

# HSC HOMECOMING - 1968 - '2000 B.C.

## Spaghetti Feed

By DRU QUESNED

The second annual Homecoming spaghetti feed will be held on Friday, October 25, from 4-7 p.m. sponsored by the Student Wives Club, in the CAC. It will be an "all you can eat" affair.

Tickets may be purchased at the HSC Student Bookstore or from any member of the Club. Adult tickets are \$1.25, under 13, 75 cents, and under 6, free. Proceeds from the Spaghetti Feed will provide scholarships for the coming year. This year four scholarships were awarded to Charles Pyle, Fred Jamison, Charles Davison and Paul Finn.

In keeping with this year's Homecoming, the Campus Activities Center will be transported back to "2001 B.C." with decorations and entertainment alluding to the mysterious time of the prehistoric era.

Door prizes will be given away at the dinner, having been donated by Montgomery Wards and O. H.'s Townhouse in Eureka.

It is hoped that all students, faculty, and friends will plan on attending this portion of the Homecoming events.

## Variety Show

The annual Homecoming Variety Show will have a new look to it this year, according to Show Chairman, Linda Bjerke. For the first time in recent years, the show will offer prizes to first, second, and third place winners. A panel of judges, composed of faculty members and students will preside over the competition. All persons interested in participating in the Variety Show are urged to sign up in the Activities Office.

Also being featured during the program will be the presentation of Fall Green and Gold Key members, and of the members of the secret Lucky Logger Society.

Highlight of the afternoon's show will be the presentation of the 1968 Homecoming Queen candidates with the crowning of the 1968 Queen and her court by Sheryl Pasquini, 1967 Homecoming Queen.

MC for the Variety Show will be Ken Lybeck.

## Queen Race

Selection of the Homecoming Queen, plus the first and second runners-up will be by popular vote as in years past. Balloting will be held on Wednesday and Thursday, October 23 and 24, between 10:00 A.M. and 2:00 P.M., with poll locations scheduled for the CAC, cafeteria, and Biology building. This year voters are allowed to vote for one candidate only.

## Parade Set

The theme for the parade is "H.S.C. - 2000 B.C.", and judging for the floats will be based on a point system with a total possible of 100 points. There will be five categories worth twenty points each. These categories are originality, form, construction, beauty, and adherence to theme.

The reviewing stand for this year's parade will be situated in the same location as last year, on the plaza directly across from the Varsity Restaurant on "G" Street.

With all the enthusiasm that has already been shown, this year's parade should prove itself to be one of Humboldt's best.

This year's Humboldt State College Homecoming Parade will be held on Saturday, October 26 at 10:30 a.m.

This annual event will include competition floats from almost every club and organization on campus. The deadline for a club or organization to turn in float designs is Friday, October 18 at 5:00 p.m.

The HSC

# Lumberjack

Associated Student Body Weekly Newspaper

Wednesday, October 23, 1968

Vol. 43, No. 5

## Homecoming Dance

The annual semi-formal Homecoming Dance will conclude this weekend's activities. It will be held at the Veterans' Memorial Building in Arcata at 14th and J. from 9-1 a.m. Music will be provided by Jerold Moore and his band.

Ferns and other greenery will decorate the building in keeping with the "HSC: 2000 B.C." theme.

Bids will be \$2.00 per couple.

## Contest!

The Lumberjack is looking for a new MASTHEAD. It is to take the place of the present three-column LUMBERJACK emblem which appears on the front page of every paper (except those with a banner headline as is the case this week).

The contest will be open until October 31, 1968, and the winner, selected by the Lumberjack staff, will receive one free dinner at Bim's and one year's Lumberjack sent to his or her parents anywhere in the continental United States.

The masthead will measure three columns wide by two inches deep but may be made larger for clarity and judging purposes.

## Director of I.A.P.

Walter P. Coombs, former executive director of the Los Angeles World Affairs Council, has been named general secretary of the California State Colleges; Chancellor Glenn S. Dumke, head of the 19-campus system, announced today.

Coombs, who joined the State Colleges last year as director of the systemwide International Affairs Program, was elevated to the executive post recently vacated by William B. Dunseth, general secretary for the past four years.

Dunseth resigned to accept the position of Executive Director of the University of Oregon Development Fund, Eugene, Ore.

Dumke said that Coombs will coordinate the International Relations and Development Programs relating to the State College system as a whole. He will act as liaison to the individual colleges in development of their own planning in these areas.

## New Tradition For Phi Mu

The annual Alumnae tea sponsored by Phi Mu Fraternity will become a traditional Homecoming Week event. This year the tea will be held on October 27 from 2:00-4:00 in the Humboldt Federal Savings Friendship Room in Arcata. During this time the Fall initiatives and pledges will be introduced. Besides being an Alumnae tea, it will also be an Anniversary Tea. This year the Fraternity is celebrating its first year as a collegiate chapter.

## Homecoming Weekend, 1968

### Schedule Of Activities

#### WEDNESDAY, OCTOBER 23

8:00 P.M. Glenn Yarbrough, Men's Gym

#### FRIDAY, OCTOBER 25

12:00 Noon Classes dismissed

12:00 - 2:00 P.M. Variety Show, Men's Gym

2:00 P.M. - ? Keg Hunt

4:00 P.M. - 6:00 P.M. Spaghetti Feed, CAC (Student Wives)

9:00 P.M. - 1:00 A.M. Informal Dance, Men's Gym

#### SATURDAY, OCTOBER 26

10:00 A.M. Parade Begins

2:00 P.M. Football Game (S.F. State)

5:30 P.M. - 7:00 P.M. Alumni Social Hour, Baywood Country Club

7:00 P.M. Alumni Banquet, College Commons

9:00 P.M. - 1:00 A.M. Semi-Formal Dance

#### SUNDAY, OCTOBER 27

10:00 A.M. Green and Gold Key Brunch, Baywood Country Club

"HSC: 2000 B.C." will be the theme of the 1968 Homecoming activities presently being planned for the October 25th weekend at Humboldt State College. A tentative schedule of activities has been released by Dale Gardner, co-chairman of the Homecoming event.

Glen Yarbrough, a popular folksinger now on the campus circuit, will appear in the Men's Gym on Wednesday, October 23, at 8 p.m., presented by the College Program Board. The public is invited to the concert.

On Friday, October 25, there will be a variety show at HSC where the Homecoming Queen will be selected from the candidates sponsored by campus clubs and organizations. An informal dance is planned for the Men's Gym that night.

The traditional Homecoming Parade through Arcata will start Saturday's activities with teams from campus organizations participating in a Keg Hunt afterwards. Kick-off for the Homecoming game against San Francisco State College will be at 2 p.m. in Redwood Bowl. An alumni dinner will be held after the game and the semi-formal Homecoming dance will be at 9 p.m. in the Veteran's Memorial Building in Arcata.

The public is invited to all the activities of Homecoming '68.

## "I'd Walk A Mile For A Taco"

By GENE SCHACK

During HSC Homecoming, the Circle K Club will sponsor a taco feast before, during and after the parade. Taking place in the Arcata plaza, the club will offer the best in juicy tacos cooked by a genuine, southern California, Mexican who goes by the infamous title of "Chef Jaime." Selling for a mere token of twenty-five cents each, the proceeds of this sale will help Circle K serve your campus and community.

## Keg Hunt

The second annual Keg Hunt will be held on Friday afternoon of Homecoming weekend.

Teams will be limited to four members. Ten envelopes will be drawn to determine which teams will compete. Teams chosen will each follow a set of clues which eventually lead to a hidden keg. The first team to find the keg will win a money order redeemable at one of several local merchants. Fun and good times are promised to all who participate (especially the winners).

It should be mentioned that all participating should know the length of stride of at least one of the members, and bring a magnetic compass. When choosing its members, teams should keep in mind that the last quarter mile of the Hunt will not be "negotiable" by automobile.

## SLC Meets

Unlike its first meeting's criticism of acting too quickly without thought, S.L.C. laid the groundwork and procedures for future actions. An Organizational Committee Report was submitted stating exactly how committees would be organized for the greatest effectiveness. With 11 new representatives (those elected last Spring and those this Fall) this was an important decision.

With the 11 new members in mind, a student government retreat was planned for last Saturday. Dr. Watson loaned his cabin to the council and it was hoped that the finer points of student government will have been polished. Fortunately all members were present at the last meeting to learn of this opportunity.

