HUMBOLDT STATE COLLEGE

Vol. XXXVII

ARCATA, CALIF., FRI., APRIL 17, 1964

No. 23

### Siemens: You Have Greater Control; Turner: We're Sinking in Promises; What Form College Government?

Behind the scenes maneuvering and a shift of power and influences may well have caught the students in the middle. This is a conclusion reached in reviewing the recent dissension between the Faculty Senate and the Associated Student Body concerning student representation on the Athletic Advisory Committee.

The power struggle currently involves the degree of prestige and influence that the Faculty Senate and faculty-dominated committees are able to bring to bear upon the office of the President in order to shape policy decisions to their liking. Although the President has ultimate authority in most college affairs, he is guided to a large extent in his decisions by those groups which have the greatest apparent influence.

The strength of the Faculty Senates on California State Colleges has been a rising star in recent years. Such organizations began spontaneously, but subsequently were not only legitimized by the State trustees and the Chancellor but required at each college. A superbody, the State Faculty Senate, is composed of representatives of the individual Senates.

In the past, in the absence of well-organized faculty groups, state college presidents had the opportunity for a greater degree of autonomy. At present this autonomy is subject to increasing degree to the ability of the faculty to act as a powerful cohesive policy recommending force. When this recently-acquired ability to advise touched upon student athletics, student anguish was more apparent than the adversary they felt forced to combat.

President Siemens, in reviewing the situation, noted that the proposed changes of the Athletic Advisory Committee did exclude students as claimed. However, he stated that they would in effect have more say in athletic matters by having an entire athletic committee of their own. He further pointed out that Report No. 10 (front page, Lumberjack special edition) provided for joint consultation of faculty and student athletic committees before recommendations on policy are channeled through the Faculty Senate to the President's office.

On matters of administration such joint student-faculty recommendations would go to the Athletics Division Chairman enroute to the President's desk. Dr. Siemens stated that if opposing recommendations from faculty and students reached him he would probably set up a mixed ad hoc committee to recommend action.

Jack Turner, in presenting his views, points out that at this time student say in student athletics is completely dependent upon a heterogeneous mass of verbal promises. "These do not at this time replace the concrete student representation on a single athletic committee which we have lost," he

(Continued on Page 4)

### Foresters From Colorado State Visit Redwoods

The forestry department greeted 16 Colorado State University forestry majors and their professor last week, when they stopped here during their three week tour of the Pacific Northwest.

The group was participating in a class in Forest Management Practices. The class is one of three held during the spring quarter for senior forestry majors. Each class is condensed into a period of time, from one to three weeks, and they are held consecutively, instead of all at the same time. This unique plan enables the students to take the three week tour, without interfering with other classes.

The class is worth 5 units on the quarter system.

According to one student, Ron Wakefield, "The main purpose behind this is to better acquaint us with private industry and management practices in different parts of the country." When asked how he liked our forestry department, Mr. Wakefield said that it was real nice and well equipped.

The group started on April 3 and will return to their campus April 23. They were on our campus April 8-12.

While visiting here, they have toured the Simpson Lumber Company, the Pacific Lumber Company, and have gone to see the Founders Tree.

Their tour included California, Oregon, Washington, Idaho, and Montana.

### Student Elections Select Nine Officers - Two to Go

Chuck Freitas, Bob Henry, and Dick Visser were elected in the ASB elections April 13 and 14 as 417 students cast ballots.

Representatives-at-large chosen in the same election are Jan Cleveland, Joe Forbes, Duane Kimbrow, Dale Potts, Steve Peithman, and Andrea Roccaforte.

Freitas was chosen president in an uncontested election. Jack Turner, present ASB president, said that Freitas was not a unanimous choice. There were many write-in votes and many who did not vote for officers at all.

The contest between Ed Jesson and Bob Henry resulted in a victory for Henry as vice president. Dick Visser was also unopposed and won the office of treasurer.

The officers elected and the representatives-at-large will take office in September at the start of

the Fall Semester. They will be the first officers to use and enforce the new constitution that was ratified this semester.

Under the new constitution the duties of the students elected will be:

President — veto power over legislation passed by the Student Legislative Council; remove any commissioners; propose legislation, and his duties will be chief executive officer of ASB; represent ASB at all functions; make sure officers carry out jobs; call and preside over all meetings of the Association.

Vice President — call and preside at meetings of Student Legislative Council; appoint members of committees, and to assume duties of president in the latter's absence.

Treasurer — agent of student government to the General Accounting Department; submits financial reports to Student Legislative Council each month; calls and presides over meetings of Board of Finance, and to give financial advice to any student organization.

Representatives-at-large — these students shall form the Student Legislative Council which acts much like any legislative body.

The present ASB president, Jack Turner stated that, "The two people that came the closest to being elected under the six elected in the April 13-14 election will be asked to fill the vacancies for representatives-at-large for the current semester. It will be announced later who they will be."

"I would like to extend my congratulations to Chuck Freitas," remarked Turner, "he is a qualified student and will do an excellent job as ASB president next year."

The turnout of voters for this election was better than normal reported Turner.

### Faculty-Alumni Feat Honors Dr. Balabanis And James Hemphill

Dr. Homer Balabanis and James Hemphill will receive recognition at the annual Faculty-Alumni Founders Day Dinner in the College Commons tomorrow night.

Dr. Balabanis, guest of honor, is retiring this spring after 41 years at HSC. Hemphill will receive the Alumni Association's Who's Who award.

Dr. Balabanis was recently named vice-president in charge of academic affairs as a climax to his career which began in 1923 when he came to Humboldt State—then Humboldt Normal School—as a science and language teacher.

The dinner will also honor James Hemphill when the Alumni Association presents him with the 1964 Who's Who award.

Hemphill, graduate of the Class of '35, is a state supervisor of the school lunch program with the California Department of Education.

He was born in Blue Lake, attended Irvington Elementary and Eureka High School and received his A.B. degree from HSC.

Hemphill returned to Humboldt State in 1938 to earn general elementary and junior high school credentials and later earned an M.A. degree from University of the Pacific along with general secondary and school administration credentials.

Hemphill has served two years as chairman, state directors section, of the American School Food Service Association, and two years as member of the executive committee of the American Food Service Association.

He has also been consultant to the U.S. Department of Agriculture, agricultural marketing service.

