ACCENT OPENS TO HSC STUDENTS

Governor Reagan Visits Eureka

By LEE URAN

Governor Ronald Reagan made a fund-raising appearance at the Eureka Inn on October 2, arriving at the Arcata-Eureka Airport at 6:25 p.m. on Wednesday.

He was welcomed at the airport by a group of enthusiastic supporters including the local chapter of Young Republicans and a band they had organized.

At the brief news conference held there Reagan stated the Proposition 9 (dealing with property tax) was a "legislative trick" and "pulls the rug out from under the economy". He said he could easily see where sales and income taxes might be three times greater than the present taxes because of this. He also stressed the importance of the protection of natural resources in Northern California.

Reagan then left the airport and proceeded to the Ingomar Club where he addressed an informal gathering. Outside the Mansion some fifty demonstrators marched carrying signs reading "Cleaver yes, Reagan no" and "Send Reagan to Viet Nam".

To conclude his schedule for the evening, Governor Reagan went to the Eureka Inn for a \$60 a couple fund raising dinner for local Republican candidates. While the dinner went on quietly inside, forty-five to fifty demonstrators outside continued to shout "Banish Reagan from the state".

Gov. Ronald Reagan answered a number of questions upon arrival at the Arcata Airport last Wednesday evening. Among those questioning the governor was Lumberjack Editor, Ron Harding, shown above directly behind the California Chief Executive.

Reagan Protest

By RICK KHAMSI

The handbill said, "Greet Governor Reagan . . . Demonstrate for Academic Freedom, Immediate end of the Vietnam War, and an end of racism." Nearly fifty people decided to do just that last Wednesday when Governor Reagan visited Eureka.

Some of the demonstrators met in the Library parking lot, where several people had volunteered the use of their cars. About fifteen people piled into two cars and drove to the Ingomar Club, where the demonstration was to start. On the way, they passed a separate group of protestors at the 17th Avenue

intersection in Arcata. When the cars reached the Club, thirty people had already gathered, making ready to start the protest. Signs and placards were lifted out of the cars and passed out. Then the demonstration began.

The demonstrators formed themselves into a moving picket line in front of the Ingomar Club's iron fence. The signs said "Reagan and Wallace in 1984", "Send Ronny to Vietnam", "No more budget cuts for higher education," "Academic Freedom," and "No choice in 1968 Burn your ballot." The picketers were cheerful. Some chanted "2-4-6-8, Banish Reagan from the State." Others talked among themselves, waving occasionally to the unidentified cameraman taking their pictures from an upstairs room in the mansion. The line stopped moving for a moment when Governor Reagan's car drove to the front of the mansion. Outside the car, Reagan smiled widely and waved to them.

After Reagan had gone into the mansion, the demonstrators moved the picket line to the front of the Eureka Inn, where Reagan was to

The newly created Action Center on Student Needs (ACCENT) has opened its doors to all students and organizations on campus. This center will "provide students with an access into the institution in order to get it to respond to their needs," according to Charles Bush, counselor at large.

The creation of this office is a result of informal student-faculty-administration meetings. Mr. Bush continued, "Its function is simply to help students satisfy whatever kinds of needs they have on the campus. To try and investigate complaints on the students' behalf, to intervene until the problem is solved, and to provide special consulting service for organizations and individuals, to get them in touch with individuals or organizations with special skills or who can provide special training for

them."

"The concept behind the center, is quite literally that the center belongs to the students, and that they will decide in the future how I can serve their interests best. We're in the process of selecting a student board of directors, those interested in serving should come in and talk with me," continued Mr. Bush.

After graduating with a B. A. in Philosophy from Willamette University in Salem, Oregon, Mr. Bush continued to earn his M. A. in Philosophy at the University of Hawaii. He taught philosophy for three years at Humboldt State before accepting his appointment as counselor at large. When asked why he chose this position instead of remaining an Assistant Professor, Mr. Bush replied, "During the two years I taught Philosophy my real concern was for the experience of the student, not just for his hour in a philosophy lecture. As a result of this, I moved to the dean of students office where I could become more involved with people and what is really happening on the college campus."

The office of the counselor at large is located in the administration building, room 213A. One may arrange for appointments between 12:00 noon and 4:00 p.m.

Mock Election Proposal Made

By JIM McCONAHA

The first meeting of the HSC Young Republicans for the academic year 1968-69 was held on Wednesday, October 2, at 7:30 P.M. in the west conference room of the CAC. Discussion during the meeting centered around organizational plans and activities for the coming year. The club is reorganizing this year and will elect a slate of new officers at the next meeting.

Other organizational aspects, such as the club's constitution, state charter, and yearly dues were discussed and will be resolved during the next few weeks. It was decided that the club should meet on a weekly basis until after the November elections. Members will continue to devote their efforts to aiding the county Republicans in campaigning for local, state, and national candidates. The next regular meeting will be held on Wednesday, October 9. The club encourages all students who are interested in politics and desiring to learn more about the political process to come and join with us this year.

A final proposal was made that the YR's, in cooperation with other interested clubs on campus, hold a mock election for all students prior to the national elections. A voting procedure similar to that used during Choice '68 would be incorporated. This idea is to be presented to the student body to determine their interest. While it is agreed that the results of such an election would not reflect Humboldt County voter preference, it is felt that both students and the local community would be interested in the outcome. Clubs interested in supporting such an endeavor should leave notice in the YR mailbox in the CAC or contact any YR member. Any students who feel such a mock election would be a worthwhile effort should direct their response to the editor of the Lumberjack.

Forensics Team Opens Season

By JIM SAN FILIPPO

The forensics department opens its formal program on October 12 with a debate workshop at Sacramento State College. In addition to Inter-collegiate Debate, both Parliamentary Debate and Oral Interpretation Workshops will be offered to all students.

The 1968 National Inter-collegiate Debate topic is: "Resolved: That Executive Control of U. S. Foreign Policy Should Be Significantly Curtailed." Members of the Inter-collegiate Debating Team will work with this topic for the entire school year. In addition to this area of speaking, students will prepare other speeches to be presented at various debating tournaments. These additional speeches will be in the areas of extemporaneous, oratorical, informative, oral interpretative and impromptu speaking. Humboldt State will compete at Pacific University in Oregon, on October 25 and 26, and later in the quarter, Brigham Young University in Provo, Utah.

