 15 Homecoming queen candidates will be announced by last year's queen, Donna Cleveland and will be formally crowned in a traditional ceremony by Dr. Homer Balabanis, dean of instruction.

Among the queen candidates are Betty Bird sponsored by Tau Kappa Epsilon; Sharon Canepa, Freshman class; Rossalyn Holmquist, Forestry Club; Joan Iverson, Music organizations; Kathi Katri, Newman Club; Patty Laws, Delta Sigma Phi; and Joan Rasmussen, Circle K.

Others are Mary Lou Robertson, Intercollegiate Knights; Carolyn Sanders, Industrial Arts and Women's Recreation Association; Ellen Sebeck, Delta Zeta; Carol Slack, Student California Teachers Association; Georgiann Steed, Redwood Hall; Anita Teifke, Conservation Unlimited; Ruth Turner, Sunset Hall; and Helen Wilson, Business Club.

Other activities Friday are the bonfire rally, this year handled by the rally committee, slated at 7:30 p.m. in the lot south of CES and the casual "Ship Wreck" dance in the Women's Gym at 9 p.m. Admission for the dance is 25 cents a person.

Saturday's activities will begin with the annual Spur coffee hour reunion, this year held in the Campus Activities Center from 9 to 10:30 p.m.

The biggest parade in the his-

tory of Homecoming with 28 participating units, will form on campus at 11 a.m., be in Arcata approximately at noon and proceed to Eureka with a tentative parade time of 2 p.m.

Officers for the Alumni Association will be elected at the annual Alumni Banquet at 5 p.m. Saturday at the Eureka Inn. Tickets, at \$3.50 a person, will be available at the door.

The traditional HSC-Chico rivalry will be renewed at the football game that night at 8 p.m. in Albee Stadium in Eureka. The game will be followed up by the Homecoming Dance from 10:30 p.m. to 1 a.m. in the Eureka Inn.

The 1960 edition of HSC Homecoming will wind up Sunday with a breakfast at the Baywood Country Club for members of the Green and Gold Key. Final activity of the weekend will be a social hour in the Campus Activities Center Sunday from 7:30 to 9:30 p.m.

Paul Asp heads the Homecoming committee this year and is assisted by Bud Kolding, co-chairman; Joan Bullock, secretary; Bill Caldwell, variety show; Marge Zebo, "Ship Wreck" dance; Roger Olson, halftime activities; Dick Bradley, Homecoming dance; Darlene Garcelon, publicity; Donna Cleveland, Queen contest; Louis Karstensson, buttons; Church Muser, parade; Bill Turner, bonfire rally; and Dennis Dinsmore, Freshman class president.

Welcome Back

It's that time of year again—the time when the old grads, usually the not-so-old ones, return to campus and make merry with the present-day students in the great old fall pastime that has become tradition at every institution—homecoming.

For the benefit of the alumni, many of which will probably be making the first return in many a year, in view of Humboldt's greatest football team in history. There are many who want to see, not just read about, this team that is garnering national acclaim.

Then too there are those less interested in athletics who would like to see the many new buildings on campus, taking in the vastly different view HSC now has with such modern structures as the Administration Building and the Language Arts Building.

And there are the alums who just like to make that annual pilgrimage to the old shrine and pay their respects to the place that provided them with four years of enjoyment or higher learning, or both.

But whether the return is to see the team, to view the new buildings or make that sacred pilgrimage, let us also extend our "Welcome Back", hope you enjoy your 80-hour visit.

It appears that the 1960 Homecoming committee has lined up quite an array of activities for students and alums alike. It should be a real three-day celebration for all concerned.

No Representation

Six weeks of student council meetings and still no junior or senior class representative. Consequently, the entire body of HSC upperclassmen are not represented where representation means the most.

The answer probably lies in the fact the two classes have not yet held elections. Therefore there is no president to assume a seat on the council.

But why no elections? And why hasn't the members of these two classes felt compelled to take some action, assuring adequate voice in the students' most powerful organ?

Incidentally, there are two fellows — one the frosh prexy and the other the soph president—who are making regular appearances at the weekly meetings.

Nelson Hall was named for the Honorable Hans Nelson of Eureka, who introduced the original bill in the State Legislature for the establishment of Humboldt State

From Ween To Coming Home

As we guard ourselves with leftover jelly beans, stale cookies, unsalted popcorn, wormy apples, and ju-jeebies, our sticky little fingers clammer over an Overwood key board of sharps and flats.

Where did all these "goodies" come from? Well, Halloween night was spent by your two favorite little Goblins hiding between parked cars, behind high hedges, and any other dark place where we wouldn't be recognized. We haven't unmasked from last Halloween.

In shop 34y, which we have taken for seven semesters, we worked on a bagger-snagger, which was carefully hand carved from a broom handle, recently stolen from the housemuthers parking lot. We have a broom handle; we put a nail in it; we bend the nail; Ahh—a tool of a ghoul.

As we crouched behind the couch, (this came later) not the couch, but the indicated hiding places, we patiently awaited the skipping of our first foe. The first foe turned out to be professor Zerk Clunk, who now brandishes a newly carved "Z" on the side of his reversible goatskin briefcase and wine flask.

Our next foe, was cub scout troop 246 from Chico State College. With canine instinct, we plunged our bagger-snagger forward, only to bare the brunt of their 87 year-old denmuther's wooden cane. After a thorough indoctrination of Cub Scout principles, which included reciting the scout law 14 times, we were made unofficial members of the group.

Later, in the girl's stockade, and behind the couch, we were caught sticky fingered trying to snag live goodies, such as Carolyn and Patty.

It's now Friday, and with the authority invested in us, you may have the afternoon off. Please stagger back by your first Monday morning class.

The cominghome festivities begin today, with the crowning of the queen. We hear they are going to beat here severely about the head and shoulders with an empty beer can. A party will follow. (We follow the parties). The Ship Wreck dance will take place tonight. Only those with their own wrecked ships will be admitted. A party will follow. (And so will we). The pet parade is tomorrow morning. Bring your own pet. A party will follow. (And we will be behind, slowly). The big game comes off tomorrow night. A party will follow. (Can't promise anything at this stage of the "game"). The cominghome dance will follow the party that follows the game that follows the party that follows the pet parade.

IC Votes To Make Varsity Letter Winners Ineligible

Former college varsity lettermen will be ineligible to compete in intramural activities following this year's football season, the Intramural Council decided Friday.

The revised section now reads "A former varsity letter winner in a four year college is eneligible for that particular sport."

Earl Meneweather, a member of the HSC Hall of Fame, was vice-president of his 1941 senior class.

On Campus with Max Shulman

(Author of "I Was a Teen-age Dwarf," "The Many Loves of Dobie Gillis," etc.)

THE PARTY WEEKEND: ITS CAUSE AND CURE

With the season of party weekends almost upon us, my mail of late has been flooded with queries from young inmates of women's colleges wishing to know how one conducts one's self when one has invited a young gentleman for a weekend, so let us today take up this burning issue.

Well, my dear girls, the first thing to remember is that your young gentleman is far from home and frightened. Put him at his ease. You might, for instance, surprise him by having his mother sitting in a rocker on the station platform when he gets off the train.

Next, what kind of corsage should you send your young gentleman? Well, my beloved maidens, orchids are always acceptable. So, indeed, are phlox and delphinium. In fact, most any flora will serve. Do try, however, to avoid carnivorous plants.

If you find, my esteemed fillies, that your local florist has run out of stock, do not be dismayed. Make a corsage out of paper. But pick good, stiff, durable paper—twenty dollar bills, for example.

Remember at all times, my fond wenches, to show your young gentleman courtesy and consideration. Open doors for him, walk on the traffic side of the path, assist him to the punch bowl, zip his parka, light his Marlboros. (What, you ask, if he doesn't smoke Marlboros? Ridiculous, my precious nymphs! Of course, he smokes Marlboros! Don't you? Don't I? Doesn't everybody who knows a hawk from a handsaw? What other cigarette gives you such a lot to like? Such easy-drawing filtration? Such unfiltered taste? Such soft pack or flip-top box? No other, my sweet minxes, no other. Marlboro stands alone, and any man worthy of you, my estimable damsel, is bound to be a Marlboro man.)

Surprise him when he gets off the train...

