LUMBERJACK

OF HUMBOLDT STATE COLLEGE

VOL. XXXIII

ARCATA, CALIF., FRIDAY, APRIL 8, 1960

No. 25

Plan To Attend
Lumberjack Day
Events April 20

The Lumberjack Leaders party running for next year's student body offices are planning their election campaign for the week following Easter vacation. Candidates

are from left to right: Neil Evans, Dennis Cahill, Roger Olson, Betty Bird, Dick Maynard, Paul Asp, Bob Merritt, Mary Ann Miner, and Bud Kolding.

Asp Heads LL; Party Makes Seven Pledges

Paul Asp is running for Associated Student Body President on the Lumberjack Leaders ticket. Asp is a junior social science major.

At HSC, Asp has served as president of the Jazz Club, student activities director, member of the Forestry Club, Conservation Unlimited Club, Board of Control chairman, All School Picnic committee, Lumberjack Days committee, Popera committee, Nelson Hall officer, and is a member of the Green and Gold Key. Recently he was appointed chairman of the 1960 Homecoming. Asp has been responsible for the last three jazz concerts on campus.

The following is the platform of the L. L. Party:

Humboldt State College is coming of age. In recent years tremendous advances have been made in faculty and the facilities that are available to the students.

We, the Lumberjack Leaders, believe that we have both the mature judgment and the experienced leadership that will lead the student government forward with them.

In keeping with our promise of advancing with the school, the Lumberjack Leaders propose to conduct our campaign at the highest level in the belief that the average student is ready to make his decision on the basis of the candidate's position on the issues, not on mere whim or on mere personal popularity.

If we are elected, we promise to give our strongest attention to the following:

1. Campus Parking. It is our belief that every possible thing must be done to improve the present situation, which borders on the ridiculous at times.

2. Campus Bookstore. We propose to do everything possible to improve the sale price and resale price of books to the students. It is also our belief that besides occupational training, a college must provide intellectual stimulation to the student. Therefore, we propose to provide a wide range of the new educational "paperbacks" now available, that will help to fill this need for the student at moderate cost to each student.

3. Assemblies. We propose to provide a wider assembly program.

(CONTINUED ON PAGE 4)

Vieing for post as next year's student body officers are these members of the Octagon Volunteers. Clockwise from top are Bill Crichton, Ross Stromberg, Pat Meneweather, Lynn Ricker, Joe Mayfield, Donna Cleveland, Bill Turner, Joe Romero, and Tony Karachale.

Mayfield Leads O. V. Party Slate, Seeks Continued ASB Excellence

Seeking the post of Associated Student Body President on the Octagon Volunteer party is Joe Mayfield, junior business major

During the past few years, Mayfield has been active in many activities on the campus. He has been a member of the HSC Forensics Team, Sophomore class president, Rally Club president, Circle K treasurer, Homecoming Chairman, Frosh Camp Counselor director, ASB treasurer, and member of the Board of Finance.

The Octagon Volunteers Platform is as follows: "We, the Octagon Volunteers, pledge to continue the excellent student government as has been the fashion un-

der the able leadership of the O. V. president, Art Dalianes. Recognizing the fundamental sound structure of ASB government, we are presenting a three point program to further develop and extend the scope of student government at Humboldt State. The three points are:

1. United States National Students Association.

At present, HSC student government is primarily engaged in the social aspects of college life.

(CONTINUED ON PAGE 4)

Filings Complete, Candidates Await Vote April 22-25

Associated Student Body elections have been scheduled for Friday and Monday, April 22 and 25, and the runoff if necessary, April 27. Voting booths will be set up in the foyer of Founders Hall and the Coop from 8 a. m. until 4 p. m. A voting booth will also be placed in the Cafeteria from 11:30 a. m. until 1:30 p. m. on the voting days.

Petitions for nomination closed last Tuesday at 4 p. m. Two complete parties and four independent candidates filed. Heading the Octagon Volunteer party is Joe Mayfield while Paul Asp is leading the newly formed party, Lumberjack Leaders. The independent candidates running are James Moranda for treasurer; Hugh Clark, publications commissioner; Dennis Cahill, president, and Doug Kane, vice president.

Running on the same ticket with Mayfield are Ross Stromberg, vice president; Lynn Ricker, secretary; Linda Dolf, activities commissioner; Tony Karachale, organizations commissioner; Bill Crichton, awards commissioner; Donna Cleveland, publications commissioner; Pat Meneweather, assemblies commissioner; Bill Turner, Rally commissioner, and Joe Romero, treasurer.

Running with Asp are Dick Maynard, vice president; Nancy Mendes, secretary; Bob Merritt, treasurer; Betty Bird, activities commissioner; Roger Olson, organizations commissioner; Neil Evans, assemblies commissioner; Gary Peterson, awards commissioner; Bud Kolding, rally commissioner, and Mary Ann Miner, publications commissioner.

Duties Listed

The duties of the president are to represent the student body at intercollegiate and school activities. The president is the chief executive of the study body. It is the job of the president to see that all other elected officers do their job properly. The president is also a member of the Board of Finance, as well as being a voting member of the Executive Council.

It is the job of the vice president of the Association to act as chairman of the Executive Council and to appoint all committees on the council. He has a vote only in case of a tie. The vice president also calls the first Freshman Class meeting and acts as their adviser for the school year.

The secretary keeps all records of the Association and is responsible for writing all letters requested. She has a vote on the Council.

Heading the Board of Finance is the job of the treasurer. He has a vote on the Executive Council and is also responsible to give financial advice to all on campus organizations.

Six Commissioners

The awards commissioner presents all names of organizations and individuals eligible for awards to the Executive Council which acts as a board of approval. He also coordinates with the assemblies commissioner in planning an awards assembly.

The assemblies commissioner plans and heads all ASB assemblies.

The rally commissioner has the job of organizing all rallies and decorating the field during football season. Planning for half-time activities is another responsibility.

The activities commissioner is

(Continued on Page Four)

State Legislature Passes New Master Plan

The much-discussed and widely-debated Master Plan for Higher Education in California was passed by the Legislature Wednesday.

The Senate, which earlier had voted its approval, voted 28-8 to accept an Assembly amendment

SEE ARTICLE ON PAGE 2

which allows a new State College board to hire private architects to design new State College buildings.

The bill now goes to Governor Edmund G. Brown where its approval is considered certain.

Educators who sponsored the original Master Plan bill sought to have the Master Plan program placed in the Constitution as presented by the Legislature. However, the program has been placed in the Education Code, where it can be changed by Legislative action.

College Gets Full Reaccreditation

Humboldt State College has been notified officially that it has received full reaccreditation for the maximum period of five years. The notification was received by President Cornelius H. Siemens from Executive Secretary Mitchell P. Biggs of the Western College Association.

The committee, headed by Provost Stanley B. Freeborn of the University of California at Davis, noticed several improvements since the 1954 accreditation, especially the new building program, increased faculty, and increased budgets.

The committee felt that Humboldt State College needed the three. "The committee is unanimous in believing that despite gains in staff and capital improvements, the College program as now envisaged will be sadly inadequate unless substantial increases are made over and above the formula for the next three years, at least, in order to alleviate the shortages that now exist in volumes and space allotment."

Happy Easter

Friday marks the beginning of Easter vacation on campus and again HSC students will be scattered to the winds, disappearing to the unknown places from whence they came.

For those staying on, or around the campus, business and administrative offices and the library will be open on Monday, Tuesday, and Wednesday, from 8 a. m. to 5 p. m. Instruction resumes Monday, April 18.

A small reminder from the Lumberjack staff - If you're leaving for your home in Garberville, South Africa, Florida, or where ever, don't be in too big a rush. Someone has to be around to take finals.

To Service The Educational Needs OF The Total Population

This, in effect, is the philosophy of education inherent in the state college system of California. Realistically speaking, this motto is broad in scope. With reference to this philosophy, the typical college curriculum that is offered to regular students must be termed inadequate. The situation where the student must come to the campus for instruction cannot hope to serve "The Educational Needs Of The Total Population." Therefore, a plan whereby the colleges take themselves to the students had to be incorporated.

The many extension courses offered through the HSC Extension office give "Mr. Average Citizen" a chance to improve his background in fields otherwise not open to him. Headed by Dr. Ivan C. Milhous, dean of extended services, the extension office at HSC offers a number of courses. The classes cater to individuals from all walks of life: for example, the business man, who wants to improve himself through higher education; the in-service teacher, who works in a locality away from the college campus; or a housewife who is simply interested in getting a broader general education.

