

P.E. HEAD RESIGNS

Dr. Joseph M. Forbes, who has headed HSC's physical education program since 1946, has resigned as chairman of the Division of Health and Physical Education.

The resignation, submitted March 10, two weeks before Dr. Forbes left on a sabbatical leave for England, contained a lengthy list of grievances, nearly all of them dealing with what he said are inadequate facilities.

No official action has been taken on the resignation, according to Milton Dobkin, vice-president for academic affairs. But "The paperwork has started," Dobkin said. "I can't give you anything official yet, because we haven't officially

designated a replacement," Dobkin told the Lumberjack. "We don't accept a resignation until we've found a replacement."

(Dr. Larry Kerker, athletic director and a P.E. professor, had already been named to be interim division chairman during Dr. Forbes' sabbatical.)

Dr. Forbes said his resignation was due to the "facilities thing." He denounced HSC's physical education facilities as being inadequate for the college's enrollment.

"We have 10 people using the Brown house (for offices) which is held together by termite spit," he remarked, "and the Women's Gym is

a disgrace to the State of California."

"Intramurals are going downhill for lack of facilities. We're becoming more and more a residential college, and we need more facilities," Forbes continued.

Forbes says, "Forty per cent of our (the P.E. division's) students are here on an elective basis, and we've had to take stopgap measures to handle them. On top of that we've got the City of Arcata, the College Program Board and intramurals using the facilities."

"I think we have a very, very fine staff down here. They should have decent working conditions and the

(Continued on Page 5)

TRUSTEES ACCEPT TUITION PROPOSAL

At their last meeting, the State College Board of Trustees passed a resolution, by a vote of 12 to 6, which "approves the establishment of a tuition fee."

The measure was then sent to the State Legislature which must decide if tuition is to be imposed on the State Colleges.

The full text of the Trustee resolution reads as follows:

RESOLVED, By the Board of Trustees of the California State Colleges, that the Board approves the establishment of a tuition fee, subject to the following conditions:

1. That the proceeds of the fee be deposited in a special fund, appropriated to the Board without regard to fiscal years;

2. That within that fund, a reserve fund be established for the purpose of providing financial aid to students who would be unable to attend a State College without such assistance;

3. That the balance of the fund be used to augment the educational programs of the California State Colleges, and not to reduce or defray the level of support provided from

General Fund sources;

4. That the Board be authorized to set the amount of the fee, and to make provision for full or partial waiver or deferrals up to ten years; and be it further

RESOLVED, That this Board urges the legislature to enact the necessary enabling legislation.

When it became evident that the Trustees were likely to follow University Regents' example of imposing tuition, the college presidents met with Chancellor Glenn Dumke to set up conditions for the tuition.

The various conditions requested to be in the tuition legislation would grant the Trustees and the colleges full and complete authority to set the amount of the fee, collect the funds, distribute the funds as desired, and to waive, defer, or pay for the tuition of any student requiring financial aid.

Although disagreeing with the Trustees that tuition should be instituted, the presidents did agree that if tuition is imposed, it should

not exceed \$100 for the academic year.

HSC Pres. Cornelius Siemens says, "I am ready to venture the prediction that the Legislature will not pass a tuition bill this year - at least not one incorporating the conditions requested by the Trustees and the college presidents."

Dr. Joseph M. Forbes, head of HSC's physical education program since 1946, resigned as chairman of the Division of Health and Physical Education.

Vol. 45, No. 19

VD Combated By Weekend Conference

An educational conference, aimed at combating the rise of venereal disease among young people, will be held for parents, medical personnel, educators, social workers, clergymen, and others by HSC.

The conference, open to any interested person, will open April 3 at 3:30 p.m. at the Eureka Senior High School Cafeteria. Main speakers will be Dr. Warren A. Ketterer, M.D., head of the Venereal Disease Section, State Department of Public Health; and Mrs. Mabel Rickett, M.P.H., Public Health Educational Consultant of the same agency. The talks will continue until 9 p.m. and resume the following morning with an all-day program.

Pre-registration by those planning to attend is requested by the HSC Office of the Dean of Public Services, telephone 826-3711. Those enrolling for one unit of credit will be charged \$16 each, which includes dinner and luncheon costs. Non-credit enrollees will pay \$10, including meals.

Regular students of HSC and College of the Redwoods, showing student activities cards, will be eligible for a reduced rate of \$7.25 for credit enrollment and meals.

The gathering, called because of the alarming rate of increase of venereal disease, a growing problem of epidemic proportions along with heroin addiction, was scheduled to coincide with a statewide information and education campaign planned for the month of April by pharmaceutical firms.