If you will follow the simple instructions stated above, my good lasses, you will find that you have turned your young gentleman into a fast and fervent admirer. There is nothing quite like a party weekend to promote romance. I am in mind of a party weekend some years ago at Miss Pomfritt's Seminary for well-born females in West Linotype, Ohio. Serafina Sigafos, a sophomore at this institution, majoring in napkin folding, sent an invitation to a young man named Fafnir Valve, a junior at the Joyce Kilmer School of Forestry, majoring in sap and boles. Serafina had been ape for Fafnir since high school, but Fafnir preferred a girl named Gelia Fleshwound, the high school drum majorette who once threw a baton so high she impaled a south-bound mallard.

Anyhow, Serafina sent an invitation to Fafnir, and he came, and she showered him with kindness and cuff links, and then he went away, and Serafina sat anxiously by the mailbox, wondering whether she would ever hear from him again. Sure enough, two weeks later she got a letter: "Dear Serafina, Can you let me have fifty bucks? Yours, Fafnir."

Whimpering with ecstasy, she ran to the bank and withdrew the money and mailed it to him. From then on, she got the same request every week, and as a result, she became very well acquainted with Ralph T. Involute, teller of the West Linotype Bank and Trust Co., and their friendship ripened into love, and today they are happily married and live in Stamen, Oregon, where Ralph is in the extruded molasses game and Serafina is a hydrant.

Every weekend is a party weekend with Marlboros—or Marlboro's unfiltered companion cigarette—mild, flavorful Philip Morris. Try the newest Philip Morris—the sensational king-size Commander. Have a Commander—welcome aboard!

Band To Play Big Part In Homecoming

Humboldt State's band has a major role in Homecoming festivities this weekend, according to Dr. David Smith, band director. The pep band will play for the bonfire rally Friday evening, and they will march in the Homecoming parade.

Halftime entertainment for the Chico State game Saturday will feature Jim Nameth, former twirling drum major with the Lumberjack band. Nameth is well known to many alumni, according to Dr. Smith, as a former Lumberjack band star and twirler for the Washington Redskins.

"Swinging Around the World" is the theme for the half time show in keeping with the Homecoming theme, "Around the World in 80 Hours." This show was conceived and planned by drum major Roger Olsen, senior music education major.

The band will visit Hawaii with "Hawaiian War Chant", China with "China Boy," South Sea Islands with "Mambo Jambo," Paris with "Tah Rah Rah Boom Der A," and return to the campus with "California, Here I Come."

The Song Queens will be featured in the Paris visit doing a can-can. Ellen Sebeck and Diane Allen will do a flag duet routine, and head percussionist Roland Nielson will perform a solo on bongo drums during the performance of "Mambo Jambo."

At the request of the Homecoming committee, the Lumberjack band will do its show facing the reserve stands, Dr. Smith said. The Alumni band, however, will do its show facing the student cheering section.

This will be the final show in Albee Stadium for the band, but it will travel to Reno where the same show will be repeated, this time facing HSC rooters in the Nevada stadium.

(CONTINUED FROM PAGE 1) SENATOR KUCHEL

fense of the Republic of China, Kuchel said that Nixon would commit the U.S. to their defense. He added that he thought Senator Jack Kennedy would sheer form interest in the offshore islands.

Senator Kuchel said that the farm situation is a mess. When asked how this has happened with the Republicans in power during the last eight years, he answered that a Democratic controlled Congress which advocated high rigid price support was to blame.

In answer to a question if there was animosity between Secretary of Agriculture Benson and Nixon, Kuchel said Benson has been speaking in support of the Nixon-Lodge ticket.

The senator said that a Republican administration would encourage reciprocal trade agreements with foreign countries. He referred to Japan as an example of the importance of reciprocal trade treaties.

Huge Slate Of Activities Set For 'Around The World In 80 Days'

Team Featured At Tonight's Bonfire Rally

The victorious Lumberjack football team, Homecoming co-captains, Coach Phil Sarboe and the Lumberjack pep band will be featured at the annual bonfire rally tonight in the lot south of CES.

Humboldters will form at the residence halls at 7 p.m. and be at the lot by 7:30. Following the bonfire, those attending will snake dance through Arcata and conduct impromptu rallies through town, winding up on the Plaza.

A special attraction will be a Chico Wildcat, already snared by Lumberjacks.

This year, responsibilities for the rally have been transferred from the Freshman class to the Rally Club. Rally Commissioner Bill Turner has acted as chairman, with assistance from Frosh President Denis Dinsmore.

Buttons Remain On Sale Today

The sale of Homecoming buttons will continue today and tomorrow by the Homecoming committee. The buttons sell for 10c each and are considered by the committee to be a method of inspiring spirit for the Homecoming weekend.

Coffee Hour Set Tomorrow A.M.

The annual Spur coffee hour reunion has been scheduled on campus this year. The coffee hour will be held in the campus Activities Center from 9 to 10:30 a.m. tomorrow. Effort has been made by the active Spurs to contact all inactive members for the reunion.

Variety Show, Queen Naming Today at 1 p.m.

Announcement of Homecoming Queen, new Green and Gold Key members, and the HSC Hall of Fame presentation will be featured in the Homecoming Variety Show at 1 p.m. today in the Women's Gym.

Chairman Bill Caldwell reports an even dozen acts entered in the show, ranging from comedy acts and Russian folk dancers to vocal groups.

Joe Mayfield will act as spokesman for the Green and Gold Key, activities honorary for men and women on campus, and Coach Franny Givens will present Hall of Famer Franny Moore. Moore will be awarded a lifetime pass to all Lumberjack athletic events.

The Queen coronation will conclude the show. The contest was handled by Donna Cleveland, last year's Homecoming Queen, and as is traditional, Dr. Homer Balaban will crown the new Queen.

Frosh Selling Chrysanthemums

Homecoming Chrysanthemums are being sold in Arcata and Eureka today and tomorrow by the Freshman Class for 75 cents each.

The mums will be sold on the Plaza and in area businesses and during the parade tomorrow. The mums are large yellow flowers with green H's placed in the middle. Like the Homecoming buttons, they are a way of expressing spirit for the Homecoming weekend.

HSC Hazing Now Will Bring Fine

Dr. Don Karshner, dean of students, in connection with hazing at past homecomings, reminds students that an anti-hazing act was recently passed by the state assembly.

It makes the violation a misdemeanor punishable by not less than \$50 or \$500 fine, or imprisonment in the county jail for not more than six months, or both.

Dr. Karshner, referring to homecoming weekend, reports that the administration of the College is most anxious for the entire student body, alumni and community to have a very colorful and successful Homecoming weekend and urges all students to lend their efforts in the promoting of a successful bonfire, rally, parade, and College dances for the best Homecoming in the history of the College.

The 1949 HSC track team had only 9 thinclads as compared to the 13 man baseball squad.

'Ship Wreck On Bali Hai' Theme Of First Dance

"Ship Wreck on Bali Hai" is the theme of the informal dance following the bonfire rally in the Women's Gym tonight. Admission to the dance is 25c per person and music will be provided by the Melodiers.

As she enters, each girl will be asked to vote for "the boy I would most like to be ship wrecked with." Candidates will be nominated from the men's living groups on campus and the winner will be crowned at midnight.

Authentic decorations will center about row boats, crab pots, fish nets and beach shrubs. Students are urged to dress extremely casually.

Hall of Famer To Be Honored At Alum Banquet

1960 Hall of Fame member Franny Moore will be honored at the Alumni Banquet at the Eureka Inn tomorrow. Alumni Association officers for the coming year will be elected at a business meeting following dinner.

A social hour will be conducted from 4:30 to 5:45 p.m. and dinner will be served at 6 p.m. Tickets, at \$3.50 per person, will be available at the door.

Letters To The Editor

Hey, Mr. Wilbur

"Mr. Sandy Wilbur:

"Being a forest management major I took more than the usual interest in your column last week.

"You mentioned that we are all 'expected to pay homage to the lumber industry for all the wondrous 'forest products' that have been heaped upon us'. You went on to mention knotty pine paneled rumpus rooms and redwood siding for car ports. You then made the statement, 'What a Farce.'

"Our economy is predicated upon selling and how much our gross national product increases each year. These are things which neither you nor I can change. To advocate doing so would not be prudent. There will continue to be National Forest Products Weeks, National Camping Equipment Weeks and National Buy a Boat Weeks and so on for a long time. As I mentioned previously these are things which neither you nor I can change, especially by sweeping methods.

"You mentioned using redwood for a car port and knotty pine for a rumpus room. There are over six thousand forest products being manufactured in the U.S. today. Redwood siding and knotty pine paneling are two of these. These two products didn't require as extensive research as say the pulp that goes into our newspapers and magazines. At one time the smaller dimension redwood wasn't hauled out of the woods. The knotty pine you speak of couldn't be given away a few years ago. Through marketing activities these products previously left to waste now go toward achieving a higher utilization of our timber.