# EDITORIAL

How many students on this campus realize that the student government of this college has direct control of the annual budget, and nearly all phases of student life? The budget for this year is in the neighborhood of \$150 thousand, which is no small amount. The students select the members of this government, but do we really make a true effort of selecting the best people for the job? It may also be doubted that the "best" people, once elected, use enough initiative to do an admirable job.

A review of the present ASB constitution is enough to give anyone nightmares. It may be considered lint-picking, but shouldn't the Constitution give somewhat detailed information about the powers available for use by the various organizations and officials under the control of the ASB? We have heard talk and promises of up-grading the quality of student government at HSC. Let us demand more than talk - now is the time to demand some action. However, we can't just demand action; we must follow through with genuine interest. This will entail far more participation than has been evident in the past, and naturally means work.

In plain terms, students, this means you have been challenged to make the student government a functioning, organized unit - a change from the present defunct mess.

Those who are thinking of running for office in the future and those that are presently in office must be made to realize that they no longer will be elected on a basis of "who has the most novel posters". If you wish the support of students and student groups, then show your interest in them, be responsible to them, and be responsive to their needs and wants. It can be plainly seen that student government, as a body, will no longer be self-contained. It is going to have to come out of its shell and serve the students - its primary function to start with.

## Student Policymaking; Who Calls the Shots

By CHAD ROBERTS

The executive branch of student government last Thursday issued a statement of policy to Student Legislative Council. Shortly thereafter, Dean Simmons told the Council that the administration would henceforth take a back seat in handling student affairs, leaving such things up to the student organizations themselves. These items reflect the current movements in student - faculty - administration relations, and are thus of import to all.

Of special interest are sections of the executive memorandum excerpted as follows:

- Concerning campus clubs: "Through clubs, students with similar interests are united. Therefore, the Associated Students will make every effort to aid club leaders . . . students in these organizations should be responsible for formulating policy governing these clubs." The paper then describes interchanges among campus clubs via various means, for various activities.

- On student involvement in administrative decision making: "...an ever-increasing interest to many of the College Administrators. We should take a definite step towards seeing that the students have a voice at every conceivable level, but at the same time, we must guard against superficial representation . . . and work for more responsible, productive participation by students."

- On campus power structure: "Student Legislative Council must be

established as the sole representative of the students to all other factions on campus."

The last paragraph is interesting because it states exactly the ideal situation for student representation. However, a word to the wise here: one should always approach statements of policy carefully, and not take them at face value. This memorandum disturbs me, because it frames goals of the executive branch as though they were the natural goals of all the council members. Were I a councilman, I'd go ahead at quarter speed with all sensory systems at full power.

## Chamber Singers and Band

Two Humboldt State College Music Department performing organizations will make their first appearance of the current season on Thursday, October 31, when the Chamber Singers and Symphonic Band join forces to present a concert in Sequoia Theater on the HSC campus.

The sixteen members of the Chamber Singers are as varied a group of individuals as the music they sing. Chosen for voice, musical skills, language sensitivity, personal vitality and ensemble experience, the singers range from music majors to Spanish,

English, psychology, speech correction, and marine fisheries; and from freshmen to graduate students.

When asked in what way the Chamber singers were distinguished from other choral organizations, Director Leon Wagner said, "Our function is to present music most suitable to small vocal ensembles, where clarity of line, pitch, and rhythmic flexibility, language and tonal nuance are all of paramount importance." He added, "Thus, our repertoire is chosen from among several musical styles and periods from Renaissance to Contemporary, both a cappella and with a variety of accompanying instrumental textures."

The Symphonic Band, composed of 65 selected instrumentalists, will present five works, two each from the English and American repertoires, and one from Russia.

The Chamber Singers will present two contrasting groups on the October 31 program.

The concert will begin at 8:15 p.m. in Sequoia Theater. Admission is free.

## Letters To The Editor

Dear Editor:

I really don't like or appreciate very much the content of your paper. Frankly, it bores me. All this good time fraternity or sorority news, who is getting rushed and who isn't, "Pledge of the Week", etc., is a bit taxing on my normal mental outlook - in short, it depresses me.

If it's not possible to spike this weekly dose of pabulum with a little news and entertainment then I suggest either removing the control of the STUDENT PAPER from the Placement Office officials and putting it into the hands of students (as it should be) or else dismantling the press and selling it for junk, thereby helping the economy of county, state, and country and at the same time saving the operating costs which tax our Student Body funds for what I consider absolutely no purpose. Needless to add there are many more who feel just as strongly about this as I do.

Cali Stead

October 14, 1968

Editor, The Lumberjack:

A tradition was reborn at the HSC-Central Washington football game. The new Lumberjack marching band made their debut appearance, and in my opinion, it was a smashing success. Spirit throughout the game was noticeably higher than it has been in past weeks, even though a game with such a lop-sided score (50-0) will often become boring. The half-time show was without doubt one of the best I have ever seen in my five years at Humboldt. To hear the National Anthem played by real musicians instead of a record player always has been, and will be, one of the high points of any athletic event.

The Marching Lumberjacks deserve thanks and encouragement from each of us. They have a great thing going. May it go a long way.

Irwin Phifer,  
Graduate Student

## Look Out!

By MIKE GRAFF

Pedestrians! Yes, this campus is covered with pedestrians. In the halls, on the sidewalks, and in the streets pedestrians are seen morning, noon, and night. YOU are a pedestrian, virtually every person on this campus is at some time during the day, and as such your life and limb may be in serious danger.

Why? Because you must cross the streets and link the various parts of the campus together. Every time you step off the curb you are placing your trust in the Almighty to bring the drivers of two and four wheeled metal monsters to their senses long enough to realize that there is a mortal being in their path and that they should consider bringing their potentially death dealing machines to a halt. Strangely enough, one should not have to pester the Almighty with such petty things as traffic control. The college, the city of Arcata, the County of Humboldt, and the state of California have all passed rules and regulations governing traffic on the streets, including the streets at HSC. Officers have been ppointed to see to it that the rules and regulations are obeyed. Unfortunately, there appears to be a bit of laxity on the part of the enforcement officials in enforcing the rules and regulations regarding excessive speed and reckless driving.

What's all this jazz about reckless driving and speed about? Example: On the morning of October 18 one of our fellow students roared out of the small parking lot next to Sequoia Theater and up the street in front of the Library, on the wrong side of the street. No other vehicles were on the street, only pedestrians peering to the left, making sure there was no threat to them from that quarter, while the madman on his motorbike bore down on them from the right. No-one was hurt, just scared plenty by the sudden arrival of a screaming motorbike where it wasn't supposed to be. To observe the events at HSC's very own drag strip you need only go to the corner of Laurel and 'B' Streets to watch the cars and motorbikes scream down the hill toward the Ed-Psych building, or more exciting yet, up the hill toward you. There are other lesser strips in front of CES, the Library, and the road leading up to Founder's Hall which provide less excitement for the drivers, but no end to hair raising escapes for pedestrians caught out in the open in those pretty yellow crosswalks. One is led to wonder how long it will be before some unfortunate soul is run down and either killed or smashed up.

What can you do to protect your frail, yet precious, body from being mangled by the infernal hurtling two

and four wheeled machines? There are several things you can do. You can pray a lot and hope that God will protect you. Or, at the other extreme, you can take matters into your own hands and halt the threats to your life and limb with a hail of gunfire. Neither of these solutions will effectively solve the problem however.

There is a sane and reasonable way that the insane and unreasonable drivers in our midst can be tamed. Simply bring the problem to the attention of the enforcement officials who have been appointed to protect life, limb, and property at HSC. How do you bring it to their attention? Take pencil and paper in hand and write a note, short and to the point, expressing your dissatisfaction with the traffic situation. Leave your note in the Activities Advisor's office in the East Wing of the CAC. A delegation will take the collection of notes to a meeting with the Chief of Security in the very near future.

Believe it or not community action does work, but only if the community acts. HSC is a community that has a problem that needs to be acted upon before someone is injured or killed on the streets. YOU, as a member of the community, are the one who is going to have to act if anything is going to be done about the problem. So get with it, act, write YOUR note.

DON'T WAIT, DO IT NOW!

# Alumni Homecoming Banquet

Three prominent personalities of the Humboldt State College campus will be honored at the HSC Alumni Association's Homecoming Banquet on Saturday, October 26, according to Mrs. Lanette Rousseau, association president.

Honorees will be: Francis "Franny" Givins, associate professor of physical education, and winner of this year's Athletic Hall of Fame Award; John Van Duzer, retired professor of speech; and William "Bill" Johnson, retired Chief of Plant Operations.

