JANUARY

1976 1st day - 365 days follow

New Year's Day

Clear - sparkling!
 Cleaned up kitchen, then
 Bill D. and I took off for a
 coastal trail walk - around 10:15.
 Such a beautiful day! Frost clinging
 to roadside grasses and shrubs - not
 thawing at all in many places where
 shade prevailed all day. Ocean so blue!
 And calm. We took our time from the
 trail head near Regaa radar station -
 taking pictures, enjoying the solitude -
 until - voices! Halfway, we met Marna
 Guthrie, her son Robin and his two very
 young, lovely, children. Such a nice
 surprise. Lunch at Hidden Beach,
 where great piles of driftwood remained
 white with frost. Took several photos.

Met several other parties on return walk.
 Canada well represented by students
 heading north. Drove Coastal Road.
 Wonderful sunset - saw last of sun
 as it set shortly after 5 - near Stone
 Lagoon.

Dave, Doug & Bill had dinner
 with us, seeing end of ball game on TV.
 Bill & I watched TV play later.
 Dave was sullen all evening.

Worked around house until noon then took water, mail and groceries to Becky.

Tried to reach Dave, but no one at home.

Bill went to his office around 3. Had leisurely bath and shampoo after studying coastal issues for next week's regional meeting.

Went up road for dinner with Doug and Dave. They barbecued a chuck steak and we took along some zucchini. Home early - before 10.

Still rather cold. In bed to read by 11.

SATURDAY

JANUARY

1976 3rd day - 363 days follow

Up at 6:40. Showery throughout day and evening.

Read new fireplace until after Bill got up around 9:30.

Went to Aretia to do small shopping, got a blouse pattern, bought warm socks, stopped at Presb. church, etc.

Went to Guthrie in Mck. to leave S.C. ballots for counting - around 12:30. Ended up enjoying lunch with the family, including children we had met on coastas trail.

Home again around 2:45. Bill was just ready to leave on his errands. He said Dave and Doug had borrowed a car from friend in Trinidad - to go to Euseba to look again at Oatsun's and Tryotas.

We had cocktails around 7-8 with them (at their place) then all went to Mck. for late pizza dinner.

Stayed on there later (while) getting home by 11:20.

Still cloudy.

Up by 7. Showers.

1976 4th day - 362 days follow

Heavy downpour early morning, about 4. Wind driven rain pelted windows - awakening me -

Merma Guthrie reported election results for North Group Excom. Vineyard, Van de Blak, Ferris + Bonifazi were top 4 vote getters.

Worked on Needles material after walking to West Haven to mail things and get a few grocery items for lunch. Lovely afternoon - some clearing at times.

Doug and Bill and Dave arrived some time. Bill D. dropped by as we were getting ready to have dinner - and he stayed a brief time. Went for brisk walk to Luffenholts.

Up by 7:30. Variable cloudiness. 1976 6th day - 360 days follow

Dave arrived with my car shortly after 10. We did some errands in Arcata before going on into Eureka, where he planned to go to the Datum agency. We had lunch at Eureka Inn coffee shop, then took off separately. I shopped for slacks, shirts, Sox and shoes. ~~Picked~~ Dave got new Datum pickup delivered at 3.

Gave had dropped by briefly in late morning - on way to bookstore.

Coastal Com., Corps of Engineers and Humboldt Bay Harbor Com. were holding joint hearing on dredging proposal for 6 creeks, by City of Arcata.

Meanwhile, coastal plan was again heard by Arcata City Council. Bill D. attended that one - with statement.

I spoke for SC, requesting Corps to make full E1.5 on amended proposal, which had dropped 3 creeks.

Went to Dick + Carol Lawson's home later - (9-11) - along with Gary Monroe and Paul Kedy. Gary had given Fish + Game Dept. position at hearing.

Home by 11:30. Bill already in bed. Doug + Dave had been down for dinner.

Hard rain at times. 1976 8th day - 358 days follow
up by 7:30. Bill left about then for
8 o'clock class.

Coastal Com. regular meeting at
Eureka City Hall 9:30 - 5:30.

Spoke on several proposed
developments.

permit to build on Toulai Indian
burial site. SC will again
appeal. 8-4 vote. All commissioners
were present all day.

leaving Arcata. Picked up key for Community
Center from City Hall.

Bill found shirt and socks on sale and we
threw a wooden shade at Tree decorating shop
(20% discount) for one living room window.

Doug and Dave brought a chuck
steak down for dinner. I did the rest.

Watched TV "special" film - 2 hrs. -
Chief Joseph (Ney Rhee) "I Will Fight No
More Forever".

It turned clear and cold. We
went for brisk walk to Luffen-
holtz Beach area, leaving at 11:05.
Stars were brilliant.

Bill was behaving badly all evening,
since he apparently didn't enjoy TV
program - and had too much to drink.
I'm bed by midnight.

Ran into Tyler Childress in Arcata.
He's going to C.R.

JANUARY

Home again by 11.

1976 15th day - 351 days follow

Poor Bill! Alarm not set. 7:32 when I awakened. He leaped out and was on his way to school in less than 10 minutes. Patchy fog along coast - otherwise quite nice all day - sunshine here and there.