The extension program serves many individuals in different communities. The courses are offered where there is a definite need and wherever suitable facilities can be obtained.

For the year 1959-60, a total of 45 courses were offered, in localities from Crescent City to Miranda. These courses are estimated to have served a total of 1,200 students. There are at present, 35 instructors on the extension faculty, which, it is estimated, traveled 18,000 miles since the start of the school year. This figure will be doubled by the end of the school year.

The above figures indicate a definite interest in the HSC Extension program. Also, whenever a need for additional classes arises, the Division of Extended Services will give this need the utmost consideration.

Dr. Milhous and staff must be commended on the outstanding job that is being done within the extension. With the basic philosophy in mind, they continuously strive to meet and provide for "The Educational Needs Of The Total Population."

—Bill Guimond.

State Colleges To Enter A New Era Under Separate Board Of Trustees

Editor's Note: President C. H. Siemens was asked to make a statement about the Master Plan and particularly its effect upon Humboldt State College. Although the final content of the Master Plan is not yet known, he provided the Lumberjack with the following statement:

By DR. C. H. SIEMENS
The Master Plan, which will likely receive the approval of the Legislature and the Governor, will in many respects look like the recommendations developed by the professional educators and approved by the Board of Regents and the State Board of Education. However, it will be different in several respects.

The Plan, as passed by the Legislature, keeps the controls in the hands of the lawmakers instead of turning them over to the newly created Board of Trustees. In fact, the new Board is a statutory board instead of a constitutional board. This means that changes can be voted by the Legislature at least every two years, making the new system flexible - a condition that can be both favorable and unfavorable, depending upon the changes that are effected.

For the first time, the State Colleges will have a separate board of control composed of 21 members who will serve for four-year terms unless the Grunsky Constitutional Amendment passes in November, in which case longer terms may be voted by the Legislature.

The powers given to this new board in addition to those held by the present board include those relating to personnel and greater fiscal autonomy. The latter area of control will become a reality only if succeeding Legislatures follow through on a resolution asking that the State College budgets be prepared with the same freedom as that now given to the Board of Regents. In effect, this means that the Legislature would appropriate a lump sum of money for each college and, thereafter, leave it to the State Board of Trustees as to the exact manner in which it is expended.

The new legislation also spells out the functions of the state colleges, adding to the existing degree offerings the provision that the doctoral degree "may be awarded jointly with the University of California." It also provides that "faculty research is authorized to the extent that it is consistent with the primary function of the state colleges and the facilities provided for that function." These two new functions, if carried out successfully, could add greatly to the stature and services of the state colleges.

The Master Plan also creates, by statute, a Coordinating Council for Higher Education, composed of 15 members - three each from the University of California, the State College system, public Junior Colleges, private colleges and universities, and the general public. The function of this Council is advisory in the matters of (1) review of the annual budget; (2) the functions of public higher education appropriate to each of the segments; and (3) the orderly growth of public higher education in terms of new facilities and programs.

The direct effect upon Humboldt State College of these forth-

coming changes is most difficult to predict. Because this campus has not been thwarted in any serious manner in its growth and development by the existing agencies and State Board of Education, it is difficult to visualize what additional advantages the new Board could implement. The personnel and fiscal matters will be taken care of mostly by the central staff of the new board and will not involve other departments of government. A separate board will devote all of its time to the state colleges, thus giving attention to matters in greater detail and more consistently than was possible under the current board.

A more direct effect upon this campus is the possibility that with legislative backing, funds will now be appropriated for faculty research. Until now, such activity had to be done on the instructor's own time or subsidized by private or funds from other governmental agencies. Appropriations by the 1961 Legislature will be requested to provide funds for equipment as well as personnel time to implement the new function of faculty research.

Whether or not a new Board of Trustees on which, incidentally, the current members of the State Board of Education will hold seats for the first few years, will make any drastic changes in admission requirements, graduation requirements, or other matters affecting students and the staff, is a matter that only time will tell. The new Board takes effect in July 1961 and, therefore, any new regulations will likely not be put into effect until the Fall of 1962.

With the continued strong support for higher education by the people and the Legislature of this State, the state college system should be able to look forward with confidence and optimism to a new era in which the Board of Trustees will be doing their utmost to set the guide-lines, establish the basic controls, and obtain the financial support so that each campus has the opportunity to develop the program and services most needed and appropriate for its students and its region.

SONG of the SPELVIN

Drusila was a girl who firmly believed in tradition. After all, that was the basis of her selection of a college to attend, and now, here she was at a campus where she proudly wore the school colors whenever she could: to all assemblies, to all social events, to all club meetings. Usually the colors she wore after the drive-in or the dance were black and blue, but then one did have to make some concessions

One afternoon as she and her sorority sisters sat around, trying to dream up a new tradition, Drusila bounced to her feet and exclaimed, "Let's have a TWAP week! This is Leap Year, and gee whiz, Molly, a TWAP week would be dandy!"

Unfortunately, the idea of a TWAP week was nothing new; TWAP or The Woman Always Pays, had originated at Eden, a small eastern school

Dru's brow was furrowed in thought. Suddenly she remembered the Farm. The Farm has a delightful tradition that a Stanford coed becomes a Stanford woman only when she has been kissed by a senior man in the middle of Inner Quad at the stroke of midnight on the night of a full moon.

Excitedly she told her sisters of her idea, but their faces were gloomy. "That's very nice, Dru, but it's so foggy and rainy around here, no one would know whether there's a moon or not."

But Drusila was undaunted. If the Farm could have a full moon, why not here? After all, what did Stanford have that this campus didn't have?

That night, as Drusila and Algernon wandered hand in hand in the Quad, she unobtrusively flicked a switch, and there in a full blaze of glory, suspended from the roof, was the rommie's sunlamp.

Youth will be served.

Minutes of the Student Council

March 31, 1960

Committee Reports

Recognition Letter — Mary Ann Miner reported that 25 engraved recognition letters will be printed by the Humboldt Times printing office for ASB use.

Old Business

School Flag — Neil Evans stated the flag company's price for making school flags. It was moved and passed that the ASB purchase one 3 x 5 foot flag at \$55 from ASB equipment fund. The bookstore will also purchase one flag. Roger Cinnamon will receive his \$25 money order from the bookstore.

Jazz Concert — Art Dalianes reported that the ASB lost \$40 on the Shorty Rogers Concert.

Class Ring — Joe Mayfield stated that the Board of Finance has authorized the Balfour Company to make a ring design for HSC. A committee made up of Art Dalianes, Mary Ann Miner, Joe Romero, and Ross Stromberg will meet with Mr. Gabbert April 8 to discuss the ring design. HSC is under no obligation to the Balfour Company in any way.

New Business

USNSA — The United States National Student Association was elaborated on for council by Joe Mayfield. The cost to HSC to join the association would be \$55. After much discussion, it was decided to send a representative, or representatives to the regional conference, as non participants in Los Angeles, to investigate this matter further.

Commissioner's Reports

Activities — Betty Bird submitted a report stating that plans for Activities Days and the Student Activities Center are progressing.

Organizations — Neil Evans received the council's approval for ICS to sponsor another college seal contest with a prize of a \$25 money order from the bookstore.

There will be a report on ICS's panel discussion of dance prices at next week's council meeting. ICS will investigate the possibility of repainting Nelson Hall.

President's Report

Due to an opinion poll taken during the registration process, voting booths will be in Founder's Hall, the Coop, and the cafeteria for the Spring ASB elections. Founder's Hall, 8 a. m.-4 p. m. Coop, 8 a. m.-4 p. m. Cafeteria, 11:30 a. m.-1:30 p. m.

Treasurer's Report

The following prices for the Junior Prom were approved by the council subject to the approval of the Board of Finance: couple, \$2; junior couple, \$1.50.

Graduate Manager's Report

Howard Goodwin stated that the State claims we must operate HSC's official car as a regular school bus. The Athletic Advisory Board is considering this matter now.

Representative-at-Large Reports

Dick Maynard discussed the problem of stories being released to the Lumberjack before the council has approved these items. In the future, this will be avoided.