The Alumni Association will host a reception for Hemphill at the Baywood Country Club beginning at 5 p.m. Dinner in the College Commons is scheduled for 7:15 p.m.

### Major Depicts Program For Women Students

Women juniors and seniors seeking information concerning the many opportunities available in the Women's Army Corps may see Major Betty Benedict in the Placement Office from 10:00 a.m. to 4:00 p.m., April 21.

Major Benedict will also be in the Lounge at Sunset Hall at 7 p.m., April 20 to show a 15 minute film depicting the activities of women attending the 4-week summer program available to college juniors.

Salary while attending the summer program at Fort McClellan, Alabama, is \$122.00, with all expenses paid.

### Dr. R. L. Morrison Joins Sac State

Dr. Richard Morrison has accepted the position of Associate Dean of Students in Counseling and Testing at Sacramento State College.

Dr. Morrison will leave his position as director of counseling on our campus, to join the Sac State staff in the fall.

Originally hired to replace Dr. Nedd Girard, who left for a year of Peace Corp work, Dr. Morrison has coordinated the work of the counseling center. Dr. Girard will be returning to assume his office here.

The "group counseling" experiment started under Morrison's direction last fall is entering its second session. The group, set up with minimum restrictions, was able to structure its own purpose and to utilize creatively the interaction of the members of the group. They are not required to stay on strictly academic problems even though their basic reason for assembly was under-achievement, according to him.

"This has been an extremely enjoyable year and we have become acquainted with a fine group of people, both from the student and non-student community," said Dr. Morrison. He went on to say that not only had he been able to continue in much of the work in which he had previous experience but found new areas such as working with the Student Government as their advisor and with foreign students in the same capacity.

### Physics Student Builds LASER To Concentrate Light Waves

Physics student Dean Hodges, in cooperation with Robert Ensiminger, a physics lab technician, has built a LASER, an instrument that amplifies light by stimulated emission of radiation.

Equipment used for larger instruments of this type can cost up to \$10,000. The equipment used by Hodges is valued at \$3,000. The main part is an elongated tube filled with a helium-neon mixture. The purpose of a LASER is to produce a special kind of light not obtainable from any other known source.

The beam of light produced by a LASER is coherent. That is, instead of sending light in all directions at once, the emitted radiation is a highly concentrated beam with the light waves going in one direction.

According to Hodges, the LASER is simple to operate, of relatively uncomplicated construction and fairly easy to understand once one learns how an active medium such as neon can emit coherent light after reflecting light energy back and forth to set up LASER action.

Hodges became interested in LASER action last summer while working at San Jose for the International Business Machines Corporation.

He commented that "They had a project going on next door to my work and I just happened to drop by at times to keep tabs on

their progress."

Hodges stated that work and experimentation began on LASERS in 1954 at Columbia University. The research there was aimed at developing a new kind of high frequency amplifier. Since this experiment began, the LASER has been developed sufficiently so that it can be employed in countless ways.

One of the many uses of the LASER is that it can weld tough

metals, cut through steel and diamonds, and it may eventually make it possible for space ships to rendezvous in space.

The new instrument will only be used to analyze various modes, record the power output of each, and experiment with diffraction and interference.

Certain parts for the project were donated by a bay area firm interested in the project.

Dean Hodges adjusts a control on his recently-completed LASER while co-builder Robert Ensiminger checks another item. The instrument will be used for research here.

## IBM Cards Tally ASB Elections

IBM cards take the place of so many things, and now they have taken the place of the old paper ballot.

Voters in the last Student Body election may have noticed that IBM cards were handed out to them rather than the dog-eared, blurred stacks of paper, which have been previously used for marking one's favorite candidate.

The office of the registrar has extended its influence and cooperation in speeding up the voting process with absolute accuracy.

Although voting via IBM is in its experimental stage, it seems to be quite a success.

Machines with a high rate of speed and accuracy are now taking the place of the tedious and inaccurate job of tallying the results of elections, previously done by a voluntary student committee.

Humboldt State is one of the few schools which has incorporated this time and labor saving device. This advantage is just part of the services of Student Personnel.

## Rare Children's Books Displayed

The HSC library is now showing a very rare collection of the famed Hans Christian Andersen's works.

The display has been generously loaned by Mr. Newton Steward, of KIEM Radio-TV.

In 1860 Mrs. Steward's Great Grandfather, Adolf Ludwig Drensen of Copenhagen, Denmark, prepared a scrapbook of Andersen's works for his one-year old grandson. The scrapbook was to compensate for the lack of picture books for children at that time.

The display on first floor is in commemoration of Hans Christian Andersen's birthday, April 2, 1805.

The famous author was the son of a modest family. He wanted to join the theater in Copenhagen, but his talents did not run along that line. A kind benefactor, Chancellor Jonas Collin, director of the Royal Theater in Copenhagen, supplied Hans with an education.

Hans Christian Andersen has written 156 tales and these tales have been translated into 80 languages. Among his most famous stories are the well-known "Thumbelina," "The Emperor's New Clothes," "The Princess and the Pea," and "The Ugly Duckling."

On display also is Hans Christian Andersen's autobiography.

## Student Council Approves A Frosh Proposal

Executive Student Council approved a proposal Tuesday presented by Robbie Caldwell, Freshman class representative, that would allow for one dance in the Spring semester to replace the Sweetheart Ball and the Junior Senior Prom.

The proposal was submitted to council because of the need for something to be done due to the lack of support and often funds to promote two separate dances during the semester.

As the proposal was being discussed, it was noted by Miss Caldwell that this dance would be open to all student body members and would probably be held during Lumberjack Days in the future. It was also noted that this proposal does not do away with the Sweetheart Ball and Junior Senior Prom but that it merely is a proposal to all four classes to pool their funds and promote one dance at the optimum time of the semester, that being Lumberjack Days. If the classes still wished to put on the regular scheduled dances, they could do so.

Other council news concerned the appointment of a World Affairs Commissioner. After a short discussion, President Jack Turner decided to delay action until the new administration comes into office. Turner stated that his reasons for delaying this action was that it is late in the semester for a World Affairs Commissioner to have any effect.

Council also discussed the proposed retreat to Benbow Inn. It set the deadline of next Tuesday as the final date for council members to sign up for the meeting.