Picked up Dave at noon. We lunched together at Uniontown, then I dropped him at school. Did errands. Stopped at Env. Center, then bought some crab and got home by 4. Did some phoning.

Bill and Dave arrived just ahead of Hal and friend Tom. Bill then took Dave home.

Feasted on crab. Quiet evening of talk, catching up on several years events. They left at 10:45.

In misty (faded) moonlight, Bill and I walked briskly to Lupper-holly, returning by 11:45.

1976 16th day - 350 days follow

1976 17th day - 349 days follow

Lip 5:10 to ship out & pick up Bill D at 6 in Arcata. Very low fog all the way to Willits. Stopped for breakfast in Garberville, then a gas stop in Ukiah. Reached Olson place in West Dry Creek rural area at 11:30. Late because we got on wrong Dry Creek Rd. first. Now sunny and warm.

Dr. Olson led field trip onto bed of Dry Creek, all gravelled in from high water and gravel mining over last 20 years. Ate lunch out of doors after viewing slides of area upon return to house. Meeting progressed with lesser numbers. We presented Siskiyaw Mtns. proposal, Bill doing SMRC pitch for support. Olsons gave us all beautiful Golden Delicious apples. Celia + friend Linda arrived just as we planned on leaving. Arranged to meet in Cloverdale for dinner. Drove Highway 128 to Coast route 1, turned south to find Peg Frankel's place, where we were invited to spend night. Glorious clear moonlight all the way. Peg and husband John returned home as we prepared for bed. All had sleeping bags and Peg had listed the sites available to us - one in old avine tank, now guest room. In bed by 11:15.

beautiful. Peg fixed good scrambled eggs,
toast & sausages breakfast for all. Went
to Schroons Landing, Albion River, by 9:30.
Jack Swerley, Masonite Corp. forester, and daughter
Phyllis (about 16) arrived about 10 with 2 canoes.
Our ranks swelled with Albion residents joining,
including a sail boat (with motor). A total of 4
craft and 13 people. Gorgeous river. Banks
heavily forested - all second growth, but very
lush. Lots of bird life, particularly great blue
herons, winging their way through the tree tops and
making the ghastly (but wonderful) heron sounds.
Kingfishers, jays, sandpipers, coots, mergansers,
mallards, other small birds made bird-watching
fun. We went into the large lagoon - tide being
high - and found the whole area busy with
birdlife - it is a unique place and almost
series. Lunch around 2 after a walk on old
road to Deadmans Gulch, where yet other
river lovers lived, adjacent to Masonite lands.
Returned by 4, reluctant to leave. We drove
back by way of H. Page & Leggett road to 101.

Dinner in Forkerville. Home before 10. Saw
glorious moonrise over main Ed. farm
near Shively area.

1976 19th day - 347 days follow

Clear, warm and superbly
beautiful. Up at 8:30. Flung doors and windows
open to "catch" the sun. Dave and Doug here
briefly on way to Eureka, vet's, etc.

Worked on Entel appeal to State Coastal Com-
mission. Phone call from Eve Davis - re Behr's

Sat on deck in warm sun for lunch &
quick reading of mail.

Left for Eureka at 3:30. Went to Red
Lion Inn after Xeroxing appeals, leaving film,
mailing appeals, etc. Siskiyou Planning
Unit display in Evergreen Room. Very informal
session with Six Rivers & Klamath Forest
personnel. Bill came in around 6. Dave
showed up as they were ready to close
up at 8. Visited with each discipline, most
helpful.

Bill & I ate at Coffee shop. Dave
went on to meeting at Eureka Inn with
AB (deputy) Zan Henson & others who would
be making special field trip onto Anasta
Redwood Co. lands in Redwood Creek.

He stopped at house later to report
on same - and make plans for tomorrow.
Had to mend some pants for him to wear.

Awake birds. Coffee in bed 1976 20th day - 346 days follow

while watching moon set over ocean. Clear and beautiful again. Dave phoned to secure evening plans while he waited to be picked up for survey trip to Area lands in Redwood Creek. He would be photographing for A.B.'s office and prints to company.

Worked on Estel appeal. Cecinda Campbell phoned from Mendocino re Masonite appeal. Lovely day, but I had to get mailing ready. Raven + baby dropped by to borrow a shovel, later a rake.

Went to HSB library for Xeroxing; then to Env. Center to arrange mail, then home - Bill D. waiting. Doug waiting. Even Dave, waiting 15 min at 101 + Bald Hill Rd. Had cocktails and bakery goods to stave off hunger. Forest Service set up at Cultural Center in Crescent City.

Mexican food later - then home by 10:30. Clear + starry, then late moonrise.

1976 21st day - 345 days follow

Up 7:30. Pink sky - mostly clear. Dave dashing in for film + monopod to use on Simpson Timberlands field survey today. Lots of phone calls - early one from Water Quality regional office regarding Albion River, Masonite, etc. Managed to get to Arcata by 11, but had to leave Falcon for repairs (generator brushes shot) and headlamp adjustment.

H.E.L.P. meeting at Arcata City Hall - city and county planners discussing multi-home problems with interested homeowners. (Homeowners Economic and Legal Protection)

Lunch at Garcia's (Mexican) with 3 planners, Bill Golden (HELP) and John Amadio.