By SANDY WILBUR

I stand beside Elk Creek, a tributary of the Klamath, and I think about the trout that will be taken out of this Marble Mountains stream during the coming season. I also think of the Klamath, and of the half-pounders that are being caught just upstream from the Orleans bridge. I think of the whole river system—of the Klamath, itself, the Salmon, the Trinity—and of the fish that are found in these streams, the trout and the salmon and the steelhead.

I think of the fishermen who frequent these streams and of how much they enjoy the fishing here. Then, I think of the California water plan - - dams for every major river in California.

Salmon - steelhead fishing is on the way out in California. That is, there will be no more fishing of the State succeeds with its proposed water plan. The streams which are now the spawning grounds of countless fish and the "hunting grounds" of countless fishermen are to be dammed, creating reservoirs - - and destroying North Coast fishing.

Why is dam construction detrimental to fish? The reasons are numerous and well-known to most fishermen. Salmon and steelhead are anadromous fish, that is, they are ocean fish that spawn in the fresh-water streams of the North Coast. When a dam is built, the chances of a fish reaching its upstream spawning area are greatly reduced. On reaching a dam, the fish must either go over the dam or else spawn below the dam. If the fish is stranded and spawns below the dam, the chances of a successful egg hatch are pretty poor.

On the other hand, if the fish succeeds in hurdling the dam, by means of fish ladders, his problems have just begun. A spawning area must be found and, in many cases, the creation of a dam and reservoir destroys these areas.

However, considering that a spawning area is found and the young fish do hatch out, this is still not the end of the problem. These young fish still must make their way back downstream to the sea. On this journey, they run the risk of being ground up as they try to pass back through the dams. The journey of a young fish has always been hazardous but now it seems that he has nothing on his side.

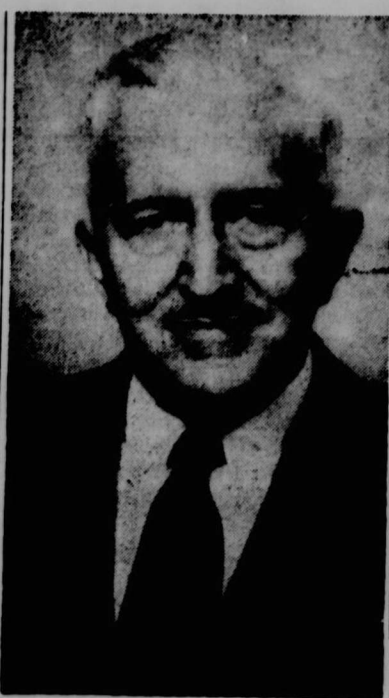

Proponents of the water plan tell us of the necessities - - and the benefits - - of building dams. They talk of need for water storage, water to quench the thirst of California's growing population. However, with a little more research, it is extremely likely that we will be able to convert salt-water to drinking water cheaper than we will be able to build and maintain dams. This is not just idle talk, for the price of salt-water conversion has been dropping steadily over the past few years until now it is only a fraction of what it once was. Why build dams if there are better ways to accomplish the same things?

The dam builders also point out that fisheries will not be destroyed, but that new fishing will be developed. By this they mean that the reservoirs created will be new

trout fishing areas. This is true but tell me, steelhead fishermen, would you be willing to give up your steelhead fishing for a chance at a few more trout? I doubt it!

To save our declining salmon-steelhead fishery will not be easy but, on the other hand, it doesn't need to be a losing battle. In 1957, the State Legislature gave us a little legal footing, if we just know how to use it. An amendment to the State Water Code states that fish and wildlife are beneficial users of water and, therefore, must be considered when planning development of any kind. With this in mind, can we say that it is right for them to destroy one resource (fisheries) for the enhancement of another (water storage)?

The perpetuation of the North Coast fisheries is going to take a lot of work. It is NOT going to take care of itself. What we need is some serious - - and CONSTRUCTIVE - - protest. Only in this way will we keep fish and fishing for Northern California.

Dr. Emil Witschi

Witschi To Give Sigma Xi Lecture

Dr. Emil Witschi, professor of zoology, embryology and endocrinology, State University of Iowa, will discuss "Sex Reversal in Animals and in Man" as a Sigma Xi national lecturer on the HSC campus, Monday, April 18.

Humboldt State is one of the many colleges and universities the 70-year-old Switzerland-born professor will visit. His lectures have taken him from as far away as the University of Hawaii, and he will travel through California, Oregon, Washington and Idaho.

Dr. Witschi was a student at the State University in Bern, Switzerland, from 1908-1911. He received his Ph. D. at the University of Munich in 1913.

Nostalgia, Tradition Combine In History Of Humboldt's Theaters

A far cry from the former cramped, crowded, and close conditions of the old theater in Founders Hall, the new Sequoia Theater offers adequate working space and a challenge - - a challenge to fill it.

For 30 or so years, flats and sets were designed and built to proportions of the old theater, and if they were too big to be maneuvered up narrow stair wells, edged around windows, and angled through small doors, either they had to be constructed in sections and assembled on stage, or were lugged out the basement door and carried around the building, and maneuvered through the front entrance, to avoid stair wells and windows. More than one skinned knuckle may safely be said to have been received in the process over the years.

Or take the problem of lighting. The banks of dimmers in the old theatre were located in the wings where waiting actors and actresses would make their entrances. On cold days this was fine, but dimmers being the rheostats they are, have a habit of giving off heat - - lots of it, and a long wait in a heavy costume, or an accidental brushing against a working rheostat, could be counted as a battle scar.

To add to the merriment, a draft could generally be depended upon to slam a backstage door during the middle of a passionate love scene, or the radiators in the auditorium could try to get into the act with their rendition of "The Anvil Chorus."

Every theater has its list of peculiarities, and as they remain, they become traditions, a part of productions. How many alumni remember the old stage, and not without a bit of nostalgia? It's a safe bet that not a few scrapbooks

and albums have programs, clippings, and photographs from the years of the Founders' Hall theater. Saying goodbye to it is as saying goodbye to an old friend, and welcoming the new Sequoia Theater is as welcoming a new friend.

The current crop of undergraduates and those of the years to come will build their new flats and sets and will easily roll them into position on the new stage (no more lugging of scenery around the building), they will have waiting rooms and areas that are comfortable (no more avoiding or backing into dimmers), and hopefully no doors will slam as the wind whistles over the campus.

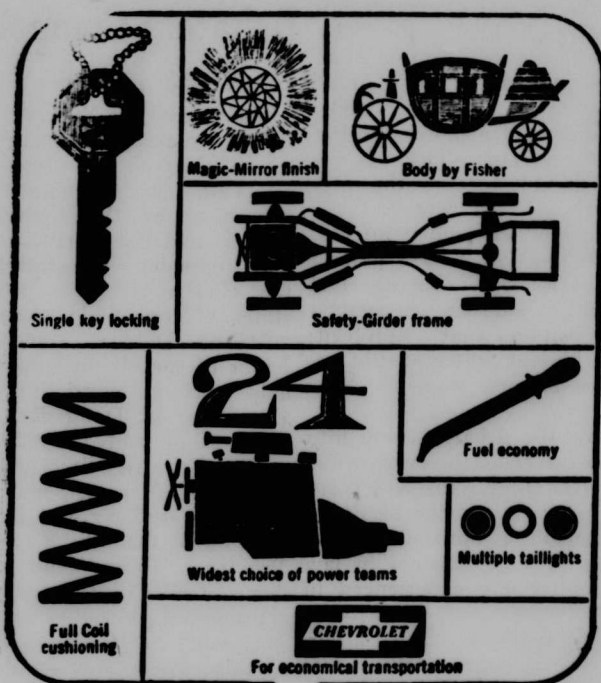

Now a list of peculiarities can become tradition, a part of productions at the Sequoia Theater. It would be interesting to return in 30 or so years, has to say about the Class of 1990 has to say about them. And there will be many - - there always are - - they're part of theater training, part of the challenge of the theater.

(Next week: Back stage).

Four From HSC Seek Beauty Title

Four HSC women will compete for the Miss Eureka title this year. They are Sandra Johnson, Mary Hitt, Helen Wilson, and Mike Richards.

The contest will take place on May 7 at 8 p. m. in the Eureka Municipal Auditorium. Miss Eureka will compete for the Miss California title at Santa Cruz June 25-27.

gram, taking advantage of the learned men within reach of Humboldt. In keeping with this, we hope to stimulate student interest in local, state, and national affairs for from the college student of today should come the informed voter of tomorrow.