"The wilderness areas we have set aside are for all of us but are used by few. Whether or not we need fewer or more of them is a question I do not feel qualified to answer. The wilderness areas, national forests, national parks, state parks and county parks are places which for the most part offer 'peace of mind, contentment, awe and understanding'. However, not everyone is in a situation where they want to enjoy these esthetic values the year around.

"Not all of us want to be able to get off by ourselves. Most of us go camping for a week or two out of a year, if that. Some people never go camping or out to a forest at all. They don't want to. This is their privilege. There are those of us who find 'contentment, peace of mind, awe and understanding' from having a room paneled in knotty pine or redwood. These esthetic values are not only to be found in a wilderness area but in a well managed forest also.

"It is through National Forest Products Week that the material as well as the other important products are offered to the American people.

"Sincerely,
"/s/ Paul A. Marsh"

"Dear Sandy 'Webfoot' Wilbur: 'Maybe you haven't had a forestry class as yet so for your enlightenment I will tell you that

it is the management of forest lands for the many products and services the forest can permanently supply, and the sustained use of these products and services for the benefit of mankind. Or more briefly, forestry is the management and use of forests and their products for permanent human benefit.

"Two points in the above definition need emphasis: (1) Forestry involves multiple use, something which you seem to be oblivious to, embracing all renewable products and services of forest land; (2) Forestry involves planned, sustained use at a uniformly high level. As for timber use, forestry involves the regulation of the forest for the proper distribution of age classes, which makes possible harvests of roughly constant timber volume each year; the prompt provision of new trees to replace those cut; and the protection of the forests so that productivity will not be lowered. Harvesting secondary products is also a function of forestry. This is done on a sustained yield basis and includes all products that it is economically feasible to use, provided such use does not destroy other values than those realized. As for game and wildlife, forestry involves maintaining a vigorous population and harvesting surplus animals by hunting and trapping. In the field of recreation it means regulating other uses so as to minimize their interference with public enjoyment of the forest. Basic to all these, forestry means protecting the soil that supports all other uses.

"A further point to discuss: where do you think you would get the plastic for your boats, shotguns, shells etc? What would you use to write your stinking column on without paper? Could you use duck intestines for parchment? What would you use for ink, crushed berry juice? It seems to me you couldn't get along very well without forest products. All these products that you seem to take for granted do come from growing trees.

"/s/ Leonard R. Askham"

"Dear Mr. Editor:

"I personally believe that the outdoor column 'Fin and Fur' is one of the most important columns in the Lumberjack, not only because Humboldt State is noted for being one of the best game management, fisheries, and forest management colleges in the nation, but also because many of the students on our campus, although they may not be majoring in these fields, are nevertheless interested in them, and are certainly affected by them.

"In the past, this valuable column has ranged from excellent to mediocre, or has even been omitted from the Lumberjack entirely, and for a while I thought that this was going to be one of its poorer years. Although Sandy Wilbur, who writes this semester's column, got off to a poor start, he made up for it last week.

"He began by reporting the area's duck situation, which is of great value to the campus nimmers, and then he denounced the

so-called 'Forest Products' week with what I considered beautiful writing. I'm sure that anyone who ever walked through a forest or even saw a tree will agree with Mr. Wilbur that the true forest products are the beauty, peacefulness, and natural values the forests offer, and which their preservation, not their destruction for commercial purposes, will guarantee.

"A pat on the back for Sandy Wilbur and his column.

"Respectfully yours,
"/s/ Drew Dillard"

"Dear Editor:

"I was astonished when I read 'Fin and Fur' in which it's author, Mr. Wilbur, advocated never cutting the forests and in this way we could best be assured of intangibles such as 'peace of mind, contentment, awe, understanding.'

"This boy is really confused. I am surprised to see a wildlife major so ill informed. How long does he think a tree will grow before it becomes mature and begins to decay? The forests are full of decadent trees, weakened by age and susceptible to all manner of insects and diseases. Once an insect gets started, it does not stop with the weakened trees, but develops an appetite for the healthy ones nearby. Decay and insect ridden trees are almost useless as far as their value as products is concerned. And what inspirational value is possessed by a tree with a dead and broken top and sparse foliage? These are almost always an indication of overage within the stand.

"If I did not know better, I might suggest to Mr. Wilbur that the wholesale slaughter of deer and the wanton shooting of the poor defenseless ducks is an encroachment on my rights of peace, contentment, etc. However, just as harvesting of the deer and ducks is necessary to perpetuate the best of the breed, planned harvesting of trees insures a sustained yield of high quality forest products. Basically, trees are harvested when they mature—at the peak of their growth. The opening left by removal is restocked either naturally or by hand. This is the only way that America can provide for its demand of forest products.

"The products that Mr. Wilbur so carelessly takes for granted are to numerous to list completely. Wood derivatives such as alcohol, turpentine and plastics, house framing, finishing materials such as paneling and siding, gunstocks and shot shells are just a few. I still have not seen a 'suitable substitute' available in large quantities that can economically replace wood pulp used in the manufacture of paper.

"In short, the forest products industry is this country's backbone. The building and manufacture of nearly every single structure has a forest product utilized at one time or another. It would be difficult to convince a man from

By SANDY WILBUR

This is election year and I'd like to add my two cents to the great mass of political literature. I'd like to modify the old slogan "Don't forget to vote" and make it read—"Don't forget to vote **WISELY** on **ALL THE ISSUES**. In a school such as Humboldt where at least half of the student body and faculty hunt, fish, or hike, conservation issues should come before many of the minor issues that are receiving so much attention.

First, what has happened since the last election? In 1956 the Republican platform favored: 1. full recognition of recreation as a public use of national forests and public domain lands; 2. a comprehensive study of America's wetlands to determine the present and future needs of waterfowl management; 3. recognition by the states of wildlife and recreation as beneficial users of water; 4. the maintaining of isolated wilderness areas for future generations and 5. subscribed to "the general objectives" of groups seeking to protect the beauty of the land.

this area, in which 72% of the economy is derived from tangible forest products (including redwood siding), that there was a suitable substitute for his job.

"We have National and State Parks which are set aside for their beauty and Conservation Week which commemorates the intangible values of the outdoors. Let us give credit where credit is due and that is to the assurance that these will be a continuing supply of forest products through thoughtful and intelligent support of National Forest Products Week.

"Sincerely,
"/s/ Larry J. Andrews"

INSTRUCTIONS TO TEACH

"Dear Sir:

"In recent publications this column has carried letters stating that few instructors attend social functions sponsored by various factions of the student body.

"The primary duty of instructors is to teach, as is the primary duty of the student to learn. I wonder if perhaps the student body is receiving a lesson in how to use their time most efficiently?

"Respectfully submitted,
"/s/ Delbert G. Skeesick"

"Alums:

"Welcome back" to each of you from the associated students of Humboldt State College.

"Seeing the campus again, you will note Humboldt's 'new look' as well as the never changing features that hold memories of the old.

"This year's Homecoming celebration is climaxed by 'our' undefeated, untied, and nationally ranked football team. We invite you to join us in saluting them and we hope that you will partake in the many festivities planned by this year's Homecoming Committee.

"Again, welcome back, and be sure to return again next year to HSC's Homecoming celebration.

""/s/ Dennis Cahill,
ASB President"

This, in a nutshell, was the 1956 Republican platform regarding conservation. Here is how they followed through: 1. Although they recognized the need of maintaining isolated wilderness areas, nothing was done along this line. Although many questions came up regarding the acquisition of new areas (Pt. Reyes seashore) and the protection of endangered areas (Northern Cascades), all related bills were lost in the shuffle or nicely stalemated.

2. The Wilderness Bill, calling for the establishment of a national wilderness system, was bottled up and remains unpassed.

3. There was no increased activity in the wetlands studies.

4. While the forestry Multiple Use Bill was passed, most conservationists feel that this bill is not in the best interests of conservation. The man who called this "The Do Nothing Period" seems to have been right.

That was last election's platform. What do the Republicans have to say this year? Well, they stick pretty well to their 1956 theme by favoring: 1) continued support of the efforts to keep America beautiful; 2) provision of adequate recreation lands; and 3) establishment of a citizen's board to study America's need for more park lands.

The first thing that I noticed in regard to this platform is that there is no mention of two of the most important issues, waterfowl habitat improvement and recognition of wildlife as beneficial users of water.

