Campus Expanded With New Jolly Giant Canyon Dorms

The Humboldt State College master plan is designed to accommodate 6,000 students by the late 1970's. In maintaining this plan, we can see parts of a \$10 million building program expanding on our campus. The new residence and dining complex now under this program, is the backbone of the new look designed for HSC to meet the needs of an all-time high enrollment of over 4,200 students.

The Jolly Giant Complex is the name of our new campus living center now located in the area known as Jolly Giant Canyon. As you walk down the steps behind Sunset Hall or drive down Sunset Ave., you can't miss the eight new halls and the large Commons area. This new complex is quite a step toward what the modern colleges of California can offer a student. It is designed to provide an atmosphere of home, and the privileges and advantages found here have been designed to improve study condition, social, cultural, and recreational activities for each individual student depending upon his need.

This area is about six to seven weeks behind schedule due to problems with the construction. But as far as the living area is concerned, the interior is 98% completed and filled with Freshmen, Sophomores, Juniors, Seniors and even Graduate students. Even with the increase of housing on campus to accommodate 907 students, there is still a long waiting list of students to move into on-campus housing. Alder, Cedar, Chinquapin (women's dormitories), Hemlock, Madrone, Maple, Pepperwood and Tan Oak Hall (men's dormitories), were named after trees in this area, each dorm housing from 49-62 students. Rates for this complex are: singles, \$1152.00; doubles, \$1056.00; suites, \$1101.00 for a 9-month period. In each hall there is one Resident Advisor, and two proctors will serve as Staff Supervisors to the new living complex.

There is a change in the key privileges and visitation policy for all halls this year. The key privilege is now granted to all Sophomore thru Graduate women and all women over 21 years of age when a permit card from their parents is on file. The visitation policy which is set up will be voted on during the first week of each quarter by each Hall to determine if it will go into effect. The hours are set up by the College and are Sundays from 1:00 to 5:00. This program allows invited guests of the opposite sex in the individual rooms. To participate in the Visitation Program, a registration card must be filled with the hall or floor officer on duty and must be signed by the applicant's roommate. The officer must be notified upon the arrival and the departure of the guest. Violations

of this policy will be handled by the Judicial Board.

To get an inside look at what is offered to the students living in the new complex, we enlisted the help of Diane Curtis, R. A. for Cedar Hall. As you enter the Hall, there is a foyer with a phone which is used to call up to any room in the Hall. Each Hall has a lounge area for entertaining guests, while two large public lounges will be located in the Commons. Color T.V. will be provided in the lounges of the new halls. The color coordination of each floor in the Hall varies. You can find bright orange, blue, purple and green color schemes. Single rooms, double rooms, and suites are arranged and patterned to provide a congenial environment. The rooms are smaller than the rooms of Sunset and Redwood Halls, but in each room there is a studio bed, matching walnut Carrel desk, and a large closet with drawers and shelf space. A long mirror is attached to the back of each entrance door which also has an automatic lock. There is no intercom system within the new complex, but each room has a phone. Long distance calls as well as local calls can be made from each room. (Long distance calls are billed by the Telephone Company to the caller). Carpeting for the rooms and matching bedspreads will be provided for the student at a later date. On each floor there is a large linen closet and storage area. The suites are composed of two small bedrooms containing bunk beds, a desk and two closets, and are connected to a living area. Two desks, floor lamps, a sofa, a chair, and a balcony with sliding glass windows helps to make this area great for studying, entertaining or just relaxing. Heat throughout the complex is regulated by thermostatic control. In the basement, there is an activity, storage and laundry room for the students.

As you look at the Jolly Giant Commons, it is hard to really visualize what will be available to the students. The lower level will contain basketball and volleyball courts. There is talk of a playing field for football and baseball to be located near this area. Main offices, conference rooms, and lounge areas will be housed in the second level. The student mail boxes are also located in this area. On the top floor, the new cafeteria will serve only those holding meal tickets. On either side of the Commons, parking will be available to resident students only.

Enrollment Tops All Expectations

Total registration figures at HSC for the fall quarter may top 4500 according to registrar, John Fry. Mr. Fry indicated that as of Friday at 5 P.M., 4426 students had completed the registration procedure. Even more remarkable was the fact that the full time equivalents (the important figure which affects all state budgets) was approximately 600 higher than previous estimates.

John Fry indicated that first-week course drops could reduce this FTE figure to around 4000, but this still would be well above the 3725 figure predicted.

New HSC Faculty

Seventy-two teaching and administrative faculty who will assume new posts at Humboldt State College this fall quarter were welcomed this week by President Cornelius H. Siemens at a meeting of the General Faculty.

The group constitutes the largest number of new faculty to join the College for a fall opening. Most are coming to HSC for the first time, although several are previously employed personnel reassigned to new duties.

The new faculty were hired after a nationwide recruiting effort extending over the past eight months, President Siemens stated.

"In the face of increased recruiting difficulties, such as fewer qualified candidates and limited recruiting funds, we are confident that the quality of the faculty, relative to all other colleges, remains favorable," he added.

Blood Program

The Blood Bank Program for HSC students, faculty and staff and their immediate families is again in operation.

The program, under the sponsorship of the Northern California Community Blood Bank, provides a great service to the college family, as well as being a worthwhile community project. Anyone eligible under this program is entitled to blood when needed free of charge. He need only identify himself as being under the HSC Blood Bank Program, and the usual cost of \$30 per transfusion is not charged; however, a "service fee", required by all hospitals, is charged. (In Humboldt County, this is \$5.00).