"Resolved: That Topless Dancers Are Immoral" is the opening topic for the Parliamentary Debate program. Second and third topics for debate will be "Resolved: That Peacetime Spying Is Worth The Risk" and "Resolved: That Trial Marriages Should Be Legalized." These programs will take place on October 16 and 30, and November 13 respectively in the CES auditorium at 8:00 p.m.

The Oral Interpretation Workshop is "designed to give students reading experience in fields of all types of literature," according to Mr. Peter

Coyne, head of this department. This group will present selections by Mark Twain on November 3.

When asked what function the forensics department served, Dr. Lewis Bright, director of speech activities, replied "We view this program as an important part of a student's education, because it gives the student a facility in language and speaking, and makes him more aware

(Continued on Page 2)

Compujob On Campus

A new and unique method of recruiting graduating and graduate students for industry and the professions has been instituted on more than 800 campuses this fall by a company called COMPUJOB. This program is here at Humboldt State College.

Many students picked up the available questionnaires at registration. However, the supply ran low and some persons might not have received the applications. If this is the case the questionnaires are available in the Placement Office, West Wing of the CAC. Those students who have already received theirs are urged to return them to the Placement Office as soon as possible. These applications will enable graduates to more easily find the type of job they are seeking since they will be sent not only to our Placement Office but to the COMPUJOB headquarters in Washington, D. C.

There are many reasons why underprivileged children do poorly in school, the lack of an "educational tradition" in the home, i.e. few books; insufficient language and reading skills; inadequate motivation to pursue a long-range educational career and poor estimate of self; antagonism toward the school and the teacher. The solutions to these problems may seem difficult at the very least, or practically impossible under the present structure of public education. And yet to ignore the problems of an inadequate education of the culturally deprived, the under-achievers, the slow learners in this area can hamper the progress of the whole society.

We are in our second year of Humboldt's tutorial program, Youth Educational Services (Y.E.S.), for the elementary students in the Humboldt Bay region. We profess no claims of solving the overall educational problems of the community, but we try to aid the development of as many kids as we have tutors. We establish one-to-one relationships, and hopefully supply enough materials in our centers so that

individual educational needs can be met.

The primary purpose of Y.E.S., however, is not developing better geometry students or those who spell better. It is to foster a desire for education, to show what a good education can do by giving the kids living, breathing examples.

A tutor puts into the program a minimum of four hours a week. He receives in return one pal, one monster, or one scared kid who will worship, attempt to kill, or run-away in a fit. Those who tutor will attest, however, that they learn as much or more than their "tutee". Why? Because a volunteer for such a program puts himself in a totally different environment than his college surroundings. He becomes a guide for his tutee, a big brother, and a teacher, but mainly he is there and wants to help. The kid is no dummy, he knows someone does care about his problems, and he usually will respond in a very favorable manner. The tutor is responsible, to be honest with his tutee and develop a friendship. With this, some form of success should follow.

"Hey You, Boy "

That's what they'll call you at work if you don't get a good education.

By JOHN WOOLEY

individual educational needs can be met.

Why Student Government? : Part II The Personal Aspect

By CHAD ROBERTS

To those who aren't involved in it, there probably seems nothing less interesting than student government and student activities. These are the people who consider colleges and universities as classrooms, labs, and lounges; places where one can get formal training of great value, and form lasting friendships with others who feel the same way. Included in this sphere are clubs and social groups, where the atmosphere is basically the same. It's a small step from the classroom to the club meeting, and few hesitate to take such a step.

A second small step takes one from the club level to the broader level about which I'm concerned. The fact that few persons take the second step indicates something, but I'm not sure what.

Ask someone engaged in student body activities why, and he'd probably scratch his head for a minute and give you a non-committal answer. The truth is, that like everything else, people are in student activities for a variety of reasons. The one that most frequently comes to everyone's mind is the publicity and personal glory the activities bring. I wonder who, outside of the small circle of involved people, could name five representatives-at-large to Student Legislative Council? Further, the glory-hunter soon is left by the wayside in a search for people who'll work.

The most important and most convincing reasons why anyone is involved in student government and activities all hinge on the personal value of the experience gained from

the activities. Person A may be there because he is fascinated by the actions at the college community. Person B may be there because being there builds his self-esteem and self-confidence. Person C may enjoy the company of the campus leaders. Everybody is there because they consider student activities an integral part of their collective education.

I assume the question is forming in some of your minds: Why am I in student activities? If you really want to know, ask me sometime. I guarantee an interesting, provocative, well-seasoned answer.

FORENSICS

(Continued from Page 1)

of the complexities of current issues and teaches him something about research. The people who are involved in inter-collegiate debating can point to a large body of research which indicates a very strong relationship between debating and personal success. A very large number of people in the Supreme Court and Congress, and in public office have had debate training in college."

Any students interested in any of these programs, regardless of experience, should contact the forensics department.

Volunteer

Mr. Roger W. Willmarth, the son of Mr. and Mrs. Frank G. Willmarth, Downieville, California, has recently been named a Peace Corps Volunteer after completing eleven weeks of training at the University of Washington and two weeks of orientation in Chile. Roger attended Humboldt State College majoring in Fisheries.

Roger is one of 22 new Volunteers who will participate in a Chilean program designed to expand the fishing industry. One group will work with inland fisheries, implementing new techniques into existing fish hatchery stations and performing biological studies of fresh water in their vicinity. The other Volunteers, working in marine fisheries, will help institute a sound data collection system in major fishing ports as well as conduct studies on commercially important species of fish, shellfish and algae.

Spectrum Announces 1968 - 69 Theme

By DAVE BENNETT

SPECTRUM, the program which has for the past two years, brought on-campus speakers on some of the most controversial issues of our time — Civil Rights, The Drug Problem, Hippy philosophy and many more — will open its 1968-69 series under the banner of POWER, FREEDOM and GOVERNMENT.

Steve Stringham, SPECTRUM Chairman, has expressed the need for HSC students to understand the meaning of this year's theme for the program. Stringham stated, "What governing body in modern America isn't facing an increasing fire of criticism? How few these must be — for how great the dissatisfactions we find around us. Most of us see government as, ideally, the servant of the people — a servant perceptive

enough and flexible enough to remain effective despite an ever changing master. Yet in how many ways the servant is truly the master, by function if not by formal definition. How different from ideals of representative government is the U. S. Federal system, especially for minority groups. Can the ideals we set really be so far beyond our capacity for realizing them?"