As for the Democrats, their platform calls for 1) action to retain public access to shoreline areas and to reserve adequate camping and recreation areas, 2) improvement and extension of present recreational opportunities in federal land areas, 3) completion of the National Park System (addition of national seashore areas specifically mentioned), 4) creation of a national wilderness system as called for in the Wilderness Bill, and 5) protection of fish and game habitats from commercial exploitation.

Gala Homecoming Planned

Humboldt-Chico Gridiron Clash Tops Nov. 5 Slate

No small attraction during the 1960 Homecoming will be the Nov. 5 battle between Coach Phil Sarboe's powerful Lumberjack eleven and the Chico State Wildcats.

Because of the construction work at Redwood Bowl, the Homecoming contest will be played in Albee Stadium, Eureka. Kickoff time is 8 p.m.

Experiencing what may well be Humboldt's greatest season in history, the bowl-minded Lumberjack squad walked over Linfield College (33-0), Eastern Washington (25-6) and University of San Diego (20-0), before ending San Francisco State's 13-game winning streak by a 21-18 count. HSC routed Sacramento State (33-9) and was taking a 14-game victory string to Davis for the annual game with the Cal Aggies as this issue of the Alumnus went to press.

Toughest game remaining on the Lumberjack schedule is expected to be the Oct. 28 clash with the University of Hawaii Rainbows in Honolulu. HSC winds up its scheduled 1960 campaign with games with the University of Nevada at Reno Nov. 12 and at home with Lewis and Clark Thanksgiving Day.

An invitation to the Holiday Bowl in Florida looms as a possibility, if the Lumberjacks can continue their winning ways. The win over SFSC was considered a major step toward the Far Western Conference crown.

Franny Moore Being Honored

Francis (Franny) Moore, shown here as he appeared in a 1936 football program and an outstanding Lumberjack baseball, football and basketball player from 1935 to 1937, will be honored as the sixth member of the Humboldt State College sports Hall of Fame during the 1960 Homecoming celebration Nov. 4 and 5.

Franny joins Earl Meneweather ('41), Billie Lee ('42), Dobe Harrison ('28), Len Longholm ('47) and Elta Stromberg ('28) among the college's sports elite.

A guard on the 1935 team, the Eureka teacher shifted to halfback in 1936 and 1937. As a passer, runner and place-kicker he helped the 1936 squad to a 20-0 win over San Jose State. During the same season he kicked 17 extra points.

The new Hall of Famer played basketball for Coach Fred Telonicher and was a varsity baseball catcher. He later coached football and basketball at Arcata High School. His wife is the former Jean Oglesby. They have four children.

Variety Show Opens Nov. 4 Gathering of Graduates

Gala events are in store for alumni who participate in the Homecoming activities that promise to crowd the hours of Friday, Nov. 4, and Saturday, Nov. 5. Festivities begin at 1 p.m. Friday with the traditional student variety show and

the coronation of the Homecoming Queen. This year the program will be held for the first time in the new Sequoia Theater. Alums who have not seen this building will find the student show a wonderful introduction to the new campus.

In the evening, following a buffet dinner, the students will make whoopee at the annual bonfire and rally and at the dance from 9 p.m. to midnight in the Men's Gym. All events are designed to stir up the victory spirit for the Homecoming football game with Chico State at 8 p.m. Saturday at Albee Stadium, Eureka.

On Saturday, the first event scheduled is the annual reunion breakfast held by the Spurs, campus sophomore service group. All former members of the organization are urged to attend. It will be held in the cafeteria at 9:30 a.m.

Parade Begins 11 A. M.

The parade is scheduled to begin at 11 a.m. Floats are being prepared by campus clubs and organizations. Riding in glory in this gay procession will be Franny Moore, pride of the graduates, and the students' fair choice, the Homecoming Queen, and her lovely princesses.

The major emphasis for alumni is on the banquet, which will be preceded by a social hour at 4:45 p.m. Saturday in the Westchester Room at the Eureka Inn. Dinner is to be served promptly at the Inn at 5:45.

At the banquet the friends of Franny Moore—everyone who attended HSC between the years of 1932 through 1938—will occupy one section of the dining room. Franny Givins ('40) is in charge of arranging this reunion. In addition, the Class of 1950 will be holding a reunion and will occupy tables at the banquet. Ralph Goldsmith, John Klingenspor, Larry Dake, and Dr. Hank Frank are beating the drums in preparation for this phase of the Homecoming

program.

The Class of 1960 is planning to take over a section of the space for its first reunion, with Pat Miller spearheading the drive for the newest alums, many of whom are already life members of the Association.

Chico Game Featured

The program will close at 7 p.m. to allow time for everyone to get to Albee Stadium for the football game with Chico State. This is always the BIG game for Humboldt. The axe, now in Humboldt's possession, will be awarded to the victor for another year at the conclusion of the game. Also, the official elevation of Franny Moore to membership in the Humboldt Hall of Fame will take place between halves.

A new feature at the game this year will be the appearance of alumni members of the "Tin Hat" Band. Anyone who played in the band during the era of Fulkerson-Barlow-Backman as directors may participate in this band, providing they attend the rehearsals which have been announced in the daily papers. They are to appear in the old Lumberjack uniforms and promise some snappy music and marching. Jon Mitts, Jim Nameth and Al Braud are in charge of this enterprise, and of course we shall all enjoy seeing Jim Nameth performing once again for the Green and Gold.

The Homecoming Ball will be held at the Eureka Inn to highlight post-game festivities. Announcements of other post-game get-togethers will be made at the banquet. Plan to come early and stay late.

For members who have not paid their dues, Mrs. Jessie Woodcock will be on hand to receive all the moneys they wish to pay or if necessary, alumni may come now and pay later. Don't miss the 1960 Homecoming, honoring the one and only Francis Moore.

College FM Radio Station Opens, Campus Expansion Continuing

Another milestone was marked at Humboldt as radio station KHSC-FM was opened Oct. 17 from its quarters in Sequoia Tower in the new Speech Arts Theater Building. Dr. Dale Anderson, assistant professor and director of radio and television at HSC, is in charge of the station, which has modern equipment and a broadcasting radius of 15 miles.

Work is going forward on the new Physical Science addition, which will house departments of physics and chemistry. It will complete the science plant, which was envisaged with the construction of the Biological Science Building a few years ago.

Out for bids is the new Education and Psychology Building. In the spring bids are expected to be advertised for the Forestry Building, and the new Library is in the final planning stage. It is hoped these buildings will be completed or started this year.

Newest campus building to open is the new cafeteria, located in front of and below Founders Hall. It is beautifully designed and magnificently equipped, and serves 400 persons at one time. Since the demolition of the Coop, (formerly the Little Apartments), a snack bar in the cafeteria will serve the students during the morning, afternoon and evening hours.

The old Nelson Hall cafeteria has been converted into a Campus Activities Center.

Mrs. Jane Ingraham Logan, formerly an evaluation technician in the registrar's office, is living in Hyattsville, Md., where her husband, Joe, is employed in research for the U.S. Department of Agriculture. They have three daughters and a son.

HSC Prexy Urges Alumni Backing For Proposition 4

President Cornelius Siemens urges Alumni leaders to support Proposition 4 in the November elections as a measure that would benefit all higher education of the state.

Proposition 4 would permit eight, rather than four-year terms for the new board of trustees recently appointed to govern the state college system.

Beginning July 1, 1960, the state colleges for the first time will constitute an independent system. They will be governed by their own board of trustees, and will be administered by their own central staff. Sixteen members are appointed by the governor to serve without pay. Other members will include the Governor, Lieutenant Governor, Speaker of the Assembly, Superintendent of Public Instruction and Chief Administrator of the State Colleges.

The Legislature voted 106 to 1 in favor of giving the 16 appointed trustees eight year terms, if the voters approve Proposition 4. Arguments in the Legislature for the eight-year term included college protection from partisan politics, the need to attract top leadership to the trustees and the desire to provide greater stability in college policies.

Elta Cartwright Stromberg ('28), a participant in the Olympics in Holland in 1928, attended the summer Olympics in Rome this year. She was HSC Hall of Fame nominee last year.

In Memorium

William H. Carter, class of 1930, died suddenly this summer. He taught until 1944, and since that time was engaged in the logging industry. He was the brother of John Lloyd (Nick) Carter of Half Moon Bay and Ralph V. Carter of Hydesville, both Humboldt State graduates.

Elida Ford, class of 1919, died just after her retirement as a teacher in the Blue Lake School. She was a teacher there for 40 years.