Marc La Fleur, rep-at-large, asked council about its opinion concerning the problem of instuc-

## Letters To The Editor

**EDITORS NOTE:** Dr. Karshner passed this letter from Dave Cottrell's dad on to the Lumberjack.

Dear Dr. Karshner:

Do you remember that old chestnut of a joke that has been used so many times: "A funny thing happened to me on the way, etc."? Well, to use a similar line, a funny thing happened to me when I went to Roseburg to visit Dave. I ended up in a room down the hall from him with pneumonia.

I've been here a week now and hope to get out soon. I want to thank you for your grand letter of 21 March 1964. You and your grand school have certainly gone all out for Dave, and he and the rest of us members of his family appreciate it very much. It's hard to express things on paper, particularly when you are visiting in bed, but I hope you will be able to read what I'm trying to say.

A father always likes to think his son is a bit superior to other lads, etc., but during semester break in late January, Dave brought three of his college classmates home with him, and they were our house guests for three days. Having spent over 30 years in the Navy and commanded three Naval vessels, I feel I can consider myself qualified to pass judgment on the American youth.

These young men were perfect guests and the finest young gentlemen you would ever want to meet. The spelling may not be perfect, but these are their names: Steve Brandon, Earl Guttman, and Warren Warfield. Now, since being up here in Roseburg, it's been my privilege to meet several more of his friends from Humboldt whose names elude me, with the exception of Jerry Amerling, a boy from Oregon who has spent some time here with Dave.

Now, on the other side of the coin it has also been my good fortune to meet at least a half dozen of the young ladies from Humboldt who stopped by to help cheer Dave up. These young women with their decent hairdos and their well-scrubbed, wholesome appearance were a refreshing sight to me. After seeing some of the so-called beatnik types, etc., it's very gratifying to know that these are the high type young people my son calls his friends.

You and your grand school are doing a great job, and I'm proud of what you have done with Dave. God bless you, keep up the good work! As long as we have schools that are turning out the product you are, there is hope for this great country of ours. So, with best wishes to you and your fine staff, in which Mrs. Cottrell joins me, believe me,

Sincerely,  
(s) Paul C. Cottrell

tors requiring students to buy books that the instructors have written themselves for various classes. Council delayed action on the matter until La Fleur can gather information about the policies of other state colleges.

## Hair Everywhere Proves a Snare

Arcata High School officials have recently invoked a ruling that may sound the death knell for a few beards on campus.

Hugh Hope, enrolled in Dr. Kenneth Humphry's Ed. 113 class, is required to observe and report on a high school student's classroom activities and so far has not been able to do so.

Mr. Kenneth McDonald, Arcata High School Administrator, noted that the Arcata School District has discretionary control over any visitors or observers of their schools. Observers from the Ed. 113 class are permitted under an informal arrangement with the college. "We felt," he stated, "that Mr. Hope

would be a disturbing influence to the school."

Dr. Patrick McGlynn, Coordinator of Secondary Education at HSC, noted that Arcata High School has a regulation against beards worn by the teaching staff, and welcomes students with the same restrictions as imposed on teachers. He further noted that, although there are no state laws specifically controlling a teachers appearance, the districts are given the authority to control this appearance insofar as it affects the children.

When queried, Hope stated that all this was a strange attitude toward a normal thing like a beard.

## Lumberjack Days Plans Get Hot

Fifteen shaves from one blade? Certainly!

If present plans mature, this well known assertion will be put to the test. Hopes are that a national razor manufacturer will make available both blade and barber for the aftermath of the forthcoming Lumberjack Days beard-judging contest. This inspection and shearing of the fuzzy ones is scheduled during Casino Night, 8:00 p.m., May 8, and offers them one-stop convenience for losing both hair and money.

On the same evening, the curvaceous calves and shapely shins of anonymous professors will cavort before a panel of student judges for their edification and consideration.

Lumberjack Days actually gets under way Thursday, May 7, with the Spurs Spring Sing at Sequoia Theater, 6:30 p.m. The movie, "Bell, Book, and Candle," follows at 8:00 also in the theater, with a coffee and cake hour afterward at the CAC.

The next day, May 8, classes will be dismissed at noon so that flush males may hurry to the slave auction to be held at the last stroke of twelve in the cafeteria. Here litesome and pliant slave girls, captured from a nearby sorority house, will await only the commands of their new lords and masters. Feverish bidding is anticipated, and towels will be provided with which winners may mop brows and in which losers may weep.

Brawn and skill will vie for prizes in the Bull of the Woods contest following at 1 p.m. in the fieldhouse. A jazz concert is tentatively set for 2 p.m. with Casino Night taking up the slack at 8 p.m. that evening. Saturday morning a beach party is planned for 9 a.m., at which a Spurs-IK baseball game will be featured.

## Prison Theme Chosen for Playday

Over 100 "inmates" will spend earned "time off for good behavior" at the annual Ninth Grade Playday tomorrow.

A "prison" theme was chosen for the playday which is attended by high school students and sponsored by the Physical Education Dept.

Purpose of the playday is "instructional, with emphasis on sociability," stated Chairman Judy Erickson. Miss Erickson also explained that "competition is not stressed — enjoyment and sociability are the goals."

Girls participating in the events are coming from the following high schools: Fortuna, Eureka, Junior High, Del Norte, Arcata,

## Spring Science Show Colorama of Puffs, Huffs and Explosions

A spring science show will be held this Saturday, April 18; bringing on stage the 'Sights, Sounds, and Smells of Chemistry.'

The show will feature a variety of chemical entertainment, presenting a colorama of explosions and spectacles as a main attraction.

Dr. John Russell, a Humboldt Chemistry Professor, will act as master of ceremonies throughout the show. Dr. Russell emphasized "The show will not be to instruct or lecture, but merely to 'entertain!'"

"The explosions, along with the feats of pretty colors, are mainly pitched at all young people who enjoy seeing things happen—things amazing and often unbelievable."

DR. JOHN RUSSELL

Since this year's master of ceremonies is of the chemistry department, the show will be devoted to various chemical explorations. In following years, other Humboldt instructors will conduct shows, each presenting a trip into his own particular vocational field.

The show will take place in Sequoia Theater on Saturday, April 18, at 10:30 a.m.

Dr. Russell says, "Admission is free, and all are invited to venture into our Spring Science Spectacular."

McKinleyville, Leggett, and Hoopa.