The Northern California Community Blood Bank will be on campus from 1:00 to 5:00 p.m. the 2nd Thursday of the month to receive blood donations.

The campus Health Center will provide space for the program.

Students under 18 years of age are not eligible to give donations, and students under 21 years of age no longer required parental consent to give donations.

Appointments may be made at the Health Center prior to the date of the donation.

Sponsoring groups are now needed for the program to line up volunteer donors for the following dates:

October 10
November 14
December 12
January 9
February 13
March 13
April 10
May 8

If any club, organization or office staff is willing to sponsor one monthly program of donations, please see Stan Mottaz, Activities Advisor, in Rm. No. 2 in the CAC. This means the sponsoring group will be responsible for at least 12-15 donors for the specific month chosen.

Welcome Associated Students

By Harold E. Hartman, A.S.B. President

Your Associated Student Body President and Administration would like to take this opportunity to welcome all returning students back to our campus and extend a warm hand to all the new students, both freshman and transfers. It is hoped that your summer was an enjoyable and prosperous one, and that you are looking forward to a challenging and beneficial year here at Humboldt.

The summer has been good to our campus and expansion is ever present all around us. The new dorm and cafeteria complex is nearing completion down in Jolly Giant and the new Music and Art Buildings are taking form in the center of campus. Both areas will add measurably to the facilities available to our students this coming year. This administration looks forward to additional expansion, with planning already under way for new Biological Sciences, Natural Resources, and the College Union Buildings. Ground breaking for these and other facilities should come in the near future with expected completion during our new freshman class' stay here.

Your president sees the school year 1968-69 as a year for expansion in other fields as well. One of the main fields of emphasis this year, for the administration, will be that of student-faculty interaction and involvement. In the past few years students on our campus have become more involved on joint Student-Faculty committees. This will continue to be a field of ever-increasing responsibility for the students and a show on the part of our College Administration, of the trust in the integrity of our students to intelligently take part in the policy and decision making that is so vitally linked to our education. Student representation on the Academic Senate; the newly added seat for a student on the Humboldt State College Foundation (responsible for the establishment and implementation of all policy regarding research, special educational programs, grants, etc.); student membership on the committee of Intercollegiate Athletics; and structure of the newly formed Fairness board consisting of 3 student body representatives, are only a few of the many fields opening up for student involvement. Other possibilities are being researched now and the coming year should produce much progress in student involvement in the creation of college policies.

Another field of utmost importance takes us to our surrounding community. Community-campus relationships must always be high in the priorities of any student body administrative program. This is a two way street; we must go out to the community and relate to them that we desire a working relationship with them, that we want to work with them in the betterment of our campus while providing the citizens an institution of higher learning they can be proud to say is in their town. Therefore, we must prove that we deserve their support and expect to give of ourselves as well as receive from them. The local businessmen have made a tremendous step toward this goal just last week. Humboldt State celebrated the registration of the 4000th student just last Friday. The lucky one was given much response from the businessmen as they recognized the hilltop campus as a beneficial and important asset to their community. We must now try to continue to make steps to bring our campus closer to the people of the community.

Reaching further out from our campus, the administration will continue to perpetuate the link with state wide college policies by membership in the CSCSPA. This is the California State College Student Presidents Association, of which there are 16 active members. This is the organization through which a consolidated effort can be made to recommend and make suggestions regarding State College Policy. This field is felt to be very important and will be pursued as long, and to the extent that, any part of these policies relates to Humboldt State.

The administration hopes that this look at its program will show you the direction in which we plan to proceed in the coming year. In the weeks and months to come, we will present more finite plans in the above mentioned areas. If any of these fields present particular interest to any members of the association, you are encouraged to become involved. The Association's offices are in the east wing of the CAC.

Again, your student government welcomes you back and hopes that the year will be a fulfilling and beneficial one.

ACTIVITIES

FRIDAY

- Dance---Delta Zeta
- Movie---Inter-Residence Hall Council

SATURDAY

- Football Game---HSC/Oregon Tech
- Dance F

- Dance---Forestry Club

SUNDAY

- President's Reception

GLENN YARBROUGH

EDITORIAL POLICY

Welcome to Humboldt State! The editors and staff of the "NEW" Lumberjack extend their greetings. The following is the editorial policy of the campus newspaper and is offered for your information.

Beginning this year the Lumberjack will be an Associated Student Body activity. The staff will consist of the following: Advisor, Editor-in-chief, Business Manager, News Editor, Feature Editor, Sports Editor, and Photo Editor. Each editor, in covering his area of responsibility, will select his own reporters. In addition, any interested individual club, or organization may submit material for publication.

This year the Lumberjack will be a campus publication emphasizing campus activities. Because Humboldt State is the leading social and cultural center of this community, it is felt that the cultural and social

activities of the college deserve better newspaper coverage. With the opening of the new dormitories this year, more students will be living on campus. This means, more than ever before, students will be involved in campus activities. Therefore, the Lumberjack will be concerned with giving students and faculty a vital source of information in planning their participation in campus activities.

Humboldt's expanding sports program has brought national recognition to this campus! The Lumberjack will give complete coverage to ALL the athletic events and will spotlight outstanding athletes.