"POWER, FREEDOM and GOVERNMENT will seek to understand how our own government and those of other countries actually function and, from this base, try to determine what range of capacity we do have for realizing our ideals. And, in conclusion, it will suggest how we might work within the limits imposed by nature and man to more closely achieve those goals."

SPECTRUM needs your help! To realize the potential of POWER, FREEDOM and GOVERNMENT and our other programs, SPECTRUM

needs sub-chairman and part-time aid. "POWER, FREEDOM and GOVERNMENT can be an effective and rewarding program. And it will — only if we have the necessary man-power," Stringham stated.

The LECTURE-CONCERT COMMITTEE is also in need of student members. The LCC is a group representing the entire campus community, bringing lecturers and entertainers to HSC. Are you

dissatisfied with past presentations; do you want to see specific lecturers or performers brought to our campus? Do you want to influence the choice of such attractions? If so, consider joining LCC.

If you are interested in membership in either SPECTRUM or LECTURE-CONCERT please leave a note with your name, phone number, address, and how you would like to contribute, in the SPECTRUM box in the east wing of the CAC.

Letters to the Editor

Editor:

Rubbish, Rubbish—that's what this paper is—when it finds its way into the C.A.C. It seems to me that the students at HSC have established their own city dump in an area provided for their social and recreational activities. Are we rats??? Do we make squalor and dwell in it??? ... Something must be done or we may find ourselves nicknamed the Lumberjacks' rather than the Lumberjacks. Whose job is it to keep the C.A.C. clean? If the students have not the incentive then let's create jobs for those individuals who have. After all money and incentive go hand in hand. Okay—somebody do something.

Tired of Dirt,
J. Bennett

students at the school, a sufficient amount of bulletins are not printed. I feel that additional copies would not put Governor Ronald Reagan far back in his budget!

I feel that these three problems—conflicting dates of activities, violation of the Publicity Rules, and insufficient bulletins—all contribute to the lack of participation in activities. And for these same reasons, I am seeking the position of Representative at Large in the upcoming election. If elected, I will participate in the Publicity Committee and see that these problems are rectified.

Bonnie Sullivan

Editor:

To venture into the current controversy of lack of student participation at school events, I feel this lies in direct relation to the inactive status of the publicity committees. I realize that there is a finalized calendar of events; however, this calendar is not serving its purpose—that is, to prevent several activities from occurring at the same time. When this happens, obviously none of the activities should be arranged so as not to conflict with each other. If several activities occur on the same day, they should be arranged so as to compliment each other—not to detract from each other.

I feel that another reason for lack of student participation in activities is the violation of Publicity Rules. According to these rules, posters are to be removed they day after the specific event. You have probably noticed, as I have, posters remaining on the bulletin boards several days after the activity has taken place. This causes a cluttered mess on the boards, besides limiting space and visibility for current posters.

Weekly activities are listed in "Today's Bulletin". However, this presents another problem. With the current rise in the number of

The upcoming student body elections are very important and I am very displeased with this publication for not giving them more exposure. Very few people on campus are aware that next week we will be electing five representatives-at-large. This fact should be on everybody's mind, especially when the mood on college campuses across the nation is for more student control. These reps-at-large are our means of gaining more say in our education.

Here, I would like to mention one candidate running who I feel will contribute greatly to our Student Legislative Council. His name is Phil Backlund. Phil has been Treasurer of the Delta Sigma Phi fraternity for two years and has been on the College Program Board for a year and a half. Phil is a senior majoring in Business Administration and has had all his college education at Humboldt. He is aware of the student needs and desires and is a man of impeccable character. I sincerely hope that the student body will carefully scrutinize Phil's qualifications. When this is done I am sure they will come to the same conclusion I have: he will make an excellent rep-at-large.

LUMBERJACK Tau Kappa Epsilon Active Fraternity

By JUDY HILL

If anyone wonders what has happened to the local chapter of TEKES this year, walk down to 14th and "I" streets in Arcata, knock on the door of the house there, (be careful, there are four houses at 14th and "I"), and you will find most of them inside.

Tau Kappa Epsilon Fraternity was first founded in 1899 at Illinois Wesleyan University in Bloomington, Illinois. The five founders — Joseph L. Settles, Owen I. Tritt, C. Roy Atkinson, Clarence A. Mayer, and James A. McNutt — originally named it the Knights of Classic Lore. In 1902 it was incorporated and given its present name.

Today Tau Kappa Epsilon is the largest international fraternity in the world with approximately 100,000 active members. Since 1940 it has grown from 40 chapters to 256 at present.

Some of the more famous alumni of the fraternity are Conrad Hilton, Ronald Reagan, Merv Griffin, St. Anton, and Jim Grabowski.

The local chapter of Tau Kappa Epsilon, Theta Epsilon, was a colony in 1958 and became the 176th chapter to be chartered in May of 1960. It now has 45 active members with a pledge class of twenty-two for the fall quarter. The fraternity feels it operates at its best with sixty or seventy members.

The officers this year are: president, Pat Crooks; vice-president, Rich Hasper; chaplain, Rick Lav; secretary, Tom Pivk; sergeant-at-arms, Preston Becker; treasurer, Bill Vance; historian, Bob

Boschee, pledge trainer, Bob Christie.

In an interview, Pat Crooks, president of TEKE stated, "I feel fraternities are good training in leadership, decision-making, and general character building, thus doing their part to serve the campus and the community. The fraternity believes in encouraging members in extracurricular activities and a concentrated effort is made to participate in campus events."

This year several of the TEKES are taking part in HSC campus life. Pat Crooks is chairman of the ASB Board of Control and business manager for the Lumberjack. Craig Richards is ASB treasurer. Dave Tramberger and Don Crotty are cheerleaders, and Dave is president of Inter Fraternity Council. Dave Bennett is representative-at-large and can also be found in the news office as news editor. Jim Powers, one of the new TEKE pledges, is now president of the new freshman class.

Any TEKE will tell you that not only taking part in campus life is

important, but also service to the community. The national fraternity has a Public Service Weekend each year, in which every chapter spends one weekend in service to the community or college. Last year, the local chapter spent the weekend helping the elderly and the handicapped. Near the end of this month they will be helping at the new educational television station for this area.

The fraternity also sets down certain standards for both its pledges and its active members. Each must maintain a GPA of 2.25. He must also be acquainted with the national and local history of the fraternity and know the duties and obligations of a TEKE.