Playday events consist of volleyball, basketball, and track and field.

Each school is sending one team and two substitutes for volleyball, four girls for basketball, and five girls in track and field.

No awards will be given for competition results, and the schedule for the playday is as follows: reception, 9:30 a.m.; orientation, 10 a.m.; events, 10:15 a.m.; lunch, 12 p.m.; entertainment, 12:15 p.m. Chairmen for the playday include Judy Erickson, chairman; Karen Wrigley, co-chairman; Sue Early, basketball; Judy Johnson, volleyball.

## The President's Desk

The year round Quarter System for College education will not be brought to our campus for several years, according to Dr. Cornelius H. Siemens.

This system while in use in several colleges and universities throughout the United States is really still in the pilot phase, the President said.

At the present time two state colleges have been directed to inaugurate a year around education program. They are: California State College at Hayward and the new not yet opened, California State College at Palos Verdes in Southern California.

There are many problems connected with the quarter system Dr. Siemens explained. For the most part they revolve around time, money and motivation.

If this college was directed to shift to the quarter system as soon as feasible, it would require our faculty approximately two years to reevaluate the many courses taught here. The courses would have to be programmed so that the same standards of teaching and learning could be maintained in a shorter period of time, he said.

To operate our college on a year around basis will undoubtedly cost more money. Additional faculty will be required, more maintenance cost to buildings and equipment will be necessary, record keeping will be doubled.

The problem of student motivation will also propose many problems the President explained, for example, will students want to attend school all year? Some students will have to drop a quarter for work but which quarter will they drop? Will students want to take a summer vacation?

These are some of the many problems we will incur as we move toward year around education.

Many of these problems will be solved by the pilot colleges; however, there will be much work to do before our college will be ready to inaugurate the four-quarter system the President said.

## Navy Accepting OCS Candidates

Navy Officers Candidate School program is now accepting applications from College Seniors, said Chief Moore of the U. S. Navy Recruiting Office in Eureka.

College seniors may apply at any time after they are within nine months of receiving their baccalaureate degree. An applicant incurs no obligation to the Navy until he is selected, has graduated, agrees to accept the appointment to OCS, and is sworn in the Naval Reserve, said Chief Moore.

The Officer Candidate School is located at Newport, Rhode Island and provides a 16 week program of intensive training in essential Military Science and Administrative courses. The Aviation Officer Candidate School is located in Pensacola, Florida.

Upon successful completion of OSC the newly commissioned Reserve Officer serves on active duty for a three-year period. During this time he will be extended the opportunity to make application for a Regular Navy commission as a career officer.

## Library Receives German Material

A formal presentation of gifts was made to the Library, Monday, April 13 by Dr. Klaus Citron, Vice Consul, German Consulate General.

Dr. Citron presented Mrs. Helen Everett, librarian, with various gifts in the form of records, tapes, and volumes from 54 publishers, representing grammar, drama, art, and history.

The materials have been added to the German section of the library, where they are being made available for student use.

The Goethe Institute in Munich made these gifts available to the German Departments of certain colleges and universities in the United States, and HSC was one selected.

Dr. Citron studied German and French literature at the universities of Kiel, Germany Lyons and Paris, France.

Dr. Citron spoke as guest lecturer in German, drama and history classes on the same day.

## Dorm Hall News

A general dorm meeting was held last Wednesday night at 10 p.m. in the recreation room of Redwood Hall.

Dorm president Jack Penrod presided at the meeting which lasted about 45 minutes. Around 110 residents of both Nelson and Redwood Halls attended the meeting.

Guest speakers at the meeting were Jack Turner, ASB President and Chuck Freitas, Lumberjack Editor.

The main business of the meeting was a general discussion held among dorm students concerning the dates for Open House at the dorms. Open House at the mens dorms will be April 24.

Other news from the dorms this week is that the third floor Redwood party is scheduled for May 2. The location has yet to be chosen but the menu will consist of steak, salad, and many other items.

The final news this week is that a water balloon battle between residents of Sunset Hall and the mens dorms took place last Saturday. No casualties were reported.

Sunset Hall invited everyone who eats in the cafeteria to join them in a Hootenany and dinner in the quad between the dorms last Sunday, from 3 to 5:30 p.m.

Song sheets were handed out, and Guy Lawrence and Barbara Moon accompanied the singing group with their ukes.

Mr. Olds brought down the food, and set up the tables with the aid of the cafeteria staff. According to Vicki Beima, dorm president, "Mr. Olds provided a delicious dinner."

Mrs. Avis Passie and Mrs. Neva Slacks were the invited guests of the event.

Sandy Markley will be going to the National Convention of Dorm Hall Residents to represent Sunset Hall, April 23-27. According to Miss Beima, Sandy is "to come back inspired with clever ideas for the dorm activities".

Sandy was chosen by the executive council of Sunset Hall. She will be student advisor to the council next year.

A committee, under the leadership of Linda Pinion, revised the dorm constitution, and has put it up before the executive board for approval. It will then go to Student Council for approval before passing.

A formal presentation of some 90 records, tapes and books was made to the HSC library Monday, April 13, by the Goethe Institute in Munich, Germany. Left to right are Bill Haberstock, from the library staff; Dr. John Gimbel, who is doing research on Germany; Dr. Jerry Turner, from the drama dept.; Mrs. Helen Everett, who is the head librarian; Mr. Klaus Citron, the vice consul, German Consulate General; and Dr. Frank Wood from the Language Arts Dept.

USAF F-105, unleashing air-to-ground rockets at simulated enemy target.

## School's Out.

Right now, graduation seems way off in the wild blue yonder. But it's not too early to start planning. In the future, you'll look back on decisions you make today with satisfaction... or regret.

What can an Air Force career mean to you in tangible gain? The opportunity to take on executive responsibilities you might otherwise wait years to attain. And a head-start into one of a wide range of possible careers in the exciting Aerospace Age.

As an Air Force officer, for example, you may be flying a su-

personic jet...helping to keep America's guard up. Or you may be in an Air Force laboratory, working to solve an intricate scientific or technological problem.

Doing jobs like these, you can hold your head high. In addition to being essential to your country, they're the beginnings of a profession of dignity and purpose.

For more information, see the Professor of Air Science.

If there is no AFROTC unit on your campus, contact your nearest Air Force recruiter.