Mrs. Rousseau stated that the 1968 Homecoming will also honor the classes of 1918 and earlier, 1928, 1938, 1948, 1958 and 1968, although all other alumni and friends of the college are welcome to attend. Robert "Bob" Madsen, a 1939 alumnus from Eureka, will be master-of-ceremonies.

Tickets for the banquet, which will be held at 7:15 p.m. in the College Commons, are available at \$5 per person at the College Bookstore and the campus Alumni Office. Reservations may also be made by contacting Mrs. Jesse Woodcock at P. O. Box 418, Trinidad (ZIP 99570), telephone 677-3394.

The banquet will be preceded on that date by the Annual Homecoming parade through Arcata at 10 a.m., a football game with San Francisco State in Redwood Bowl at 2 p.m. and an Alumni Social Hour at the Baywood Country Club at 5:30 p.m.

The 51-year-old Givins, a well-known athlete, coach, and leader in civic affairs in the Humboldt-Del Norte area, will be installed as the 14th recipient of the annual Hall of

1953, launching another eleven-year period of producing top basketball teams.

His cagers won the Far Western Conference Championship in 1955-56, entering the Western Regional NAIA finals. His teams took second-place honors in FWC play on three occasions, and in 1958-59 his Lumberjacks won the NAIA Western Regional Consolation Championship.

In 1963, Givins became Humboldt's golf coach and since then he has guided his teams to winning seasons in 1966 and 1967, with a break-even record for the 1968 season. He plays a good deal of golf in his spare time and holds membership at the Baywood Country Club.

He was recently named campaign director for the Humboldt County

VAN DUZER

March of Dimes Campaign and has for the past nine years been a board member of the Humboldt County Branch of the American Cancer Society. He is a director and president of the Humboldt County Fair.

It was through Givins' energies that the Little League and Babe Ruth League came to Arcata as a part of the City's Recreation Department activities.

He works closely with Humboldt and Del Norte County high school principals and coaches as California Inter-Scholastic Federation Commissioner, coordinating training, selection of officials, establishment of rules, and game schedules.

He resides in Arcata with his wife, Esther, their son, Richard, a junior at HSC and their twin daughters, Pat and Peg, who are sophomores at HSC.

Professor Van Duzer, who came to the HSC faculty in 1941 on a full-time appointment, retired on September 1. He began his career at the campus on a part-time basis in 1937.

His work in developing the drama department earned him the reputation as one of the foremost college drama set designers on the West Coast. He was called upon as a consultant in the planning and

JOHNSON

designing of Sequoia Theater, which is regarded as one of the finest college theaters in the nation.

During the years, he was a popular professor for speech and drama courses and served as chairman of the former Speech, Drama, Radio and Television Department. He was also a volunteer head resident for the men's wing of Nelson Hall when it was a campus dormitory.

Van Duzer was born in Loleta, attended local schools and received a bachelor's degree in English from HSC in 1937. He was awarded a master's degree in speech from Stanford University in 1946.

The third honoree will be William "Bill" Johnson, who retired October 1 as Chief of Plant Operations after more than 27 years' service. He came to the Hilltop campus in 1941 as a custodian at the College Elementary School when the custodian and maintenance staff numbered only seven persons.

Over 100 persons are now employed in the service of maintaining the campus buildings and grounds in support of the College's academic mission.

In addition to being a popular figure who solved all sorts of logistical problems on campus from moving furniture to providing transportation to athletic events, Johnson was called upon for planning and supervision of several of the college's building projects.

He supervised the construction of improvements in Redwood Bowl, including additional seating and renovation of the playing field and its electrical and water supplies. He helped plan Fern Lake, which supplies the fresh water for the College Fish Hatchery. He also planned the present Corporation Yard facility.

A native of Sweden, Johnson came to Humboldt County in 1926. He worked in the lumber industry and at a cattle ranch in Ferndale. It was in Ferndale that he met his wife, Charlotte. The couple moved to Arcata in the early 1930s and he worked for the California Barrel Company in Arcata until 1941.

GIVENS

Fame Award. A graduate of Ferndale schools, Givins was a stand-out basketball, football and track athlete during the years 1935 to 1940 at HSC.

Following graduation from HSC, Givins spent eleven years as a coach at Ferndale High School and two years of coaching at Fortuna High School. He joined the HSC faculty in

## Scholarship Winner Named

Dwight Holford, a Humboldt State College student from Blue Lake, has been named the first recipient of the Peter A. Hill Memorial Scholarship, according to Jack Altman, HSC Financial Aid Officer.

Altman said the scholarship fund was established this year in memory of Peter A. Hill, son of Mr. and Mrs. Harold Hill of Redmond Road in Eureka. A 1965 graduate of Eureka High School, Hill was killed in action in Viet Nam last February while serving with the U. S. Army's 25th Infantry Combat Division. The fund was established to assist a veteran attending the College.

Holford, 37, is a U. S. Navy veteran. He and his wife have four children. A senior fisheries major, he is an active member of the HSC Veterans Club.

Altman added that the Veterans Club is planning projects to build the scholarship fund. Anyone wishing to make contributions may contact Altman at the College.

## Queen Elections

Selection of the Homecoming Queen, plus the first and second runners-up will be by popular vote as in years past. Balloting will be held on Wednesday and Thursday, October 23 and 24, between 10:00 A.M. and 2:00 P.M., with poll locations scheduled for the CAC, cafeteria, and Biology building. This year voters are allowed to vote for one candidate only.

Cathy Avilla, 21, a senior, is from Woodland, Calif. She is majoring in Business Education, minoring in Spanish and plans to teach in secondary schools. Her activities include Business Club and Frosh Camp Counselor. Cathy is sponsored by the Business Club.

Lucy Benson, 19, is active in Spurs, Frosh Camp Counselor-1968, Cheerleader and Modern Dance Club. Her major is English with a Physical Education minor. Lucy is a junior and plans to teach in elementary schools. The Inter Residence Hall Council is sponsoring Lucy.

Marsha Coontz, 20, is majoring in Home Economics and plans on teaching that subject in secondary schooling. She is a junior and pledging Delta Zeta Sorority. Marsha is from Novato, Calif. and is sponsored by the Inter Residence Hall Council.

Chris Edner, 20, is majoring in Social Sciences and minoring in Psychology. She plans to teach the primary grade level. Chris is a junior and from Monterey, Calif. The Letterman's Club is sponsoring Chris.

Candie Fowler, 21, is from Crescent City. She is studying Psychology and hopes to get a masters degree in that subject. Candie is active in the Delta Zeta Sorority, Psychology Club and Ski Club. Candie is being sponsored by the Tau Kappa Epsilon Fraternity.

Linda Hansen, 21, is a senior, studying Business Administration with General Business as a field of concentration. She was active in Spurs, and is now Historian of Phi Mu Sorority. Linda plans to begin her working career after graduating in June. She is being sponsored by the Delta Sigma Phi Fraternity.

Mary Ann McRae, 22, is a graduate student currently working on her credential for elementary teaching. She is active in the Student California Teachers Association; her major of Psychology and minor of History keep her very busy. Mary Ann is from Baldwin Park, Calif. and is sponsored by the Forestry Club.

Kathy Morgan, 21, is interested in out-door activities with Boot n Blister Club, Conservation Unlimited, Wildlife Society, Wilderness Society, and Sierra Club serving as active opportunities. She is a junior and is busy with her major, wildlife management. Kathy's future plans include working in national parks. She is sponsored by Conservation Unlimited.

Lorreen Robinson, 21, is planning on teaching Home Economics in secondary teaching. She is a junior, majoring in Home Economics, minoring in Art. Lorreen's activities include Phi Mu Sorority, tailoring and sewing. Her sponsors are the Intercollegiate Knights.

Karen Simmons, 20, is a junior from Azusa, Calif. She has a major of Sociology and minor of Physical Education. Karen plans to teach in secondary teaching program. She is sponsored by the Inter Residence Hall Council.

Nan Wittick, 21, is a junior currently majoring in Sociology. She plans to get her credential for elementary teaching. Nan is Assistant Treasurer of Phi Mu Sorority. She is from Jacksonville, Illinois and is being sponsored by Sigma Pi Fraternity.

# Testing For Women

Women interested in determining their abilities through testing provided by local agencies may learn how to go about using such services at an informational meeting to be held at 8 p.m. on Thursday, October 24 in the Humboldt County Schools Office at the Courthouse in Eureka.

The purpose of the meeting is to inform women about the types of testing available at local agencies, what the tests measure, how to make arrangements for taking the tests, costs, how the test results are interpreted, and what counseling services are available after test results are known.