Back to Center to get rest of Estel appeal mailing ready.

Home by 4. Took things to Becky by 5. Picked up MT. Doug phoned, but his car not in good shape yet. Dave phoned from Eureka about 6:20 - would remain in town for dinner.

Called Emily Poeh (SWAP) in Santa Barbara re Estel appeal. She was still interested in parcel.

Peg Frankel phoned. She had been on Albion River again, found 8 heron nests and 10 "possible", and reported other birdlife and other actions concerning Masonite proposals.

Fog, high overcast.

1976 22nd day - 344 days follow

Bill gone by 7:30. No word, nor sign of Dave, so M.T. with me all day.

Did some laundry work, then went for walk, 2 miles Scenic Drive - around 1-2. Staffer Alan Audizone encountered us on return - we talked Coastal Commission permits he was working on. Jack Lehr had called earlier regarding Sierra Club appeal on Trinidad parcel and logging on Albion River.

Finished laundry work, made a few phone calls, then had bath + shampoo.

Dave got here for dinner, stayed until nearly 10. He had been on L-P lands - Bridge + Devil Creeks with A.C.'s group. Reported lovely day; but lots of hiking.

Prepared remainder of Eitel appeal mailings (total of 13).

1976

23rd day - 343 days follow

Overcast. Up by 7:45.

Kind of overcast
and cool.

1976

24th day - 342 days follow

Lunch at Garcia's with John Corbett, after taking Ecomews material to Mike Matthews.

Went shopping in Eureka.

Dave came down for dinner.

We planned early morning take off for western Trinity Mts.

Dave worked at bookstore from 11-4:30. I took him some coffee and looked at books awhile before doing errands.

I walked beyond Luffenholts Beach just at dark to meet him on his way down here for dinner. Took him home again around 9:30 or so.

1976

25th day - 341 days follow

Up by 6:10. Clear. Had early breakfast at The Eatery in Trinidad with Dave - banana waffles - Sunday special.

Drove to Hoopa, up Bill Hill Road, aiming for "close as possible" to Grogan Hole. Stopped by icy conditions about 4-5 miles short of intersection to Grogan Hole. Had to spend a lot of time getting Datsun back onto solid ground, where we just left it for the day. Luckily, we got a ride into the area as far as it could go in snow without chains, with Rocky Colwell (a ski-type) and friend in tough little International 4-wheel drive Scout. They were checking ^{proposed} ski development, also Grogan Hole. We hit for the ridge. Beautiful and clear. Snow light on top, only 6 in. to 2' deep - patchy in forest. Rocks showing in proposed ski area. Lunch at 1:15 - view of Shasta and all the snow-capped Alps, though not at all heavy. Down through Grogan Hole - sent to ^{where} Scout had been left - but they had gone by dark. We hiked rapidly - about 5 miles. Along came Rocky, backtracking for us. We were about 5 miles short of car still! Skinned in Willow Creek. Home by 9:30. Dave spent night on couch.

Up by 7:15. Cool 38°. 1976 26th day - 340 days follow

Dave stayed after breakfast to write a brief statement for me to take to Board of Supervisors hearing regarding land use changes in Indianola Road area, proposed by developer. He came down again to eat lunch with me and sign the statement, which I had typed up.

Left for Eureka 12:45. Public hearings began 1:30. Indianola Road issue began at 2, ended shortly after 5, with 10 min. recess at 3:30.

I presented Sierra Club statement, prepared by Susie + Bill - almost the last person to speak in opposition. A heated, controversial issue.

Dinner at Sabrina's pizza place in Eureka - Calif. Native Plant Society gathering. Dr. G. Ledyard Stebbins, the honored guest. He later gave talk at NR Bldg. on HSV campus.

We went by Dave's place around 10-10:30 to report on Stebbins event. Clear and cold again.

1976 27th day - 339 days follow

Up at 6:35. Pink, pink sky - lovely at Clam Beach. Left for 8 o'clock class, Natural Resources, at College of the Redwoods. Talked about Sierra Club until 9:30.

Saw Eve Davis, Bill's office, Eureka Inn. Home for lunch.

Did a lot of laundry - in between a lot of phone calls - including one from Secretary of Resources. Claire Sedrick's office - regarding interview on Thursday for possible State appointment.

Dave here for dinner - going home early 9:30.

up by S. Cool. Did some ¹⁹⁷⁶ 28th day - 338 days follow work around house, made a lot of phone calls. Took things to Becky around noon. Did more laundry, then got clean, ready to go into Env. Center at 5 to meet with Resource Secretary Claire Dedrick and staff. Picked up Dave 4:35 (he had been working at school most of day). With Claire were State Forester Larry Richey, Deputy George Grogan, her Assistant Phil Fradkin (who remembered me from Coastal Commission meetings when he was L. A. Times Environmental Writer) and Sheri Rogers, personal secretary. The session lasted until 6. We were invited to cocktail, but first ate dinner at the Red Pepper with Andy and Don Tuttle, Garce Stephens and Scott Kline. Somehow Bill Devall missed us, but showed up at Claire's room later. An "assortment" of guests, including fish and timber interests and us environmentalists.