Conservation Unlimited and Forestry Club show promise of remaining powerful, and the Greek (fraternity and sorority) System is growing rapidly and becoming more firmly established on our campus. In addition, many other organizations are becoming a part of campus life. Again, by giving coverage to student groups, the Lumberjack will evoke student and faculty participation.

Reporters for the Lumberjack will be volunteers chosen by the Editor-in-chief or one of the three department editors. The reporters will neither be required nor expected to make a full time job of their work. They will be able to choose their assignments (with the approval of the editor) and work only when they have the time available. The many organizations, clubs, and interest groups will be asked to submit material for publication in addition to activities covered by staff reporters.

The Lumberjack IS an activity of the Associated Student Body and will serve the entire campus without bias. The only requirement which must be met is to insure that ALL material published must pertain to this campus—its students, faculty or activities.

LETTERS to the EDITOR

FROSH CAMP COUNSELORS!

You did a great job and I sincerely appreciate the contributions that each of you made which were unquestionably greater than you realized.

You took the time and effort to present a program for the Class of 1972 which you were not as fortunate to experience when you were a freshman. The discussion groups, bean feed, mock registration, dance club, fair, registration assistance, and the many other little assists were welcomed by all.

Too frequently, people talk about the "ingrate students" we have today in our colleges, but you demonstrated in a quiet manner a personal concerned interest in the freshmen. This can only be summed as overwhelmingly beautiful.

The freshman class and I again wish to say, "Thanks! Without your help, we don't know what we would have done."

JOHN U. FRY,
REGISTRAR

The chaos at registration last Friday will be one of the exciting subjects to be discussed at the Students For A Democratic Society meeting on Thursday evening at the C.A.C.

S.D.S. leaders will also explore action to lift the restrictions imposed on female students covered by on-campus housing regulations, the establishment of an underground newspaper, and the formation of a student controlled theater group (like the Mime Troupe).

S.D.S. organizers as well as many underclassmen and A.F.T. faculty members were infuriated by the physical and mental pain that students were subjected to on Friday during registration.

Many classes were closed out early Friday and many students were en-

Lumberjack

MOVIE SCHEDULE

The College Union Program Board has released the ASB sponsored movie schedule for the fall quarter. Beginning with "The Mouse That Roared", starring Peter Sellers and Jean Seberg, the movies will run on a regular weekly schedule. The movies are to be held in Sequoia Theater at a charge of twenty-five cents and will start at 7:30 p.m. on the night indicated in the schedule below.

Tuesday, October 1.....THE MOUSE THAT ROARED (Sellers, Seberg)

Tuesday, October 22.....THE PAWN BROKER (Steiger)

Tuesday, October 29.....LOLITA (Mason, Lyon, Winters, Sellers)

Tuesday, November 5.....THE MAGNIFICENT SEVEN (Seven Samurai)

Tuesday, November 19.....ON THE WATERFRONT (Brando, Cobb, Saint)

Tuesday, December 10.....LILIES OF THE FIELDS (Poitier)

rolling in classes only for the purpose of carrying enough credits to maintain their 2-s draft status and others were enrolling in courses in order to be eligible for student loans.

The administration tried to save face by adding many class sections at the last minute by giving many already overloaded faculty members additional classes. In the final analysis the students and the faculty will pay for the mistakes of the college administration.

The fiasco at registration is indicative of the need for greater student involvement in those processes that affect their lives. S.D.S. is an organization that wants to substitute Participatory Democracy (Student Power) for the present bureaucratic centralism that runs not only this country but this college. Please don't attend this meeting if you acquiesce to bureaucratic centralism of this college.

Ken Byrne

The Student Conduct Program

By Chad Roberts

Several of our nation's finest institutions of higher education are currently being torn by student unrest; in addition, similar tremors can be felt in the fabric of numerous other college social orders across the country. While exact causes are hard to pinpoint, desire on the part of students either to know their role in the campus scene, or to somehow change that role (usually by attempting to change the institution).

I am sure this desire exists at Humboldt State—in greater or lesser degree. A document will be distributed along with this newspaper next week (October 2) which should go far in answering questions which may arise. This document is the Student Conduct Program for Humboldt State College. It represents over two years of effort on the part of students, faculty, and administration on our campus, and was established in June as college policy. Before acceptance by President Siemens, this collection of documents was heard, reviewed, revised and accepted by both Student Legislative Council and the faculty Academic Senate.

The Student Conduct Program is not intended to be restrictive for student activities. On the contrary, it clearly defines the role of the student, listing both rights and responsibilities for students and establishing structures for handling problems that may arise. The program was not originally proposed or accepted as a block of words, and I can remember seeing, as separate actions, several of the proposals before they were adopted.

The program may or may not be unique among the State Colleges. Whatever its status, I think we at Humboldt should take a serious look at this document. We have in it what many of the discontented students around the country have been seeking.

Kenneth Byrne
S. D. S.

Dear Editor:

The recent U.C. Board of Regents decision to limit outside lecturers to one appearance is a gross infringement on academic freedom at U.C. The Board's reaction was intended to prevent Eldridge Cleaver the Peace and Freedom Party's presidential candidate and Minister of Education of the Black Panther Party from being the featured lecturer in an experimental course at Berkeley.

Such political interference will probably stimulate protest rather than stifle protest. It is incredible that establishment bureaucrats are bent upon being so anti-democratic that they will create 2, 3, many Chicago's.

