

# SLC DELAYS ACTION ON BERKELEY REPORT

Student Legislative Council's committee to investigate recent student demands at the University of California at Berkeley, made its report at Tuesday's Council meeting, and touched off a discussion that resulted in the rejection of a letter AS Vice-President John Woolley had written in support of the demands.

Bob Ross, committee chairman distributed copies of the committee report, which reiterated the four demands of the students who recently engineered a student strike at Cal. The report also indicated how each of the four demands would be applicable to HSC.

The demands and their relation to conditions at Humboldt, are:

Point one, "No off-campus police are allowed on campus." Ross said the campus police handle most disturbances here, but on

occasion, city and state officers have been called in to handle matters when campus police were unavailable.

Point two, "No disciplinary action should be taken against the demonstrators," referring to the 9 persons arrested during the recent demonstration at Cal. The report outlined the sections in the California Administrative Code that permits discipline for state college students guilty of "disorderly conduct," but pointed out that there have been no mass demonstrations here, therefore this point cannot really be considered as applicable at Humboldt.

Point three, "Off-campus groups are to have the same privileges as military groups." This is in effect at Humboldt, and military recruiters are able to use only the same facilities available to other

off-campus groups with prior administrative approval, said Ross.

Point four, "Judicial Review of all disciplinary actions." This procedure is currently in effect at HSC.

The report concluded that HSC students already possess the rights that the Berkeley students are demanding. For this reason, John Woolley drafted a letter to the AS president at Cal supporting their demands.

Woolley's letter said that points one, three, and four are presently established policies at Humboldt, and point two is supported because "we feel that citizens in a democratic society should have a right to demonstrate as a means of expressing their view."

During the discussion on whether or not to accept Woolley's

proposed letter, several issues were raised. Rep-at-large Chuck Dvorzak stated that the first two demands were related to the specific instance of the recent demonstration and subsequent arrests, while this letter would express support for this type of action in all instances.

Jack Sheridan, a member of the audience, countered by saying points one, three and four are all general demands, and because the Cal students are demanding things that are established policies here, HSC students should support those three points as well as point two, since the nine students were only trying to achieve the other three demands when arrested.

Rep-at-large Pat Crooks then expressed a desire for the rejection of this letter and drafting one of support for the Berkeley admin-

istration if Council deems a letter necessary. He said he supports the administration's action, and felt the majority of the students do here also.

Rep-at-large Brian Konnerman said he is in sympathy with the students demands, but was not in support of the recent strike. He said that possibly the wording of the letter indicated support of the strike, in which case a different letter should be written.

Woolley's proposed letter was rejected 12-2, with Reps-at-large Mike Carroll and Pat Newman favoring it.

A motion that a different letter be written then passed Council. This letter supposedly will take into consideration Council's feeling on the subject. Hopefully, the letter will be ready for approval after Christmas vacation.

HUMBOLDT STATE COLLEGE

ARCATA, CALIF., FRI., DEC. 16, 1968

No. 18

### Three Burglary Suspects Draw Year Suspensions

by James E. Hilbrink

The three male students apprehended after robbing the bookstore last week will be suspended from Humboldt for one year by direction of President Cornelius H. Siemens after accepting the recommendations of the Student Disciplinary Council on December 9.

Student Disciplinary Council made the following recommendations:

1. That the students be suspended from HSC from February 1, 1967 until February 1, 1968.
2. That the students immediately be placed on social probation for the remainder of

### Petitioners for ASB Rep Positions Sought

Nominating petitions are now available for the January ASB elections. The offices open are four representative-at-large posts on Student Legislative Council, and the only requirement for prospective candidates is that they have a 2.0 grade average.

Petitions may be picked up in the ASB Office, Room 4, Nelson Hall, or the Activities Office Room 214, Administration Building, and must be returned by Monday, January 9.

The election will be held Monday and Friday, January 16 and 17.

this semester.

3. If it is necessary, to take additional disciplinary action for other causes during this semester, the students will be immediately suspended.