Dinner for Claire, staff and some others at the Cabaret Supper Club - around 9:30. We nibbled crab and other goodies and Dave danced a bit. I was a jolly time. I had a chance to talk to Claire while seated next to her.

Dave and I left around midnight. Cool and foggy. He drove back. In bed rather late.

¹⁹⁷⁶ 29th day - 337 days follow

Up 7:40. Overcast most of day. Went to Eureka for Logging Conference at Redwood Acres. Claire Dedrick keynote speaker at 10:30. For first time in my many years of attendance I noted ^{several} many (dozen?) women in standing room only crowd. Most left after Claire's talk. Gave Eve Davis ride back to Eureka Inn. Had lunch there with her, joined by Cindy Walker, Rep. Don Clausen's local rep.

At 1:30 went to Regional Water Quality Control Board meeting. Small place (water Dist. office), packed into corners, many CCPR people present. Klamath Basin plan modifications up for public hearing. Could not stay long. Appointment with Claire Dedrick in her room at Red Lion Inn at 2:30. Informal discussion about possible state board appointments. Alexandra Fairless & Susie Van Kirk also being "interviewed." Home by 4:30.

Dave here for dinner. We all went for short walk along Scenic Drive later. Dave went home around 9:30 to prepare film for developing in morning. (He had worked at ^{school today} school today.)

Note: Claire D. received kindly by timber industry, loggers, etc. - no remarks from the crowd, only a few questions.

Much media coverage following her press conference.

I was still perturbed by her stance on Redwood Creek problems, i.e. forest practices are better. We say, no change!

Upky 8. Foggy. Took ^{a new} Coastal 1976 30th day - 336 days follow
 Book to Bus Devall at airport. Plane "holding" -
 due to foggy ground conditions. Bill D. going
 to L.A. for Coastal Task Force meeting.

Bill went into school around 11.
 Did some work around house,
 then took 2 mile walk along
 Seaside Drive. Very nice out -
 cool, but somewhat comfortable.

Dave, who had worked at school
 most of day, came in for dinner -
 then left early to do photo work.

1976 31st day - 335 days follow

Fog along the coast. A
 cool mid-40°s. Did some house cleaning.
 after lunch, some ironing.

Went to Arcata - shopping for plants -
 around 3:30-5. Bill had gone into
 school awhile. Dave at Galle's book-
 store 11-4:30.

We all had pizza together
 around 7:30 in M.H.

Dave went right home after

many, many phone calls, managed to
get his photos out of air freight in
mid-afternoon - once a plane could
get in under the fog cover. Photos
sent directly to Washington, D.C. to Park
Service. He came by before returning
Bill home around 5.

Bill D. got in from coast meeting in
L.A. (reported clear, 85° weather there).

Took NT for walk to Luffenhalts
after lunch. Very cold wind and
air was hazy, but walk was good.

Went to Arcata around 3:30. Bought
new walking/running shoes. Mailed long
letter to Jean, which I had typed with
back to sun inside sliding doors -- too
cool for further exposure.

Dave showed up about 6:30. Bill
was late due to a meeting. This was
his last full class day of the quarter
before finals.

Dave went home before 10 after
a long siege of coughing.

Awakened by alarm clock at 1976 72nd day - 294 days follow

5:00 A.M. so we could view the new comet visible in sky to east. Weather clear to see it. Fading by 6 when Dave arrived to view it. Really beautiful! Went back to bed, but not to sleep. Decided to get up. Dave had dozed on couch. We ate breakfast here and loaded for Medford. Cold and frosty all the way to Crescent City. Arrived in Medford 11:45 - on easy drive; little traffic. Lunch at Kims - a delightful, busy, Chinese restaurant. Warm. Dave decided to buy the camper we had looked at last month, but it was a slow process. Left at 4:15, arrived home 8 o'clock. Ron here with Bill. Discovered 3 "tie-downs" on campers had fallen by the wayside! I had heard metal clanging as we traveled the windy, lovely, Smith River canyon and down through the redwoods. Luckily, the camper did not go "flying" off!

Late dinner. Bill Devall + Mike(?) came by briefly around 10. We had missed Bill on TV at 7:30 - The video tape done Wed. with Jay about the coast.

Fixed bed on couch for Dave. Put pad in dining room for Ron - for the night. I went to bed earlier than others.

1976 73rd day - 293 days follow

Up by 8. Overcast, warm. Started some washing after breakfast. Dave's rough much subdued. He fooled around with the camper, Ron helping.

We all had lunch together (except Bill, who had a late breakfast) at The Eatery in Trinidad. I had already taken things to Becky. Larry Gray and friend sat with us awhile. Continued washing routine, also sawed up some wood and trimmed some branches over driveway (neighbor's acacia). Beautiful yellow-bellied sapsucker was in acacia. First sighting for several years. (72, April).

Bill and I went walking/jogging to Sufferbuckly around mid-afternoon. Worked outside until 5:30.

Dave showed up for cocktails and dinner. He cooked pump in camper.

I had to read around 11.

Got clean before going up to Beckup. Brought Dave back down for dinner at 7, then drove him home around 9.

