

Losing That 'Little School' Look

LumberJack

HUMBOLDT STATE COLLEGE

Vol. XXXIX

ARCATA, CALIF., FRI., FEBRUARY 4, 1966

No. 17

COLONEL CHARLES "CHUCK" YEAGER, commandant of the U.S. Air Force Aerospace Research Pilot School, stands by as President Cornelius Siemens parries a question put forth at an informal luncheon held for Col. Yeager when he visited campus January 21. Col. Yeager, a much decorated hero of World War II, was the first American to break the sound barrier and has piloted aircraft at 1,650 miles per hour. Congressman Don Clausen, who helped to bring Col. Yeager to the Redwood region, is seated left.

Space Research Chief Visits Humboldt

by Scott Long

Colonel Charles Elwood Yeager was the guest of students January 21, after flying in from San Francisco in a B57 Canberra jet bomber.

Colonel Yeager, the first man to break the sound barrier, was met at the Arcata Air Port by Congressman Don Clausen, Dr. Don W. Karshner, Mr. A. L. "Scotty" Reed, Bob Henry, Jack Seridan, Louise St. Jean, and Linda Edwards, all on the welcoming committee.

Colonel Yeager's visit to HSC

'Idiots' to Play For Registration Dance

A free dance, featuring the music of the Village Idiots, takes over the Women's Gym from 9 until 1, Friday night, February 4, according to the Activities Office.

The dance is in honor of all entering freshmen and transfer students, but all students are invited, Dean of Activities Kate Buchanan said.

Dress is informal.

Movies Set Tonight and Monday

'Pepe'

The musical comedy "Pepe", starring Shirley Jones and 30 of Hollywood's best known stars is scheduled for showing tonight, (Thursday, February 3) at 7:30 in Sequoia Theater.

The lighthearted film is, according to Activities Commissioner Steve Peithman, "a sure-fire way to beat those registration blues."

The movie is free and open to all college students and faculty.

'Suddenly Last Summer'
One of the more controversial

films made in the last few years will be screened Monday evening at 7:30 in Sequoia Theater.

"Suddenly Last Summer," written by Tennessee Williams and starring Elizabeth Taylor, Katherine Hepburn and Montgomery Clift, was the subject of much discussion at the time of its release due to its subject matter.

Two movies are scheduled for February, according to Peithman. The second, "That Touch of Mink," starring Doris Day and Cary Grant is scheduled for February 28.

Since July, 1962, he has been Commandant of the USAF Aerospace Research Pilot School at Edwards AFB.

Col. Yeager spoke to the student body, and showed films of the Aerospace Research project, when he appeared in the Sequoia Theater.

Newly Forming Rightist Group Points Out Left

A furor was raised among several students January 17, as it was learned about a tape recorded at KHSC FM for later release.

The tape, made by Jim Hollingsworth, organizer of a new campus club called the "Two Per Cent Club," contains comments about 3 organizations on campus. On tape Hollingsworth said, "The Friends of SNCC, the Channing Club, and the Viet Nam committee are campus organizations that lean toward the far left." He said their activities aided the communist cause rather than Americanism. He also said the Two Per Cent Club was being formed to combat communism. Only about two per cent of Americans are actively engaged in trying to combat communism, said Hollingsworth.

The students that were concerned about the tape were asked to the station to hear the tape. Several ASB officers and Lumberjack staffers were there as well as members from SNCC, and the Channing Club.

Richard Anderson, secretary for SNCC, upon hearing the tape, remarked, "sounds to me like it was taken right out of text, from John Birch Society literature."

HSC Coming of Age After A History of Expansion

Death and taxes are inevitable they say, but for HSC the unavoidable is growth. Since its founding in 1913 the history of Humboldt State College could be summed up in one word, "expansion".

Editors Seek New Staffs for Spring

Spring staffs for Lumberjack, campus newspaper; Sempervirens, yearbook; and Hilltopper, campus feature magazine, are being sought the respective editors announced this week.

One or two units credit is allowed for publication classes. Interested students should register for Journalism 27 or 127. Classes are held two hours each week on Tuesdays and Thursdays.