To Our HSC Alumni

It only seems like yesterday when the College, the Alumni, and several thousand guests and friends celebrated the Coming of Age of HSC. Since the seven buildings were dedicated in May, we have witnessed the pouring of the foundation of a \$2 million Physical Science Building, and next month we will see the start of the \$6.5 thousand Education and Psychology Building. Within six months, ground for another splendid addition—the new million dollar Library—will be broken at the site of the Preston orchard.

To make room for these and other expansions we are also in the process of purchasing additional sites to the west and south of the campus as far as 14th Street between B Street and the Freeway. For our first off-campus purchase, we are negotiating for a site for a Marine Station in the Trinidad coastal area.

Although it was publicized in May, it may not have reached your attention that the College was the recipient of a 300 acre college forest through the generosity of Pacific Lumber Company and the good work of our College Advisory Board. The College Forest is located near Freshwater Corners, permitting us to have a wonderful laboratory for our fast-growing forest management program within 15 minutes of the campus.

Such developments are made necessary by the steady growth toward our eventual master-planned size of 5,000. This fall, with the addition of about 150 more students, our enrollment almost touches 2100. Already, we are having to turn away applicants for our new men's dormitory, causing us to make application for federal funds to build an additional resident hall.

As stated in the feature article in Time Magazine (Oct. 21), the biggest news in higher education in California is the adoption of a Master Plan which sets up a new Board of Trustees for the State Colleges, comparable to the Board of Regents for the University. The Trustees are now in the process of appointing a staff, planning the state organization and preparing new legislation for the spring session. Led by a strong Board of our own, the State Colleges should rise to new heights in stature and excellence. Among the special features of the Master Plan are the provisions for offering the doctor's degree cooperatively with the University and the joint use of specialized facilities, such as graduate libraries and the data processing center at UCLA. It will also mean tightening the admission standards of both systems, thus pushing more students to the junior colleges for the first two years.

Thus the '60's should be an exciting time in the development of higher education in which Humboldt State College plans to take its rightful place as a first-quality liberal arts college for Northwestern California.

May I urge that each of you make a special effort to "come home" for Homecoming this year. If you can't, you may never again be able to recognize your Alma Mater.

See you on Nov. 4 and 5.

President C. H. Siemens

Graduates List 582 Life Members, Annual Grid Banquet Successful

There are at present 582 life members of the Humboldt State College Alumni Association. While the Association has been growing, the membership still represents a comparatively small percentage of those eligible to belong.

Anyone who has completed a total of 16 semester units may become a life member by paying the fee of \$25. Annual memberships of \$5 may be applied toward the life membership, if paid for five consecutive years. Dues may be sent to Mrs. Jessie T. Woodcock, treasurer, at 1837 K Street, Arcata.

The Alumni Association carries on an active program of supporting the college in a variety of ways. One of the most rewarding phases of alumni work has been the establishment of a student loan fund, which at the end of June had a balance of \$1,923.12. It is administered by James Hoffe, director of placement and coordinator of alumni affairs at HSC. Eight loans have already been approved this fall, for a total of \$782, leaving a current balance of \$768.97. Hoffe reports that the loan fund is of inestimable value, and prompt repayments enable the same dollar to serve many students over the years.

Footballers Sing Better

The Alumni Association shares in the responsibility for the staging of the "Kick-off" dinner which has become one of the social and athletic highlights of the year, preceding as it does, the opening of the football season. A highlight of this year's program was the singing of the Alma Mater in rousing fashion by the entire football squad.

Coach Phil Sarboe said the last time the team went to Hawaii the players were asked to sing the Alma Mater at a program held on the campus of the University of Hawaii, but they were embarrassed because they did not know the

words. This time they expect to be prepared. Congratulations to Coach Sarboe upon this unusual feature of football at HSC.

Another feature of the program was a skit directed by Ruth Carroll and Herb McLellan, both HSC alumni, who are members of the faculty at Arcata Union High School. Tapuni "Cap" Ioelu reminded many alums of "the good old days" when he sang Hawaiian songs and played his own guitar accompaniment. Likewise, Jim Nameth demonstrated that he has not lost his touch when he again twirled his baton with all the artistry he demonstrated in his undergraduate days.

The reception following commencement is always arranged by the Alumni, and this year it was held in the Women's Gymnasium. It was successful as always and master-minded this time by Mary Dolf Biehn.

Alumni in the San Francisco Bay section, Sacramento, and Los Angeles areas have organized branch chapters of the Association and sponsor occasional HSC affairs for graduates residing in those areas. Alumni living in any of these neighborhoods and wishing to receive notification concerning get-togethers of alumni should contact the following: James Hemphill, State Department of Education, 721 Capital Avenue, Sacramento 14; Alan Bartlett (for Bay area Alums) 1913 Marguerite Avenue, Pleasant Hill, or Jack Sivert, 16024 Arcturus Ave., Gardena.

Founders' Dinner Draws Big Crowd, G. Hogan Honored

The Founders' Day dinner last May was beyond a doubt the biggest, most successful, most impressive event in the history of Humboldt State College. The dinner, culminating the dedication of the eight new construction projects on campus, was held in the new Men's Gymnasium. There were 500 persons seated at tables which were beautifully decorated.

Prior to the dinner, President C. H. Siemens was host at a social hour honoring the distinguished visitors. These included our own **GEORGE HOGAN**, the first alumnus to be honored in our "Who's Who." Also present were many state officials, including Director of Education Roy E. Simpson, his staff of officers, and the State College Presidents.

Hogan, who was the guest of honor at the dinner, was graduated from Humboldt State College in 1933. He taught in the rural schools of Humboldt County, and later became County Superintendent of Schools, leaving this position to accept a position on the staff of the State Superintendent of Schools. He is now Deputy Superintendent of Public Instruction and Chief of the Division of Departmental Administration. His wife, the former **HAZEL MACKLEY** (30) who met George while they were students at HSC, accompanied him to the dinner.

Hilltop Graduates Write Short Story

Mr. and Mrs. Glen Sire, former HSC students, are the writers of a short story in the August issue of Redbook. The story is entitled "A summer to Last."

Sire was enrolled at HSC in 1947. He studied creative writing under Thurston Womack (47), former assistant professor of English at HSC, currently on leave from his position as associate professor of language arts at San Francisco State College. Professor Womack is in Japan on a Fulbright scholarship.

An entire page in the August publication is devoted to the Sires and their seven children. Earlier this year a war novel by Sire, "The Death Makers" was published. Doing much of their writing as a team, the Sires make use of a "writing room" which they describe as "a room within a room, child and sound-proofed."

The children are rewarded with a one per cent cut off the top of the writing income of their parents for services which the youngsters perform. The latter include bed making, lawn mowing, baby sitting and other chores.

Writing for the Sires has been a planned family project since Glen and Jane were in high school together in Glendale and later when they occupied one of the cottages in Humboldt Village.

Journalism Professor Teaching in Rangoon

Dr. and Mrs. Milton Hollstein is teaching in Rangoon, Burma, where Dr. Hollstein holds a Fulbright Fellowship. He is associate professor of journalism at HSC, and has been of great assistance to the alumni in the past in the publishing of the Alumnus.

Mr. and Mrs. Thomas Knight are spending the year in Mexico where Mr. Knight is studying art. He is a member of the art faculty at HSC.

Dr. and Mrs. Joseph Forbes expect to leave during the spring semester for several months in Europe where Dr. Forbes will visit physical education plants and study the programs of continental institution in that field. He is chairman of the Division of Health and Physical Education.

Alumni Activities Noted

CES Teacher Weds Professor Two Librarians Leave Humboldt

OLARE WALTON ('49) recently a member of the staff at CES, was married to **DR. LAWRENCE MARX**, professor of psychology at Humboldt State during the summer. They make their home in Sunnybrae.

PAUL BALABANIS, ('54) son of Dr. and Mrs. Homer P. Balabanis, is completing work for his doctorate in economics at Stanford University. He was married recently to Lynn Pyle of San Diego. She is continuing her undergraduate studies at Stanford and expects to graduate in June. Like his father, Paul selected one of the students in an economic class he was teaching to become his wife.

DEAN GALLOWAY ('47) resigned his position at Humboldt State College, where he was senior librarian, to accept a position as head librarian at the new Stanislaus State College. **MIRIAM MALOY** also transferred from Humboldt to Stanislaus, where she is in charge of technical services.