4. Registration. We propose to cooperate with the Registrar in working toward increasing efficiency and fairness of the registration procedures.

5. Activities. We feel a great thrill at the opportunity that the new Nelson Hall Activities Center will provide for the student at HSC. We promise to continue our work toward the success of this program.

6. Budget. We will work toward the greatest overall benefit of the Student Body in dealing with the budget of HSC. We will give serious consideration to all financial requests and try to support the areas that will benefit the greatest number of students.

2. ICS. Increased emphasis

ASB Elections Scheduled April 22-25

(CONTINUED FROM PAGE 1)

head of the student activities program of Humboldt State College. It is the job of this commissioner to provide an all-around recreational, educational and cultural program for everyone attending the college.

The organizations commissioner has a two-fold job. He attends Executive Council meetings as

should be given to all important organizations. We promise to pay the strictest attention to all decisions that come from this important sounding board of student opinion.

We wish to repeat that our belief that the Lumberjack Leaders will provide the mature, experienced leadership necessary for the future of HSC. We represent the wide segment of the campus, from wildlife to music to social science and sincerely believe that we can represent all areas of the campus with equal efficiency and respect.

well as heads the Inter-Club Senate. He acts as an intermediary between the two councils.

The publicity and publications commissioner acts as the representative of all student publications to the council. Generally, he is closely associated with the publications department. He is also responsible for seeing that the council decisions are published in the newspaper.

Hold Office One Year

All six of the commissioners are voting members of the Executive Council. The Council acts as the governing board of the ASB, holding office for a full year.

The constitution reads that "any student who will be absent during the elections period and who desires to vote, will register with a member of the Executive Council not less than four school days before the election. It will be the duty of the Executive Council to draw up special absentee ballots and distribute them to registered absentee voters. The absentee ballots will be essentially the same as the regular ballot except that there will be printed at the top, 'ABSENTEE BALLOT ONLY!!' The absentee voter's signature shall be placed on the envelope. After the absentee voting has tak-

en place, each voter will seal his vote in an envelope and place it in a locked ballot box set up for that purpose."

Faculty Forms Investment Clubs

The staff of HSC have formed two faculty investment clubs, composed of 20 members each. These are general partnerships, where each member invests and helps make the decision on what stock or security that is to be purchased.

The main purpose of these clubs is to invest the assets of the partnerships in stocks, bonds, and securities for the education and financial benefit of the partners. The investment fund is primarily a hedge against inflation, and for this reason the emphasis is on growth stock and securities. The members are concerned with appreciation rather than current income from dividends.

The partners invested \$20 when the club was originally formed and they continue to invest \$10 per month thereafter. All of the purchases of securities are based on a simple majority vote of the partners at the monthly meeting. Interested staff members should see one of the secretaries.

Bob Kittleson is chairman of investment club number one and Mary Ann Smith is secretary-treasurer. The officers of investment club number two are Dr. Mark B. Rhea, chairman, and Dr. Frank Matsler, secretary-treasurer.

Debaters Compete In Reno Meet

The Great Far Western Forensics Tournament is being held at the University of Nevada this weekend. The tournament is co-sponsored by the University of Nevada and the Northern California Forensics Association. It is the closest thing to a western states championship tournament.

Milton Dobkin, associate professor of speech, accompanied two debate teams consisting of Ron Edwards and Doug Kane, Larry Moogerman and Tony Karachale.

Dr. Edward Steele, assistant professor of speech, will accompany Ron McKeag and John Rawlinson to the Pi Kappa Delta Province Tournament at Pasadena College tomorrow. This tournament alternates every other year with the Pi Kappa Delta Nationals. It is sponsored for the Province of the Pacific, of which HSC is a member. Participation in the convention and tournament is necessary to keep Pi Kappa Delta chapter on campus.

Amendments On Ballot

During the Associated Student Body elections, Friday and Monday, April 22 and 25, two constitutional amendments will be on the ballot. The first amendment deals with the requirements of a two point cumulative average needed for any person to hold an executive office of a club and organization or any Associated Student Body officers or appointments. The second amendment would make a class president a voting member of the HSC Executive Council.

In order for these amendments to become effective, they must be passed by a two-thirds majority of the Association and at least one-third of the Associated Student Body must vote to qualify elections.

The amendments will read as follows:

ARTICLE II, SECTION 150, the paragraph, "No student shall be a candidate for, or hold office in the Association who does not have at least a scholastic average of C" shall be changed to read as follows: "No student shall hold office or appointment within the Association or be an Executive officer of any club or organization within the jurisdiction of the Association, or be a candidate thereof, who does not have at least a cumulative grade point average of 2.0."

ARTICLE 111 — EXECUTIVE COUNCIL, SECTION 160, the paragraph, "The Executive Council shall consist of the vice president of the Association, who shall act as the presiding officer of the Executive Council, the Secretary, who shall act as secretary to the Executive Council; the President and the Treasurer; the six Commissioners and the four Representatives at Large; and the faculty adviser, appointed by the President of the College. The voting members of the Executive Council shall be the six Commissioners, four Representatives-at-large, Secretary, Treasurer and the President; A quorum shall consist of a majority of the voting members," shall be changed to read as follows: "The Executive Council shall consist of the Vice President of the Association, who shall act as the presiding officer of the Executive Council, the Secretary, who shall act as secretary to the Executive Council, the President and the Treasurer; the six Commissioners, the four Representatives-at-Large, the Four Class Presidents; and the faculty adviser, appointed by the President of the College. The voting members of the Executive Council shall be the six Commissioners, four Representatives-at-Large, four Class Presidents, Secretary, Treasurer, and the President. A quorum shall consist of a majority of the voting members."

Article X, To add a new section, 376 to read, "The amendments to Article II and II of this constitution of April 1960, shall become operative September 1, 1960."

International Debate Unusual To N. Z. Team

Humboldt State College's senior debate team of Tony Karachale and Ronald Edwards representing the negative tangled with New Zealand's affirmative team of Warwick Dent and Edmund Thomas last Thursday night in CES auditorium. The two teams debated the question, resolved: That New Zealand should become the 51st state of the United States.

The debate was quite interesting, with our local team pulling a good trick. Never before had the visiting team ran up against the proposition that Resolved: That the United States should become the second state of New Zealand.

Actually, the debate turned into a farce in the end. However, as for style of debate, etc., the New Zealand team outclassed the locals by a wide margin, as both of our visitors have masters degrees in law and are extremely experienced in debate.

The debate was an annual affair. Last year, a team from Great Britain toured the United States. The New Zealand team left San Francisco on Monday to return to their home country after a three months tour.

MAYFIELD

(Continued from Page 1)

Granting the necessity of a well rounded social activities program, we as O. V.'s believe that student government should also be concerned with the cultural and political interests of our student body. HSC's affiliation with USNSA would be a major step in this direction. This organization is made up of student governing bodies throughout the nation. USNSA is primarily concerned with national, international, state and local issues and how they apply to college students. Among the many and varied programs this organization provides the individual student and the student government with a collegiate information service and inexpensive international travel.

2. Activities—As HSC becomes of age, so does its student needs and demands for a well rounded activities program. Nelson Hall as we see it is the logical place for both the activities program, (card games, chess, etc.) and a general student lounge. Present plans are to have the Coop located in the new cafeteria; however, in order to centralize and better accommodate the student body we feel that both the Coop and Activities program should operate in the same building, therefore providing an answer to our present and future extra curricular needs.

3. Rally — One of the newest features at Lumberjack Athletics functions has been our mascot, "LUCKY LOGGER". To better fulfill the functional purposes of the mascot and to provide for better school spirit, we feel that Lucky Logger should operate as a secret society. This is common practice in most all major colleges and universities. We also advocate the following additions to the 1960-61 rally program: card stunts, organizational cheering competition, promotion of methods to increase the number of visiting rooters.

The members of the OV Party want it to be known that if and when elected they will do everything in their power to support opposition to the 'paid parking program.' This will be done by linking our opposition with that of State Colleges throughout California.

MARINE SELECTION TEAM

Multiple opportunities for officer commissions in the United States Marine Corps will be outlined here for interested students April 25-26 from 9-3 in main hallway of Founders Hall. Both aviation and line officer programs will be explained.