Other contributors to the conference will be: Dr. Grant Clark, M.D., Humboldt County Medical Center; Lt. Wendell Cyphers, Humboldt County Sheriff's Department; Mrs. Kathryn Corbett, professor of sociology.

Gov. Reagan spoke at the College of the Redwoods campus on March 17. Now Reagan has decided not to

speak at any more college campuses. (Photo by Gene Aker)

7200 Want In

Competition Tight For Fall Admission

If you're already enrolled at Humboldt State, be glad of it. More than 7200 applicants are competing for 1175 fall quarter openings at HSC.

Registrar John Fry says that under Title Five of the California Administrative Code, the applicants to Humboldt must be admitted on a "first come - first serve" basis from the first day applications were accepted, Jan. 1.

However, he added that the college is allowed to and will give priority to students wishing to return to HSC and local students who might not be

financially able to go to other colleges.

By admitting these two groups, Fry says Humboldt's budgeted 5300 places will be filled, leaving no room for transfer or new students from other areas.

Humboldt has asked the State Legislature for additional funding for 300 students, which would make the fall quarter enrollment 5600 students. Fry says the college hopes to hear from the legislature soon.

Even if the legislature did grant the additional money, Fry says that his

College Tours Out After CR - Reagan

Gov. Ronald Reagan was in Humboldt County March 17 on his recent statewide campaign jaunt, and as a result, he says, has decided not to speak any more on college campuses.

The Governor apparently has told Humboldt administrators that he will "speak on no more campuses unless martial law prevails." (See sidebar)

The "straw that broke the camel's back," was an unsympathetic although not violent reception at College of the Redwoods, one of the more mild reactions Reagan has received anywhere in recent months. However, it followed a violent demonstration at Chico State and preceded an even more violent one at U.C. Santa Barbara.

Reagan spoke to about 1000 persons, mostly students, at the local junior college. His announced topic was to have been the "Role of the Community College," but as it turned out, he primarily defended his plans for tuition at the state colleges and the University of California.

However, the audience generally

No Viet Service For Californians?

A bill barring California servicemen from serving in the Vietnam War was introduced in the California State Assembly on March 20.

Assembly Bill 1460, authored by Assemblyman Bill Greene (D-Los Angeles County), would require the state attorney general to bring suit in federal court to prevent state residents from serving in a war zone in the absence of a congressional declaration of war.

The bill is fashioned after a Massachusetts measure which recently cleared one house of that legislature by a 136-89 margin.

appeared to be unimpressed, especially after the Governor urged the students to "stop burning the campuses" because it was contributing to the air pollution problem.

Reagan had arrived earlier in the afternoon at the McKinleyville Airport, where he was greeted by several "HSC Welcomes Reagan" signs and a lone Viet Cong flag.

The minutes of a Student Personnel Services staff meeting held on March 19 contained the following items, which came as a result of Gov. Reagan's visit:

"Dr. Simmons reported on the event of Gov. Reagan's speaking at the College of the Redwoods. He explained there were student activists present, but they were at no time out of control or violent. Because the microphone was not turned off after the Governor's speech, several unscheduled speakers made remarks with the use of the mike. It will be a policy at Humboldt State to turn off the mike immediately following a speech of this type thus avoiding an occurrence of remarks by uninvited speakers."

"Dr. Simmons stated Gov. Reagan has now announced he will speak on no more campuses unless martial law prevails."

"Mr. Jeff Wright reported he heard the announcement that Gov. Reagan has proposed that any student or faculty member who disrupts during a speaker's talk will be automatically suspended pending 'due process of law.'"

"There is a rumor of possible demonstrations during the Chancellor's visit to Humboldt State on April 14."

Editorial

Statement Of Policy

By allocating funds for a student newspaper, the Student Legislative Council has already expressed its belief that the students need to know what's happening on this campus.

In selecting a student editor for the paper, SLC hands one person the responsibility of informing the college community in a way that no daily bulletin can.

The Lumberjack can be a forum for student opinion through letters to the editor and guest editorials. The general student body can express its beliefs, but in all cases, the student editor controls and is solely responsible for the paper's content.

The only restrictions the editor will submit to will be the Federal and State laws governing the press. The Lumberjack will voluntarily comply with the 1923 Canon of the American Society of Newspaper Editors.

Members of the college community wishing to communicate with the college, or with the community as a whole, should approach the Lumberjack editor. However, in all cases, the editor will accept or reject an article on the basis of its news values and worthiness.

by the Editor

A collection of news items compiled from other state college student newspapers, magazines and correspondence.