The student activists are duty bound to struggle against such decisions and processes that ignore student needs and by-pass democratic student participation in those affairs that determine the quality and direction of their lives.

HSC's 4000th student, Miss Terry Tilbury, receives a letter of congratulations from Mr. Fred Baker of the Arcata Chamber of Commerce. Numerous gift certificates from Arcata merchants accompanied the letter.

Student Honored

Seventeen year old Terry Tilbury made history at Humboldt State late last Friday afternoon when she became the 4000th student to register this fall.

A representative from the Arcata Chamber of Commerce presented Miss Tilbury with numerous gift certificates from the Arcata merchants. HSC registrar, John Fry, also presented Terry with a \$10 gift certificate from the College Union Bookstore.

Terry is a freshman from Los Angeles, and is planning to major in Business Administration.

When asked why she chose Humboldt, Terry answered that it was a relatively small school and as such, would offer a chance for a more personal student-teacher discourse. Then she added, "It's as far away from home as I could get; and it's out of the smog!"

With the conclusion of regular registration on Friday, the fall registration had reached 4,426 students. With late registration continuing the expected enrollment may reach 4,500, more than 250 previously anticipated.

Health Center

The Student Health Service will be seeing patients by appointment only starting this fall quarter. The hours will be between 8:30 A.M. to 11:30 A.M. and from 1:30 P.M. to 4:30 P.M.

In case of emergency or for an appointment please call: 826-3146.

Evening Classes Offered

Humboldt State College's extension course offerings will begin this fall on Monday, September 23, with evening courses in geography and advertising, according to Dr. William F. Murison, Dean for Public Services.

A four-unit course, Geography of Southeast Asia, will probe the physical and human geography of Burma, Thailand, North and South Vietnam and the Philippines, and other nations, dealing with population pressures, urbanization, development of resources

and international relations.

The instructor will be Alvar Carlson, assistant professor of geography. Class meetings will be held each Monday from 7 p.m. until 10 p.m. through December 9 in Room 130 of Founders Hall. The fee is \$44 per person.

Jack Young of the advertising firm of "Young Ideas" in Eureka will instruct the advertising course in advertising copy and layout each Monday from 7:30 p.m. until 10 p.m., through December 2, in the Eureka branch of Crocker Citizens Bank at 605 G Street.

The course will define advertising and explain its function, drawing on guest speakers from printing and retailing occupations. Newspaper, radio, television and outdoor advertising will be explored with supervised practice during class meetings. Fee for the three unit course is \$33 per person.

Participants need not be enrolled students at Humboldt State College to take these courses. Registration will be conducted at the first class meeting.

Extension Classes

Members of the engineering profession, as well as students pursuing degrees in engineering, may be interested in two evening courses, one in computer applications and one in water resources engineering, to be offered during the fall quarter at Humboldt State College.

The computer applications course, Engineering 102, will deal with the application of digital computers to selected engineering problems. Instructor for the course will be Loren Anderson, assistant professor of engineering, a new member of the HSC faculty this fall. Prerequisites are a course in computer programming or consent of the instructor. Class meetings will be held Tuesdays and Thursdays from 7 p.m. until 10:30 p.m.

Engineering 150A, Water Resources Engineering, will include an introduction to hydrology, probability approach in design, reservoirs, dams, hydraulic structures and economy in water resources development. Instructor for the course will be Prabhakar M. Jog, assistant professor of civil engineering. A prerequisite for the course in Engineering 113A, Fluid Mechanics. Class meetings will be held Monday and Wednesdays from 7 p.m. until 8:15 p.m.

Both courses are worth three units of credit and will be held in Room 208 of the Engineering Building. They are part of the regular curriculum and not extension offerings.

Registration for these and other evening courses will be held Monday, September 23 from 4:30 p.m. until 7 p.m. in Room 128 of the Administration Building.

Playtex invents the first-day tampon™

(We took the inside out to show you how different it is.)

Outside: it's softer and silky (not cardboardy). Inside: it's so extra absorbent... it even protects on your first day. Your worst day!

In every lab test against the old cardboardy kind... the Playtex tampon was always more absorbent. Actually 45% more absorbent on the average than the leading regular tampon.

Because it's different. Actually adjusts to you. It flowers out. Fluffs out. Designed to protect every inside inch of you. So the chance of a mishap is almost zero!

Try it fast.

Why live in the past?

ATTENTION... CLASS OF '72

MEETINGS

Y.E.S. Program

Youth Education Services is the bud of a new program. We need the strength and interest of the Student Body to make it grow and function. This program offers you the opportunity to work with community organizations and people, to test your patience and skill and to reward yourself with honest effort. Tutorial seminars, counseling and friendship is what we offer the community. If you feel that four hours of work a week can help you, we know it can help others. We need tutors, administrators and coordinators. If you are interested to find out more, come to the General Orientation on Saturday, September 28, at 12 Noon, in Founders Hall. What we can offer has broad limits, what we do depends on your interest.

Meditation Society Meet

Recently a chapter of the Student's International Meditation Society was started at Humboldt State College. The purpose of this society is to follow the transcendental meditation teachings of Maharishi Mahesh Yogi. In the near future they will be starting a series of lectures which will be open to students and non-students alike. The time and location of these free introductory lectures will be announced at the end of this month.