No prerequisites are necessary. The editors point out that interest is quite often a more valuable asset than experience. Jobs in many areas other than writing are offered on each staff. Positions are open to anyone interested. Staffers need not be registered in publications classes.

Four Elected As Reps-at-Large By 707 Students

From a total of 22 students, the largest number to compete in four years, Suzi Winters, Brian Konnersman, Joe Forbes and Gary Morse were chosen to fill positions as representatives-at-large at HSC. A total of 707 students voted in the recent election.

Miss Winters, a sophomore from Eureka, has been re-elected for a second term. Konnersman is a freshman from Fortuna; Morse is a senior from Las Angeles and Forbes is a graduate student from Arcata. They replaced Dave Viale, Alan Badget and Jim Humphrey.

Each representative serves for one year, representing no particular segment of the student body. To run for representative-at-large, a student must have a 2.00 (C) grade-point average and a petition with 25 student signatures.

Other candidates included Abu Dayyeh Fajmi Stephen Anderson, Christopher Bradford, Ken Bryant, Gloria Young, Michael Cullen, Bruce Dinneen, Tim Fogarty, Jerry Hampton, Brian Harris, Dave Johnson, Wayne Konkright, Lowell Mengel, Pat Newman, Lowell Nicolaus, Larry Vickers, James Walters and Mark Morse.

Coach Sarboe Quits Grid Post; Ex-Green Chainer to Succeed

A former Lumberjack assistant coach, Frank P. "Bud" Van Deren, has been named head football coach here following the resignation of head coach Phil Sarboe who will take over the same position at the University of Hawaii.

Announcement of the appointment was made by college President Cornelius Siemens Monday afternoon following conferences with Van Deren Sunday.

Van Deren is presently line coach at the University of California at Berkeley. However, he was an assistant coach on this campus from 1962-64. At that time the Lumberjacks' formidable "green chain" defensive unit was at its peak. The Lumberjacks were Far Western Conference runners-up both years.

Van Deren's Transfer

Dr. Siemens said arrangements will be made for Van Deren's transfer, "as soon as is feasible." He will serve as head coach and will be an instructor in the physical

"We are growing at a fantastic rate," reports Dr. Robert Anderson, Dean of Admissions and Records. Ten years ago HSC was a rural college with some 300 students. Today it has an enrollment ten times greater. It will more than double its instructional capacity in the next decade. 7000 students and 500 professors will be elbowing their way around campus in 1975.

1966-67 Enrollment Predicted

Dr. Anderson expects an enrollment of 3160 students this semester. Enrollment last fall reached an all time high of 3250. This, he says, follows the normal pattern, a slight decline from fall to spring semester. But a projection of student influx for next fall tells a different story. Dr. Anderson predicts an enrollment of 3600 next semester, an increase that will present a new challenge to an administration experienced in expansion.

Building plans on campus are managing to keep up with the fast pace of student increase.

Several new buildings, one to be finished in June, will be rapidly changing campus topography in the near future.

New Buildings Planned

An Art-Music building, eight dormitories, a campus commons and a biological sciences building will be started either late this year or early in 1967. In addition, a new Marine-Biology station in Trinidad will be ready in June, said Mr. George Hartford, campus facilities planner. Approximate cost of all these additions is \$8 million.

The Marine-biology lab will extend the HSC campus north to Trinidad. The lab contains a 24-student laboratory for instruction and experimentation and over 8000 gallons in the sea water aquaria. The marine station will accommodate around 400 students each semester.

The new dorms will be built just north of the Jolly Giant Parking lot, and will accommodate 400 students, 50 in each dormitory. The new college commons will be built over the Jolly Giant parking lot, and will be much larger than the present commons.

The new Biological Sciences building will be just south of the present building and will be an addition to the present one.

The Art-Music building will be built adjacent to the Art-Home Education department.

(Continued on Page 2)

Sarboe plans to leave for Hawaii next week.

President Siemens announced that Sarboe had quit his coaching job on campus to take over as head coach of the University of Hawaii. Shortly afterward Sarboe's son Joe, who is also the Lumberjacks' top quarterback, announced that he would transfer to the University of Hawaii for the spring semester.

The elder Sarboe took over the reins as football coach here 15 years ago. At that time the school had finished marking up two winless grid campaigns.