The President of Sonoma State, Dr. Ambrose Nichols, resigned recently because he found his "credibility and effectiveness as a spokesman for . . . the institution steadily eroded." Nichols has been called on the carpet by the Trustees several times to explain numerous hassles with the Sonoma school paper, the *Steppes*, which sports a peace symbol and the words "all power to the people" on its nameplate, has been accused of using bad taste in its editorial policy and of using "obscene" pictures of nudes in the paper.

Even though it is only third highest in enrollment, San Jose State receives the largest portion of the California State Colleges budget. San Jose gets \$29,700,401 in operational funds from the state.

Cal-State Los Angeles is the proud possessor of their own weather station. The \$15,000 worth of equipment automatically records weather information and relays it to the physical geography lab where it is charted and stored. Students studying meteorology make daily observations from the equipment. However, they don't make forecasts.

Again, from Cal-State L.A., a group of Mexican-American students have been trying for the past month to get the college to name a soon-to-be-built building in honor of Emiliano Zapata, the Mexican revolutionary hero. The proposal has been endorsed by the student government but the Campus Planning and Beautification Subcommittee refused to go along. The whole matter must be submitted to the Trustees for action, but students at Sonoma State may have an advantage in the matter, for a group of students there are also petitioning for the naming of a campus building after Zapata. Trustee rules say that a name can be used only once in the college system for dedication of a building or place.

In an attempt to clean up our environment, the San Jose State College chapter of the Public Relations Student Society sent out a press release that reads in part:

"Fellow Survivors: Vomit and the world vomits with you. The (PRSSA) urges you to vomit at the sickening problem of pollution. Earth Day, April 22, is the day we want to vomit pollution out of our system."

Fall Admissions

(Continued from Page 1)

office would have to take a random sampling of the applications received on Jan. 1 and 2. He says the applicants from those two days would each have about a one to five chance of being admitted.

The plan to accept the applications of 100 minority students has not been given final approval yet, and Fry says there are no plans to give priority to students applying to any academic area.

Fry says he cannot pinpoint any one reason why so many students,

applied for admission to Humboldt. He suggested that some may have applied to get away from the congestion of urban areas. He said others may have selected HSC because of its relatively stable political climate, its size, and because of the curriculum it offers.

Letters to the Editor

Thanks

Editor:

On behalf of the Humboldt-Del Norte County Chapter March of Dimes, I would like to say "thank you" to the students, faculty and employees of HSC for their tremendous cooperation during the birth defects "Protest" held recently.

Special thanks to the Spurs and Intercollegiate Knights for once again putting forth their contagious enthusiasm and willingness for such a worthy cause in helping in our fight against birth defects.

Many, many thanks.

Most sincerely,
Marjorie Lancaster, Exec. Sec'y.

In The Wake

Editor:

ACERS is gone, but in its wake lies an effective means of student communications over affairs that directly concern students. In many departments and most schools, student representation is now a reality, although the 50% figure that ACERS was aiming for may not have been achieved. What is worth remembering is that ACERS finally prodded a lethargic faculty into action and acceptance of the idea that students should not only be listened to, but must also have a say in what is meted out to them.

ACERS put fear into the hearts of many people because of our activist nature (a dirty word nowadays). May I remind those gentle folk that little is accomplished by inaction. We were ardent in our demands, but where do you get being wishy-washy? May I also remind the skeptics that ACERS worked entirely within the system and never once stepped outside of it. This is a disquieting disclosure for those who can only see in one direction and a remarkable laureate for the system at Humboldt State College. I'm not saying it is perfect, but it is a lot better than at some other institutions of higher learning with which I have acquaintance.

ACERS succeeded! It provided a vehicle in which students can now make their ideas an effective force at Humboldt State College rather than sitting by the wayside watching their

Group Hosts Photo Contest

In an attempt to involve the entire community with its program, the April Committee for Environmental Awareness is sponsoring a photography contest.

Entries will be assigned to one of two categories, black & white or color. There is no limit to the number of entries and the contest is open to both amateurs and professionals. Prints and slides will be accepted.

Technical competence, originality and relevance to ecological perspective will be the main criteria for judging.

Suggestions for ecological perspective include the themes of: the web of natural life, man and land in harmony, urban ecology, America the beautiful, America the ugly, the population bomb, and Eco-catastrophe.

Deadline for the contest is Mon., April 20 at 5 p.m. Entries can be deposited in room 117 in the old Art Building with Mrs. Ruth Doyle, art department secretary, on April 16, 17, or 20.

In order to make judging easier, prints should be matted and should be no smaller than 4 x 5 or larger than 16 x 20.

Prizes for 1st, 2nd, 3rd, and 4th places will be announced at a later date. Presentation of awards and a slide show will be given Sat., April 25, at the Ecology Fair at Redwood Acres in Eureka.