The gathering will be an initial step in meeting some of the employment needs of local women, according to Mrs. Margaret DeBow, Field Assistant at the Center for Community Development at Humboldt State College. The Center is co-sponsoring the event with Delta Kappa Gamma, a women's educational honor organization.

A panel of speakers from HSC, College of the Redwoods, the Eureka City Schools adult education program, and the California State Department of Employment will describe testing facilities available in their respective operations.

Further information on the meeting may be obtained from Mrs. DeBow by telephoning 826-3731.

## BULLETIN

Forms will be available to H.S.C. students October 21 to 24 concerning registration. They will be available on the Lumberjack stands, the office of Admissions and Records, and all division offices. These forms are vital because they are Course Request Sheets or application forms for the Winter Quarter Classes. These must be filled out and turned into the office of Admissions and Records within the five-day period. Any student who does not comply will register with the last group of Late Registration.

This doesn't however, reserve any student a place in a class, or give him a preference or even a guarantee that he will get the class requested. The main reason for having the C.R.S. forms at all is to assist the administrators in handling the class load so that the supply will meet the demand.

"This," said Mr. John Fry, Registrar for the College, "is an important first step toward computerized registration." Mr. Fry also stated that the student will be able to request a total of 17 units or seven courses, whichever comes first.

When the student turns in his CRS, he will receive an IBM card receipt which will allow him to register at the appointed time. Mr. Fry especially wished to impress upon the student body that the sample taken by these forms must be a complete one or it will not work in solving registration problems. All students must turn in a Course Request Sheet to implement a better registration at HSC and to reserve the right to register on time.

The office of Academic Affairs will issue a report of which courses will be increased or deleted as a result of the survey. This report will be out in time for students to plan for registration.

# THE POET'S CORNER

The CAC

Books are to study  
Or so they say  
But for most people  
They are just something  
To carry each day.

The CAC is a good example  
Of a place to find  
Students ample,  
Who profess to study  
With great zeal  
But only come to get a meal.

They place their books  
On the top  
Of some square  
Or round spot.  
And proceed to walk  
Around and talk.

The conversation  
Flows back and forth  
While people come in  
And out the door.  
While others put  
Their coins in the machine,  
To hear songs  
By the Rascals,  
Gentry,  
Or the Cream.

Some students come here  
With good intentions,  
But it always ends up  
Like a convention.  
With the noise getting  
Louder and louder  
And no-one knowing  
Exactly what's happening  
From hour to hour.

So the books just sit  
On top of the table  
Covered with all kinds of labels,  
Like Algebra,  
French,  
Or Archery,  
And that's all they are for,  
For people to see  
Because no-one studies,  
In the CAC.

— Bruce Kirk

Looking back on all our abstract  
adventures  
We seemed to trace all the beautiful  
things,  
(orange skies, star smelling, walks  
with (in) each other),  
To God.  
(Who would ever have thought that  
we'd turn religious)  
But since we turned away from each  
other,  
We will spend our whole lives  
regretting that we  
Didn't also trace things to the Devil.

Perpetual Togetherness

And each new generation  
Is formed out of the dust  
Of preceding ones.  
From the dust which  
Never is still.  
From the dust which  
Once may have been  
The tree of forbidden fruit  
A blood-red rose,  
A cold dinosaur  
From the dust which  
May now be  
You.

A Warm Inquiry

If the sun is as far away  
As they say it is,  
Then how can you sing of the  
Sunshine of our love  
When we are so close?

— Mergetroid Boswell

## How About You

Breath of John Barleycorn  
With a shrug of the mind,  
The happening is seen through  
Speckled indifference.  
Why is this the wan way?  
To dig it,  
Is to step out of the tedium  
Into a total cause.  
To do it,  
Is to declare yourself to be  
An individual of action.  
It's your mind that makes the choice  
It's your Homecoming.

— Mergetroid Boswell

## Earth

The experience of experience  
Lies in the curves of Mother Earth  
Endless joys  
Defendless joys  
And you don't have to  
Partake of the name brand  
To give back beauty  
Maybe eat the Humble Pie  
And kiss the blue sky eye  
And try not to cry  
When they say that  
Mother Earth is becoming an old maid.

— Mergetroid Boswell

## Today

Every look is  
A dead look into  
Your heavy insides.  
Friends seem to  
Have lost the  
Good Medicine  
(or else you have)  
That you can  
Dance to.  
Heaven and Heart  
Seem about to  
Trip over the  
Bridge of Sighs and  
Even a smile  
Doesn't rhyme  
Yes,  
Yesterday,  
Is the best day  
To be  
Depressed.

— Mergetroid Boswell

## LOOK Your REDWOOD THEATERS

will give 2 free movie passes to  
the lucky student whose ASB  
card number appears in one of the  
Lumberjack advertisements.  
These free passes will appear  
every week and are good to any  
Redwood Theater. This week's  
card number is 2132

## THE LUMBERJACK Art Hoffmann To Speak Here

Art Hoffmann, the Peace and Freedom Party candidate for U.S. Congress from the 1st District, will speak Friday at noon in the Studio Theatre. Hoffmann will lecture on "The Politics of Baronism in Northwest California."

Hoffmann is an instructor in German and English at Santa Rosa Junior College. He is an active member of the American Federation of Teachers and the Sonoma County Peace and Freedom Movement. Hoffmann is a former Fulbright Scholar and has taught at Hofstra University in New York and at the University of San Francisco.

Hoffmann is opposing Don Clausen, the incumbent Republican Congressman. He maintains that "Clausen has been totally indifferent to the poverty and unemployment

that is turning this area into a Westcoast Appalachia. He is notorious for his opposition to progressive legislation. He has given the Administration a blank check for the War."

Hoffmann feels that it is important for voters here to know who it is that Clausen does represent. His lecture on the "Politics of Baronism", he says, will name the names and describe the workings of the power structure of this area. He also plans to discuss Harbor development, Log Exports, and other issues of concern to Humboldt County.

Hoffmann's campaign manager for Humboldt County is Walter Sheasby. Sheasby's address is 1498 10th Street in Arcata.

## Test Dates Announced

PRINCETON, NEW JERSEY, September 16 - College seniors preparing to teach school may take the National Teacher Examinations on any of the for different test dates announced today by the Educational Testing Service, a nonprofit, educational organization which prepares and administers this testing program.

New dates for the testing of prospective teachers are: November 9, 1968, and February 1, April 12, and July 19, 1969.

Results of the National Teacher Examinations are used by many large school districts as one of several factors in the selection of new teachers and by several states for certification or licensing of teachers. Some colleges also require all seniors preparing to teach to take the examinations. The school systems and state departments of education which use the examination results are designated in the Bulletin of Information for Candidates.

On each full day of testing, prospective teachers may take the Common Examinations, which measure their professional preparation and general cultural background, and a Teaching Area Examination which measures their mastery of the subject they expect to teach.

Prospective teachers should contact the school systems in which they seek employment, or their colleges, for specific advice on which examinations to take and on which dates they should be taken.

The Bulletin of Information for Candidates contains a list of test centers, and information about the examinations, as well as a Registration Form. Copies may be obtained from college placement officers, school personnel department, or directly from The National Teacher Examinations, Box 911, Educational Testing Service, Princeton, New Jersey 08540.

## Fall Enrollment Statistics

A nearly perfect ratio of two men to each coed among the student body at Humboldt State College is evident in enrollment statistics for the fall quarter, which list 3066 men and 1538 women, according to College Registrar John U. Fry.

Fry announced that there were 4604 individual students enrolled at HSC as of the deadline for late registration on September 27. He added that, as of the end of regular registration on September 20, there was a full-time equivalent (FTE) enrollment of 4316. The FTE figure is determined by dividing by 15 the total number of course units being taken.

This fall's individual student enrollment indicates a 19 per cent boost from the 3870 individual students registered in the fall of 1967. HSC administrators originally anticipated an enrollment of 4200 this fall. The "bumper crop" at HSC was mirrored elsewhere in the California State Colleges, several of which were forced to close admissions during the summer.

Enrollment figures, Fry said, are subject to a decline, in view of the number of withdrawals from college traditionally experienced in the initial weeks of the academic year.

A breakdown of class populations reveals the following: 862 freshmen, 688 sophomores, 1439 juniors, 1043 seniors, and 567 graduate students. Five persons are classified as "auditors," or students enrolled in course programs on a no-credit basis.

Of the freshmen, 648 are attending HSC for the first time. They were admitted from the upper one-third of their high school graduating classes.