Sarboe Lauded

Since that time the Lumberjacks (Continued on Page 4)

Looking Back, Thinking Ahead

Lumberjack News Review

Many of the big stories of the fall semester will continue to make Lumberjack headlines during 1966. Here are many of the hot issues that have effected HSC in the past and will continue to make news in the future:

The Quarter System, A Reluctant 'Go'

The transition to the quarter system and eventually year round operation will be a reality for many students now on campus. The final judgment of this much debated issue will be theirs to make. Administrative wheels on 27 state colleges and universities have been working toward this for the past two years.

HSC is scheduled to switch in 1967-68 to quarters and to year round operation in 1970-71. An acceptable change-over schedule is yet to be approved by all and the program in general has by no means been met with universal acceptance.

Grading System Turn-Around

HSC is following the lead of many schools throughout the country and is preparing a faculty register and an evaluation system of instructors to simplify one registration headache. Students will be able to choose instructors a little more enlightened about instructors habits on the basis of the student's own particular interests in emphasis and approach to subject matter, grading systems and the type of testing and outside work given.

Questionnaires are expected to be distributed this semester and the first register is planned for use next fall. Barring prophecies of skeptics that overgeneralization will make the register impotent or that the opposite approach may lead to abuses against instructors, a faculty register will be an invaluable asset to teacher and student alike.

College Union: A Must Or A Nuisance

After a narrow defeat last spring students will go to the polls again this month to decide on whether the student body will support a proposal to build a College Union. The \$950,000 structure will serve as a community center adding facilities to the present CAC and College Commons which are already showing signs of overcrowding.

Draft Deferment Reevaluation

The Vietnam conflict has been hitting hard at higher educational opportunities for all. There has been a tremendous reduction in II-S deferments. Students who have been reclassified I-A and who have previously been working their way through school find they have to maintain full credit loads to be able to complete school before going military. This means a greater number of students are relying heavily on financial assistance programs. This has limited the availability of loans and work assistance projects to those seeking financial help to complete school.

SNCC Open Eyes

The friends of SNCC chapter which was formed on campus last fall has aroused the apathetic and brought some of the social and moral problems of the outside world to HSC as realities rather than abstractions heard but unconnected to hilltop life. Strong opposition to its forming showed that other sides of the civil rights and student left issues were not dead, but only dormant waiting for stimulus. SNCC was a catalyst that helped to stimulate the forming of the Vietnam Committee and the Two Per Cent Club on campus. Their purposes are to debate and inform others of the causes and effects of events and ideas of general interest.

It Takes Money

Sacramento found the need to do some budget slicing and HSC proved one of the many areas where they could make up a few thousand. 1965-66 appropriations did not allow for stiff competition in academic market by providing adequate faculty wage increases to attract instructors. As a result students found a decrease in the number and variety of classes offered.

The large turnover of faculty here reflects the exodus of highly qualified instructors from state colleges, who are finding better deals elsewhere. The Library and Health Center were hard hit and the services they render were decreased.

Activism In Student Government

ASB President Bob Henry and the Student Legislative Council is pursuing an activist policy that will be bearing fruit this semester with increased student involvement in local and state higher education policy making programs. Spectrum '66 is scheduling timely and controversial speakers on a variety of topics.

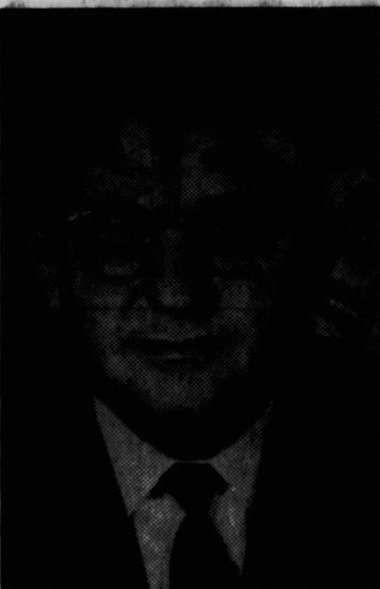

Going Big

The Lumberjack reporters barely kept up with campus expansion during the last semester, student enrollment, faculty influx and building projects were all on the continued increase and are still going up. An all time high in enrollment of 3200 was reached in fall 1965, but that is small compared to projected enrollment figures of the future. The little school, north woodsie atmosphere is going, for better or for worse. (See Story on page 1)

HSC And A National Park

Many students and faculty have gone on record in support or opposition to the Redwood National Park proposal but it is Congress that will call the turn that will seriously effect the redwood region.