A statement of release must be signed upon deposit of photographic entries.

professors make every decision and consulting the students only as seldom as absolutely necessary. It is now up to the students of the schools and departments to implement the necessary procedures to place students on committees. Officially you (i.e. students) have the blessings of the Academic Senate, the Student Legislative Council, and the President of the College.

Students now have gained some measure of power. How they use this power remains to be seen.

Lanny Swerdlow

Out Of Line

Dear Editor:

I feel that the decision by SLC not to welcome Gov. Reagan to this area is out of line. The SLC stated that, "as representatives of the students" they could not welcome the visit of Governor Reagan. Some representation! How many students on this campus were asked for their opinion on this matter? I do not question whether Gov. Reagan would be welcome here, but I do question whether the SLC has the right to issue such a statement without first polling the student body of Humboldt. This decision should not have been made by just twelve people! I believe that in the future the SLC should take a poll to show that they are indeed representing the students.

Sincerely,

Glen Jones

Reagan's Human

Editor:

TO THE MINORITY

It is unique that in the halls of learning, some individuals don't have RESPECT for human ideas and how these ideas are conveyed. Are these few, FRIVOLOUS, IMMATURE students frightened to use their KNOWLEDGE for what they want??? Or is it just easier to heckle and make embarrassing FOOLS of themselves??

Governor Ronald Reagan may be right, or wrong, but he IS human. I maintain that these students either grow up and put forth creative ideas to help solve their problems or get out of the California Public School System and stop taking up valuable space.

Mrs. Colleen McCormick

SMC Answers

Editor:

As a member of the Student Mobilization Committee, I would like to answer some of the criticisms of the reception Reagan received during his appearance at College of the Redwoods.

First, the *Times-Standard*, some individuals, and Governor Reagan decry the discourtesy Reagan was shown by his audience and claim a "minority" deprived him of his freedom of speech in opposition to the will of the "majority".

Actually, as was clear to everyone present (with the exception of the established press), the majority wasn't buying Reagan's line. Nor was Reagan deprived of the right to speak; audience participation took the form of a first-class, running commentary to his talk. As for courtesy, he was shown more than he deserved. To tolerate the utterances of a Ronald Reagan or other flunky of vested interest is, as Marcuse has noted, "serving the cause of oppression."

There are honest and concerned people who have criticized the SMC for not diverting students away from CR. They argue that the hostile reception was a great political boon to Reagan and that a much more effective demonstration would have been for only a handful of middle-aged, Republican hacks to have shown up for his talk. I agree, this would have made for a more efficient protest IF the media would have covered it that way. Judging from the coverage given by the press, however, such a course of action would probably have been described in terms of student support for Reagan.

Further, I am not convinced that protesting as we did helped more than hurt his campaign. College of the Redwoods was chosen from among 98 JC campuses, presumably in the belief that few demonstrators would be on hand. A quiet day there would certainly have served Reagan in isolating his radical opposition by "proving" that it consisted of only a few malcontents in the universities.

SLC Helps Defeat Lumberjack Move

In their last meeting of the winter quarter, the members of Student Legislative Council spent most of their time debating a proposal to return the **Lumberjack** to the supervision of the Journalism Dept.

The measure was defeated.

The **Lumberjack** staff and some journalism majors signed a petition during the fall quarter requesting the change. A number of meetings were held last quarter involving the staff, the journalism faculty, the college's Ombudsman, Dr. Tom Stipek, and the Dean of the School of Creative Arts and Humanities Ron Young.

Those favoring the change argued that by returning the newspaper to the Journalism Dept., the **Lumberjack** would be able to find and keep an adequate staff because the staffers would be earning credit for their work under professional guidance.

Although its own Utility Committee recommended the change, SLC defeated the proposal because of two conditions the Journalism Dept. placed on the paper's return:

1) The department would have control over the editor's appointment and the staff would be the instructor's responsibility.

2) SLC would have to guarantee financing for at least two years so that the instructional program would not be interrupted in the middle of the school year.

(Presently, SLC must approve the appointment of the paper's editor on the basis of recommendations from the **Lumberjack's** adviser, Miss Abby Abinanti, and provides only yearly budgeting.)

Brent Howatt said he didn't feel that the staff of the **Lumberjack** should receive both pay and credit for their work on the paper. The positions on the paper are now salaried but no credit is given for the

work.

Because of the Journalism Dept.'s two "non-negotiable" demands, Rep. Dean Palius said he would "never vote to return the paper to the department."

Treasurer Gary Phillips said he was against the change because he felt SLC should retain its control over the selection of the editor. When asked on what basis he would select between two or more candidates for the position, Phillips said he would question them on their political beliefs.