The College has 927 transfer students this fall. Those transfers with two or more years of college credit had a C average or better. Those with less than two years of college credit were in the upper one-third of their high school graduating classes and had a C average or better in their college work completed.

## A New Thing

A time to let the wind play with your hair and, if your feet can take it, the waves will wash them for you. So you get to Fern Canyon with Boot'n Blister and you spend a couple or three hours walking between the places where the sun filters through the redwoods. Isn't it neat the way you can always tell when you are getting near a clearing even though the trees look very much the same up ahead? And out in the middle of all this tightly grown vegetation is enough tall grass to lie down in and hide behind. Just down the hill is enough beach to keep eighty people happy being by themselves counting only the green sand grains or being together wondering how long that beach sculpture will last now that they built it.

You make a new friend on the beach and she's going to ride home with you after you hike back. Isn't it really different out here? The way you let what you really feel be known, and that waterfall really turns you on watching the way it splatters all over that old log in the canyon. So don't hide it. Smile! These kids care, too. That's why they're here.

So next weekend you and your friend can spend a weekend getting behind in studies when Boot'n Blister packs into Canyon Creek. On these trips night time doesn't put an end to the peacefulness. Maybe when you get back it will still be there

## Dance Dates Open

Any organization who wishes to sponsor an after game dance during the basketball season is urged to contact Mr. Stan Mottaz in Room No. 2 in Nelson Hall, West as soon as possible. The dances will be given on a first come first serve basis for all home games. The deadline for filing is November 1.

## Student Deferments

Students desiring a fifth year of college in order to earn a teaching credential are being granted a II-A occupational deferment. The student should file a No. 103 form noting that he is pursuing a teaching credential. It should be noted that this new policy affects California registrants only, and a student who is not registered with a California Selective Service Board does not fall in this deferment provision. The No. 103 form is available at the Office of Academic Affairs.

Some students when transferring from a junior college to a degree-granting institution have had a credit loss. If this occurs through no fault of the student, the local Selective Service Board may, at its discretion, grant a II-S deferment for the first year after transfer, subject to re-evaluation at the end of that year based on the work accomplished at the new institution.

A change of major is not considered "no fault of his own," and consequently, does not fall under the above provision. Confirmation has been received which states that it is immaterial the length of time a student may have been in college or his rate of progress prior to June 30, 1967. If a student was enrolled full-time on or after July 1, 1967 and since then has made normal progress, he shall be considered favorably for Class II-S student deferment by the local board despite the fact that he may have been considered not to have made satisfactory progress leading toward a baccalaureate degree prior to June 30, 1967. Most draft boards will probably not induct a graduate student in the middle of a quarter, but allow him to finish that quarter—but not the 12-month academic year.

## Library Tour Date This Tuesday

In response to inquiries about the possibility of library tours for new students, and for students unfamiliar with the use of the College Library, special 50-minute instruction sessions will be offered in room 303 of the Library, Tuesday, October 29th, at 2:00 and 7:30 p.m.

## Sigma Pi at HSC

By ED PRIEST

Having recently nearly doubled their size, the newest fraternity on campus, Sigma Pi, now looks forward to becoming the most prominent Greek organization on the HSC campus.

The Humboldt State colony of the national organization was founded in April 1967, 70 years after the founding of the first chapter at Vincennes University, in Vincennes, Indiana, on February 26, 1897. The founding fathers of the oldest fraternity west of the Allegheny Mountains were Rolin R. James, William R. Kennedy, James T. Kingsbury, and George M. Patterson.

There are approximately 40,000 members of Sigma Pi in the 88 active chapters and twelve colonies that span every corner of the country.

Focusing attention on Sigma Pi is one of the most distinguishing alumni of Sigma Pi, Walter Shirra. Shirra, now command captain of the current Apollo flight, attracted national attention to his naming his Mercury flight "Sigma 7."

With twenty-one returning men to guide the pledge class of fourteen, each pledge will receive the attention of one "big brother." This big brother will be of his choice, as the pledge had the opportunity to look over every active in Sigma Pi's unique extended rush period. This extended period is to make sure every man is compatible to Sigma Pi, and that Sigma Pi is really what the man wants.

Each pledge has that rare experience of becoming a charter member this January when the Humboldt colony receives its national charter, and every member at that point will have his name enshrined at national headquarters and on the charter remaining in the fraternity house.

Besides becoming a charter member, the members have the privilege of establishing tradition. The only apparent tradition to date is honoring with reverence the moose-head in the house, located at 1660 Central, McKinleyville.

Leadership is another quality offered by Sigma Pi through the many officer positions in the organization. This year's officers are: Phil Morisey, president; Jeff Wright, vice-president; Bill May, treasurer; Travis Smith, secretary; John Gionfriddo, herald; Joseph L. Lantz, parliamentarian and sergeant-at-arms; Larry Peschke, pledge captain; Bob Vincent, rush chairman; Ed Priest, publicity chairman; and Ron Harding, social chairman.

The social events for the year have been in high gear since the first rush function. Besides the weekly party held at the house the fraternity will hold a monthly dinner at one of the regular meetings. Also scheduled this year are a pre-Homecoming dance dinner, the Halloween Party, the Snow Ball, the Orchid Ball and

founder's Day Banquet. Also in the making is the spring outing, which is scheduled for three days in Lake Tahoe. Other activities will be scheduled in accordance with school functions.

Ron Harding, former president of Sigma Pi and now editor of the Lumberjack, attended the biennial convocation of Sigma Pi this last summer on Mackinac Island, Michigan. Mr. Harding now is able to assist the fraternity in its preparation for the national charter, as is Dr. Ken Burns, the faculty advisor and currently a pledge. Also here to prepare the fraternity was the West Coast Field Representative, Mike Donahue. Mr. Donahue visited the house early in October and offered much to get the fraternity on its way.

Sigma Pi is very proud of its academic standing and is shooting for a 3.00 this quarter after topping the men's Greek organizations last spring. This, above all, is the objective of Sigma Pi. While having fun through such activities as parties and other activities on and off campus, having pledging and a women's auxiliary, the men of Sigma Pi are creating the atmosphere of high academic standing to supplement the strong bond of brotherhood evident in the organization.

With the editor of the Lumberjack, a resident advisor, members of the Junior Jacks and water polo teams, and the college placement officer as members, the organization has the personnel to assume the leadership in any field and provides a well-balanced organization.

## IK Actives Scrub Fishpond

By KEN LYBECK

Due to the lack of a Page Class this quarter, the actives in the Intercollegiate Knights got together

Saturday and scrubbed out the fishpond in the quad of Founder's Hall. Those pictured at left include (from left to right) Jim Sanders, Buddy Finley, Gary Woods, Joe Dusenberry, Wayne Peterson (standing in the fish bowl), and R. J. Ross. This is a semi-annual event and is usually followed by the infantile practice of kicking the rocks around so that the resulting mess detracts from the beauty of the pond. Which, for the benefit of the Greeks, is state property, maintained by the IK's as one of their many campus service projects.

The huffing alumni have had hammered home how high the Humboldt hills are at Homecoming.

# College Board Competitions

By BOB LILLARD

Mademoiselle magazine is conducting their 1968-69 College Competitions for college girls with ability in the fields of publishing, fiction, poetry, art, and photography. Winners receive national publication and/or monetary awards, and the work of both winners and runners-up is called to the attention of editors, publishers, artists, and writers in New York. Each year Mademoiselle sponsors five competitions.

### COLLEGE BOARD COMPETITION

The College Board Competition seeks those with talent in editing, writing, illustration, layout, fashion, beauty, promotion, merchandising, public relations, and advertising, as well as those able to report college news and submit original ideas. College Board members gain a unique insight into the field of publishing through a continuing interchange with MADEMOISELLE, by way of mailings, questionnaires, news reports, and thoughtful criticism of their work by the editors. Each year, 20 Board members are selected as Guest Editors and spend a salaried month in MADEMOISELLE'S New York offices, helping edit the annual August College issue. In addition, they have the opportunity to interview significant personalities in the fields of entertainment, politics, and the arts, and to absorb, first-hand, the many facets of magazine publishing. Also, this year's Guest Editors spent a week in Mexico as a special assignment. By participation on the College Board, members may accumulate a useful portfolio of work, and consequently enter the postcollege world more adequately prepared. Winners and runners-up also receive priority consideration for permanent jobs with MADEMOISELLE and other Conde Nast publications.

