What does academic advising look like at Humboldt State?

In the coming weeks, you will be invited to participate in a survey, interview and/or focus group as part of our efforts to understand how academic advising is done on our campus.

This research is being conducted by graduate students in the Sociology MA program, led by Dr. Meredith Williams. We are hoping to learn from the knowledge and experiences of faculty and professional advisors working directly with our students.

We will use this research to provide recommendations for how the campus can support students and faculty and professional advisors. Your perspectives and experiences with academic advising are invaluable to this process. **Thank you in advance for your thoughts and contributions!**