1976 77th day - 289 days follow

Shushan Purim

St. Patrick's Day

Overcast. Some very light drizzle, otherwise fair. Celia and I headed for Eureka City Hall at 8:40. State Coastal Com. underway 9:35. Ertel, Klamath River logging, Masonite Corp on albin river + Nash (near Ertel, Trinidad Bay) appeals all heard today. Celia spoke on both logging proposals and I covered the Nash appeal. No action on Ertel until April 6 meeting after further acquisition "specifics" decided.

Had lunch at Old Town Bar & Grill with Celia, Bill Dand Com. Limon Fay, marine biologist, all other Commissioners + ^{several} Regional Commissioners also eating there following 1:30 adjournment.

Celia + I looked over Nash parcel and walked along beach and also scanned the Ertel parcel again. Back to airport by 4:45. Talk with Jack Davis, ex-RNP ^{supp.}

Lis + another sister-in-law from New Mexico were with Bill, enjoying ocean view. They left following sunset.

Bill + I went up to Dave's. Ron there. Dave + I got 125 prints ready to go on 9:49 Greyhound. Light dinner 10 PM in McK. Ron + Bill had late dinner at home. In bed by 11:20.

Up by 7:30. Left for Eureka 1976 78th day - 288 days follow
 8:45. Regional Com. meeting underway, City Hall,
 9:30. 11 Commissioners present - one new - one
 non-voting status. There were a few items
 to speak to as well as a few questions
 to raise on several permit applications.
 Nothing extremely controversial. No "noise"
 from CPR or Straight Arrow types. In fact,
 a sparse audience at most times.

Meeting adjourned around 3:30.

Home to do housework, cleanup, etc.
 around 4:15.

~~Around 6:30 we drove up to Dave's
 place for cocktails while he had photos
 drying.~~

Dinner at home. Bill Devall
 came by briefly. Ron here, also.

Dave and I got ready to leave
 for bay area. After much
 frustration over missing Smith
 River map, we finally left at
 10:50. Drove to highway rest
 area below Laytonville, stopping
 around 2 AM. Clear and very cold.

1976 79th day - 287 days follow

On the road by 7:30. Cool +
 frosty. Breakfast and gasoline stop in Ukiah.
 Reached toll plaza 11:15. San Francisco was
 "sparkling" clear. Left pickup in open
 parking lot at 4th + Howard - all day type
 place -- no restrictive height to concern us.
 (Downtown height limit mostly 6'8"). Camper 8'1".

Had lunch in Chinatown with Don Morrell
 after leaving Trinity Alps maps + materials in conference
 room of Sierra Club's new offices at 5830 Bush St.

Meeting scheduled 1:30. George Whitmore, Jim
 Moorman, Bob Rutenmuller, Pete Zars, Paul Swatek,
 Dave + myself and Don present. Moorman
 complimented Dave on past work on Alps issue.
 Pete got heated; Jim cooled him down. At
 5:30 we were ready for relaxing. Had a few
 drinks and nibbles with Don before heading north
 at 6:30. Drove to George (Van de Mark) and
 Diane's in Novato Hills. Had lovely dinner
 and talked until 11:30. Left Drove to wide
 place in road near Squaw Rock Slide, Russian
 River, to get some sleep. Dave discovered his
 camera equipment, all of it, was missing!
 It had been stolen while car in parking lot!
 We were sick! It was unbelievable. There
 was no sign, only hints, of any camper disturbance.

Awake by 7. Breakfast in 1976 80th day - 286 days follow Ukiah. ExCom meeting, Redwood Chapter, S.C. public library, 9:30 - 2:00. Lunch before leaving town. ~~Make early~~

[Discovered loss (theft) of my little Rollei, taken from overnight travel case! We were again dumbfounded at the discovery of loss -- no way to begin a beautiful spring day.]

The meeting went smoothly. I took notes in absence of regular recording secretary. We phoned Bill from Laytonville around 4. Stopped in Redwood Grove near Westt to relax a moment with a refreshing drink, then on to Eureka. Picked up Chinese food to take home. Ron at house with Bill.

We ate around 9, talking about our meetings and the thievery.

Ready for bed fairly early. Dave stayed on couch; Ron took MT and returned to Dave's place for the night.

Breakfast before 8. Clear Third Sunday of Lent at start of day, but fog moved in. Dave went home before 10:30. At 11:15 we picked him up and headed for So. Fork Smith River. Dave rode in camper from Klamath River to the Pangle-Hatcher ranch 8 miles from 199 turn off. Gorgeous and clear in canyon. Found Greg Kaoll there along with Jerry and Michele.

Greg + I went in his car to Upper Smith River trail head, followed by Bill, Dave + MT. It was lovely. The color of the river was unbelievable. We had the area to ourselves. Flowers were appearing - a small trillium, new to us; gooseberry, manzanita, yellow violets; red currant, etc.

We walked about $1\frac{1}{2}$ - 2 miles to Buck Creek. I went beyond that another $\frac{1}{2}$ mile. We returned by 7 where Michele had prepared a very delicious dinner. We had to get away by 8:30. Ran into some fog. Dave + MT rode in camper all the way home.

PC glad to have us home - a cold dark house didn't suit her!

Awake to rain! Spent 1976 82nd day - 284 days follow
much of day making conservation related
phone calls, Coast and Will rivers
and scenic routes, locally and to
elk and sheep. Jan Hansen phoned for Dave.