### ART AND PHOTOGRAPHY

The Art Competition offers \$500 to each of two winning entrants, and each will have an example of her work published in the August issue of MADEMOISELLE. Runners-up will receive Honorable Mentions, and all finalists may be considered for commissions at a later date, at MADEMOISELLE'S regular rates.

The Photography Competition offers \$250 to each of two winning entrants, and their winning photographs will be published in the August MADEMOISELLE. Runners-up will receive Honorable Mentions, and finalists may be considered for future commissions at the regular rates.

### FICTION AND POETRY

The Fiction competition offers \$500 and national publication in the August issue to each of two winning entrants. Honorable Mentions will receive special recognition from MADEMOISELLE, and the work of finalists may be considered for future publication at the regular rates.

The Poetry Competition offers \$100 to two winners, and their poems will be published in the August issue of MADEMOISELLE. Honorable Mentions will receive special recognition from MADEMOISELLE, and the work of finalists may be considered for publication at a later date at the regular MADEMOISELLE rates.

In each competition, the entrants are judged on the basis of literary and/or artistic talent, clarity, originality, and professional presentation. The competitions will be judged by the editors of MADEMOISELLE, and by others outstanding in their particular fields.

Interested girls are urged to read the information presently on display in the Kiosk or to write College Competitions Department, MADEMOISELLE, 420 Lexington Avenue, New York, New York 10017.

## Pi Pledges

Sigma Pi fraternity is pleased to announce the list of men selected to pledge the fraternity for the Fall Quarter. Going through the pledge ceremony last Monday night were the following men: Cullen Dodds, Paul Hansen, Marty Hauser, Gary Hein, Jim Humphry, Mark Loeffler, Larry Liles, Doug Nelson, Eric Oyster, Ed Priest, John Sheriff, Kirk Ueckert, and Mike Ukena. Sharon Johnson, honorary freshman pledge, also underwent the ceremony with the men.

## THE LUMBERJACK State Scholarships

Undergraduate college students who are in need of financial assistance to continue college should file a State Scholarship application. Approximately 5,800 new State Scholarships will be awarded in April, 1969, for use in 1969-70. Most of the new awards will be available to high school seniors but the number available for currently enrolled college students who are not already in the State Scholarship Program has been increased by recent legislation.

State Scholarships are available for use at any accredited four-year college in California. The awards range from \$300 to \$2,000 at independent colleges, \$300 at the University of California, and are in the amount of fees charged to students at the California State Colleges (approximately \$120). In addition, students planning to attend junior college may have their grants held in reserve for them until such time as they attend a four-year college.

Applications are available in the Office of Financial Aid or directly from the State Scholarship and Loan Commission, 520 Capitol Mall, Sacramento, California, 95814. Applications must be filed with the State Scholarship Commission by midnight, December 10, 1968.

## Hoopla Meetings

Employment opportunities will be the discussion topic at 7 p.m. on Thursday, October 24 in Hoopla when the third of seven Hoopla Town Hall Meetings is held in the Legion Hall.

Under the co-sponsorship of the Hoopla Tribal Council and the Humboldt State College Center for Community Development, the series of meetings is intended to strengthen the communication between the Hoopla Indian community and the governmental agencies that serve it. The public is invited to all meetings.

Discussion items on the agenda include: labor market background, functions of the employment office, adult and vocational training programs, and employment services available to Hoopla residents.

Resource persons for the session are Rod Sandretto, occupational analyst at the California Department of Employment Office in Eureka, and Willie Colegrove, community employment worker in Hoopla. A moderator will be supplied by the Center for Community Development.

The next session of the series will deal with health and sanitation facilities in Hoopla and is scheduled for 7 p.m. on Thursday, November 7 at the Hoopla Legion Hall.

Richard Dart as Dylan Thomas and Judith Shogren as Caitlin in a scene from the play "Dylan", based on the life of the carefree, devil-take-the-hindmost Welsh poet, Dylan Thomas.

## "Dylan"

By JIM SAN FILIPPO

DYLAN, the boisterous story of the last two years in the life of the Welsh poet Dylan Thomas, opened under the direction of Nonnita Mann in Sequoia Theater Friday night.

Scenery designed by William Smith and complemented technically under the direction of Gerald Beck provided the main characters with a stage setting to complete their attempt at recreating this story.

The audience was amused and awed throughout the show with performances by Richard Dart (Dylan), Judith E. Shogren (Dylan's wife - Caitlin), and C. W. Metcalf (American poet - John Brinnin). Mr. Dart portrayed the controversial poet, whose love for everything in life proved to be his doom. The power of Miss Shogren's talent conveyed the joy and anguish she felt as Dylan's wife. Mr. Metcalf showed

refined style as a concerned and frustrated friend of Dylan Thomas.

Scenes that highlight the performance are played for the most part by Mr. Dart and Miss Shogren. The bathtub scene where Dylan tries to sober up in a lady friend's apartment provided added entertainment on Friday night. Meg (Laurel Metcalf) slipped by almost completely undressing Dylan, who usually does this scene in his skivies. The most effective scene of the play is the most simple in stage structure. In this scene Dylan comes to face himself and realizes what the future holds in store for him.

Although this is an amateur production, it is done well. All aspects of the show, from acting to lighting, reflect the talents of professionals in the making.

## Glen Yarborough in Concert Tonight

Famed recording vocalist Glen Yarborough returns to Humboldt State College for a guest appearance on Wednesday, October 23 at 8 p.m. in the Men's Gym, presented by the College Program Board.

In 1966 Yarborough performed for hundreds of students at HSC and he is a favorite on the college campus circuit. "Baby the Rain Must Fall" is his best-remembered hit recording.

Appearing with Yarborough will be the Fred Ramirez Instrumental Trio and the folk comedy group, Moffitt and Davies. Admission charges will be \$3 for the general public, \$2.50 for high school and other students, and \$2 for HSC ASB card holders.

Tickets may be purchased in Eureka at the Fireplace Bookshop on the Mall and the Photo Specialty Shop and in Arcata at the HSC Bookstore and Jerry's Bookstore.

Yarborough does not consider himself a folksinger. He explains, "I sometimes sing with a folk flavor, but I will sing any song as long as it means something to me musically and especially lyrically. I guess you could say I sing somewhere between folk and folk rock."

Commercial songs written for impact without any real context are meaningless, Yarborough believes. "I sing anything that has a message, at least to me, anyway." This performer favors composers who "produce the kind of lyrics I can approach honestly."

Rod McKuen, a talented poet of today's college generation, is one of Yarborough's main song contributors. McKuen states, "I am convinced that there is more real music in Glen's natural voice than in any composition I've ever created."

Wednesday, October 23, 1968—Page 7

## Study Opportunities Abroad

By DAVE BENNETT

In the coming academic year, 1969-70, 425 students from all eighteen state college campuses will be studying abroad as participants in the California State International Programs. As the official academic year study abroad activity of the state college system, the California State International Programs have sent more than 1,400 state college students to campuses in Europe and the Far East during its first five years of operation. The large majority of these participants has received loans and other forms of financial assistance. Students in the International Programs may study at the University of Aix-Marseille, the Free University of Berlin, the University of Heidelberg, the Hebrew University of Jerusalem, the University of Tel Aviv, the University of Florence, the University of Granada, the University of Madrid, the National University of Taiwan, the University of Uppsala, the University of Stockholm, or Waseda University in Tokyo.

To qualify for this unique study abroad opportunity, students must have upper division or graduate standing by September 1969 and must have a good academic record. Participation in the French, German, and Spanish Programs require proficiency in the language of instruction. The Programs in Israel, Italy, Japan, Sweden, and Taiwan do not require previous study in the language of the country. All International Programs include two semesters of academic work which is fully accredited and designed, whenever possible, to meet the degree requirements of the student's home campus.

In addition to the academic year of study at the host university, students have extensive travel opportunities.

Dr. Thomas Lantos, Director of the California State Colleges International Programs, will speak on study at universities abroad in the Studio Theater at Humboldt State College at 9 a.m. on Thursday, October 24, according to Dr. James Turner, professor of sociology and campus representative for the programs.

Turner said Lantos will explain the opportunities of the programs and answer questions from the audience. Members of the community, as well as students, are invited to attend. Lantos and a member of his staff will hold interviews with interested HSC students following the presentation.

The programs, Turner explained, allow upper division or graduate students with a B average or better to attend certain universities in France, Germany, Israel, Italy, Japan, Spain, Sweden and Taiwan for one academic year of study.

Participants must meet requirements set by faculty committees at their respective campuses and those established by a statewide faculty committee. Programs are open to qualified students in all fields of study, and all programs include intensive language work. Prior language proficiency is required only for those students who wish to attend universities in France, Germany, or Spain.