Nov. 12 has been announced as the date for the marriage of two former HSC students. Upon that date, **SAM MERRYMAN**, Humboldt County supervisor, will take as his bride **EDITH STROMBERG**, daughter of the late Ernest Stromberg. Miss Stromberg is a nurse in the office of Dr. Paul Moynihan in Arcata, after having worked as a nurse for several years in the Bay Area. She attended Humboldt in 1944-46 and completed her nurse's training in San Francisco. Sam attended HSC in 1947-49, and then transferred to the University of California.

LYNWOOD CARRANCO ('49) has returned to campus to resume his duties as assistant professor of language arts, after a year's leave of absence spent in graduate study at the University of Southern California.

BETTY REYNOLDS WOLFER, now Mrs. **RAYMOND C. REEVES**, completed the one-year business course at Humboldt in 1952 and later re-enrolled in a teaching course in 1959-60. She has been employed since 1952 in the office of the registrar. She lives at 1422 Tenth Street, Arcata.

IRENE WOODS ('59) is now Mrs. **IRENE W. ANNONI**, living at 1207 Ygnacio Valley Road, Walnut Creek.

CRAIG STARK ('56) has gone to New Delhi, India, where he has a position in the U.S. consular service. Stark was in Washington with the State Department for two years prior to accepting this assignment. He spent several months in intensive study of the Hindu language.

RUDY RENFER, formerly of Eureka, was a visitor to the HSC campus this summer. He attended Humboldt in 1932-33 and later received his AB and MA degrees from Southern Methodist University and his PhD from the University of Texas. He is professor of history at Southern Methodist University and resides at 3540 Haynie Avenue, Dallas, Texas. Renfer says he spent a year in Europe in 1957-58, and during that time, his wife and daughter attended Basil University.

WILLIAM DUNLAP ('52) is personnel manager for the Cla-Val Company and resides with his family at Newport Beach.

ROY HILBURN ('52) has completed requirements for his master of arts degree at Ohio State University. He majored in education.

MARIAN CONNICK ('50) is in Casa Blanca, Morocco. Marian majored in physical education and last year taught in the Sunnyvale Union High School.

JAMES NAMETH ('57) has returned to his position at Arcata Union High School, where he teaches business subjects, after spending two years in the army. He was stationed in Washington, D. C., for several months, and during that time, he served as baton twirler for the Washington Redskins professional football team.

DONALD STEPHENS ('57) was married recently to Mabel Wren and they are making their home in Ferndale. Don is teaching at Elk River and his wife is running a nursery school in Ferndale. She was an exchange teacher from England and taught last year at Trinidad.

HERB McLELLAN ('57) is making a name for himself as instructor in dramatics at Arcata Union High School. His present project is "South Pacific." In former triumphs, he has staged "The Teahouse of the August Moon" and the "Caine Mutiny."

ATHAN DALIANES ('60) is employed as activities commissioner, assisting Dean Kate Buchanan. He began his new duties at the opening of the current college year.

CHESTER BOSCH ('49) has accepted a new position teaching in the elementary school at Atascadero. He had been teaching at Loyaltown and has recovered from a stroke he had some time ago.

DUANE LANCE ('50) is teaching in Modesto, where he is in charge of the program for the mentally retarded. His wife Marian is also teaching there.

Remember the five members of the McCammon family of Fallon, Calif., who attended Humboldt State in the early days?

HARVEY McCAMMON ('22) is superintendent of schools in North Sacramento.

ANNIE McCAMMON ('24) now Mrs. Annie Porter, is teaching near Petaluma.

OLIVER McCAMMON ('32) is superintendent of schools in Hawthorne.

ELEANOR McCAMMON ('33), now Mrs. Eleanor Storm, lives in Napa and is taking additional work at the University of California.

MARGARET McCAMMON ('35), now Mrs. Adrian Dillon, lives in Redding. Her husband is in charge of Area No. 1 for the California Highway Patrol.

MARGARET MOLINI BOFENKAMP ('55) has moved to Sunnyvale, where she has accepted a position in the elementary school.

JANICE GULLIVER BURGER ('59) is teaching in the Alpine District in Utah.

BOB HUGHES ('58) has moved from Arcata, where he taught in the high school, to Newport Harbor, where he is employed as a teacher in the high school district.

JIM INGRAM ('55) finished his work for his master's degree, and will be head coach in the Washington Union High School District in Fremont.

HERE ARE YOUR ALUMNI OFFICERS:

The above officers hold monthly meetings the first Monday of each month and welcome all members to attend these meetings and give new ideas.

Here's News of HSC Alumni

Mrs. Hurt Receives MA Degree, Dr. Todd Breaks Hip During Visit

MRS. ELMA CARIKER HURT ('43), makes her home in Colorado Springs, Colo., where she is dean of girls in the high school. She expected to receive her MA at the end of the 1960 summer session at Colorado State College, Greeley. She and her husband, Russell Hurt, have two married daughters.

DR. SAM TODD ('25) fell and broke his hip while visiting in Arcata recently. His home is in Bartelsville, Okla., where he is a government research chemist. One of his sons is employed by the U. S. Steel Company and the other is studying meteorology.

DR. MAX TODD ('30) still lives in Arcata. MARIE, the sister of the two doctors, now MRS. CHARLES GOODWIN, is teaching music in Longview, Wash., where her husband teaches junior college. Another sister, MARJORIE, MRS. JAMES JARVIS, lives in Salinas.

MRS. LOUISE KROHN HITT ('30) has a daughter, Mary, a student at HSC. Miss Hitt was chosen "Miss Humboldt" this summer.

CARL McDONALD ('26) recently retired as principal of Monterey Union High School, where he served for seven years after closing a nine year career as principal of Walter Colton School.

McDonald taught for 34 years in California, and he expects to build a home at Fort Bragg, travel extensively and pursue his many hobbies. His wife is the former ESTHER HOLMGREN ('25). They have three children, all teachers. One son, MALCOLM is an HSC graduate.

MRS. HELEN EVERETT, head librarian at HSC, spent the summer touring Europe in company with her niece. During part of the visit she joined a tour conducted by JOHN VAN DUZER ('37), professor of speech and drama at HSC. While in Paris, Mrs. Everett visited HSC graduate ROBERT OLIVIERA ('48), a professional musician in the French capital.

ED PRESTON ('51) has accepted a position in the high school in San Luis Obispo, after teaching ever since graduation at Etna High School in Etna.

LEROY COCKRUN ('52) has accepted a position in the Vallejo Unified District.

GORDON SCHROEDER ('54) is teaching in the San Juan Unified District in Carmichael. For the last two years he has been a member of the staff in physical education at Humboldt State and assisted Phil Sarboe in football.

MALCOLM McDONALD ('55)

who has been teaching in Monterey, has moved to Humboldt County where he is principal of the Redway and Garberville elementary schools.

BETTY JEAN LARSEN ('57) and CHUCK McANINCH ('58) will teach this year in the Palm-dale School District in Southern California.

GORDON MILLAR ('54) has transferred from Arcata Union High School to the Port Heuneme High School. While in Arcata, Millar was also a member of the city council.

LARRY MITCHELL ('57) is on the staff at CES this year, as is JOAN BROZAVICH, also ('57).

WENDY TURNER PANATONI ('58) is teaching fifth grade in Lake Tahoe Union School District this year.

Advisory Committee Set For HSC Nursing Program

An advisory committee consisting of representatives of medical and hospital personnel, public health and nursing organizations, public schools and community representatives, has been appointed to act as a consulting body on nursing education at HSC.

Dr. Homer P. Balabanis, dean of instruction, said the committee is designed to keep the nursing faculty and administration at the college in touch with community nursing needs and to advise them on the best ways and means for meeting these needs.

Serving on the committee will be Dr. Paul Bowers, representing the public schools; Mrs. Brousse Brizard, the community; Mrs. Philip Dohn, Medical auxiliary; Mrs. Freda Jasper, Humboldt County Hospital; Sister Leo Paul, St. Joseph hospital; Dr. Don J. Lowe, Medical Society; Dr. L. S. McLean, department of public health.

Ernest H. Stewart, General hospital; Miss Helen Allen, HSC coordinator of nursing; Dr. Donald Bux, HSC medical officer, and

Dr. Balabanis. The committee's first meeting is scheduled for Monday, Nov. 7 in the college Administration building.

HSC Battles For Axe

Hilltoppers To Place All 'Their' Hopes on Line With Upset Minded 'Cats

By DUANE ONETO

The Humboldt State Lumberjacks place all "their" hopes plus the Victory axe on the line tomorrow night when they meet the twice-beaten Chico State Wildcats at 8 p. m. in Albee Stadium.