Sun came out at times
and afternoon was nice, but no
time to get outside.

Bill, Dave & I went for
quick walk after 6, returning
for CBS-TV newscast.

Dave stayed all evening, dis-
cussing cameras, replacement for

Arcata for a pizza - sometime
after 9. Dave was loud and
silly. We came home when the
place closed at 10. Had coffee,
beer, etc. then the gang left -
all staying with Dave.

Up by 7:15. Phone call 1976 84th day - 282 days follow

 up at 10:30 to go to Forest Service offices, then

 garding timber sales in Smith River canyon.
 Stopped briefly in Coastal Com. office.

Lunch at Ramada Inn with Dr. Larry
 Seffner, after being dropped off by Greg + Dave,
 who would return to Caltrans after lunch.

Larry + I went to the property site west of
 Arcata Airport that he was trying with purchasing.
 He was looking for Sierra Club concerns if he
 were to provide RV overnight facilities. We
 walked through horse pasture to edge of gently
 sloping area above long stretch of beach.

It was beautiful with heavy puff below
 us and bunchy clouds moving as storm
 cleared. Home by 4.

Dave, Bill and I reheated pizzas
 from last night.

1976 85th day - 281 days follow

Up around 7. Gave
 Dave ride home soon after breakfast.

Arrived Sacramento 7:30. 1976 86th day - 280 days follow

Clear and cool. Breakfast in cafe near parking lot only about one block from Capitol.

Got into Senate hearing room by 9:20, after leisurely meal, a look around Capitol and time in the Bill Rm.

Senators Nixedy (Chairman) Bepko and Rodde only ones on hand, but they remained throughout 5 hrs. of testimony with only 45 min. lunch break. We took cafeteria style lunch on 6th floor (Rm. 4703, hearing). Alex. Fairless joined us. Large contingent of Sierra Club members there, both Bay Chapter & Redwood. Saw lots of friends - Leta, Gary Pichon, Gil McLean, Mike Co. etc. etc. Hearing continued to April 6; time did not allow many speakers because several were very lengthy in their presentations and the Senators asked many questions, looking for specifics on the legislation.

Cocktails at the Senator Hotel with large group of friends, then left Andy to ride to Berkeley with Joe Petrucci. We left town 5:30. I drove to Williams, a gas and coffee stop. John & Holly shared driving. Clear and dry all the way, until rain hit at Trinidad! In bed 1:45. Kept Bill's car here overnight.

Woke morning. Walked up Scenic Drive 9:15 - to Carol + Rich Harris' place on Baker's Ranch. We discussed future of 40 acres - land division, Coast Commission, etc., then Rich + I explored the lovely (second) redwood portion - a mini-wilderness ^{growth} left between Scenic Drive and the 101 freeway.

Trilliums, yellow violets, wild ginger, cleome, mosses, ferns and lichens, some fungi, all lush. Good spring. Small very old former cattle drinking pond still on property. Really beautiful. Walked back down with Carol and her sister Chris to trailhead at Baker's Beach. Dave came along, so I hitch-hiked ride home, at 1.

crowding on coast, etc. A dinner break came

Mother's Day

Third Sunday after Easter

Had marvelous, undisturbed sleep. After breakfast and looking around a bit, Dave and I left ~~the~~ with Bill and ^{led} looking out to a cross road that would put us on the G-O road fairly close to the Flint-Dillon section where construction was scheduled to resume tomorrow. Huge road building machinery was being hauled in -- D9 cat, earth mover, D7, etc. etc.

We could drive until snow blocked road, where grader had already cleared and stopped, well below Dillon Camp junction. We walked up there and walked along right-of-way (toward Rocky Butte), found it very steep and weather was hot! We took a few photos, and because my tendonitis was bothersome I didn't want to do any more hiking.

We explored Dams Creek (all logged, no trail), Mosquito Lake, took photos, then returned to Twin Lakes, hoping to intercept Bill, but he had left. Ate lunch, then drove back by way of Bluff Creek Rd. Deep, wild canyon, fast moving stream -- watched hawk circling, took photos.

Dave busy turning out photos for Legal Defense — could not get to a press conference.

Went to dedication of new Forest Research Lab. on campus at 2 P.M. Left car in Bill D.'s driveway and walked up hill.

Forest Service Chief John McConie, Cong. Don Clausen, State Forester Larry Richey and others of from HSU on hand. Sierra Club was "recognized" as invited guest in large crowd. Clausen + field rep. gave me ride back to car, as I was still limping badly.

Prepared to leave for Norden. Got away around 10:20 p.m. Dave drove as long as he could. I was too sleepy to drive at any time.

143rd day — 223 days follow

Up at daylight — 5:30. Clear and bright very early at Junction City, #5 campground. Drove through Redding to I 5. Breakfast around Orland — On to Yuba City via 99, then 20 to Norden. Arrived Clear Tappaan Lodge shortly after 12. So lovely in the high (6700+) country. Lunch was put out around 1. Dave + I switched off attending different group sessions.

Tim McKay and Chris, Greg Blomstrom, Steve Adams and Bill Devall all on tap to push for Siskiyou Mtns. Resource Council. Don Morril, Doug Scott and Jim Eaton running the meetings and discussions. About 50 in attendance.