Over 400 students from the California State Colleges will be admitted to universities abroad during the 1969-70 academic year. Sixteen Humboldt State students are among the 300 currently enrolled in the programs.

Details on the programs and sign-up sheets for interviews are available from Walt Norem, Administrative Assistant to the Vice President for Academic Affairs, in Room 217 of the Administration Building.

## Mock Election

The HSC Mock Election will be held on Wednesday, October 23, and Thursday, October 24. The hours of polling will be between 8:00 and 5:00 on both days. Booths will be located at the Cafeteria and the Education-Psychology buildings on Wednesday and the Campus Activities Center and Science building on Thursday. Students are reminded that they must present their ASB cards to receive a ballot. Results will be tabulated immediately following the closing of the polls on Thursday and will be made available to the local news media the following day. Analysis of the election will be presented to the student body via the next issue of the LUMBERJACK.

# LUMBERJACK TRAINERS

This photo essay is an effort to show the amount of work done by the Humboldt State trainers in order to keep our athletic teams healthy and competitive.

The staff is composed of Ced Kinzer, Head Trainer; Jim Malone, Asst. Trainer; and Student Trainers Don Comfort, Leo Giovannetti, Dave Kinzer, Terry Maoki, and Ken Reed.

All preventive and rehabilitative therapy is handled by the trainers; while the broken bones, etc. are taken care of by the team physician, Dr. Doan.

The primary job of the training staff is to keep injuries from happening through proper taping methods. However, when injuries are incurred, then it's the job of the trainer to get that athlete back into competition as soon as possible, safely.

The types of injuries handled by the staff include: sprains, strains, contusions, abrasions, separations, and dislocations.

There is a variety of therapeutic equipment available to the Lumberjack athletes. In hydrotherapy, they have the cold tank, ice packs, ethyl chloride, thermotherapy, whirlpool, steam room, and analgesic heat packs. Electrotherapeutic equipment includes the mechanical vibrator, the ultrasound machine, and the muscle stimulator (nerve stimulation by means of electric current). Heat lamps are also used quite frequently in the rehabilitative processes, for which all of these machines are necessary.

Kinzer stated that he and his staff treat from 250 to 300 athletes, both male and female, in the fall quarter. These include football-80,

basketball-50, wrestling-40, water polo-35, cross country-30, women's athletics-50; and a few athletes from winter and spring sports who come in for rehabilitation.

Their primary function in preventive care is taping, especially in the fall during football season. Last year, between September 1 and November 23, the trainers used over 22 miles of tape.

One other area which may be the most important of all is psychotherapy. That is, getting the athlete's mind off of his injury (through the proper treatment of athletic injuries), so that he will be able to perform to his utmost ability every weekend.

Coach Kinzer is one of the most highly regarded trainers in California as anyone who has the misfortune of being treated by some other school's trainer has discovered. He and his staff are to be congratulated for the outstanding job which they do day after day, with all too little recognition. I hope that this essay partially alleviates that problem.

## ATHLETES-OF-WEEK

FOR WEEK OF OCTOBER 16, 1968

### Trout Unlimited

SAN FRANCISCO - California Trout Unlimited today turned over a check for \$2,000 to Humboldt State College as its first annual contribution to research on the Lower Hat Creek wild trout project.

The check was formally presented to Dr. Roger A. Barnhart, Leader of the California Cooperative Fishery Unit at Humboldt State College in Arcata, by Joseph Paul, San Francisco Bay Area Chapter Trout Unlimited president and chairman of its California Council Hat Creek Project Committee.

The first scholarship fund will go to Charles Apperson, Cooperative Fishery Unit graduate student at Humboldt, who is studying food organisms of Lower Hat Creek and will initially assess the effect of chemical treatment on aquatic insect population. In addition, the Humboldt State Cooperative Fishery Unit has assigned a second full-time graduate student on the Lower Hat Creek project, Roger Ross. He will study food habits and growth rates of rough fish populations in Lower Hat Creek.

"This is one of the most meaningful steps ever undertaken to expand wild trout fishing in California," Paul said. "The lessons to be learned at Lower Hat Creek will enable California's Fish and Game Department to restore other similar watersheds to quality trout fishing as an alternative to the put-and-take catchable trout program."

The Hat Creek project, a joint enterprise of Trout Unlimited, Pacific Gas and Electric Company, California Fish and Game Department, the California Wildlife Conservation Board, and Humboldt State College, moved into high gear this month with completion of a \$15,000 rough fish barrier at the mouth of Hat Creek where it empties into Lake Britton, and highly successful chemical treatment of Lower Hat Creek on October 4 to rid it of trash fish. Some 12,000 pounds of suckers, hardheads and squawfish were eliminated from Lower Hat Creek at that time.

The wild trout restoration project on Lower Hat calls for restocking 3-1/2 miles from Hat 2 Powerhouse to the rough fish barrier with a complete population of wild strains

of rainbow and brown trout. A six-year study of the stream by graduate students from Humboldt State College is being financed by a \$12,000 Trout Unlimited research scholarship fund.

The stretch of stream will be opened to California fishermen at the opening of trout season 1069, subject to trophy fishing regulations, including a special two fish bag limit. There will be no size or tackle limitations on this stretch of water.

Trout Unlimited, which originated the project and secured the cooperation of the other principals, has raised nearly \$20,000 to date in its \$12,000 goal for research scholarship funds. All those interested in assisting in the project are urged to send their contribution to Trout Unlimited Hat Creek Research Fund, PO Box 2046, San Francisco. The gift is tax deductible.

### Intramurals

By GARY BANNISTER

Twelve teams have been entered in the Volleyball Tournament and will begin competition this week. The teams have been divided into two leagues and will play on Tuesday and Thursday nights at 7:00. The Green League will play on Tuesdays and the Gold League on Thursdays.

Participants in the Tennis Tournament will begin their tournament on Saturday morning and will complete their net play on successive Saturdays. The Turkeytro, a two mile footrace, will be held on Wednesday, November 6, at 4:30. A turkey will be given to the first place winner and also to the club or organization that compiles the best team scoring effort. A team will consist of no more than five members. The Swimming competition will be held on Thursday and Friday, November 14 and 15. Those interested may enter individually or as a team. The deadline for entries will be on Friday, November 8.

Small trophies will be awarded in all the intramural activities. A trophy will be awarded to the first three place finishers in the individual events, and to each member of a winning team.

GARY MILLER

Gary Miller, Political Science major from Walnut Creek, was selected as the cross country athlete of the week for his fine performance at the Sacramento Invitational Cross Country meet.

Gary is minoring in History and hopes to go into politics with his major/minor combination, after teaching for a few years in the Bay Area. He is maintaining an overall grade point average of 3.2 in his college work here at Humboldt.

While Gary attended Pleasant Hill High School in Walnut Creek, California, he was a member of their cross country team which was ranked seventh in the nation.

His interests include hiking, camping, and fishing.

JOHN BURMAN

This week's football Athlete of the Week is senior John Burman, from Eureka. John is presently leading the Far Western Conference in rushing with almost 250 yards more than any other back in the league. He is also first in the scoring department with 36 points, 12 more than anyone else. And he is fourth behind three quarterbacks in total offense. (In other words, he is running more per game than many of the teams in the conference are able to gain with four backs and two ends.)

John is an Industrial Arts major who will go into teaching at the secondary level when he graduates from HSC this June.

MIKE HABER

Mike is a graduate of Westminster High School in Westminster, California, where he lettered three years in water polo, and four years in swimming.

He attended Golden West College in Huntington Beach where he once again competed on the swimming and water polo teams.

Mike is majoring in Business Administration, and has maintained a 2.6 g.p.a. throughout his college career. Upon graduation he will go into business administration or insurance adjusting.

His major interests include aquatic activities such as surfing, diving, and water skiing. He also recently completed building a beach buggy in his "spare time."

## HSC Harriers Over Chico and Hayward

By KEN LYBECK

Last Saturday, Humboldt State's cross country team, "The Green Machine", trampled Chico State and Cal State Hayward in a three way meet at Hayward. The scoring in the triangular meet was HSC 19; CSC, 46; CSCH, 60. Scored as a double dual meet, the results were HSC, 17; CSC, 38; and HSC, 17; CSCH, 42. Keep in mind that the low score wins.

Humboldt's Gary Tuttle led the individual honors with a first place time of 20:27 for the hilly four mile course. Following him were Vince Engel, 2nd, 20:43; Alex Zygaczenko, 3rd, 21:02; Gary Miller, 4th, 21:03; John Noonan, 9th, 21:33; Howard Labrie, 12th, 21:46; and Mark Byers, 14th, 22:09.