Among the major social events which have become traditional for the HSC chapter are welcoming the alumni during Homecoming Week; The Corinthian Ball, a formal held in May; and a luau a week or two before school ends.

As one TEKE said, "With fulfilling these goals and a new house this year, we hope to do a better job than ever."

Seniors

STANFORD — The Stanford University Department of Communication is now receiving applications for graduate scholarships for the 1969-70 academic year. The awards carry stipends from \$2,145 to \$4,945.

Scholarships are available for students preparing for careers in editorial journalism, mass communications research, and broadcasting and documentary film. These are grants, not assistantships.

In addition to the professional A. M. programs, the department offers Ph. D. degree programs in communication research, developmental communication, and public affairs communication.

On Campus Recruiting

Industrial recruiting starts on-campus soon, with the first session scheduled for October 16th.

Last year 75 firms visited Humboldt State and conducted 623 interviews. One hundred and seventy-nine students participated in the program. This year should see us exceeding this total.

Those seniors who will be graduating in December, March, or June should register NOW in order to start in the job interview process. The October on-campus interviewing schedule, in which nine firms will be participating, is available in the Placement Center, Room 130.

A Tradition Returns

On the evening of October 12, 1968 approximately thirty young men from this college will march onto the field in Redwood Bowl to re-establish a tradition at Humboldt State College. The new Marching Lumberjacks, who will make their first appearance at that time, are a modern version of the original Lumberjacks Band which went out of existence some ten years ago, and the present all-male band of U. C. Davis.

The members of the Marching Lumberjacks have each had at least four years of experience in marching bands elsewhere before joining the new band at HSC.

Gold hardhats, gold dickies, green and black mackinaws, green Levis, gold leggings, and a high-step, fast-cadence march will be trademarks of this new all-male band.

The band is completely student-run with the exception of Director Robert Noel who was band director at Ferndale High School before taking the post at HSC. Mr. Noel brings to his job the distinction of having played on one of the nation's best college bands, the Michigan State University "Blue Band."

Drum Major Chuck Lindemann will front the Marching Lumberjacks as

they go through their precision drill routines and special "freeze" routine during pre-game and half-time activities. The band will use the theme and time of elections as a guideline for their choice of musical offerings. The songs "Impossible Dream," "Goin' Out of My Head," "Step to the Rear," and "So What's New?" will be featured as the Marching Lumberjacks begin again to build the reputation of a new, vibrant, exciting sound on the HSC campus.

Reception

About 75 persons, including the elementary education faculty, beginning elementary education students, and cooperating teachers and administrators of local school districts, attended a recent reception in the Home Economics Lounge in honor of the new education majors. Miss Hazel Hagne (Education) and Mrs. Thelma Ingebritson (Supervising Teacher, CES) were hostesses. During the gathering the students were oriented to the responsibilities of their first teaching position.

Pol.Sci.Course

An analysis of the nations of the Middle East and the roles they play in international affairs will be revealed in a Thursday evening extension course offered at Humboldt State College.

The course, Political Science 137, the Middle East in International Affairs, will aid the student of political science in relating the developments in the Middle East to certain American political and military commitments abroad, according to the instructor, Dr. Elie Smultea, assistant professor of political science.

Smultea points out that the Middle East is a more important region than many persons may realize. It is the joining place of two continents, there is the impact of the Jewish and Moslem religions, its oil-rich resources yield 60 per cent of the world's petroleum products, and it holds the attention of the world militarily with the current Arab-Israeli dispute.

The four-unit course is being held in Room 105 of Founders Hall each Thursday evening from 7 p.m. until 10 p.m. The fee is \$44. Registration and payment of fees will be accepted at the next class meeting on Oct. 10.

Veterans

VETERANS MEETING — Friday, October 11, 1968, at 12:00 noon in room AD 118. Mr. Renner, V. A. representative for this area will be on hand to explain the benefits under the G. I. Bill. All veterans please attend!

Indian Bureau Selects Teachers

A recruiter from the U. S. Bureau of Indian Affairs will visit Humboldt State College on Monday, October 14 as part of a nationwide campaign to find teachers and counselors for Indian school children in the South, Mid-West and Alaska for the 1969-70 school year.

Mrs. Mary Lou Humphrey, educational placement supervisor at the HSC Placement Center, announced that Richard H. Burrell of the BIA will be at her office in Nelson Hall on that date from 9 a.m. until 4 p.m. to interview interested persons.

Married couples with elementary teaching training are being sought for Alaskan schools in grades kindergarten through eighth. Elementary teachers for Indian schools in Arizona, Mississippi, Montana, New Mexico, North Dakota and South Dakota are also needed.

Burrell will also be seeking persons interested in serving as guidance counselors, with dormitory living program responsibility, for Indian youngsters in Arizona and New Mexico primarily.

According to a spokesman from the BIA, Burrell will be prepared to present a lecture, "The Indian Child and His Education," with color slides to education classes and interested groups during his visit.

Retraction

By RON HARDING

The Lumberjack wishes to express its apologies to the National Director of the Students International Meditation Society, Mr. J. Jarvis, and the members of SIMS at Humboldt State College. In the last publication of the Lumberjack, it was stated that Maharishi Mahesh Yogi, after being detained by fog in San Francisco, would appear Thursday, October 3, in the men's gym. This was a complete error on our part. We failed to realize that Mr. J. Jarvis, not Maharishi Mahesh Yogi, was the speaker for the October 3 meeting. Our apologies to the speaker and the society!!

Transcendental Meditation

By JUDY MILLER

"The nature of the mind is to seek a field of greater happiness," stated Mr. J. Jarvis, Student International Meditation Society National Director. He spoke before an attentive audience of approximately 500 last Thursday night. The purpose of the talk was to explain the message of the Transcendental Meditation Movement and exactly what SIMS has to offer each individual.

Mr. Jarvis continued to say that SIMS offers to the college student "a way of increasing the capacity of the person irrespective of his way of life or beliefs; it can help him realize the reality of life for himself." He

explained that according to psychologists man uses less than 10% of his mind. SIMS offers a way to expand the mind without drugs, enabling the person to use his full 100% potential.

Unlike Transcendental Meditation, drugs only put a chemical into the system that has a temporary effect. "When the substance wears away, the effect wears away," concluded Jarvis. He then quoted Maharishi Meesh Yogi as saying, "We thank the drug interest for one thing, popularizing the term 'expanding the mind'."