Marching Jacks Holding Tryouts

The MARCHING LUMBERJACKS is open to any male musician at HSC who has had previous music and field experience. Rehearsals are Wednesdays, Thursdays and Fridays from 4:00 to 5:30 p.m. and will take place in the Child Development Lab, directly behind the Ed-Psych. Building. The band urges you to come and talk to the band staff if you have any kind of class conflict and would still like to play in the band. The first rehearsal will be today, September 25, at 4:00 pm in the Child Development Lab. This will be an orientation and uniform meeting.

Boycott Rally On Campus

Members of the Peace and Freedom Party will hold a noon-time rally this Friday in support of the National Grape Boycott organized by striking Delano vineyard workers. Speakers at the rally will include Tim Williamson, who worked this past summer with migrants in Sacramento, Larry Williams, who has organized farm workers in Stockton, and Walter Sheasby, PFP State Senatorial candidate.

The rally will take place at the Cafeteria Stump at 12 o'clock. At 4 p.m. the boycott supporters will meet at the C.A.C. to assemble for a march to the Safeway Market on G Street in Arcata.

Panhellenic

The Humboldt State College Panhellenic Council is now in full swing with Formal Rush running from September 20 til the end of this month. Panhellenic, meaning "all-Greek", is the coordinating body of all sorority women. It is a policy-making organization composed of members of both sororities on this campus. Panhellenic works to maintain College and chapter standards, coordinates many sorority activities, assists individual chapters with specific problems, and organizes and supervises rushing.

The first Rush Party set up by Panhellenic was held Friday, September 20 in the College Cafeteria. It was an Orientation Meeting to inform incoming Freshmen and other interested students about sororities on campus. Saturday, Delta Zeta Sorority and Phi Mu Fraternity both held "Open House". A Fashion Show sponsored by both chapters was the last Panhellenic Rush Party. All following parties are by invitation only.

Each sorority has four members seated on our local Panhellenic Council. Linda Bjerk, Phi Mu's Panhellenic Delegate is serving as President of the Council. Mary Lea Evans, Delta Zeta's Delegate is the Secretary. Other members are as follows: Cathy Phillips, Phi Mu Alternate Delegate; Carol Franklin, Delta Zeta Alternate Delegate; Rosalind Jackson, Phi Mu Membership Director; Nancy Voeppel, Delta Zeta Membership Director; Candee Fetsch, Phi Mu President; and Marilyn Pica, Delta Zeta President. Mrs. Joan Pierson is the Panhellenic Advisor.

Attention Freshmen

By Gary Montgomery

Freshmen! As you are no doubt well aware, the election of class officers is the 1st and 2nd of October, but more important it is also the time when you will elect your representative to the Student Legislative Council.

The Student Legislative Council is the principal student governing body at Humboldt State College. It is the Student Legislative Council which decides what is to be done with your money. It is the Student Legislative Council which determines, to a great extent, the policy and other important legislative functions which affect you, the freshman class, directly.

At the nomination's assembly of the freshman class, you were told by one of the speakers that you were a somewhat serious class for a freshman class. It was that speaker's observation, that you should let loose and act like freshmen; he justified this remark by indicating that you would

only be freshmen once so enjoy it.

I agree that you should enjoy your being a college freshman, but I must take issue with the implication that this is an immature state. Granted, college and college life are new and for the most part exciting to you, but this hardly presupposes that you are unable to cope with your present environment in a mature manner. After all, as a college freshman, you are adults in every sense of the word and as such you have the right to expect that your voice in student affairs be respected rather than tolerated.

The responsibility of good student government rests with you, the student. Your government will only be as good as you make it with your active participation and responsible contribution.

As the freshman class, you are the only entity within the organization of the Student Association which is represented as a class. With proper representation you can become a very powerful voice in student affairs. The other representatives to the Student Legislative Council are, what are referred to as representatives at large. That is, they are elected by a general vote of the entire Student Association and therefore represent the Student Association as a whole rather than a constituency as is the case with the freshman representative.

It is up to you to take an active interest in your government. Remember those officials who you elect will represent you. Do not let someone else make your decisions for you. Vote your own mind October 1st and 2nd.

Frosh Elections

On Wednesday, September 18, during the first Freshman class meeting the nomination of officers was held for the elections to be held on October 1 and 2. Also on the ballot will be a proposition for the adoption of classcards.

For the class elections which will be held from 10 a.m. until 2 p.m., two polling stations will be open; one in the CAC and one in the cafeteria. All candidates must win their respective offices by a majority vote. Since there are many candidates for all offices a run-off has been scheduled for Friday, October 4.

On September 29 from 7:30 p.m. until 9:00 p.m. in Sequoia Theatre there will be a "meet the Candidate" session. At this time the candidates will give short campaign speeches and answer questions from the floor.

During the September 18 meeting the speakers for the evening Dr. Simmons, Dean of Activities; Mr. Rich Winnie, ASB Vice-President; Mr. Terry Shores, Advisor; all spoke on the role the Freshman class could play in all Student Body Activities. Also announced was the next class meeting to be held on October 8.

Those running for office are as follows: President, Ted Kay, Dean Palus, Don Pauli, Jim Powers; Vice-President, Annette Bourget, Pat Brown, Terry Torgerson, Bob Wheeler; Secretary, Anne Bryan, Amy Gritts, Myrla Hennrichsen; Treasurer, Chuck Duffy, Patty King; Rep-at-Large, Ben Cintz, Pat Gregg, Donna Hefner, Leah Johnston, David Miles, Gary Montgomery, Micheal Lee Tager. Mr. Albright serves as the Faculty Advisor to the Freshman Class.