Dr. MacGinitie Plans Travel, Research After Retirement From HSC In June

By BARBARA OBERDORF

"Retiring is something like being born again. It kind of tears you up, but you have to face up to it," Dr. Harry MacGinitie said

KHSC to Extend Broadcasting To Sunset Hall

Radio station KHSC is now transmitting to Redwood Hall five days a week at 700 kilocycles and should be transmitting to Sunset Hall by the end of this week. The station broadcasts from 2 until 10 on Monday through Thursday and from 2 until 6 on Friday.

Regular programs being broadcast are: a program of classical music every afternoon from 2 until 3:15 p. m.; an hour of dinner music every evening; "Sequoia Concert," two hours of classical music hosted by Will Dublin on Monday, Wednesday and Thursday from 8 until 10 p. m.; "Rhythm and News," a variety program on Mondays at 3:30 p. m. with Donna Cleveland as Lena Langer and Bill Turner as Larry Langer; ballet music presented by Frances Paget from 7 to 8 p. m. on Monday; the "Opera House" with George Steele from 8:30 to 10 p. m. on Tuesday; "Folksong Heritage" on Wednesday at 7:30 p. m. with John Simpson and music from throughout the world; and on Thursday from 7:45 to 8 p. m., the "Magazine Rack" with Frances Paget reading excerpts from and commenting on current magazine articles.

Sixteen students are working on the board and are heard on the air. Each puts in approximately three hours each week. Three staff members are also hired by the station. Burt Evans is the technical assistant who maintains and tests equipment; Marty Hubert is head librarian and John Rawlinson is program director.

KHSC is now receiving broadcasting material from the National Association of Educational Broadcasters and is also a member of the Intercollegiate Broadcasting System.

The station also does special events programs on campus. The last concert was broadcast live and also taped. The station plans to do the same for the Fine Arts Festival, and possibly for speeches given on campus.

The radio area consists of a record library, studio, booth for announcers and a master control room.

HSC Class Rings Being Considered

Class rings are being considered for Humboldt State. The ASB Executive Council last week met with representatives of a college jewelry company.

The two salesmen, who also represent the company which prints the Sempervirens, showed council members rings used by other colleges.

Basic design of the rings would show a stone on the top with the sides, or shanks, engraved with college emblems, year of graduation and degree letters. The student's name would be engraved inside the ring.

Approval was given by the council for the jewelry company to start work on designs. These will take several weeks and be returned to the campus for student approval and recommendations. The company will also work on designs for a college seal to appear on the ring.

Only upper classmen would be able to wear the ring. Estimated cost is about \$30. Joe Romero will be the company's representative on campus.

this week as he prepared to end his teaching career at Humboldt State in June and take up a new life of traveling and relaxation.

Dr. MacGinitie is presently chairman of the Division of Natural Science, a post he obtained 19 years after he began teaching Physics and Chemistry with a three man Natural Science staff here at HSC in 1927. For the past few years he has been instructing Anthropology in the fall and Geology 1A in the spring.

This June he will move to the hills northeast of Napa in the Napa Valley. A newly built house will serve as home base for Dr. MacGinitie and his wife, Beatrice, as they plan to take extended trips to widen his scope on his research specialty, Paleobotany.

Dr. MacGinitie has had many books published on this subject, including one on "Fossil Plants of the Floressant Beds," published by the Carnegie Institute at Washington. Presently, he is working on a paper on the fossil floor near Valentine, Ariz. - the only such floor in the southwestern states. He spent the summers of 1957 and 1958 studying the beds for this work, which will be ready for the printer this fall.

His office is cluttered with books on fossils, some he has had published and those of other persons. He also has micro-photographs of fossil pollen and fossils of leaves he has discovered throughout his travels. "When I look at some of this stuff I've done, I'm amazed," said Dr. MacGinitie. "I sometimes wonder why I do it."

Dr. A. R. V. Arellano, an instructor at the Instituto Geologico in Mexico City, is presently trying to get Dr. MacGinitie to study a fossil floor located near Mexico City. The HSC professor may go there late this year, during the winter months.

Dr. MacGinitie was born in northeastern Nebraska and attended high school in the Black Hills. He received his AB at Fresno State college in 1926 and his Ph. D from the University of California at Berkeley in 1935. He first instructed at HSC in 1927, but left for a year to teach Geology and Paleobotany at the University of Colorado for a year in 1936. During the war between 1943 and 1945, he taught Aerology in the Air Corps at Albuquerque.

He married in 1935. The MacGinities have two children. Bea-

trice Ann is a junior majoring in Home Economics at the University of California and their son, Gordon, is obtaining his Ph. D at Cal Tech.

While Dr. MacGinitie has been on the HSC teaching staff, the Natural Science Division has increased its membership to 30 members. Next year the department will be split into two separate divisions: Biological Science and Nursing under Dr. William Lanphere and Physical Science and Mathematics under Dr. Roscoe Peithman.

"I've enjoyed my work and am looking forward to an extended vacation, which will eventually get us to Germany, Vienna and Salzburg for the music festivals," Dr. MacGinitie concluded.

Woven Yardage And Woodcuts On Display Here

The new display now on exhibition in the HSC Art Department Gallery features colorful woven yardage and wall hangings by Robert Yaryan and woodcuts by Werner Drewes.

The exhibit will remain on display until April 29.

Robert Yaryan is a graduate of the California College of Arts and Crafts, where he was also an instructor in ceramics and book-binding, and for one semester in 1949 attended Humboldt State.

Yaryan is currently Chairman of the Art Department at Midwestern University where he teaches ceramics, weaving, mechanical drawing, and color and design.

Werner Drewes has taught fine arts at Columbia University, Master Institute and Brooklyn Col-

Spaght Appears On Television

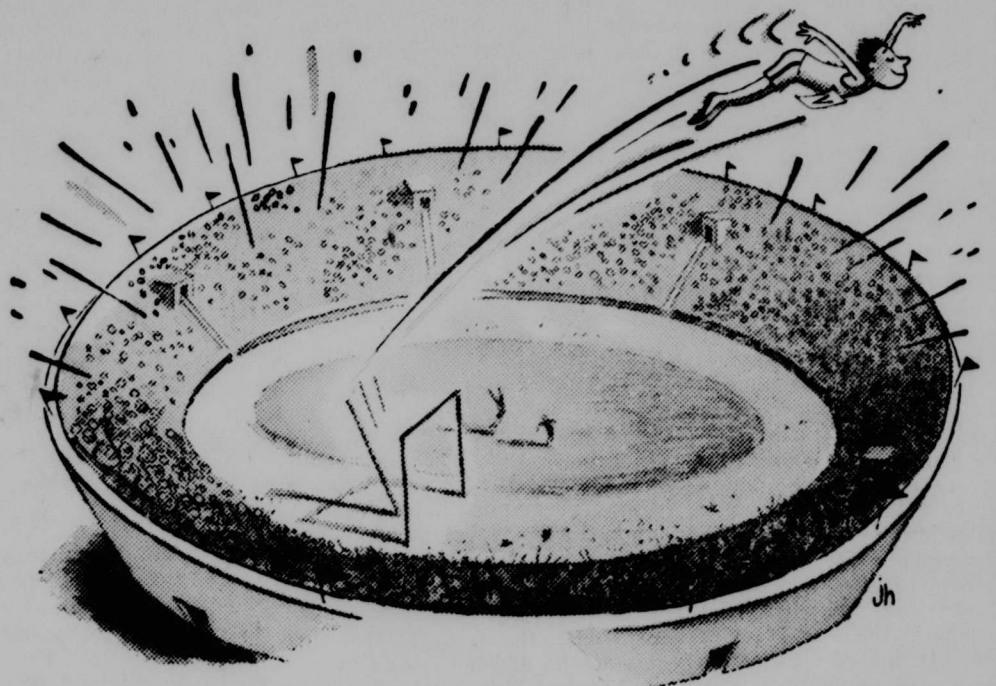

One of Humboldt's most illustrious alumni, Dr. Monroe Spaght, executive vice president and director of the Shell Oil Company, New York, has been seen here on a nationally-televised program in recent weeks.