Faculty and administrative personnel were drawn into a state-wide controversy last semester which involved alleged intimidation of pro-park faculty members by persons outside the campus community. HSC vehemently denied any such problems with lumber interests in the area at that time. But the betting is light that this issue is dead.

Dr. Cornelius H. Siemens
... president's "welcome aboard"

A Welcome From The President

To those who are entering Humboldt State or returning to the campus for the spring semester, I bid you "welcome aboard" on behalf of the entire college. You will find this to be a busy place with many activities besides your regular classes to demand your attention. Although I urge your full participation in college life, let me emphasize the essentiality of good scholarship.

The instructors, the administrators, in fact, all of the college staff members are here to assist you in gaining a valuable collegiate education in the most meaningful sense of the term. It is up to you to request help whenever needed and from whoever can best be of assistance. The broad range of freedom permitted is essentially an opportunity for self-development and for the exercise of responsibility. I hope, truly, that you make the most of your opportunities.

Cornelius H. Siemens
President

"In This Corner"

By STEVE PEITHMAN

Before beginning this week's trivia it seems only fitting that we observe a moment of silence in memory of all those who have passed on while waiting in registration lines.

Rumors are nasty and evil, and there are simply too many running around campus these days. In an effort to clear the air, we officially squelch the following myths.

It is Definitely Not True That:
... that the college is slowly

sliding down hill into the Park Lane Apartments.

... that Fred Nave is in reality an undercover agent for Delta Sigma Phi.

... that SNCC is a front for the Daughters of the American Revolution.

... that Sequoia Masque plans to put on "Uncle Tom's Cabin."

... that Mrs. Passie was once a Bunny.

... that the Sequoia Theater fountain is really a Forestry Club still.

... that a program has been set up by HSC men to encourage high school drop-outs in order to fill local draft quotas.

... that Jack Sheridan was secretly murdered by irate Student Council members who have planted an imposter in his place.

... that the cafeteria kitchen staff is composed of Remedial Homemaking students.

... that the Spurs have been infiltrated by Communists.

... that Jane Cleveland, fashion pace-setter for Sunset Hall, has decreed the wearing of flour sacks and fluffy bedroom slippers.

... that the health center is really an obstetrics ward.

... that the Founder's Hall fountain was once President Siemens' bathtub.

... that Dr. Householder is a member of the John Birch Society.

... that the Engineering building was designed by Frank Lloyd Wright.

... that 10,000 Chinese soldiers are poised on the California-Oregon border ready to attack the National Park.

... that the Lumberjack is written by the creative writing class.

... that Dr. Yost is really a veterinarian.

HSC Growing . .

(Continued From Page 1)

conomics building, where the basketball courts presently are.

A new \$85,000 auto mechanics building has just been completed for practical instruction in power and transportation classes.

To Arcata and the surrounding communities this expansion means money. The college payroll totaling \$3.5 million is one of the largest in Humboldt County. The total operating budget of \$4.5 million is nearly \$1 million over last year's budget.

In addition, the student body is expected to channel some \$4 million in private purchasing power to local businesses. This is a combined collegiate expenditure in excess of \$8.5 million during the 1965-66 academic year.

Anti-Castro Cuban Will Speak On His Part at "Bay of Pigs"

A major figure in the unsuccessful attempt to wrest Cuba from the hands of Castro with the Bay of Pigs Invasion will be speaking February 16, at 7:30 p.m. in Founders Hall under the new Spectrum '66 Program.

Ricardo Rafael Sardina who fled Cuba in 1960 to help in the United States to organize an army against Cuba is now a Spanish teacher at Arcata High School. He will speak on the unsuccessful invasion of Cuba that took place April 7, 1961.

After the attempt to overthrow Castro was repelled Sardina daily broadcast messages to his island home while touring Latin American countries in an effort to secure aid for the Cuban cause.

At the time of Castro's take-over Sardina was president of the largest and most influential economic association in Cuba, the Sugar Cane Growers Association.