Later in his explanation, Mr. Jarvis stated that "education is completely baseless if it doesn't provide a way for the individual to KNOW HIMSELF." He posed the question that if you don't know yourself, how can you know anything else? He felt that, "education must give some basis for knowing thyself." He also referred to the expression, the more you learn, the less you actually know. If this is the case, "ignorance in education is increasing."

Through Transcendental Meditation, Jarvis said, "A person can practice those things that will give a knowledge of thyself." Unlike contemplation and concentration forms of meditation, Transcendental Meditation "works by reducing a thought to its source. Thoughts are sounds before they have meaning." Therefore, this form of meditation, "should be as natural and easy as breathing."

At the close of the talk, approximately 125 students indicated they would attend the interviews held last Friday. Mr. Jarvis stated that it takes five years to develop the full potential and this interview would be the beginning. This is a world-wide movement and teachers can be found anywhere in the world. These people are devoted to Transcendental Meditation "so mankind can start to stop suffering", concluded Jarvis.

Perfect symbol of the love you share

Being with each other, doing things together . . . knowing that your affection is growing into precious and enduring love. Happily, all these cherished moments will be forever symbolized by your diamond engagement ring.

If the name, Keepsake, is in the ring and on the tag, you are assured of fine quality and lasting satisfaction. The engagement diamond is flawless, of superb color, and precise modern cut. Your Keepsake Jeweler will assist you in making your selection . . . He's in the yellow pages, under "Jewelers."

On the plaza

The grey house
A living testimony that
The new ideas of a protean generation
Are housed behind archaic walls
On a firm and rarely visible foundation

Ruminating on change
Never will it be bought
Enter through the colored door
And perchance you will leave with
different thought

Pictures and words
On windows and doors
Mix the new and the old
Always searching for more

Cluttered quadricycles
And foot-printed side gait
And please don't pick it fences
And somebody's storied castle

Reticent as a bookstore
While their insides come out
Ang go back in again, constantly
Under the judgement of glass eyes

Houses whose roots
Go as deep as the redwoods
Have bold defenders
Like the tree from which they are made

Where the occasional flowers
That bloom on foggy mornings
Try to overshadow
The rubbish remnants of the passer-by

Where the unshaven lawns, which
Date back for centuries
Meet with unshaven heads
To draw from the sun

Service For Handicapped

By DAVE BENNETT

The physically handicapped of Humboldt County have few recreational or cultural opportunities open to them. Humboldt State has many activities these handicapped could participate in. Efforts are being made to co-ordinate action through service projects for campus clubs and organizations.

Every interest group on campus has activities that the physically handicapped child or adult could enjoy. The drama productions, symphony presentations, chamber music concerts and cultural events interest factions of these handicapped. Athletic events fascinate other disabled.

Crippled children have numerous activities through their schools, but the adults and elderly handicapped have few opportunities to become involved and would welcome the chance. That chance involves work for a club though—especially in transporting them to and from events.

An organization could adopt any

number of handicapped to work with, any age group (children or adult), for any activity they wished. All they have to do is express the desire to help. This is a service project aimed toward a real existing need.

Forestry Club is the organization that has become most involved with the handicapped as an involvement service project, bringing crippled children to Homecoming. Circle K and Nurses Club have contributed funds and work hours to the Easter Seal Society. If more clubs worked with the handicapped as service projects, they would find a rewarding experience and be doing the handicapped community a great service.

If clubs and organizations are interested in working with the physically handicapped, Kathleen Alban has the information. Through working with the handicapped for years she has activity ideas for handicapped suitable for any group on campus.

A list of the physically handicapped in Humboldt County, their ages, severity of handicap and abilities, interests and where they can be found are available from this junior co-ed, handicapped herself as a child. Any interested individual or organizations may reach Kathleen Alban through the Lumberjack Office, Room 5 in Nelson Hall or phone 822-2921.

Volunteers Sought For Medical Help

In an effort to deal with the crisis in the delivery of health services to racial minority residents in California, a group of students at the University of California Medical Center in San Francisco is seeking applicants to the professional schools of Health Sciences on campus. Mexican-American, Black, and American Indian students are needed in the Schools of Dentistry, Pharmacy, Nursing, Medicine, and 27 other training programs in the health field. Special consideration is given to applications from students from these groups. In addition, complete financial aid programs are available through the Economic Opportunity Program. The Student Committee for Minority Recruitment will assist any minority undergraduate in preparing and applying. Write immediately to the Committee at 249 Millberry Student Union, 500 Parnassus, San Francisco, California 94122.

Homecoming Theme For '68 Set As 2000 BC

"HSC: 2000 B.C." will be the theme of the 1968 Homecoming activities presently being planned for the October 25 weekend at Humboldt State College. A tentative schedule of activities has been released by Dale Garnder, co-chairman of the Homecoming event.

Glen Yarbrough, a popular folksinger now on the campus circuit, will appear in the Men's Gym on Wednesday, October 23, at 8 p.m., presented by the College Program Board. The public is invited to the concert.

On Friday, October 25, there will be a variety show at HSC where the Homecoming Queen will be selected from the candidates sponsored by campus clubs and organizations. An informal dance is planned for the Men's Gym that night.

The traditional Homecoming Parade through Arcata will start Saturday's activities with teams from campus organizations participating in a Keg Hunt afterwards. Kick-off for the Homecoming game against San Francisco State College will be at 2 p.m. in Redwood Bowl. An alumni dinner will be held after the game and the semi-formal Homecoming dance will be at 9 p.m. in the Veteran's Memorial Building in Arcata.

The public is invited to all the activities of Homecoming '68.

Variety

The annual Homecoming Variety Show will have a new look to it this year, according to Show Chairman, Linda Bjerke. For the first time in recent years, the show will offer prizes to first, second, and third place winners. A panel of judges, composed of faculty members and students will preside over the competition. All persons interested in participating in the Variety Show are urged to sign up in the Activities Office.

Also being featured during the program will be the presentation of Fall Green and Gold Key members, and of the members of the secret Lucky Logger Society.

Highlight of the afternoon's show will be the presentation of the 1968 Homecoming Queen candidates with the crowning of the 1968 Queen and her court by Sheryl Pasquini, 1967 Homecoming Queen.

MC for the Variety Show will be Ken Lybeck.