The 'Jacks place their hopes for the Far Western Conference title, higher ranking in the NAIA and UPI polls, a chance for a bid to the Holiday Bowl and National Championships in their annual Homecoming game with the Wildcats.

The 'Cats would like nothing better than to upset the Hilltoppers to avenge a 13-12 defeat last year, take back the axe, and break the Lumberjack's 16-game winning streak.

And the Wildcats have the squad to perform the feat as they have a backfield consisting of Frank Enos, Keith Calkins, Marshall Krueter, and Bill Morris. The trio of Enos, Calkins, and Krueter gave the 'Jacks fits last year, and they will be trying to duplicate it again this year.

Enos led the 'Cats last year as he ran and passed from the lone back position, driving rival teams mad. He sparked the 'Cats to a 40 point second half midway last season.

Enos has shifted to halfback this year where he has gained 576 yards in 136 carries. The speedy halfback is also known to throw occasionally.

Krueter quarterbacks the visitors and throws the long pass. He is pressing Fred Whitmire of Humboldt in the FWC passing race. The flashy signal caller majors in the touchdown pass, particularly for long yardage.

Calkins and Morris round out the backfield for the 'Cats giving them a balanced running attack. Morris led the Chico rushers in the first four games.

Chico head coach George Maderos has abandoned the "Enos Spread" for a more conventional attack, using the talents of his three backs.

The Lumberjacks hold a slight one game edge in the series as the 'Jacks have won 11 and Chico 10. There has been one tie.

The 'Cats have lost only two while winning five. They beat Pepperdine (22-6), Southern Oregon (26-6), Nevada (12-9), LaVerne (35-2), Long Beach State (18-17). Their setbacks came at the hands of Linfield (1416) and Sacramento State (13-9).

HOP SCHEDULED NOV. 8

A record hop, sponsored by the Sophomore class, will take place in the Campus Activities Center, Nov. 8. The dance will continue from 8-11 p.m. Admission for the dance is free, and everyone is invited.

Humboldt Holds Slight Edge In Chico Series

Tomorrow night marks the 22nd meeting between big game rivals Chico State and Humboldt State. The Lumberjacks hold an 11-10 edge in the highly competitive series.

Chico will be seeking to end a two-year dominance of the series and the highly prized victory axe while HSC will be attempting to continue control for another year.

The 'Jacks have won four of the last six games. However, three of the last seven, have been decided by one-point margins, Humboldt taking two of them, one last year, 13-12.

While Humboldt holds a one-game series advantage, the 'Cats boast a 2.3 edge in average total points.

But as most long-time observers of this annual clash have come to say, "You throw away past performances when these two meet."

What's What!

—by Hugh Clark—

Will Great Humboldt Grid Team Slip

A few weeks back we wrote that the roughest half was still ahead of the Lumberjacks. Well, they survived the first two tests of the remaining five, but still have three—Chico and Nevada—two which are the most important, ahead of them.

A little over a week ago we read where 47 colleges and universities were undefeated and untied. A week later, we discovered only 32 remained in the select group, showing some 15 dropped from the list.

Syracuse found it was as easy to lose as it was hard to win last week and Baylor also failed to make it. The big question by some Humboldt fans and boosters, who are apprehensive but not pessimistic, is, "Will this great team slip?"

Of course, the obvious answer is no, but what do you think the answers were on 15 other campi a week ago?

It must be a hard life, writing for San Francisco papers. Two of the well-known columnists in the Golden Gate city have found so, or at least it seems that way.

One, a Mr. Herb Caen, crossed over his line of gossip into the world of sports and wrote of an undefeated junior college team being the only one in Northern California. He was wrong and is well aware of that fact now that he has been hung in effigy.

So, Mr. Caen writes an apology, the Caen-o-way, at least, saying please cut him down after acknowledging the fact Humboldt has won six straight. No, Herb, it's seven straight! But please don't hang him again, he might never be the same.

And then this writer's executive assistant blames his sports staff for the miscue, saying, "they were amiss."

And we doubted it until Monday when Art Resenbaum tells of the bigfoot mystery of Humboldt County and ties it in with SF State's 20-19 loss to Humboldt earlier this season. What was the score again? Yes, he said 20-19.

And once again to set the record straight, for posterity if not for the SF scribes, the final score was Humboldt State 21, San Francisco 18.

Please don't say anyone can make mistakes. They can. But when some papers disregard the best team in their end of the state except for tidbits here and there, and then flubs the tidbits we become a little extra-critical.

Once we said HSC spirit appeared to be lacking. Whether we were right then, doesn't really matter. What does, is the fact it is tremendous now. It is better than we have seen in our three years here.

The rally and parade fete held Tuesday at the return of the Lumberjacks was history in the making. More fight follow, but we'll bet none as heart warming and emotionally packed as the one we witnessed.

And we'll predict this spirit will soar to an all-time game high come tomorrow night when what is expected to be a record homecoming crowd lets itself be heard halfway across Eureka town.

400 High Schoolers Participate In HSC Tournament

Approximately 400 students representing ten high schools in four counties participated in the sixth annual Humboldt State forensics workshop Oct. 21. The activities included extemporaneous speaking, original oratory and oral interpretation.

'JACKS OF THE WEEK

MATT KELLY
Defense

Matt Kelly has been chosen Jack of the Week for his defensive play in the Hawaii game. Kelly, father of one, has been an outstanding performer on the "Green Chain". He repeatedly stopped the Hawaiian backs for losses and short gains.

DAVE LITTLETON
Offense

Dave Littleton, hard running halfback, has been selected Jack of the Week for his fine play in the Hawaii game. Littleton picked up 31 key yards plus returning a punt 28 yards. Littleton was All Far Western Conference Second Team last year, and has been a valuable reserve.

HSC Strikes Via Ground, Air for Greatest Victory

By LARRY WINGFIELD

Humboldt State's underdog Lumberjacks staged a brilliant come-from-behind effort to upset the University of Hawaii 29-15 in Honolulu, Hawaii Friday for their greatest win in a greatest season in history.

The 'Jacks racked up their 16th straight victory, their seventh this season. Quarterback Fred Whitmire threw two touchdown passes, while Ed White posted two more, as the Hilltoppers evened their series with the Rainbows at two apiece.

Hawaii drew first blood, marching 44 yards in nine plays after recovering an HSC fumble. Damon Waitley scored from the one, and after Mickey Huffman booted the extra point the Rainbows led 7-0. HSC took the ensuing kickoff 56 yards in eight plays to go ahead 8-7 with 1:10 left in the first half. White and Dave Littleton took turns ealing up the yardage, with a 13 yard pass from Whitmire to Drew Roberts helping out. White got the call and went in from the one for the tally.

Whitmire, on a fake place kick play, hit end Jim Barker for the two point conversion as Humboldt took a slim one point lead at intermission.

The Lumberjacks seemed to come alive during the second half. On the third play after the kickoff White on a trap play over center rambled 48 yards for the second touchdown. Manuel Vasquez booted the extra point and Humboldt moved to a 15-7 lead.

The Hilltoppers took the next Rainbow punt and in five plays tallied their third touchdown.

Whitmire passed to Roberts for gains of 17 and 15 yards and then found Cecil Stephens open along the right sideline for 30 and the marker. The scoreboard clock showed eight minutes left in the

third period, with Humboldt leading 21-7.

Hawaii took the ensuing kickoff and went 62 yards in 17 plays. Casper Scheitle passed to Charley Au in the end zone as the Rainbows followed closely, 29-15 to Humboldt.

After a punt exchange the Hilltoppers went for their insurance marker. Whitmire hit Roberts for 36 and the TD on the sixth play of a drive that covered 61 yards. Whitmire passed to Roberts for the two point conversion climaxing a win that established the Humboldt State Lumberjacks as a definite small college grid power.

Crane Elected

Dave Crane, a business administration major from Guam, was chosen president of the Sophomore class in last week's election.

In a close run-off for the vice presidency, Sue Albrecht won over Julie Gavey.

Limited Swim Program Slated To Start Here

A limited swimming varsity program is being started at Humboldt State for the first time in the college's history. The program has been planned since a suitable pool was built.

Sacramento State and Chico State are both in the process of building pools, and swimming may soon become a major sport in the FWC.

In 1941, the HSC eleven triumphed over Arkansas A&M by a 13-0 score.

"BRAINS OVER BRAWN"

I broke my back to get ahead. Football, track, baseball, basketball. But nobody noticed me. Then one weary day I started wearing A-1 Rapier slacks. Instant success. Now I'm a confirmed 6-letter man. RAPIER, of course.