Scouted out a sleeping place after dinner, at edge of PGE lake.

Attended slide show from 8-9:30. Had cocktails at Soda Springs before dinner, and at 1.25 each we didn't have more than 2!

Bill D. Dave + I put sleeping bags down near edge of trees at PGE lake.

up very early. Our bags (and some of my clothes) were white with frost. Washed faces in nearby stream. Drove to sunny spot on highway to shape things over rocks to dry before stowing away in car.

Breakfast at Clair Tappaan Lodge at 8, then right into the morning sessions. Again, the group split up to hear either Jim Eaton or Doug Scott - and it was nice enough to sit out doors for both sessions. We had a "round up"

before lunch, which was at 12:30 and then we prepared to leave.

Dave and I chose to return by way of Truckee and Lassen Park. It was lovely driving up the canyon. We made a short stop along the way to relax a bit - and then had a milkshake in Quincy. Road open through Lassen.

Took several photos - though it was getting late - about 7-8, and sun was gone. Saw 3 deer near Margarita Lake. No facilities open yet.

Went on to Redding, got some liquid refreshments, then had dinner in Weaverville.

Home by around 10 o'clock.

Stopped at Env. Center. Saw Dave there; ~~but~~ we did errands separately.

Successful coastal rally reported in Sacramento yesterday.

Woke up to light drizzle. 1976 148th day - 218 days follow

Ascension Day

Clouds cleared mostly during day, but lingered over mountains and out at sea.

Took things to Becky after phoning Animal Clinic about proto-cat. P.C. had developed a fever, but antibiotics decreased fever and she nibbled a bit during night. Stopped very briefly at Dave's to report. (He had gone in earlier to see her, when in Arcata on early errands).

Did several loads of washing. At 7:45 I left to get Dave and his recyclables to leave at the Recycling Center. We stopped at Env. Center to leave some photos of the Siskiyous.

Home again by 5. Dave came down with me - and RT.

Took walk to Suspendakky after dinner. Lovely evening.

Took Dave home around 9:45.

1976 149th day - 217 days follow

Up by 6:30. Beautiful morning - and only 40° at 7:30. Walked about 2 miles up Scenic Drive. Just gorgeous! Lupines, broom, mustard, all in glorious array - everywhere - and the ceanothus, in its most beautiful prime. Swallows darting, quail calling, Goldfinches gliding, wren-tits feeding - it was almost too much.

Dave came in around 10. Phoned Vet. about P.C. We could get her home right away! Dave drove me down to retrieve her. She was quiet, but definitely better - and would have another shot of antibiotics at 10 A.M. tomorrow. Went to Eureka mid-afternoon for fire permit.

Too much going on for Dave and me to get packs ready and leave after dinner, so, rather, we planned to leave in very early morning. I helped Dave get organized at his place, then he stayed outside on our deck.

I had to hem up new jeans, just purchased, before going to bed - around midnight.

Bier Devall had left for Tongue River much earlier in day.

SC outing - Tangle Blue Lake

1976 150th day - 216 days follow

Up before 5. Left at 5:35.

Clear and beautiful. The ocean was especially blue. Roadsides to Willow Creek glorious with purple lupine and poppies. Had good breakfast in Willow Creek. Cool there.

Stopped at Bonanza King Resort around 9 to talk to the Collins. Dave left chain saw there.

Arrived old Tangle Blue Rd. off Hwy. 3 at 10.

Biel D. and Biel Housa already there. No one else showed up so we began hiking to the lake at 10:30. We checked all SP marked trees along old road; enjoyed the beauty of the rushing stream, the weather, etc.; took photos. Did a tricky, almost scary rock hopping, fast water, crossing.

Also walked above stream on a log crossing. Arrived at Tangle Blue Lake around 3:30. One other party camped across creek near outlet.

We made camp immediately and put up large tarp. Biel Housa cooked us some fresh, firm puff balls from along trail. Two fishermen had left already. They had used motor bikes to wilderness boundary.

In sleeping bag by 9 p.m. Hwy leg was O.K. but I was slow all day.

MAY

1976 151st day - 215 days follow

Up by 7:30. Cloudy.

Around 9:30 we all headed up slope. Dave + I stayed with the 2 Bills until they were at a point of heading right on down Horse Creek to pick up the road again and get back at a reasonable hour. Both had Monday classes. Very cloudy. Not the greatest photo weather. In fact, it looked like rain by 11:30 when we sat on windy ridge top above lake for a snack.

We explored the area and finally found the Horse Creek trail. Both tired, we tried to find a sheltered spot for a nap, but the wind kept up and fog increased. We decided to streak down through snow patches as quickly as possible to check camp condition and try to beat the rain.

By 4 p.m. a steady drizzle began. We had some "Mountain Manhattans", tried to keep dry under tarp, and actually napped. Heavy rain by dark. Had lots of firewood, but too wet to stand by. Light dinner of Leek Soup, then chocolate.

People from Chico (a family) all pulled out about dark--apparently not prepared for adverse weather. All others left, too. We had Tangle Blue Lake all to ourselves!