Cooking Demonstration

Mrs. Cornelius Siemens samples omelet of Chef Pierre Flori, Executive Chef of Automatic Retailers of America's School and College Service, during a demonstration at H.S.C.

Yes On Prop. #3

By DAVE BENNETT

A student organization is being formed on campus in support of Propositions 3 and "E", two propositions in the coming elections which are of vital interest to those concerned with the academic world.

President Cornelius Siemens called attention to Proposition 3, a \$250 million bond issue providing for capital construction on the 19 California State Colleges and the nine University of California campuses, and Proposition "E", a \$3.9 million bond issue proposition on behalf of the building program at College of the Redwoods. Both will appear on the November 5 ballot.

HSC's share in the proposed funds to be raised by the passage of Proposition 3 would amount to approximately \$6 million. These funds would be used to plan and construct such facilities as additions to the College Library and the Marine Science Laboratory; expansion of the Physical Education plant; equipment for the Biological Science addition, the Library, and the Natural Resources Building; and for land acquisition and site development. These projects have all been authorized by the State Legislature but have not been funded. It is estimated that the average cost per person per year will be about 50 cents during the 25-year span of the bonds.

Because it takes an average of over four years to construct state facilities from funding to utilization, it is necessary to begin now to build for

the heavy enrollments expected in the early 1970's.

Any student interested in supporting Proposition 3 and Proposition "E" are urged to contact Chad Roberts in the East Wing of the CAC, who is organizing Students for Propositions 3 and "E".

Pledges

A two-week period of rushing, conducted by Humboldt State's two social sororities, ended on September 30, when a total of fourteen girls pledged the two groups.

The 1968 Fall formal rush schedule consisted of an Orientation program, Open House, a Fashion Show, a series of individually sponsored parties, and the final preference party.

Pledging of the fourteen girls was held on Monday, September 30, by each of the houses. Those girls affiliating with the Delta Zeta Sorority are:

Judy Patenaude - Arcata
Nancy DeVoy - Eureka
Judy Henking - Sunnyside
Karla Henkel - Mountview
Janet Alfieri - Stockton
Rajean Clark - Arcata

Those girls choosing to pledge the Phi Mu Sorority are:

Karen Shideler - Smith River
Marcia Miyasaki - Hawaii
Linda Petersen - Whittier
Cheryl Pemberton - Salinas
Myrla Henricksen - Moraga
Virginia Hedgecock - Fullerton
Nancy Schirber - Knights Landing
Terry Moran - Novato

Sharon Johnson New Pledge to Sigma Pi

By PHIL MC

Sigma Pi, the newest fraternity on the HSC campus, last week added their first girl pledge—vivacious Sharon Johnson. Sharon, a 5 foot, 2 inch brunette with smoky-blue eyes, is from Huntington Beach, California, is an avid sports fan, and now an avid Sigma Pi fan.

The men of Sigma Pi felt that the addition of a "Little Sister" would certainly boost the morale of the pledge class—to say nothing of the actives. Sharon has been present at all the rush and social functions, and has over the past few weeks added

feminine charm to the new Sigma Pi house.

Sharon is listed as an undecided major but is quite decided on other

things. For instance, she dislikes "pushy boys who are too busy trying to impress you." She much prefers those who are natural and can have a good time without strain. Sharon likes peanut butter and pickle sandwiches and prefers basketball as the ideal spectator sport. She likes tennis, skiing, and swimming. She adds dancing to her list of good times and Humboldt County to her list of wonderful places.

Although the Sigma Pi pledge period lasts only to the end of the quarter, Sharon is planning now to start a girls' auxiliary for Sigma Pi, an idea that the men of the fraternity heartily endorse.

In all probability, Sharon will receive an honor that has never before been bestowed. The local chapter of Sigma Pi presently holds colony status and could receive their permanent charter this Spring. When this happens, the names of the original founding members of the fraternity will be recorded permanently on the Chapter Plaque and at National Headquarters. And, for the first time, the names of the original founding brothers will include that of our Little Sister with the smoky-blue eyes, Sharon Johnson.

SPORTS

Humboldt's Nick Hustedt (69) gives chase to COR quarterback, John Schleisger (12) in last Saturday's HSC-JV vs. COR football game.

Jr. 'Jacks Bombed By C/R (Corsair), 79-0

By JOHN SHERIFF

It was a long night, last Saturday, for the Humboldt State Junior Jacks, as they received a 79-0 stomping from the College of the Redwoods Corsairs.

The first half was all COR as they scored 47 points and held the Humboldt offense to just four first downs and 46 yards total offense. The big play for the Jacks in the half was a 24 yard run by halfback Mike Ukena on a draw play.

In the second half the Jacks showed a little offense as they mounted two drives of over 40 yards.

The first drive came early in the third quarter when the Jacks took the ball from their 30 and drove to the Corsair 29 before being stopped. The key play in the drive was a pass interference call at the COR 39 on a third and ten play from the Jack 30.

From the 39, Ukena plunged for one yard to the 38 on a first down. On the next two downs halfback Rich DeFelice ran for eight yards to the 30 setting up a fourth and one situation. Fullback Mack Davis dove over tackle to the 29 but the measurement showed him lacking several inches.

Late in the fourth quarter the Jacks mounted their second drive of the half. After taking the Corsairs last kickoff of the night at their own twenty, second-string quarterback

Rockne Wilson collaborated with end Ed Holloran on a 25 yard pass to the Humboldt 45. From there, DeFelice dashed to the COR 47, a pick-up of eight yards. Wilson went for three more yards and a first down on the 44.

Two runs by Ukena and one by DeFelice gave the Jacks another first down at the 33. At that point it looked like the Jacks might score but with a fourth and three situation on the Corsair 26 fullback Davis could only get two of the needed yards. COR took over and ran out the clock.

For the game the Jacks got eight first downs (four in each half) and 163 yards total offense (117 yards in the second half). The two Jack quarterbacks, Gavin Gretchen (1-7) and Rockne Wilson (3-9), could only hit on four of sixteen passes for 71 yards. The ground game picked up 92 yards.

Individual standouts for the Jacks included halfbacks DeFelice (56 yards on 21 carries) and Ukena (33 yards in 14 carries), fullback Joe Sepski (25 yards in 10 carries), center Bill Hanvey, linebacker Tom Maronde and ends Ed Holloran and Terry Bowyer.

This Friday the Junior Jacks travel to Ashland, Oregon, to battle the Southern Oregon J. V.'s (81-0 losers to COR earlier in the year).