## Kerr Poetry Contest

Poet Dorothy Fish Kerr is sponsoring a poetry contest for all interested students, according to Richard Day, English Professor.

Student poems may be submitted to any English professors, and deadline for manuscripts is May 1.

A luncheon will be held May 14, for the presentation of awards. The year's prize money is \$200.

Dorothy Kerr is sponsoring the contest and is also providing the prize money.

Three members of the Humboldt State faculty will be judging the contest.

**ALL STUDENTS WELCOME** — All invited to attend Methodist Student Movement meeting, Sundays at 7 p.m. in Green and Gold Room. The topic, "Evil and Suffering" will be given by Rev. Byron Roberts, April 19th.

## Musical Pirates Sail into Satire

Pirates of Penzance, a musical comedy by Gilbert and Sullivan, will open in the Sequoia Theater April 24 at 8:30 p.m. according to play director John Pauley.

Dr. Pauley said that "This play is a unique adventure into the wonderful world of Gilbert and Sullivan. Its satire, exaggeration, and humor will be enjoyed by all."

Musical direction will be handled by Mr. Leland Barlow. Also assisting Dr. Pauley will be Jack Senteney, assistant director, Irena White, Choreograph, and Laura Radar, assistant dance and stage director.

Featured in the lead will be Don Jacobson, a veteran actor of the college scene, and Gale Wilcox, a newcomer.

The play is slated for April 24, 25, and 26; and May 1 and 2; all but the April 26 performances will start at 8:30 p.m.

Theater box office starting April Tickets can be purchased at the 20. Admission price is 50 cents for children, \$1.50 for adults, and ASB card holders are admitted free.

This play will feature a special Sunday matinee April 26 at 2:30 p.m. Dr. Pauley remarked, "The American Association of University Women suggested that we give this matinee to encourage or promote children's interest in the theater."

"In the past the drama department in conjunction with the music department has tried to put on one Gilbert and Sullivan production for each college generation," remarked Dr. Pauley. "The reason for this is to let people know and experience the fine wonderful world of Gilbert and Sullivan plays."

Dr. Pauley said, "Many people form companies for the purpose of giving various Gilbert and Sullivan plays. Throughout the world, Gilbert and Sullivan are loved by many. This play should be a treat for all who attend."

## Siemens, Turner

(Continued from Page 1) stated. He pointed out that Report No. 10 provides for "consultation" of faculty and student committees, not representation or the right to vote by the student committee.

Turner further noted that this present trend is toward a college government by decree and personal favor rather than one based upon representative laws. "I feel that the provisions and mechanics for student representation with respect to college athletics should be spelled out in detail in a manner so that only one interpretation is possible," he declared. "After all, student money is the lifeblood of college athletics at HSC and we would like some say in its disposition."

Turner further expressed fears that without proper student athletic affairs representation the faculty senate might increase its own strength by reducing athletics vis a vis academic pursuits.

## Battle of the Sexes Waterlogs the Quad

Multicolored balloons and soaking-wet sweatshirts set the scene for the dorm's bustin brawlin water fight last Saturday afternoon.

Some 30 "domies" slashed and sloshed, raced and got chased in the quad. It seemed that the boys were against the girls or vice versa.

Beautiful young ladies were drenched from head to foot by over zealous males, but the straggly-haired females held their own.

One little lady kept insisting that women are not the "weaker sex," by squirting every male she could find with her handy dandy squirt gun. Too bad, though; it seems that some of the fellas had a secret weapon. They used trash cans filled with water to put their point across—that the men of HSC are stronger than the "weaker-sex."

At the current rate of exchange, the English pound sterling is worth \$2.80 American. One pint of blood is worth approximately \$30 or the equivalent of 10.7 pounds.

Students, faculty, administrative staff, employees and the immediate families are all included in our HSC Blood Bank Program. The program is on an entirely voluntary basis as far as the individual is concerned.

If anyone covered under our program needs blood at any time, he need only tell his doctor or the hospital that he is in the HSC Blood Bank Program, and he will not be charged the usual fee.

From 1957 to 1963 the College has contributed 153 pints of blood and drawn for use 82 pints. This is somewhat short of an even break because of the mechanics of

## A Pint is NOT a Pound

Terry Smith, Activities Advisor

replacement.

Participation in the fund requires that for every pint of blood used, two must be replaced.

Figures for the year 1964, which is only three months old, show that thus far, there have been 57 pints of blood contributed and 30 pints transferred to accident victims, surgical cases and ill persons.

The figures for this year are particularly disturbing when one realizes that major calls for blood still lie ahead.

These would include, of course, Memorial Day, July 4, Labor Day and other holidays when traffic accidents create an enormous demand for whole blood.

successfully save lives and limit disability resulting from acute or chronic blood loss.

Please remember that there is no known substitute for human blood, and that it must be available at all times to save lives.

If one is not motivated by the humanitarian aspects of the blood bank program, perhaps the figure of \$3,360 will have some effect. This would be the cost of blood which has been used by those connected with the college. That's a lot of pounds!

### NEW COURSE

## THE BELL TELEPHONE COMPANIES SALUTE: HERB SUTTON, JR.

Herb Sutton (B.S.E.E., 1961) got a good basic foundation in telephone communications. Outside plant work involving engineering and actual physical construction validates Herb's claim of starting from the ground up. But up he came, and fast!

Herb advanced from an assistant engineer in construction work to Chief Line Assigner where he is responsible for the maintenance and service of all outside telephone