Sardina has written some 20 books and pamphlets on Cuba including: "Economics of Cuba", "Biography of Marti", and "The Future of Cuban Youth".

In June of 1965 he received his BA in education at Pacific University and accepted his present teaching position at Arcata High School.

Sardina is the first of a series of speakers sponsored by the Associated Student Body and Spectrum '66. The next scheduled speaker will be Hal Call, Mattachine Society President, who will speak on the "Hypocrisy of Sexual Morality".

1966 Sempervirens Staff Opens Sales Campaign This Week

Sempervirens '66 will hold its pre-sales campaign during the current registration, said Sue Minor, editor.

It is hoped by the present editorial staff that this will boost past sales records considerably. "After careful evaluation of past sales records were concluded and different suggestions considered pre-sales at registration was selected as the best way to increase sales," said Miss Minor.

Those who purchase a book this year in advance of their actual arrival in the Fall will be given a reduced price of \$4. Next year the book will sell for \$5 which is still far below the actual printing cost, according to Abby Abinanti, associate editor.

As a further service, all graduates and other departing students will be able to take advantage of a new mailing system, said Abinanti. This has been designed so that those planning to leave the area after this semester will receive their yearbooks next year by mail.

They may leave their address and their book will be mailed directly to them, said Abinanti.

Signing up for the mailing service can be done in the registration line or anytime during the semester in the Sempervirens' office, LA 15.

Jim Gunther King Of Popera Event

The crowning of the king and the Green and Gold Choirs "new look" highlighted the annual "Popera" concert held Sunday, January 16.

Jim Gunther, a member of the Inter-Collegiate Knights and sponsored by that group, was selected king of the event as a result of ASB elections.

The 54-member choir under the direction of Dr. Leon Wagner has made a change of garment that has been discussed for several years. The new outfits affect a certain uniqueness that has been impossible with the previous traditional and secular garments. Women members of the choir wear an antique gold jumper-dress with the men wearing bottle-green blazer jackets with black slacks.

It is the view of Dr. Wagner, members of the group, and the different people who were consulted that the new look presents a much pleasanter visual effect than the traditional, maroon choir robes.

Delta Zeta's 'Dream Man' is Dave Viale

Dave Viale, junior business major from Eureka, was crowned "1966 Delta Zeta Dream Man" at the sororities annual Rose Formal held at Baywood Golf and Country Club, January 15.

Runners-up were: Steve Clapp and Jim Crowell.

Among other presentations at the dance were roses from the pledge class to Heddie Morris and Jill Farmer, pledge trainer and assistant, respectively.

Registering Student Dies In Auto Crash

A former HSC student applying for readmission this semester was killed Monday morning in a one car traffic accident on highway 101 just south of Arcata, the CHP reported.

Jimmie Dee McAfee, 21, forestry major, was pronounced dead on arrival at Trinity Hospital after the car he was driving went out of control and careened into a metal light pole on highway 101 at the Bayside cutoff. The accident occurred at 4 a.m.

McAfee was a resident of Lost Hills, California, and attended Bakersfield Junior College last semester. He was a student here in 1964-65 and was processing for readmission when he was killed.

Buy, Use Campus Parking Stickers

Spring semester parking permit stickers will go on sale this week at the cashiers office in the administration building, according to Business Manager, Frank Devery.

The parking stickers, required on all vehicles using campus parking facilities, cost \$13. Previous to this semester the stickers have been installed at the Corporation Yard but this semester it will be the purchaser's responsibility to place them properly. Citations will be issued for incorrectly placed stickers.

To qualify as "correctly installed" the sticker should be placed in the lower right-hand corner of the front windshield on the purchaser's car. They must be permanently fixed and visible.

Campus Security and the Arcata Police Department will issue tickets for parking violations beginning February 7, according to Mr. Devery. Those receiving tickets are required to report to the Arcata Justice Court and pay a \$2 fine.

Stickers are required to park on campus from 7 a.m. to 10 p.m. Monday through Thursday and from 7 a.m. to 5 p.m. on Friday when classes are in session.

Friends of SNCC Aid Delano Strikers

Two carloads of food, clothing and bedding left campus earlier this week bound for strike-born Delano, said representatives of the Friends of SNCC.