PLAYERS-OF-WEEK

JIM COSTELLO—FOOTBALL

Twenty-one year old Jim Costello is this week's football Athlete of the Week. He engineered the Lumberjack's stunning upset victory over the Sacramento State Hornets last Saturday in the Capitol City. After the Humboldt ground game failed to show any promise, Jim started firing the pigskin and ended the evening with more than 200 yards gained through the air, including two touchdown throws.

Jim attended St. Bernards High School in Eureka for four years before shifting to Shasta Junior College where he gained All-Golden Valley Conference honors. He transferred to HSC last year as a History major, with minors in Physical Education and Speech. He has maintained a 3.0 overall grade point.

He will be graduating this June with a Bachelor's degree, but will return next fall to finish up his studies for a credential. Even then, he is going to stay on here at Humboldt as a history instructor.

GARY TUTTLE—CROSS COUNTRY

NCAA College Division steeplechase champion, Gary Tuttle, was selected as this week's cross country Athlete of the Week. His time for the rolling four mile course at the Chico Invitational was a phenomenal 19:45.7, or an average of 4:56 for four consecutive miles.

Gary is a graduate of Buena High School in Ventura, California, where he was tutored to a seventh place finish in the CIF two mile by his present college coach, Jim Hunt.

The collegiate record holder in the steeplechase is majoring in Physical Education, and minoring in History. He has expressed a desire to pursue the field of criminology upon graduation from HSC. Although he averages three hours of workout every night of the year, Gary has maintained a 3.85 overall grade point average in three years of study.

Because of his complete devotion to track, Gary's only other major outside activity is occasional hunting.

ERIC OYSTER—WATER POLO

Eric is a sophomore Speech major from Downey Senior High School in Downey, California. He is usually thought of as a better defensive water polo player, but lately he has been shooting without looking at the goal; and last week, came up with four goals (three of them on Sat.).

Last year, he gained All-American swimming honors in the 1650 yard freestyle, the 500 yard freestyle, and the 800 yard freestyle relay. He was also selected for the Far Western Conference second team in water polo.

The "Pearl" is minoring in Public Relations and Physical Education. After securing his Bachelor's degree, he is going on to get a Master's degree in Speech. From there he will go into public relations as a lifetime occupation.

Eric's interests when he isn't swimming include cycling, hunting, fishing, and "especially snow skiing". How about that, Coach Malone? This spring, during the off-season, Eric is going to try out for the Intercollegiate Debate team.

Water Polo Team Drops Two To Chico

By MIKE STOCKSTILL

The Humboldt State varsity water polo squad lost both their games over the week-end at Chico State. The score Friday was 6 to 3, the score Saturday 8-5.

The games were marred by fouls on both sides. In the Friday game 52 fouls were made by the two squads as they battled in Chico's outdoor pool. Players reported that a bad glare caused by the bright sunshine on the water was partially responsible for the loss. But, as Coach Jim Malone and several players commented, Chico was tough, both physically and in the game situation.

Humboldt's three points Friday were scored by Marshall Kane with

two goals, and Eric Oyster with one. Both Kane and Oyster, along with Mike Haber and Ken Cissna fouled out of the game. Mike Morey was ejected from the contest for interfering with a foul shot. Humboldt committed 33 of the 52 fouls on Friday, with Chico having the other 19. Humboldt goalies Dallas Davis and Bob Gumpert blocked 15 attempted goals by the Chico squad but their effort was not enough. Chico was victorious, 6 to 3.

Saturday was a repeat of Friday's foul-heavy contest. Some 30 fouls were committed by both teams. Again, Chico's tough and aggressive playing was too much for the Jacks

to handle. Humboldt had a good first and third quarter, but still lost by an 8 to 5 decision.

Coach Jim Malone said the Chico team was better than last year's squad. He also commented that Chico, U. C. Davis and Humboldt all are close to each other in relative strength. Much as last year, any one of these three teams has the potential to win the championship.

Humboldt hits the road again next week as the team travels to Southern Oregon College for an invitational meet. Besides Humboldt and So. Oregon, teams from Portland State, Washington State and U. C. Davis will be in attendance.

HSC UPSETS SAC STATE WITH 20 - 13 VICTORY

By KEN LYBECK

Junior halfback Danny Walsh returned a Sacramento State kickoff 82 yards, with 7:55 left to play in the ball game, and gave Humboldt State a 20-13 lead which they never relinquished. The win gives the 'Jacks a 1-0 win-loss record in Far Western Conference play so far this year.

Humboldt went into the game as a seven-point underdog to the team rated as having the best chance to win the conference crown this year. However, when the dust had settled, it was the Lumberjacks who had shown that they are just as much in the race for the FWC title as Hayward, San Francisco, or Sacramento.

The first half was mostly each team pushing the other one back and forth on the field. However, with 3:47 gone in the second quarter, Sacramento's Jim Wheeler crashed up the middle for eight yards and a touchdown. Bob Rocha booted the extra point and the score stood at 7-0 for Sac State.

Humboldt returned the ensuing kickoff to their own 32 yard line, where they started marching. The drive was thwarted on the Hornet 30, however, and they had to kick. The HSC defensive unit held Sacramento deep in their own territory and they were forced to punt. The Lumberjacks took over on the Humboldt 49, but two plays later were in Hornet country at the 42 yard line. Then QB Jim Costello fired a perfect strike to slotback Damon Dickinson on the five and he took it the rest of the way for a 'Jack TD. Dave Banducci's extra point try was good and the half ended with the score tied at 7-7.

After the Humboldt's had held Sac State for four downs following the second half kickoff, they started their march for a second score. This time Costello teamed up with John Burman, as he fired a strike to the Eureka speedster on the Sacramento 30 yard line. John sprinted the remaining distance for the score, and Humboldt led 13-7. The extra point attempt was blocked, but the 'Jacks had momentum now.

The Hilltoppers held off the Hornets until half way through the

final stanza, when Lyle James hit flanker Mike Carter on a 56 yard pass-run play. The Humboldt defensive line came through though, as they blocked the crucial PAT. Now the score stood at 13-13.

On the ensuing kickoff, however, College of the Redwoods transfer, Danny Walsh, scooped up the pigskin, picked up a couple of key blocks as he cut across the field, and streaked 82 yards down the left sideline for the decisive touchdown. Banducci's extra point attempt was good and HSC led by 20-13.