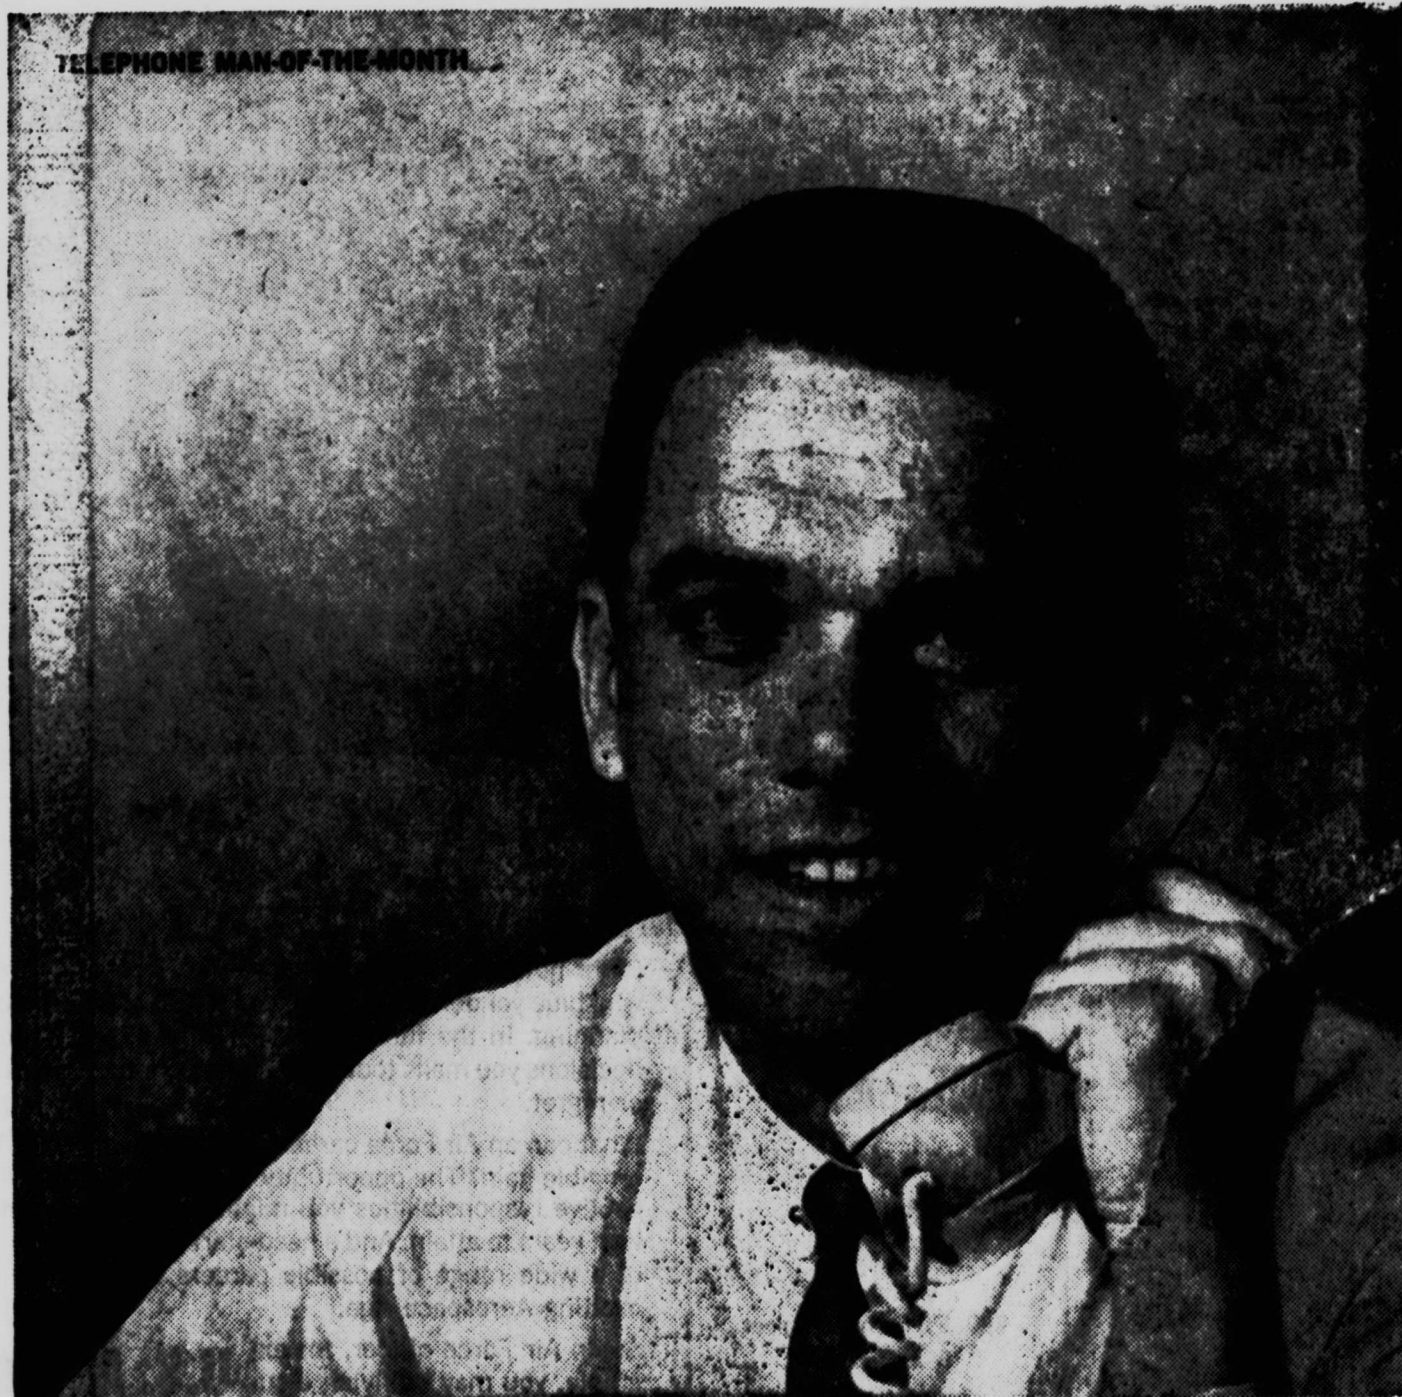

equipment in the San Bruno area of Pacific Telephone.

His present assignment puts him at the hub of telephone operations, a pressure job that demands the very most of his telephone knowledge and his supervisory abilities.

Herb Sutton, like many young engineers, is impatient to make things happen for his company and himself. There are few places where such restlessness is more welcomed or rewarded than in the fast-growing telephone business.

**BELL TELEPHONE COMPANIES**

## Fifth Water Show 'San Francisco' Set for May 1

Preparations and practices continue for the Fifth Annual Water Show, "San Francisco!" to be presented May 1 and 2.

Volunteers and two classes, P.E. 68 and P.E. 20, Synchronized Swimming, are responsible for the formation and performances of "San Francisco!"