The local chapter of the Friends of SNCC, who sponsored the drive, included funds from their treasury and donations of local residents and students in the shipment.

Those making the trip were Tonio Bachrach, chairman of the campus group, Alan Schloss, Steve Kelly and Bruce Kelly.

Hundreds of college groups, churches and other organizations and private individuals have been sending food, clothing and funds to Delano since the National Farm Workers' Association went on strike five months ago, said SNCC.

New Draft Regulations Clarified By Local Selective Service Board

Clarification of several draft laws were included in a letter to President Cornelius H. Siemens last week from the Eureka Local Board No. 4, Selective Service System.

The letter stated that "Selective Service has requested that student deferments should be granted only to those students who since their graduation from high school have successfully completed a full time course of instruction each year, have made normal progress, and will complete a four year course of study in four years."

Any student who is enrolled for 12 units is considered a full time student; however, he must pick up units in summer school in order to graduate in four years. Reclassification of these students at this time will not necessarily prevent them from completing their present year of college as they will be able to use their 1-S statutory deferment.

After June, 1966, should the

needs of the armed forces indicate that a relaxation of student deferment policies would be advisable, the local boards could again consider the group for student deferments. On the other hand, if the armed forces requirements are such that the number of students to be deferred must be limited, these registrants would then be available for consideration for military service."

Pres. Siemens urges all students who are eligible for the draft and who have questions about the draft and definitions of the various kinds of deferments to contact Dr. Delbert S. Maher in the counseling center or write directly to their own draft board.

Lumberjacks Travel; Meet League Foes This Weekend

Continuing to play in the stoic tradition despite their 0-4 Far Western Conference record, the never-say-die Lumberjacks journey to meet the formidable Cal Aggies tomorrow night and the perennially tough Chico State Wildcats on Saturday evening.

The Aggies from Davis have won only one game in four Conference outings, posting their victory over the Cal State Pioneers. Last year's Co-Champions, the Chico State Wildcats, are sporting the same record as the Aggies.

Chico State's only trip to the winning circle to date came when they defeated the Livies of Sacramento State, 81-79.

In the Conference game on Saturday night, the Chico State Wildcats will be led by a tenacious duo made up of Billy Jones, an All-Far Western Conference center from last year, and Kelly Bane, one of

the leading scorers in the Far Western Conference.

Niclai added that he would stick with the same line-up that has been effective all year, which includes Jim Flint, 6'4", Fred Griffith, 6'4", Sylvan Braa, 6', Pat Patton, 5'11", and Steve Dangberg, 5'11".

Line-Up Named

Joe Richardson, 5'11", Jim Carter, 6'1", who were both declared eligible for the spring semester, as well as Ken Kline, 6'2", Roger Barisdale, 6'3", and Jim Waldvogel, 6'2", make up the traveling squad.

In a recent non-conference encounter at Pacific College of Fresno, the revitalized Hilltoppers split with the Viking to conclude a successful home-away series between the two schools.

'Jacks Win

The 'Jacks dropped the first game 69-60 due to their dubious ability to miss more than a dozen lay-ins, but they bounced backs strongly to defeat Fresno Pacific in the finale of the two-game series by a 86-77 margin.

Sylvan Braa's 29 points and Steve Dangberg's 22 points headed the barrage of point production.

In the make-up conference game with the Sacramento State Hornets, the 'Jacks went down to defeat by a respectable 75-69 margin.

Close Defeat

Despite leading for nearly 35 minutes of basketball, the fighting Lumberjacks saw victory slip from their grasp during the last final minutes of the game due primarily to an awesome onslaught of superior height and depth by the Sacramento quintet.

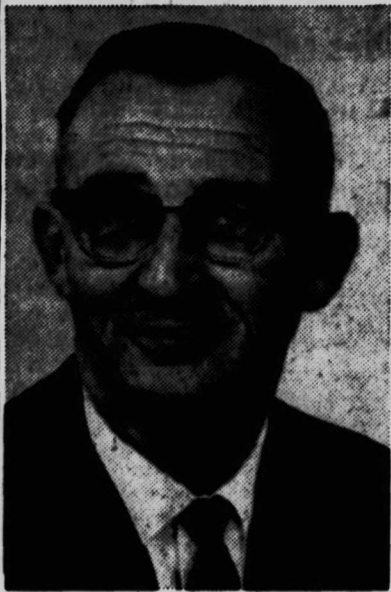

In last Friday night's game with the San Francisco State Gators, the Hilltoppers were caught in a web of superior shooting and height which proved too much for them to handle and were defeated 106-80, which is a new FWC scoring mark.