Mike Stockstill, **Lumberjack** editor during the winter quarter, explained to the Council that unless the paper was moved back into the department, SLC faces having to hire an adviser for the paper from ASB funds for an estimated \$5,000 to \$8,000.

Presently, the adviser is being paid with a "bootlegged" salary from faculty funds. This funding will end in June.

In other action, SLC:

* Voted to allocate up to \$25 for a luncheon with student high school leaders to "open communications" between HSC and high schools in the area.

* Approved Coach Jim Malone's request to allow the swim team to

use the \$500 it had left over from the season to go to the National Swim Conference in Detroit.

Second Awarded For Manila Story

Mrs. Bonnie Coyne, a staff reporter for the **Lumberjack** last quarter, received a second place award from the California Intercollegiate Press Association for her feature story on the Manila Community project.

The California Intercollegiate Press Association is composed of most of the state college newspapers, and includes private schools such as the University of Southern California, Pepperdine, Loyola and Cal Western.

Mrs. Coyne is a junior journalism major. She attended Humboldt State from 1967 through 1969 before transferring to the University of Utah for a semester this fall. She returned here in January. She is the wife of Peter Coyne, a professor of speech at HSC.

Expansion Attacked By Welfare Head

At the Feb. 24 meeting of the Humboldt County Board of Supervisors, David Kelly, head of the Welfare Dept., issued a report attacking the proposed expansion of HSC to 8,000 students by 1978.

Kelly's general attack was stated, "With increasingly expensive and crowded housing with less jobs per employable person, with increased demand on social services and increased public assistance expenditures, it is clear that from the point of view of the County Welfare Department, the current and proposed expansion of college enrollment tends to result in deterioration of the quality of life in Humboldt County."

Several HSC officials were present at the meeting to rebuke some of Kelly's statements.

Dr. William F. Murison, dean of public services, felt Kelly's statement was "disturbing." Murison said the goal at HSC is also that of improving the quality of life, noting that the 850 people on the payroll contribute in excess of \$10 million.

Some sociology profs said they resented Kelly's statements, terming them irrational, generalized comments which can add nothing to young people in Humboldt County. They noted the work done by students with several agencies in the county.

During discussion Kelly said that he had not meant to embarrass the college and said he hoped this would result in the beginning of an interchange on planning for specific jobs.

Then Chairman of the Board Don Peterson, who formerly taught at HSC asked, "Are you suggesting the college should determine how many people should be able to major in art, philosophy or some given subject of positions that are open?"

Kelly replied, "Not entirely, but it should be a factor."

Professor of Sociology Kathryn Corbett said that she was surprised that Kelly hired HSC graduates if he felt that they were not qualified for jobs on his staff.

SEQUOIA THEATER

(THEATER ARTS BLD.)

Population Problem Is Spectrum Topic

Humboldt State is sponsoring a schedule of motion pictures, informal discussions, and presentations by population and ecology experts during the "Population versus Man" program at HSC on April 5, 6, and 7.

The "Spectrum" unit of the College Program Board is sponsoring the meetings and has invited the following authorities to speak on their specialties: Dr. Paul Shepard, Dept. of Biology at Smith College; Dr. Walter E. Howard, professor of wildlife biology and vertebrate ecology, University of California at Davis; Jere Rosemeyer, Zero Population Growth, Inc., Palo Alto; Dr. Theodore K. Ruprecht, professor of economics, HSC; and Dr. John H. Thomas, associate professor of systematic biology, Stanford University. Other participants are

expected.

The series of gatherings will begin Sun., April 5, with "Can You Find a Seat at the Sunday Night Movies," a group of films in the Wildlife Auditorium, beginning at 7 p.m.

The following day from 2 to 4 p.m. an informal discussion on "Overpopulation?" will be held in the Jolly Giant Commons seminar room. That evening at 7:30 "World Population Growth: Its Historical and Future Aspects" will be the topic of a presentation in Founders Hall Auditorium.

On Tues., April 7, "Population and the Cities" will be dealt with from 2 to 4 p.m. in the seminar room, and "Religion, Ethics, and Population" will be the subject of a 7:30 p.m. presentation in the main lounge of the Jolly Giant Commons.

Spectrum West, a group of young people from Manila working toward a month tour around California this summer, are having a rummage sale April 11th in Eureka. If you have any old clothes, records, housewares or anything else you can donate, please bring it to the Y.E.S. center or call 443-4997 and we will pick it up.

Petitions Available For ASB Election

Petitions for places on the April 22 and 23 spring ASB election ballot are now available in Room 2 of Nelson Hall.

Candidates for ASB president, vice-president, treasurer or for one of the five representatives-at-large seats must return their petitions by April 15 at 5 p.m. One two-and-a-half quarters seat will also be open to fill Bill Richardson's place, vacated by his succession to the vice-presidency.