Objectives and scope of P.E. 68 include opportunities for the understanding of the various elements involved in aquatic art: execution, synchronization, choreography, stagecraft, make-up, costuming, scriptwriting, and music fundamentals.

Objectives of P.E. 20, Synchronized Swimming, include opportunities for increasing swimming and diving skills and knowledges involved in synchronized swimming.

Scope of the class includes skills, water entries, float formations, stunts, somersaults groups, knowledges, and attitudes.

Rehearsals for the water show take place at 6-10 p.m., on Tuesdays and Thursdays; 3-4 p.m. on Mondays and Wednesdays.

Chairmen of the various committees are: Fran McDaniel, lighting; Betty Edwards, choreography; Judy DeBeni, publicity; Lon Adair, program and invitations.

Other chairmen include Lon Adair, staging; Lon Adair, Sherri Marquis, Betty Edwards, Jan Spaid, script; Judy DeBeni, sound; Judy Maahs, Judy DeBeni, Lily-helpers; Judy Maahs, make-up; and Betty Edwards, assistant coordinator.

The first water show was held in the fall of 1959 following completion of the swimming pool.

## Peace Corps Designs Program

WASHINGTON, D. C.—Peace Corps Director, Sargent Shriver, has just announced a new training program specifically designed to meet the needs of experienced teachers who wish to volunteer for two years overseas service in the Corps.

This new program will be inaugurated during the coming summer and calls for a minimum of 200 experienced teachers who would be assigned as teachers of English in French-speaking Africa, secondary teachers in Ethiopia and university instructors in Columbia and Peru. Some would also be assigned as elementary and junior high school teachers in Liberia and as teachers of English as a second language on the elementary level in the Philippines.

The basic requirement for this group of teachers is two or more years of successful teaching experience above the first grade.

Applications for assignment to this group must be received by Peace Corps prior to May 15, 1964. Those tentatively selected will be invited to enter special training at one of several colleges or universities during the summer of 1964.

Complete information regarding this special group of teachers and a special application form may be secured by addressing: Experienced Teachers Program, Peace Corps, Office of Public Affairs, Washington, D. C. 20525.

## The Greek Way

By BILL HUFFMAN

Delta Sigma Phi fraternity will sponsor a "stomp" on May 2 at the Redwood Acres Fair Grounds in Eureka. Music for the "stomp" will be by the Intimates.

Other plans on the calendar for the fraternity include another annual party which is scheduled for April 26. The name for this party is "Club 464" according to Steve Clapp, Delta Sig publicity. He stated that the numerals in the name for the party symbolize the address of the fraternity.

The Delta Sig's as of April 15 will be off of social probation. Clapp commented that the fraternity is very happy about this.

Last Monday evening, Dr. Don Karshner spoke to the fraternity members after having dinner at the chapter house. His speech concerned social activities.

Two National representatives from the Delta Zeta sorority were at the local chapter house April 13 and 14.

Mrs. John Nichol, province director, and Mrs. Stan Kelleway, national housing director, were here as part of their annual sweep of the west coast province.

Susan Leavitt, publicity for the sorority announced that last fall's pledge class won an award for the highest grade point average in the DZ province. Schools in the province include Chico State, Fresno State, UC at Berkeley, San Jose State and Humboldt. The winning grade point average was 2.85.

Last weekend the DZ's were first place recipients of the "Eight Men for a Day" contest sponsored by the Teke's. According to Susan Leavitt, the eight men spent the afternoon cleaning the DZ house, polishing the silver service, and

washing and waxing each DZ's car.

This summer the Delta Zeta's are sending Sherryl Waits, president of the local chapter, to the National Delta Zeta convention in Cincinnati, Ohio. The convention is scheduled for June and it is expected that all 158 chapters will be represented.

The final news items from the sorority according to Susan Leavitt is that Kathy Clary recently became engaged to Murry Taylor, a senior forestry major and that the "Stompers Marathon" dance was a success.

Dance winners at the stomp were Paula Shaw and John Calhoun.

Tau Kappa Epsilon fraternity will hold its annual Corinthian Ball at the Baywood Country Club tomorrow night.

This is the annual spring formal of the fraternity and features in addition to dinner and dancing, the awarding of the fraternities Top Scholar and Most Improved Scholar awards.

Last Saturday the Teke's were busy with its annual "Eight Men for a Day" raffle. According to Don Rubin, publicity for this weeks column, the actives and pledges put in a total of 116 man hours of work for the three winners.

Winners of the raffle were Delta Zeta sorority; first place, Clark's Motel on 4th Street Eureka; second place, and Mrs. Lillian Hagopian of 136 Mill St. Arcata, won third place.

According to Rubin, the Teke's made slightly over \$700.00 on the raffle. The money is to go into the Teke housing fund. Dr. Siemens drew the winning tickets from the hat for this years event.

Future activities for the Teke's include plans for the Spring Sing. Don Rubin is the Teke chairman for the Spring Sing this year.

# Four Sporting Events Set Today

## Cindermen Host High Flying Cal Aggies At Redwood Bowl

Humboldt's track and field squad host the Cal Aggies today in a Far Western Conference dual match on the Redwood Bowl oval at noon.

The top ranking Aggies have a quartet of headliners that compare with the 'Jacks. Aggie Henry Pirehm will give Humboldt's weightmen some trouble as he threw the shot put 57' 13/4" last week.

Two Aggie runners are also favored as Tom Rogers clocked a 1:54.6 in the 880 and sprinter Mike Iverson has recorded a :09.9 century and a 22.8 220 thus far this season.

However Jack Bill Ferlatte should provide some points for the home squad. The lanky dis-

tance runner holds the school standard in both the mile and two mile races.

Ferlatte reset the school mark with a two mile 9:36.2 last Saturday against Southern Oregon.

Jim Beams

## Net Squad Host Cal Aggies In Deciding Match

The Humboldt State tennis team will be trying for a share of first place in the Far Western Conference today when they host the Cal Aggies in a 10:00 a.m. match at the Arcata High School courts.

The Lumberjack squad is now 3-1 in league play and trails first place Chico State by one full game. A Humboldt victory along with a Chico defeat would mean a first place tie between the two teams.

Coach Larry Kerker expects today's match with the Aggies to be a toss-up as the Aggies have beaten Nevada 4-3 and also lost to Chico by the same 6-1 score that the Lumberjacks lost to the Wildcats.