Jayvees Win Six Straight Contests

The Junior Jacks will try for their seventh straight victory this Friday night when they host the College of the Redwoods at 8 p.m. Saturday, the Junior Jacks will travel to Chico State College to play the junior varsity five as a preliminary game to the varsity tilt between Humboldt and Chico State.

The Junior Jacks started their win streak on January 8 when they rolled to a 61-28 victory over the McKinleyville High Panthers. Since then they have defeated the College of the Redwoods twice by scores of 70-67 and 65-64 respectively. The Junior Jacks defeated the Redwoods for the first time when they took their 70-67 victory on January 14. They took their second victory over the Redwoods on January 28 by a 65-64 score.

Van Deren Replaces Sarboe

Coach Philip J. Sarboe
... a change of climate

Grapplers Host Pair of Matches

After defeating Oregon Technical Institute, 24-9, and losing to Southern Oregon College, 19-11, the Lumberjack wrestling team takes to the mats Saturday to host San Francisco State and Cal State at Hayward.

Friday night, January 14, the Lumberjacks lost to the SOC Red Raiders due to the overall strength of the Oregon crew.

Saturday, January 15, the Lumberjacks rolled to a 24-9 victory over the OTI Owls in a non-conference battle.

The Owls scored first by taking the first two matches when Ed Young and Terry Bond defeated Len Croteau and Craig Richards in the 123-lb. and 130-lb. classes by scores of 13-0 and 10-4 respectively.

Humboldt came back to take the next two matches. Bob Bourgeois captured the 137-lb. class with a 8-3 victory, and Jerry MacPherson rolled to a 6-1 victory over Bill Weaver in the 145-lb. class.

In the 152-lb. class, the Owls' Pat Cates defeated Dale Smith, 10-3. The Lumberjacks took the 160-lb. and 167-lb. classes by forfeits and won the final two matches as Tom Oglesbee took a 9-3 decision over GERAL Christianson at 177 pounds and Don Williams pinned Ron Young in the unlimited class.

WANTED: Babysitter for 2 year old girl while mother attends day classes. Salary open. 822-5544, Clarissa Ziegler, 625 Bayside Rd.

have compiled 104 wins, 37 losses and five ties. Sarboe's 1959 and 1960 teams chalked up 20 straight victories.

And the 1960 squad missed winning the NAIA national championship by a one-point margin.

In making the announcement of Sarboe's resignation Dr. Siemens said the influence and guidance Sarboe has given hundreds of campus athletes has been even more impressive than his statistical record.

President's Comments

Sarboe was praised for both his football strategy and his willingness to help the individual athlete. Siemens indicated that the college regrets Sarboe's move but understands that he acted under strong inducements. Both the college and the community wish Sarboe the best in his new post.

Sarboe himself indicated that he would like to start getting acquainted with his new job as soon as possible. However he said his date of departure would be up to Dr. Siemens.

Joe Sarboe Transfers

The younger Sarboe left San Francisco Monday afternoon to enroll at the University of Hawaii. His eligibility there as a football candidate probably will be delayed until the fall of 1967 because of the transfer.

Sarboe was the Lumberjacks'

starting quarterback for the past two years. Over the last campaign he finished second to San Francisco's Don McPhail in just about every FWC quarterbacking statistic.

He was twice named to the All-FWC baseball squad as a second baseman and also ran track. He played in the Shrine game in Los Angeles.

In addition Sarboe was a standout athlete at Arcata High before attending Humboldt.

Forensics Squad Turn Educators

Programs and demonstrations were presented before high schools and service clubs throughout the North Coast region during the annual between-semester tour of the varsity forensics squad, this week.

Following a custom begun some 11 years ago students presented programs of instruction on pointers in public speaking, correct procedures in debate and after-dinner speaking.