Foreign Policy

Tomorrow night at 7, Theodore L. Eliot, Jr., executive secretary to the United States Dept. of State will be a guest speaker for a free public lecture entitled "Formulation of Foreign Policy."

The College Program Board is sponsoring the event which will be held in the Founders Hall Auditorium.

A general meeting of the April Committee for Environmental Awareness will be held tomorrow night (Thursday) at 7:30 in Founders Hall Auditorium. People are needed for environmental skits at high schools. Much must be done in the next few weeks. Please come!

Pesticides in general and DDT in particular will be discussed in the Seminar Room of the Commons on Wed., April 8 at 7:30 p.m. Dr. David Lauck of Zoology and Dr. Roger Weiss of Chemistry will be on hand for the discussion.

A chapter of ZPG (Zero Population Growth) is now forming in Humboldt County. An official of ZPG will be speaking at the Tuesday night session of Spectrum's symposium on Population vs. Man. All people interested in Zero Population Growth are urged to attend this session. An organization meeting will be held on April 8 or 9. Watch for an announcement in the daily bulletin. Meanwhile keep the population down.

The April Committee for Environmental Awareness is sponsoring a photography contest. The deadline is April 20. Watch for details in the Lumberjack and around campus.

Everyone should buy a copy of The Environmental Handbook and read the essays in it. The time is now for education.

Please don't accept any paper bags in a store unless it is absolutely necessary. It's a complete waste of our natural resources. It's something we can and must do without. Talk without action means absolutely nothing. DO YOU HEAR THAT POLITICIANS?

Summer State Tour Slated For 10 By Spectrum West

A program is underway to give ten elementary school children of the area a summer trip through California.

The program is Spectrum West and it hopes to present the kids with a unique and unusual opportunity to see that learning can be both an adventurous and exciting experience.

It is hoped that the children will be able to have a four-week outdoor educational trip according to Jud Whyte, director of the program. He stressed that the trip is not a gift but something that is earned. Last quarter some boys were on campus selling bread to help pay for the trip.

A partial list of the goals to be accomplished includes:

- * Learning to organize and make plans.
- * Relating learning in the classroom to its relevance with the outside world.
- * Learning to work together in the democratic process.
- * Study of some social problems through actual contact and discussion of possible solutions.
- * Study of careers and California industries.
- * Learning about transportation by visiting a shipping center, an airport and a train terminal.
- * Experiencing recreational facilities by touring the deserts, mountains and the ocean.

Resignation

(Continued from Page 1)

students should have an environment conducive to learning."

Forbes said that he wrote Dobkin, telling him "I have been division chairman 24 years and reached my 60th birthday March 2, and I didn't seem to be getting anywhere with facilities, and perhaps a younger, more resilient individual would be able to fight this thing through for the next x number of years."

Dr. Forbes said he had been trying to decide during the past few months whether to continue in administration or to return to teaching. "There are just so many things I want to do and don't have time for," he continued. He commented that he had about three textbooks he was working on that he'd like to finish and also had some research he'd like to finish.

While on leave Dr. Forbes will be visiting human performance research labs in England, through arrangements made by the Ministry of Education and Science in Great Britain. "These labs are something we've desperately needed here at HSC for some time. We just don't have a lab or anyplace to put it, although they have them at all the other state colleges."

Intramurals

Information, regulations and entry blanks for spring quarter intramurals can be obtained at the Intramural Bulletin Board in the main hallway (south end) of the Men's Gym.

Entry blanks should be turned in at the Athletic Office in the Men's Gym.

This quarter's program includes coed badminton, handball, slow pitch softball, two man volleyball, coed volleyball, track and field, powerlift, ironman event (in conjunction with Lumberjack Days), coed archery, and three man basketball free shooting.

Kramer Scholarship

The Kramer Memorial Scholarship is awarded yearly by the Humboldt-Del Norte Medical Society. Pre-med majors should contact Dr. James F. Welsh (204 Science Building) as soon as possible.

Humboldt State's archery team, coached by Mrs. Evelyn J. Deike, won first place in the National Collegiate Archery Coaches Association Archery Tournament last spring. Three of the four members of last spring's team have returned (l to r): Steve Mende, Ken Denton and Jay Hight. Denton and Hight were named to the NCAA's six-man All-American team.

P.E. Retreat 'Successful' In Opening Communications

The P.E. Communications Retreat for all physical education majors and minors reported a successful program of suggestions and communications in many areas concerning the department.

Of prime interest at the February retreat, the students and faculty discussed student representation on faculty committees. Student attendance of committee meetings was urged by the faculty, and it was agreed that the students needed a vote on the committees.

