

THE CSU JOURNAL OF SUSTAINABILITY & CLIMATE CHANGE

The Chancellor's Office of Sustainability and Department of Research have collaborated with The Press at Cal Poly Humboldt to create the **CSU Journal of Sustainability and Climate Change**. The California State University Journal of Sustainability and Climate Change is an open access peer-reviewed journal published through digital commons. The journal's mission is to showcase a wide-range of voices across the CSU system who are dedicated in increasing sustainability and mitigating the climate change crisis.

The journal includes a diverse set of articles which cover a wide range of disciplines such as STEM fields (science, technology, engineering, and math) as well as Arts, Humanities, Business, Social Sciences, Social Justice, and Public Policy perspectives. Contributing authors and reviewers are students, faculty, and staff from across the higher education community. Editorial Board, and Editors are CSU-affiliated.