### Tekes Collect Cans For Salvation Army

The Tau Kappa Epsilon Fraternity sponsored a "can drive" recently, and in only two hours collected 1,712 cans of food for needy families at Christmas, according to Bill Vance, TKE publicity chairman.

Although the Tekes were only seeking canned foods, they also received some dry goods, clothing, toys, a dollar bill, and one promise from a student to pledge TKE next semester.

The Teke pledges and actives competed to see which group could collect the most, with the pledges ringing doorbells in Arcata, and the actives covering Eureka. The actives won the contest, and a plaque, with 870 cans collected to the pledges 842.

The donations were turned over to the Salvation Army in Eureka, who will make them into food packages for needy families at Christmas.

### Presidents Agree On Limiting Athletic Programs

In the college presidents' meeting of last week's Far Western Athletic Conference, almost all of the presidents favored continuing low-pressure and deemphasized athletic programs, stated President Cornelius Siemens.

The presidents decided unanimously they would not request any additional support for intercollegiate athletics from state funds, as suggested by several member colleges.

Siemens said that the importance of the discussion and items on the agenda made it necessary to call another meeting in January to be held at the University of California at Davis. Major questions still requiring resolution are:

1. Should the FWC intensify its intercollegiate athletic program by providing athletic scholarships and reserving campus jobs for athletes, and 2. Who is to "monitor" the administration of the athletic program at each campus and for the conference?

### Four Top Seniors Honored at Sno-Ball

Announcement of the "Outstanding Man and Woman of the Year" and the "Senior Man and Woman of the Year" highlighted the annual Sno-Ball held at the Eureka Inn last Friday night.

Bob Henry and Kathy Monahan Baer were named "Outstanding Man and Woman of the Year" by Dr. Cornelius H. Siemens, college president.

Ed Waldapfel and Jane Cleveland were named "Senior Man and Woman" by Dr. Don Karshner, dean of students. They received perpetual plaques and monetary gift awards from Mrs. Katherine Corbett, Sociology Professor.

### HSC Contributes \$650 To Italian Flood Fund

by Donna Vanni

The hilltop campus has contributed more than \$650.00 to the Italian Flood Christmas Fund for the children of Florence, said Miss Kate Buchanan, dean of activities and designated "collector".

Janice Banducci and Dede Boemker, two HSC coeds currently studying in Italy under the state college foreign program recently sent a plea to the ASB asking for assistance for the flood victims of Florence

The following is a statement of receipts cabled to the students earlier this week by Miss Buchanan.

From the ASB sponsored dance and from individual students, \$53.60; clubs and organizations of HSC, \$172.38; faculty, administration and staff, \$129.14; townspeople and organizations, \$270.50, anonymous, \$30.

Over \$120 of the money received from clubs and organizations was contributed by the SPURS, Sophomore Women's Honorary Organization.

### Viewpoint

## LUMBERJACK Initiates Column from the Right

by Jim Hollingsworth

More student autonomy; less administrative control; students ought to have the right to completely control their own education; the taxpayer is only incidental to the educational process.

The United States is an imperialist; we must have a guaranteed annual income; we must have a National Redwood Park; the draft violates basic human rights; and so it goes ad infinitum. But what about all these things; are they true; do they represent the views of the majority of the students at Humboldt; or is it the purpose of a school paper to represent the views of the majority?

No matter what your views happen to be, this writer is sure many of you will agree that this paper has over the past few months, represented the views of a small minority. For the most part this is because the majority has not felt it worth their time to let know their

feelings. There has been every avenue for doing so, by working on the staff of the Lumberjack (open to any student) or through Forum or the Letters to the editor column.

This writer believes it is paramount that these views be heard. For this reason he asked and received permission for this column, (many thanks to the editor) and it is hoped that those of you who happen to agree, (and some who don't) will take time to write something that can be put in this column. The material will be edited as to length only and will be used as space allows. This writer will certainly be happy to write as long as time permits, but it is hoped that many of you will take time to express your views also. Remember, if you do nothing but complain, you have accomplished little, but if you can convince others, or even cause them to listen, you have done a great deal. This writer doesn't ask you agree with him, only that you consider what he has to say.