Other areas discussed included the grading system and the affect attendance should have on the grades of P.E. classes.

In the minors program, the group

discussed the development of a coaching minor. Many problems and restrictions on minors were revealed, and it was agreed that these needed more and closer discussion.

Another topic was the participation requirement for all majors. It was generally agreed that this requirement should be dropped.

The important purpose of the retreat was to begin an open communication line between the students and faculty of the P.E. Department.

In order to unify the organization, a central steering committee of Sue Jungi, Jaque Deaner, Chuck Bailey, Scott Nelson, and Dave Kinzer was formed.

Swim Team Finishes 22nd

Humboldt State's swimming team finished twenty-second in the NCAA College Division Championships held at Oakland University in Rochester, Mich. on March 19, 20 and 21.

Leroy Childs placed fifth in the 100 yard freestyle, missing first by only .021 seconds. Childs also would have qualified third in the final heat of the 200 yard individual medley, but was disqualified.

Jack Harris, FWC record holder in the 200 yard backstroke placed eighth in both the 100 and 200 events.

The 800 yard freestyle relay, made

up of Jim Wisecarver, Dave Banducci, Eric Oyster, and Leroy Childs, placed tenth. The 400 yard freestyle relay, composed of Tim McGill, Dave Banducci, Jim Wisecarver, and Leroy Childs, placed thirteenth.

All American ratings are given to those swimmers who place in the top twelve.

Other Humboldt mermen who qualified and represented HSC were Tim Cissna who swam the 100 and 200 yard butterfly, and Curt Dunbar who also competed in both butterfly events.

Siemens Honored

20th Anniversary Celebration Planned

A three-day community and campus celebration honoring Dr. Cornelius H. Siemens' twentieth anniversary as president of Humboldt State College has been planned for April 12, 13 and 14.

On Sun., April 12, the college's residence hall students will host the president and his wife at a steak brunch at the Jolly Giant Commons.

Mon., April 13, will feature two major events. In the afternoon from 1:30 to 3:30, a general reception will be held at the Jolly Giant Lounge, jointly hosted by the ASB, faculty, staff and alumni of the college.

Humboldt State's "buffalo heads," an informal group consisting of all those professors who were on campus when President Siemens arrived in 1950, will hold their own private dinner the night of April 13 with the Siemenses.

On Tuesday evening, April 14, the College Advisory Board is inviting friends, associates and dignitaries from all over the state to a testimonial dinner to be held at the Eureka Inn.

Pouring the molten iron into individual molds.

Iron Foundry Fired by Art

by
Joyce Martin

The art department has been founding a foundry, primarily for the advanced sculpture class, since last October.

"The building of the foundry is a continual process," explained Technical Asst. Paul McMahon. "It's informal. On Fridays and Saturdays people build equipment, and during the week they usually work on their projects."

"You are expected to put out so many pounds of metal before you can conceptualize the project," he continued. "We've poured and worked with bronze and aluminum so far."

Last weekend the department melted iron, one metal they hadn't yet poured.

On Friday, the molds, prepared by sandcasting, were made ready to contain the molten iron. The molds are the basis for the individual sculpture pieces.

Furnace Fired

On Friday and Saturday, a foundry for the melting of gray iron was set

up on the art department's patio. The furnace was lined with a brick-like substance which would be fired first. The furnace makes up the large part of the cupola into which the "ingredients" for the melting are poured.

Coke, the fuel, is put in the bottom of the cupola, and then the cast iron is added. Thereafter, the coke and iron are alternately added from the top. Calcium carbide is a third ingredient as a flux for impurities. The molten iron is then poured into crucibles, containers capable of holding hot metals.

Last weekend's cupola was the second of two full-size ones. Different furnaces are built for different melting temperatures of metals. The cast iron required 3,200 degrees.

The melting took place Sunday. 2,000 lbs. were melted for 1,500 lbs. of art, according to Asst. Professor of art Stephen Daly.

McMahon said the foundry supplies come from Oakland, Detroit, and a few other big cities. HSC pays for the supplies and the students pay back with their fee cards.

Molten iron shoots out of the furnace.

King Neptune Days Begin Friday Night

HSC's new traditional event will begin this weekend on Friday night at 8:15 with a 50 cent concert featuring comedian Steve Martin who won the Emmy Award for the best television comedy writer of 1969 for the Smother's Brother's show.

Martin is also the co-head writer of the Glenn Campbell Show and head writer of the Pat Paulson Show. He has performed with the Smother's Brother's, Johnny Carson, Joey Bishop, Steve Allen, Glenn Campbell, and Ed Sullivan. He has performed at over 30 major universities, the Forum, Hollywood Bowl, and has headlined at Caesar's Palace in Las Vegas as well as the Troubadour.