Dr. Spaght appears as intermission speaker in behalf of Shell in the young people's concerts of the New York Philharmonic, which are conducted and narrated by Leonard Bernstein. The programs are aired locally Sunday afternoons on KIEM-TV.

lege, all in New York, and at the Institute of Design in Chicago. He was also director of the Graphic Art Project of the U. S. Federal Program in New York. He is currently the Instructor of Design and director of the first year program of the school of fine art at Washington University in St. Louis, Mo.

Do You Think for Yourself?

(DIG THIS QUIZ AND SEE WHERE YOU RATE*)

The statement "It's the exception that proves the rule" is (A) a lame excuse for dumb rules; (B) an argument for doing what you please; (C) evidence of a healthy disrespect for absolutes.

A ☐ B ☐ C ☐

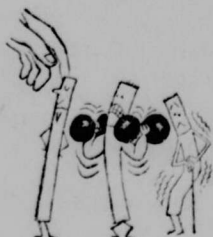

You've just met a girl whose beauty impresses you enormously. Do you (A) ask for a date at once? (B) say, "Aren't you lucky you found me?" (C) find out what she likes to do?

A ☐ B ☐ C ☐

A rich uncle offers to give you his big, expensive vintage-typelimosine. Do you (A) say, "How about a sports car, Unk?" (B) decline the offer, knowing the big old boat would keep you broke maintaining it? (C) take the car and rent it for big occasions?

A ☐ B ☐ C ☐

A manufacturer asks you to pick the kind of filter cigarette he should make to win the most smokers. Would you recommend (A) a cigarette whose weak taste makes smokers think it has a strong filter? (B) a cigarette with a strong taste and a filter put on just for effect? (C) a cigarette with a filter so good it allows use of richer tobaccos?

A ☐ B ☐ C ☐

That's why they usually choose Viceroy. They've found the filter's so good Viceroy can use richer tobaccos for better taste.

Is this why they say, "Viceroy has a thinking man's filter... a smoking man's taste"? Answer to that one is: Change to Viceroy and see for yourself!

*If you checked (C) in three out of four questions, you're swift on the pickup, and you really think for yourself!

Familiar pack or crush-proof box.

Smokers who think for themselves depend on their own judgment—not fad or opinion.

The Man Who Thinks for Himself Knows—
ONLY VICEROY HAS A THINKING MAN'S FILTER—A SMOKING MAN'S TASTE!

Vacation Hours For Library

The library will close Wednesday at 5 p. m. for the Easter Vacation. Hours will be 8 a. m. to 5 p. m. Monday through Wednesday.

An exhibit of wood cuts by Werner Drewes will be shown April 4-29 in the audio-visual gallery of the library and the Art Building. Drewes, who teaches at the Washington University in St. Louis, has studied under such artists as Kandinsky and Klee. He has travelled in this region and has acquired some cuts of local trees, most of them Redwoods.

HSC NINE TRAVELS

Lumberjacks Embark On Annual Easter Road Trip

By DUANE ONETO

The Humboldt State nine embark on their annual Easter trip next week with eight games on tap. They play double-headers with Chico State, San Francisco Presidio, and Sacramento State. Single games are scheduled with San Quentin and St. Mary's.

Last year's trip was one of the most successful as the Jacks compiled a record of six wins and three losses. However, last year's team had several games under their belt since the weather was a bit more favorable. This year's team has managed to play only four games and may not fare as well.

The trip opens at Chico tomorrow. The Jacks play their traditional rivals, the Chico State Wildcats. The always tough Cats split with the Jacks last year when the Jacks were on their annual tour. Humboldt State lost 9-4 and won 8-1, while the two teams also split in league play at Arcata.

On Sunday, the Jacks play San Quentin. This is the first baseball encounter that HSC has had with the inmates, but other teams from Humboldt have visited the Pirates. The Pirates will be a rough competitor since they play baseball the year around.

The Jacks continue the tour as they travel to San Francisco to play a double-header with the Presidio. The army squad is made up of players from all over the nation and are a hard team to beat.

The following day the Jacks will be in Sacramento for their last double-header of the trip. Sacramento State, the powerhouse of spring sports in the Far Western Conference, is loaded again this year. This game could be a sign of how the Jacks will fare in conference play. Last year the teams split a double-header, Humboldt winning the first game in eleven innings and losing the night cap 7-4.

Wednesday the Jacks take a day off and will see the San Francisco Giants play if they can get tickets. If tickets cannot be obtained, the Jacks may play San Francisco State.

The Jacks wrap up the trip on Friday when they play St. Mary's. Again, the Jacks will be faced with

a rough game as they play a team that has played several games.

Coach Ced Kinzer is not worried about lack of experience since his starting line-up will have seven veterans, but he is skeptical over his pitching staff. Kinzer hasn't seen his pitchers in much action yet this season.

Kinzer announced a sixteen man squad will make the trip. They are pitchers Larry Taylor, Jack Maze, Tom Lietz, Ron Stammer, and Ken Bird; infielders Ron Reynolds who will see some pitching duty, Ike Peterson, Monty Feekes, Bill Perry, Rich Tomasini, and Bill McConnell; outfielders Joe Beeson, Dennis Pontoni, and Ken Matias; and catchers Leroy Orozco, and Jerry Hale.

Kinzer also announced the starting line-up as Orozco, catcher; Reynolds, first base; Peterson, second base; Perry, third base; Feekes, shortstop; Matias, left field; Pontoni, centerfield; and Beeson, right field. The pitching duties will be rotated.

Intramural Swim Meet To Be Held On April 20

The second annual intramural swim meet will take place on Wednesday, April 20 at 1 p.m. in the College pool, according to coach Gordon Schroeder who is in charge of the event.

The swimming fest will be handled like the previous intramural sports with the winner receiving points to be added to their intramural competition total.

Points will be given for individual and team efforts. In individual competition five points will be given for first place, three for second place, two for third place, and one for fourth place.

In team competition which is made up of relays, ten points is given for first place, six for second, four for third, and two for fourth.

Redwood Hall captured the 1959 event, by amassing 39 points to defeat Block H who had 30 points and the Delta Sigma Phi fraternity who had 20.

The meet will be open to all men students of Humboldt State College. An entrant does not need to have a team affiliation in order to enter the contest.

Thinclads Travel To Davis And Santa Barbara

The Humboldt State thinclads will travel to Davis tomorrow to meet the Cal Aggies, Claremont-Mudd-Pomona in a dual and tri-meet. Some of the tracksters will also enter the Santa Barbara Relays at Santa Barbara on Saturday, April 16.

Bill Crichton and Larry Krupka will high jump at Davis and also enter the Santa Barbara meet in that event. The pair will be out to keep their unblemished record intact. Roger Biffle will also participate in both meets in the pole vault.

Frank Alden, Ron Remington, Dean Carrier, Keith Weidkamp, and Marshall Stevens will represent HSC in the mile relay at the Santa Barbara Relays.

Three Lumberjack tracksters will not travel to Davis this weekend. Jim Barker and Frank Alden will not make the trip because of class conflicts, and Dale Kohinka, who is suffering from a foot injury will not be able to make the trip.

Vester Flanagan will have his work cut out for him as he will be competing against an Aggie who has thrown the javelin 211 feet. The Aggies are also strong in the mile and the shot put.

Tennis Team Wins Two On Road Trip

The HSC tennis team started their 1960 season by winning two out of their first three matches. They lost their opening match to Chico State 6-2, and then bounced back to blank the University of Nevada 7-0 on Saturday morning, and edge the Cal Aggies 5-4 in the afternoon.

Scott Holmes was the only Lumberjack to win all three of his single matches. Holmes defeated Chico's Keyin Gugot in the first match 7-5, 2-6, 6-2. The only other Jack to win against Chico was Steven Harrow. Harrow defeated Howard Ludwig 6-3, 7-9, 7-5.

The Jacks handily defeated the Wolfpack from Nevada. Bill Bender downed Nevada's Jim Glosier 6-1, 1-6, 9-7. Gary Peterson downed Gil Ellis 6-0, 6-1; Bob Wedell edged Pete Evezich 6-4, 6-3; Bruce Paige downed Jim Mathewson 6-2, 6-3; and Holmes won his second match beating Lyne Brust 6-1, 6-3.

Vester Flanagan, Far Western Conference record holder in the javelin, is in preparation for coming encounters. Besides being a top flight thinclad, Flanagan is also a stand-out on the Lumberjack football team.

