PROTOCOL ANNUAL REVIEW FORM

College of Natural Resources & Sciences
Humboldt State University

This form must be completed at the end of each annual review cycle for each currently approved protocol. It is designed to indicate year-end animal use results, termination of the "use," extension of the time allowed, or for minor amendments. Please note that this form will be appended to the protocol and kept available to the public for at least 5 years following termination. Approved protocols may be extended twice using this form, but new (full) protocols must be submitted to extend the "use" beyond three years or to make significant changes to an approved protocol. To submit forms, or to check on the status of this review, contact the CNRS Dean's Office, Forestry Building, Room 101, 826-3256.

Protocol No.: 13/14.W.106-E

Today's Date: Tuesday, April 12, 2016

Project Title: Waterfowl and shorebird response to unmanned aircraft systems

Responsible Faculty Member: Bean, Tim

Original IACUC Approval Date: 9/9/2014

End Date: 5/8/2016

Species	Total (project) No. of Vertebrates Approved for Use	No. of Vertebrates Used this Year	No. of Vertebrates Euthanized this Year per Protocol Schedule	No. of Vertebrates Euthanized this Year Not on Protocol Schedule
NA				

NATURE OF ACTION Please mark boxes for all that apply, and provide written explanations on a separate sheet or in the space provided.

- Project Termination.** The "use" approved in the protocol listed above has ended, and will not be renewed at this time, or the PI will be submitting a new protocol for review. PI must initial this choice _____
- Renew/Extend Time Frame.** Time frame of protocols may be extended for a maximum of one year beyond the most recently approved end-date. If approved the protocol will automatically be extended for one year.
Justification: *Project apply*
- Add/Change Procedures.** Detail specifics of the procedure and provide information as to how it fits within the scope of the project as presented in the approved protocol.
- Add/Change Geographic Scope.** List alternate / additional sites and provide justification.
- Add/Change Animal Species.** Provide scientific and common names, source of animals to be used, and scientific justification for use of alternate/additional species.
- Increase Animal Numbers.** State number and source of additional animals to be used, and explain why a smaller number would not allow you to meet your objectives.
- Add Personnel.** List names and each individual's qualifications.
- Other.** Provide details and justification on a separate sheet of paper.

Provide written explanations and justifications here or attach a separate sheet

No drone flights pending FAA approval!