Although Gary was never pressed for the lead, he still turned in an excellent time for this particular course. In view of this fact, coach Jim Hunt was very pleased with the overall performance of the team; noting that there were only 36 seconds separating the first four Jack runners, and only 1:42 separating the whole varsity seven.

Citing individual standouts, Hunt said that the first four finishers were to be congratulated, especially Tuttle and Engel. He added further that freshman Howard Labrie "is starting to get tough." This is very promising for future Humboldt cross country squads as both Labrie and Zygaczenko are freshmen, and Gary Miller is a sophomore.

The prime reason for the fine showing by the Green Machine, and particularly the Fearsome Foursome (Tuttle, Engel, Zygaczenko, and Miller) was the extra tough workouts that Coach Hunt has been giving his harriers. Last week, they ran 19 miles on Monday, 16 miles on Tuesday (seven of which were across the sand dunes), 15 miles on Wednesday, and 12 miles on Thursday. Friday they rested with a 4 mile jog to "loosen

up" before the meet on Saturday. Hunt gave no indication of letting up before the NCAA Championships two weeks hence. He said, "These workouts made the team tough, both physically and mentally; they ran tough in the workouts, and they ran tougher in the meet. The hard work paid off."

It should be pointed out that the fifth place finisher was Dwayne Ray of Chico, the state junior college mile champion last year with a time of 4:06 for his four-lap specialty. Sixth place went to Dick Hunter of Cal State, who was a finalist in the NCAA College National Championships last year in the 10,000 meters.

This week the Lumberjack distance men will take on UC Davis and Sonoma State College here at HSC. If the two visiting teams will consent to the time change from 11:00 a.m. to 1:30 p.m., then the race will start in Redwood Bowl during the Homecoming football game between HSC and SFS. This will give the student body, as well as the general public, a chance to see this outstanding collection of runners comprising the cross country squad. The race will be about 20 to 30 minutes long, so it should end shortly before the halftime festivities get under way.

The following week, Humboldt travels to San Francisco State to take on the Gators, and the Wolfpack from Nevada. Coach Jim Hunt has expressed a desire to lengthen that course one mile to the five mile distance which will be used the following week at the College Division Nationals in Wheaton, Illinois. If the team continues to improve as it did this last week, then the coach may want to send a five-man team to Wheaton this year instead of Gary Tuttle only, as in the past two years.

## Homecoming 1968 Jacks vs. Gators

By KEN LYBECK

This Saturday afternoon, the Humboldt State Lumberjacks take on the San Francisco State Golden Gators in a battle between the only two unbeaten teams in the Far Western Conference. It will be the traditional Homecoming game for the Humboldters, so a capacity crowd is expected.

Humboldt will be going into the game with the league's most accurate passer (QB Jim Costello), the leading scorer (HB John Burman), and the first, fifth, and seventh best rushers in the FWC (Burman, Danny Walsh, and Bob McAllister, respectively). The Lumberjacks also boast the best offense; and the best defense against the rush in the conference.

This should be a very interesting game, in that San Francisco prides itself on its defensive ability, having won the last two ball games by a total of only four points. This against the explosive offense of the 'Jacks, which has scored 93 points in two home games; while holding its opponents scoreless!

This series, one of the oldest in the FWC, dates back to 1931, when Humboldt and San Francisco played to a 7-7 tie, the only one on record. SF leads the series with 15 wins, 11 losses, and 1 tie. Humboldt hasn't beaten the Gators since 1964; and they will be out to avenge last year's 68-34 drubbing to the FWC champs.

San Francisco has a capable passer in Butch Whyburn, but he is no Bob Toledo (last year's QB, who led the nation in many offensive stats). However, they do have the league's leading receiver in Terry Rosencrantz; but the best running back they can field (Glenn Baker) is ranked tenth in the FWC.

The Lumberjacks have too much going for them with Homecoming; the home field advantage; the league's leading scorer and rusher; and the most accurate passer in the FWC. SF will still make a scrap of it, but come up about 10 points short of victory.

## Water Polo Wins Two FWC Tilts

By MIKE STOCKSTILL

Returning from a long week-end of water polo, the Humboldt State water polo squad brought back two league victories and three non-league defeats.

Humboldt defeated Cal State at Hayward by scores of 10 to 3 and 9 to 5. The Jacks lost to U. C. Berkeley 16 to 4, to U. C. Santa Barbara 16 to 5, and to the University of the Pacific, 9 to 5.

Considering the tough competition, Humboldt fared well against the big schools. U. C. Berkeley and U. C. Santa Barbara are both among the top ten rated schools in the entire nation in water polo. Coach Jim Malone said that his team played well against the big schools, and noted that Cal has beaten Chico 23 to 1 and Hayward 28 to 3. "We played good ball against the two big schools, I'm not disappointed at all," the coach said.

In the game at Berkeley Thursday night, Marshall Kane scored 3 Humboldt goals, George Sirovy getting the other. Against the University of the Pacific Mike Haber scored 2 goals while Ken Cissna, Leroy Childs and Marshall Kane each scored one goal each.

In the UCSB contest, which was also played at Berkeley, Norm Chapman turned in a fine game, scoring 3 goals. Coach Malone said that Chapman was outstanding in his play, both offensive and defensive.

Jack Harris and Marshall Kane scored Humboldt's other 2 goals against Santa Barbara.

Humboldt entered league competition Friday night against Hayward. The Jacks scored their first league victory as they defeated Hayward 10-3. Marshall Kane and George Sirovy each scored twice, while Mike Morey, Mike Haber, Brent Howatt, Jaime Roig and Jack Harris scored one goal each.

In Saturday's game against Hayward the Jacks were again victorious, 9 to 5. Ted Deacon scored twice for Humboldt, Mike Morey, Mike Haber and Jaime Roig scored one goal apiece. Marshall Kane, the Jack's leading scorer, got 4 goals on Saturday. Kane's total for the week-end was 11 goals.

Coach Jim Malone said that the trip was a worthwhile one for the Lumberjacks. "The boys learned a lot from playing the big schools," Malone commented. Malone also said that the team missed the playing of Eric Oyster, who did not make the trip.

With only three weeks until the conference tournament, Malone is optimistic. "We'll be tough," he said.

The water polo team is at home this week-end for Homecoming. The Jacks meet San Francisco State Friday night at 7:30 and again on Saturday morning at 10:30.

Jaime Roig is shown here firing a goal at the tournament in Oregon two weeks ago. This last Sat., HSC took two from Cal State Hayward.

Norm Chapman attempted this goal at the Southern Oregon tournament in Ashland, Oregon. This was the first intercollegiate water polo to ever be played in Oregon.

## LONGEST PLAYS OF 1968

Longest pass play: 62 yards - Jim Costello to John Burman, Humboldt State (vs. Sacramento)

## Humboldt State Plants Cal Aggies

By BOB VINCENT

Humboldt State plowed under UC Davis' hopes for their first conference win last Saturday at the Davis field. The Loggers put on a well-balanced offensive show and took advantage of numerous Aggie mistakes in the 29-8 rout.

After a hard-fought first quarter, quarterback Jim Costello connected with end Dennis Sousa for a 21-yard aerial for the first tally of the game. Dave Banducci's kick for the PAT was no good and HSC led 6-0.

The Jacks marched on numerous drives, only to be halted by the tough front wall of the Mustangs. This set the stage for Banducci to establish a Far Western Conference record for field goals in a quarter with kicks of 21, 25, and 33 yards.

Costello put on an aerial display, hitting Dennis Sousa on ten passes for 159 yards. Completions on key downs gave the Jacks the position for Mike Cremer to put the ball across from the three. Banducci's kick gave

the Jacks a 22-0 lead going into the final quarter.

The Aggies broke the shut-out when they connected on a 49-yard pass play for their only score of the afternoon. They then added a two-point conversion to trail the Jacks 22-8.

Jeff Getty intercepted an Aggie pass and ran to the Mustang five. Three plays later Danny Walsh raced around left end for the final Humboldt score. Banducci kicked his eleventh point of the game to make the final score 29-8.

The Humboldt defense dug in many times to thwart Aggie drives. Five pass interceptions were another factor in the lop-sided game.

Next week the Loggers will attempt to run their FWC record to 3-0 at the expense of San Francisco State. The Jacks will try to use the homecoming game as the setting to avenge the 68-34 loss last year to the national-rated Gators.