### A CORRECTION

In the Lumberjack's editorial of last week we stated that First District Senator Randolph Collier was the initiator of the Learn, Earn, Reimburse Bill (AB 600). Passage of this bill would insure that any student unable to pay his way through college in the State Colleges or Universities would leave college with a degree and at least a \$4,000 debt to the state.

Anyone familiar with Senator Collier's stands on education and his interest in HSC could deduce that this is wrong. The initiator of the bill is Assemblyman John "Bud" Collier, Rep-South Pasadena. The Lumberjack apologizes and regrets the error.

Editor

**Editorial**

# Programs Faulter

ASB President Bob Henry is thoroughly interested in helping students improve and supplement their educations, but he fears he is not getting the support needed to accomplish this goal.

On many occasions, Henry has stated, "The primary purpose of the Associated Students is to provide an invaluable supplement to the education the state is now giving us."

It is on this basis that the ASB now channels a great majority of its funds into subsidizing the curriculum. Thousands of dollars are spent annually to provide students in the fine arts, athletics, journalism, etc., with materials and outlets for expression that the state fails to provide. Additional thousands are spent for educational activities outside the curriculum, such as Spectrum '67, the Tutorial Program, and student government itself.

But in order for these programs to be successful, volunteers are needed—volunteers who are willing to spend time and effort serving on committees, contributing ideas, and formulating plans.

And Henry and Vice-President John Woolley have to go begging for people willing to participate. Nobody seems to have time.

Henry and Woolley have even received permission to allow students to attend and become non-voting participants in the meetings of several committees of the Academic Senate. These are the committees that determine educational plans and policies for HSC.

Recently, Student Council member Pat Crooks worked with the Student Affairs Committee in adopting a revised speakers policy that is more favorable to student and academic freedom. But so far, he's been the only student willing to even attend a committee meeting and see what it's all about.

Interested, willing students are needed to insure the success of ASB programs. The rewards are small. You don't receive a salary. You don't get a grade. All you do get is a better education and the satisfaction that you've helped make Humboldt State a little bit more of a College.

If you're interested in helping out, just drop by Bob Henry's office in the East Wing of Nelson Hall and tell him so.

## College Union Board Installs Members And Discuss Policy

Thursday, December 8 at 4 p.m., the College Union Board met in the President's Conference Room.

The meeting began with the installation of two new Board members. They are Cheryl Bonano and Terry Jackson.

After the installation, Mr. Howard Goodwin, general manager, reported of the Bookstore robbery and the losses of the store.

Under old business ASB President Bob Henry presented a proxy amendment that was accepted by the Board. Since three executive officers are required to be on the Board, this amendment allows them to appoint someone to represent him on the Board for the full school year and take on all responsibilities.

Paul Moore, Activities Advisor, then passed out a description of the job of the CUD (College Union Director). Included in it were qualifications, duties and compensation. There was some discussion and a vote was taken.

Changes in the fee schedules for students was suggested by Howard Goodwin, future CUD.

The amount will remain the same but the payments will be rearranged for the quarter system. The '67-'68 quarter will be \$2, \$2, and \$1; part-time students, \$1, \$1, and 50 cents.

## Heyns to Speak At Commencement

Dr. Roger W. Heyns, Chancellor of the University of California, Berkeley, has accepted an invitation to deliver the 1967 Commencement address at Humboldt State. Chancellor Heyns was brought to Berkeley from the University of Michigan following the year long student disturbance at Berkeley.

## Nation's Outdoor Hysteria Unfounded Says Hagenstein

by Bruce T. Jackson

Recently Mr. W. D. Hagenstein spoke as part of the lecture series sponsored by the Forestry Honor Fraternity. He is currently Executive Vice President of the Industrial Forestry Association and is also President of the Society of American Foresters.