Rode to dinner in 1953 Packard with Wally

Memorial Day (In District of Columbia and most States)

Breakfast over, we packed up before a little sleet began. Took some photos of storm cloud bound lake, and hit the trail by 9:30.

Made the log crossing by sitting down and inching across -- it was too wet! Stopped for lunch along the creek at an old campsite - and also cleaned up a bit. Weather was perfect for hiking. Arrived at car by 2. A Forest Service man came by. We talked briefly about the road, cars, numbers of people in over weekend.

Aimed at another hike up Eagle Creek, but ruptured gas tank brought us racing madly down the mountain about 5 miles with gas pouring out, past Horse Flat, down hwy. 3 to the Collins'. They arranged for Datsun to be repaired in Trinity Center. Dave & I came back in Ken's car, which had been left at the airport.

Went to fun dinner at Les & Bunny's bar/restaurant a few miles north. Stayed overnight at Bonanza King Resort.

Center at 11. We went to Cedwood Park in Arcata for a talk about the Seine Club - for a paper he was working on for Social Studies.

Back home for lunch at 1:30 and a wonderful, very warm sun deck, sun bath for about an hour.

Then to work. Tried to put pad and rug down in master bedroom after much cleaning and furniture moving, but got so tired by 5 that I stopped.

Dave here to watch TV basketball - Got him and Bill to move heavy things during half time. Game went on seemingly forever - 3 overtime plays between Phoenix Suns + Boston Celtics.

Bill + Dave went out to eat about 10, but came back. Then I had chocolate and fast and went to bed at 11. Bill took

Dave home, pretty drunk and very unreasonable.

up to glorious sunshine by 8:30 Sunday. Gordon fixed excellent buttermilk buttrakes. He and Chris packed car for trip north. Left about 10:30. Attended Unitarian fellowship 11-12 at delightful building on wooded hilltop, east San Rafael. Sad to see the hillsides dry and wanting for water. Many lawns simply drying up. Strict measures for conserving all water being adhered to by worried residents. From the air low level in reservoir all too noticeable. Fire already at danger level.

Snacks at stop above Russian River beyond Cloverdale - warm - about 95°. Cooler 77° as we drove through Ukiah. Brief stops at Hagoods in Kes Dell and the Chaffers in Eureka. Beautiful and clear all the way home. Bill Devall came by.

Dave + Pug joined us for dinner - a bit late - around 9, but no one in any great rush. We had a good time right up to near-end of evening, and then a "shout-out" occurred between Dave + Gordon. We folded up shortly. Chris + Gordon had sleeping bags on living couch and floor.

Another gorgeous, very warm ¹⁹⁷⁶ 166th day — 200 days follow

Greg phoned to see about ride home - called Bill, made arrangements - they arrived by 5:30. Perry Kuger and John Biel here long time.

Went to late dinner at Shanghai Low in Eureka, but Dave in foul mood and left the table. It was an horrendous evening because Dave got belligerent, noisy, etc. at house in front of guests. Poor Greg!

from the violence in the movie.

Home by 11, after hearing a couple of records and having coffee.

Light rain began during night. Dave & I stayed dry, as did others.

Came through much cutover land, but had to note the great masses of oaks and rhododendrons that seemed to take over.

Some bad, bay logging had gone on in this area. Jerry led the way, since he knew every road and what to look for on slopes failures, poor engineering, etc.

The discussion went well.

Lunch nearby, but little time for going too far - though Bill walked back on cone road for photos.

We decided Fox Creek ridge was not possible. Too much ice on road for safety. Decided to hike up Dan Rice Creek to Masterson Meadows. Old jeep trail very steep in places.

Meadows were lovely. Took some photos - big cedars; snow covered portions up sloping meadows. Went up to crest. Great views. Took many photos, then descended through snow covered rock flows, some maddening manganese patches and then easy forest slopes, back to trail. Reach car just at 5:25, barely able to see rocks under foot. Fixed ourselves a highball for the road.

Back at Collins for dinner with sad news of burned out home of Ken's family up the road. His sister & husband, and sister's daughter all taking refuge ~~with~~ at Bonanza King.

(Ken & Julianne had returned late last night - after dinner.)

1976 349th day - 17 days follow

~~The~~ Cloudy - frosty. About ~~24°~~ 31°. Didn't get going until nearly noon, but it turned out that Ken could go - in fact, volunteered his car so we could negotiate the road into Fox Creek Ridge area, which we had to forego yesterday.

The clouds gave way to ^{very} nearly clear skies. We hit the Fox Lake trail about 1 p.m. after a grocery shopping stop in Callahan. It was lovely. Powder snow a few inches deep all along the "big timber" ridge. Bear tracks easy to see in snow - also deer tracks, snow shoe hares, other small critters. Heard nut hatches, jays, wood peckers, chickadees and perhaps a King let.

Dropped down from ridge through lovely forest after reaching the wilderness boundary, and hit Fox Creek as old road ran onto main road. Logging had taken place at lower elevations. Lunch back at car. Rest of day mostly road looking, stopping, taking photos. Returned to Bonanza King around 5:30.

Ken's family in for dinner. Burned out, they were staying in B.K. cabin. We looked at "remains" after breakfast, a detour as Ken took Julianne to school at 9 a.m.