Sacramento had three more chances to change the outcome of the game, but the Green Chain dug in and forced a punt on one occasion. Thereafter, the 'Jacks' defensive secondary proved too much for Hornet quarterback James, as Jeff Getty intercepted one pass, and batted away another to squelch both drives.

Coach Bud Van Deren had a number of observations pertaining to the game. On the minus side, he felt that the team was slow in getting started, but that the offense and especially the defense began to pull together after the first quarter. The Hornets also did a good job of containing Humboldt's running game; but QB Jim Costello elected to go to the air and was very effective in that department, totaling over 200 yards through the airways.

As was evidenced by the final score, the Lumberjacks had quite a few pluses. These points which Van Deren especially emphasized were: the pass defense, which accounted

for four interceptions (three by Jeff Getty and one by Stan Augustine); the defensive line, which not only constantly harrassed the Hornet offense and caused numerous errors, but also recovered three Sacramento fumbles; and most important of all, the excellent attitude which the whole team maintained throughout the entire game.

Coach Van Deren elaborated on this last point. He said that this is probably the finest group of football players that he has ever coached; explaining that he has had outstanding individuals every year, but this year's edition of the Lumberjack football team has the best overall attitude of any group he has coached. He cited the specialty teams and reserves as an example, saying that they accepted their role on the team, and did not keep pestering him as to why they did not get to play more often; but instead worked harder to earn a shot at a starting position. He summed it all up by saying, "The team has been worked extremely hard this year, but now they are reaping the rewards." Now he must keep his charges from becoming overconfident to the extent where they might underestimate an opponent. So the watchword for the rest of the year is, "Keep the faith, baby!"

At press time, no scouting reports had been received on Central Washington; but they defeated nationally ranked Eastern Washington last week, so they, quite obviously, are going to be tough.

LUMBERJACK HSC Harriers Win Invitational

By KEN LYBECK

Gary Tuttle led the Lumberjack cross country squad to the team title in the seventh annual Chico State College Invitational last Saturday afternoon. It was the second consecutive year Humboldt has won the meet.

Gary's time of 19:45.7 was a new course record, shattering his old mark set last year at the Far Western Conference finals on the same four-mile course, by over 35 seconds. The old standard was set in the last race of last year; this was Gary's first competitive effort of the season.

Coach Jim Hunt cited two other 'Jack distance runners for their outstanding performances which gave the championship to HSC. They were freshman Alex Zygaczenko, who placed fourth in a time of 20:37; and senior All-American Vince Engel, who was three seconds father back in fifth place. Following them were Gary Miller, 17th, 21:15; John Noonan, 19th; Mark Byers, 28th; and freshman Howard Labrie, 41st.

Humboldt was barely able to nip UC Davis, as they were only three points behind, 47-50. The rest of the team scoring went as follows: Nevada, 52; Cal State at Hayward, 100; Chico State 153; University of the Pacific, 170; Southern Oregon 213; San Francisco State, 233; Sonoma State, 248; Stanislaus State,

307; and Fresno-Pacific, who did not enter enough men to field a team.

Tuttle's closest competition was Peter Duffy of University of Nevada, who is from England (Nevada also has a Tasmanian and a Colombian runner on their team). Next was highly touted Duwayne Ray from Chico State, almost a full minute behind Gary, and only three seconds ahead of HSC's Zygaczenko.

Before the race started, Tuttle heard that Ray didn't think that the race was very important, and therefore could not get "up" for it. This irked Gary somewhat, so he decided to show the 4:06 miler how to run a cross country race. As they passed the two-mile mark together in a very fast 9:27, Gary said in a voice loud enough for Ray to hear, "Too slow!", from that point on the Chico runner dropped back steadily, and the Lumberjack was not challenged again.

This year's meet was far superior to the preceding invitational. When Gary won last year, he was the only man to break 21:00; this year, twelve men surpassed that barrier.

This coming Saturday, the Humboldt cross country team will face what has to be their toughest competition in history, at the Sacramento State College Invitational. This meet is an all day affair with cross country races for everyone from grammar school to university division. Among the teams entered in the college-university division (along with HSC) will be USC, UCLA, UC Berkeley, Stanford, San Jose, and others.

NOTICE

All HSC students and faculty with ASB cards will be admitted to the Kiwanis Charity Game with Central Washington, October 12, at half-price: \$1.25. Tickets may be purchased in advance at the College Union Bookstore; or may be bought at the gate this Saturday night.

LJ Lettermen's Club Meeting

The first meeting of the Lumberjack Lettermen's Club was held in Redwood Bowl, last Wednesday. Because this was the first meeting, the major order of business was the election of officers.

The nominees for the office of president were: Don Comfort, Gary Crooks, Bob McAllister, and Eric Willis. Don Comfort was elected. Those running for vice president were: Larry Babica, Eric Oyester, and Greg Whitlock, with Oyester getting the nod. Jim Bonomini, Leroy Childs, and Mike Cloney were nominated for the office of secretary-treasurer; the majority vote went for Leroy.

In other business, past-President Galen Sarvinski reported that the club had sold over \$600 worth of advertising for the football programs, and that the club would receive a 25% commission for these sales. With last week's sale of programs at the HSC vs. OTI game, the treasury now stands at \$320.

The last item of business to be brought up pertained to the club co-sponsoring the after-game dance on November 9, with the Physics Club.

Interest In Soccer

Anyone interested in forming a Soccer Club at Humboldt State College is urged to attend a meeting at Redwood Park in Arcata, Saturday, October 12, at 10:00 a.m. If there is enough enthusiasm, in the form of bodies this Saturday, Coach Hassman, Director of Intramural Sports, has consented to act as our advisor. If you like soccer, this is your chance to participate, since everyone will have a chance to play. Bring your friends if possible.

Dr. Hassman stated that there probably will not be enough men to form an intramural league; however, there may be sufficient number to become part of an extramural league, and compete against other colleges in northern California. He even expressed some hope that the team, if it does become a reality, would become proficient enough to challenge schools such as Sacramento State on an intercollegiate basis.

If you are at all interested in soccer, even though you have never played, meet at Redwood Park, east end of 14th St. this Saturday at 10 a.m.

Junior 'Jack QB, Rockne Wilson (12), drops back for a pass play as halfback Mike Ukena (26) and fullback Joe Sepski (47) prepare to block the onrushing COR defensive line.