He expressed the view that the country is now in a period of outdoor hysteria when some believe we are running out of outdoors. Lands now held in trust by the government serve many uses. Some people would commit millions of acres to a single use, outdoor recreation. Politicians have capitalized on the attitude, and are now pushing for National Parks.

Mr. Hagenstein commended the Save-the-Redwoods League, the State, and the timber land owners for preserving the finest examples of old-growth redwood. He also questioned the reason for the bitter fight now being waged over a proposed park. He noted that "... in the last 25 years under the tree farm banner America has made more strides in forestry to assure a perpetual timber supply, with all its bonuses of beauty, water, wildlife, and aesthetic and recreational opportunity, than Europe did in the two centuries before 1900.

He urged an objective study of the economic significance of redwood, a study of the existing parks, and a study of recreation in the redwoods. The studies so far have been one-sided and designed to serve a point of view. They have only added to the confusion.

Land is necessary for commodity use and for aesthetic enjoyment. "To balance these is the problem. The question," said Mr. Hagenstein, "finally devolves to one of responsibility for the sustenance of local communities, the sum total of which adds up to the happiness and well-being of our whole nation."

The operations of the forest industry are impossible to hide. They are exposed to public view, and the public's opinion

influences everything the industry does.

Trees are grown so that there will always be some to harvest. Old-growth timber cannot provide an adequate supply. Timber operations are much the same as agriculture, but the crop rotation period is longer.

He suggested zoning lands for timber production, and re-defining our national forestry goals. The Public Land Law Review Commission should produce some positive suggestions soon. "What we do now in forestry determines the adequacy of the timber supply for the next several generations. We need to... make conservation meaningful by balancing the management of all our lands for all the people."

# Is There A Meaning In Life?

by Norman Dunmire

The questions that follow I ask of my neighbor and myself for a renewed, if it be new, honest and necessarily humane relationship with life including not just American man, but world man and our environment. Why only questions: there is no one answer and my commitment is not prescribed, so I am left only with questions.

Why is it this day that man is so insulated to life and takes such great consolation in the shadow of the status quo? Has man become so desensitized that he can look and no longer see and feel? Has his world become so small that it includes only his immediate family and himself in an age when the world is rapidly shrinking business and political wise via communication and transportation?

And in this world of the individual, why is individuality the exception? Has man lost his identity because humanity has been denied and lost? Has the land, the family, religion forsaken man in a sea of anormity and his last hope is to make everyone at least like him while sinking in his sea?

Has education given the educated that tool to view the world objectively such that the relationship between the world and the

educated is not realized? Would the knowledge of death and an account of the anguish of death such that one could capture the essence of death cause such mental anguish as to make it unbearable.

Is man incapable of feeling emotions other than those which he has experienced out of necessity as to prevent the comprehension and to awake only fear of discrimination, war, and hunger? And if it be that he understands and perceives, does he yet remain anonymous?

Where is the fault: the secular city, the lack of quality in equality or as Gardner asks "Can we be equal and excellent too?", has the meaning of life vanished, or is it a combination of the three and many more?

What would it be to find that on your dying days that God did not exist, that when you died you were DEAD and you had not lived because somewhere subconsciously you thought in the next life your chance existed?

What meaning will Christmas have for man this year: a game or an authentic experience? What do you know and see as a unique being? It is last call for those that possess life to live!

## Geography Department Added for '67

The Social Science division will soon add a Geography department.

Those students now majoring in Geography could graduate in the 1966-67 academic year with a degree in Geography.

Humboldt has been slow to add this department as there are at present only 10 persons enrolled as majors or minors. "We have been slow because we had only a course or two offered and we were without professional

geographers," said Dr. Ralph Roske, division chairman.

The division now has two full-time geographers. Mr. Lu, a specialist in Asian economics is a cartographer. Mr. Carlson specializes in the social science aspect of geography, urban growth and history, and is also a cartographer. Dr. Roske hopes to add another man to the department in another year.