Jupiter Pluvius Plays Role of Spoiler In HSC Athletic Program

It looks like Jupiter Pluvius starred in last weekend's athletic parade on the Humboldt campus. Besides interfering with earlier activities, he has carried it into the "showery" month of April.

The baseball team under coach Ced Kinzer have managed only four games to date this season whereas last year they had played at least twice that number.

Last weekend the Jacks were rained or snowed out of a series of games with Southern Oregon

College of Education and the Oregon Technical Institute.

The tracksters received much the same treatment last week as the first home meet of the season was cancelled because of wet grounds. The Jacks were to open their home season against the San Francisco State Gators.

Maybe the Green and Gold teams will get that much needed action during the Easter vacation as both teams travel south.

Bush Leaguers

BY

'ROOK' KUNSTAL

The intramural basketball double elimination tournament is now underway with the finals to be held tonight at 4 p.m. in the Men's Gymnasium.

The four top teams in each league are entered in the tournament which has been on throughout the week. The teams participating in the contest from League I are the Tau Kappa Epsilon Fraternity, Independents, Old Men, and Redwood Hall third floor. League II entrants are the Fort Bragg Independents, Humboldt Village, Delta Sigma Phi, and the Intercollegiate Knights.

In action this week, the Tau Kappa Epsilon Fraternity opened up by defeating Humboldt Village to move into the playoffs. Delta Sigma Phi also opened up on the happy note as they dumped the Independents to get a chance at the Tekes.

The Old Men dumped the Intercollegiate Knights and the Fort Bragg Independents rocked Redwood Hall third floor. For consolation honors Humboldt Village will meet the Independents and the Intercollegiate Knights will tangle with Redwood Hall third floor.

Capturing high honors for the basketball season were the Tekes in League I and the Fort Bragg Independents in League II. Both teams went through the entire season without suffering a loss. The Tekes compiled a 7-0 record to edge the Independents who were 6-1. The Fort Bragg Independents came out with a 6-0 mark to beat the nearest competition by two full games.

Final Standings for League I

Construction Soon To Start On Four Buildings

Four more Humboldt State buildings will be constructed in 1960-61.

According to President Cornelius H. Siemens, "We are extremely lucky to receive the funds which have been allotted to us by the state to further our building program."

The building with first priority is the new Science Building. Bids will go out for the new \$1,720,000 building this month. It will be the only four-story building on campus. This will be an addition to the current biology building.

The bids are out now to rebuild Redwood Bowl and Track, and construction will start as soon as the rain lets up. The cost of this project will be \$164,000. The addition that has second priority is the forest management building, which will be located across from the baseball field on 17th street. The cost will be \$586,000, and will house 156 students.

The third project will be an Education-Psychology building. The bid will go out in June. This new building which will be located south of CES will cost \$830,000, and seat 328 students.

The bids for the new library will go out next fall. The library, a three-story affair, will be located west of the administration building on part of the present parking lot, and is the second most expensive building in the new program, totaling \$1,216,000.

The construction for each project will be approximately a year from the start. Also, there is a provision for additional site acquisition, which will most likely include more parking space and a Corporation Building. One last project includes the paving of the parking lot south of the new Health Center, and is currently being contracted.

New Seal Contest Offers Designer \$15 Cash Award

A \$25 purchase order from the HSC book store will be awarded the winner of the new Humboldt Seal contest. Entries should be submitted by Friday, April 29 and any art medium may be used. Standard paper (8 1/2 x 11) should be used.

The contest, sponsored by the Associated Student Body, is being coordinated by the Inter-Club Senate with Ellen Milhous acting as chairman.

This is the second contest in the search for an original school seal. The first was sponsored during the fall semester in conjunction with the school flag contest.

The winning flag design was submitted by Arcata art major Roger Cinnamond and has been sent to a company specializing in the production of school emblems. It will be on campus at the May dedication of the eight new buildings.

SUMMER ASB FEES

Full time students attending 1960 summer or post session who have paid \$20 for student body memberships for the two semesters of the 1959-60 year will not be charged for ASB membership in either summer session. Such students should go to the cashier's window of the business office, Ad Building, between May 2 and 6 to secure a waiver of fee card. This card will be presented at summer registration.

Student Works Solicited For Speech Tourney

The last HSC debate trip of the year will be to the Northern California Forensics Tournament at the College of the Pacific April 21-24. Dr. Edward Steele, assistant professor of speech, will accompany the Humboldt group to this contest.

The tournament will include one man debate and discussion and a contest in original compositions of poetry, prose, or drama. Students may read either their entire selections or excerpts from them. There will be a maximum time limit of 12 minutes. The contest will include a preliminary round, a semi-final round and a final round. COP plans to have on judge with a literature background and one with a speech background.

Any students interested in entering may contact Dr. Steele.

Business Day Date Set April 29-30

The date for Business Day has been changed from April 24 and 25 to April 29 and 30.

On Friday, April 29, there will be business machine displays as well as open house for businessmen and students beginning at 1 p.m.; On Saturday, April 30, business machine displays and open house for the high school students starting at 9 a.m. A luncheon will be held at the Baywood Country Club in the afternoon on Saturday.

Young Democrats Form On Campus

This past week, Humboldt State College has witnessed the birth of its first "political party." The new organization, The Young Democrats, are not seeking election in the coming student body elections, but are seeking the further understanding of the important political problems of the day.

Leading the Young Democrats are newly elected officers, Larry Moogerman, president; John Funk, vice president; Marci Johnson, secretary-treasurer; and Tony Karachale, ICS representative.

Moogerman said, "Our primary purpose will be to provide experience in political activities that further the concepts and ideals of the Democratic Party."

IK Food Sale Set Tomorrow

Intercollegiate Knights will hold a food sale tomorrow in front of Kelly's Jewelers, on the plaza in Arcata. Jim Martin is chairman of the project. A variety of foods will be sold.

Knights who will be selling are Jack Moore, Gerry Hale, and Martin. In charge of food assignments are Bob Canepa and Doug Kane. Proceeds will be used to send delegates to the national convention at University of Idaho, April 21.

SEMINAR ENDS

Forty businessmen of the area were given certificates at a dinner meeting at the Baywood Country Club on March 29. The final meeting marked the completion of the second annual Small Business Seminar offered by Humboldt State's Division of Business in cooperation with the U. S. Small Business Administration.

The seminar was coordinated by Edwin Caplan and offered through the office of Dean of Extended Services Dr. Ivan Milhous.

HISTORY EXAMS SET

Examinations in U.S. History, U.S. Government, and California state and local government will be given Saturday, April 23, at 9 a.m. in Founders 125. Successful completion of the examinations meets the teacher credential requirement. Interested students should see Dr. Stanley Spaid, professor of history in Founders 118.

Gala Lumberjack Day Coming April 20; Classes to be Dismissed at Noon

Lumberjack Day will be coming to Humboldt State College Wednesday, April 20, with all classes being dismissed at noon so the students may participate in the planned events.

A full afternoon and evening has been scheduled by the committee with the program as follows:

12 Noon

Classes will be dismissed. Students may then eat their lunches before the day's events commence.

1:30 p. m.

The Student Talent Show will be presented in the Sequoia Theater. A donation of 10 cents per person will be charged and will be applied to the Student Emergency Fund.

3 p. m.

Relays, a swim meet, and the annual frog-jumping contest which is sponsored by the Delta Sigma Phi Fraternity will take place out on the football field.

5:30 p. m.

Dinner will be served to the students at a dollar a plate, on the tennis courts.

7 p. m.

The Spring Sing, which is sponsored by the Spurs, will be held outside by the Music Building. All the clubs and organizations who are participating will be competing with each other for a trophy. The contest will be judged on many points by two students and a faculty member.

Activities Days Set April 21-24

The first Student Activities Days will be presented Thursday, Friday and Sunday, April 21, 22, and 24, by the Student Activities Commission. A complete program has been planned to entertain the students.

The program of events for these days is:

Thursday, April 21—Exhibits by the Rifle Club and the Ski Club will be on display in the Green and Gold Room from 10 a.m. to 1 p.m.

The chess and pinocle tournament play-offs will be going on all day in the Green and Gold Room, from 10 a.m. to 4 p.m.

Friday, April 22—Exhibits by the Industrial Arts Club and the Boot and Blister Club will be displayed in the Green and Gold Room from 10 a.m. to 4 p.m.