Following the Steve Martin concert will be the crowning of King Neptune and the movie "The Golden Age of Comedy."

Saturday's events begin at 1 p.m. with a beach party at Moonstone Beach.

Saturday's events include Decathlon events: scavenger hunt (starting at Clam Beach), crab races,

Junior Foresters To Be Given \$500 Forestry Awards

Two \$500 forestry scholarships will be awarded by the Sierra-Cascade Logging Conference to students entering their junior year in forestry at Humboldt State College or one of three other schools.

The two scholarships, given annually, are open to students who are residents of California, Oregon or Nevada; have maintained good college grades; and have demonstrated promise of leadership in forestry through extra-curricular activities or work experience.

Completed applications must be received by the Scholarship Committee on or before April 15, according to Warren A. Carleton of Martell, Calif., committee chairman.

Application forms may be obtained from college counselors or by writing Sierra-Cascade Logging Conference Scholarship Committee, American Forest Products Corp., Martell, Calif. 95654.

Indian Education May Get \$200,000

Humboldt State College's proposal for a grant in excess of \$200,000 to continue the Indian Teacher Education Project (ITEP) for 36 selected California Indians during the coming fiscal year has been recommended for support by the U.S. Office of Education.

Final arrangements for funding of the project's second year of operation are pending negotiations between college administrators and the Office of Education. The new funds and monies from other sources will support the training of 18 continuing participants, as well as an additional 18 who will enter the project this June.

The aim of ITEP is to offer bachelor's degrees and credentials for careers in elementary or secondary teaching or in guidance-counseling. An allied goal is development of leadership skills necessary for helping in solving the problems of local Indian communities. Special summer courses in the history, culture, and problems of American Indians are part of the four-year ITEP plan.

Dr. George Braund, associate professor of education, is the ITEP director. The project is coordinated by Braund with the assistance of the

faculty of CES, the School of Behavioral and Social Sciences, various HSC administrative offices, a coordinating council, and an advisory board.

Three Phase

The director described the coming ITEP year as a three-phase effort. Phase I extends from the present to this June and will entail recruitment and selection of those who will enter ITEP for the first time. Eighteen candidates will be chosen from throughout California. The top 12 will enter the project, and the remaining six will be held as alternates for the 1970-71 academic year. Those 12, plus the six alternates selected last year, will comprise the new class of 18.

Phase II will run from June to September and will consist of two components. The first component will be work experience for new participants during the summer school at CES during morning hours and College of the Redwoods extension courses, transferrable for HSC credit, during the afternoons.

The second component of Phase II will be a ten-week program of courses (Continued on Back)

Tapping Held For SPURS

Interested Freshman girls are invited to attend the first official SPUR tapping function, a "Getting to Know You Party", Thurs., April 9, at 7:30 p.m. in the Home Economics Lounge.

The party, which precedes an April 12 playday, is a chance for the present SPURS, and girls interested in becoming SPURS for the coming academic year to become acquainted.

The playday, which will be held at Mad River Beach is to cap a bike ride to the beach. SPURS will furnish the bikes. On the beach, creations with driftwood, refreshments, and a kite-flying contest will be the interests for the day, said Mary McGurk, chairman of the event.

SPURS will tap a maximum of 30 girls by the end of this quarter to serve as SPURS next year. As a Sophomore Women's Service Organization, SPURS assist both the college and the community through various services, including ushering, tutoring, passing out class schedules, serving at teas, etc.

Qualifications for SPURS is a cumulative grade point average of a 2.5 or higher, and an interest in school activities. Girls who apply will be interviewed and selected by the present SPURS.

Indian Education

in education, psychology, instructional media, and sociology for the continuing students.

Phase III will begin in September and continue into June of 1971. New students will be assigned to work experience at CES and continuing students will be assigned to local elementary and secondary schools. Both groups will simultaneously be enrolled in regular HSC courses leading to bachelor's degrees.

The new grant will support the administrative costs of ITEP and provide stipends for the continuing group.

In assessing the progress during the

first year of ITEP, Braund termed it "highly successful." He said it lived up to expectations and noted that its participants have academic records commensurate with standards being met by the HSC student body.

He added that increasing numbers of Indian people have been drawn into the administration of ITEP and that links have been forged with other campus operations, such as the new Educational Opportunity Project. A separate, independent foundation devoted to furthering the education of American Indians has also evolved from ITEP activities.

Associate director Ness offered a complimentary evaluation of the ITEP students currently in training eight hours per week at CES: "In my many years of working with college students in observation and participation, I have never observed students who have greater rapport with elementary level children than do the ITEP students."