The players in today's match will be Abbott Squire, Steve Clapp, Dennis Oakes, Bill Davis, and either Craig Thurston, Lee Turner, or Mick Miller.

Humboldt's second place tennis team won their third straight conference match when they breezed by Sonoma State, 6-1, last Saturday.

The Jack number one man, Squire, dropped his match 1-6, 9-7, 6-2 to Ed Dunlap to give Sonoma its only match win.

Humboldt's Clapp evened up the match at 1-1 when he defeated Rich Carsner 6-3, 6-3.

The Lumberjacks swept the remaining three singles matches and the two doubles matches.

The 'Jacks' Oakes defeated Dave Fougner 6-3, 6-4; Davis downed Carl Carlson 6-3, 6-1; and Miller defeated Carl Jensen 6-0, 6-1.

In doubles matches Humboldt's Squire and Clapp teamed up for a 6-3, 6-4 win over Dunlap and Carsner and Miller and Davis paired up to down Jensen and Carlson 6-0, 6-3.

## Swim Team After Second Straight FWC Dual Win

Humboldt's swim team hosts the Cal Aggies today in a Far Western Conference dual meet in the College Natatorium at 10 a.m.

The 'Jacks took their second win in the four-year history of the sport on the hilltop campus as they edged the Sacramento State Hornets 54-40 while dropping a 72-23 decision to the Chico State Wildcats in a double dual at Chico two weeks ago.

Dick Early will lead the 'Jacks into today's competition. Early has picked up firsts in the diving competition in both of the duals Humboldt participated in.

HSC dominated the middle distances with Steve Moore capturing the 200 yard backstroke, Gibson winning the 200 yard butterfly and Kent Johnson taking the 200 yard breast stroke.

## Varsity Nine Host Red Raiders; Open Three Game Slate Today

The Humboldt State nine clash with the Red Raiders of the Oregon Collegiate Conference in a three game series this weekend on the HSC diamond.

The 'Jacks and Raiders will meet Friday at 3 o'clock in a single nine inning contest and the return for two games a single nine inning contest and then return for two games

Last Saturday the 'Jacks absorbed 4-1 and 8-1 setbacks, at the hands of the Sacramento State Hornets, on the winner's home diamond. The 'Jacks now stand with a 3-3 record in FWC standings.

Humboldt did not score in the first game until the top of the seventh when Jon Burgess was hit with a pitch and Gary Owens and Dennis Filkins followed with singles. Hornet ace, Jerry Steinke, fired a five-hitter at the 'Jacks in the first game.

The Hornets won the second game in the third, when they scored five runs on two hits and four walks.

The 'Jacks' only tally came in

the fourth as Joe Sarboe and Dave Minor drew walks and each scored on successive fielder's choice grounders by Tom DiMercurio and Joe Taylor.

Bob Aaberg held the 'Jacks hitless until the ninth, when Joe Sarboe slammed out a single to break up his no-hit game.

## Golf Squad Takes First Victory; Travels to Chico for Second

The Humboldt State golf team will be out for its second straight Far Western Conference victory tomorrow when they travel to Chico to take on the Chico State squad.

Coach Franny Givins expects Chico to be real tough, but he added that his squad has a real chance to win.

The players tentatively scheduled for the Chico match are Dave Perry, Roger Sesna, Dan Sousa, Jeff Zeigler, and Chris Weeks.

The Lumberjack golfers won their first dual match of the season when they shut out Sonoma State, 10-0, on the Bayside links last Saturday.

Lumberjack Perry took low medalist honors as he shot a 76 in the number one match against Dennis Murr who carded a 83.

Sesna carded a 78 to defeat Pete Golis. Sousa had an 83 to down Grant Bodwell, and Zeigler shot a 79 to top Don Graham to give the Lumberjacks a clean sweep of the match. Sonoma forfeited the fifth match.

The Lumberjack golfers gained six extra points in a best hole play between each foursome; each being divided with two 'Jacks and two Sonoma State men in each.

## Hilltop Calendar

**TODAY** — Track, 'Jacks vs Cal Aggies, Redwood Bowl, 12 noon.

—Swimming, 'Jacks vs Cal Aggies here, 10:00 a.m.

—Baseball, 'Jacks vs Southern Oregon Red Raiders at College Diamond, 3:00 p.m.

—Tennis, 'Jacks vs Cal Aggies here.

**TOMORROW** — Take's Corinthian Ball, 9-1 at Baywood Country Club.

—Baseball, double header, 'Jacks vs Southern Oregon at College Diamond, 10:00 a.m.

—Golf, 'Jacks travel to Chico State.

Humboldt State track coach Bob Doornink played three years of football at Washington State under Phil Sarboe where he won All-Coast honors as a tackle.

## JV Nine Rack Up Eight Game Winning Streak

Coach Jack Altman's Junior Jacks baseball team has gone undefeated in its first eight games this season.

The Junior Jacks continue their baseball action Monday when they take on the McKinleyville High Panthers at the Panther field.

The Junior Jacks also meet Fortuna High on Tuesday at the Scotia Ballpark and Arcata High on Wednesday at the Arcata Ballpark. All three games are scheduled to start at 4:30 p.m.

After six straight wins, the Junior Jacks were held to a 3-3 tie by the Arcata High Tigers. Since the tie the Junior Jacks have added another victory to their record with a 4-0 win over McKinleyville last Friday at the College Baseball Field.

The Junior Jacks also had two games scheduled for this week. On Tuesday they were scheduled to play Arcata and on Thursday they were facing Eureka.

Gary Bannister turned in the Junior Jacks' top pitching performance of the season in the 'Jacks latest victory over McKinleyville. Bannister pitched a two-hit shut-out and struck out 11.

The first of the hits could have been just as much an error as a hit as it was a very difficult play to call. The second one was a clean single through the hole between first and second base.

After eight games Dennis Alfaro leads the Junior Jacks' batting with 7 for 15 for a .467 average. He also leads in runs scored with 14 and in home runs with two. Carl Dominey leads in total hits with 13 and carries a .419 batting average with 13 for 31.

Joe Richardson and Dominey lead in doubles with three each and Dominey has hit the only triple.

John Sarge and Richardson lead in the pitching department with two wins each.

Other leading batters with over eight at bats are Sarge with 3 for 9—.333 and Richardson with 4 for 13—.307.