Frosh Complete 'Camp' Activities

Over 500 Freshmen spent September 17 and 18 enjoying Frosh Camp as a part of Orientation Week. Following registration on Tuesday, the freshmen were given a tour of the campus by their counselors. From here the Frosh Camp groups boarded buses and spent the rest of the day at Patrick's Point enjoying recreation and discussion groups. The discussion involved ASB government, clubs, organizations, and campus traditions. Following this and a bean feed, everyone bussed back to campus for a rally and dance.

On Wednesday the groups once again assembled for discussions on campus regulations. Part of the morning was spent learning about the various majors on campus. The afternoon was concerned with mock registration. Frosh Camp came to a close with a buffet dinner in the cafeteria on Wednesday evening for all frosh campers and counselors. The speaker for the evening was Dr. Donald Karshner speaking on "My Favorite Profs."

Rich Winnie served as director of Frosh Camp while Mr. John Fry and Mr. Laverne Clawsen served as advisors.

Humboldt Log Ready Soon

The campus student directory, the HUMBOLDT LOG, is in its second year. Sponsored by Alpha Phi Omega the directory contains the addresses and phone numbers of all students and faculty. The cost of the directory is only 25c. If you do not have a copy, they will be available in the College Bookstore in three weeks.

KHSC - FM

KHSC-FM, the campus radio station, will resume broadcasting on September 30.

To assist in relieving the housing shortage, the KHSC switchboard will accept housing information during September 30 thru October 4 from 4 to 5 p.m. The information will then be relayed to the public between 7:15 and 7:30 immediately following the news. The phone number is 826-3560.

KHSC intends to compliment other local stations this year rather than

duplicate them. The schedule, which is subject to change, is as follows:

6 p.m. - Dinner Music
7:00 - News
7:15 - World in Song
7:30 - Folk Music
8:00 - Sequoia Concert (M,W,F)
- Jazz (T,Th)

Those interested in any area of broadcasting are urged to contact Barry Winters, James Hilbrink or Dave Phillips.

A New Lumberjack

Ken Lybeck—Sports Editor

Ron Harding—Editor-in-Chief

Linda Bjerke—Feature Editor

The Lumberjack has a new staff this year that will have the responsibility of giving Humboldt State College a paper of which this student body can be proud. Those selected will have the task of editing and shaping the paper in order to present to the students a product worthy of bearing the name Lumberjack.

Editor-in-Chief for the new paper will be Ron Harding, a twenty-four year old political science major. Ron was born in Colorado but moved to Eureka at an early age. He is married, and spent three years in the Army's 101st Airborne as a legal specialist. Ron was on the interim student government last year and is a member of the Inter-Fraternity Council, serving as a representative of Sigma Pi colony of which he was last year's President and this year's social chairman.

As News Editor, junior Dave Bennett will handle all news items pertaining to the college and its students. Dave is also married, is a speech major and carries a double minor of psychology and political science. Originally from Klamath, Dave now calls Arcata home. Dave is a member of Tau Kappa Epsilon, the Debate Squad, and is a Representative-at-Large in the college student government hierarchy. Not having been in the service yet, Dave is hoping "Uncle" will hold off indefinitely while he enters and performs in the field of teaching.

Twenty-one year old senior Linda Bjerke will hold down the job of Feature Editor for the new paper. Linda is a political science major from Weott, California, who is planning to become a legal secretary. She is, or has been, the interim government secretary, the Secretary-Treasurer, Vice-President, and President of her junior class, president of Phi Mu, president of Panhellenic, a member of Spurs, involved in Homecoming and Dad's Day affairs. She has been busy and will continue to be so as the new Lumberjack Feature Editor.

The Sports Editor and one of the best photographers on the staff is Ken Lybeck, twenty-one year old senior business administration major from Tulare, California. Like Dave Bennett, Ken also carries a double minor, his being history and economics. Ken has been president of his class, a Representative-at-Large, treasurer of the College Union Board, a track captain, four-year track letterman, on the cross-country team for three years, and also president of the Lucky Logger Society. When he graduates this year, Ken hopes to obtain a position in industrial management and eventually to go into public relations work.

Business Manager for the Lumberjack is Patrick Crooks, senior business major. Pat was born twenty-three years ago in Vancouver, British Columbia, and has been here five years. He is single, president of Tau Kappa Epsilon and a past treasurer of the same organization. Pat is involved with property management (he runs two apartment buildings), was chairman of the Associated Student Body Board of Control last year, was a Representative-at-Large, and served in the ASB president's cabinet as well as being on various committees at the college. Pat plans to complete his formal education this year and start an advertising career.

Sam Allred is the man who will guide the various editors in their efforts to put a good newspaper together. Mr. Allred is a graduate, carrying a communications degree, is married and has a great deal of experience helpful to him in his capacity as advisor to the paper. He is a former reporter at U. C. L. A. for the Greek Fraternal Organizations and his own Alpha Tau Omega. He was a feature writer at Arizona State University for campus dormitories. Mr. Allred has also been a reporter for the Olympic Committee of Orange County and the surrounding area.

The new editors of the Lumberjack will be in charge of and helped by an experienced staff of writers who will report the news happenings on, around, and pertaining to the campus. In all, the new Lumberjack should have something to offer every person on campus.