## Womens Volleyball Team Beats Chico

The WRA volleyball team beat Chico last weekend in a dual Olympic match between the two schools.

In the first match of the day Humboldt's 'A' team took three straight games to win over Chico State's 'B' team in the three out of five match. Humboldt's second team put up a good fight against the Chico first squad, and managed to win two games to fore Chico overpowered them to win the match.

In the second match Humboldt 'B' tackled Chico 'B' with Humboldt coming out ahead with three straight games. In the final games between the first teams from the two schools the spiking and serving abilities of Humboldt's Bobbie Carraker and Lynn Warner lead the Humboldt first team to three straight wins over Chico.

## 'TIS THE SEASON TO BE JOLLY

I know how busy you are—studying, going to class, helping old grads find their dentures after Homecoming—but, hark, the Yuletide is almost upon us and it's time we turned our thoughts to Christmas shopping.

We'll start with the hardest gift problem of all: what to give the man who has everything. Well sir, here are some things I'll bet he doesn't have: 1) A dentist's chair. 2) A Mach number. 3) A street map of Perth, Australia. 4) Fifty pounds of chicken fat. 5) A pack of Personna Super Stainless Steel Blades.

"What?" you exclaim, your eyebrows leaping in wild incredulity. "The man who has everything doesn't have Personna Super Stainless Steel Blades? What arrant nonsense!" you scoff, making a coarse gesture.

But I insist. The man who has everything doesn't have Personna because everyone in the dorm is always borrowing them. And small wonder! Wouldn't you be there with an empty razor and a supplicating side if you heard somebody had super-blades that were super-sharp and super-durable; that scrape not, neither do they nick; that shave you easily and breezily, quickly and slickly, scratchlessly and matchlessly; that come both in Double-Edge style and Injector style? Of course you would!

So here is our first gift suggestion. If you know a man who shaves with Personna, give him a safe.

Next let us take up the thorny problem of buying gifts when you have no money. Well sir, there are many wonderful gifts which cost hardly anything. A bottle of good clear water, for example, is always welcome. A nice smooth rock makes a charming paperweight. In fact, one Christmas back in my own college days, these are exactly the gifts I gave a beautiful coed named Norma Glebe. I took a rock, a bottle of water, a bit of ribbon, and attached a card with this tender sentiment:

Here's some water  
And here's a rock.  
I love you, daughter,  
Around the clock.

Norma was so moved, she seized the rock, smashed the bottle, and plunged the jagged edge into my sternum.

Here now is a lovely gift for an American History major—a bronze statuette of Millard Fillmore with a clock in the stomach. (Mr. Fillmore, incidentally, was the only American president with a clock in his stomach. James K. Polk had a stem-winder in his head and William Henry Harrison chimed the quarter-hour, but only Mr. Fillmore of all our chief executives had a clock in his stomach. Franklin Pierce had a sweep second hand and Zachary Taylor had 17 jewels and Martin Van Buren ticked but, I repeat, Mr. Fillmore and Mr. Fillmore alone had a clock in his stomach. Moreover, Mr. Fillmore was the first president with power steering. No wonder they called him "Old Hickory!")

But I digress. Returning to Christmas gifts, here's one that's sure to please—a gift certificate from the American Society of Chiropractors. Accompanying each certificate is this fetching little poem:

Merry Christmas, Happy New Year,  
Joyous sacro-iliac!  
May your spine forever shine,  
Blessings on your aching back!  
May your lumbar ne'er grow number,  
May your backbone ne'er dislodge,  
May your caudal never dawdle,  
Joyeux Noel! Heureux massage!

© 1966, Max Shulman

And greetings of the season from the makers of Personna Super Stainless Steel Blades, Double-Edge or Injector, and from Personna's partner in shaving luxury, Burma-Shave, regular or menthol.