Picker Has Problems

At the end of our last expose we stated that we were going to remove our foot from our mouth. We went to the Health Cottage and they suggested amputation!

Sunset Hall was a one-man wrecking team. We pick them to win—they lose. We pick them to lose—they win.

Games we picked right in the National League were CU 12, Forestry 6; Humboldt Village 30, Tekes 6. Games we lost were Circle K 6, Independents B 12; Circle K 18, CU 24.

In the American League we predicted Delta Sigs 24, Redwood third 12; Redwood second 18, Independents A 18; (We claim ties as correct). Games we lost were Sunset 6, Redwood second 30; Block H 18, Sunset Hall 24.

A roaring 50 percent after one week of play.

This week we have borrowed one of Jacopo and Santo's cocktails, poured it into the ouiji board, and it answered with Block H over Delta Sigs; Sunset Hall over Delta Sigs; Block H over Redwood second; Independents A over Redwood third.

In the National League, Humboldt Village over Independents B; CU over Tekes! Circle K over Forestry; and Forestry over Tekes.

We wish scorekeeper Lee Marvel luck in his picks which will be posted on the Intramural bulletin board in the gym.

"I have it, and I am going to keep it," affirms Bill Johnson, maintenance chief, as he poses with the Humboldt Axe. The axe is being guarded by Johnson and several members of the Inter-Collegiate Knights to prevent Chico Staters from obtaining it.

HSC Axe Started in 1946, Missing Before 14th Tilt

By MARTHA GABRIEL

It started as a simple assignment, a feature story on the Humboldt State Axe. Until recently the Humboldt Axe hung in the Campus Activities Center. But not on the day I chose to write about it. On this day I found that the axe had disappeared and no one including the Student Body President, Yell Leader, or Dean of Women knew where it could be found, or at least they said so. Had Chico State stolen it?

It was mandatory that I secure a photograph of the "over-sized" hatchet to accompany the story. I felt that no one could possibly steal a 150 pound, nine foot axe which was bolted to the wall of the Campus Activities Center with eight huge bolts. With this in mind I began my search of story and axe.

The axe rivalry was all started in 1946 for the love of a good fight and the lack of school spirit. The nine foot "grudge axe" was built and donated by a campus organization known as the Humboldt Knights, a service club which at this time was composed mostly of former GI's.

Aluminum was chosen for its head because of the lack of steel at this time. It was cast in the Industrial Arts Building and the massive handle was made of redwood.

The Knights in searching for a fitting symbol of school spirit and fight decided that the axe was appropriate and similar in meaning to the traditional University of California-Stanford axe.

When Humboldt lost its football game to Chico in 1948 the axe rivalry began to pick up momentum because of the fact the axe remained on the Chico campus the full year. Humboldt has won possession seven times, Chico six. One game resulted in a tie.

Both brave Chico students and Humboldt students have ventured on to each other's campus and have managed to remove the axe from its showplace from time to time.

Since the 1958 Homecoming, Humboldt has been in possession of the axe. As this story is being written no one seems quite sure as to where the axe is.

300 Students Protest, Hang Columnist In Effigy For Undefeated Team Error

By DUANE ONETO

The Humboldt State Student Body rose in protest over the weekend, hanging Herb Caen, well known San Francisco columnist, in effigy, and making a series of phone calls to the San Francisco Chronicle.

Giant Greeting For Returning Football Team

By RON KUNSTAL

A giant greeting by more than 2000 fans, students and faculty members was extended to the returning Humboldt State Lumberjack football team Tuesday evening on its return from Hawaii where the small college had established itself as a major college grid power, defeating University of Hawaii, 29-15.

The greeting climaxed a 50-mile long parade like caravan that started in Garberville and picked up along the way in the late afternoon hours on Highway 101. The convoy was met by more than 100 cars south of Eureka which escorted it to downtown Arcata where the gathering showed its tribute to Humboldt's greatest football team.

The rally-like affair was spearheaded by the North Arcata Kiwanis club which got other groups in the District 20 to pitch in along with the Humboldt marching band, and of course, the many students and fans.

The "Green and Gold carpet treatment," was unlike any other given in this area. "It was the biggest, the loudest and most complete ever," one long-time local fan commented during the occasion.

Leaders of the many college booster groups, co-captains Pete Carpino and Fred Whitmire, among the 12 seniors on the team, trainer Ced Kinzer and coaches Bob Doornink and Phil Sarboe all thanked the group for its support and the reception.

Sarboe detailed his feelings, saying "This is the greatest thrill I've had in all of my coaching years." The HSC head man also requested, and promptly received, a moment's silent prayer for the Cal Poly football team of San Luis Obispo which crashed, killing 17 plays last weekend.

Excited wives, girlfriends and parents met the group which had made the long five-day trip to the Islands. But the players, though fully appreciative of the rally, maintained a seemingly ominous quiet, already talking about how they hoped they would be ready for the Chico game Saturday at Homecoming.

The incident received national attention when the story appeared on the Associated Press (AP) radio and newspaper wire.

The protest rally resulted from a statement written by Caen in the Chronicle Thursday. Caen wrote "All hail today, I say, to Hartnell College of Salinas, which has the only undefeated, untied college football team in northern California, with a record of 5-0. Go, Panthers."

Since Humboldt had a 6-0 record at the time, the students hung Caen in effigy at 5 p.m. Thursday before an approving crowd of over three hundred students. The Humboldt State marching band was represented, accompanying the hanging with mournful drum rolls.

John Rawlingson, president of Redwood Hall, led the rally, placing the noose around the neck of the dummy.

The rally broke up to the sounds of the Lumberjack fight song, and was apparently over.

However, Rawlingson and ASB President Dennis Cahill decided to place a phone call to Caen and discovered the root of the "misunderstanding."

The first call was placed at 12:15 p.m. Friday, and Cahill was informed that Caen would not arrive until 2:15 p.m.

The second call was placed at this time, and Cahill spoke with Caen's executive assistant, Phil Bunson. Cahill asked a slate of pre-arranged questions: "Was Humboldt intentionally slighted or was Humboldt just ignored? Do you know that Humboldt is rated third in the nation by the NAIA?"

The assistant replied that "The sports department of the Chronicle was amiss."

Learning that Humboldt was playing Hawaii, he requested that the results be called to them.

Saturday morning the residents of Redwood Hall sent a letter to Caen with the signatures of 35 residents. The letter told Caen of Humboldt's outstanding football record over the past two years.

When Rawlingson heard the results of the Humboldt-Hawaii game, he called the Chronicle sports department and was told that the sports editor would be in Saturday at 1 p.m.

Rawlingson called at that time

and found the sports editor was not expected until 3 p.m.

After this call, Rawlingson said, "I don't know if they are intentionally putting me off."

At 7 p.m. Rawlingson made the fifth and final call of the weekend. He asked for Caen and was told that he was not in. Rawlingson then asked for the sports editor; his call was not accepted.

The previous four calls had been collect and were accepted.

The second call on Friday was recorded by KHSC-FM and tapes were sent to local radio and television studios. This tape had the request for the call on the Humboldt-Hawaii game.

Caen wrote in his Monday Column, "Now then if I seem a little short of breath, happy or otherwise, it's because I have been hung in effigy at Humboldt State College where the students are a bit exercised because I wrote last week that Hartnell of Salinas has the only untied and undefeated football team in Northern California. Wrong! Humboldt has won six straight this season and is on a 16-game winning streak—and NOW will you cut me down? Fanxamillion . . ."

Caen was still in error, however, for Humboldt has won seven straight this season.

Set Homecoming Dance Saturday At Eureka Inn

The annual Homecoming Dance, held this year at the Eureka Inn, will follow the HSC-Chico football game in Albee Stadium tomorrow night. The ASB-sponsored dance will end at 1 a.m.

Dance music will be provided by the Melodiers and the homecoming queen and her court will be presented at midnight.

Admission to the semi-sport dance will be \$1.50, couple with ASB card; \$2, couple without card; \$1, stag with ASB card; and \$1.25 stag, without card.

School Bell Now Sounds Humboldt Grid Victories

The Victory Bell, a bell that once called school children from their play, now rings out each Humboldt State victory and is a memorial to a Humboldt State student.

The Bell's history began in 1872 as was dedicated as a memorial to him.

Last spring Jerry Hathaway, then president of Comus, presented the bell to the Student Body to carry on the tradition. The Studentent Council has entrusted Circle K with the bell this year. it must appear at all games to toll the score, and appear in parades and rallies.

Don "Snuffy" Smith, an active member in Comus and HSC student body officer, was killed in an automobile accident, and the bell