Dave Bennett—News Editor

Brent Howatt attempts a goal in last Saturday's water polo scrimmage at the HSC pool.

Water Polo Season Begins

Coach Jim Malone welcomed water polo enthusiasts to the second annual intersquad scrimmage Saturday night at 7:00 p.m. in the HSC pool. The students attending were treated to six quarters of powerful offense and rugged defense that saw the teams roll up a total of 29 points. Most of the scoring was done by the twelve returning lettermen that will compose Humboldt's varsity water polo team this season.

All the action in water polo

centers around a volleyball-sized yellow ball that is covered with a light abrasive hide, making it easier to grip in the water. Two seven man teams aligned in a pool 25 yards long try to score points by tossing the ball into a net goal. The game has often been described as "soccer in the water". Like soccer, the action never stops in water polo. Players constantly try to maneuver themselves into position for a shot at the goal while the members of the other team guard each man

individually. The ball is "dribbled" into position when one poloist swims with the ball in front of him, pushing it with his arms and head, or is passed through the air back and forth among team members like a football. The goal is scored when the ball is thrown past the defending goalie into the net goal at the end of the pool.

The scrimmage began with seven of the eleven varsity returnees pitted against seven of the sixteen new poloists trying to earn a starting position for league play. The eleven lettermen included All-Conference stars Marshall Kane, Eric Oyster and Ken Cissna along with regulars Mike Morey, Brent Howatt, Dale Ledvard, Ted Deacon, George Sirovy, Dave Nelson, Mark Muller, Bob Gumpert and Dallas Davis. Two other regulars, Jon Fint and John Whelan, were sidelined with illness. Donning blue caps, the varsity crew showed their experience quickly by setting up Marshall Kane three times and each time he responded by scoring a goal. As the second quarter began the freshmen and junior college transfer students that made up the white team began to stiffen their defense, holding the varsity to five goals while blocking another dozen attempts. Mike Morey intercepted a white pass and raced from mid-pool to score a goal while George Sirovy scored two more to end the quarter. The white team could produce no offense at all in the third quarter, but the varsity exploded for seven goals, two each by Brent Howatt and Mark Muller. Starting the fourth quarter, Coach Malone sent lettermen Eric Oyster and Brent Howatt to the white team. Howatt responded immediately with a goal but it was quickly matched by Marshall Kane's sixth score, with an assist from Dave Nelson. Both teams showed aggressive spirit throughout the quarter with numerous steals and interceptions. The score ended at 20-1 with the varsity victorious.

After a quick fifth quarter Malone mixed all his lettermen into two teams and sent them into the water. The result was a fast paced, exciting exhibition that ended in a tie as Eric Oyster scored a goal in the last five seconds of play. The coach was pleased with the scrimmage and said that the team looks good. "We have a lot more strength on the bench this year and have eight or nine freshmen and some J.C. transfers that can give us some help," Malone commented. He also said that last year's powers, Chico and Davis, as well as all the other schools in the conference have improved and will be stronger this year.

Humboldt's first league match will be on October 5th at Chico. The first home game will be this Saturday noon against Southern Oregon.

Cross Country - Water Polo Outlook

For the first time in Lumberjack history, HSC's cross-country team has a better than outside chance at winning the Far Western Conference crown. In order to do so, however, they must beat much improved Sac State and U. C. Davis; the two teams that defeated the 'Jacks in last year's conference meet.

Coach Jim Hunt feels that this year's team, led by track All-Americans Gary Tuttle and Vince Engel just might have what it takes.

One of the finest runners to come along since Tuttle made the scene at Humboldt is German-born California-educated freshman, Alex Zvgaczko, a 4:25 high school miler. Alex comes

from a track family too, his father competed on the Russian National Track Team. Howard Lambrie was singled out as another top frosh prospect with a good chance of breaking into the top varsity five. Better team balance has been added by junior college transfers Pete X. Pendrosa, Mark Byers, and Bill O'Brien. All of these men are in addition to returning lettermen John Scott (back from a one year layoff), Mike Phillips, Gary Miller, John Noonan, Dave Parke, and John Zinselmair, among others.

WATER POLO

Coach Jim Malone thinks he has the material for a conference champion in this fall's polo team, and judging from the personnel turning out this September, he is not being excessively optimistic.

Coach Malone expects 35 to 40 mermen to turn out for water polo this year. Among them are All-American swimmers: Eric Oyster, Marshall Kane, Leroy Childs, Mike Morey, Brett Howatt, and Ted Deacon.

Kane and Morey were members of last year's All-WC Water Polo First Team, while Oyster was selected for the Second Team; junior Ken Cissna received Honorable Mention for his fine play on last season's polo team.

This year's schedule includes such formidable opponents as University of the Pacific and University of California at Berkeley.

During the weekend of October 11 and 12, Malone will take his charges to Ashland, Oregon, for the Southern Oregon Tournament. This will mark the first time collegiate water polo has been contested in Oregon, and the 'Jacks will be the initial competitors from California.

In addition to those listed above, Malone also mentioned returning lettermen Dale Ledvard, Dennis Fletcher, and George Sirovy as men to look for in the midst of the fast tank action.

Coach Malone stated that his greatest asset would be overall depth. He cited Tim Cissman, Jim Powers, Jack Harris, Dennis Lee, Mike Haber, and Norm Chapman, as physical proof in support of this claim.