# CAGERS POST DOUBLE VICTORY

Humboldt State's basketball team started the ball rolling in the right direction last weekend,

by posting a pair of victories over the Oregon College Wolves, 73-67 and 97-68, on the winners' homecourt.

As was expected the home-crew displayed plenty of fireworks and shannigans in disposing of the Wolves and served notice that they will be very much in the running for the Far Western Conference title race.

Providing the fans with some real basketball razzle dazzle and excitement, the Jacks left the hometown fans with much to remember. They will be on the road for the next four weeks. They will be returning January 7 and 8 to launch their 1967 conference race against Chico State and UC of Davis. Before that the Jacks will trek up to Klamath Falls, Oregon where they will face the Oregon Tech Owls in a two-game set.

After the Christmas weekend, the Lumberjacks will compete in the Chico State Invitational Tournament December 28, 29, and 30.

In launching their 1966-67 campaign last Friday night, the Jacks had to overcome an eight point deficit in the closing minutes to preserve their victory.

Taking and holding an early lead throughout the contest, the Jacks were pretty much in charge of things until they hit a cold spell with less than ten minutes remaining. At this point the Wolves quickly took the opport-

unity to jump into the lead and held a 62-54 margin with time running out.

This set the stage for the home-crew's comeback, as Connie Seymour, Dick Dowling, Ron Peterson and Jim Flint opened up the gates and began hitting at will to pull the Jacks even with the Wolves and then go ahead to stay. As the final buzzer sounded the Jacks had a 73-67 victory tucked away under their belts.

The new faces and the old faces combined in turning in a dazzling exhibition of ball handling, passing, and playmaking. Dick Dowling, the smallest of the new faces led the Jacks in scoring with 19 points, joined by teammates Peterson with 13, Seymour 11, Flint 12, Evans 9, Carpenter 5, and Dangberg 5.

The Jack's Saturday night encore provided even more fireworks than the night before, as the Jacks exploded for 30 points in the final ten minutes of the game to handily dispose of the Wolves for the second night running.

Humboldt jumped into a 4-0 lead and saw the lead see-saw back and forth, before they were able to settle down and put their fast break attack to work. Halfway into the first half the Jacks finally took the lead at 14-12 and started building momentum. From this point the Jacks tanked a quick ten points before the visitors were able to find the range, and built up a 44

-27 halftime advantage.

The start of the second half found the Jacks not letting up, as they poured through 23 points the first ten minutes and then with coach Nicia systematically calling on his well-balanced attack, poured through an additional 30 points the final ten minutes to fall only a scant three points from the 100 point marker.

Eleven members figured in the scoring, with Dick Dowling again topping the Jack scorers with 18 points. He was joined by three others in hitting the double figures.

Connie Seymour playing a fine game both defensively as well as offensively tallied 16, Fred Griffith tallied 15 and Frank Evans hit for 12. Griffith who came off the bench to spell Ron Peterson who had three quick fouls called against him, played an outstanding game as he picked off 16 rebounds to lead in that department as well as contributing 15 points.

## Junior Jacks Drop Pair To Shasta College

Humboldt State's Junior Jack basketball team dropped a pair to the Shasta College Knights last weekend in Redding. Losing the opener 73-56 and the second game 78-56.

The first game saw Shasta jump off to an early lead and maintain it the entire game, as the Jacks were unable to catch up. Holding a 37-17 lead at half-time, Shasta kept the Jacks with their backs to the wall the remainder of the game.

Max Parsons tallied 16 points to take high point honors for the Junior Jacks and was followed by Dale Gretchen's 10 points.

The second game was almost a repeat of Friday night's contest, as the Jacks were unable to connect from the floor and Shasta jumped into an early lead. Plagued by fouls throughout the entire contest, Humboldt again was unable to play catch-up ball.

The Knights cashed in with 32 out of 45 free throw attempts, as the Jacks were charged with 32 fouls and had four men foul out in the second half.

Max Parsons again led the Humboldt scorers with a total of 13 points while teammate John Mallon added 11.