The final rounds of the game tournaments will be played in the Green and Gold Room from 10 a.m. to 4 p.m. At 7 p.m. the Commission will present a double feature and a cartoon in Founder's Hall. The admission will be 35 cents for the films, which will be "Helen of Troy," and "Harvey," with a "Tom and Jerry" cartoon. The awards for the chess and pinocle champions will be presented to the winners during the intermission of the movies.

Photography and Art exhibits will be on display in Nelson Hall all day, both Thursday and Friday, from 10 a.m. to 4 p.m.

Sunday, April 24—A social hour will be held in the Green and Gold Room from 7 p.m. to 9 p.m., with free coffee, entertainment, dancing, and featuring exhibition square dancing by the Lumberjacks and Jills.

Darlene Garcelon, chairman of the Commission's Program Committee, is the general chairman for the first Student Activities Days. Other committee chairmen are: Joan Iversen, exhibits; Mary Ann Miner, games; Marci Johnson and Karen McDonald, social hour; and Don Bird, movies.

Other members of the Student Activities Commission who are helping to coordinate this program are: Betty Bird, Activities Commissioner; Hal Koke, Paul Asp, Katy Mineer, and Peggy Bailey.

ulty member.

9 p. m.

An outdoor dance will be presented in front of the Music and Language Arts buildings. The dance will have live music and will carry out an oriental theme. The winning club or organization of the Spring Sing will receive their trophy during an intermission of the dance.

Glendyne Baldwin, Lumberjack

Day Chairman, is the general coordinator of the program. Other committee members assisting Miss Baldwin are: Doug Ritterbush, Anne Swanson, Kathy Cornwell, Roland Nielson, Bill Guimond, Mary Ann Miner, Pat Meneweather, Carolyn Doyle, Linda Guelfo, Linda Dolf, Carol Slack, Judy Johnson, Barbara Maffia, Billie Frasier, Nancy Arguedas, Carol Johnson, and Nedra Graves.

Mrs. Walter Comments On 15 Years Working In Humboldt's 'Coop'

By MARY ANN MINER

Working in the Humboldt State College Coop has many favorable aspects, and Mrs. Vera Walter, the Coop's cashier, enjoys her job here very much.

"I particularly enjoy seeing all of the graduate students who come back to Humboldt to visit or to continue their schooling," Mrs. Walter said. Many students do find their way back to the college and they always come into the Coop to look up old friends.

Mrs. Walter has been working in the Coop since 1946, when it was established on the hill where the library now stands. The old Coop was torn down and the present one was occupied in May, 1952.

A large wooden sign which said "Coop" and had chicken wire appropriately placed behind it was hung on the front of the new Coop. Mrs. Walters recalls that "everyone was served free coffee during the opening of the Coop."

The Coop had nearly all student help, working in shifts, when it was first started. It was run by the students for the students.

Many of the graduate students who come back feel that the old Coop, which was housed together with the College Bookstore, had a more pleasant atmosphere than the new Coop; but they do feel that the present Coop has a very friendly atmosphere.

"The students seem to enjoy the Coop very much and will no doubt miss it next year," she said. The Coop gives the college students and faculty a place to come to relax and drink coffee, or it provides them with well-prepared fountain lunches.

Quite a number of students come through the Coop all the time. "An average of over 800 cups of coffee are served in the Coop each day," Mrs. Walter commented.

Mrs. Walter said that working at the cash register in the Coop is fairly routine, but she likes it because she can see the students and get to know some of them, as they come into the Coop frequently.

The only time that there is any great confusion in the Coop is when the college is staging a large affair for students from other schools. One such incident was the music department's annual music festival, where nearly 2,000 students were on campus. They swarmed into the Coop in great masses and a little confusion developed because the Coop could accommodate only just so many at one time.

Mrs. Walter lives in Arcata and has a daughter, Betty Hosterman, a graduate of Humboldt State College, who is now teaching school here in Arcata at Sunset Elementary School.

Mrs. Walter's plans for next year are undecided. Since the Coop will no longer be open, there is a possibility that she may work in the new cafeteria, which is now being built.

CAMP JOB OPEN

Any woman interested in a camp job at Camp Fire Camp in Willow Creek should see Mrs. Kathy Goetz, instructor of physical education, for information and applications. Dates are July 3-Aug. 7.

Clambake Planned For Two Clubs

Conservation Unlimited and the Forestry Club will co-sponsor a clambake Saturday, April 23.

Members of the two groups will participate in a huge clambake and an afternoon of recreation at Clam Beach. Skeet shooting, tug-of-war, and football on the beach are a few of the events planned for the day.

The clambake is open to any member of Conservation Unlimited or of the Forestry Club. Dues of both clubs are paying for the journey. Interested persons should contact the presidents of the respective clubs for further information.

Traveling to Monterey Monday will be the HSC Symphonic Wind Ensemble, which will play for the California Music Educator's Convention. They are pictured left to right front row: Carolyn Doyle, Tam Cossi, Sandra Johnson, Kenneth Davis, Marla Bishop, Nancy Mendes, Betty Edwards, Sewell Lufkin; second row: Kay Magnusen, Stefany Horal, Carole Gress, Iris Osborne, Judy Ross, Manuel Simas, John Sander, David Farr, Rosalie Prince, Roger

Olsen, Ted Hamilton; third row: Dr. David M. Smith, Sara Hallin, Gwen James, Ned Wangler, Bud Kolding, Mike Early, Otto Holgerson, Jack Hitt, Ken Davlin, Bob Taylor, Jay Theil, Jerry Flora, Joan Iverson, Jerry Wright; fourth row: Rowland Neilsen, Les Hunt, Bob Foss, Adriene Pierce, Phil Stark, Richard Schneider, Prof. Charles Moon; those absent are Sam Cawker, Charles Bleything, Walter Sleppy and Joe McAllister.

Ensemble to Perform Johnsen Overture

"Abcarian Overture," composed for and dedicated to the HSC Symphonic Wind Ensemble by Paul Johnsen, assistant professor of music, will be the featured piece played by this group when it performs for the California Music Educators Convention at Monterey Monday through Wednesday.

Other pieces to be played by the group are "Fervent Is My Longing," an Organ Chorale Prelude by Bach-Cailliet; "Five Miniature Dawn," "The Sleeping Village," "Promenade," "The Approaching Soldiers" and "Fiesta by Turina-Krance; and "An Evening in the Village" by Bartok-Leidzen.

The Wind Ensemble was organized in February of 1959 as a result of the desire of the students and the director for a wind group that could enjoy playing a more advanced repertory than was possible with the Concert Band. It was modeled after the Symphonic Wind Ensemble at the Eastman School of Music and due to numerous appearances on the concert stage and on television has become popular in Humboldt County.

The 40-piece group includes about 25 music majors and minors, the balance being made up of various other fields on campus. The average playing experience of the performers is about twelve years.

The instrumentation of the Wind Ensemble is complete so that all the wind repertory is available to it.

Also attending the convention is a group of about 20 music majors and professors. These people will attend workshops, exhibits, movies and concerts. The purpose of this trip is to exchange new ideas among music educators.

Six To Attend Business Meet

Six business education majors will attend the annual California Business Education Association convention this weekend at Asilomar, a state park on the Monterey Peninsula. There will be many national leaders in business education participating in the program.

The purpose of this convention is to promote business education. The students will have an opportunity to discuss various problems and various courses of action for the future of business education in California.

Mrs. Lois Huntley, Mrs. Barbara Johnson, Joann Muessig, Eleanor Machado, Richard Birnie, and George Rankins are among the HSC students who will attend the convention this weekend. Four faculty members also will attend the convention.

New cigarette paper "air-softens" every puff!

Now even the paper adds to
Salem's springtime freshness!

Salem's amazing new
HIGH POROSITY paper
"air-softens" every puff.

Invisible porous openings
blend just the right amount of air with
each puff to give you a softer, fresher,
even more flavorful smoke.

An important break-through in Salem's research laboratories brings you this special new HIGH POROSITY paper which breathes new freshness into the flavor.

Each puff on a Salem draws just enough

fresh air in through the paper to make the smoke taste even softer, fresher, more flavorful. If you've enjoyed Salem's springtime freshness before, you'll be even more pleased now. Smoke refreshed, smoke Salem!

• menthol fresh • rich tobacco taste • modern filter, too

NOW MORE THAN EVER

Salem refreshes your taste