Mark Hilliard - - Player of Week

Because of his bruising, hard-hitting style demonstrated against the University of Hawaii last Saturday night, senior safety, Mark Hilliard has been selected as this week's football Player of the Week.

Mark was in on many tackles against the Rainbows, but one of his teeth-rattlers was even written up in the Hawaii newspapers. On this particular play, the Hawaii ballcarrier had managed to elude a couple of 'Jack defenders, so Mark got the angle on him from 25 yards away and put a make-sure-he-goes-down-when-you-tackle-him tackle on the Rainbow. He was taken out of the game immediately but refused to make an issue of his sore neck. On Monday, he decided to have it X-rayed; and

shortly thereafter was admitted to St. Joseph's Hospital in Eureka with a broken neck.

Mark played high school football at Jordan High in Long Beach, his home town. He next attended Long Beach State and played in the Jr. Rose Bowl with LBS in 1964. Mark then transferred to HSC and is presently a Wildlife Management major specializing in Upland Waterfowl. As further proof that the "Dumb Jock" era is past, Mark earned a 4.0 g.p.s. last spring.

In addition to football, Mark enjoys hunting, fishing, photography, and drag racing.

Congratulations again and get well soon to Mark Hilliard, our first Player of the Week.

JEWELERS

109 5th St., Eureka

New backfield coach, Fred Siler, discusses some of the finer points of defending against the pass with a defensive halfback.

Fred Siler Joins Lumberjacks As Backfield Coach

The HSC gridiron has a new face in the coaching ranks this fall, he is backfield coach Fred Siler.

Coach Siler comes to the Hilltop campus by way of Albany, Oregon, where he served five years as head football coach at Albany High School.

Fred began playing football at Oroville High School, California, he then moved to Yuba College where he played under head 'Jack' mentor, "Bud" Van Deren. From Yuba, Coach Siler continued to play football at the University of Oregon. Upon graduation he served two years for Uncle Sam.

When he donned civilian clothes again, he was hired as an assistant coach at Marshfield High School in Coos Bay, Oregon. After one year there, he was hired by Albany High, and now has resumed working with Coach Van Deren.

NCAA Champ

Last June 8, Humboldt State's Gary Tuttle won the NCAA College Division steeplechase crown in Hayward, California. His time of 9:10.2 was a new College Division record. The Lumberjack distance ace went into the race seeded number two behind Ron Pettigrew of Pepperdine, but came out the winner by fifty yards as no one else was able to handle the torrid pace which Gary has demonstrated for the past three years here at HSC.

Humboldt's Vince Engel also gained All-American honors by placing 4th in the 1500 meter run in 3:50.8. This is equivalent to a 4:07 mile. Pete Haggard placed sixth in the 800 meter run in the time of 1:52.3, to gain some more points for Humboldt's eventual finish of eleventh out of sixty-four competing schools from across the nation.

Other cindermen from HSC who competed in the finals of the National Championships included: Paul Johnson in the long jump; Ken Lybeck in the 800 meter run; and Gary Miller in the 5000 meter run.

Jacks Bow To Hawaii in Opener

All-Conference halfback, John Burman was one of the few bright spots in Humboldt's 34-20 loss to the University of Hawaii Rainbows last Saturday night in Honolulu.

The Lumberjack flash ripped off touchdowns runs of 86 and 73 yards.

The entire defensive line is to be commended for their excellent defense against the Rainbow ground game. Time and again the Green Chain from Arcata stymied the Hawaii offense, and forced the Spectrum to the air.

Hawaii's air attack was a different story however, as they were able to move the pigskin quite well. Almost all of the Islander's big plays came via the airways; many being directed to All-American hopeful Joe Schultz.

Humboldt's first TD came by way of an aerial from senior quarterback Jim Costello to junior college transfer Don Del Grande. The next 'Jack tally came immediately after a Rainbow touchdown when John Burman raced 83 yards for the score. The point-after attempt failed. The final HSC scoring play was again courtesy of Burman, when the Jack's offensive line cleared a broad path right up the middle of the Hawaii defensive unit and John zipped by everyone for the counter. This time the point after was successful.

The Hilltoppers almost scored again in the closing seconds of the game when a Costello to Burman pass was completed but John's bid for a third TD failed when he was stopped on the Hawaii two yard line.

The two teams were fairly well matched up size wise, but bad breaks plagued the 'Jacks throughout the game. Many of these mistakes will be remedied after the team gets a couple more games under their belts, and gains confidence and experience.

This Saturday the 'Jacks take on the Owls from the Oregon Institute of Technology. Kick-off time is 8:00 p.m. but a capacity crowd is expected for this 1968 home opener, so be sure to get there early if you want a good seat.

Why would Bic torment this dazzling beauty?

Why?

To introduce the most elegant pen on campus.

Expensive new Bic® Clic® for big spenders 49¢

Only Bic would dare to torment a beauty like this. Not the girl... the pen she's holding. It's the new luxury model Bic Clic... designed for scholarship athletes, lucky card players and other rich campus socialites who can afford the expensive 49-cent price.

But don't let those delicate good looks fool you. Despite horrible punishment by mad scientists, the elegant Bic Clic still wrote first time, every time.

Everything you want in a fine pen, you'll find in the new Bic Clic. It's retractable. Refillable. Comes in 8 barrel colors. And like all Bic pens, writes first time, every time...no matter what devilish abuse sadistic students devise for it.
